Kusy, Eugene M FLNR:EX

From: s.22
Sent: Thursday, July 14, 2011 2:28 PM
To: Kusy, Eugene M FLNR:EX
Subject: RE: Interim Waste measurement.

Thanks Eugene,
I delivered your scaling stick to the MOF office in Golden today.

s.22

From: Kusy, Eugene M FLNR:EX [mailto:Eugene.Kusy@gov.bc.ca]
Sent: Thursday, July 14, 2011 2:46 PM
To: s.22
Subject: Interim Waste measurement.

s.22

Here is my estimate of the waste:

There were 48 conifers that were bigger than a 20cm butt the tree heights were estimated by adjacent timber (what was outside the R/W), 10 of those were 30cm to 44cm and 4 were grade 4, total sawlog volume = 19.876m3

There were approximately 50 stumps of Aspen. Birch and Cottonwood that were 20cm and over and heights were estimated as the conifers were. The total volume for the Deciduous is 9.80m3. 20% of that volume will be added to the sawlog volume which is 1.96m3.

Sawlog volume = 21.836
Grade 4 volume = 9.594

The bench mark applies to the sawlog portion of the estimate which is divided by the HA 18.066 = 1.2m3 per Ha
The grade 4 volume will be billed @ .25.

Any Questions give me a shout.
