1. Data exclude offshore students. At Colleges, Institutes and Teaching-Intensive Universities, international students include students who have paid an international fee for at least one course in the period. At Research-Intensive Universities, international students are defined as those who have obtained a visa of some kind (student visa, work permit, diplomatic visa, or minister's permit). Students whose visa status was not identified are included with domestic students.

2. Each number has been rounded to the nearest five. The effects of rounding may result in totals in different reports not matching exactly when they would be expected to match.

3. Academic Year (AY) is from September 1 to August 31.
