PREMIER'S JOBS & TRADE MISSION 2013

The Premier will be leading a Jobs and Trade Mission to China, Korea and Japan to deepen British Columbia's relationship with those key Asian markets. The 13-day mission will take place from November 21 – December 3, 2013.

Trade missions are a critical part of British Columbia's strategy to diversify its international trading partners and secure new investment, propelling economic activity and job creation throughout the province.

As your company or organization plays a key role in shaping the future economy of British Columbia, the Premier would welcome your participation to showcase your business and advance provincial interests internationally. If you have any issues or upcoming successes that you wish to highlight during the mission, we would encourage you to share them with us.

In each market, the mission will strengthen bilateral relations with government partners; promote British Columbia's competitive advantages during corporate meetings with key investors in LNG and other priority sectors; and capitalize on British Columbia's cultural bridge across the Pacific with networking events built around British Columbia's many familial, economic and educational connections to Asia.

As someone who has shown an interest in participating we would be grateful if you could complete the attached form and send it to: TradeMission2013@gov.bc.ca by **October 25, 2013**.

Please note that participating as a member in the delegations will mean you will be responsible for arranging your own travel and accommodation along with obtaining your own travel visas. Participants travel at their own risk and should be covered by adequate insurance.

While participating in the Mission, all participants will conduct themselves in a professional manner and adhere to the laws, ethics and business practices of Canada and all respect the laws and customs of the countries visited. Participants recognize that the Government may cancel a mission, or a portion thereof, or the participation of any company at any time.

Participants agree to save the Government harmless from liability for any illness, injury, damage or loss of property connected with participation in the Mission or in the event of any cancellations.
