OCCURRENCE INFORMATION

Incident Date Time: 10/15/2010 09:35 AM

Species Involved: GRIZZLY BEAR

Attractants Noted: LIVESTOCK

Nature of Complaint: LIVESTOCK HARASSED

Action Taken: FAXED TO C.O.

Details:

Grizzly sow and three cubs in pasture with numerous horses. Assume if she is inside the pasture she will get out. Thinks she is looking for an exit. Then noted several sections of fencing knocked down presumably by recent flooding. The horses were noticeably agitated earlier but have calmed down.

ECC advised the bears would have no difficulty getting out of pasture if they so desired, etc

COS can contact s.22 t second number. Caller will be on first number s.22

OCCURRENC

Incident Date Time:

10/20/2010 08:41 AM

Species Involved:

BLACK BEAR

Attractants Noted:

GARBAGE

Nature of Complaint:

HABITUATED

Action Taken:

REFERRED TO C.O.

Details:

Capital project team is having problems with a local bear - poor starving wildlife - in wooden garbage containers breached - comes during the night - concerned for workers living in the area who are inspecting flood damage. Teams were told not to go into the area alone because of the bear/wildlife situation. Bear was most recently sighted at 0600 between two house on river rd.

Caller has been requested to call COS in reference to flood situation and safety of workers responding in the area.

ACTIONS TAKEN BY CO SECTION

Date:	2011-08-09
Time:	1014
Narrative:	<p>2011-08-09 10:14</p> <p>CO KRAVONTKA contacted Bella Coola RCMP (Corp. Bill WALLACE), who advised that a bear has been hanging around a property, but has only been accessing natural food sources., the problem is that the neighbouring property owners all have dogs and when the bear wanders through the bear is freighted back into the original C/n's property, who does not own any dogs. WALLACE requested that a trap be set as they have received several complaints from the property owner. After speaking with CO KRAVONTKA, WALLACE will set a trap on the property, and will contact CO KRAVONTKA if he catches the bear in question. The bear has not been aggressive or accessed any attractants at this time, and therefore if caught, WALLACE has agreed to transport it to a remote location. CO KRAVONTKA requested that WALLACE keep him updated.</p> <p>=====</p> <p>2011-08-15 12:32</p> <p>CO KRAVONTKA contacted the C/n, but the person who answered the phone advised that she is gone. Person answering the phone advised that the bear has not been back for a few days.</p> <p>CO KRAVONTKA contacted Bella Coola detachment to speak with Corp WALLACE, but he was not in. Admin clerk indicated that they did not trap the bear and believes that the trap has been removed. CO KRAVONTKA asked if she could confirm that the trap has been removed and contact him.</p> <p>2011-08-16 09:09</p> <p>CO KRAVONTKA spoke to Admin clerk at Bella Coola detachment. The rap has bene removed and will be taken back to COS compound area. No further action required at this time. Concluded.</p> <p>2011-08-18 13:01</p> <p>File reveiw by A.Sgt. ACTIONS TAKEN BY CO SECTION

Date: 2011-08-22

Time: 1005

Narrative:

2011-08-22, 10:05 - CO Owens speaks to C/N, C/N advises he suspects grizzly bear killed calf this morning. CO Owens and Kravontka 10-17 to occurrence area. CO Owens speaks with Pat Dielman, Wildlife Branch related to occurrence. Dielman advises to put down grizzly bear taking calf in MU 5-12 as there are no conservation concerns. If the bear is a sow with new born cubs, cubs may be rehab candidates. Wildlife will be kept informed of occurrence progression.

CO Owens advises A/Sgt Ashworth of CO's attendance to complaint. CO Owens will keep CO Ashworth advised of occurrence progression.

2:20 - CO Owens calls Barb/COS to ask her to advise C/N that CO's arrival time to residence will now be between 5:00 and 5:30. Barb Calls C/N's number and recorded message says to leave a message at 250-742-3276. Barb Calls message line and speaks to a woman who will relay message to C/N.

4:00 - Barb also makes contact with C/N at his residence, he had already been advised via message line of CO's arrival time. Enforcement Clerk's time 15 mins.

14:30 CO Owens & Kravontka 10-17 c/n site.

30 CO Owens & Kravontka arrive at occurrence site, meet C/N s.22
s.22 advises 500 lb heifer calf s.21)
ries to calf appear to be f jury to front left leg. Massive infection
shoulder blade area. Right flank area injured. Calf's mother not observed in area. C/N attends calf
location this am d observes grizzly bear tracks and drag marks where calf was. Photos obtained of
calf's injuries by s.22 and viewed by CO's.

19:30 hrs - CO's search and locate a dead calf, 125 yards north of road top rear hind quarter being fed on by grizzly bear. Bear snare cubby set in area with calf as bait.

21:30 - 10-17 Nimpo Lake.

22:00 - 10-7 Nimpo Lake.

2011-08-23, 06:15 hrs - Officers 10-8, 10-17 occurrence location. Grizzly bear trips snare, pulls calf out of cubby. Cubby rebuilt, two snares set with two entrances. Two trail set snares set in proximity to cubby. Motion detecting camera set up site. C/N puts down another injured calf (non predator related). Calf tied in cubby used as bait.

14:00 hrs - CO's show CO Milne snare site location.

15:00 hrs - CO's 10-17 Williams Lake

19:00 hrs - 10-7 Williams Lake

2011-08-24, 07:30 hrs - C/N contacts CO Owens advised grizzly bear tripped snare at rear of cubby, calf fed on.

08:15 hrs - CO Owens advises Sgt. Butler of occurrence.

08:45 hrs - Sgt. Butler updates CO Ashworth.

09:15 hrs - CO Owens contacts CO Milne who will assist with Complaint.

10:30 hrs - CO Owens 10-17 to Anahim Lake.

14:30 hrs - CO Owens and Milne at complaint site. CO's set 5 snares at occurrence site.

18:30 hrs - 10-62 Nimpo Lake.

19:30 hrs - 10-8 occurrence area. C/N built tree stand at site, officers set up in tree stand. 21:00 hrs - grizzly bear heard coming in at back of cubby but not observed.

22:30 hrs - 10-17 Anahim Lake.

23:00 hrs - 10-7 Anahim Lake.

Motion detecting camera revealed at 22:45 hours, grizzly bear came into cubby set not tripping snares but pulling down side of cubby feeding on calf.

