Cam,

I attach a letter proposing conditions for the licence of occupation for the Mitchell/Treaty tunnels at our KSM Project. As noted in our letter, this proposal is information relating to the commercial and financial affairs of Seabridge Gold Inc., is confidential and its disclosure could significantly interfere with Seabridge's bargaining position in respect of this matter.

Could you please confirm receipt of this letter. In addition, if it would assist your work I would be please to send the Appendix with the proposed conditions to you in Word.

**Attachments:** 6408448 interim licence.docx; Appendix 2 to The management plan titled ¿2013-09-27 Seabridge LoO Appli....docx

As per chat with Bruce this afternoon.

Bruce/Jessy attached is the first draft of the legal tenure for the “tunnel”.

At this point one thing I will need back from Seabridge is the “correct/updated” list of the claims that are not held by Seabridge (attached is the most recent MP list of claim tenures).

Assuming this process moves forward some numbers/% to Appendix 2 will be required to discuss/finalize.

Claim Holder	Mineral Claim Number	Claim “Good to” date
McKee, Greg William	935909	2012/Dec/02
Teuton Resources Corporation	392436	2021/June/11
Teuton Resources Corporation	251232	2021/June/11
Teuton Resources Corporation	392435	2021/June/11
Teuton Resources Corporation	251229	2021/June/11
Teuton Resources Corporation	251231	2021/June/11
Teuton Resources Corporation	251230	2021/June/11
Teuton Resources Corporation	390924	2021/June/11
Teuton Resources Corporation	392462	2021/June/11
Teuton Resources Corporation	392463	2021/June/11
Teuton Resources Corporation	392464	2021/June/11

It is intended that created Appendix 2 (attached) is to become/will be added your signed off MP. Note: section 2 (iv) and 4 has been changed or added to from Seabridge’s submission.

Please note, the doc is “locked down” and I am unable to change the text in the doc so please have in mind the following:
