## **1.09                    ASSIGNING LIVING UNITS**

- CS i/c assigns all inmates to a living unit upon admission.
- General population remand inmates will be housed separately from sentenced inmates whenever possible.
- Male inmates who were previously in a Protective Custody Unit will automatically be placed in a PC unit during the admitting process by the CS i/c.
- Male inmates who are charged with or convicted of a sexual offence shall:
- Be placed in a PC unit if they request it.

## **PRINCE GEORGE REGIONAL CORRECTIONAL CENTRE POLICY ADMISSIONS & DISCHARGE - E1**

- If general population inmates are aware of his status or in the opinion of the CS i/c inmates may become aware of his status, he will be placed in a PC unit. The CS must notify the classification staff in writing of the particulars.
- All inmates not convicted/ charged with a sexual offence requesting a PC placement will be interviewed by the CS and if necessary be housed in living unit <sup>s.15</sup> until seen by a Classification Officer no later than the next working day (the CS i/c must notify Classification Staff in writing outlining the need for PC placement).

### **1.10                   ADMISSION MEDICAL**

All new admissions shall be interviewed by a Registered Nurse in order to identify current health and future needs.

### **1.11                   MEDICAL SCREENING FORM**

The admitting Registered Nurse will complete a Medical Screening form during the review described in 1.06 and provide a completed copy to an A&D Officer in a timely manner.

### **1.12                   MEDICAL SEGREGATION**

The admitting Registered Nurse may segregate any inmate they feel has a contagious disease, is suicidal, requires psychiatric care or is under the influence of an intoxicant. The Nurse will notify the CS i/c immediately when this occurs.
