**MINISTRY OF ENVIRONMENT
Lower Mainland Region**

TELEPHONE CONVERSATION RECORD

Project : April 4th, 2011 Richmond Steel PCB Incident	Date: April 8, 2011
	Time: 12:20

Between: Harbinder Dhillon and Jamie Battallo

And Oana Enick, Harold Riedler, Mark Scott

Individual

Ministry of Environment

Richmond Steel

Affiliation

Background:

Richmond Steel is named as the generator of PCB-contaminated oil in the incident reported to PEP on April 7, under DGIR 110083.

On April 8, 2011, at 12:20 pm, Harold Riedler requested I join him in returning a PEP-initiated call to Mr. Harbinder Dhillon of Richmond Steel.

Items discussed:

- Mr. Harbinder introduced himself as the General Manager of Richmond Steel (RS) and introduced Mr. Jamie Battallo as the SCHEC (Safety, Environmental and Community Something) Coordinator
- Mr. Harbinder described Richmond Steel Recycling as a metal recycling facility, accepting automobiles, appliances, demolition and industrial materials, but not accepting hazardous materials, hazardous waste, batteries or e-waste. He noted that the vehicles arrive both 'wet' and 'dry'. Once accepted at the site, the materials are cut to size and shipped for melting.
- Mr. Harbinder indicated that in response to a request for a bin from JJ Cool, RS provided a bin for JJCool at 400 Ewen Street, New Westminster. The bin was subsequently delivered to Richmond Steel, where it was weighed and 'dumped' in a dumping area. RS employees noted that amongst various scrap metal, there were 3 full 3.5' by 3.5' tanks of oil.
- RS drained (two of the three tanks?) in their used oil tank. That amounted to 960L of oil. s.15 was contacted to pick up this and an additional 790L (?) of oil from RS.
- RS was advised by s.15 that the oil was contaminated with PCB materials.
- RS continues to store the third tank. It contains approximately 500 L of oil, with a PCB concentration of 466000 ppm. Additionally the two empty tanks and associated draining materials are still on site at RS.
- Mr. Harbinder noted that these materials are secured.
- Mr. Harbinder noted that RS generates approximately 1000L of waste fuel and 1000 L of waste oil per month.
- Mr. Harbinder indicated that when he contacted JJCool, he was told that JJCool did not dispose of any oil in the scrap metal load.

- Mr. Harbinder indicated concern that the clean up and disposal costs were very high and he believed it was not his fault. He stated that he wanted the Ministry to
 - Address the problem with JJCool and
 - "Come and take over the oil and clean up".
- Mr. Harbinder was advised by both Oana Enick and Harold Riedler that:
 - The Ministry is not in the waste management business, but that our role was to ensure public and environmental safety by ensuring that the issue is handled as per applicable regulations.
 - RS is responsible to ensure that the oil is managed and disposed of safely and at an authorized facility.
 - Since RS does not hold an authorization to manage hazardous waste at their site, they find themselves in non-compliance with the HWR and EMA and are required to secure and dispose of the PCB-contaminated materials using a licensed transporter and an authorized receiving facility.
 - On an upcoming inspection on April 12, if this material has been disposed of, the Ministry will require copies of the manifests.

Further Action:

- Harold and Oana contacted the CO service via PEP. Jack Trudjan responded and advised the following:
 - Remind the company that they are not an authorized facility and that they are expected to maintain compliance with all applicable regulations at all times,
 - E-mail Chris Doyle, just in case he would like to make a CO available for your inspection.
- Harold and Oana contacted Mr. Harbinder on Friday, April 8th, at 16:16 and advised the following:
 - Richmond Steel is not authorized to manage or store hazardous waste.
 - The Ministry expects the company to be in full and continuous compliance with the Hazardous Waste Regulation, the Environmental Management Act and all other applicable regulations at all times.
 - Disposal of this material and all other PCB contaminated material must happen via a licensed transporter and to an authorized facility.
 - The Ministry expects a plan of action and a time line on how Richmond Steel is going to achieve compliance with the regulations.
 - Mr. Harbinder committed to supply this plan by the end of the week starting April 11th 2011.

Hi Theo:

Harold Riedler and I just received a telephone call from Harbinder Dhillon – General Manager at Richmond Steel. At the moment, Richmond Steel is storing 500 L of 466000 ppm PCB in addition to the other contaminated materials. The Ministry will advise regarding safe handling and disposal and appropriate paperwork. I will drop by to speak with you, but it sounds like you might wish to be involved. Thanks, Oana.

## Enick, Oana V ENV:EX

---

**From:** Enick, Oana V ENV:EX  
**Sent:** Monday, April 11, 2011 7:14 AM  
**To:** Doyle, Chris J ENV:EX  
**Cc:** Trudgian, Jack ENV:EX; Hollamby, Theo ENV:EX; Riedler, Harold ENV:EX  
**Subject:** FYI: Richmond Steel PCB Incident Inspection

Hi Chris :

Late last week I was coordinating with Theo (CEIU) regarding an incident at Richmond Steel. On Friday afternoon, after speaking with Richmond Steel representatives, Harold and I paged CO staff via PEP for additional discussions. Jack responded and suggested that I update you on this issue – hence this e-mail.

s.15  
s.15 . Richmond Steel said they received waste oil (that turned out to be PCB oil) in a scrap metal load from JJ Cool, who apparently denies putting the oil in the scrap metal load. As of Friday afternoon, Richmond Steel had on its property 500 L of oil with a PCB concentration of 466 000 ppm, in addition to other contaminated materials (empty tanks, hoses, etc).

I advised the company that they did not have an authorization to manage or store hazardous waste and that they were responsible to ensure that the oil and other contaminated materials were disposed of in accordance with all applicable regulations, including via a licensed transporter and to an authorized facility. I also advised that the Ministry expects that Richmond Steel maintains compliance with all applicable regulations at all times, and asked for a plan of action on the company's part that would bring and maintain them into compliance.

Investigators from Environment Canada, Harold Riedler, and I (MoE), have scheduled a joint inspection of Richmond Steel's facilities for Tuesday, April 12<sup>th</sup> at 10:00 am. I understand that Theo will be joining us as well if he's able to make it (I'll drop by at about 9:00 am to check with you Theo). I do not know if this incident will result in the need for a CO investigation. I suspect I will be in a better position to assess that tomorrow after the inspection. If an IRF is required, one will be generated.

