- Unprecedented investment in our transportation infrastructure is giving B.C. and Canadian businesses the means to supply new markets all around the world and maintain and create jobs in B.C.

- We are bringing new dollars into the province through increased investment and more exports to trading partners in Asia and beyond – in turn, we're creating more long-term jobs for hard-working British Columbians.
- We will continue to invest record amounts of money in transportation infrastructure in year two of B.C. on the Move, our 10-year transportation plan, contributing to a robust economy, a secure tomorrow and a lasting legacy for future generations of British Columbians.

Background of host organization:

The Vancouver Board of Trade:

The Greater Vancouver Board of Trade – Western Canada's most active and influential business association – accelerates business success by advocating and influencing public policy, developing business leaders, connecting businesses and presenting thought leaders.

For over 129 years, the Vancouver Board of Trade has been engaging with decision makers to develop Vancouver as a vibrant hub for commerce, trade, travel and free enterprise.

The Vancouver Board of Trade works closely with three levels of government, businesses from all sectors and of all sizes, and has solid connections with thought leaders and movers-and-shakers.

Their efforts and influence have resulted in major and lasting benefits to businesses, residents and visitors alike. Some notable successes include:

- The Canada Line to YVR
- The Nexus pass that expedites passage between U.S. and Canadian borders
- Bringing many elite speakers to Vancouver, such as Bill Clinton (more than once), Hilary Rodham Clinton, Justin Trudeau, Richard Branson, and many more who have addressed the business community with their thought leadership and knowledge.

April 29, 2016 - Transportation Summit - Moving Vancouver Forward:

As Canada's Pacific Gateway, Greater Vancouver's transit and transportation networks are key to keeping our regional, provincial and national economy moving. Our air, marine, rail, road, and transit networks all contribute in a concerted manner to ensuring that people get to their destinations and that goods get to market.

Both our region and our economy are growing. In order to sustain and build on this growth, we need to invest in our transit & transportation networks to increase its effectiveness and efficiency.

The new federal government has recognized this by committing \$125 billion in infrastructure funding over the next 10 years. It is now up to the region to set strategic priorities for transit & transportation infrastructure funding.

This summit will provide an opportunity for the business community to prioritise the investments that will guide our economic growth for the next twenty-five years and beyond. Together, we can connect British Columbia's people, goods and resources with
