### Agenda:

- Overall Project Update
- Engagement
  - What we've done so far: Stakeholder, Public, Indigenous, and Internal Engagement
  - What we're planning
- Policy Preview
  - Will the legislation supersede other legislation/policy?
  - Discretion - enabling government decision-making powers
  - How will it be funded?
- Implementation
  - How do we set up government to deliver on this legislation and program effectively?
  - What "wins" for species at risk can we (all NRS) show in the time between legislation passing and full implementation?

Kind regards,

**Conference call details**

Government Financial Information, Security Concern

### Background:

Paper Excellence's July 18 letter sent to MDD indicated fibre supply uncertainty for the operation of the Mackenzie Pulp Mill has reached a critical impasse, and Paper Excellence is urging the Minister to take a strong leadership role in guiding this matter to a successful outcome.

Staff (Greg Rawling, Omineca Regional Exec Director) recommended MDD take this meeting as it would provide an opportunity to discuss ways to resolve PE's fibre supply issue.

Some background to the letter & fibre supply uncertainty:

- In 2010, McLeod Lake Indian Band (MLIB) entered into a 20 year Economic Development Agreement (EDA) with the province. MLIB, through Mackenzie Fibre Management Corporation, was subsequently issued a Forestry Licence to Cut (FLtC) (800,000 m3/year).
- The EDA allows the province to consider similar licence opportunities subject to the Mackenzie Pulp Mill (MPM) remaining open.
- In June 2017 the MLIB elected a new Chief (Harley Chingee). Chief Harley Chingee has stated they would not continue with the existing EDA beyond the term of the current FLtC. MLIB stated that they are looking to hold the tenure with no profile

restrictions and support the operation of the pulp mill through a right of first refusal to open market value chips.

- PE has stated that to continue to operate the pulp mill, they require a licence to be held by them or their subsidiary (Mackenzie Fibre Management Corporation – MacFibre). Any new licence should include a social component requiring that the logs be kept in the Mackenzie District.
- PE will be raising awareness of the situation and potential impacts to local Mayor and Council and MLA's. A shut down of MPM could destabilize the forest sector in Mackenzie.