Thank you all. Have a great Monday, Oana.

**Re:** Inspection Notes of Richmond Steel April 12<sup>th</sup>, inspection.

---

Richmond Steel (RS) site inspection at 10:00 am on April 12, 2011.

1. Site is not a registered hazardous waste site, therefore, the hazardous waste inspection template does not apply.
2. Inspection consisted of a meeting in Richmond Steel site office and a walking tour of the facility.
3. Present at the meeting were:
  - a. John Rai, Buyer of Ferrous Metals, RS
  - b. Barry J. Lee, Assistant General Manager
  - c. James Botelho, Safety, Health, Environmental and Community Manager
  - d. Karl Gustafson, of McMillan Law Corporation on behalf of RS
  - e. Pia Rasmusen, Enforcement Officer, Environment Canada
  - f. Max McDonald, Enforcement Officer, Environment Canada
4. Barry explained the sequence of events that led to Richmond Steel receiving the PCB contaminated material and their subsequent actions.
5. Richmond Steel was advised as detailed in the inspection report dated April 20, 2011.
6. Richmond Steel provided us with the following documents:

Hi Jamie,

Thank you for your call earlier today, and for the opportunity to be of service with the removal and disposal of the PCB Wastes at your facility.

To follow is our proposed Scope of Work to remove and dispose of the PCB wastes in question:

**Overview:**

- Richmond Steel has contracted Tri-Arrow to remove and dispose of the following wastes contaminated with PCB's (Polychlorinated Biphenyls):
  - 1 – Eriez Magnetics Unit "A1" empty and drained, containing residual PCB Contaminated oil (383,000ppm PCB's)
  - 1 – Eriez Magnetics Unit, "A2" empty and drained, containing residual PCB Contaminated oil (27ppm PCB's)
  - 1 – Eriez Magnetics Unit, "A3" containing PCB Contaminated oil (to be drained) (466,000ppm PCB's)
  - 1 - Tidy Tank, empty and drained, containing residual PCB Contaminated oil (31,900ppm PCB's)

**Wednesday April 13 2011**

- Tri-Arrow's field technicians to arrive on site with PCB Rated Drums and Transfer Equipment, to drain unit "A3" into Drum(s)

**Thursday April 14 2011**

- Tri-Arrow's field technicians to arrive on site with PCB Rated Drums and Transfer Equipment to re-drain units "A1," "A2," "A3," and the "Tidy Tank."
- Richmond steel to assist Tri-Arrow's personnel to load the following PCB Wastes onto our Transportation Truck (CleanCare License to Transport Hazardous Waste # LT1205)
- Tri-Arrow to ensure that waste is double contained, secured, and prepared for Transportation.
- Tri-Arrow / CleanCare to transport waste for final disposal.
  - Waste Oil Contaminated with PCB's will be transported for final disposal via High Temperature Thermal Destruction at Swan Hills Treatment Centre
  - PCB Contaminated Solids will be transported for decontamination at Bennett / TCI in Ontario, with residual PCB's extracted during the decontamination process being also shipped for High Temperature Thermal Destruction at Swan Hills Treatment Centre
- Richmond Steel will be provided with copies of Hazardous Waste Manifests at time of shipment, and Certificates of Disposal, upon final destruction of the waste streams in question

Please call me at 604-585-7754 or email me if we could be of any other assistance.

Hi Jamie:

Thanks for the follow up. I have a couple of questions/concerns:

1. I am not sure that Custom Environmental Services is an acceptable destination of your materials. The scope-of-work document you submitted as your Plan of Action indicates that the liquid PCBs will be taken to Swan Hills in Alberta and the metal container to Ontario. Why the change? Can you please clarify, including all supporting documentation?
2. According to the regulations, "the consignor must complete a multiple carrier form and attach it to the manifest". I need a copy of the multiple carrier form as well (photocopy of your copy D will do), so I know exactly who is handling this materials. Can you please supply one for us.
3. The manifest indicates that the materials are not expected to be received for 10 days. Where are they to be stored during this time?
4. The manifests you supplied do not mention the liquid PCBs. Where is that material?
5. The two scanned images of a manifest seem to be identical. Did you mean to send me duplicate images?

Thanks for your attention. I will follow-up with a phone call shortly.

Hi Pia:

Thanks for all your help on the Richmond Steel inspection and for your follow-up at 400 Ewen Street.

The Ministry will follow-up with an acknowledgement of non-compliance with Richmond Steel, but will probably not continue with further inspections at 400 Ewen Street at this time. I am still expecting some paper work (appropriate plan of action and copies of the manifests) from Richmond Steel. As soon as I receive it, I can share it with you if you'd like. I'll call and let you know anyway.

Here are the pictures. If there is anything else that you need from me, please let me know.

Hi James:

Just a quick reminder that as of Friday, end of day, I still have not received any answers to the questions below. We did not speak of a timeline, but I would like to ensure that the material will not be shipped to the Edmonton facility in error. Will you be able to supply the information by the end of day on Monday, please? Thank you, Oana.

## Enick, Oana V ENV:EX

---

**From:** Enick, Oana V ENV:EX  
**Sent:** Tuesday, April 19, 2011 11:05 AM  
**To:** 'James Botelho'  
**Subject:** RE: Action Plan.

Hi James:

Thanks for the update. As we discussed, the Ministry is looking for an Action Plan, prepared by or on behalf of Richmond Steel, in one document. I would expect such a document to contain at a minimum, the following:

1. Facility and contact information,
2. Details of the incident,
3. Details of and extent of subsequent contamination if any,
4. Details of Richmond Steel's response activities, including timelines, contractors and clean-up activities,
5. Photocopies of various documents, including bill of lading and manifest for shipment of hazardous waste'
6. Photocopies of documents confirming destruction of PCB materials and receipt at authorized destruction facilities,
7. Details of actions taken to prevent a re-occurrence,
8. Contingency plan to implement should similar occurrences develop again.

As per our conversation last week, I was expecting to see this plan early this week. However, I have not received it yet. Could you please ensure that you forward a copy of this plan to me?

Thanks again,

**Oana Enick, P.Ag., M.E.T.**  
Environmental Protection Officer  
Environmental Management  
**Ministry of Environment**

**From:** James Botelho [<mailto:James.Botelho@simsmm.com>]  
**Sent:** Monday, April 18, 2011 8:57 AM  
**To:** Enick, Oana V ENV:EX  
**Subject:** Action Plan.

