Hi Rob –

Further to our discussion today, I want to provide you with an update:

1. Bruce Klette, CIO is working to expedite your technology needs for this transition and will also be looking into your office space for Vancouver and Victoria. s22 PSEC rents space from the labour division. s22
2. I believe the best interim solution for some EAA support will be a Vancouver-based temp. I am happy to initiate this process for you if helpful. Please let me know if I have your support to proceed. This would provide you with coverage for up to 30 days while we work to solidify longer term support for you. Thank you, please proceed.
3. Outlined below is a draft staffing update. I understand we are targeting communication for 10:30 am tomorrow morning and will remain in touch with Kindree on this. Please feel free to add or edit as you see fit. This looks good