2011-08-25, 06:15 hrs - 10-17 occurrence site.

07:00 - 10-8 snare site.

Cubby rebaited, set 4 snares into cubby and set 4 trail set snares.

18:00 hrs - 10-7

20:30 hrs - 10-8 officers at occurrence site tree stand. 21:30 hrs - grizzly bear comes into snares site, circles cubby, mauls tree, panting heavily but does not show himself.

23:00 hrs - 10-7 Nimpo Lake.

2011-08-26, 06:45 hrs - CO Owens & Milne check site, one trail set sprung believed grizzly bear knocked branch into snare while attempting to access cubby. 07:30 hrs - C/N advised of the progress of complaint.

A/Sgt Ashworth advised of complaint progress. Decision made to pull 8 snares at site. C/N will attempt to shoot bear on kill. Deer carcass and bear carcass placed at occurrence site.

2011-08-28 - C/N advises s.22 sat in tree stand last two nights, bear heard near cubby but was not observed.

2011-09-02, c/n advises grizzly bear has returned to calf kill site and requests CO's assistance.

2011-09-03, 06:30 hrs - CO Owens preps for trip to Anahim Lake.

07:00 hrs - CO Owens meets CO VanDamme in Williams Lake.

08:00 hrs - 10-17 Anahim Lake.

13:00 hrs - 10-8 Anahim Lake occurrence site. Bear trap set at calf kill site. 9 trail set snares set at kill site. Motion detecting camera set up at kill site.

20:00 10-7 Nimpo Lake.

2011-09-04, 05:00 hrs - CO's 10-17 occurrence site. 06:00 hrs - traps and snares checked no bear activity.

07:15 hrs - C/N advised of occurrence details. C/N shown snare and trap locations and will monitor twice daily and call RAPP if bear caught.

10:30 hrs - CO's 10-17 Williams Lake

16:30 10-7 Williams Lake

2011-09-06 - 16:00 hrs - CO Owens meets with CO Zucchelli who is attending Bella Coola for a week. CO Zucchelli will monitor snares and trap.

2011-09-07 - CO Zucchelli advises C/N's

s.22

will monitor snares and trap

call RAPP if bear caught. CO Zucchel
s.22 in evening discusses occurrence with s.22 ill monitor s s and trap and advise RAPP
ar caught.

2011-09-13 - CO Zucchelli pulls snares and trap as bear has not returned to site. C/N's residence attended, no one home, note left related to outcome.

CO Zucchelli's hours - 6 hours which were added to Owen's hours. Vandamme's hours 23 - which were also added to Kravontka's hours as no space to enter more officers below.

To date CO's Owens has not received photographs of injured calf from s.22 as they were to be emailed therefore the Predator Livestock Verification Compensation Form has not been completed.

2011-12-23 18:30 Verification compensation request form submitted to Lay.

Occurrence concluded.

OCCURRENCE INFORMATION

Incident Date Time

Species Involved:

BLACK BEAR

Attractants Noted:

COMPOST

Nature of Complaint:

NUISANCE WILDLIFE

Action Taken:

EMAILED C.O.

Details:

The bear is coming around the cabins and is getting aggressive. He has tried to into a couple cabins and it is getting to the point where something needs to happen. He is wondering if they can take care of it themselves or a CO can come out and do it. The COM sounded really reasonable and they have many bears out there and none are a problem, this is the only one that is getting way to close and aggressive. There was a compost at one cabin a while ago and they have since gotten rid of it. Everyone out there is really responsible with their attractants.

ACTIONS TAKEN BY CO SECTION

Date: 2011-10-13
Time: 0843
Narrative: 2011-10-13

Had Bella Coola RCMP attend and assess the situation. Spoke with Cpl. Wallis - he said they have been watching the bear for 20 mins and it won't move, just slightly off the road and there is injury to it's face.

Advised RCMP if it's safe, euthanize bear and advise school.

They will take care of the situation.

They said this is not the same bear that was sleeping in the tree yesterday on PWOR 19335.

File is concluded as Destroyed by RCMP.

ACTIONS TAKEN BY CO SECTION

Date: 2011-10-19
Time: 0943
Narrative: 2011-10-19
 09:43 CO DM received a call from Bella Coola's Bear Aware Coordinator about an orphaned black bear cub in Bella Coola town site.
 Background:
 Cub of the Year (COY) has been seen in and around town site for a couple of weeks. Local Nuxalk members have expressed interest in rehabbing the bear if possible.
 CO DM located the COY and immobilized COY in a tree. COY is a male black bear about 40 lbs. COY is in good shape. COY was driven to Bandstra Transportation Company in Williams Lake by CO DM. Angelika, of The Northern Lights Wildlife Shelter, had previously sent a bear cub transport box to the valley. COY was released to Bandstra to be transported to the rehab centre in Smithers BC: Bandstra Tracking # 2292115. CO DM contacted Angelika and educated her of the tracking number.

ACTIONS TAKEN BY CO SECTION

Date: 2010-11-30
Time: 1000
Narrative: Details: PWOR DIRECT CONTACT WITH CO MILNE
 MU: 5-8- Bella Coola: Hagensborg.
 Originated: 2011-10-30

Complaint originally came into CO DMs cell phone: Orphaned B Bear cub of the year (COY). Upon further investigation, CO DM found there to be conflicting reports if the bear was a COY or a yearling. Therefore, CO DM asked Park Ranger Steven HODGSON to set a culvert trap at the last scene location.

The bear was trapped and determined to be a yearling. CO DM directed HODGSON to release the bear in a remote location within its natural range.

HODGSONs email to CO DM (details of the release):

we were successful in trapping the bb out of s.22 property. It was a thin bear but certainly not a COY. Its bold behaviour (but not aggressive ly does not make it a good candidate for an urban setting so we released it on some greener pastures: it was dropped off near the Tsinitini crk bridge on the Talchako FSR. There are some late coho crks in the area and high quality denning sites. Hopefully it is able to avoid the larger bears in the area and makes a full recovery.

Attractants Noted:

OTHER

Nature of Complaint:

SIGHTING ONLY

Action Taken:

REFERRED TO C.O.

