Narrative

Anaka attends COM res. A number of bears are seen at all times of day. Use property as access to other properties and spend time in trees. No attractants on site, but one bear did get feed of bird seed. Sow w/ 1yr cub, 2 adolescent bears, 1 mature bear all seen during daylight. Younger bears are difficult to scare and return soon after. Can no longer allow his child into back yard during day. Two adolescent bears about 200lbs are the worst and come back quickly. Advise COM that a trap would be placed in his back yard and would return at 1600H to do so. Believe that one of the adolescent bears is also responsible for property damage on Atlin St (1 block away). Provided Bear safety Brochure. Numerous complaints in area. 1600 Culvert trap placed in COM's back yard. Provided 84 PPH to call when bear caught. 2011-06-01, 0700 COM contacts Call Center and advises that bear is in trap. 2011-06-01, 0840 Anaka attends. Male bear ~200lbs in trap. Meets description of problem bear. Trap/bear removed from site. 1000 Bear destroyed and carcass left as carrion off FSR. Concluded attended. 2011-06-04 LISTER calle

s.22 regarding sighting of cub. LISTER advised him that trapped bear was a male, so this is an unrelated incident.

call received from ECC re: injured deer trapped between double fencing at prison. details from COM indicated the deer had stomach contents hanging out of abdomen, deer was not mobile when approached and bled heavily. 11:37 Attended location and dispatched deer in question. Deer disposed

CO HILGEMANN ATTENDED COMPLAINT. REMOVED INJURED BALD EAGLE FROM THE PROPERTY. DESTROYED THE BIRD AND STORED IT IN THE FREEZER AT THE OFFICE.

1030 CO GORECKI attended and set trap; also destroyed one bear trying to enter trap as it was being set. 1533 COM called to report another bear on her deck. CO GORECKI called COM and advised her to keep her doors and windows closed, secure attractants and to let her neighbors know to do the same. 2011-06-08 1058 Bear entered trap. 1200 CO GORECKI removed trap, destroyed bear.

s.22 2011-06-07 16:28 Calle property manager of Kaleva Garden

Larger bear of the two does not move or walks away slowly when hazed. Larger bear has little to no fear of humans. Bears getting into garbage during the 1/2 hour that people put their garbage out for pickup. Advised that I would set a LBT. 2011-06-07 21:22 Attended Kaleva Gardens and set LBT. 2011-06-07 22:08 PWOR #11-2918 update #7, Bear in Trap. 2011-06-07 22:20 Attended Kaleva Gardens, bear in trap. Approx 200lbs Bear with small white patch between front legs. Suspected to be the same bear observed at sunset elementary school, PWOR #11-3899. Release bear on Nimpkish Main. 2011-06-08 17:17 Attended Kaleva Gardens and reset LBT. 2011-06-08 22:34 PWOR #11-4045, Bear in Trap. 2011-06-09 06:03 PWOR #11-2918 update #8, Bear in Trap. 2011-06-09 07:32 Attended Kaleva Gardens, bear in trap. Approx 180lbs bear with large white patch between front legs, long face. Described by com as the bear that runs off when hazed. Release bear on Skidder Main.

s.22

Is in the process of getting chains welded on dumpsters to secure them. 2011-06-07 16:42 Called com. Observed two bears on 2011-06-05 hanging out together. One has white patch on it that runs away when hazed. 2011-06-07 17:00 Bear trap set in area where bear tracks are plentiful. 2011-06-08 22:00 LISTER attended and found a bear had been around the house, left it 3 scat and tore up a bag of grass seed. Smaller scat than the suspect bear was leaving a

s.22

22 Check trap and found it had been tripped when bait sack pulled out through front grate. Located small bear near tarp a short while later and destroyed it. 2011-06-09 11:00-13:30 LISTER returned and noted bear carcass was moved slightly. Fresh track from larger bear nearby. Modified trap to block access to bait sack from outside and rebaited trap. Removed bear carcass for disposal. 2011-06-09 10:14-13:00 advised last night that 22 has gone to work and she would not be able to check the trap, so LISTER attended location and checked trap. Door sprung and yearling cub observed inside the trap. Mother not observed. Cub released unharmed and hazed. Trap is now filthy. Can't re-bait and ANAKA would not be happy to deal with, so trap removed after much winning. Advise

of situation and we will re-attend if

s.22

22 continue to have problems.

2011-06-08 09:33 CO ACKLES RESPONDED TO COUGAR SIGHTING IN POPULATED URBAN NEIGHBOURHOOD. COUGAR WAS CONFINED TO 3 ACRE WOODED AREA SURROUNDED BY RESIDENTIAL HOUSING. WOODED AREA HAD CHILDRENS PLAY FORTS AND TRAILS. ELEMENTARY SCHOOL WITHIN .5 KILOMETER. CO ACKLES REQUESTED RCMP ASSIST AND CALLED MOE HOUNDSMAN TO FREE COUGAR FOR SAFE DISTRUCTION. CO ACKLES DISPATCHED COUGAR IN TREE WITH SERVICE SHOTGUN, SINGLE SHOT FIRED.

LISTER attended location after learning of an attack on one of the pigs. Inspected the pig and found canine punctures on the withers area. Obviously a bear, but pig too large to carry away. Bear was near back of pig run and it ran off when LISTER arrived. Large bear tracks all over the area. LISTER to set trap, as this is second pig attack in this area. 2011-06-07 17:00 Bear trap set in area where bear tracks are plentiful. 2011-06-08 22:00 LISTER attended and found a bear had been around the house, left it 3 scat and tore up a bag of grass seed. Smaller scat than the suspect bear was leaving a

of situation and we will re-attend if

CO Kissinger called RCMP back and noted details. CO Kissinger inspected the area and located a 2 year old black bear attempting to cross a 4 lane highway. CO Kissinger hazed the bear back into the green space three times, but the bear continued to attempt to cross the road. CO Kissinger noticed that the bear was injured and bleeding from the left rear leg. With RCMP Back up CO Kissinger tranquilized the bear and examined it. The bear appeared to have been shot 1-2 days earlier and could not be released. CO Kissinger safely dispatched the bear.

2011-06-21 16:00

2011-06-14 11:27

2011-06-07 1430 CO GORECKI set trap. 2011-06-08 1000 CO GORECKI attended, removed bear, immobilized it, tagged left ear #71 (blue) 1400 Released bear at Brandywine Creek FSR

Call Centre called back moments later and advised that the deer was gone. Did not attend. 2011-06-09 1420 Deer still alive, still injured. CO GORECKI attended and dispatched deer.

2011-06-09 13:39 A/Insp. Jacobi contacted the COM and left a VMIM with the following. Leave the bear cub alone for most of the day but contact Critter Care to ensure they can pick up the cub if the sow does not return to get the cub. Jacobi also requested that COM contact COS again if and when they do have Critter Care pick up the cub. 2011-06-14 10:00 Jacobi advised bear is now at Critter Care.

2011-05-30 20:00

2011-06-11 15:59 CO Stahl called com. No answer. Left voice mail message advising com: - take down bird feeder for 2 weeks - keep back door closed - call RAPP (left number) back if bear returns - purchase and use bear bangers to scare bear away (fire bear hanger outside and straight into air) - if bear is an immediate threat - call RCMP. 2011-06-29 1900hrs CO CHRETIEN contacted com in regards to the pwor update. Refer to COORS file 201103564 2011-07-07 1900hrs CO CHRETIEN place culvert trap on property. 2011-07-17 1800 hrs CO KELLY removed the trap and dispatched the bear on Stave Lake FSR 4 hrs CO KELLY

2011-06-11 2030hrs. CO DOYLE received report via RCMP radio of bear in trap. 2123hrs CO DOYLE and CO MUELLER arrived at Mount Currie Trap location and observed yearling BB in trap. Bear was in healthy condition and approx 2 years of age. Drug was prepared by CO MUELLER and bear was jab sticked by CO DOYLE. Approx 1-2 minutes and bear was under anesthesia. Eye cream was pliced in eyes for protection and bear was adjusted for travel in proper positioning. Bear was nuisance to Mount Currie residence and had previous PWOR entries for garbage/property damage. Bear was taken to FSR in Pemberton and destroyed by CO DOYLE using 1 slug to central nervous system. Bear was taken by CO DOYLE to Squamish for proper disposal in landfill.

2011-06-09 1215- TYRE called COM and clarify location Alberni Hwy no Alberni Wy - location is w/ 1 km of Rimvold rd, likely same juvenile bear. TYRE advised com that he will attend following day and set a trap. 2011-06-10 1400 - TYRE attended and set culvert trap. 2011-06-21 1250 hrs. CO BATES attended site and picked up live trap with bear in it. COM reported that bear did not meet description of offending bear. No reports of sows with cubs in the area. 2011-06-21 1600 hrs. CO BATES euthanized bear. adult femal. no sign of lactation. Carcass disposed of.

2011-06-13 11:45 Anaka calls COM who advised that neighbour saw a black bear jump over his fence and they are now missing a goat. There is a drag mark in the grass and they followed to the bush. Remaining goats are now secured. Advise will attend at 1300H. 2011-06-13 13:00 Attend speak to COM's wife who pointed out where bear was last seen. Follow drag mark (no blood) from goat pen across neighbours property to alder bottom approx. 150m away and locate 2 mature bbears feeding on carcass. Both ran off into dense undergrowth. Remove goat carcass to edge of open field and wait in barn for bear to return. 2011-06-13 14:15 One bear returns to feed on carcass and is shot by Anaka. Bear and goat carcass removed. 2011-06-13 14:50 Speak w/ COM and advise on action. Provide advise on fencing and safety for her children. Provide e-fencing document and bear safety pamphlet. 2011-06-13 15:00 10-8 2011-06-13 15:35 Drop off bear a possess. 2011-06-13 15:50 10-8 2011-06-13 16:05 Wash truck. 2011-06-13 16:40 10-35. shot with rifle, broken right femur

10-17 to location. 1001 Shot two cougar kittens out of free – appeared to be slightly emaciated and had been in area for three weeks – another cougar kitten was seen running through brush after 2nd kitten shot. COs Ackles and Bates previously sighted kittens 2011 03 21 @ 1520 400 m from the NW bay logging gate and appeared healthy – approximately 3 kms from this site – c/n advised there had been several sightings in the area all during daylight hours - 1008 Calle rives on scene and we search green space with hounds – no sign of mother found, covered area with the dog and found an older winter killed deer carcass that the kittens had been feeding on – non typical behaviour for kittens to be feeding on rotten meat 1200 Shot ten out of free. Examination noted several broken teeth on the kittens. RCMP OCC notified after shots fired.

TYRE get message from s.22 that a bear is eating a sheep in the back yard; TYRE discuss with NEWTON, based upon the fact that NEWTON pullback and advise property owner that they will return in morning 2011-05-10 0545 TYRE/NEWTON/CHRETIEN 10-23; TYRE observe bear on kill and destroy 0700 COs remove bear from site with ATV

s.22

s.22 told TYRE that he was looking for the sheep and is currently not answering his cell phone TYRE and NEWTON decide to attend 2200 10-23 – bear on site but CO's unable to shoot; TYRE and

s.22

CO Newton and Ambrose attended One problem bear reported, second bear observed w/ larger offending bear. Culvert Trap set at the address on the PIWOR was told to remove attractants, mainly empty bottles (alcohol, cooking oil) along the side o trapped or is sighted in the area again 2011-05-25 0900 CO NEWTON received call that large Black Bear is in the trap. Second bear is circling the trap. CO NEWTON attended, and removed the trap. Second BB not sighted. Advised COM that we will set the trap again in attempt to catch the second bear. COM asked if these bears were to be relocated. CO NEWTON advised COM that the bear would be destroyed based on aggressive behaviour, trying to break into the house. 1000 CO NEWTON and CO AMBROSE took the bear to the Port Alberni landfill, CO AMBROSE euthanized this BB. Mature female. 1400 CO Ambrose reset trap at complainants residence to trap remaining bear. CO Ambrose explained reasons why the first BB was destroyed and why translocation isn't used. Complainant cleaned up attractants (empty bottles) on side of house 2011-05-27 trap removed – rapp # reiterated and advised to call if bear returns

s.22

was told to phone the RAPP line if the bear gets

McFadden attended at RCMP request and dispatched 2 year old black bear with front broken leg.

CO MCFADDEN arrived on site and dispatched a black bear with a broken front leg.

Male bear with broken leg destroyed

CO BUSINK attended COM advised that all 3 bears were in the house and opened a window to get inside. They left for awhile and then returned while the COM was inside the house. Bears attempted to get into the window despite the COM hanging on the other side of the window. CO BUSINK attended and watched the bears leave as he arrived. Trap was full with 2 cubs from Critter Care to be relocated. Advised COM that CO would return later. 2150 hours. CO BUSINK set trap. 2011-06-20 1630 - CO BUSINK attended. One cub in trap, sow and other cub hanging around trap. BUSINK shot sow which ran into green space/swamp. CO BUSINK shot outside cub and spent 2 hours searching for sow. BUSINK found blood trail and four places where sow lay down. CO BUSINK believes wound is mortal and sow has died somewhere in the swamp. 1830 - BUSINK departed residence with cub in trap. Destroyed cub and dumped off East Pemberton Farms Road at approx. 3km. 1915 - Rise trap at Whistler yard then left trap at Whistler office.

CO BATES attended complainant on site and pointed out deer lying in bushes next to building. CO BATES put down male deer and removed carcass for disposal.

s.22

CO McFadden

s.22

and the 3 new recruits in Maple Ridge are non operational due to training requirements (i.e. can't work alone). CO Stahl called com. Com stated that this is the 3rd time that the bear has been around and last night it ripped off a door to his house. He tried to scare it off with an airhorn but it had no effect on bear. June 22 2011 10:34 CO Stahl and Kelly picked up trap. Bear was caught in trap and destroyed.

