Subject: Science curriculum

Hi Kit,

I have a constituent that is concerned about the proposed changes in the science curriculum. According to her the changes in the elementary grades would in her words "obliterate environmental education for our children". I'm wondering if you can help me give her an accurate answer as to what the proposed changes will include and how do they impact the environmental educational aspects of the curriculum

Thanks, Jean

Hon. Peter Foaden:

You have received a request
from SD45 for a mere \$30,000
a year to operate a Strong
Start program for highly
vulnerable at-risk kids in the
British Properties. In view
of the premium school taxes
we pay, and the below -
average wages we pay,
this seems to be a modest
request which you should OK.

Good Morning s.22

MLA Thomson appreciates your taking the time to apprise him of your concerns regarding proposed curriculum changes. He has asked me to forward your email to the Honourable Peter Fassbender, Minister of Education and also to suggest that you might wish to meet with your local MLA to discuss your concerns. If you are not sure who that is, you can find your local member at the following link: www.leg.bc.ca.

Thank you again for your correspondence.

Hi Kit,

We received the attached letters regarding literacy funding. Is there any documentation you can provide to me so that Minister Stone can send an appropriate response to the letters?

Thanks.