Details:

RCMP have received a report of a citizen shooting a small bear cub in town yesterday. The bear has been hanging around the downtown area for the past 2 days and the CST. chased it off himself yesterday. CST Archer has now received a report that the bear was being aggressive and had to be shot by a citizen. Not much information available but he was told the bear was shot in the nose and is not badly injured. Unknown what the bear was shot with.

PEP called CO DM and advised him that two bears, one BB and possibly one GB, had been inside the electric fence at the West Chilcotin Landfill on July 16th.

2011-07-19

14:30 COs DM and JP arrive at West Chilcotin dump. COs discover three areas where a bear has dug under the electric fence (see attached photos). Electric fence was not operational due to flooding around the fence. Contractor on site was removing the water, with a pump, that was touching the fence.

COs DM and JP set green culvert trap. Cubby Pro Set Snares were attempted, however the ground was not favourable. Ground was too wet and/or punky and set ended up pulling out. COs then set a cubby bait pile and an OP- 5 hrs.

2011-07-20

06:15 COs DM and JP arrive at West Chilcotin dump. Trap had not been triggered nor had the bait pile been eaten.

08:00 Trap repositioned to favour RCMP checking the trap.

09:30 RCMP are educated on how to check and/or reset trap if needed.

2011-07-23

10:18 Green trap removed. No new activity.

2011-07-26 09:19

CO DM called C/N and updated on outcome. C/N was given advice on how to fill in the excavated locations. C/N to call CO DM if she has an question or concerns.

ACTIONS TAKEN BY CO SECTION

Date:	2011-07-18
Time:	1435
Narrative:	2011-07-18 14:35
	CO KRAVONTKA received a public complaint from s.22 arb Mathews (WL Admin) she advised that she had just received (CN) who provided details about the G. Bear sightings at the landfill at Nimpo Lake. d to contact RAPP and provide details. CN reports that the bear has been seen around the area for about a week now, and no one has seen or reported any cubs. Last sighting was on Sun (2011-07-17). C/n reports that they seen it run across the electrified cattleguard and also dig under the fence. CO KRAVONTKA advised that officers would be out in that area tomorrow and would inspect the area and possibly set a trap. CO KRAVONTKA advised C/n to contact RAPP if any other incidents occur, or if other sightings n the area.
	2011-07-19 10:14 CO KRAVONTKA spoke with Sgt BUTLER regarding this matter, he advised that CO MILNE and CO PEWIK would be dealing with this matter.
	2011-07-26 08:30 *NOTE* Please see original PWOR#: 11-8357 for outcome (CO D. MILNE).

The priority is females so if female coy were available then they should go there and then we can take two of the males and turn them over to Kamloops. She would then have 4 still. Tony?

Hi Helen,

Thanks you so much for your reply Helen. On
by a person with the immobilization coarse?

s.22

s.22

I guess my thoughts are that sadly, there will be more cubs in the future, and I would like to prepare for it so I may help where I can. Please let me know what your thoughts are on this after you discuss it with others.

Thanks for your time and consideration on this issue ☺

Sub o from Bella Coola. s.22

Hi s.22

The offer for free air transport for the cubs is very good news. However, I'm unclear why the bears are to be immobilized for transport. Not a good idea. In most cases animals are sedated to put them into a cage but recovered before the transport.

These occasions are so rare I think we need to talk further with Angelika, the COS and Wildlife staff before we go this route. I'll chat with her later this week.

As far as a course is concerned, the attached are the guidelines for them.

Best,
helen

Subject: Hello from Bella Coola.. s.22

Hello Helen,
Hi Helen,

s.22 here from Bella Coola. Recently we sent five orphaned grizzly bear cubs from the Valley, to Northern Lights in Smithers to be a part of their Wild Release program. I am excited to be a part of this pilot project for grizzly cubs Helen, and appreciate your very important role in this program as well. Angelika is one which I admired for her commitment to this initiative, and I look forward to its follow up in the near future.

Helen, I have the opportunity to get free transport of orphaned bear cubs in the future from Bella Coola to Smithers via helicopter. The only problem is that I do not have the ability to immobilize these animals for transport to Smithers. The

Helicopter would be coming from Salt Springs Island and would come by and pick up the cubs along with a person (if you agree, perhaps me) who has your coarse. Then the person with the immobilization coarse, could ride with the cubs and insure no incident during travel to Smith here in the Valley, as I would go instead of them.

s.22

s.22

Please feel free to give me a call if you like.

s.22

Thank you so much for you time Helen, and I look forward to hearing back from you. Also thank you for all the good work you are doing for the cubs in Bella Coola.

Cheers.

To: Milne, Andrew ENV:EX
Cc: Ashworth, Darrell ENV:EX; York, Ben A ENV:EX
Subject: Bella Coola Reports

Here is an overview of my Bella Coola assist for your files

PWOR# 10-18468

14:30 hours CO Hawkes met with Angelika Langen of Northern Lights Wildlife Society. CO Hawkes injected both bear cubs with 2.5 cc of telazol at 100 mg/ml. Both cubs went under after approx. 5 minutes post injection. Cubs were checked for health issues. Both cubs were healthy males and tagged with yellow tag# 2410 and 2411. Cub number 2410 had a puncture wound in the right hind quarter. Capillary refill and breathing rate were normal during immobilization. Both cubs woke up during the flight to smithers and were released that evening.

On 2010-10-08 CO HAWKES spoke with Angelika Langen and both cubs are doing well.

On 2010-10-09 at 16:00 CO HAWKES followed up with DWPO#12851. DWPO complied with. No other visible attractants on site.

ERS# 10-2690

Shots fired in 2700 block of Hwy#20.

Entered into COORS# 201007255. See report for details.

CO Milne and Sgt. Ashworth included in access.

PWOR# 10-19279

CO HAWKES discussed issue with COM s.22 CO attended site and conducted attractant assessment. No attractants found. CO Hawkes advised staff to ensure that no attractants are available as construction site located in well travelled bear corridor. Bears are not acting aggressively but there is 4 grizzly bears in the area and cannot be scared off with vehicles. CO Hawkes notified BC Parks area supervisor Wes Dear as area is located in Tweedsmuir provincial park. Dearmond stated that he will notify if rangers.

PWOR# 10-14814

CO Hawkes attended site and conducted an attractant assessment with the com. CO Hawkes advised com to remove apples from tree and secure in area inaccessible to bears. Com complied and is working on fencing the property with electric fencing.