2011-06-20 15:52 CO Stahl

TYRE called COM and left voice message thanking for the update and that TYRE would be working on the west coast on Sunday and will contact COM for an update at that time and will decide if bear is to be trapped or otherwise dealt with. 2011-07-08 14:41 = co ackles called in to advise he talked to c/h - he cannot see anything in the snare - thinks maybe a raccoon tripped the trap - ackles asked that a note be sent to CO TYRE to enquire when/if snares were set by him - it there more than one bear? Email sent to Tyre (and bates) asking to call ackles on cell asap to advise. 2011-07-20 TYRE attend and free range two 3-4 yr old male black bears with 30.06. 2011-08-18 10:19 TYRE rec'd email from Russel DYSON, ACRD - completed required works to fix fence - machine cleared 12' from fence on outside and graded ground along fence. new program implemented to inspect works to ensure conditions of contract met. Inspections will be done 4x year to ensure contractor following through. see \\Seahawk\s40065\Investigations\Central_Island_Zone\TYRE_Left\2011\PWOR\11-5190_WestCoastLandfill

TYRE spoke with COM and was advised that employees are walking fence perimeter looking for a possible breach. One employee is carrying a shotgun. TYRE suggested that it may be safer and more effective to carry bear spray. COM thought that was a great idea and will be buying bear spray to be kept in the entrance hut. No breach found at this time but bear is definitely still in the compound. TYRE advised that he will be working in the area and will address the issue next week. Bear has not exhibited aggressive nor defensive behaviour nor is TYRE aware of a history in area. 2011-07-14 TYRE snared sow in landfill. TYRE phoned CO veterinarian and explained situation. TYRE told that because cubs have been feeding actively on garbage they are not fit for rehab. TYRE attend and destroy sow and two COY with 30.06. Fence has been fixed for interim. Repairs to take place mid August according to DYSON from Regional District of Clayquot who are responsible for landfill. Concluded,

CO BUSINK set trap. COM advised that bear was well inside the house, got a whole batch of cupcakes and compost. 2 people were inside the house at the time the bear entered. Discussion with CO DOYLE regarding incident agreed bear slated for destruction. 1745 - CO BUSINK attended and picked up bear trap 1825 - CO BUSINK destroyed large male black bear, approx 4 years old and 280lbs.

CO HILGEMANN TAKING A TOL-DOR AND HAS ANOTHER BEAR ISSUE OCCURRING IN PORT MCNEILL THAT HE IS DEALING WITH. 09:20 CO GUDBRANSON CALLED NOOTKA SOUND RCMP AND SPOKE WITH SGT FIDLER. SGT FIDLER WAS WORKING ALONE UNTIL 15:00 AND UNABLE TO RELEASE THE CUB. 12:20 CO GUDBRANSON AND CO GORDON ATTEND TH GREEN ISLAND ENERGY LTD., IN GOLD RIVER. BOTH CO'S RELEASE THE BEAR FROM THE TRAP. 12:53 BEAR TRAP CLEANED AND RETURNED TO RCMP COMPOUND. 15:02 CO GUDBRANSON AND CO GORDON 10-7 CAMPBELL RIVER.

Trap set 2011-06-20. Bear caught 2011-06-22. Bear destroyed.

2011-06-26 approx 21:45 CO Stahl obtained details from ECC that bear was caught in trap. CO Stahl unable to attend tomorrow morning due to a personal commitment. CO Stahl called CO James Kelly who will attend tomorrow morning and pickup trap and destroy bear. (Note: CO Kelly attended the next morning, however, unknown to CO Kelly, CO Jacobi had already picked up trap and destroyed bear). 2011-06-27 08:54 Admin Kennedy briefed Sgt. Jacobi destroyed very small bear with ear tag 2594, previously relocated to Sowogwa FSR in September 2010.

0935 Met land owner advised CO's of injured deer's location on property. 0940 Drove CO vehicle to injured deer. Deer an adult doe in very poor condition. Unable to move or respond to human presence. Dispatched deer with .22 cal. 2 shots. 1015 CO Jeff Tyre from Port Alberni requesting deer for wolf baiting. Deer frozen for future use at Black Creek Office.

2200hrs CO Stahl briefed CO Chretien. 2011-06-29 14:13 CO Chretien called Admin Kennedy to update PWOR as follows. Trap set at Bridal Falls Motel contact person Jacy Campbell garbage bin to a bear proof container which has been ordered through BFI and will arrive in 2-4 weeks. July 09 2011 09:30 McFadden attended and removed 1 male black bear destroyed.

June 24, 2011. 08:05 contact made with RCMP onsite cougar still alive although hunkered down on ground, RCMP uncomfortable approaching for further assessment or dispatching. CO advised enroute. 0910 Attended site cougar approached by CO DeKELVER. cougar able to keep distance by walking away slowly, visible injuries observed and cougar unable to keep hind end upright, cougar destroyed.

Attended. Male deer. 2 yrs old. Compound fractures to both rear legs. CO BATES put deer down. 2 shots to head with 22. Carcass removed and disposed of.

Sgt Doyle attempted to contact CO Mueller who was in Whistler. Sgt Doyle contacted RCMP dispatch. They will send a member. 2100 Sgt Doyle spoke to CO Mueller. She will follow up next day. 2011-06-28 2126 CO MUELLER received update from ECC and RCMP did not require assistance as bear was no longer on site. 2011-06-29 0817 CO MUELLER arrived at location above and spoke with tenant in basement suite. COMM advised bear had entered through small window that was left open slightly. Bear entered into kitchen and found attractants on counter and garbage in pantry. COMM advised no one was home at time and neighbours left note on door advising of bear issue. COMM advised bear was back at 0600hrs this morning and pushed on windows. No tags were seen. Bear was all black and medium in size. COMM was able to haze bear by banging on window. CO MUELLER observed several windows were showing signs of entrance attempts by bear, i.e. ripped screens, mud prints. CO MUELLER gave advice to COMM about keeping window closed and door locked at all times when no one is present in home. CO MUELLER advised trap will be set. 0830 CO MUELLER contacted original COMM who resides beside B&E house. Permission was given to CO MUELLER to place trap on driveway. CO MUELLER set trap a 2011-07-01

1400 CO GORECKI picked up trap with bear. COM Confirmed that it is the same bear that entered the neighbor's suite. 1430 CO GORECKI destroyed bear.

Set live trap at property. Property is on	s.22	If your travelling from Mission	s.22	No address is visible from road. Look for a bright shopping bag on	s.22	n the west side (left)of the road.
---	------	---------------------------------	------	--	------	------------------------------------

At 1938 CO KELLY received a call from Coquitlam RCMP to report a black bear was in town center park near lafringe lake, bear is running through populated areas. At 1946 RCMP called CO KELLY again to report that the bear is still present, members are on site however CO presence is requested for public safety. 2000 CO Kelly arrived on Pipeline in Coquitlam at the tennis courts. CO KELLY and RCMP members hazed bear towards a green belt to the east. Followed bear to Gabriola st, clearing public along the way. At 1432 Gabriola St Coquitlam the bear stopped and knocked over a garbage can and began to feed on the contents. At 2025 CO KELLY dispatched the bear using 12 gauge, 1 shot. Bear was removed from site.

attended at res as described. A doe was found lying on the ground beside the house unable to get up. It appears to be doe which has been nursing fawns. The c/n reports seeing 2 fawns trying to feed off of the doe approx 1 hr ago. The doe was considerable distress although there were no obvious injuries. The doe was euthanized with 22 and found to have sustained a severe injury to pelvis - possibly broken hip. Area searched for fawns - negative. WILDARC was advised of the situation and will be checking in with c/n to see if the fawns return, in which case an attempt will be made to capture them and bring them in to Wildarc. Carcass of doe disposed of in the bush near Shawmigan lake.

Sgt Norris attended and seized black tailed fawn. Sent to Wildarc. Warning Ticket issued. See ERS 11-1122

2011-07-03 14:37 CO Cox arrived on location. CO Cox was waved down on the road by property owner who pointed out the injured buck laying in the ditch adjacent to the road. CO Cox observed the buck that had a badly broken back leg. CO Cox dispatched the buck and dropped it in a nearby empty acreage lot.

C.O. Pauwels attended to area of recent sightings. En-route C.O. Pauwels was called by Victoria Police Dept. advising that the bear is now within their jurisdiction and they are requesting COS assistance asap as the bear is headed along the Gorge towards downtown. Most recent sighting is on the shoreline just below Selkirk Rd at intersection with Burleigh St. 10:30 - C.O. Pauwels on scene with VPD, the bear is now in a patch of very thick bush on the Gorge shoreline. VPD has the area surrounded and can see if the bear attempts to leave. C.O. Pauwels surveys the situation and determines that it will not be safe to go into the bush after the bear as it is too thick with rock bluffs and very difficult terrain. C.O. Pauwels explains options which are limited to allowing the bear to leave on its own and hope for the best; waiting for it to move then attempting shoot to kill; or call out hounds to hopefully flush the bear out and up a tree. VPD in agreement that hounds are the best option. C.O. Pauwels calls out contractor 12:00 arrives on scene, the dogs quickly find the bear but it will not go up a tree. The bear moved into a depression in the embankment and hunkered down facing the hounds. The bear could not be seen as the bush was extremely thick. The bear would not move. After waiting for at least 15 minutes, C.O. Pauwels went to the bush and got a view of the bear and shot it with the shotgun. The bear was wounded by first shot and moved off a short distance before C.O. Pauwels caught up to it and finished it off. Numerous media interviews given. Carcass to be disposed of by contractor s.22

SGT MIKE NEWTON WAS IN CONTACT WITH RAPPL LINE AND REFERRED THE COM TO REHAB FACILITY. NO FURTHER ACTION REQUIRED. CONCLUDED.

Spoke with Wildarc and confirmed space available for fawn in question, no driver available. Contacted COM, who is able to take fawn into recovery center.

12h58 CO Gravel received called about a runner chased by black bear. Gravel was informed that there was no threat anymore. Gravel asked ECC to report any further information. 13h31 Gravel was then informed that the fire department and RCMP requested assistance for that case. Gravel was on route. CO Gravel met with Conservation Officer Denny Chretien and RCMP member at the trail head of the incident. Gravel got statement from runner. Chretien patrolled the trail with RCMP members. Chretien found bear and decided to destroy it after assessing behaviour. Gravel Briefed Media about the incident.

referred to PWOR 11-7018

CO Gravel received call from CO Cox that reported a threatening behaviour from black bear in North Vancouver. Gravel was on route and arrived at the scene at 19h20 CO Gravel met with RCMP members and try to chance bear away. Bear was showing a high level of habituation and no fear of human. Bear was walking in enclosed backyard with kids playing. CO Gravel captured bear with Telazol and transport to Mt Seymour office. 2011-07-06 7h30 Gravel travel to Squamish to destroyed bear and disposed of it at the land field. Gravel shot bear in Britannia FSR. 11h00 Gravel travel back to North Vancouver.

McFadden provide go ahead for RCMP to dispatch bear. 2011-07-09 1000 -CO MCFADDEN set Trap behind Hope RCMP detachment. 2011-07-10 1100 -CO AMBROSE attended, removed trap with adult bear and dispatched.

sighting only

2011-07-09 -Destroyed by CO AMBROSE

2011-07-12 11:25 McFadden attended and removed bear trap and dispatched 2 year old male black bear brown in color. Bear disposed of on Garnett Creek FSR.

Call from ECC received RCMP requesting COS assistance, cougar cornered in construction enclosure near the 7-11 downtown Sidney. 01:31 - Contact with Cpl. On scene, advised enroute with an hour and half travel to location. CO advised to keep CO updated as cougar will likely escape prior to attendance. 02:30 - RCMP advised cougar escaped and was cornered again at fish market at the end of Beacon Ave. after running through the town. 03:10 - Arrive on scene review situation and looked for possible escape routes for cougar if darted. Houndsman called during initial travel, message left, no call back at time. No reasonable location to move cougar to without risking the cougar escaping back through the town core. CO advised several pedestrians observed walking through town while cougar was followed from 7-11. Decision made to destroy cougar. Based on officer safety and safety to the immediate public. 04:48 - Returned to Sooke, cougar dispatched and transported to trapper for skinning.

ECC called CO Petrovic. (Petrovic on a DOR). ECC advised that a Port Alice Resident has contacted the RCMP to advise that a Black Bear Sow has broke into a parked van. The sow was eating garbage that someone had stored in the van. A small cub is present and both animals continue to leave and return to the van. There is a single RCMP Cst. on scene who is requesting that COS respond to deal with the bears. (Cst. Rory WEBB on scene). RCMP - Port Alice File # 2011-204. Cst. Webb provided cell phone contact # 222-222-2222. Cst. advised that a resident has offered to let his dog "go" and challenge the bear to try and push it out of area. CO Petrovic advised that if the resident wished to attempt that it would be ok but that the resident would be doing so under their own volition and that they were accepting full liability for the action. The Cst. asked CO to call him back in 15 min. for a re-assessment. 2011-07-09 15:05 hours: Petrovic placed a call to Gudbranson to ascertain his availability in the North Island. (Left message). Cst. called CO Petrovic back and advised the bear only temporarily moved off and then returned to the van and garbage. CO Petrovic travelled to Port Alice. Sow was located and destroyed. Cub captured with snare pole (no drugs used to capture cub). Travelled to Port Hardy to re-fuel (all other stations closed). Travelled to Black Creek Office. Left cub in warehouse overnight. (Ended shift at 0330 hours). 2011-07-10, 0930 hours: Comm with Mr. Robin Campbell at NI Recovery Centre. Robin can accommodate bear cub. Jeff Tyre attending Black Creek Office. Bear cub transported to Errington by CO Tyre. CO SCHUMACHER reviewed file. File concluded. 2011-07-11 11:26 CO SCHUMACHER called COM, number busy. 11:54 CO SCHUMACHER called COM, number busy. 12:12 CO SCHUMACHER called COM, number busy. Prepare traps/snare. 12:21 CO SCHUMACHER 10-17 t 222-222-2222. Port Hardy. 12:56 CO SCHUMACHER 10-23. Spoke to residents returned 3-4 times this morning and 3-4 times between 19:00 and 20:00hrs last night. Bear took 2 fish from pond yesterday and 1 this morning. 222-222-2222. Bear said that it was a bear and cub getting into the pond. 13:04 CO SCHUMACHER called first fish at approx 05:00hrs yesterday. CO SCHUMACHER observed photo of bear taken by 222-222-2222. Bear was alone but smaller in size. CO SCHUMACHER patrolled area for bear. 15:40 CO SCHUMACHER set pot snare and McCoy trail set. 17:53 CO SCHUMACHER called COM and spoke with She did not see a cub. Bear was alone but smaller in size. CO SCHUMACHER patrolled area for bear. 18:02 CO SCHUMACHER called neighbour. 222-222-2222. Bear was in their back yard. Bear jumped fence and went into neighbours yard and attempted to get in her screen patio door. Bear went back into swamp area. 222-222-2222. Bear was in their back yard. Bear jumped fence and went into neighbours yard and attempted to get in her screen returns. 18:32 CO SCHUMACHER received video of bear. Bear was at back patio door sniffing around door. No damage caused in video footage. 2011-07-13 06:21 CO SCHUMACHER attended residence and euthanized bear. 0831 CO SCHUMACHER disposed of carcass.

