

September 8, 2014

Jim Prentice
Premier-designate
Province of Alberta
Legislative Buildings
Edmonton, AB T5K 2B6

Dear Jim:

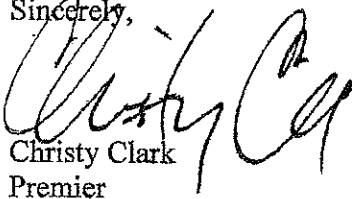

Congratulations on your decisive leadership victory on the weekend. This is no doubt a very proud occasion for you and your family.

As neighbouring provinces, BC and Alberta have a lot in common and our focus has been primarily on economic growth and environmental stewardship. We have always had a strong bilateral relationship with Alberta and I look forward to that continuing. I understand and appreciate the importance of the New West Partnership provinces (BC, AB and SK) working together to make our respective provinces, and Canada, more competitive and open to the world.

I also understand the importance of including First Nations in any and all discussions because working together, as I have learned during my time as Premier, has always been more effective and productive all around.

I'm looking forward to speaking with you more and wish you all the best as you seek to secure a seat in the Alberta Legislature.

Sincerely,

Christy Clark
Premier

*A great result
for Alberta and
for Canada!

June 26, 2014

The Honourable Diana McQueen
Minister of Energy, Province of Alberta
c/o Lauren Vriens, Sr. External Relations Consultant
International Energy Policy Strategy Division
9945 108 Street NW, 5th floor Petroleum Plaza
Edmonton, AB T5K 2G6

Dear Minister McQueen:

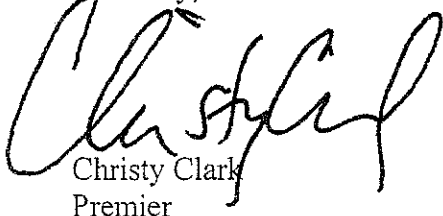

Thank you for your participation in the second LNG in B.C. Conference, *Powering a Strong Economy: British Columbia's LNG in the Global Market*. Your contribution helped make this year's conference a world-class event.

I also want to thank you for sponsoring the conference. With your support, we were able to expand the size and scope of this year's conference, which was sold out with 1,400 delegates – almost three times last year's attendance. In addition, we added a trade show with more than 200 exhibitors and a career fair to promote jobs in the LNG sector attended by more than 1,500 youth.

This conference has become pivotal to our efforts to build a liquefied natural gas sector in British Columbia. It is a chance for industry, stakeholders and all levels of government to come together to discuss issues related to LNG development. As such, we are already planning our next conference for October 14-16, 2015, in Vancouver. I'd be pleased if you would consider sponsoring this event again.

It was good to see you, and I hope you will continue to work with us to deliver LNG in B.C.

Sincerely,

Christy Clark
Premier
