Why : - B.C. Old Growth Forests and Ecosystems are disappearing at an unprecedented rate!  
THE DESTRUCTION MUST STOP !!!

The B.C. Gov't continues to permit the absolute removal of old growth forest, which is resulting in the sterilization and destruction of ecosystems, they are the building blocks for the existence of the flora and fauna that make up our environment.

Our purpose is to voice our discontent through non-violent civil-disobedience and to reject the BC Gov't permitting removal of all old growth forests.

Our MLAs, Doug Routley and Sheila Malcolmson were recently tagged, "Lonely Doug" & "Silent Sheila" respectively, they'll have the opportunity to "whip" themselves into their "Party Line" or represent the outcries of we the constituents.

Extinction Rebellion Nanaimo has decided to visit our local MLAs on irregular intervals to remind them to speak on the dismal conditions of our forests, mining, environment, agriculture, energy, water ways, etc.

The BC NDP Gov't is now in their 4th year of "Dilly-Dallying" on all levels of Resource Extraction overall. Gov't. Ministries such as HealthCare, Education, Child-Care etc. are being addressed rather well.

But, the fall-down, flat-out failures of the BC Gov't. are tied to Employment, Resource Extraction and our Natural Environment.

With almost 4 more years of potentially repeating the regressive actions of this, and previous Gov'ts, our future of a safe and healthy planet will be in serious jeopardy

WE need to change ... our economic dynamic toward a regenerative ecology, it is our choice.