CO BATES attended, male deer approx 18 months old emaciated and immobile. Put down, 1 shot with 22 rifle. Carcass removed. Talked to COM, explained outcome, suggested COM call as soon as deer become emaciated. 1650 hrs deer carcass placed in ES Freezer for examination by Dr. SCHWANTJE.

Bear in residential area near a cafe, play ground, school and tennis courts. Highly habituated and human foods conditioned. Source of several complaints in the hope area since early June.

CO KELLY, AMBROSE and STAHL arrive at location. Black bear is up tree in back corner of COM's yard. COS waited to let bear come out of the tree. After 30 minutes the CO's tranquilized the bear and relocated it south of Hope. Cpl. RENNIE and Cst. MILLER on site. 07:59 CO SCHUMACHER called MCON hwy services. Requested location of 500lbs sow hit on hwy. Site not attended previous night as sow was reported as 500lbs. 08:06 MCON on site. Removed sow carcass. 08:16 CO SCHUMACHER called Port Hardy RCMP. Spoke to jail guard Larry WOODALL. Described 3 locations that he observed bear carcasses on hwy. 2nd bear is approx 2km south of 1st bear. 3rd carcass is on hwy 19 North of West Main near Port McNeill. CO SCHUMACHER observed 3rd bear carcass, approx 180lbs. 08:21 CO SCHUMACHER and MCON search for 2nd bear carcass. No bear carcass found. 08:42 CO SCHUMACHER return to cubs in tree. 08:48 Call Sgt. NEWTON, attempt to catch cubs. Call CO GG or PETROVIC for assistance. 08:55 CO SCHUMACHER called NI recovery centre. Able to tel 2 cubs for rehab. 08:59 CO SCHUMACHER called CO PETROVIC. On DOR, but CO GG on today. 09:05 CO SCHUMACHER called CO GG. No Telezol in Port McNeill office. Will attend, CO SCHUMACHER stay on site until CO GG can attend. 09:23 CO SCHUMACHER received call back from CO HAWKES. 2 Viles of Telezol taken to Rivers inlet were only viles in McNeill office. Rompun and ketamine will work for cubs. 09:44 CO SCHUMACHER requested assistance from Cst MILLER. 10:19 Cst. MILLER on scene. 10:40 CO SCHUMACHER 10-63. Pick up drug kit. 11:11 CO SCHUMACHER 10-23 11:23 CO SCHUMACHER called Prov. Vet SCHWANTJE. Rompun and ketamine most likely ineffective due to expiry in 2005 and 2007. Suggested waiting for Telezol. 13:30 CO GG arrive. 14:00 CO GG tranqualize 1st male cub with snare pole. 14:15 North Island Gazette reporter on site. 14:30 CO SCHUMACHER tranqualize 2nd male cub with snare pole. 15:30 CO SCHUMACHER and CO GG 10-63 organize drug kit. 15:55 Larry WOODALL at front counter. CO SCHUMACHER briefed. CO GUDBRANSON contact. CO GUDBRANSON contact. CO ACKLES. On DOR tomorrow but will take cubs to NI recovery centre. 16:35 CO GG transport bear cubs to CO ACKLES residence. 2011-07-16 CO ACKLES transport cubs to NI recovery centre. 2011-07-16 10:45 CO SCHUMACHER called 222-222-2222. Briefed on response. 222-222-2222. is going to write letter to North Island Gazette.

Additional complaint reviewed on 12th of bear getting into backpacks and testing tents at campground for food. It had also accessed a storage locker that was not closed securely. Bear was attempting to gain access to storage lockers inside cooking shelter when I arrived. Manuevered bear into safe location and destroyed with one 12 ga slug to chest facing head on. Slug remained inside bear.

2011-07-10 17:21 CO SCHUMACHER called PEP and advised that COS would attend. Requested they call RCMP and tell them when they arrived to secure the scene and inform of COS attendance. 17:42 CO SCHUMACHER attended. Bear is yearling that is same bear reported not responding to hazing and getting up on peoples upper decks. See PWOR #11-7516 for another occurrence. CO SCHUMACHER, Cst. VOLLER and Cst. BACKMANN searched for mother bear. CO SCHUMACHER spoke with COM and several other neighbours in area with no sign of mother. 18:07 CO SCHUMACHER euthanized. 18:37 CO SCHUMACHER disposed of bear carcass. Bear in fair condition, cost dull and ratty.

2011-07-17 13:27 CO AMBROSE contact COM and recieved a full awnsering machine and couldn't leave a message. 2011-07-17 13:49 CO AMBROSE Contacted COM and COM advised that there are lots of children playing in the area and adults doing yard work. A two year old bear has been coming around for the past three weeks and is not scared of anyone. People yelling, alhorns, people yelling, all have no affect on the bear. -COM stated that the bear has left and CO AMBROSE advised that a bear trap will be set later today or tomorrow. -RAPP number given, and COM advised to phone it if bear returns. 2011-07-17 20:15 CO KELLY arrived at COM's residence and set a culvert trap. COM was shown how to open the trap if needed to let something out. Also informed to call the RAPP line once the bear is in the trap. 2011-07-29 17:34 CO AMBROSE removed bear trap and destroyed a 1.5yr old male black bear. s.22

frezer door to deter the bear. Bear was rewarded and took some vegetables from the freezer during the night. Advised items ontop of freezer would not deter the bear from gaining access. Items must be removed and the freezer relocated. July 21 12:05 Spoke t s.22 on the phone: s.22

advised CO the Bear was back 3 times last night. Got into freezer. was rewarded with chicken, vegetables and other goods. 1 close neighbor, who has not reported any problems with the bear. Bear been to trailer, several nights and was not seen on Monday. Advise s.22 o insure the freezer is emptied today. s.22

stated she would try and empty it, but was not sure if everything would fit in the fridge inside the house. 1220 End call 1250 CO GORDON advised CO PETROVIC of the situation. 1330 CO's GORDON and PETROVIC ID-17 to Tahsis. 1525

Picked up Bear trap from Gold River RCMP detachment 1700 Arrived in Tahsis, toured trailer park where bear has been frequenting and spoke to several residents regarding proper garbage storage. One local resident advised CO's that he has heard someone in the trailer park has been feeding the bear and the bear has been frequenting the trailer park every night. 1740 Arrived at COM residents Residents showed CO's area bear has been frequenting. CO's noted several bear feces containing plastic on property. Plastic wrapping from food also strew about both property and neighbouring property. 175 s.22

arrived and showed us the freezer where the bear has been frequenting (located outside on the porch of the residence). Bear hair, teeth and scratch marks visible on the outside and inside of the freezer. The freezer was still stocked with fruit, meat and vegetable. CO's assisted in removing all items from the freezer and s.22

2011-07-20-11:05 July 19-2011, 19:00 C.O. Stahl attended and removed male black bear, destroyed.

2011-07-13 2100 Bear destroyed in Silver Creek by CO. Critlen.

CO Stahl attended and found the injured fawn which had puncture wounds on it's body. Veterinarian Snowpeck attended and took the fawn to his clinic to stabilize it. The fawn will then be transferred to critter care for rehab.

Spoke to ECC re-PWOR 8400, unable to contact other CO's, bear frequenting chicken enclosure. 12:30 Spoke with COM electric fencing in place all attractants secured besides livestock. Advised COS will look at setting trap when one comes available (likely within next couple days), based on priorities at the time the trap is available. 2011-07-20 16:05 Attended area based on trap availability and updated reports. Trap set in adjacent area and 3 farms impacted by bear predation notified of trap set in area. 2011-07-22 1738 PWOR-11-8886 COM reports bear in area causing damage to chicken coupe. Bear has left area, COM encouraged to keep updating. 2011-07-23 06:45 PWOR 11-8886 Bear returned to area. Attended area in search of offending animal, unable to locate trap moved to new location 2011-07-26 06:25 PWOR 11-8886 bear in trap, trap picked up and bear accessed believed to be offending animal, bear destroyed based on behaviour exhibited. Livestock predation and severe habituation displays.

TYRE attended and shot deer with 30.06. Deer had lost most of it's hair, all the bones showing and was covered in diarrhea. Concluded, MU 1-7

CO KELLY contacted COM, COM reported the bear is coming close. COM is leaving in a day for northern BC. No one will be available to monitor the trap. Advised the COM to have someone watch the donkey and to call us immediately if the bear is seen. CO KELLY set trap at residence on 2011-07-27 at 1430 hrs. 2011-07-29 1400 CO KELLY removed the trap with the bear in it. Bear was dispatched up Stave lake. 2011-07-30 1200 CO KELLY received a call from the Call Centre reporting that another bear is in the COM's yard. CO KELLY called the COM and left a message. Advised the COM that the attractants need to be removed as discussed with the COM on July 29.

ACKLES dispatched deer with rifle. Emaciated and unable to move.

Trap set at location advised COM who contacted first hand at office to report to ECC for tracking. 2011-07-20 07:25 Bear caught in trap and destroyed based on condition, broken jaw and behaviour described as habituation prior to setting the trap.

CO Gravel received complaint and respond code 3 to the residence. Bear moved in green space on Gravel arrival. Gravel was briefed by COM and saw pictures of bear trying to enter the house. Gravel treed the bear and request the assistance of CO Dave Cox. 21:15 Gravel fired 3cc dart on bear. The darting was not effective and the bear moved up the tree. 22:00 CO Cox arrived on scene. Co's tried to make the bear move using non lethal projectiles. No success. 24:00 CO Gravel fired 3cc dart on bear. Bear fell down tree and was transported up MT Seymour. 24:30 The bear was killed with 3 rounds of .22. Bear will be transported and disposed of in Squamish land field by CO Cox.

CO KELLY called COM, bear is in tree and is injured in the hind end. The bear is showing some aggression. CO KELLY arrived at s.22 Bear in tree was dispatched. Hind end injured, hind leg foot had been dragging. CO KELLY took bear to Stave Lake FSR

Attended s.22 The bear was eating garbage. As I approached, the bear approached me. I took five or six steps towards me. I darted the bear and subsequently destroyed it. Took it two kms up Furry creek FSR. Reasons for destroying:- Matching the description of the "peanut butter B&E" bear; same size, no tags, less than one kilometre from the house in question. -The bear's behavior when approached by me.

Hwy 7 onto Norish creek road then right over the track adjacent dyke. COM is worried workers will get hurt. Advised com to contact RAPP when bb is on site. Com reports he has efence, noise canon, and has tried several times to scare bear off with shot gun noise. Bear is very large and persistent. Com is constantly removing his worker when bear is on site had same problem last year with two bears thinks this is one of the same bears. Advised com to look up Margo supplies for alternative hazing materials. 2011-07-25 20:15hrs - Receive call from ECC. 2020hrs - contact com bb on site. depart from 045hrs - 10:23 observe bear in field. Bear not affected by my presence continues to roam field. Site is less than 1km from elementary school and popular walking trail on dyke. 21:00hrs - dispatch bear (30-06). 21:30hrs - Load bear into truck. Very large bore over 380lb. Scared face, Abscess teeth. Missing one upper K9 and two broken lower K9. Overall physically health but very damaged teeth. Photos taken. 21:40hrs - Notify RCMP one shot fired. 22:00hrs - dispose over bear Norish Creek area. 22:45hrs - Abbottsford start PWOR entry. 23:00hrs - 10-35 (2011-07-25 23:55)

CO Miller attends site to find deer with severely injured hind qtr. Destroy deer with shotgun and dispose of carcass in the Carlson Lake FSR area. 2011-07-25 12:58

2011-07-25 16:25. CO Petrovic placed a call back to COM at 1240 hours. COM at his residence and available for a meeting. ~ 1245 hrs: CO Petrovic attended residence the animals keep returning to the immediate area. COM feeds birds with 2 bird feeders during the day and puts the feeders/seed away at night. CO unable to access the three raccoons in the tree (three yearlings) and the one pup was in a live trap with the mother raccoon. CO elected to destroy raccoons. CO removed carcasses. RCMP - OCC updated with respect to the "shots fired". NFAIR - CH pending Sgt. review. (SIP).