PWOR# 10-18719

CO Hawkes spoke with com s.22 Given description that s.22 provided bears are at least yearlings and not candidates for rehab. No further reports on bears.

There is a number all issues that are not getting reported to PEP. There is a number of homes that were abandoned during the flood and without electricity. The rotten food will most likely attract bears to these areas if the bears are not already there.

There is still lots of rumours of shoot – shovel and shut up scenarios.

Regards,

C.O. Jason Hawkes

PROBLEM WILDLIFE OCCURRENCE REPORT

		<p>COM calling to advise of a written report he received. A couple hiking the above location encountered a very skinny grizzly bear. It was across the river from the trail, but appeared quite interested in them. They shot off a bear banger in the general direction of the grizzly and it walked away. COM also wanted to mention that 4 other male grizzly bears were spotted in the fishers pool area (The Narco Corridor) on Tuesday night.</p>

only leave for short periods of time and is insistent on coming back. Caller is on route to Fir Vale and no one on scene has a phone to contact them at. They have vehicles on scene to stay in for safety reasons, but wanted to advise COS. COM called RCMP dispatch because he is aware that there is no CO stationed in Bella Coola, but they transferred him directly to call centre. He knows for a fact that there are 7 members on duty who could attend. Shift change at the road wash out is at 23:30.

Notification:																									
2010-09-30	AM	Bears are attracted to cooking oil. On the morning of the 30 th s.22 was walking out to his back yard shed when a grizzly bear charged him. s.22 shot said bear once in the right side of the head.																							
	14:21	s.22 called CO MILNE on his office phone to report the shooting of the bear. s.22 left a message on CO MILNE voice mail.																							
2010-10-03	09:51	s.22 called RAPP line: see above PWOR 10-18293																							
	10:19	CO MILNE received the complaint.																							
	10:39	CO MILNE arrived at s.22 residence. Sow G bear was shot once in the right side of the head. One shot killed the bear. Pictures taken. Sow was lactating and a search for the cub began. CO MILNE took a recorded statement of the r-human encounter from s.22. CO MILNE conducted attractant audit of s.22 residence and found over hundred jugs of used cooking oil in s.22 yard. s.22 renders the cooking oil for BIO diesel.																							
2010-10-05	10:05	CO MILNE issued a DWPO (s.51) to s.22 to remove and or secure all oil containers, full and used, in to a bear proof/secure location. s.22 was given a date of the 9 th of October, 2010 at 16:00 to comply by.																							
2010-10-09	16:00	CO HAWKS inspected the residence of s.22 and found the DWPO was complied with. See COORS 2010-07466.

Culvert Trap	2010-10-24	2010-10-27	Rehab 3 cubs	2F/ 1M cubs	J	
			Location:			

DETAILS

Date	Time	Narrative
2010-10-21	22:30	Bella Coola resident s.22 was charged by a grizzly bear sow when riding his bike home from the legion. The bears were in a ditch when the complainant rode by within 10 feet of them. The sow came out of the ditch and charged at complainant for 50 yards down the highway. The bear then stopped and then started to charge at him for a second time. He did not see the bears prior to riding by and would have avoided the area completely if he had known the bear were there. Complainant reports that the bears have been in the neighbourhood for weeks and is concerned that the school across the street seems to be part of their route. Kids take night time programs and activities at the school and walk home from there.
		<p>1) The complainant reported seeing the Sow and two cubs in the neighbourhood for the past few weeks on a nightly basis. 2010-10-24 CO Miller sets live trap on adjacent property. 2010-10-24 @1130 CO Miller observes Sow and two cubs for 1 hour. The bears entered two separate carports near the reported location and then ate some apples on a nearby tree. 2010-10-25 CO Miller contacts local agriculture group to come a pick the apples in this area as appears to be an attractant for these bears. 2010-10-25 @ 2230 hours CO Miller attends trap on lot set previous day. Trap door appears to be close. CO Miller drives up to trap shines truck lights on front mesh of trap and notes three grizzly bears inside. CO Miller assumes that the three bears were the Sow and Two cubs as observed in the same location on 2010-10-24. CO Miller loads shotgun and exits truck. CO Miller is 5 feet away from door of the truck and hears a huffing and galloping sound coming from the dark empty lot beside the vehicle. CO Miller reactively turned his head shining the headlamp on a grizzly bear charging at him and fired the shotgun. The grizzly rolled to the ground and then got up on its feet. CO Miller dis-</p>

Conservation Officer Service

PROBLEM WILDLIFE OCCURRENCE REPORT

		charged another round into the bears side and then ran inside the vehicle. CO Miller heard distressed sounds from the grizzly in the bushes which ended a minute later. Due to lack of light CO Miller ended any carcass recovery efforts for the evening. CO Miller trailered the 3 grizzly COY's to the MOE office in Hagensborg. 2010-10-26 @ 0800 CO Miller assisted by RCMP tracked and dispatched the mortally wounded SOW grizzly bear approximately 400 meters from the original site. The SOW carcass was gifted to the local Nuhawk First Nations for ceremonial purposes. 2010-10-27 Northern Lights Wildlife Society retrieved the three COY's for rehabilitation in their Smithers facility. Concluded- Destroyed. Time 7 hours.

2011-01-12	11:15	<p>Contacted c/n. C/n believes someone unsure of who has killed cub's mother during the flooding experienced in the valley this fall. C/n advises bear cub has been fed pink salmon in discreet location. C/n will continue to provide salmon to cub until bear trap can be brought to cubs location. Advised c/n of offence related to feeding bears. C/n advised once cub caught it will be assessed to ensure it is not too habituated to people. If cub a suitable candidate for rehab it will go to rehab with the intention to raise and release cub back into wild.</p>																							
	11:20	<p>Considering no CO office in Bella Coola and the fact that another orphaned black bear cub was recently trapped in valley and transported to rehab center in Smithers no bear trap in valley.</p>																							
	12:00	<p>Cage wire trap will be shipped to Bella Coola via Chilcotin Freightways, truck leaves 11 am Thursday.</p> <p>Wes Dearmond BC Parks 982-2701 local 2226 advised of occurrence and will trap cub on behalf of COS when trap received.</p> <p>Wes, as discussed we have an orphaned black bear cub in Bella Coola. I'm sending you our cage live trap through Canadian Freightways. The trap will leave Williams Lake at 11 am tomorrow and they u at the parks office to receive. Give me a call the trap s.22 and I can walk you th trap set up. s.22 s.22 is excepting your call when the trap arrives. s.22 can take you to the cub's location. Once the cub is caught call me and we will make arrangements to transport to our rehabilitator if the cub is a candidate for the program. Again, thanks for all your help related to this matter.</p>																							
	12:15	<p>Smithers permitted rehabilitator Angelica contacted s.22 Angelica advises she has room for cub when caught if it is a candidate for her program.</p>																							
2011-01-26	11:00	<p>CO DM called Bella Coola Parks S. HODGSON and asked SH to pull the trap as there has been no sign of the cub since the original complaint.</p> <p>Trap was pulled and is being stored at the Parks Office.</p>																							
2011-02-14	09:45	<p>Wes Dearmond, BC Parks, Hagensborg calls. s.22 was out on Feb 12, 2011 where bear cub had originally been seen. Bear cub scat is in area and s.22 d up what is thought to be bear cub scent in area. Dearmond will place live trap in area and s.22 will monitor trap twice daily.</p>

