Rules of Thoroughbred & Standardbred Horse Racing in British Columbia

Total Carbon Dioxide Testing Program (if approved for use)

50. Excess levels defined

An excess level of total carbon dioxide (TCO₂) in a race horse is deemed adverse to the best interests of Standardbred and Thoroughbred racing, and adverse to the best interests of the horse, in that such a condition alters its normal physiological state. Accordingly, a person designated by an approved (TCO₂) laboratory may obtain venous blood samples from a horse for the purpose of the testing of said samples by that laboratory for (TCO₂) levels. Where the (TCO₂) level, based upon such testing, equals or exceeds the following levels:

- (a) 37 or more millimoles per litre of blood for horses not competing on furosemide; or
 - (b) 39 or more millimoles per litre for those horses competing on furosemide;

Penalty Guidelines for Standardbred Horse Racing Licensee Violations

This document outlines recommended penalties for standardbred horse racing licensee violations. These guidelines were developed by the Gaming Policy and Enforcement Branch's (GPEB) Executive Director of Racing in consultation with the Assistant Deputy Minister responsible for GPEB and Racing Division Judges. Additionally, representatives from Harness BC and the Great Canadian Gaming Corporation were consulted.

These guidelines further enhance the integrity of B.C.'s horse racing industry and also reflect the changing times; larger prize purses have lead to a more competitive racing atmosphere, which demands an appropriate penalty structure for violations.

It should be noted that these guidelines provide recommended penalties only. Each violation has its own set of circumstances, which may lead to different penalties than those shown below. **When considering penalties, the Racing Division Judges will take into account the violation history of the licensee.**

Positive Tests / Drug Violations

Description	Recommended Penalty
* TCO ₂ overages	30 day full suspension
Medications used for therapeutic purposes that are listed in the Canadian Pari-Mutuel Agency (CPMA) Schedule of Drugs which are defined as Association of Racing Commissioners International (ARCI) Class 5; non-classified drugs such as Phenylbutazone or Penicillin G Procaine that could have been mistakenly given to a horse	15 day full suspension or \$2,500 fine
Medications listed in the CPMA Schedule of Drugs, which are ARCI Class 2-4	30 – 120 day full suspension (depends on the ARCI classification of the drug)
Medications not listed for veterinarian use which includes ARCI Class 1 drugs	120 day – 1 year full suspension (depends on the drug)
Erythropoietin or Darbepoetin positive	7 year full suspension
Possession of needles/syringes on the grounds	10 day full suspension or \$1,500 fine
* Using a tubing device on the grounds for the purpose of "milkshaking"	60 day full suspension
Steroid positive	15 day full suspension Horse remains on Judges' list until a negative test is submitted (costs to be paid by owner). If it is a claimed horse, it will be returned to the original owner.