2011-07-25 17:17 CO Cox captured the orphaned fawn. Doe was intact dead. CO Cox transported fawn to Citter Carre.

select Complaint Outcome	2011-07-25	1545 11-9160	Operations 1 ECC	MAPLE RIDGE	MAPLE RIDGE	SOUTH COAST REGION		Cellular	Advising that a bear has been hanging around the kids camp for a few months. Caller has a couple hundred kids in the camp and he is concerned for their safety. He didn't want to wait for an incident to happen before reporting.			
select Complaint Outcome	2011-07-25	11-8714	Operations 8 ECC	PORT RENFREW	VICTORIA	SOUTH COAST REGION	Pacheedaht First Nations		Advised a bear has been coming around for a week getting into the garbage and fish carcasses on the rivers bank. This was taken care of 3 days ago and has been there since last Friday. There are two young bears and a third one. The bear was last seen early this morning. Please advise caller on what action will be taken.			
select Complaint Outcome	2011-07-26	800 11-9220	Yvonne Sinclair	WHISTLER	SQUAMISH	SOUTH COAST REGION		Residence	Callers says her kids were just out in their boat and said they spotted a dead bear under the water. They said there was blood on the bear also. Caller tried to take a look but she says the kids boat was too small for her.	2011-07-25	16:51:02	emailed CO.
select Complaint Outcome		11-9338	Operations 3 ECC	VANCOUVER	SURREY	SOUTH COAST REGION	Little Mt. Cemetery - 31st Ave Entrance Southwest Corner - first or second block	Residence	Reporting a coyote that had a limp in the spring but was mobile. It seems to have taken a turn for the worst. Her main concern is that the coyote is ALWAYS in the cemetery. It is constantly curled up in a ball completely exposed, which she doesn't think is natural behaviour. She advises that because it is acting this way it must have limited mobility and she doesn't think it is humane to live out its last days in this condition. Caller asked if a CO "would be so kind to take two minutes to call her" she would greatly appreciate it.

Dispatched bear with .22 in trap up Duck Lake Rd. Dropped it off at
Returned to Duck Lake Rd to clean out ferns
and scat from trap. 01:35

2011-07-25 18:29 BB dispatched co CHRETIEN assessed the bear on site bb highly habituated in a highly used public site with livestock.

Sgt Norris called com four times, but no answer or voice mail. Sgt Norris travelled to Port Renfrew -- onto reserve and spoke with a number of residents about the bear problems. There may be as many as five bears frequenting the reserve. A sow, ²²gravel and a cub have been seen in garbage on the south west side of the reserve and a one or two mid sized bears on the north east side across from the boat launch by Bl's Marina. These bears swim across the chapel, cross the road and go through the last property ²²who agreed to have the trap set. He stated that the bear had come onto his front porch and back porch in the past few days. Sgt Norris then spoke with the original com ²²who agreed that setting the trap at ²²as a good place since the bear(s) used that property as a travel corridor into the reserve. CO Kissinger refreshed and moved trap one street over while attending to another issue. 2011-08-01 14:30 Bear captured during the early morning and picked up in the morning and destroyed based on behaviour exhibited prior to trap being set.

2011-07-26 0800 SEE PWOR 11-9032 - SQUAMISH - WHISTLER

2011-07-27 09:37 CO Gravel called back COM and left a message. Gravel visited the cemetery but found out on site that it was dealt with yesterday. July 26th 1700 CO cox and co Desjardins attended the cemetery and destroyed one coyote

2011-07-24 1100hrs gravel was informed of a bear threatening behaviour on Alpine way. 11:15 Gravel arrived on scene and hazed bear up a tree. Gravel load a dart of Telazole and briefed RCMP on the tactic of the operation. 11:45 Gravel fired dart on bear as he was climbed down. The bear could not be kept up the tree and walked away. CO Gravel tried to track down the bear without success. CO Muller arrived in the area and help to find bear. 13:00 Gravel and Mueller stand down from the area. 2011-07-26 0800Hrs CO MUELLER and DOVE attended location for PWOR 11-9220 - SQUAMISH - WHISTLER Bear was located in pond submerged. Bear was adult male approx 200lbs no tags/ small white chest patch. Dart was found in neck and appeared to have some trauma as there was significant blood loss. CO DOVE and MUELLER removed bear from pond. Bear was taken to Squamish Landfill for disposal

CO GORECKI attended, picked up trap and euthanized bear.

See PWOR #11-9672

2011-07-30 17:22 LUSTER contacted caller who is concerned for safety of children as bear is around day and night. She believes this bear has been around for several years and is now very conditioned. caller does not leave her garbage out, but some visitors put their garbage outside last night and the bear got it. LUSTER will have a look at the area, and based on the number and nature of bear calls now coming from this area, will likely set a trap tomorrow. He advised the caller that the bear will NOT be relocated and will be euthanized. 2011-08-01 Culvert trap set at corner of SAANCH AVE and MacGREGOR Street 2011-08-04 16:00 Scent attractants added to trap. 2011-08-04 22:30

CO advised to report any missing person's to RCMP911, in unlikely event, but that bear in question had showed no signs of aggression to date and was just taking advantage of abandoned backpacks. 2011-07-28 CO DeKlever informed Sgt Norris. Sgt Norris spoke with BC Parks who would follow up to ensure she was safe - com number provided to Ranger/Sup. Sgt Norris discussed options with CO Kissinger/Hitchcock. Decision to set CO's trap and snares - and to make assessment of bear behaviour. Sgt Norris called Juan de Fuca Pk - Sombrio Beach. Added bacon to BC Parks trap. Set up on beach at campsite. Within 30 minutes a small black bear was observed following three hikers down the beach towards CO's. Hikers passed by and the bear continued walking towards the CO's (filmed with blackberry). When the bear was 10 feet away, it fluff charged, then walked into the forest. The bear walked out on the beach 50 yards away and three more hikers came around the point towards CO's. The bear continued towards them along the trees and went up into the forest before it reached them. Snares set, food cooked to attract the bear back. No sign by 2100. CO's depart. 2011-07-29 0900 Sgt Norris and CO DeKlever attend a Sombrio Beach. No campers. Many groups of hikers passed by. Insp Hitchcock suggested CO's leave the area if BC Parks can monitor trap and snares. Sgt Norris speaks with Supervisor and Ranger who will determine if someone can attend and call Sgt Norris back. At approximately 1400 hrs, a hiker informed CO's that a woman was sitting in CO's vehicle with chest pain. Sgt Norris called BC Parks to inform and suggest ambulance. Ranger Plotnikoff agrees with monitor and states she will call ambulance. Sgt Norris and DeKlever attend parking lot and speak with gt Norris informs that an ambulance was called. She did not want it, but it arrived. Sgt Norris could

gt Norris informs that an ambulance was called. She did not want it, but it arrived. Sgt Norris could

Sgt. Norris called com. She thinks the doe is pregnant, but cannot walk and has part of jaw ripped off. Wildarc not able to come. She called them, they called PEP for her. 1345 Depart for Shirley 1510 Attend - meet com and Louise from Wildarc. Wildarc called PEP back and was told they could not reach any CO, so Wildarc sent someone. Deer has dark marks on both hips (healed partially - 4-5 days old) and missing lower lip is a broken jaw. Likely attacked by a bear but somehow escaped. Com said she was crawling out of the bush when they found her. Sgt Norris called Helen back - there was no milk in teats - there was not a pregnant, but may have had a fawn recent. Sgt Norris euthanized with Glock in the head. Two minutes later still alive (heart was beating). Sgt Norris shot again. Backslap on Glock and original report. Loaded deer into truck. 1545 Sgt Norris departed and called com. Called back and said he would take the deer. 1645 Sgt Norris dropped off the carcass and departed Sooke. DeKaveler - 2011-08-12 14:48 msg not reviewed until 3 days after the fact due to DOR on long weekend, no new information since original report. Unable to contact phone busy in several attempts throughout the day.

2011-07-26 22:46 CO SCHUMACHER retrieved voicemail. 22:50 CO SCHUMACHER attended and observed bear a backup. Followed bear through yards until 23:20 where it tread at 23:28 Earthquized bear

Bear went into residents back yard		23:08 CO SCHIMMACHER observed bear walking down street and through yards	Walk within 20-25' of bear	Bear would not run away even when hazed	Requested RCMP
------------------------------------	--	--	----------------------------	---	----------------

2011-07-22 11:44: CO SCHUMACHER attended Koprino shop yard and spoke to 2 persons who live on reserve. Person's indicated that bear has been frequenting area around their house and it does not leave when hazed. CO SCHUMACHER had received call previously from Kim BRUNT, wildlife Biologist who said th
having some bear issues and was requesting COS assistance. CO SCHUMACHER advised o ask o call RAPP line. 12:36 CO SCHUMACHER attended Quatsino reserve. Spoke to several persons on reserve. Sgt LBT behind school where bear was said to be frequenting. 2011-07-26 19:50 CO SCHUMACHER attende
said that bear that would not run away is bigger than bear in trap. Person attended trap earlier today at approx 1300hrs and observed same bear grazing. 2019 CO SCHUMACHER called Sgt. NEWTON. NEWTON advised to use discretion on whether to release bear or not. NEWTON not apposed to release bear if believed to be wrong bear caught on edge of Quatsino Reserve. Bear did not have evidence of garbage in scat. 20:38 CO SCHUMACHER released bear.

1330 CO GORECKI spoke to CO MUELLER, who advised that she had attended the campground and the bear was GOA. She advised that the bear had entered a tent and fed on attractants in the tent. CO GORECKI attended and spoke to COM's. They advised that the bear was back at the tent site and continuing to feed on attractants. CO GORECKI observed the bear at the deconstructed tent and the bear indicated that it recognized human presence, but continued feeding. CO GORECKI approached the bear (within 10 feet) and the bear did not react or move away. CO GORECKI dispatched the bear and spoke to the COM's. COM's were planning to stay at the campground for one more night. CO GORECKI advised COM's to lock up any attractants they might have because there were still other bears in the area. They stated that the tent owners had not returned since the bear was first there and that they had not seen them earlier. CO GORECKI advised them to explain to the owners what had happened. They agreed.

Sgt Norris contacted Com who reported the deer stuck between two fences and was injured by dogs attacking it. Sgt Norris attended and found both ears chewed off, large puncture wounds in the right flank - likely from thrashing against the fence. Sgt Norris euthanized, Com's dog and the dog from the neighbour directly behind her both attacked the deer while stuck in the fence. Com began fixing the fence immediately to ensure this does not happen again. Sgt Norris dumped deer up Kapoor Mainline.

TYRE and ACKLES attended 07/21 and set two culvert traps in campsite. One young bear meeting the description of the nuisance bears was trapped. Trap with bear removed by Parks staff and bear destroyed. Other trap remained in campsite until 07/24 when TYRE requested Parks staff removed the trap as there were no further sightings of the 2nd bear. Concluded. TYRE-4 hrs, ACKLES-4 hrs

2011-08-03 13:40 CO Stahl called com. No answer. Left voice mail message for the com to call the RAPP line back if bear returns (left RAPP number on com's voice mail). 1400 hrs CO Stahl called and spoke to com. Com advises that - there are 3 adult bears that are coming to his property and getting into the garbage - the bears do not travel in a group, but come at different times - the one that is causing the most problem is a "smaller" bear (about 150 lbs) that has a yellow ear tag - he puts his garbage out the night before - he does NOT have a garage (he has only an open carport) or basement where he could store his garbage - he does store a small aluminum shed where he does store the garbage in, but the bear just pushes on the weak door and it opens. CO Stahl advised com to NOT put out garbage until the morning of pickup. And that he will refer his com to another CO for action. CO Stahl called CO Kelly. CO Kelly advises he will contact com and look into possibility of setting a bear trap at com's place tomorrow. 2011-08-04 12:30 CO KELLY set a trap at the COM's residence 2011-08-05 11:00 CO KELLY removed trap and dispatched the bear up Silver Slight Rd on a side branch. Sgt. Jacobel reviewed.

At approximately 15:00 hours CO Petrovic was in full uniform and marked GV. 10-17 to Trap location 0 (B&E) bear. At 17:09 hours CO Petrovic hooked onto trap and departed area. travelled to pit opposite the CR landfill and dispatched bear. Land fill closed so bear removed from area for later dumping at a remote site. 18:30 hours CO Petrovic 10-35 (void of call-out) residence and CO Petrovic on-site at Campbell River, BC. At approx. 15:45 CO Petrovic called and spoke with COM CO advise s. 22 that he would attend and remove the bear/trap. At s. 22 the opinion that the COS had the correct s. 22

CO KELLY contacted COM, bear appears to be habituated to garbage and people. CO KELLY and AMBROSE removed the trap and bear and destroyed up Florence Lake FSR. Reviewed by Sgt. Jacobi

CO KELLY arrived at site and spoke to the COM. COM reported the bear was involved in an accident on Mariner Way just through the trees below the house at approximately 1330 hrs. The bear then went up the tree where it remained till approximately 2000hrs. The COM reported that the bear fell out of the tree and has not moved and does not appear to be breathing. CO KELLY went into the backyard and found the bear. The bear attempted to get up but could only lift his head. CO KELLY believed the bear was heat exhausted and as it was on the ground could not tranquilize. Since the bear was in a residential center and in poor condition the bear was euthanized. CO KELLY notified the RCMP and 3 members came to assist. The bear was taken to Florence Lake FSR. Sgt. Jacobi reviewed.