OCCURRENCE INFORMATION

Incident Date Time: 10/15/2010 09:35 AM

Species Involved: GRIZZLY BEAR

Attractants Noted: LIVESTOCK

Nature of Complaint: LIVESTOCK HARASSED

Action Taken: FAXED TO C.O.

Details:
Grizzly sow and three cubs in pasture with numerous horses. Assume if she is inside the pasture she will get out. Thinks she is looking for an exit. Then noted several sections of fencing knocked down presumably by recent flooding. The horses were noticeably agitated earlier but have calmed down.

ECC advised the bears would have no difficulty getting out of pasture if they so desired, etc

COS can contac s.22 at second number. Caller will be on first number but is leaving town later today.

10/20/2010 08:41 AM

Species Involved:

BLACK BEAR

Attractants Noted:

GARBAGE

Nature of Complaint:

HABITUATED

Action Taken:

REFERRED TO C.O.

Details:

Capital project team is having problems with a local bear - poor starving wildlife - in wooden garbage containers breached - comes during the night - concerned for workers living in the area who are inspecting flood damage. Teams were told not to go into the area alone because of the bear/wildlife situation. Bear was most recently sighted at 0600 between two house on river rd.

Caller has been requested to call COS in reference to flood situation and safety of workers responding in the area.

ACTIONS TAKEN BY CO SECTION

Date:	2011-08-09
Time:	1014
Narrative:	<p>2011-08-09 10:14</p> <p>CO KRAVONTKA contacted Bella Coola RCMP (Corp. Bill WALLACE), who advised that a bear has been hanging around a property, but has only been accessing natural food sources., the problem is that the neighbouring property owners all have dogs and when the bear wanders through the bear is freighted back into the original C/n's property, who does not own any dogs. WALLACE requested that a trap be set as they have received several complaints from the property owner. After speaking with CO KRAVONTKA, WALLACE will set a trap on the property, and will contact CO KRAVONTKA if he catches the bear in question. The bear has not been aggressive or accessed any attractants at this time, and therefore if caught, WALLACE has agreed to transport it to a remote location. CO KRAVONTKA requested that WALLACE keep him updated.</p> <p>=====</p> <p>2011-08-15 12:32</p> <p>CO KRAVONTKA contacted the C/n, but the person who answered the phone advised that she is gone. Person answering the phone advised that the bear has not been back for a few days.</p> <p>CO KRAVONTKA contacted Bella Coola detachment to speak with Corp WALLACE, but he was not in. Admin clerk indicated that they did not trap the bear and believes that the trap has been removed. CO KRAVONTKA asked if she could confirm that the trap has been removed and contact him.</p> <p>2011-08-16 09:09</p> <p>CO KRAVONTKA spoke to Admin clerk at Bella Coola detachment. The rap has bene removed and will be taken back to COS compound area. No further action required at this time. Concluded.</p> <p>2011-08-18 13:01</p> <p>File reveiw by A.Sgt. ACTIONS TAKEN BY CO SECTION

Date: 2011-08-22

Time: 1005

Narrative:

2011-08-22, 10:05 - CO Owens speaks to C/N, C/N advises he suspects grizzly bear killed calf this morning. CO Owens and Kravontka 10-17 to occurrence area. CO Owens speaks with Pat Dielman, Wildlife Branch related to occurrence. Dielman advises to put down grizzly bear taking calf in MU 5-12 as there are no conservation concerns. If the bear is a sow with new born cubs, cubs may be rehab candidates. Wildlife will be kept informed of occurrence progression.

CO Owens advises A/Sgt Ashworth of CO's attendance to complaint. CO Owens will keep CO Ashworth advised of occurrence progression.

2:20 - CO Owens calls Barb/COS to ask her to advise C/N that CO's arrival time to residence will now be and 5:30. Barb Calls C/N's number and recorded message says to leave a message at s.22 Barb Calls message line and speaks to a woman who will relay message to C/N.

4:00 - Barb also makes contact with C/N at his residence, he had already been advised via message line of CO's arrival time. Enforcement Clerk's time 15 mins.

14:30 CO Owens & Kravontka 10-17 c/n site.

18:30 CO Owens & Kravont s.22 advises 500 lb heifer calf s.22 located late last night ditch of road. Injuries to calf appear to be f ury to front left leg. Massive infection shoulder blade area. Right flank area injured. Calf's mother not observed in area. C/N attends calf location this am d observes grizzly bear tracks and drag marks where calf was. Photos obtained of calf's injuries by s.22 and viewed by CO's.

19:30 hrs - CO's search and locate a dead calf, 125 yards north of road top rear hind quarter being fed on by grizzly bear. Bear snare cubby set in area with calf as bait.

21:30 - 10-17 Nimpo Lake.

22:00 - 10-7 Nimpo Lake.

2011-08-23, 06:15 hrs - Officers 10-8, 10-17 occurrence location. Grizzly bear trips snare, pulls calf out of cubby. Cubby rebuilt, two snares set with two entrances. Two trail set snares set in proximity to cubby. Motion detecting camera set up site. C/N puts down another injured calf (non predator related). Calf tied in cubby used as bait.

14:00 hrs - CO's show CO Milne snare site location.

