On Nov. 16th, at 11:00 am, I, Allan Johnsrude, Susal Dowse (Director of Vista Strategy Corp.) and Meaghan Hoyle (Socio-Economic Planner, Tera Environmental Consultants) met to discuss the Trans Mountain Expansion Project at a high level.

Allan Johnsrude and I provided an overview of FLNRO's roles and responsibilities, and provided the consultants with preliminary information and resources.

The consultants outlined where the pipeline would go in broad, general terms.
