Interpol did not contact our staff directly on this issue . As part of our classification process we check a variety of sites. Our staff responsible for this, Earl Preiss, checked the INTERPOL site and found a match to one of the migrants we are holding. s.15 FYI.

Here is the photo and the name of the individual s.15 We checked the names on the net for classification purposes and this name came up. That is how Earl found the information. He then checked with CBSA and they confirmed that. s.15, s.16

The pictures are similar but hard to tell if it is the same individual, but the names are the same and we are hearing from CBSA that they are one in the same.