2011-08-07 12:00 PWOR and PWOR Update reviewed by CO Petrovic. CO noted that the original complaint came from RCMP (on behalf of two other individuals - one from Tahsis and one from Gold River). RCMP remarks were that the COMs did not wish to contact COS. No indication of animals being "urban confined" or aggressive. No indication when the one complainant reportedly lost some chickens. UPDATED PWOR INFO: Location Description: Tahsis Caller Name: BEAR Attractants Noted: NOT APPLICABLE Nature of Complaint: SIGHTING ONLY 2011-08-07 12:04 hours: CO Petrovic placed call to COM identified on updated PWOR. CO speaking with when the bear steps on the bars he get a zap... or at least he is suppose to get a zap". "The only thing that seems to scare the bear(s) off are my dogs." "The police have been over to talk t and were frequenting her yard for a meal. There are probably three different bears in the trailer park." CO Petrovic thanked for her info and advised that a CO would likely be attending with a trap this afternoon. (SJP) Situation discussed with Sgt. Newton. Sgt. Newton acknowledged attractant issues and concurred with the desensitized behaviour requiring a site evaluation / visit. COs Petrovic and Newton to attend Tahsis in PM (to look for bear and set a trap). (SJP) 2011-08-09 Update #4. CO Gudbranson attended Tahsis trailer Park and retrieved bear trap from vacant trailer beside Park and met residence. CO Gudbranson attended t frame. Also noted area below deck where bear had been bedded down. CN witnessed bear at window early this morning and /id bear in trap as the bear responsible for the damage. Gave CN COS bear info pamphlet and Bear Aware pamphlet. Explained Wildlife Act - leaving attractants out and fine amount. Advised CN that now that she is aware of rules, if found contravening Wildlife Act, appropriate enforcement action will be taken. CN understood outcome and appreciated the discussion with CO and CO attendance to deal with the problem bears. 2011-08-11 SEE COOHS #201104014

CO Gravel received complaint and called back COM. Deer on site and suffering. 0930 CO Gravel and CO Cox travel to Langley. 1045 CO Cox destroyed deer with .22 11:00 CO's travelled back to NV

2011-08-07 13:32 CO Cox attended location and observed bear behaviour as non-threatening nor aggressive. CO Cox immobilized the bear and released the bear up Mtn Hwy FSR near the backside of grouse mtn. CO Cox will monitor for future encounters with this bear.

2011-08-02 1307 hrs. CO MUELLER received report from ECC by phone. CO MUELLER was in area when report came though. CO MUELLER contacted COM who advised no one was on site and bear ran off once scared off by other campers near by. 1325hrs CO MUELLER arrived at location. No bear was observed. Bear had accessed attractants inside tent and ripped through to access. Inside tent was garbage, food, and other strong attractants. No bear was observed. CO MUELLER cleaned up attractants and disposed of accessed food and garbage. No attractants were left on site. CO MUELLER left note for registered camper to advise of bear and issue of leaving attractants unattended. CO MUELLER spoke with COM on site and advised bear had not been seen since. No aggressive behaviour was reported and bear had good reaction to human presence by moving off. 1430 CO GORECKI was advised that bear had returned. CO GORECKI attended and dispatched bear. Detailed PWOR outcome in PWOR #11-10153.

2011-08-02 @1349 Hrs CO MUELLER received report from ECC by phone. ECC advised main road was on scene but do not want to get out of vehicle as high safety risk with sow nearby. As well people are stopping and exited vehicles. CO MUELLER advised ECC to pass information to main road that workers are to try and block off view of cub from passing vehicles. CO MUELLER also advised to stay in vehicle for safety precautions. 1440 CO MUELLER arrived on scene. Cub of year was injured and unable to walk or move. Bear had lost blood and bowels. CO MUELLER dispatched animal as it was suffering. No sow was observed. Cub was taken out of area and dropped up wedge FSR.

2011-08-08 1639 CO Cox, Desjardins and Trudgian attended location and immobilized the bear. CO Cox was aware that this particular bear had been in this neighbourhood for a few weeks causing property damage and getting into garbage. CO Cox noted that this bear also was described and found to have a yellow ear tag. CO Cox checked out the information on the noted bear and was caught on the same road a year ago and translocated up the mamquam FSR 22km and was back again. CO Desjardins and COX dispatched the bear up mtn hwy FSR.

CO KELLY contacted the Maple Ridge RCMP, a member will attempt to go to the park. The RCMP provided the phone number to the complainant. CO KELLY contacted the COM, due to poor cell reception the information was short. COM reported the bear was showing aggression and approached children. Bear was also getting food from campsites. CO KELLY arrived at approximately 2015. CO KELLY and 2 RCMP members checked the area and located the bear at approximately 2100. At 2115 the bear was destroyed by CO KELLY. The bear was unloaded at approximately 14km on Florence Lake FSR. This is an addition to PWOR 11-10765.

s.22

2011-08-09 16:08 - CO AMBROSE contacted COM and COM advised its a bear about the size of a car. She also said theres a Sow and cub in the area. -CO AMBROSE advised the reasons for not setting a trap when theres a sow and cubs in the area. -CO AMBROSE advised COM to Contact RAPP line and RCMP next time the bear is in the area. 2011-08-10 14:00 CO KELLY and CO AMBROSE attended the trailer park. Bear has been a continuing issue and showing human habitation. Trap was set in lot 2 at end of road. Park Manager was advised that attractants need to be addressed and managed. 2011-08-17 12:00 SGT JACOBI removed the trap from the residence. CO STAHL destroyed the bear.

s.22

CO Miller attended to black bear at Bear was feeding on a non native berry tree in the front yard of residence. Bluff charged when attempted to move the bear with officer presence. Deployed air horn which had no effect moving the bear from the area. Shot the bear with a bean bag where the bear ran away only to return to the berries a minute after. Considering the lack of effect of non-lethal tactics and the bluff charging in an urbanized area the bear was immobilized and removed from the Whistler neighbourhood (ref: Level 4/ Level E of Matrix). Released the single adult female bear (no signs of lactating) in the Wedgemount Forest Service Road (4km) with tag number 3440. Bear recovered fully from immobilization within 50 minutes of capture. Return t knock on door of residence with berry tree, no one home. Neighbour ention that home owners currently away, Phone Whistler Bylaw, advise on the attractant and address for removal. 2011-08-10 09:01

s.22

08:30 10-17 from Campbell River to Tahsis 11:45 in Tahsis a 1.1.5 year old black bear in trap. Spoke t esident whom had chicken coop raided. Stated that while this bear was in the trap, another bear entered her chicken coop at approximately 02:00hrs (no chickens were captured). Also spoke to park manag who stated he had another larger bear on his deck during the night after this bear had been trapped. 1230 Finished hooking up bear trap onto patrol vehicle. 1248 10-17 Gold River to meet CO PETROVIC to assist in dispatching bear. 1535 Met CO PETROVIC in Gold River, informed of latest activity in tahsis. 10-17 back to Tahsis. 1655 Dispatched black bear in trap off of tahsis road on logging offshoot road. 1710 10-17 back to Tahsis to reset bear trap. 1815 Arrived back in Tahsis 1830 Washed out bear trap at RCMP detachment 1905 Set culvert trap at the same location as previous night in the rugged mountain trailer park 2045 Checked trap, no activity. CO PETROVIC spotted bear in trailer park, north of trap location. Foot patrol of area to track bear. Unsuccessful. Depart Tahsis, 10-17 Campbell River.

s.22

CO KELLY contacted the COM. The bear has been getting into garbage. COM was unable to say if there was a place to set a trap, especially since there are patients roaming freely. advised Com on deterrents such as air horns to assist. Asked COM to have security staff contact RAPP line if the bear is in garbage or showing aggression, or if the bear goes up a tree. COM will ask supervisor to contact the RAPP line should there be a suitable place to set a trap. 2011-08-20 11:30 CO KELLY attended location with a trap as discussed with the COM at 0930. On arrival Paladin Security advised the trap can not be set on the grounds as there needs to be manager approval. The manager will not be available till monday. Advised COM that security must call RAPP line if bear seen since there will not be a trap set. 2011-08-25 21:00 CO KELLY set trap on grounds and advised security to monitor it. The bear has been an ongoing issue in the area and has shown aggression towards people. Sgt. Jacobi reviewed. 2011-09-03 CO KELLY received a call from ECC at 0400 that the bear is in the trap. CO KELLY called COM, advised that the trap is in a safe location and that an officer would come first thing on shift. CO KELLY and CO AMBROSE attended site and removed the trap at 1030hrs. CO AMBROSE destroyed the bear. 2011-09-13 12:18 CO CHRETIEN refer to PWOR 11-15291 (update 9 and 10)

2011-08-10 1845hrs 10-23 observe bear in a small yard. Bear has occupied the site for several weeks. Yard is very small and located in a highly urban area with no green belt within 1km. Adjacent a highly used park and elementary school. Bear has generated several calls within the area since May 2011. Bear known to feed on garbage and is considered highly conditioned to human food sources (garbage). 1930hrs dispatched the bear a large >350 male. 2230hr PABS Lisa Leslie debriefed email from Lisa Leslie on Aug 10: Hi Denny, It went just fine with CBC Radio. I gave a few basic details and the reporter didn't have many details to start with. Lisa Leslie 250 953-3698 Sgt. Jacobi reviewed.

2011-08-10 12:22 hrs. CO BATES attended, adult buck, standing in yard but immobile. CO BATES euthanized deer with 2 shots of 22. Carcass examined, no visible injuries. Carcass placed in Nanaimo freezer for Dr. SCHWANTJE.

2011-08-11 16:21 - See PWOR #11-10270 Sgt. Jacobi reviewed.

2011-08-11/12 22:15-04:15 CO SCHUMACHER conducting patrols in Port Hardy with Cst. MOROZOFF. 2011-08-12 03:04 Received a call from OCC RCMP dispatch SCHUMACHER observed 2 large bears coming out of the rear garage man door. Bears walked away looking back and stopping several times. Bears hung out in empty lot thick brush. 03:25 CO SCHUMACHER shot 1st bear and it ran into thick brush. 03:32 CO SCHUMACHER Euthanized 2nd bear, male approx 250lbs in good condition. 04:15 CO SCHUMACHER and Cst. MOROZOFF follow blood trail. Blood trail significant which led to greenspace on Trustee Rd outside of Port Hardy. Leave bear to locate in daylight. 05:45 CO SCHUMACHER and Cst. MOROZOFF follow blood trail. 06:02 Bear located and euthanized, male in good condition, approx 275-300lbs. 07:20 CO SCHUMACHER and Cst. HOBBS complete loading bear into truck. 08:13 CO SCHUMACHER and Cst. HOBBS dispose of bear carcasses.

co tyre attended - leg hold trap set - wolf capture - dispatched. other wolf dispatched with rifle. xref 11-10905. concluded.

Spoke with COM and destroyed offending animal.

s.22 attended location and confirmed 2 sheep killed by cougar, carcass returned to location found and covered, to see if cougar returns through night. COM provided with contact information to report any updates, for further review. 1713 Cougar returned mid afternoon

s.22 contacted, attended tracked and

CO Gravel received the sighting report while he was in the area for another complaint. Gravel chased the bear around and found him entering a house and a garage in an 1hr time frame. CO Gravel captured bear by using Telazol. RCMP and Fire department came for help. No other CO were available. Gravel killed bear on site and transport to Seymour yard. 2011-08-12 13:50 CO Gravel transport bear carcass to Squamish Land field.

2011-08-08 23:48 CO SCHUMACHER called COM. Caller is unsure if bear broke into house or if its a shed. Resident of house not home and bear is still on site eating garbage. Advised COM that RCMP would be called to attend. 23:51 CO SCHUMACHER called RCMP OCC, patched through to Cst. (Brian) in Port Hardy. Able to attend. CO SCHUMACHER advised that COS response time is 40-min. CO SCHUMACHER advised that COS would not attend if Cst is comfortable responding and euthanizing bear if a clear shot presents itself. CO SCHUMACHER advised of safety precautions and requested that Cst call CO SCHUMACHER if assistance is required. 2011-08-09 08:09 CO SCHUMACHER called RCMP and spoke with Wayne. Wayne read report and RCMP did respond but could not get clear shot of bear. Bear left area. 10:44 CO SCHUMACHER attended and observed garbage on front lawn torn apart. CO observed bottom 2 feet of wooden door in carport ripped apart with garbage on both sides of door. No trap available at this time. 2011-08-10 16:22 CO SCHUMACHER attended and set LBT. Spoke to resident s.22 and requested they call BAPP line if bear is in trap. 2011-08-13:03 CO SCHUMACHER attended and confirmed bear in trap. x-ref PWOR #11-11580. 13:16 CO SCHUMACHER spoke to resident o who is going to replace broken door with new proper outdoor door. Current door that bear broke into was an interior door. 14:49 CO SCHUMACHER euthanize and dispose of bear carcass. Bear was male approx 140lbs in fair condition.

CO Cox and Gravel attended the COM due to the bears illness and behavior. Subsequently CO Cox and Gravel immobilized the bear and assessed the bears health and released the bear up Fromme Mtn the following morning.

CO Cox and gravel attended location and found the bear eating garbage in the back yard. CO Gravel had video footage of this bear attempting to break into a home on nvan and is very habituated and food conditioned to people and garbage and therefore is a threat to public safety. CO Cox subsequently destroyed the bear.

co tyre called c/n @ 1420 u bear had been trying to get into dog pen, known to be in area clawing @ glass window to cabin trying to get in, broke into a couple of other houses in area, trying to go thru pet doors u co tyre left that day u towed trap out u set trap @ residence on tyre returned the next morning, retrieved the trap, destroyed bear u young male u approx 2-3 year old.

s.22 Bear went into the trap that night,

co tyre called c/n u told her that would attempt to trap bear or deal with it one way or another. 2011-08-16 @ 0600 - co ackles and co tyre attended - destroyed a 200 lb, 4 year old male with 30.06

Attended location trap picked up transported bear up east main, prior to destruction based on bear behaviour prior to setting trap (habituated, unable to scare off, laying/ sitting at resident door entrances and on decks), trap returned to Goldstream due to condition.