15:00 hrs - CO's 10-17 Williams Lake

19:00 hrs - 10-7 Williams Lake

2011-08-24, 07:30 hrs - C/N contacts CO Owens advised grizzly bear tripped snare at rear of cubby, calf fed on.

08:15 hrs - CO Owens advises Sgt. Butler of occurrence.

08:45 hrs - Sgt. Butler updates CO Ashworth.

09:15 hrs - CO Owens contacts CO Milne who will assist with Complaint.

10:30 hrs - CO Owens 10-17 to Anahim Lake.

14:30 hrs - CO Owens and Milne at complaint site. CO's set 5 snares at occurrence site.

18:30 hrs - 10-62 Nimpo Lake.

19:30 hrs - 10-8 occurrence area. C/N built tree stand at site, officers set up in tree stand. 21:00 hrs - grizzly bear heard coming in at back of cubby but not observed.

22:30 hrs - 10-17 Anahim Lake.

23:00 hrs - 10-7 Anahim Lake.

Motion detecting camera revealed at 22:45 hours, grizzly bear came into cubby set not tripping snares but pulling down side of cubby feeding on calf.

2011-08-25, 06:15 hrs - 10-17 occurrence site.

07:00 - 10-8 snare site.

Cubby rebaited, set 4 snares into cubby and set 4 trail set snares.

18:00 hrs - 10-7

20:30 hrs - 10-8 officers at occurrence site tree stand. 21:30 hrs - grizzly bear comes into snares site, circles cubby, mauls tree, panting heavily but does not show himself.

23:00 hrs - 10-7 Nimpo Lake.

2011-08-26, 06:45 hrs - CO Owens & Milne check site, one trail set sprung believed grizzly bear knocked branch into snare while attempting to access cubby. 07:30 hrs - C/N advised of the progress of complaint.

A/Sgt Ashworth advised of complaint progress. Decision made to pull 8 snares at site. C/N will attempt to shoot bear on kill. Deer carcass and bear carcass placed at occurrence site.

2011-08-28 - C/N advise s.22 sat in tree stand last two nights, bear heard near cubby but was not observed.

2011-09-02, c/n advises grizzly bear has returned to calf kill site and requests CO's assistance.

2011-09-03, 06:30 hrs - CO Owens preps for trip to Anahim Lake.

07:00 hrs - CO Owens meets CO VanDamme in Williams Lake.

08:00 hrs - 10-17 Anahim Lake.

13:00 hrs - 10-8 Anahim Lake occurrence site. Bear trap set at calf kill site. 9 trail set snares set at kill site. Motion detecting camera set up at kill site.

20:00 10-7 Nimpo Lake.

2011-09-04, 05:00 hrs - CO's 10-17 occurrence site. 06:00 hrs - traps and snares checked no bear activity.

07:15 hrs - C/N advised of occurrence details. C/N shown snare and trap locations and will monitor twice daily and call RAPP if bear caught.

10:30 hrs - CO's 10-17 Williams Lake

16:30 10-7 Williams Lake

2011-09-06 - 16:00 hrs - CO Owens meets with CO Zucchelli who is attending Bella Coola for a week. CO Zucchelli will monitor snares and trap.

2011-09-07 - CO Zucchelli advises C/N's

s.22

will monitor snares and trap

and call RAPP if bear caught. CO Zucchel nds s.22 residence s.22 not in. CO Owen's contacts s.22 in evening discusses occurrence with s.22 and s.22 will monitor snares and trap and advise RAPP if bear caught.

2011-09-13 - CO Zucchelli pulls snares and trap as bear has not returned to site. C/N's residence attended, no one home, note left related to outcome.

CO Zucchelli's hours - 6 hours which were added to Owen's hours. Vandamme's hours 23 - which were also added to Kravontka's hours as no space to enter more officers below.

To date CO's Owens has not received photographs of injured calf from s.22 as they were to be emailed therefore the Predator Livestock Verification Compensation Form has not been completed.

2011-12-23 18:30 Verification compensation request form submitted to Lay.

Occurrence concluded.

OCCURRENCE INFORMATION

Incident Date Time

Species Involved:

BLACK BEAR

Attractants Noted:

NOT APPLICABLE

Nature of Complaint:

SIGHTING ONLY

Action Taken:

EMAILED C.O.

Details:

Bear in Bella Coola is being a nuisance again throughout the town. RCMP would like permission to set the bear trap that was left behind the last time COS tried to trap the bear.

I didn't make any promises on your behalf for a call back this evening but advised the report would be forwarded with request for a call back

Advised if public safety or threatening behaviour to call in 24/7 and a CO would be called tonight.

OCCURRENCE INFORMATION

Incident Date Time

Species Involved:

BLACK BEAR

Attractants Noted:

COMPOST

Nature of Complaint:

NUISANCE WILDLIFE

Action Taken:

EMAILED C.O.

Details:

The bear is coming around the cabins and is getting aggressive. He has tried to enter a couple cabins and it is getting to the point where something needs to happen. He is wondering if they can take care of it themselves or a CO can come out and do it. The COM sounded really reasonable and they have many bears out there and none are a problem, this is the only one that is getting way too close and aggressive. There was a compost at one cabin a while ago and they have since gotten rid of it. Everyone out there is really responsible with their attractants.

ACTIONS TAKEN BY CO SECTION

Date: 2011-10-13
Time: 0843
Narrative: 2011-10-13

Had Bella Coola RCMP attend and assess the situation. Spoke with Cpl. Wallis - he said they have been watching the bear for 20 mins and it won't move, just slightly off the road and there is injury to it's face.

Advised RCMP if it's safe, euthanize bear and advise school.

They will take care of the situation.

They said this is not the same bear that was sleeping in the tree yesterday on PWOR 19335.

File is concluded as Destroyed by RCMP.

ACTIONS TAKEN BY CO SECTION

Date:	2011-10-19
Time:	0943
Narrative:	2011-10-19 09:43 CO DM received a call from Bella Coola's Bear Aware Coordinator about an orphaned black bear cub in Bella Coola town site. Background: Cub of the Year (COY) has been seen in and around town site for a couple of weeks. Local Nuxalk members have expressed interest in rehabbing the bear if possible. CO DM located the COY and immobilized COY in a tree. COY is a male black bear about 40 lbs. COY is in good shape. COY was driven to Bandstra Transportation Company in Williams Lake by CO DM. Angelika, of The Northern Lights Wildlife Shelter, had previously sent a bear cub transport box to the valley. COY was released to Bandstra to be transported to the rehab centre in Smithers BC: Bandstra Tracking # 2292115. CO DM contacted Angelika and educated her of the tracking number.

