NATURAL GAS SUPPLY AND DEMAND IN BC

Historical Activity Updated

- BC produced 330.0 Bcf of marketable natural gas from January to March of 2013, up 1.2 percent from the same period in 2012.
- BC consumed 20.4 percent of its marketable natural gas production from January to February 2013 compared to 20.9% during the same time in 2012. BC exported the rest of production to eastern Canada and the US.
- BC's own natural gas demand was up 1.0 percent from January to March 2013 compared to the same months in 2012. January to March 2012 had one extra day in it because it was a leap year. Domestic average daily consumption factoring in the leap year shows demand was up slightly by 0.4%
- BC's January to February exports to Alberta (via NOVA System) was up 12.9% and Chicago (via Alliance System) was down 2.3%. BC exports to the Pacific Northwest were down 10.6%
