Subject: A somewhat complicated public safety bulletin

Hello,

We are wondering if it would be possible for you to send this to the media at about 1:30 pm today. It needs Majors plus all Metro Vancouver plus all Lower Mainland/ Fraser Valley outlets, especially Surrey, Langley, Maple Ridge, Abbotsford and Coquitlam. Does that make sense?

Jeff, Tasha or Jules: could one of you please ensure that Ryan Jabs at Health also gets an advance copy as their ministry could be asked questions about it as well ...

Barb McLintock

Ryan, see below. Just to confirm everywhere else deaths related to fentanyl are stabilizing or decreasing since last year. We don't know whether the 7 overdoses that the VPD put out the warning about are related to fentanyl because there were no samples taken.

Fentanyl-Detected Deaths by Region, 2012-2014(YTD)

Region	2012	2013	2014
Fraser	6	12	13
Metro	3	15	5
Island	2	14	3
Northern	1	7	3
Interior	3	3	3
Total	15	51	27

Hi Carol,

Are they only seeing higher rates in Fraser or are they also seeing them in Vancouver coastal region?

Ryan