ACTIONS TAKEN BY CO SECTION

Date: 2010-11-30
Time: 1000
Narrative: Details: PWOR DIRECT CONTACT WITH CO MILNE
 MU: 5-8- Bella Coola: Hagensborg.
 Originated: 2011-10-30

Complaint originally came into CO DMs cell phone: Orphaned B Bear cub of the year (COY). Upon further investigation, CO DM found there to be conflicting reports if the bear was a COY or a yearling. Therefore, CO DM asked Park Ranger Steven HODGSON to set a culvert trap at the last scene location.

The bear was trapped and determined to be a yearling. CO DM directed HODGSON to release the bear in a remote location within its natural range.

HODGSONs email to CO DM (details of the release):

we were successful in trapping the bb out of s.22 It was a thin bear but certainly not a COY. Its bold behaviour (but not aggressive) certainly does not make it a good candidate for an urban setting so we released it on some greener pastures: it was dropped off near the Tsinitini crk bridge on the Talchako FSR. There are some late coho crks in the area and high quality denning sites. Hopefully it is able to avoid the larger bears in the area and makes a full recovery.

Incident Date Time

Species Involved:

BLACK BEAR

Attractants Noted:

OTHER

Nature of Complaint:

SIGHTING ONLY

Action Taken:

REFERRED TO C.O.

Details:

RCMP have received a report of a citizen shooting a small bear cub in town yesterday. The bear has been hanging around the downtown area for the past 2 days and the CST. chased it off himself yesterday. CST Archer has now received a report that the bear was being aggressive and had to be shot by a citizen. Not much information available but he was told the bear was shot in the nose and is not badly injured. Unknown what the bear was shot with.

ACTIONS TAKEN BY CO SECTION

Date:

Time:

Narrative:

2011-07-08 EK phoned c/n and discussed issue. C/n stated that the bear is around 1-3 times a day. s.22 has been using a BB gun and their dog to try and run it off. Bear is still acting afraid of people. PIWEK advised c/n to continue harassing bear and to use electric fencing or spike boards to block the bear from getting to the cherry trees. PIWEK also advised c/n to update RAPP if the issue persists. Discussed relocation and how it is not a viable option.

13:50 CO DM advised Bella Coolas Bear Aware.

2011-07-11 14:00

Received another C/N Ashworth advised s.22 who will attend tommorrow.

2011-07-14 09:47 CO PIWEK called c/n regarding an update received 2011-07-12. c/n not home, PIWEK spoke with s.22 who stated the bear has not been around for ~3 days. PIWEK asked what had been done to keep the bear from the cherries and the s.22 stated that the c/n had harassed the bear continuously. Advised to report future issues to RAPP.

ACTIONS TAKEN BY CO SECTION

Date: 2011-07-19

Time: 0000

Narrative: 2011-07-18 09:49

PEP called CO DM and advised him that two bears, one BB and possibly one GB, had been inside the electric fence at the West Chilcotin Landfill on July 16th.

2011-07-19

14:30 COs DM and JP arrive at West Chilcotin dump. COs discover three areas where a bear has dug under the electric fence (see attached photos). Electric fence was not operational due to flooding around the fence. Contractor on site was removing the water, with a pump, that was touching the fence.

COs DM and JP set green culvert trap. Cubby Pro Set Snares were attempted, however the ground was not favourable. Ground was too wet and/or punky and set ended up pulling out. COs then set a cubby bait pile and an OP- 5 hrs.

2011-07-20

06:15 COs DM and JP arrive at West Chilcotin dump. Trap had not been triggered nor had the bait pile been eaten.

08:00 Trap repositioned to favour RCMP checking the trap.

09:30 RCMP are educated on how to check and/or reset trap if needed.

2011-07-23

10:18 Green trap removed. No new activity.

2011-07-26 09:19

CO DM called C/N and updated on outcome. C/N was given advice on how to fill in the excavated locations. C/N to call CO DM if she has an question or concerns.

Narrative: 2011-07-18 13:25

CO KRAVONTKA called CN s.22 from the CRD, who advised that they had a worker go out and test the voltages on the fence and cattleguard, and they all came back as good. CO KRAVONTKA advised the CN that we will see if the G. Bear returns, and if so the COS would likely bring out a trap to the area tomorrow.

GRIZZLY BEAR

Attractants Noted:

GARBAGE

Nature of Complaint:

SIGHTING ONLY

Action Taken:

EMAILED C.O.

Details:

Grizzly bear has been inside and outside the electric fence. It goes back and forth across the electrified cattleguard. Someone was inside the shareshed and when she came out the bear was right there. She startled it long enough to get in her vehicle. They had the fence tested and the fence is carrying a full charge. He digs holes under the fence very quickly.

ACTIONS TAKEN BY CO SECTION

Date: 2011-07-18
Time: 1435
Narrative: 2011-07-18 14:35

CO KRAVONTKA received call from Barb Mathews (WL Admin) she advised that she had just received a public complaint from s.22 who provided details about the G. Bear sightings at the landfill at Nimpo Lake. CN was advised to contact RAPP and provide details. CN reports that the bear has been seen around the area for about a week now, and no one has seen or reported any cubs. Last sighting was on Sun (2011-07-17). C/n reports that they seen it run across the electrified cattleguard and also dig under the fence. CO KRAVONTKA advised that officers would be out in that area tomorrow and would inspect the area and possibly set a trap. CO KRAVONTKA advised C/n to contact RAPP if any other incidents occur, or if other sightings n the area.

2011-07-19 10:14

CO KRAVONTKA spoke with Sgt BUTLER regarding this matter, he advised that CO MILNE and CO PEWIK would be dealing with this matter.

Hi Helen,

Thanks you so much for your reply Helen. On a plane\or helicopter, is it protocol that the cubs have to be chaperoned by a person with the immobilization coarse?

s.22

s.22

I guess my thoughts are that sadly, there will be more cubs in the future, and I would like to prepare for it so I may help where I can. Please let me know what your thoughts are on this after you discuss it with others.

