I wouldn't have records but even if I did, the request is only asking for the records generated or held by the ADM/GM office. Anything I would have would technically not fall within the scope of the request.

As the request is for correspondence and reports "held by or generated from" my office for the period June 10 – 16, I expect that the records I have will suffice to respond fully to this request, and no other records would be required. As discussed earlier this week, I have approx one inch of emails and pages from my notebook.

Hi Cindy,

The IP analysts sometimes have to contact the originator of a document to clarify the content. It is best to get the answer that way than through a middle man (me). Often I am contacted by analysts first to clarify if the originator is still with the branch and able to assist but, not always, and it is not a requirement for them to do so.

I hope that you are able to continue to assist Donna with this request. Please advise ☺

Thank you.
