Subject: RE: Angle Parking is back

Tim,
I understand Ed Wnuk is making trip to Nelson next week to work on the Toop Road Project with AI.
Given our current resource crunch, would be prepared to have ISL prepare design revision sheets for our review and acceptance.

AI – Any concerns with that approach?

Thanks.

Thanks Kevin...we should discuss on Monday with Grant and AI....Grant will have to look at AI's workload and priorities before he can commit to a time frame on this. It may be required to have ISL complete the drafting changes and forwarded to Grant for review/signature.

Are you available Monday am to discuss? If so I will send a meeting request through outlook.

Thanks,
Tim

Subject: Angle Parking is back

Hi guys,

We have been given official word that we will be changing the design on the north block between Queen and Washington to Angle parking. AI, I see this as leaving the curb extensions (bulb outs) as they are and just continuing the parking toward the buildings. The grads should remain the same thanks to the drainage swales. Do you have an idea when you could get to this?

The City recognizes this work is at their cost.

Kevin
