Corporal NANTON of the Port Mann RCMP has conducted an audit of Port Mann RCMP ASDS and made note of a clerical error on the Certificate of a Qualified ASD Calibrator for each ASD listed above regarding all Port Mann files stated above. Please make note that Corporal NANTON is a Qualified ASD Calibrator.

The Clerical error is in reference to Manufacture of the dry gas alcohol standard identified as AIRGAS Lot number 2591308212. Although AIRGAS is a manufacture of dry gas alcohol standard, in the instance the dry gas alcohol standard used to calibrate the above noted instruments was ILMO Lot number 2591308212.

This supplemental is to amend the Manufacture name from AIRGAS to ILMO. The lot number 2591308212 and expiry date 2015-10-01 still remain the same and correct for the ILMO dry gas alcohol standard used for the calibrations of the above noted ASDS.

Sincerely

Cst. Paula PENNEY