Spoke with COM who observed Cougar in area and advised to continue to monitor and advise COS with any updates for further review. Advised cougar sightings are increasing in area and COS is monitoring closely 4 other reports received to date 2 call in outside of call center for similar area. 19-38 PWOR 11-9523 Spoke with COM who observed 2 cougars on property chasing chickens 2 killed chickens confirmed. Consult with Sgt. Norris who recieved a call re: cougar in same area jumping out of the brush towards a group home. 23 on alert and preparing hounds for action. 20:00 PWOR 11-9525 Spoke with COM who was working in garden and had cougar approach her within 5 feet on opposite side of fence, possibly unaware of her crouched presence as it was following fence line towards sheep pen, cougar ran back to cover when confronted. 10-17 to location with hounds 20:20 PWOR 11-9509 update COM reports cougar running up her road, and kids in the area. CO not updated on this report, report emailed to office. 20:40 PWOR 11-9509 update 2 COM reports seeing cougar again this time with a juvenile. PEP update CO DeKELVER and houndsman receives a direct call from resident in the area confirming cougar in area up the road from current location. 10-17 to location. Misinformation regarding direction of travel is given to houndsman by complainant believed to be due to COM observing young cougar and believing we were set on destroying animals. dogs find scent and end up tracking a large black bear. CO and dogs reset after locating bear and follow some scent but run out of daylight and call off hunt for safety reasons. 2011-08-28 9:00 PWOR 11-9574 CO DeKELVER observes cougars running down street in front of residence and report to call center, unable to attend due t

10:15 PWOR 11-9581 RCMP report cougar sightings reports coming in from area of concern, still unavailable for duty. 16:47 PWOR 11-9644 reports from ECC of pet chased by cougar, cougar came into backyard with 9 foot fencing and chased it within 25 feet of house. 17:05 PWOR 11-9644 update 1 RCMP receive a report of another dog chased in the area and owner was able to scare off cougar and reported to RCMP who passed it on to COS. Spoke with COM and engaged Houndsmen. 10-17 to location. 17:16 PWOR 9644 update 2 COM reports cougar jumped over back fence. Spoke with COM at residence and acquired direction of travel. 17:55 female cougar and juvenile treed on Maple ave North. 22:28 cougars tranquilized and transported to Spoke lake area and dropped with freshly killed deer found just prior to locating cats, cougars observed coming out of sedation.

2011-08-16 20:27 Called com back. COM main reason to call was to inform COS about possible bear in area. Advised COM to install Efence. COM will install efence ASAP. 2011-08-17 10:00hrs COM observed two juvenile bears trying to get in to her barn. One bear ripped the siding off barn but they did not get in. COM's husband chased the bear off property with his truck. COM will monitor the area and speak to neighbours if bears return com will contact me or RAPP directly. 2011-08-26 17:35 CO KELLY contacted COM. COM has been having constant issues since original file. COM has not contacted RAPP line, only CO directly. Advised COM to always use RAPP line to ensure proper responses. Advised COM on deterrents and CO KELLY will contact COM on 2011-08-27. 2011-08-27 10:15 CO KELLY set a trap at the residence in the back yard by the barn. Officers responding should use caution as the area is rural and there may be more than one bear present. 2011-09-02 09:00 - Co AMBROSE removed trap with bear and destroyed. Female, good condition, 200lbs. 2011-09-09 14:27 Sgt. Jacobi reviewed file.

2011-08-17 11:08 Call CO STAHL no message left. Call sgt. Jacobi. Jacobi is handling the situation. 2011-08-17 13:53 approx. 150lb bear dispatched. 2011-09-09 14:13 Sgt. Jacobi reviewed file.

2011-08-17 11:36 CO BATES attended. Fawn of the year compound fractures to both back legs. Put down 2 shots with 22. Carcass removed.

CO Gravel received complaint and respond to the location. Found bear eating garbage. The bear was identified as the one bluff charging people in the complex. Gravel requested CO Cox and RCMP assistance. Gravel captured the bear with Telazol. 2230- Gravel transported the bear in Seymour office yard. 2011-08-17 1000 Gravel and Cox killed bear in the trap with .22 calibre.

CO Gravel received request for assistance from RCMP. 1630 CO Gravel briefed RCMP and asked to secured the house and keep bear inside. CO Gravel travelled from Squamish to the location. 1730 CO Gravel arrived on scene and found RCMP members chasing injured bear in the green belt behind the house. The bear was shot in the face by member. 1731 CO Gravel approached the bear and shot the bear in a safe manner. 1740 Gravel took statement from the resident. 1800 CO Gravel transport bear in the Seymour office yard. 2011-08-17 1300 CO Gravel and COX disposed of dead bear on Fromme Mt.

2011-07-23 10:42 CO SCHUMACHER attended and spoke with distance on beach and returned with shotgun. Bear GOA. 13:21 CO SCHUMACHER observed bear on beach from approx 300 meters 13:29 CO SCHUMACHER approached bear within 100-120meters. Juvenile bear. in reasonable condition. ran into bushes. 2011-07-26 and 2011-07-27 CO SCHUMACHER conducted night patrols in area. Euthanized 2 habituated bears in Port McNeill, recorded on other PWOR's. 2011-07-27 20:25 CO SCHUMACHER attended and met with Bear has caused more damage to fencing. CO advised that raspberries are an attractant and that fencing is not enough to deter bears. 2011-07-28 06:20 CO SCHUMACHER received call from PEP. Bear in Snare. 06:44 CO SCHUMACHER attended and euthanized bear. 07:31 CO SCHUMACHER spoke with who said there were bear prints on her front door on June 27th approx 3 feet of the ground. responding to hazing. CO advised that traps will only be moved by CO. 2011-07-28 06:20 CO SCHUMACHER attended and euthanized bear. 07:44 CO SCHUMACHER spoke with is confident that its the right bear. not responding to hazing and causing damage to their fencing. CO SCHUMACHER advised that Bear euthanized is larger than she previously described by 22. 2011-08-05 22:20 CO SCHUMACHER attended and removed remaining snare and caution sign. remaining snare would be left targeting sow with 3 cubs. 08:31 CO SCHUMACHER dispose of bear carcass. Male bear has scars all over face and body. Bear in fair condition, teeth not worn too bad. 2011-08-05 22:20 CO SCHUMACHER attended and removed remaining snare and caution sign.

2011-08-18 14:00 CO Chretien attended and dispatched the bear. The animal was an older female (15-18 years old) 230# blind in both eyes (but no scars visible on her face) and her feet were very worn. 2011-09-09 13:41 Sgt. Jacobi reviewed file.

CO POPPIES unavailable to attend so advised CO MUELLER. MUELLER attended, immobilized and destroyed. POPPIES disposed of carcass on 18th.

CO POPPIES ph.d COM on the 17th and the 18th. On the 18th the COM reported the bear had been back and eaten a chicken that was roosting in the barn. CO POPPIES set trap at 1400. Bear was in trap by 1600. Trap collected at 1900. 2 yr old female b-bear in good condition.

CO POPPIES attended at 1645 and was advised by that a bear had been hanging around for two weeks. a bear had walked into an enclosed gazebo via a sliding glass door and helped itself to the buffet 30 minutes ago. a bear had on two occasions since the buffet feed attempted to get burgers off the grill. 22. advised a bear had taken a cooler off some fisherman earlier today and consumed the lunch inside. CO POPPIES loaded dart gun and darted bear at 1745. Bear retreated into skunk cabbage devils club laden swampland. CO POPPIES located bear at 1620, destroyed and removed. This may be the same double ear tagged bear that CO MUELLER had been hazing away from Rainbow beach earlier in the day.

CO GORECKI attended and spoke with staff. They advised that a blue ear-tagged bear stole a bag and has been around all day. Made arrangements to set trap on 20 August in the a.m. because course was so busy. 2011-08-20 0745 Met with staff, set trap near the 9th hole. 2011-08-24 @ 0736 CO MUELLER received call from ECC with bear report. CO MUELLER attended location and met with COM. MUELLER attended trap and observed adult black # 73 *(blue left ear) in trap. #73 had been previously been trapped in the village @ Sundial on Aug 22 and relocated to the SOO FSR. 1051hrs CO MUELLER translocated #73 to the Uloet FSR at the Meagher Creek Junction Km 9. Bear has not shown aggressive behaviour and unknown if same bear who took golf bag from course. COM advised bear did not look like problem bear that has been frequenting the area. Bear 73 has been trapped three times this month. No reports of accessing attractants - Bear is frequently in high use/ conflict areas

CO Cox and CO Gravel attended location and found a very sick obese bear hiding in the COM backyard. CO Cox observed that the bear did want to move even when harassed by the officers. CO Cox and Gravel noted that the bear was very habituated to people present and when it was shot at, it did not move. CO Cox and gravel subsequently immobilized the animal and destroyed. CO Cox and Gravel briefed all the surround residence of attractants and garbage management.

1115 hrs RCMP/Uclelet phoned TYRE and reported that a cougar was just sighted on the Port Alouette Road running back and forth across the road near the bridge. Reported to RCMP by TYRE phone and arrange to meet at West Bay Hotel at 1145 hrs. 1122 hrs TYRE phone and speak with COM. COM was some distance away and walking from Uclelet towards Port Alouette. She saw a van crossing the bailey bridge on the flats and noted a brown bear shape dart across the road in front of the van and then saw the shape quickly cross the road again. She assumed by the size that it was a deer. The van pulled up alongside her and advised her to turn back as the animal had been a cougar and the van had been within 20ft of it the 2nd time it crossed the road. COM turned to start back to Uclelet and saw the brown shape cross the road again from the Tofino side to the Uclelet side of the road - left to right. TYRE thanked COM for the report and suggested she not walk the road alone or at least carry a cell phone and large walking stick. Tyre attended and destroyed 120 lb male cougar w/30.30 with assistance of houndsman hardie and dogs. link to uclelet PWOR 11-9991

s.22

CO BUSINK attempted to cut the bear off and herd it back to a safer area with regard to public safety, and was bluffed charged by the bear at that time. Again, the bear had several options of escape, but chose to bluff charge the officer. CO BUSINK used a banger to chase the bear up a tree and was then able to tranquilize the bear to remove it from the immediate area. The officer determined that with the aggressive/threatening behaviour displayed by the bear (bear matrix level 4), and with the bear frequently feeding on non-natural foods in a confined/urban area with no immediate escape route (Level E), that the bear would be destroyed. CO BUSINK removed the bear to a safe location and destroyed the bear. A large (approx. 375lbs) healthy, male black bear with two ear tags (right U large yellow # 2511; left U small pink 768). Upon returning to the office, CO BUSINK determined that this bear was caught 2011/04/09 on Alta Vista Road, and release on the south end of Daisy lake the following day. PWOR 11-0238 report from Alta Vista road on 2011-04-09 stated 6...there was a bear inside his home dragging the garbage outside. It was re-caught in Whistler Day Lot 5 on May 15 for going into vehicles and was hard released north of Whistler.

bear was caught on end of Alta Vista Road and released the following day. Xref 11-12902 for master outcome report

bear caught - hard released north of Whistler. X-ref 11-0238 X-ref 11-12902 for master outcome report

C.O. Pauwels euthanized very sick doe with .22, then assisted c/n with removal of the carcass from the pool. C/n has a tractor and will bury the carcass.

CO KELLY arrived on the site with a Culvert trap to set up. While on site the bear arrived and entered the garage. Bear was destroyed at 1630 in the green belt beside the house. 2011-09-09 12:35 Sgt. Jacobi reviewed file.

Sgt Norris received call from PEP, called com and left voice mail. Sgt Norris departed for location and found injured fawn on the driveway. It was shaking violently with its eyes closed, had injuries to the neck and flank consistent with auto impact. Sgt Norris dispatched with glock, then drove up Mt Slicker Road to dispose. While on logging road, Sgt Norris received a cougar complaint and decided to retain fawn and potentially use as bait (not required afterall). 2011-08-27 0830 Sgt Norris drove up logging road off of Riverside Road and disposed of carcass in the woods.

C.O. Pauwels attended and euthanized a sickly fawn with .22 C/n will bury carcass.

Sgt. Jacobi - Human Wildlife Attack Report to be done. 2011-08-29 09:12

2011-08-30 15:01 -CO AMBROSE attended and removed bear in trap. Bear was destroyed by CO AMBROSE. -Male approx 200lbs. In good health. 2011-09-09 12:02 Sgt. Jacobi reviewed

2011-09-02 08:55 I did not respond to initial call due to lack of information. The second call indicated a clear safety hazard. Deer was located along roadway on S-curves at Britannia Beach.

CO KELLY contacted COM. Bear attempted to get into house and is now feeding on garbage outside. 2005hrs CO KELLY arrived on scene and located bear with the assistance of RCMP. Bear was destroyed at approximately 2020hrs beside coquitlam river at Hwy 7. 2011-09-02 22:00 Sgt. Jacobi reviewed
2011-09-03 08:35 CO ACKLES CALLED COM and COM STATED CAMPER SAW COUGAR AT ABOVE MENTIONED TIME IN THE MIDDLE OF CAMPGROUND WHEN SHE WENT TO WASHROOMS. COUGAR STARED AT HER AND THEN WANDERED OFF IN A EASTERLY DIRECTION TOWARD THE ENGLISHMAN RIVER CORRIDOR. CO ACKLES SUGGESTED CAMPGROUND OPERATOR PUT UP SIGNS REGARDING COUGAR SIGHTING IN AREA. CO ACKLES PROVIDED COUGAR SAFETY ADVICE AND SUGGESTED PRINTING MOE COUGAR SAFETY INFO FROM WEBSITE.CO ACKLES TOLD OPERATOR TO CALL RAPP EMEADIETLY IF COUGAR SIGHTED AGAIN. 2011-09-03 08:41 2011-09-03 09:07 CO ACKLES RECEIVED CALL FROM CALL CENTER THAT COUGAR IS IN BUSH AT CAMPGROUND NOW. 09:12 CO ACKLES ATTENDED AND REQUESTED RCMP ASSIST. 09:35 CO ACKLES AND RCMP MEMBER SHOT AND KILLED COUGAR.

C.O. Pauwels rec'd briefing from ECC and called c/n who confirmed ~~info~~ ^{info} in the pwor - he believes the cougar is still behind campsite 76 and has been there since at least yesterday. C/n has seen the cougar on 2 separate occasions and it will not back off despite people throwing rocks at it and trying to scare it away. 11:15 - C.O. Pauwels attends, RCMP on scene. C/n shows where the cougar was last seen behind ~~2~~ ² and it is still there under a log. C.O. Pauwels takes shot with 12 gauge (slug) and misses just over the head. The cougar walked off and was seen again 2 minutes later by C.O. Pauwels but a safe shot could not be taken. C.O. Pauwels attempted to follow the cougar but the cougar was too rough to do so safely at night. Search called off after ~~25~~ ²⁵ min. Sept. 5, 06:30 - C.O. Pauwels re-attends this time with contracto ~~8.22~~ ^{8.22} and hounds. The cougar is quickly located at the exact same location as last night. C.O. Pauwels euthanized cougar with 1 shot from 12 gauge(slug). Cougar carcass to be skinned by contractor for asset disposal. Numerous subsequent media interviews.

2011-09-06 14:59 CO ACKLES AND RCMP DISPATCHED COUGAR AT APPROX 0935: SAME COUGAR AS PWOR 11-1 3968 AND 13978.

Due to injury limiting bear to access natural food sources and the apparent habituation to human areas set trap to remove bear from population. Set trap at the Roberts Creek Fire Hall as it is close to the COM's residence. Note several scat piles around the fire hall with obvious signs of household waste consumed. 2011-09-10 Bear in Trap. COS attend and destroy.

2011-09-06 16:28 CO SCHUMACHER and CO BECK attended and observed bear from a distance. Bear walking down side of road away from residence where truck is parked. CO SCHUMACHER called COM who said bear has broken drivers side window to obtain garbage. CO advised that bear would be euthanised and that COs would attend after house once complete. CO SCHUMACHER and CO BECK approached bear on foot. Bear continued to walk away from house. CO SCHUMACHER approached bear within approx. 15 meters and bear climbed tree. CO SCHUMACHER euthanised bear. Bear was male in fair to good condition. 16:52 CO SCHUMACHER and CO BECK attended and spoke to COM. CO SCHUMACHER explained reasons for euthanising bear and suggested she secure her garbage in secure shed or in house. CO SCHUMACHER recommended she freeze organics until the day of garbage day in order to reduce the smell. 17:35 Disposed of bear carcass. 18:02-10:63. Wash truck. 22

2011-09-06 14:30H ANAKA attended after receiving phone call from COM that things have escalated regarding this bear. Advised COM to call in update (see update). Bear now comes onto her porch, she has no attractants in yard except black berries, but no evidence that bear is feeding on the. Her property appears to be a travel corridor as evidenced by broken down fences and trails. COM stated that she is concerned for the safety of set tomorrow AM. 2011-09-07 09:59 Culbert trap set on neighbours property (abandoned and looked after by COM). Card and directions provided to COM. 2011-09-11 19:30 LISTER removed trap and reset at City Transfer property further up Duncan Street. 22

around since the trap was set. 2011-09-12 22 divise bear knocked over dumpster at the car wash again, shortly after the trap was removed. 10:00 LISTER attended City Transfer and relocated the trap closer to a trail in the forested area. Attended car wash and Salvation Army - fresh dung pile in Sally Ann parking lot. Phil LONG from City Transfer called to advise bear was near trap and startled one of his employees. 19:00 LISTER attended and noted no activity at trap. 2011-09-13 08:44 ANAKA attend and checked trap. 2 more calls in area regarding bear sightings and/or damage to property. 2011-09-21 09:07 Advised bear in trap. Anaka attends and secures trap. 1200H Re-attend and remove trap. Bear destroyed and left as carrion on Lois Lk FSR. Concluded.

Attended at 10:30, bear GOA at site 2. I patrolled area and located a black bear on Cal Check North Rd just prior to camping sites. Destroyed bear as it met the description of the problem bear. I showed bear to several campers who indicated it was definitely the correct bear. No further bear calls as of today's date at this area. I conducted bear smart camping education with several camping groups.

CO Gravel was briefed by CO Cox on situation and respond to the area. 1845 Gravel found bear in tree and dart him with 3cc. 1900 Gravel load bear in truck and transported to Seymour office. CO Gravel meet with CO Cox at Seymour office and destroyed bear. 2011-09-08 09:37 Gravel disposed of bear in Squamish land field.

Numerous calls received and various PWOR's regarding a bear at this location. 2011-09-06 21:30 CO Gorecki set trap after request from RCMP for CO assistance. 2011-09-07 21:20 CO Popjes was flagged down by a very anxious member of public advising a bear was back in the recycling area. Attempt was made to dart bear but it left the compound just prior to dart being loaded. CO Popjes moved trap directly in front of bin the bear had been using. 2011-09-08 08:30 Bear in trap CO Popjes picked up trap at 09:30 and hard released at 1100 after checking with Insp. Doyle on appropriate course of action. Hard release - Beanbag x1, RB x2, Cracker shell x3.

CO DOYLE received call directly from s.22 ho told him that that a cougar was laying in his back yard. CO Doyle called Gorecki and attended. CO Doyle located the cougar on a trail behind the residence. CO Doyle shot cougar 3 times with 12 gauge shotgun. CO Doyle loaded the cougar in unmarked patrol truck and transferred it to CO Gorecki.

CO DOYLE attended and destroyed one cougar. Another cougar was also in the area. CO DOYLE and CO GORECKI looked for cougar. CO GORECKI called houndsman s.22 nd requested attendance in the morning. He agreed. CO GORECKI transferred dead cougar to COS freezer. 2011-09-10 09:15 CO GRAVEL and CO GORECKI met with houndsman Located cougar in cave. CO GRAVEL destroyed it.

Attend to Bear in Trap. Adult male beblack bear. Destroy RC/Sechelt FSR and dispose of carcass in forested area away from any water source.

2011-09-12 09:06 EMCON called to report injured deer, Courtenay interchange, Hwy 19. Both hind legs broken. Sgt. Newton attend, dispatch young spiker blacktail deer and assist loading into Emcon truck for removal.

10-17 TRAILER PARK. 11:18 CO SCHUMACHER LOCATED ONE BEAR BEHIND TRAILER WITH GARBAGE ALL OVER DRIVEWAY AND LAWN. HAZED BEAR WITH RUBBER BULLET. BEAR WENT INTO BUSHES BEHIND TRAILER. 11:38 CONTINUED TO HAZE BEARS WITH CRACKER SHELLS. OBSERVED TWO BEARS COME OUT OF BUSHES. FIRST BEAR CONTINUED WHEN NOISE MADE. SECOND BEAR UNAFRAID OF MY PRESENCE. EUTHANIZED SECOND BEAR (MALE). REPORTS IN AREA OF BEAR ACTING AGGRESSIVELY. ISSUED DWPO #08781.

1030 CO GORECKI attended and set trap; also destroyed one bear trying to enter trap as it was being set. 1533 COM called to report another bear on her deck. CO GORECKI called COM and advised her to keep her doors and windows closed, secure attractants and to let her neighbors know to do the same. 2011-06-08 10:58 Bear entered trap. 1200 CO GORECKI removed trap, destroyed bear.

2011-06-07 16:28 Called s.22 property manager of Kaleva Garden patch on it that runs away when hazed. Larger bear of the two does not move or walks away slowly when hazed. Is in the process of getting chains welded on dumpsters to secure them. 2011-06-07 16:42 Called com. Observed two bears on 2011-06-05 hanging out together. One has white patch on it that runs away when hazed. Larger bear of the two does not move or walks away slowly when hazed. Bears getting into garbage during the 1/2 hour that people put their garbage out for pickup. Advised that I would set a LBT. 2011-06-07 21:22 Attended Kaleva Gardens and set LBT. 2011-06-07 22:08 PWOR #11-2918 update #7, Bear in Trap. 2011-06-07 22:20 Attended Kaleva Gardens, Bear in trap. Approx 200lbs Bear with small white patch between front legs. Suspected to be the same bear observed at sunset elementary school, PWOR #11-3899, Release bear on Nimpkish Main. 2011-06-08 17:17 Attended Kaleva Gardens and reset LBT. 2011-06-08 22:34 PWOR #11-4045, Bear in Trap. 2011-06-09 06:03 PWOR #11-2918 update #8, Bear in Trap. 2011-06-09 07:32 Attended Kaleva Gardens, bear in trap. Approx 180lbs bear with large white patch between front legs, long face. Described by com as the bear that runs off when hazed. Release bear on Skidder Main.

s.22 COM advised that all 3 bears were in the house and opened a window to get inside. They left for awhile and then returned while the COM was inside the house. Bears attempted to get into the window despite the COM banging on the other side of the window. CO BUSINK attended and watched the bears leave as he arrived. Trap was full with 2 cubs from Critter Care to be relocated. Advised COM that CO would return later. 2150 hours, CO BUSINK set trap. 2011-06-20 1630 - CO BUSINK attended. One cub in trap, sow and other cub hanging around trap. BUSINK shot sow which ran into green space/swamp. CO BUSINK shot outside cub and spent 2 hours searching for sow. BUSINK found blood trail and four places where sow lay down. CO BUSINK believes wound is mortal and sow has died somewhere in the swamp. 1830 - BUSINK departed residence with cub in trap. Destroyed cub and dumped off East Pemberton Farms Road at approx. 3km. 1915 - Rinse trap at Whistler yard then left trap at Whistler office.

TYRE spoke with COM and was advised that employees are walking fence perimeter looking for a possible breach. One employee is carrying a shotgun. TYRE suggested that it may be safer and more effective to carry bear spray. COM thought that was a great idea and will be buying bear spray to be kept in the entrance hut. No breach found at this time but bear is definitely still in the compound. TYRE advised that he will be working in the area and will address the issue next week. Bear has not exhibited aggressive nor defensive behaviour nor is TYRE aware of a history in area. 2011-07-14 TYRE shared sow in landfill. TYRE phoned CO veterinarian and explained situation. TYRE told that because cubs have been feeding actively on garbage they are not fit for rehab. TYRE attend and destroy sow and two COY with 30.06. Fence has been fixed for interim. Repairs to take place mid August according to DYSON from Regional District of Clayquot who are responsible for landfill. Concluded,

s.22 Sgt Norris spoke with s.22 at the marina who stated that s.22 had not seen the bears but heard they were an issue and will have s.22 call back. 1430 hrs Sgt Norris spoke with Rex who stated that yesterday a bear ripped open a campers cooler and was seen walking through the campsite an hour earlier. The bear started causing problems last Thursday s.22 asked for assistance. Sgt Norris asked s.22 to educate the campers about the presence of the bear and to lock up all food and attractants. s.22 stated in part that most campers were aware of safe camping in bear country and they had 250 sites spread out of 30 acres. Sgt Norris suggested that s.22 make proactive steps to educate campers and inspect all campsites to ensure food was put away and stored properly. s.22 was reluctant to do this and stated that the smell of food and bbq's were drawing bears into the campground and they were right in the estuary where bears frequent. Sgt Norris urged s.22 to ensure campers were locking up food and garbage and that they were aware of the bear in the area. s.22 stated in part that he would put up a sign at the gate to let people know there was a bear and to lock up food. Sgt Norris stated that they would set a trap tomorrow. 2011-07-26 1115 CO DORSEY set trap at Port Renfrew marina for bears frequenting area. 2011-07-27 0800 CO Kisinger advised of Bear in trap. CO Kisinger drove from Duncan to Renfrew. Inspected trap, tall, lanky underweight male bear. 1200 CO Kisinger dispatched bear and reset trap. 2011-08-03 Trap picked up from Renfrew due to lack of activity at location and to minimize the chance of attracting non target bears to area.

ECC called CO Petrovic. (Petrovic on a DOR). ECC advised that a Port Alice Resident has contacted the RCMP to advise that a Black Bear Sow has broke into a parked van. The sow was eating garbage that someone had stored in the van. A small cub is present and both animals continue to leave and return to the van. There is a single RCMP Cst. on scene who is requesting that COs respond to deal with the bears. (Cst. Rory WEBB on scene). RCMP - Port Alice File # 2011-204. Cst. Webb provided cell phone contact # 6 s.22 st. advised that he was not comfortable using his shotgun to destroy any animals and that the Detachment rifle was not available. Neighborhood residents very vocal toward officer on the future of the bear. No signs of aggression but very desensitized and apparently habituated to garbage. Cst. advised that a resident has offered to let his dog "go" and challenge the bear to try and push it out of area. CO Petrovic advised that if the resident wished to attempt that it would be ok but that the resident would be doing so under their own volition and that they were accepting full liability for the action. The Cst. asked CO to call him back in 15 min. for a re-assessment. 2011-07-09, 15:05 hours: Petrovic placed a call to Gudbranson to ascertain his availability in the North Island. (Left message). Cst. called CO Petrovic back and advised the bear only temporarily moved off and then returned to the van and garbage. CO Petrovic travelled to Port Alice. Sow was located and destroyed. Cub captured with snare pole (no drugs used to capture cub). Travelled to Port Hardy to re-fuel (all other stations closed). Travelled to Black Creek Office. Left cub in warehouse overnight. (Ended shift at 0330 hours). 2011-07-10, 0930 hours: Comm with Mr. Robin Campbell at N.I Recovery Centre. Robin can accommodate bear cub. Jeff Tyre attending Black Creek Office. Bear cub transported to Errington by CO Tyre. CO SCHUMACHER reviewed file. File concluded.