Regarding the incident,

We now have:

Inspectors at lunch time to identify any material that comes in during this Time-( April 6<sup>th</sup>)

Incident was brought up to all employees identifying the hazards of closed containers (April 7<sup>th</sup>)

Management meeting was held to reinforce training on closed containers and procedures going forward on handling items that are suspect. ( April 14<sup>th</sup>)

We are working on Hazardous Materials Recognition Refresher course for all members of RSR.- ongoing

Also I am awaiting some documents from Tri Arrow to Forward your way.

Thank you

Jamie Botelho

**To:** 'James Botelho'  
**Cc:** Enick, Oana V ENV:EX  
**Subject:** FW: Custom permit information  
**Attachments:** Custompermit.pdf; CustomABRnumber.pdf; Swan Hills Approval.pdf

Hi Jamie,

Please find attached a copy of the Hazardous Waste Facility permit for Custom Environmental in Edmonton, which allows them to receive and process PCB Wastes.

Please also find attached a copy of the Hazardous Waste Incinerator permit for Swan Hills Treatment Centre, which allows them to incinerate PCB Wastes.

The Waste PCB Contaminated Transformers, PCB Contaminated Oil Tank, and Low Level (<50ppm) PCB Contaminated Oil were received at Custom yesterday morning (Wednesday April 20<sup>th</sup>), and they are destined to be shipped out to TCI in Ontario for final processing and disposal.

The high level (>50ppm) PCB Contaminated Oil was also received at Swan Hills on Wednesday April 20<sup>th</sup>, and it is presently in storage there awaiting incineration.

We have requested that both receiving facilities scan and email us copies of the completed Copy 3's of each manifest, together with the completed Multiple Carrier Forms. **I will send these to you under separate email cover as soon as we receive these copies.**

Once the wastes have been finally disposed of, you will also receive certificates of disposal for these various wastes. Please keep the originals, and scan & email copies to Oana at BC Environment for her records as well.

I would also suggest that you keep the following documents stapled together and on file for 3+ years, as you receive them in the mail:

- Copies of Hazardous Waste manifests
- Copies of Multiple Carrier Forms
- Copies of Related Analytical
- Copies of Certificates of Disposal

Please call me directly at 604-585-7754 if we could be of any other assistance.

We appreciate your business, and the opportunity to be of service to Richmond Steel!

Best Regards,

s.22  
Tri-Arrow Industrial Recovery Inc.

## APPROVAL

### PROVINCE OF ALBERTA

#### ***ENVIRONMENTAL PROTECTION AND ENHANCEMENT ACT***

**R.S.A. 2000, c.E-12, as amended.**

APPROVAL NO. 134-04-00

APPLICATION NO. 017-134

EFFECTIVE DATE: June 17, 2010

EXPIRY DATE: June 1, 2020

APPROVAL HOLDER: Custom Environmental Services Ltd.

ACTIVITY: **CONSTRUCTION, OPERATION AND RECLAMATION OF THE.**

Edmonton (Elmjay Industrial Park) hazardous waste storage and hazardous recyclables storage and processing facility

**IS SUBJECT TO THE ATTACHED TERMS AND CONDITIONS.**

Designated Director under the Act 

Date Signed June 17, 2010

## TERMS AND CONDITIONS ATTACHED TO APPROVAL

### PART 1: DEFINITIONS

#### SECTION 1.1: DEFINITIONS

- 1.1.1 All definitions from the Act and the regulations apply except where expressly defined in this approval.
- 1.1.2 In all PARTS of this approval:
- (a) "Act" means the *Environmental Protection and Enhancement Act*, R.S.A. 2000, c.E-12, as amended;
  - (b) "alternate fuel" means a liquid, derived from hazardous recyclable material, which is capable of being pumped, that has been collected and stored at the facility, and meets the specifications in TABLE 4.5-B of this approval;
  - (c) "application" means the written submissions to the Director in respect of application number 017-134 and any subsequent applications for amendments of approval number 134-04-00;
  - (d) "ARC Unit" means the processing equipment, consisting of an Aerosol Recycling and Crushing unit, located in the warehouse waste storage area, used to puncture aerosol containers and extract the resultant propellants for further processing in the ICE Unit, as described in the application;
  - (e) "BTEX" means the group of compounds including benzene, toluene, ethylbenzene, and xylenes;
  - (f) "chemical" means any substance that is added or used as part of the treatment process;
  - (g) "container" means any portable device in which a substance is kept, including but not limited to drums, totes, barrels and pails;
  - (h) "day" means any sampling period of 24 consecutive hours unless otherwise specified;
  - (i) "decommissioning" means the dismantling and decontamination of a facility undertaken subsequent to the termination or abandonment of any activity or any part of any activity regulated under the Act;
  - (j) "decontamination" means the treatment or removal of substances from the facility and affected lands;

**TERMS AND CONDITIONS ATTACHED TO APPROVAL**

- (k) "designated transfer areas" means the areas of the facility designated for hazardous waste and hazardous recyclable container loading and unloading as described in the application to be the East Ramp, Loading Dock Ramp, and Warehouse Ramp;
- (l) "Director" means an employee of the Government of Alberta designated as a Director under the Act;
- (m) "dismantling" means the removal of buildings, structures, process and pollution abatement equipment, vessels, storage facilities, material handling facilities, railways, roadways, pipelines and any other installations that are being or have been used or held for or in connection with the facility;
- (n) "facility" means all buildings, structures, process and pollution abatement equipment, vessels, storage facilities, material handling facilities, roadways, pipelines and other installations, and includes the land, located on Lot 7, Block 2, Plan 782-0150, in the City of Edmonton, that is being or has been used or held for or in connection with the Edmonton hazardous waste storage and hazardous recyclables storage and processing facility;
- (o) "facility developed area" means the areas of the facility used for the storage, treatment, processing, transport, or handling of raw material, intermediate product, by-product, finished product, process chemicals, or waste material;
- (p) "fugitive emissions" means emissions of substances to the atmosphere other than ozone depleting substances, originating from a facility source other than a flue, vent, or stack but does not include sources which may occur due to breaks or ruptures in process equipment;
- (q) "grab sample" means an individual sample collected in less than 30 minutes and which is representative of the substance sampled;
- (r) "ICE Unit" means the processing equipment, consisting of an Internal Combustion Engine and heated vacuum process vessel, used to process VOCs resulting from the ARC Unit and from containers of hazardous waste and hazardous recyclable materials contaminated with VOCs, as described in the application;
- (s) "ISO 14001" means the international standard, developed and published by International Organization for Standardization (ISO), specifying requirements for Environmental Management Systems;
- (t) "ISO 17025" means the international standard, developed and published by International Organization for Standardization (ISO), specifying management and technical requirements for laboratories;