Thanks for your time and consideration on this issue ☺

Su lo from Bella Coola.. s.22

Hi s.22

The offer for free air transport for the cubs is very good news. However, I'm unclear why the bears are to be immobilized for transport. Not a good idea. In most cases animals are sedated to put them into a cage but recovered before the transport.

These occasions are so rare I think we need to talk further with Angelika, the COS and Wildlife staff before we go this route. I'll chat with her later this week.

As far as a course is concerned, the attached are the guidelines for them.

Best,
helen

From: s.22
Sent:
To: Schwantje, Helen ENV:EX
Subject: Hello from Bella Coola s.22

Hello Helen,
Hi Helen,

s.22 here from Bella Coola. Recently we sent five orphaned grizzly bear cubs from the Valley, to Northern Lights in Smithers to be a part of their Wild Release program. I am excited to be a part of this pilot project for grizzly cubs Helen, and appreciate your very important role in this program as well. Angelika is one which I admired for her commitment to this initiative, and I look forward to its follow up in the near future.

Helen, I have the opportunity to get free transport of orphaned bear cubs in the future from Bella Coola to Smithers via helicopter. The only problem is that I do not have the ability to immobilize these animals for transport to Smithers. The

Helicopter would be coming from Salt Springs Island and would come by and pick up the cubs along with a person (if you agree, perhaps me) who has your coarse. Then the person with the immobilization coarse, could ride with the cubs and insure no incident during travel to Smith here in the Valley, as I would go instead of them.

s.22

s.22

Please feel free to give me a call if you like

s.22

Thank you so much for you time Helen, and I look forward to hearing back from you. Also thank you for all the good work you are doing for the cubs in Bella Coola.

Cheers.

From: Hawkes, Jason D ENV:EX
Sent: Monday, October 11, 2010 11:56 AM
To: Milne, Andrew ENV:EX
Cc: Ashworth, Darrell ENV:EX; York, Ben A ENV:EX
Subject: Bella Coola Reports

Here is an overview of my Bella Coola assist for your files

PWOR# 10-18468

14:30 hours CO Hawkes met with Angelika Langen of Northern Lights Wildlife Society. CO Hawkes injected both bear cubs with 2.5 cc of telazol at 100 mg/ml. Both cubs went under after approx. 5 minutes post injection. Cubs were checked for health issues. Both cubs were healthy males and tagged with yellow tag# 2410 and 2411. Cub number 2410 had a puncture wound in the right hind quarter. Capillary refill and breathing rate were normal during immobilization. Both cubs woke up during the flight to smithers and were released that evening.

On 2010-10-08 CO HAWKES spoke with Angelika Langen and both cubs are doing well.

On 2010-10-09 at 16:00 CO HAWKES followed up with DWPO#12851. DWPO complied with. No other visible attractants on site.

ERS# 10-2690

Shots fired in 2700 block of Hwy#20.

Entered into COORS# 201007255. See report for details.

CO Milne and Sgt. Ashworth included in access.

PWOR# 10-19279

CO HAWKES discussed issue with COM s.22 CO attended site and conducted attractant assessment. No attractants found. CO Hawkes advised staff to ensure that no attractants are available as construction site located in well travelled bear corridor. Bears are not acting aggressively but there is 4 grizzly bears in the area and cannot be scared off with vehicles. CO Hawkes notified BC Parks area supervisor Wes Dear as area is located in Tweedsmuir provincial park. Dearmond stated that he will notify if rangers.

PWOR# 10-14814

CO Hawkes attended site and conducted an attractant assessment with the com. CO Hawkes advised com to remove apples from tree and secure in area inaccessible to bears. Com complied and is working on fencing the property with electric fencing.

PWOR# 10-18719

CO Hawkes spoke with com s.22 Given description that s.22 provided bears are at least yearlings and not candidates for rehab. No further reports on bears.

There is a number all issues that are not getting reported to PEP. There is a number of homes that were abandoned during the flood and without electricity. There rotten food will most likely attract bears to these areas if the bears are not already there.

There is still lots of rumours of shoot – shovel and shut up scenarios.

Regards,

C.O. Jason Hawkes

Very astonishing!

It would be a shame to not release the cubs from this sow. I don't know the answer, but maybe we should have a conference call about the release/fate of these cubs and the delicacy that surrounds this issue. There is no doubt in my mind that the release of these cubs will be watched closely by a lot of people, and will make headlines everywhere.

Astonishing. Many thanks James and Barb.

The recent female mortality in the Bella Coola valley is a female that s.22 trans e Kwatna from the Bella Coola valley in 2006. The Kwatna is one of the candidate release sites proposed by s.22 in his recent letter to us suggesting we move family groups away from Bella Coola.

Well, no....sorry s.22 .

We now have to contemplate whether this influences the decision regarding whether the this bear's two remaining offspring, currently at Northern Lights, are suitable candidates for release in June/ July 2011 under the experimental Grizzly orphan project.

For those that don't know the geography, it may not seem like far, but it is, in fact, quite remarkable that not only did she come back (not sure when but sometime between 2006 and 2010), but she re-established her home range, bred, was healthy enough to support 3 cubs, and resumed her conflict behaviour. I may be different, but I don't count that as success.

Note that this is not the first Grizzly bear moved to the Kwatna that returned to the Bella Coola Valley. Another female was moved in 2005 and returned to Bella Coola by 2006. We hunt the Kwatna, and it is excellent Grizzly bear habitat.

These, and many other records of translocation failure, should, in my opinion, be used to initiate discussions regarding some policy changes, and Mike's committee is the right venue to at least have those discussions.

Tony

There should be a relocated bear data sheet on the bears that were relocated from the valley.

I am wondering about this PWOR from 2006 #607600 I do not have the tag # in my notes but it should be attached to the PWOR.

This was a healthy sow that was relocated to the upper reaches of the Kwatna. Her cub was not captured.

Barb, Could you look up this PWOR and see if a relocation sheet is on there?

I likely have some photos of this bear as well.

Hi,

No joy – this bear was not part of our 1992-1995 research program. There was some collaring from 1989 to 1991 (region 5 – Williams Lake – Tom Smith), and I am trying to find those records.

The tags attached by the researchers in the Park from 1992-1995 were colour coded, but had no numbers.

SO, back to you guys with a question to James: could this have been a conflict bear James?

(Adult female, accompanied by 3 COY at time of death in valley last month).

Tony
