

1. The number of iPads and other tablets purchased by Shared Services BC for the tablet (iPad) pilot projects:
 - a. The attached spreadsheet provides a list of the devices and the individuals they were distributed to (totalling 268 devices).
2. The selection criteria for individuals who received them:
 - a. As a part of the government assessing and adopting flexible work tools, a pilot program was established to evaluate the potential benefits of tablets across a broad cross-section of Government. iPads were selected as the only device which currently meets the government's security standards. All of the acquisitions in the attached spreadsheet were for this pilot program.
 - b. Individuals were selected from the following four categories, plus re-allocations as reported below:
 - i. Ministers and Cabinet operations (63)
 - ii. Deputy Ministers and some Assistant Deputy Ministers (36)
 - iii. Highly mobile employees in the regions and individuals very conversant with information technology tools (83)
 - iv. Pilot support team (13)
 - v. Devices returned to SSBC inventory and re-deployed (23)
 - vi. SSBC Inventory of returned devices(10)
 - vii. Ministry inventory of tablets awaiting redeployment (40)
 - c. The pilot period ended September 30th, 2011 and a final report with recommendations is in progress.
3. The costs associated with the purchase, service and ongoing costs of these iPads and other tablet devices.
 - a. Purchase cost was \$949.99 for an iPad, 2 year warranty, plus case.
 - b. Service costs – all devices currently under Applecare warranty.
 - c. Ongoing costs – The annual operating costs are \$488 per device. (\$180 per year for technical support, messaging and calendar, and \$268 per year for data plan costs).