November 5, 1991

Mr. Brian M. Winters  
President  
Custom Environmental Services Ltd.  
7722 - 9th Street  
Edmonton, Alberta  
T6P 1L6

Dear Mr. Winters:

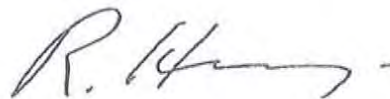

Re: Provincial Identification Numbers

This letter is to confirm that Custom Environmental Services Ltd. has been issued the following Provincial Identification Numbers for the operation as a broker of hazardous wastes in Alberta:

|                  |         |
|------------------|---------|
| Receiver Number  | ABR1062 |
| Generator Number | ABG4413 |
| Carrier Number   | ABC1601 |

Should you need further information, feel free to call the undersigned.

Yours truly,

Robert Huang  
Senior Engineer  
Industrial Wastes Branch

## AMENDING APPROVAL

### PROVINCE OF ALBERTA

#### **ENVIRONMENTAL PROTECTION AND ENHANCEMENT ACT** **R.S.A. 2000, c.E-12, as amended.**

APPROVAL NO. 1744-02-01

APPLICATION NO. 009-1744

EFFECTIVE DATE: March 11, 2008

EXPIRY DATE: November 1, 2015

APPROVAL HOLDER: Earth Tech (Canada) Inc.

340 Midpark Way S.E.

Calgary, AB

T2X 1P1

**Pursuant to Division 2, of Part 2, of the *Environmental Protection and Enhancement Act*, R.S.A.2000, c.E-12, as amended, the approval for the following activity:**

Construction, operation and reclamation of the Swan Hills hazardous waste treatment centre

**is amended as per the attached terms and conditions.**

Designated Director under the Act

Date Signed March 11, 2008

## TERMS AND CONDITIONS ATTACHED TO APPROVAL

Environmental Protection and Enhancement Act Approval No. 1744-02-00 is hereby amended as follows:

1. Parts 1 through 5 are repealed and the following is substituted:

### **PART 1: DEFINITIONS**

#### **SECTION 1.1: DEFINITIONS**

- 1.1.1 All definitions from the Act and the regulations apply except where expressly defined in this approval.
- 1.1.2 In all PARTS of this approval:
  - (a) "Act" means the *Environmental Protection and Enhancement Act*, R.S.A. 2000, c.E-12, as amended;
  - (b) "application" means the written submissions to the Director in respect of application number 008-1744 and any subsequent applications for amendments of approval number 1744-02-00;
  - (c) "aqueous liquid waste" means the liquid waste that has a net heating value of less than or equal to 5,000 kilojoules/kilogram and a viscosity of less than 200 centipoise;
  - (d) "CEM" means continuous emissions monitor;
  - (e) "CEMS Code" means the *Continuous Emission Monitoring System Code*, Alberta Environment, 1998, as amended;
  - (f) "chemical" means any substance that is added or used as part of the treatment process;
  - (g) "commence operation" means to start up the plant, process unit or equipment for the first time with the introduction of feed material, electrical or thermal energy and the simultaneous production of products for which the plant, process unit or equipment was designed excluding predetermined period of commissioning or testing;
  - (h) "container" means any portable device in which a substance is kept, including but not limited to drums, barrels and pails which have a capacity greater than 18 litres but less than 210 litres;
  - (i) "day" means any sampling period of 24 consecutive hours unless otherwise specified;

## TERMS AND CONDITIONS ATTACHED TO APPROVAL

- (j) "decant and feed preparation facility" means the facility where wastes are transferred or prepared for treatment;
- (k) "decommissioning" means the dismantling and decontamination of a plant undertaken subsequent to the termination or abandonment of any activity or any part of any activity regulated under the Act;
- (l) "decontamination" means the treatment or removal of substances from the plant and affected lands;
- (m) "Director" means an employee of the Government of Alberta designated as a Director under the Act;
- (n) "dismantling" means the removal of buildings, structures, process and pollution abatement equipment, vessels, storage facilities, material handling facilities, railways, roadways, pipelines and any other installations that are being or have been used or held for or in connection with the plant;
- (o) "downtime" means the period of time when equipment is not effectively functioning due to breakdown, repair, calibration, servicing, maintenance or replacement of any of its components;
- (p) "dry" means a condition that does not include uncombined water vapour;
- (q) "emergency shutdown" means that event when the operation of an incinerator has been discontinued due to unplanned internal or external causes and the feed of wastes is stopped immediately;
- (r) "the FBD waste staging facility" means a heated building attached to the FBD incinerator;
- (s) "fugitive emissions" means emissions of substances to the atmosphere other than ozone depleting substances, originating from a plant source other than a flue, vent, or stack but does not include sources which may occur due to breaks or ruptures in process equipment;
- (t) "GCDWQ" means the *Guidelines for Canadian Drinking Water Quality*, Health Canada 1996, as amended;
- (u) "grab sample" means an individual sample collected in less than 30 minutes and which is representative of the substance sampled;

**Attention: James Botelho – Safety, Health, Environment, Community Manager**

Dear Sir:

**Re: Inspection Report for the April 12, 2011 Site Inspection of Richmond Steel Recycling Ltd. Facility located at 11760 Mitchell Road, Richmond, BC.**

This letter is in follow up to the site inspection conducted by Ministry of Environment (Ministry) staff on April 12, 2011 at Richmond Steel's facility located at 11760 Mitchell Road, Richmond, BC. This letter shall not be construed as a waiver of any lawful requirement pertaining to the unauthorized discharge of waste to the environment, and is without prejudice to any further legal action that the Ministry may take under the *Environmental Management Act (Act)*.

