June 29, 2011

In response to the FOI request recently received by our office, we enclose our work report which lists all sign work that was performed in area 0371R which is Highway 91/99 to the United States Border.

For your ease of translation, Job Code 440P means replacing/installing a sign (small), Job Code 440M means replacing/installing a sign and post, Job Code 440N means replacing/installing a sign under 3.2 M² with a double post, and Job Code 440K means replacing/installing a delineator post.

We trust you will find the enclosed to be in order.

Yours truly,
