Subject: 5050 Gladwin Rd

Hi Linda,

Attached please find the updated OMRR Notification for 5050 Gladwin Rd. This replaces Authorization # 105276 dated Dec 16, 2010.

Jayendee Farms is currently still the owner of this property, but we have a settlement agreement in place, where the ownership may change.

Transform will not be operating any facility at this location until the ownership changes. I will keep you posted.

Sincerely, John

John Paul, PhD President

Subject: RE: Rancho el Rio compost

Hi Linda,

Thanks for your message.

s.22

s.22

I am going over to see the Rancho el Rio site today – water is gone, so the process is going to be established and finished. It was a temporary site and the process should be completed in a month or two. If there is need or opportunity to carry on longer, the site will have to be moved as you suggest.

I will confirm this.

I am also still dealing with 5050 Gladwin Rd. We do have an OMRR registration on the site, and we are working to regain control of the site. I may be updating the registration shortly for a larger more expanded scope for this site (including all organic material under schedule 12 of OMRR).

Sincerely, John

Hi John:

s.22

s.22

In regards to the Rancho el Rio compost near Agassiz, what are the plans as far as it's location in the flood plain? Is the operator going to move it to another location away from any threat of flooding?

Linda

Dear Registrant:

Re: Registration under the Organic Matter Recycling Regulation

Receipt of your completed registration under the Organic Matter Recycling Regulation is acknowledged. The effective date of registration is December 10, 2010. On and following the effective date of registration you are exempt from section 6(2) and 6(3) of the Environmental Management Act and may discharge waste to the environment from this facility provided all conditions and requirements of the regulation are met.

Please indicate the ministry authorization number shown above on all future correspondence with the Ministry regarding this facility.

Your attention is respectfully directed to the terms and conditions specified in the regulation. Contravention of any of the conditions is a violation of the Environmental Management Act and may result in prosecution. If the regulation does not cover all waste streams at the site, additional authorizations may be required under the Environmental Management Act.

This acknowledgement of your registration should not be construed as a representation that the works are adequately designed or will satisfy the regulation requirements. It is the responsibility of the discharger to ensure that the facility is adequately designed, constructed and operated to ensure compliance.

Registration under the regulation is without prejudice to any additional requirements that may be specified by the Director. The Director may also issue Orders under the Environmental Management Act.

Registration under the regulation does not authorize entry upon, crossing over, or use for any purpose of private or Crown lands or works, unless and except as authorized by the owner of such lands or works. The responsibility for obtaining such authority shall rest with the operator. It is also the responsibility of the operator to ensure that all activities conducted under this regulation are carried out with regard to the rights of third parties, and comply with other applicable legislation that may be in force. The operator must also obtain any necessary approvals from other agencies.

December 16, 2010

To: Vanderhoek, Linda ENV:EX
Subject: notice of application Jayendee Farms

Hi Linda,

Hope that you are well.

Attached please find another notice of operation. Looks like we will be getting the contract for the District of Mission's yardwaste and curbside food waste/yardwaste.

We have already been working with the ALC and the City of Abbotsford for the last year on the non-farm use approvals.

Sincerely, John