The April 12<sup>th</sup>, 2011 site inspection was conducted in follow-up to the PCB contamination incident of April 4<sup>th</sup>, 2011. This inspection was based on the *Hazardous Waste Regulation (HWR)*, but does not represent a comprehensive inspection. Although this inspection was limited to specific aspects of the *HWR*, please be advised that all requirements of the *Environmental Management Act (the Act)* and the *HWR* must be complied with at all times. Failure to comply is a violation of the *Act* and may be subject to legal action. For your reference, the *Act* and the *HWR* can be found at the following websites, respectively:

[http://www.qp.gov.bc.ca/statreg/stat/E/03053\\_00.htm](http://www.qp.gov.bc.ca/statreg/stat/E/03053_00.htm)

[http://www.qp.gov.bc.ca/statreg/reg/E/EnvMgmt/EnvMgmt63\\_88/63\\_88.htm](http://www.qp.gov.bc.ca/statreg/reg/E/EnvMgmt/EnvMgmt63_88/63_88.htm)

During the site inspection on April 12<sup>th</sup>, 2011, it was noted that:

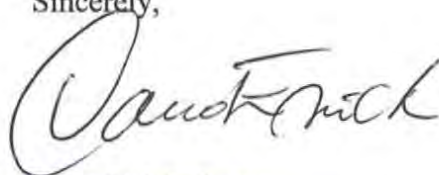

- Richmond Steel was in possession of three containers (metal tanks) that were deemed hazardous waste due to high concentrations of PCBs. These containers were wrapped in plastic sheeting.
- One of the containers described above was full with up to 500 L of oil contaminated PCB.
- A fourth tank, also deemed hazardous waste due to its high PCB contamination was stored just outside one of the sheds.
- Approximately 30 to 40 crushed cars were stored in front of the dismantling shed,
- Approximately 6 drums identified as hazardous waste were in the process of being loaded into a Newalta vehicle.

During the inspection Richmond Steel was advised of the following:

- Richmond Steel is not an authorized hazardous waste facility, and as such storage of hazardous waste at the facility is in non-compliance with the Hazardous Waste Regulation,
- The Ministry expects a Plan of Action as detailed verbally on the day of the inspection and again in e-mail communication on April 15<sup>th</sup> and April 19<sup>th</sup>.
- It is in the best interests of Richmond Steel, that the company retains the services of a Qualified Environmental Consultant to identify all of Richmond Steel obligations under the Environmental Management Act in general as well as those under the Hazardous Waste Regulation in particular.

The Ministry looks forward to working with you to bring your facility into full and continuous compliance with the *HWR*. If you have any questions, or wish to discuss this matter further, please contact Oana Enick at (604) 582-5332 or via e-mail at [Oana.Enick@gov.bc.ca](mailto:Oana.Enick@gov.bc.ca).

Sincerely,

Oana Enick, P. Ag.

Hi Jamie,

Please find attached 'faxed' copies of the completed 'Section C' of the Copy 3's of the Manifests for PCB wastes shipped from your facility to CUSTOM.

I am still waiting for cleaner 'scanned' copies (rather than the attached rougher faxed copies), and for a copy of the Multiple Carrier Forms. Once I receive these I will forward them to you!

Please call me at 604-585-7754 or email me if we could be of any other assistance.

We appreciate your business, and the opportunity to be of service to Richmond Steel!

Best Regards,

s.22  
Tri-Arrow Industrial Recovery Inc.

Hi Jamie,

Please update your records with the attached scanned copies of the completed Multiple Carrier Forms for last week's shipment of PCB Wastes from your facility!

We appreciate your business, and the opportunity to be of service to Richmond Steel!

Best Regards,

s.22  
Tri-Arrow Industrial Recovery Inc.

# Manifest Supplement - Multiple Carriers

Form 5  
Under the authority of the  
Hazardous Waste Regulation  
Schedule 5, Section 47.1

s.22

s.22

**CONDITIONS:** This form can only be used as an attachment to a HAZARDOUS WASTE MANIFEST under the following conditions:

- (a) There is only one Consignor (Generator) and only one Consignee (Receiver) for the shipment described on the referenced manifest.
- (b) There are no additions to or deletions of waste from the consignment after the shipment leaves the consignor's site.
- (c) This form must be attached to the Reference Manifest and must be in the vehicle when the shipment is being transported.

| CONSIGNOR                                                                                       |             |                                          |                      | REFERENCE MANIFEST NO |                      |                    |                 |                    |

## INSTRUCTIONS:

When the shipment has been completed the Consignee (Receiver):

- Attaches Copy A to Copy 3 of Manifest and mails to the appropriate authority in the jurisdiction where consignee is located.
- Attaches copies of Copy B to copies of Copy 4 of Manifest and returns to each Carrier.
- Attaches Copy C to Copy 5 of Manifest and retains for 2 years.
- Attaches Copy D to Copy 6 of Manifest and mails to Consignor.

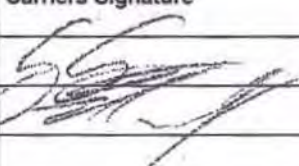

# Manifest Supplement - Multiple Carriers

Under the authority of the  
Hazardous Waste Regulation  
Schedule 5, Section 47.1

**CONDITIONS:** This form can only be used as an attachment to a HAZARDOUS WASTE MANIFEST under the following conditions:

- (a) There is only one Consignor (Generator) and only one Consignee (Receiver) for the shipment described on the referenced manifest.
- (b) There are no additions to or deletions of waste from the consignment after the shipment leaves the consignor's site.
- (c) This form must be attached to the Reference Manifest and must be in the vehicle when the shipment is being transported.

## INSTRUCTIONS:

When the shipment has been completed the Consignee (Receiver):

- Attaches Copy A to Copy 3 of Manifest and mails to the appropriate authority in the jurisdiction where consignee is located.
- Attaches copies of Copy B to copies of Copy 4 of Manifest and returns to each Carrier.
- Attaches Copy C to Copy 5 of Manifest and retains for 2 years.
- Attaches Copy D to Copy 6 of Manifest and mails to Consignor.

**Subject:** Richmond Steel IRF

Hi Cassandra:

As per our discussion, here is the amended IRF form. It now includes Background/Summary, Timeline and Conclusion sections and a timeline which I hope will make it clearer and easier to follow. It also has abridged additional notes. Please let me know if there are any questions. Thanks, Oana.

Richmond Steel  
May 10 Non Comp.

Thanks, Oana.