2011-08-11/12 22:15-04:15 CO SCHUMACHER conducting patrols in Port Hardy with Cst. MOROZOFF. 2011-08-12 03:04 Received a call from OCC RCMP dispatch s.22 stated that bear is in garage. CO SCHUMACHER observed 2 large bears coming out of the rear garage man door. Bears walked away looking back and stopping several times. Bears hung out in empty lot in thick brush. 03:25 CO SCHUMACHER shot 1st bear and it ran into thick brush. 03:32 CO SCHUMACHER euthanized 2nd bear, male approx 250lbs in good condition. 04:15 CO SCHUMACHER and Cst. MOROZOFF follow blood trail. Blood trail significant which led to greenspace on Trustee Rd outside of Port Hardy. Leave bear to locate in daylight. 05:45 CO SCHUMACHER and Cst. MOROZOFF follow blood trail. 06:02 Bear located and euthanized, male in good condition, approx 275-300lbs. 07:20 CO SCHUMACHER and Cst. HOBBS complete loading bear into truck. 08:13 CO SCHUMACHER and Cst. HOBBS dispose of bear carcasses.

co tyre attended t'seshaht reserve - while attending residences where bear were sighted - one 4-5 year old male black bear dispatched with 30.06. tyre attended site 2011-08-16 @ 0340 and destroyed a 250 lb male in garage with 30.06.

s.22, s.22, s.22
2011-08-30 23:38 -COM CO AMBROSE and KELLY responded and arrived at approximately 6:45. -COM used bear sprayed on the bear 30min ago and an hour ago according to another individual (the bear spray on the bear. The bear then ran up the tree. The COM and his dog kept the bear up there until CO AMBROSE and KELLY arrived. -COMs responded only b/c COM stated that he was going to kill the bear and go at the request of RCMP. CO AMBROSE asked COM why he told RCMP dispatch he was going to kill the bear. COM stated he was joking and just worked up, he had no firearms but said he was going to stangle it. -COM states that the bear had only been around for past hour and hasn't been causing problems, however he doesn't want it in his yard. -CO AMBROSE told COM why he told RCMP dispatch he was the house. Both dogs were barking at the bottom of the tree that the bear was in. -CO AMBROSE noticed that COM had compost and fruit trees with fruit. COM refused to pick the fruit until it was ripe. -COM stated that he wanted the bear shot. CO AMBROSE told COM he was not going to shoot a bear that has done nothing. CO AMBROSE then told COM to buy an airhorn instead of using bear spray and that bear spray isn't for running after or approaching bears its for close and unexpected encounters. -CO AMBROSE then "again" told COM to keep his dogs in the house and for him to stay in the house while COs deal with the bear. -CO AMBROSE and KELLY decided that since the bear wasn't aggressive, had only been around for 1 hour and wasn't eating non-natural foods, it wouldn't be destroyed but COs would haze/scare it out of the area. As the bear came down the tree the COM let his dog out and scared the bear back up the tree. -While CO AMBROSE went to talk to COM, CO KELLY received information that the COMS dog possibly attacked and bit the bear. Bear wound confirmed by CO KELLY. -CO AMBROSE had RCMP keep COM in house and get his information for possible charges. CO AMBROSE told COM that if we had caught his dog in the process, the dog would have been shot. -CO AMBROSE confirmed that the bear had a wound on its stomach (intestines hanging out). At this point COs decided the bear need to be put down for humane purposes. -CO AMBROSE destroyed bear. -CO AMBROSE received COMS information -Wound seems to be a straight clean cut, possible from the fence. -Bear had strong scent of bear spray when COs removed it. 2011-09-09 11:41 Sgt. Jacobi reviewed file.

Details

Caller says that last fall there was a bear with a red tag in its ear that was in the area. It is still hibernating right now, but she says there are people in the area who are trying to figure out how they can shoot the bear if it comes back this Spring. Caller wants to explore options as she doesn't want the bear shot.

2011-04-04		CO Miller phone call to COM. COM is concerned that a bear with a red tag is going to be shot by one of the local community members of Storm Bay. The Bay consists of 10 cabins that are occupied only a portion of the year (spring/summer). The bear is reported to be quite small and has some appearance of hair loss. The COM reports that the bear broke into several cabins in the fall of 2010. COM reports that the bear only received a minimum of food reward and ate some paint and foam products. CO Miller explained the importance of calling in all conflicts with wildlife, provided RAPP # and asked to forward to all Storm Bay cabin owners. Advised on the rules regarding legal hunting of bears (open season, licensing, shooting near occupied dwellings etc). CO Miller explained that the COS would respond considering the risk to public safety but needs information on all sightings through the RAPP #. CO Miller suggested that inexperienced hunters may be a public safety risk and that the COS will be engaged to ensure a safe destruction of this bear if it has survived the winter. COM agreed to send out an email notice to all residents and advise on all topics discussed with COS.
2011-05-19	12:00	CO Miller and CO Anaka attend Storm Bay and meet with COM s.22 s.22 COM's inform COS of conflict bears local pathways. CO Miller noted ear tagged bear at beach area and attempted a destruction but disengaged due to safety considerations. CO Anaka set a snare set in upper reaches behind cabin community.
2011-05-20	11:30	CO Miller attended Storm Bay site. Found ear tagged bear in snare set. Destroyed bear. Attained ear tag after destruction for COS records. Disposed of carcass in Sechelt Inlet. Removed all snare equipment from area and cleaned up broken glass cause by bear in

BLACK BEAR

NUISANCE WILDLIFE

NOT APPLICABLE

Action Taken

FAXED TO C.O.

Details

The bear has been around for some time now. The residence has previously had renters and now he is there and the grandkids are living downstairs. The garbage is secured and the bear still keeps coming around and is climbing into and onto the vehicles and has gone into his shop. It has gotten into oil containers and needs to be taken care of. There is a ravine behind his place and there is lots of room for a trap to be placed as well.

Date	Time	Narrative
		 Fax-Apr-23-2011-07 -48-39-2539.pdf
2011.04.26	0930	CO Miller calls COM. COM reports a bear that is on his property daily and has broken into his workshop and attempted to get into several of the vehicles on his property. COM is concerned for his children that often play in the four acre property. This bear appears to be displaying some habitual behaviours and has little fear or regard for human presence. As such COS will set a live trap in the area to remove the bear. CO Miller will set a live trap either today or April 27 th .
2011.05.03	1400	Close door of trap due to lack of response to captured bear.
		 Fax-May-14-2011-12 -02-20-2927.pdf
2011-05-14	14:00	CO SMITH received report at res and unable to get CO MILLER on phone as he was on patrol up Sechelt Inlet and back at unknown time. Rather than have bear left in trap, CO SMITH attended and destroyed large male bear (500 lb).
2011-05-14	17:30	Bear taken to local skinner where unloaded.
2011-05-14	18:30	Rtn to CO residence.
2011-05-18		CO MILLER provided with Non-Determinant number for submitting hide to Asset disposal. The bear will be tagged with tag number 009056.

2011-05-31	1230	Anaka attends COM res. A number of bears are seen at all times of day. Use property as access to other properties and spend time in trees. No attractants on site, but one bear did get feed of bird seed. Sow w/ 1yr cub, 2 adolescent bears, 1 mature bear all seen during daylight. Younger bears are difficult to scare and return soon after. Can no longer allow his child into back yard during day. Two adolescent bears about 200lbs are the worst and come back quickly. Advise COM that a trap would be placed in his back yard and would return at 1600H to do so. Believe that one of the adolescent bears is also responsible for property damage on s.22 Provided Bear safety Brochure. Numerous complaints in area.
2011-06-01	1600	Culvert trap placed in COM's back yard. Provided RAPP# to call when bear caught.
	0700	COM contacts Call Center and advises that bear is in trap.
	0840	Anaka attends. Male bear ~200lbs in trap. Meets description of problem bear. Trap/bear removed from site.
	1000	Bear destroyed and carcass left as carrion off FSR. Concluded attended.

2011-05-31	10:55	Anaka called COM. Will attend at 1200H to assess and provide advice.
	1200	Anaka attends COM Res. COM has every attractant imaginable. Current problem is bird, duck and chicken feed. Bear broke into shed and had a good feed. Shed is already re-inforced w/ rebar. COM will strengthen shed. COM has an e-fence already. Provided Bear Safety Pamphlet and E-fencing Pamphlet. COM saw bear this AM and describes as a 3 year old about 250lbs, bear was difficult to scare off. Bear trap set on s.22, s.15 for removal of bear described.
	1630	COM calls Anaka who is 1 block away setting culvert trap and advises that bear is back on his driveway a few feet from house and will not leave. NB: primary attract and was later located next door, a trailer full of household refuse. DWPO pending issue.
	1631	Anaka attends and observes 225lb bbear near house. Approach to w/in 15m and yell at bear. Bear showed no fear and did not depart. Bear matches description of bear that broke into COM's shed in the AM. Shot bear twice, lungs and neck. Bear ran off into re-gen (thick cover) and could not be immediately located. Contact Sgt Smith for advice. OK to call LISTER for backup or do as is necessary to locate bear..
	1800	LISTER arrives. Follow blood trail and locate dead male bbear ~ 225lbs approx 75m in bush. Remove bear and load in truck.
	1940	10-8
	1955	10-7 Res
2011-06-01	1000	Bear carcass left as carrion off FSR. Concluded attended.

			Location:			

DETAILS

Date	Time	Narrative
11-05-16	0850	CO BUSINK called COM and requested return call to gather more information
	1215	CO BUSINK returned voicemail call from COM – Bear into garbage shed that was not secured properly. Bear into garbage approx. 15 feet from house. COM and husband opened window and banged pots together, no reaction at all from bear. COM opened door and yelled at bear, bear charged at her and she went inside and closed door. Bear charged to within few feet of door, then resumed eating garbage. Shortly after bear went up the hill and out of sight. COM opened door and attempted to go pick up garbage before bear returned, but bear charged down the hill at the COM who retreated back inside. CO BUSINK advised they must secure shed, and requested that COM call if bear returns. Bear has a white or yellow tag on one ear.
	1115	s.22 advised bear was back last night and was trying to access garbage. COM tried to scare bear off but it held it's ground and bared it's teeth at COM. Bear continued to try and access garbage and left when it was not successful. COM advised that bear is all over the neighborhood and he has a perfect spot for a trap. CO advised trap would be set same date. CO BUSINK advised CO GORECKI who was to set trap at location.
11-05-17	1245	CO GORECKI set trap at end o s.22
11-05-23	0723	CO BUSINK rec'd call from ECC on new PWOR #11-2330 advising bear in trap.
	0825 0900	CO BUSINK p/u trap Furry Creek FSR. Destroy and dump bear. Telezol # 79-48. Approx. 180lb bear. Yellow tag in left ear # 2404.

DETAILS

Date	Time	Narrative
2011-04-06	0924	10-17 to location
	1001	Shot two cougar kittens out of tree – appeared to be slightly emaciated and had been in area for three weeks – another cougar kitten was seen running through brush after 2 nd kitten shot. COs Ackles and Bates previously sighted kittens 2011 03 21 @ 1520 400 m from the NW bay logging gate and appeared healthy – approximately 3 kms from this site – c/n advised there had been several sightings in the area all during daylight hours -
	1008	Called s.22 hounsman and asked him to come to scene
	1148	s.22 arrives on scene and we search green space with hounds – no sign of mother found, covered area with the dog and found an older winter killed deer carcass that the kittens had been feeding on – non typical behaviour for kittens to be feeding on rotten meet
	1200	Shot 3 rd cougar kitten out of tree. Examination noted several broken teeth on the kittens. RCMP OCC notified after shots fired.

Details:

s.22 advised he has found the sheep carcass on his property. He will not be home tomorrow between 0730 and 1800 but will be available on cell. The location is to the right from the barn, left through corral into field past a single cedar tree and through page wire gate in corner. Through gate, walk west on trail to a pile of sticks placed on the trail. Turn left walking along a tree trunk to end of tree and then to a charred black 3' branch sticking out of the ground. Turn right and find a group of 3 trillium and follow distinct trail in same direction for 50 meters passing some wool along the way and find the carcass.

Action Taken:

FAXED TO C.O.

Details:

Advised that a lamb has been taken. It was taken yesterday and there is bear evidence on the property. He has noticed overnight that the animals are agitated and the bear is likely close by. He has brought the sheep into the barn as he does not feel it is safe to leave them in the field anymore. s.22 has advised she will be at home tomorrow if the COs want to contact her.

OTHER

Nature of Complaint:

OTHER

Action Taken:

REFERRED TO C.O.

Details:

Calling to advise of a large bear that came onto the property and was trying to get into the in-law suite (ground level). The in-laws were cooking a chicken, and the bear ripped the screen off and was clawing at the siding. The in-laws yelled at the bear and it wouldn't leave, so they set the car alarm off. It took over 5 minutes for the bear to leave. There are two other smaller bears in the area but they have never had a problem before. This is the first time this bear has been seen. Requesting to speak with a CO.

culvert trap	2011-05-24		1	F	Mature	
			Location:			

DETAILS

Date	Time	Narrative
2011-05-24	1130	CO Newton and Ambrose attended One problem bear reported, second bear observed w/ larger offending bear. Culvert Trap set at the address on the PWOR. s.22 was told to remove attractants, mainly empty bottles (alcohol, cooking oil) along the side of their tenants house. s.22 was told to phone the RAPP line if the bear gets trapped or is sighted in the area again.
2011-05-25	0900	CO NEWTON received call that large Black Bear is in the trap. Second bear is circling the trap. CO NEWTON attended, and removed the trap. Second BB not sighted. Advised COM that we will set the trap again in attempt to catch the second bear. COM asked if these bears were to be relocated. CO NEWTON advised COM that the bear would be destroyed based on aggressive behaviour, trying to break into the house.
	1000	CO NEWTON and CO AMBROSE took the bear to the Port Alberni landfill, CO AMBROSE euthanized this BB. Mature female.
	1400	CO Ambrose reset trap at complainants residence to trap remaining bear. CO Ambrose explained reasons why the first BB was destroyed and why translocation isn't used. Complainant cleaned up attractants (empty bottles) on side of house
2011-05-27		Trap removed. Rapp # reiterated and advised to call if bear returns
