	Other:	

3.	Utilization	
	Bucking:	hand bucking
	Waste:	butts and tops

4. Products On Site: (eg; Sawlogs, House logs, Specialty Wood, Shake Blocks, Post & Rail Poles)

10 to 15 loads spruce and balsam, some fir

5. Equipment: Condition:

Skidder	Good
Loader	Good

6. General Notes.

Met with ^{s.22} he was just starting to open up the access road to the to the west side of the block, this old road is the access to private property ^{s.22} this same area is a grazing lease, I believe that when the snow melts in the spring there should be minimal damage to the grazing site and road way, it may require some grass seeding