# Non-Compliance Form

## Compliance and Enforcement Policy and Procedure

Version 2 - May, 2009

### Section A: Record of Non-Compliance

File #: 31010-50/IRP-EP

#### *Who Completes This Section?*

**The program area** for the purpose of:

- 1) Tracking internal divisional response to non-compliance
- 2) Referring an investigation to the COS, i.e. investigation is not subject to IRP or
- 3) Requesting a pre-investigation review by the IRT or RMCT

**The COS** for the purpose of:

- 1) Initiating a pre-investigation review. *(This form is not for use by the COS to refer incidents of non-compliance to a program area for potential response. An occurrence report is used for that purpose.)*

**Date Initiated:** May 10, 2011 **Initiator:** Oana Enick

**Company/Individual:** Richmond Steel

**Address:** 11760 Mitchell Road

**Licence/Approval/Permit #:** Not regulated under the Hazardous Waste Regulation

**Date of Non-Compliance:** On or about April 4<sup>th</sup>, 2011

**Regulatory requirement contravened:** Potentially unauthorized storage and handling of hazardous waste.

#### Non-Compliance Decision Matrix:

**Environmental, human health or safety - Level of Impact:** Level 3

**Likelihood of Compliance - Category:** Category A

#### **Summary:**

Background and Summary:

Richmond Steel is a metal recycler. On March 31, 2011 they received a load of scrap metal which, upon inspection contained three 'tanks' (according to manufacturing information, these were electromagnets used to move metals) filled with fluid. Two of the tanks were drained and

s.15

The third full remained at Richmond Steel, as have the empty containers and associated contaminated materials.

Richmond Steel retained TriArrow to remove and transport the following PCB contaminated materials: Approximately 500 L of oil with a PCB concentration of 466,000 ppm, a total of 4 contaminated tanks/empty electromagnet carcasses, and associated contaminated materials, including hoses, valves, rags, etc.

Richmond Steel removed the PCB materials and is in the process of submitting a Plan of Action, detailing the incident, response actions and actions taken to prevent any re-occurrences. Richmond Steel is not currently in non-compliance with the Hazardous Waste Regulation as they are no longer in possession of this waste.

Timeline:

March 31, 2011, 12:40 pm:

Richmond received a load of scrap metal, from JJ Cool at 400 Ewen Avenue. The load was deposited on the receiving pad.

March 31, 2011, 1:15 pm:

- 3 tanks, approximately 3.5' x 3.5' x 3.0' were found in the load.
- The fluid from two of the tanks was drained in Richmond Steel's day tank.

April 4, 2011:

s.15

April 5, 2011:

s.15

April 7, 2011:

Incident is reported to PEP, under DGIR 110083, and responded to by Harold Riedler.

April 8, 2011:

Richmond Steel requests a teleconference call with Harold Riedler and Oana Enick. Details of that conversation are attached in the e-file.

April 12, 2011:

Oana Enick of the Ministry of Environment and Pia Rasmussen and Maxwell McDonald of Environment Canada inspected Richmond Steel in response to this incident.

April 13, 2011:

Environment Canada staff inspected the JJ Cool facility at 400 Ewen and found no evidence of additional materials containing PCBs.

April 14, 2011:

All PCB materials have been removed from Richmond Steel, by Triarrow.

April 20, 2011:

Ministry sends Inspection Report and continues communication with the company.

April 20, 2011 to April 27, 2011

Richmond Steel and Ministry of Environment continue to maintain contact in an effort to ensure that the facility is operated as per all applicable regulations.

Conclusion:

Richmond Steel removed the PCB materials and is in the process of submitting a Plan of Action, detailing the incident, response actions and actions taken to prevent any re-occurrences. Richmond Steel is not currently in non-compliance with the Hazardous Waste Regulation as they are no longer in possession of this waste. The company is attempting to comply to requests from Ministry Staff.

Communication with Richmond Steel and Environment Canada and communication with the parties involved are attached, in e-format and stored at:

## Section B: Purpose of Form

### Who Completes This Section?

The program area for the purpose of:

- 1) Tracking internal divisional response to non-compliance
- 2) Referring an investigation to the COS, i.e. investigation is not subject to IRP or
- 3) Requesting a pre-investigation review by the IRT or RMCT

**Note:** Program areas that are only printing sections A & B should print and retain only pages 1 and 2.

The COS for the purpose of:

- 1) Initiating a pre-investigation review. (This form is not for use by the COS to refer incidents of non-compliance to a program area for potential response. An occurrence report is used for that purpose.)

**Indicate the purpose for completing this form (select one option below only):**

- ☐ 1. Recommendation of internal divisional response to non-compliance.

Action: Other

Notes:

Initiator:

Date:

Section Head:

Date:

#### ROUTING:

Initiator: Forward sections A & B of this form to your Section Head.

- ☐ 2. Referral to the COS for investigation (i.e. investigation is not subject to the IRP).

#### ROUTING:

Initiator: Forward sections A & B of this form to the COS Field Supervisor in location of non-compliance.

- ☒ 3. Request for pre-investigation review.

Complete Section C: Request for Pre-Investigation Review

## Section C: Request for Pre-Investigation Review

*Who Completes This Section?*

**The initiator** (program area staff or CO) for the purpose of requesting a pre-investigation review by the Investigation Review Team (IRT).

**Has cross-divisional consultation occurred?**

☐ No

Why not?

☒ Yes

With Whom? EP and COS

Was there consensus? Yes

If No, what were the points of disagreement?

**Estimated staff resources/ budget requirements**

Staff resources (estimated): High

Financial Resources (estimated): High

**Has the Investigation already begun?**

☒ No

☐ Yes, due to exigent circumstances

☐ Yes, due to ongoing program support not having been previously anticipated

s.15

Date submitted to the IRT via Field Supervisor or Section Head: April 21, 2011

**ROUTING:**

**PROGRAM AREAS:** Send to the Section Head who will then form the IRT.

**COS:** Send to the Field Supervisor who will then form the IRT.

**The IRT must conduct a pre investigation review and make a decision within 15 business days of having received the form.**

## Section D: Pre-investigation Review by the IRT

*Who Completes This Section?*

The COS Field Supervisor for the purpose of recording the decision made by the IRT.

The IRT must conduct a pre investigation review and make a decision **within 15 business days** of having received the form.

### Investigation Supported (Check one):

☐ No

Rationale for Decision:

Action/Direction/Notes:

#### **ROUTING:**

*IRT: Advise relevant parties within their division of the IRT's decision.*

*COS Field Supervisor: Notify initiator and update [tracking log](#).*

*COS Admin: File paper copy of Non Compliance Form using the file number found on the form.*

☐ Yes

Action/Direction/Notes:

Financial Resources Allocated (by division):

Staff Resources Assigned:

#### **ROUTING:**

*IRT: Advise relevant parties within their division of the IRT's decision.*

*COS Field Supervisor: Notify initiator, update [tracking log](#) and forward the form to the lead investigator.*

*COS Lead Investigator: Attach this form to COORS case.*

*COS Admin: File paper copy of this form using COORS case number (once investigation is completed you will receive the completed copy).*

☐ Referral is made to the Regional Management Compliance Team (RMCT)

- ☐ The IRT cannot reach consensus;
- ☐ The IRT is unable to resource the investigation; and/or
- ☐ The investigation is sensitive in nature.

Action/Direction/Notes:

Recommended Allocation of Financial Resources (If applicable):

Recommended Assignment of Staff (If applicable):

#### **ROUTING:**

*IRT: Advise relevant parties within division of the IRT's decision.*

*COS Field Supervisor: Notify COS Operations Manager and update [tracking Log](#).*

## Section E: Pre-Investigation Review by the RMCT

*Who Completes This Section?*

The **COS Operations Manager** for the purpose of recording the decision made by the RMCT as a result of a referral made by the IRT for a pre-investigation review.

**RMCT** must conduct a pre investigation review and make decision **within 15 business days** of receiving the NCF from the IRT.

**Investigation Supported (Check one):**

☐ No

Rationale for Decision:

**ROUTING:**

*RMCT: Advise relevant parties within their division of the RMCT's decision.*

*COS Operations Manager: Notify the COS Field Supervisor.*

*COS Field Supervisor: Notify IRT and initiator and update [tracking log](#).*

*COS Admin: Replace filed paper copy of the form using the file number found on the form.*

☐ Yes

**Resources Assigned:**

☐ Agree with the recommendations by the IRT in Section D.

☐ Do not agree with the recommendations by the IRT in Section D. Resources assigned are detailed below.

Allocation of Financial Resources:

Assignment of Staff:

Notes:

**ROUTING:**

*RMCT: Advise relevant parties within their division of the RMCT's decision.*

*COS Operations Manager: Notify Field Supervisor.*

*COS Field Supervisor: Notify initiator and IRT, update [tracking log](#) & forward form to lead investigator.*

*COS Lead Investigator: Open COORS case & attach form.*

*COS Admin: Replace filed paper copy of this form using COORS case number (once investigation is completed you will receive the completed copy).*

# Non-Compliance Form

## Compliance and Enforcement Policy and Procedure

Version 2 - May, 2009

### Section A: Record of Non-Compliance

File #: 31010-50/IRP-EP

#### *Who Completes This Section?*

**The program area** for the purpose of:

- 1) Tracking internal divisional response to non-compliance
- 2) Referring an investigation to the COS, i.e. investigation is not subject to IRP or
- 3) Requesting a pre-investigation review by the IRT or RMCT

**The COS** for the purpose of:

- 1) Initiating a pre-investigation review. *(This form is not for use by the COS to refer incidents of non-compliance to a program area for potential response. An occurrence report is used for that purpose.)*

**Date Initiated:** May 12, 2011    **Initiator:** Oana Enick

**Company/Individual:** Richmond Steel

**Address:** 11760 Mitchell Road

**Licence/Approval/Permit #:** n/a

**Date of Non-Compliance:** On or about April 4<sup>th</sup>, 2011

**Regulatory requirement contravened:** Potentially unauthorized storage and handling of hazardous waste.

#### Non-Compliance Decision Matrix:

**Environmental, human health or safety - Level of Impact:** Level 3

**Likelihood of Compliance - Category:** Category A

#### **Summary:**

Background and Summary:

Richmond Steel is a metal recycler. On March 31, 2011 they received a load of scrap metal which, upon inspection contained three 'tanks' filled with fluid. Two of the tanks were drained and

s.15

The third full tank remained at Richmond Steel, as have the empty containers and associated contaminated materials.

Richmond Steel then retained TriArrow to remove and transport the remaining PCB contaminated materials of approximately 500 L of oil with a PCB concentration of 466,000 ppm. In total, the PCB contaminated items included: 4 contaminated tanks/empty electromagnet carcasses, and associated contaminated materials, including hoses, valves, rags, etc.

Richmond Steel is in the process of submitting a Plan of Action, detailing the incident, response actions and actions taken to prevent any re-occurrences.

Timeline:

March 31, 2011, 12:40 pm: Richmond received a load of scrap metal, from JJ Cool at 400 Ewen Avenue. The load was deposited on the receiving pad.

March 31, 2011, 1:15 pm: 3 tanks, approximately 3.5' x 3.5' x 3.0' were found in the load. The fluid from two of the tanks (1,200 L) was drained in Richmond Steel's day tank.

April 4, 2011: s.15

April 5, 2011: s.15

April 7, 2011: Incident is reported to PEP, under DGIR 110083, and responded to by Harold Riedler.

April 8, 2011: Richmond Steel requests a teleconference call with Harold Riedler and Oana Enick. Details of that conversation are attached in the e-file.

April 12, 2011: Oana Enick of the Ministry of Environment and Pia Rasmussen and Maxwell McDonald of Environment Canada inspected Richmond Steel in response to this incident.

April 13, 2011: Environment Canada staff inspected the JJ Cool facility at 400 Ewen and found no evidence of additional materials containing PCBs.

April 14, 2011: All PCB materials have been removed from Richmond Steel, by Triarrow.

April 20, 2011: Ministry sends Inspection Report and continues communication with the company.

April 20, 2011 to April 27, 2011: Richmond Steel and Ministry of Environment continue to maintain contact in an effort to ensure that the facility is operated as per all applicable regulations.

Communication with Richmond Steel and Environment Canada and communication with the parties involved are attached, in e-format and stored at:

| <input type="checkbox"/> Company/Property searches ( <a href="#">BC Online</a> ) | <input type="checkbox"/> Non-compliance entry in program database |

**Additional Notes:**

1. EP staff (Cassandra Caunce, Shelley Metcalfe and Oana Enick) discussed this file on April 20, 2011, and the decision to proceed with the current Non-Compliance Form was made.

