BC, NEA Sign MOU on Natural Gas Cooperation	National Energy Administration	British Columbia has the potential to be global leaders in providing liquefied natural gas to the global market. While China is the world's top energy consumer especially in the area of LNG demand. Many Chinese investment interests in BC's LNG have been identified. To accomplish this synergy there is a strong need to continue building and strengthening partnerships with governments, industry, pipeline proponents, First Nations and other stakeholders. In recent BC LNG Technical delegation meeting with NEA, two parties has agreed to move this forward and work out a joint working group by 2014. The MOU will emphasize the development of a liquefied national gas (LNG) industry in British Columbia and provide for an increase in the exchange of energy-related information; expedited networking opportunities for business leaders, researchers and government agencies; and encouraging industry to explore investment and mutually beneficial development.	\$ -	0

TiE Investors' Forum 2014	Trade Show	As the first chapter of TiE in China, TiE Hong Kong is a non-profit dedicated to growing the entrepreneurial ecosystem in southern China through our mentorship and educational programmes. In line with this mission, we are hosting our second early-stage Investors' Forum at which successful local entrepreneurs and early stage investors will share their experiences and expertise with an exclusive group of market participants. Building on the success of last year's event in which we successfully raised awareness of early stage investment in Hong Kong, and in support of the StartMeUp week in November, the Investors' Forum will take place on November 14, 2014. This will be a great opportunity to learn from the best, network with other members of the community, and improve the chances of early stage investment success.	2014-11-14	2014-11-14
