Here is what I have sent to CabOps. I have made further tweaks based on some feedback from my team. If you have further changes, please let me know by the end of the day.

s.12, s.13

Further to Charlotte's request late Friday, attached is a PowerPoint deck that explores s.12, s.13
I have run this by BC Hydro and verified the numbers, but it probably needs a good once-over before being finalized.

I am not sure where this might go this week, or who will present it. However this proceeds, I would strongly recommend that BC Hydro (Dave Cobb) be present to respond to questions Ministers may have.

Please give me a shout if you have any questions.