2. As the waste is no longer on site, the risk level determination is somewhat ambiguous. The material is no longer present, therefore, it poses minimal risk to the environment; that would be a risk level of 1. However, some of this highly contaminated material may have been spilled or leaked, in which case an estimated level 3 "Non-compliance resulting in a moderate,

temporary impact to the environment or moderate, temporary threat to human health or safety" may be warranted.

3. At this time, the information available (e.g., e-mail messages, inspections, etc.) suggests that the company is able and willing to comply to applicable regulations.

## Section B: Purpose of Form

### Who Completes This Section?

The program area for the purpose of:

- 1) Tracking internal divisional response to non-compliance
- 2) Referring an investigation to the COS, i.e. investigation is not subject to IRP or
- 3) Requesting a pre-investigation review by the IRT or RMCT

**Note:** Program areas that are only printing sections A & B should print and retain only pages 1 and 2.

The COS for the purpose of:

- 1) Initiating a pre-investigation review. (This form is not for use by the COS to refer incidents of non-compliance to a program area for potential response. An occurrence report is used for that purpose.)

**Indicate the purpose for completing this form (select one option below only):**

- ☐ 1. Recommendation of internal divisional response to non-compliance.

Action: Other

Notes:

Initiator:

- ☐ 2. Referral to the COS for investigation (i.e. investigation is not subject to the IRP).

#### ROUTING:

Initiator: Forward sections A & B of this form to the COS Field Supervisor in location of non-compliance.

- ☒ 3. Request for pre-investigation review.

Complete Section C: Request for Pre-Investigation Review

**Section C: Request for Pre-Investigation Review**

*Who Completes This Section?*

**The initiator** (program area staff or CO) for the purpose of requesting a pre-investigation review by the Investigation Review Team (IRT).

**Has cross-divisional consultation occurred?**

☐ No

Why not?

☒ Yes

With Whom? EP and COS

Was there consensus? Yes

If No, what were the points of disagreement?

**Estimated staff resources/ budget requirements**

Staff resources (estimated): Unknown at this time

Financial Resources (estimated):

**Has the Investigation already begun?**

☒ No

☐ Yes, due to exigent circumstances

☐ Yes, due to ongoing program support not having been previously anticipated

Date submitted to the IRT via Field Supervisor or Section Head: May 12, 2011

**ROUTING:**

**PROGRAM AREAS:** Send to the Section Head who will then form the IRT.

**COS:** Send to the Field Supervisor who will then form the IRT.

**The IRT** must conduct a pre investigation review and make a decision **within 15 business days** of having received the form.

## Section D: Pre-investigation Review by the IRT

*Who Completes This Section?*

The COS Field Supervisor for the purpose of recording the decision made by the IRT.

The IRT must conduct a pre investigation review and make a decision **within 15 business days** of having received the form.

### Investigation Supported (Check one):

☐ No

Rationale for Decision:

Action/Direction/Notes:

#### ROUTING:

IRT: Advise relevant parties within their division of the IRT's decision.

COS Field Supervisor: Notify initiator and update [tracking log](#).

COS Admin: File paper copy of Non Compliance Form using the file number found on the form.

☐ Yes

# Non-Compliance Form

## Compliance and Enforcement Policy and Procedure

Version 2 - May, 2009

### Section A: Record of Non-Compliance

File #: 31010-50/IRP-EP

#### *Who Completes This Section?*

The **program area** for the purpose of:

- 1) Tracking internal divisional response to non-compliance
- 2) Referring an investigation to the COS, i.e. investigation is not subject to IRP or
- 3) Requesting a pre-investigation review by the IRT or RMCT

The **COS** for the purpose of:

- 1) Initiating a pre-investigation review. (This form is not for use by the COS to refer incidents of non-compliance to a program area for potential response. An occurrence report is used for that purpose.)

**Date Initiated:** May 12, 2011    **Initiator:** Oana Enick

**Company/Individual:** Richmond Steel

**Address:** 11760 Mitchell Road

**Licence/Approval/Permit #:** n/a

**Date of Non-Compliance:** On or about April 4<sup>th</sup>, 2011

**Regulatory requirement contravened:** Potentially unauthorized storage and handling of hazardous waste.

#### Non-Compliance Decision Matrix:

**Environmental, human health or safety - Level of Impact:** Level 3

**Likelihood of Compliance - Category:** Category A

#### **Summary:**

**Background and Summary:**

Richmond Steel is a metal recycler. On March 31, 2011 they received a load of scrap metal which, upon inspection contained three 'tanks' filled with fluid. Two of the tanks were drained and

s.15

The third full tank remained at Richmond Steel, as have the empty containers and associated contaminated materials.

Richmond Steel then retained TriArrow to remove and transport the remaining PCB contaminated materials of approximately 500 L of oil with a PCB concentration of 466,000 ppm. In total, the PCB contaminated items included: 4 contaminated tanks/empty electromagnet carcasses, and associated contaminated materials, including hoses, valves, rags, etc.

Richmond Steel is in the process of submitting a Plan of Action, detailing the incident, response actions and actions taken to prevent any re-occurrences.

Ministry of Environment

Timeline:

March 31, 2011, 12:40 pm: Richmond received a load of scrap metal, from JJ Cool at 400 Ewen Avenue. The load was deposited on the receiving pad.

March 31, 2011, 1:15 pm: 3 tanks, approximately 3.5' x 3.5' x 3.0' were found in the load. The fluid from two of the tanks (1,200 L) was drained in Richmond Steel's day tank.

April 4, 2011: s.15

April 5, 2011: s.15

April 7, 2011: Incident is reported to PEP, under DGIR 110083, and responded to by Harold Riedler.

April 8, 2011: Richmond Steel requests a teleconference call with Harold Riedler and Oana Enick. Details of that conversation are attached in the e-file.

April 12, 2011: Oana Enick of the Ministry of Environment and Pia Rasmussen and Maxwell McDonald of Environment Canada inspected Richmond Steel in response to this incident.

April 13, 2011: Environment Canada staff inspected the JJ Cool facility at 400 Ewen and found no evidence of additional materials containing PCBs.

April 14, 2011: All PCB materials have been removed from Richmond Steel, by Triarrow.

April 20, 2011: Ministry sends Inspection Report and continues communication with the company.

April 20, 2011 to April 27, 2011: Richmond Steel and Ministry of Environment continue to maintain contact in an effort to ensure that the facility is operated as per all applicable regulations.

Communication with Richmond Steel and Environment Canada and communication with the parties involved are attached, in e-format and stored at:
