Bottles Picks as Percent of Cases

Total Bottles picked in 2011/2012 at end of Period 12

Taken from Distribution KIR Bottles Picked metric Page 13 published 4/23/2012

1,445,778 Bottles = approximately **144,578** cases *

Total Cases picked in 2011/2012 at end of Period 12

Taken from Distribution Projected Cases Shipped Budget for Fiscal Year 2013 Page 1 published

12,770,603 cases

% of total volume of bottle picks shipped in repacked cases **1.13%**

Bottle Picks as a Percent of Total SKUs

Certain products are restricted from bottle pick: Non Stocked Wholesale (up to 17,000 skus), duty free products

Refreshment beverages in 4, 6 , and 8 packs and bottle sizes less than 500 ml or greater than 1.8 L.

SKUs Bottle Picked from VDC = 2555

SKUs Case Picked from VDC = 5470

47 percent of total SKU's in the Distribution Centre are offered as less than full case picks.

* Depending on how many bottles a customer orders there may be partial cases when picks are completed.
Vancouver Distribution Centre's average is 10 bottles per case

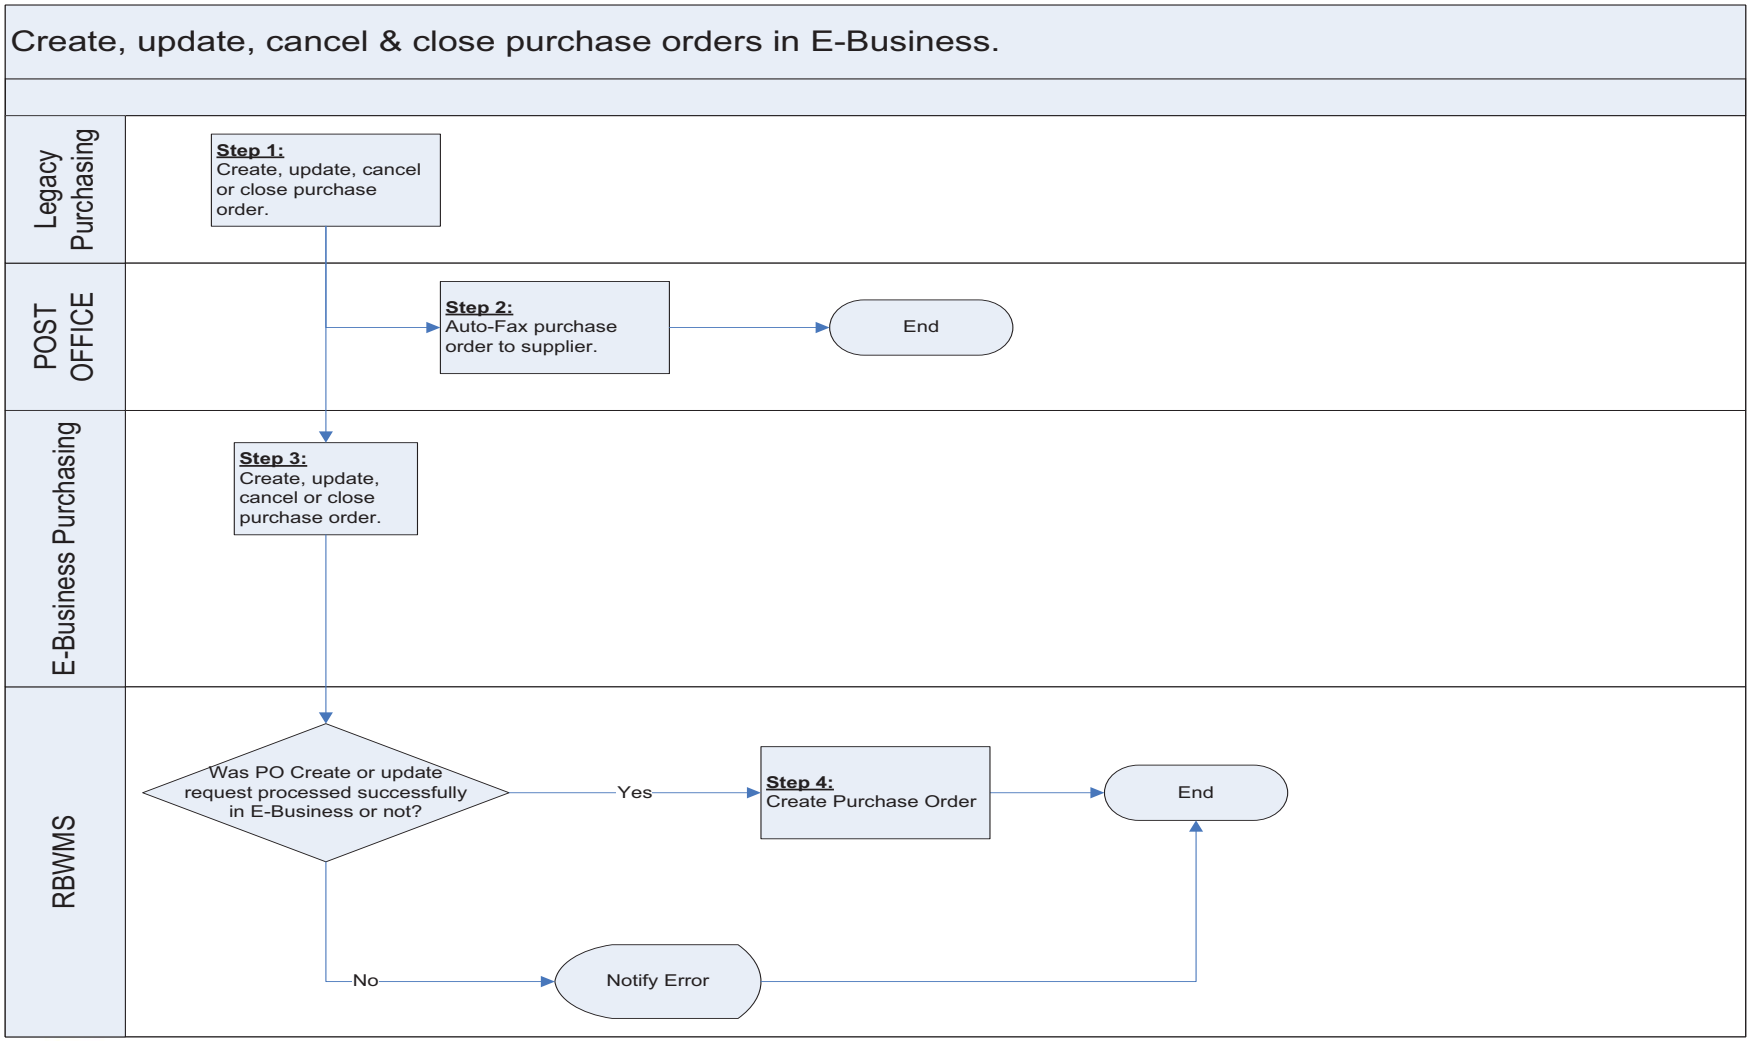
ABOUT THIS DOCUMENT

This document defines the 'To-Be' business processes of Liquor Distribution Branch.

This document is prepared on the basis of the Discovery phase discussions, LDB business requirement document and to be process discussion held with LDB. LDB business application owners /Key Users will review this document and necessary feedback comments, if any, will be incorporated by TCS in the document.



This document will form the baseline for subsequent activities like Product Customisation and Set-up of Oracle Applications software.

TABLE OF CONTENTS

1. Create, update, cancel & close purchase orders in e-Business & RBWMS 8
2. Create PO receipt in E-Business & Legacy Purchasing 12
3. Receiving to Payable process 14
4. Return to Vendor/Supplier process 17
5. Non-Stock / Back to Back Process 21
6. Cancel Non-Stock / Back to Back purchase order process 28
7. Purchasing Allocation Process 31
8. Direct Delivery Process 39

1. Create, update, cancel & close purchase orders in e-Business & RBWMS

Process Name: Create, update, cancel and close purchase orders in e-Business & RBWMS Process ID: PO- BP- 01				
Process Description	Create, update, cancel & close Purchase Orders (EPO, RPO, Direct imports and Domestic) in e-Business & RBWMS based on PO creation, update & cancellation in legacy purchasing.			
Prerequisite / Process Inputs	1. Inventory Org structure should be in place i.e. Inventory Organization, Sub-inventory. 2. Items should be defined & assigned to Inventory Organization. 3. Purchasing & Financial options should be defined. 4. Buyers & locations should be defined. 5. Document & Line types should be defined. 6. Purchasing period should be open.			
Process Steps	**Steps Description**	**Application**	**Remark/Doc reference /Interface**	**Test Case reference**
1.	Create or update purchase order.	Legacy purchasing	Manual Step	
2.	Auto-Fax purchase order to supplier.	Post Office	This step is automatically done through interface between POST OFFICE & Legacy purchasing application.	
3.	Create or update purchase order based on information interfaced through INT-013	E-business Purchasing Module	This step is done automatically. #Refer INT-013 FDD for further details. i.e. how e-business has mapped legacy fields.	

			#Refer operational document to know where to see PO in E-Business.	
4.	Create purchase order based on information interfaced from legacy purchasing through INT-019 Note; This step would be performed only when create or update request is successful in e-Business i.e. Step-3 is successful.	RBWMS	This step would be done automatically #Refer INT-019 FDD for further details.	
Business Rule/ Assumptions	1. Agent import purchase orders, RAC RPO's won't be interfaced to oracle. 2. Legacy won't pass 'Expense Items' Purchase orders via INT 013. 3. Legacy won't allow PO Line delete operation on partially received line. 4. Legacy will maintain CFR application rules i.e. a. Rules for deciding taxes & charges applicable on PO b. Rules for deciding Invoicing Vendor. 5. Vendor cannot be changed once purchase order is created. 6. E-Business will create PO on Invoicing Vendor only i.e. 'Pay-To' vendor. 7. Only inventory item i.e. liquor and saleable non-liquor, purchase orders would be imported in e-Business via INT-013 8. Purchase orders would be imported with approved status & won't be approved in oracle. 9. Importing liquor purchase orders won't have any impact on direct non-liquor purchase order entry. 10. e-Business will generate standard purchase order against EPO, RPO & PO 11. E-Business won't report PO change history based on User, as all the changes would be coming through interface. 12. SCC based ordering won't be in oracle.E-business will be capturing SCC & Revision number. 13. Legacy will feed oracle with tax information. 14. E-Business will allow price updates till the time, there's no receipt against PO. 15. e-Business will allow following viewable updates on purchase order a. Promised Date b. Quantity c. Price d. DFF Attributes e. PO status change f. Add Line g. Delete Line			

	h. Cancel PO i. PO Comments 16. Legacy allows PO cancellation only when no item has been received against any PO ordered item. 17. Purchase Orders imported in e-Business will default Payment Term from Supplier Site.
Output	PO would be created, updated, cancelled & closed in oracle & RBWMS.
Open Issues	1. Separation of liquor & non-liquor responsibility i.e. liquor user should not be able to view non-liquor PO's & vice versa with one operating unit.
Oracle Gap if Any	
Accounting Implication	No Accounting implication

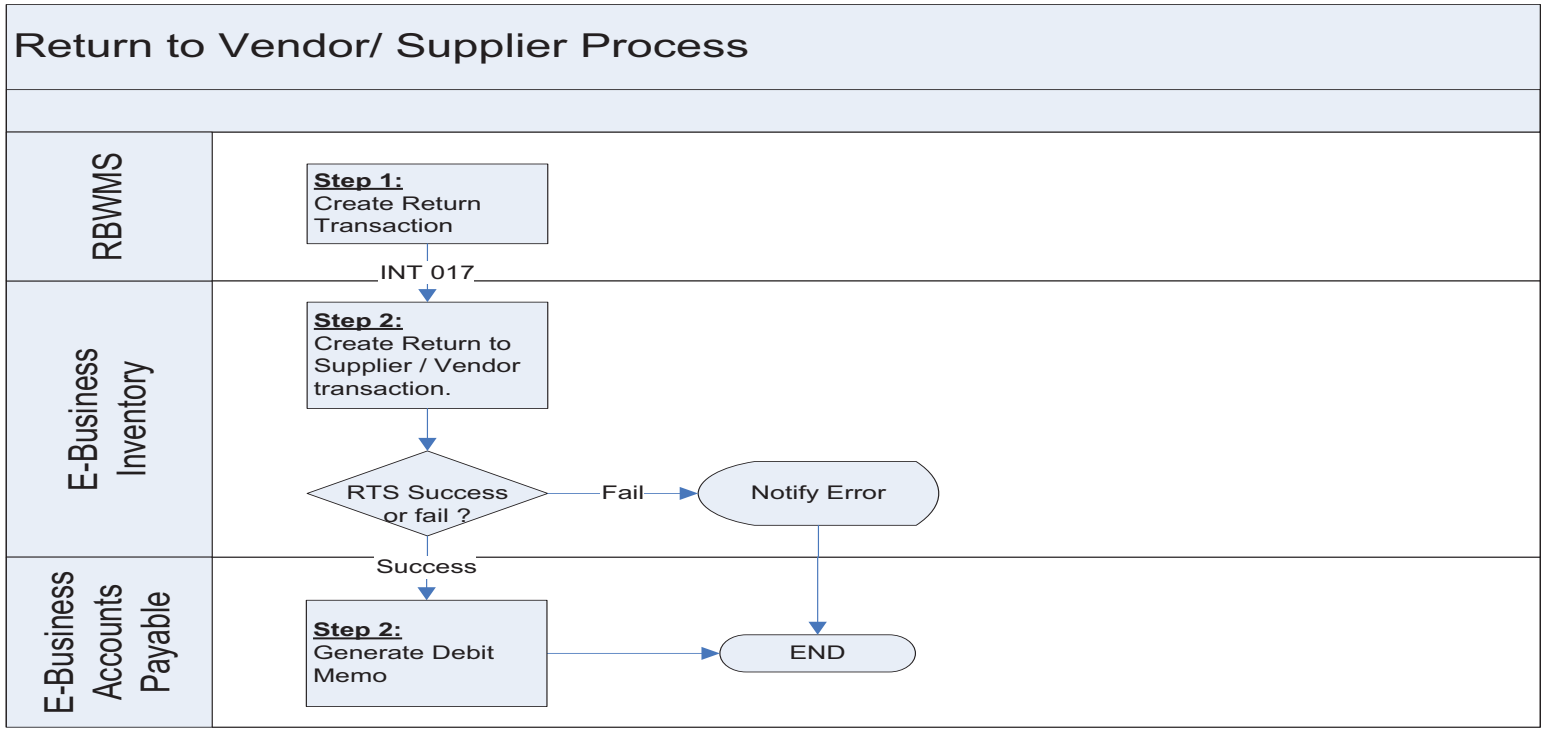
Step 4:
Update Purchase Order
END

2. Create PO receipt in E-Business & Legacy Purchasing

Process Name: Create PO receipt in E-Business & Legacy Purchasing				Process Id: PO- BP- 02
Process Description	Receive material against purchase order in E-Business, against receiving activity in RBWMS & update purchase order in legacy purchasing with receipt quantity. Alert Business users, if material receipt is against a. Pre-paid purchase order b. Status 1 Item. c. Item Distribution method for both the customer group is set to 'XDOCK'			
Prerequisite / Process Inputs	1. Inventory Org structure should be in place i.e. Inventory Organization, Sub-inventory. 2. Items should be defined & assigned to inventory organization. 3. Receiving Options should be defined. 4. Item should be assigned to sub-inventory. 5. Purchasing setup should be defined. 6. Purchase Order should exist.			
Process Steps	**Steps Description**	**Application**	**Remark/Doc reference /Process change**	**Test Case reference**
1.	Create material receipt against purchase order.	RBWMS	Manual Step	
2.	Create material receipt transaction in e-Business through interface.(INT-018)	e-Business Purchasing	This step would be performed automatically through interface. #Refer INT-018 FDD for further details.	
3.	Alert business user, if material receipt is against a. Pre-paid purchase order b. Status 1 Item. c. Item Distribution method for both the customer group is set to 'XDOCK'	e-Business Purchasing	This would be triggered automatically at the time of receipt.	
4.	Update purchase order with receipt quantity via INT 012A.(i.e. from RBWMS to legacy purchasing.).	Legacy Purchasing	The Step would be performed automatically through	

			Interface INT -012A. **Note:** Condition for receipt update to legacy purchasing is that Receipt record should be successfully updated in e-Business. #Refer INT-012 FDD for further details.	
Business Rules/ Assumptions	1. In this process for all type of purchase orders, receipt would take place in regular sub-inventory based on items tariff class. 2. Item having both Distribution methods i.e. GLS & WC set to XDOCK would be received in regular sub-inventory in reserved (XDOCK tag) state. 3. Legacy purchasing would be updated with receipt information only when update is successful in e-Business. BPEL will take care of this logic. 4. E-Business will create receipts only in 'Bottles' as RBWMS do receiving transaction in 'Bottles' only.			
Output	1. Warehouse stock increases. 2. Warehouse material valuation increases 3. PO is updated with received quantity information. 4. Business users are alerted about the material receipt where applicable.			
Open Issues	None			
Oracle Gap if Any	None			
Accounting Implication	**At receipt** Inventory Valuation Dr. To Inventory AP accrual Cr.			
Process Change Impact				

3. Receiving to Payable process



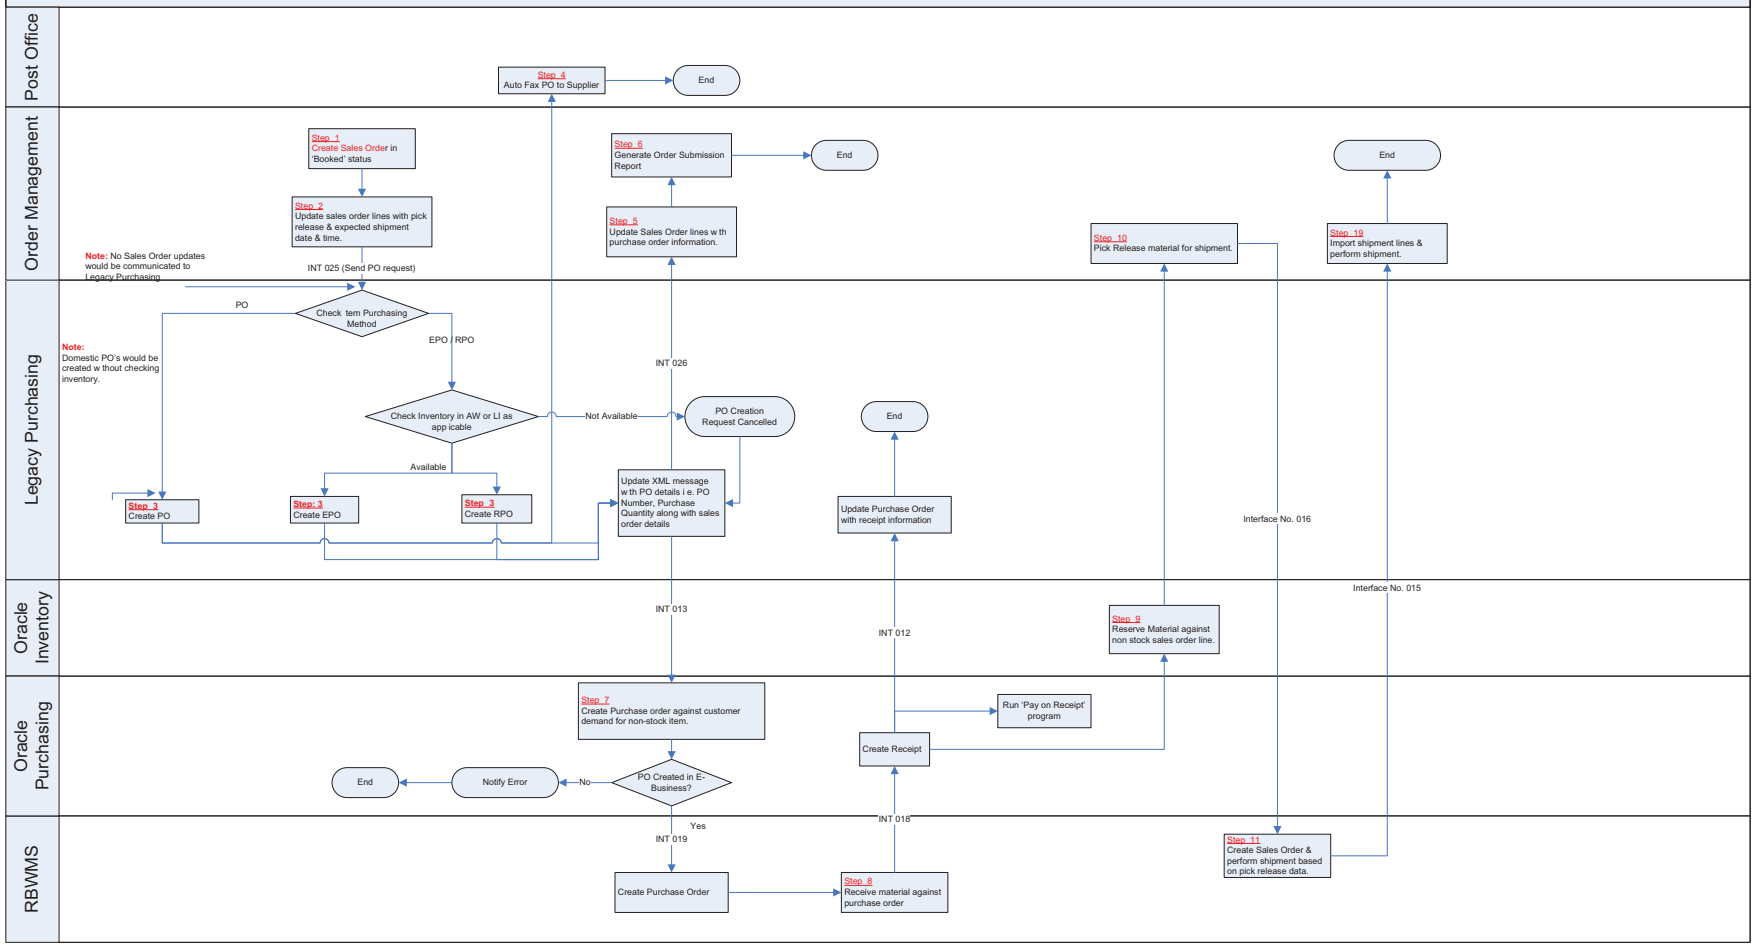
Note: The concurrent request will be fired only once a day

Process Name: Receiving to Payable process		Process Id: PO- BP- 03		
Process Description	Oracle should automatically generate supplier invoices against receipts that are interfaced from RBWMS via INT-018 .			
Prerequisite / Process Inputs	1) Financial Options should be defined. 2) Payable Options should be defined 3) Supplier site should be defined to automatically generate invoice at receipt. 4) Receipt should be there in system. 5) Custom charges should be in PO Distribution DFF fields. * Refer INT-013			
Process Steps	**Steps Description**	**Application**	**Remark/Doc reference /Process change**	**Test Case reference**
1.	Run or schedule request 'LDB WOM Pay on Receipt Auto Invoice' with Transaction Source parameter set to ERS (Evaluated Receipt Settlement) Follow following steps to run requests a. Login to e-Business, select Purchasing responsibility. b. Open 'Submit Request' window by navigating following I. Go to Toolbar, select menu 'View---→ Request.' II. Click 'Submit a New Request' button at the bottom of form & then press 'OK'. c. Enter in 'Name' field 'LDB WOM Pay On Receipt AutoInvoice' d. Select 'Transaction Source' = 'ERS'. Optionally, one can select 'Receipt Number' in case one wants to run it for single receipt & then press 'OK' button at bottom. e. Press 'Submit' button to run request.	Oracle Purchasing	Program will automatically generate Invoice in accounts payable with invoice number 'PO-Number' – 'Receipt Date'- 'Sequence Number' **Note:** #Sequence Number will be null, if a single receipt is done against PO. If multiple receipts are there against PO on the same date then system will append sequential number based on receipt.	
Business Rule / Assumptions	1. Invoice should be generated with following invoice format 'PO Number – Receipt Date – Sequence Number' 2. Invoice generated should take care of following misc. charges			

	a. Domestic Charges b. Freight Allowance c. Container Deposit 3. Custom program should be able to generate taxes as applicable on PO. 4. Custom program should generate supplier invoice against a receipt only once. 5. Custom program would be called only once a day. 6. Invoice Match Level would be 2-Way for Non-Liquor & Liquor purchasing. 7. Custom program would generate invoices in all currencies * Refer multi-currency process document for further details.
Output	1. Invoice would be generated in oracle with following invoice numbering format PO Number – Receipt Date – Sequence Number This sequence number would be decided based on receipt against a given PO & Receipt Date 2. Invoice would be generated with additional charge, tax & freight allowance lines.
Open Issues	
Oracle Gap if Any	
Accounting Implication	Inventory AP Accrual Dr. To Sundry Creditor Cr.
Process Change Impact	Invoices & payments would be generated in case of partial receipts.

4. Return to Vendor/Supplier process

Process Name: Return to Vendor/ Supplier Process				Process Id: PO- BP- 04
Process Description	Return to Supplier/ Return to Vendor activity would be done in Radio Beacon Warehouse Management System. E-Business needs to generate returns against PO returns done in RBWMS.			
Prerequisite / Process Inputs	1. Inventory Org structure should be in place i.e. Inventory Organization, Sub-inventory. 2. PO should exist in e-Business. 3. Item should be defined in e-Business & assigned to Inventory Organization. 4. Item should be assigned to sub-inventory 5. Transactional UOM should be defined in e-Business.			
Process Steps	**Steps Description**	**Application**	**Remark/Doc reference /Process change**	**Test Case reference**
1.	Enter Return transactions. **Note:** Quantity being transacted should not be more than PO quantity.	RBWMS	Manual step.	
2.	Update returns transaction information in e-Business via interface. **Note:** At this stage e-Business would perform return against receipt.	RBWMS /BPEL/ E-Business Inventory	This step would be performed automatically by INT 017. # Refer FDD of INT 017 for further details.	
3.	Generate Debit Memo against return transaction.	e-Business Purchasing	This step would be performed automatically by INT 017. # Refer FDD of INT 017 for further details.	
Business Rules/ Assumptions	1. In this process for all type of returns, returns would take place from held sub-inventories. 2. Purchasing completes RTV memo giving reason code, PO number. Distribution user would enter PO number, while entering return transaction in RBWMS.			



TATA CONSULTANCY SERVICES

Page 18 of 60

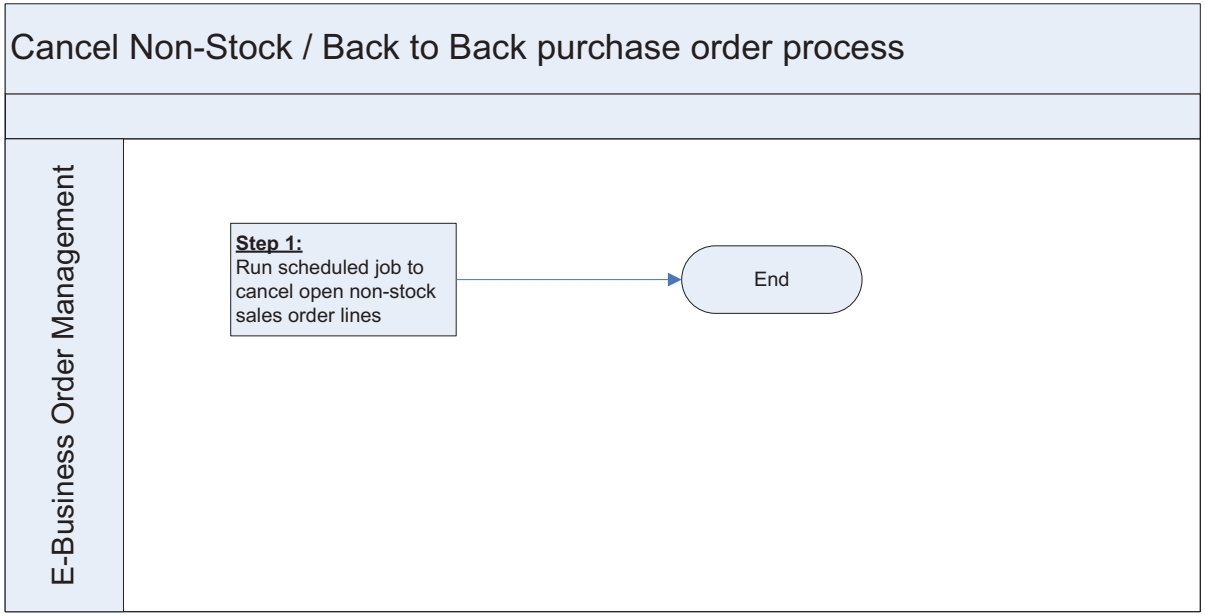
Page 2311 Page 730 of 1430
CTZ-2012-00086787 CTZ-22-12-12-12

	3. RBWMS would be able to uniquely identify the return type of transaction i.e. RTV, claimable break and claimable shorts. 4. E-Business won't use seeded 'Create Debit Memo against RTS) transaction feature as LDB wants to adjust custom charge lines (that were generated at the time of invoicing) at the time of return 5. e-Business would reject the transaction a. Quantity being transacted is more than PO quantity. b. Item being transacted is not their on PO.
Output	1. Warehouse stock decreases. 2. Warehouse material valuation decreases. 3. Supplier account is debited.
Open Issues	
Oracle Gap if Any	None
Accounting Implication	**Return Transaction** Inventory AP accrual Cr. To Inventory Valuation Dr. **Debit Memo against Return Transaction** Sundry Creditor Dr. To Inventory AP accrual Cr.
Process Change Impact	

Non-Stock or Back to Back wholesale order program

5. Non-Stock / Back to Back Process

Process Name: Non-Stock / Back to Back Process				Process Id: PO- BP- 05
Process Description	LDB generates a back to back purchase order against non-stock sales order lines, checking 3rd party warehouse inventory. So, E-Business will generate a back to back purchase order for supply via INT 025/026/013 against non stocked product demand. E-business will check DC inventory first & then send demand for unavailable quantity to legacy purchasing system..			
Prerequisite / Process Inputs	1. Inventory Org structure should be in place i.e. Inventory Organization, Sub-inventory. 2. Items should be defined & assigned to inventory organization. (Non stock items will be defined as regular inventory items with item attribute 'ATO flag' turned on.. 3. Item should be set as Non-stock in CPD i.e. Restriction Type should be set as 'XPBO', 'XCBO'. 4. Item should be assigned to sub-inventory 5. Document Types should be defined. 6. Purchasing, Receiving and Payable options should be defined. 7. Order Entry setup should be defined.			
Process Steps	**Steps Description**	**Application**	**Remark/Doc reference /Process change**	**Test Case reference**
1.	Create sales order item in 'Booked' state. **Note:** Sales order can have both stocked & non-stocked items on same order.	e-Business Order Management	This step would be done manually & automatically for JDA Orders. Sales Order booking program would do both booking as well as material reservation.	
2.	Update Sales Order Lines (Scheduled concurrent request would update the sales order line that are booked & reserved, with warehouse pick release timestamp & expected ship timestamp).	e-Business Order Management	This step would be done automatically #Refer PRG-016 FDD for further details.	



3.	Create Purchase Orders against customer demand (non-stock items sales order lines). Following steps will be performed at the time of PO generation. a. E-Business will update legacy purchasing with demand quantity via INT 025 in Cases. **Note:** E-Business will check DC inventory first. If available inventory is sufficient to meet customer demand then no demand request will be passed to legacy. If partial quantity is available in VDC then request for partial qty will be forwarded to legacy. b. Legacy purchasing would check 3rd party warehouse inventory for availability for items having purchasing method set to EPO / RPO in CPD.	Legacy Purchasing	This step would be done automatically by interface i.e. INT 025 #Refer INT-025 FDD for further details.	
4.	Auto Fax PO to Supplier	Post Office		
5.	Update sales order with purchase order information from legacy purchasing i.e. quantity & purchase order number. **Note:** This step will update the sales order line, ordered qty to sum of quantity reserved in DC & Quantity confirmed by Legacy Purchasing. So in case of error at legacy purchasing end, E-Business would either cancel the full order quantity or update the sales order line qty to the qty reserved in DC against order.	e-Business Order Management	This step would be done automatically by interface i.e. INT- 026 #Refer INT-026 FDD for further details.	
6.	Generate Order submission report: (Scheduled concurrent request will generate order submission report.)	e-Business Order Management	This step would be done automatically #Refer FDD of RPT-002 for further details	
7.	Create purchase order against customer demand (sales	e-Business	This step would be	

	order) for non-stock items in e-business & RBWMS.	Purchasing module / RBWMS	done automatically by interface i.e. INT 013 & 019. # Refer INT 013 & 019 for further details.	
8.	Receive material against non-stock product purchase order. Following systems would be updated with receipt information a. RBWMS b. E-Business i.e. through interface (INT 018) c. Legacy Purchasing i.e. through interface (INT 019)	RBWMS/ E-Business Purchasing Module/ Legacy Purchasing	# Refer INT 018 & 012 for further details.	
9.	Reserve material received, against the sales order. **Note:** This activity would be done via a separate custom component that would be built in receiving interface i.e. INT 018.	e-Business Inventory Module	# Refer INT 018 FDD for further details.	
10.	Pick release material for shipment. (**Note:** This step would be performed by standard scheduled concurrent program.)	e-Business Order Management	This step would be done automatically #Refer PRG-012 for further details.	
11.	Create sales order & perform shipment based on pick release data interfaced by E-Business.	RBWMS	This step would be done automatically #Refer INT 016 FDD for further details.	
12.	Perform shipment against sales order.	e-Business Order Management	This step would be done automatically	

			#Refer INT 015 FDD for further details.	
Business Rules/ Assumptions	1. Sales order lines updates won't update PO lines. 2. Reservations would be done based on sales order status at the time of material receipt. This means for e.g. if sales order has been cancelled by the time receipt comes then material would be placed in regular bucket based on tariff class without any reservation. 3. Sales order can have both stocked & non-stocked item lines. 4. Single order submission report for both stocked & non-stocked items for wholesale customer. 5. Reservation would be done at the time of sales order booking. 6. E-Business would check material availability in DC first & then put a material request to Legacy Purchasing via interface. 7. E-Business would do picking in bottles 8. E-Business would allow staggered receipts & shipments. 9. GLS outstanding NSWP orders report will be printed Daily & Wholesale customer outstanding NSWP orders report would be printed at Invoice Time. 10. After booking & reservation e-business will assign warehouse pick release timestamp and expected ship timestamp to sales order lines. 11. Non-Stocked product would be setup in e-Business as a standard stockable item with a) User Item Type = '……. Non Stocked' b) 'Build In WIP' Flag turned 'On' (Order Management Tab) 12. Non-stock product orders would be entered via following sources a) INT 010 (JDA) b) OM (Wholesale Customer Centre) c) iStore (Wholesale Customer)			

Output	1. System would generate demand on legacy system taking care of DC inventory. 2. Wholesale customer Order Submission report and NSWP Orders Report (GLS & WC). 3. Material received against sales order would be linked to sales order as material reservation would be done at the time of receiving. 4. Material would be pick released & shipped based on shipment schedule.
Open Issues	None
Oracle Gap if Any	None
Accounting Implication	**PO Receipt** Inventory Valuation Dr. To Inventory AP accrual Cr. **AP Invoice** Inventory AP accrual Dr. To Creditor Cr **Order Shipment** Cost of Goods Sold Dr. To Inventory Valuation Cr **AR Invoice** Debtor Dr To Revenue Cr.
Process Change Impact	1. Wholesale customer order submission report would have a turnaround time of 90 minutes from order entry to creation of order submission report.

	2. Non-stocked wholesale products would be reported separately on wholesale customer order submission report. 3. Outstanding NSWP orders report to GLS daily & wholesale customer at Invoice Time. 4. Custom program required for generating reservation at the time of material receipt via INT 018. 5. DC inventory would be reviewed before placing demand on Legacy Purchasing system. 6. One report for stocked and non-stocked product. 7. Custom program is required to populate warehouse release timestamp & expected ship timestamp.

Cancel Non-Stock / Back to Back purchase order process
E-Business Order Management
Step 1:
Run scheduled job to cancel open non-stock sales order lines
End

6. Cancel Non-Stock / Back to Back purchase order process

Process Name: Cancel Non-Stock / Back to Back purchase order process				Process Id: PO- BP- 06
Process Description	E-Business should cancel sales order whenever purchase order for non-stock item is cancelled in legacy application.			
Prerequisite / Process Inputs	1. Order Types should be defined in e-Business. 2. Order Management setup should be done. 3. Purchasing set up should be defined. 4. Inventory org structure should be defined. 5. Items should be defined in e-Business 6. Non-stock sales order should exist in e-Business. 7. Purchase order should be defined in legacy against non-stock sales order			
Process Steps	**Steps Description**	**Application**	**Remark/Doc reference /Process change**	**Test Case reference**
1.	Run Scheduled Job 'Cancel Open Sales Order Lines' to cancel all the open sales order lines **Note:** Interface 013 would update e-Business purchasing with Purchase Order updates for all type of PO whether stocked or non-stocked. For back ordered non stock lines, this custom job will close sales order lines after 30 days for lines having item purchase order type as PO & RPO and after 15 days for lines having PO type as EPO.	e-Business Order Management	#Refer FDD for further details	
Business Rules/ Assumptions	1. Legacy would cancel PO only when no material has been received against purchase order line. 2. Legacy would always close the PO in case of partial material receipt. 3. Outstanding NSWP report would report the outstanding non-stock sales order lines & cancelled NSWP sales order lines. This report would run, whenever customer is invoiced or daily for GLS.			
Output	1. Sales order line would either be cancelled or closed for shipment as the case would be. 2. Purchase order would be cancelled in e-Business & RBWMS.

Oracle Gap if Any	None
Accounting Implication	None
Process Change Impact	1. Customer would be informed about the sales order line cancellation through outstanding non-stock wholesale products order report wherein e-Business would report the open non-stock sales order lines & cancelled lines. E-Business would run this report only when customer places an order.

Alert business users about Distribution Method change
Step 2
Update item information. i.e.
a. Item cross-references
b. Item Attributes
Step 4
Review reservation under 'XDOCK' tag in inventory
Is Reserved quantity sufficient for allocation?
No
Step 5
Create material reservation in e-business
INT 020 & 020A
Yes
Step 1
Change Distribution Method for WC or GLS to XDOCK.
Step 6
Prepare spreadsheet for allocating material to customers.
Step 7
Upload Spreadsheet in e-Business
End

7. Purchasing Allocation Process

Process Name: Purchasing Allocation Process				Process Id: PO- BP- 07
Process Description	LDB on a regular basis allocate products to customer through spreadsheet. When product is in allocation state for customer group, then that customer group should not be able to place orders. As an exception in some special cases, LDB wants flexibility for allocation when item is orderable by that customer group. So, E-Business needs to create & book sales orders based on spreadsheet, when product is in allocation state & restrict customer group from placing orders in e-business. For special cases, E-Business should provide special menu through which LDB user should be able to do allocation when product is available for ordering for customer groups.			
Prerequisite / Process Inputs	1. Order Types should be defined in e-Business. 2. Order Management setup should be done. 3. Purchasing set up should be defined. 4. FOB codes setup. 5. Inventory org structure should be defined. 6. Items should be defined in e-Business as cross-dock item. 7. Cross-reference of GLS & WC type should be defined. 8. Customer should be defined in e-business with 'Item Identifier Type' field pointing to Cross-reference 9. Order Line type should be defined based on the Purchasing Allocation reason code.			
Process Steps	**Steps Description**	**Application**	**Remark/Doc reference /Process change**	**Test Case reference**
1.	Change distribution method for either Wholesale or GLS customer group to XDOCK.	CPD	# Refer Business Rule / Assumption-: 1	
2.	Update item information in e-Business inventory through interface. Following information would be updated via INT 020 & INT 020-A I. Item Cross-Reference II. Item Attributes in 'Web Options' tab a. Web Status	CPD / BPEL / e-business Inventory	I. This step would be done automatically through INT-020 & INT-020A. II. If both the customer group are turned to	

	b. Orderable On the Web III. Item Attributes in 'Purchasing' tab a. GLS Distribution Method b. WC Distribution Method		XDOCK, then item is 100% Cross-Dock. So, all the material receipt against PO would be reserved under XDOCK tag.	
3.	Alert purchasing business users about the successful change of any distribution method changes.	BPEL / e-Business Inventory		
4.	Review item reservation under XDOCK tag Follow below mentioned steps for reviewing reservations a. Login to e-Business, select inventory organization where inventory needs to be allocated. b. Open 'Find Reservations' window by navigating following menu 'On-hand, Availability ------→ Reservations'. c. Select 'Item' = SKU, 'Type' = Inventory & enter 'Name' = XDOCK in 'Supply Source' block on form. Press 'Find' button at the right bottom corner of the form. **Note:** If this step returns record then follow step 4d, otherwise move to Step.5. d. Review the value in 'Quantity' field. (This is the quantity that's already reserved for push to customers). Total 'Available Quantity' will appear at the bottom of form (This is the quantity that's available for reservation)	e-Business Inventory module	#Refer operational document for further details.	

5.	Create item Reservation under XDOCK Tag. Follow following steps for creating reservations III. Login to e-Business, select inventory organization where inventory needs to be allocated. IV. Open 'Find Reservations' window by navigating following menu 'On-hand, Availability ------→ Reservations'. V. Press 'New' button to create record of reservation. Select 'Demand' Tab'. Enter organization name in 'Organization' field as 'VDC', product or SKU in 'Item' field, 'Type' as 'Inventory', 'Name' as 'GLS' and current date as 'Need By Date'. Select 'UOM' in which one wants to do reservation & then enter 'Quantity' taking care of UOM already selected. **Note**: I. If both the GLS & WC have XDOCK as Distribution Method, then no customer can place order and the quantity reserved under 'XDOCK' tag is the quantity that can be pushed to both customer groups via spreadsheet orders. Total quantity for which spreadsheet orders can be placed should be equal or less than the Quantity reserved under XDOCK tag. II. If one of the customer group i.e. GLS or WC is having distribution method set to XDOCK then, the quantity being reviewed in this step is the quantity that can be pushed to the one that is having XDOCK DM.		This step needs to be performed only when quantity reserved under 'XDOCK' Tag is not sufficient for allocation through spreadsheet.	
6.	Prepare spreadsheet for allocating material to customers	Spreadsheet/	Purchasing Department	

	(Booking sales order against reserved material.)	Purchasing Department	will prepare spreadsheet for pushing material to GLS or wholesale customers.	
7.	Upload spreadsheet in e-Business. a. Log into e-Business Purchasing Responsibility b. Open 'Purchasing Allocation Spreadsheet Upload' form by clicking the 'Purchasing Allocation Spreadsheet Upload' menu. c. Select following fields I. Unit of Measure (This is the UOM in which Customer Sales orders would be booked.) II. FOB Code (This will ensure that separate delivery id or shipment is done for these type of orders) III. Warehouse IV. Override check box (This will be used when purchasing forcefully wants all the sales orders to be booked on only one warehouse i.e. the one selected in 'Warehouse' field V. Reason Code (Allocation Type: e.g. Christmas Bears.) d. Press 'Upload' button to browse the file on local machine. This will open webpage for browsing. Select the file, press ok & then close the window. e. Select whether file has been uploaded, successfully by clicking Yes or No on the Decision Box. Note: This step will trigger validation in e-business. Before running concurrent request, e-business would validate following things 1. Quantity reserved in Warehouse VDC or KDC is sufficient to address the spreadsheet ordering requirement. (E-Business would sum up the	e-Business Purchasing	Refer # INT- 003 for further details.	

	order quantity on spreadsheet based on Customer servicing warehouse). 2. e-Business would validate all the items whether they are orderable or not, based on Item Status 3. E-Business would validate customers on the list. 4. E-Business would validate the SKU Distribution Method w.r.t customer group.			
Business Rules/ Assumptions	1. E-Business won't allow Purchasing Users to load spreadsheet if item Distribution Method for customer group is not set to 'XDOCK'. Only Purchasing Users having access to super user menu would be allowed to upload spreadsheet even when item Distribution Method for customer group is set to INV. 2. When both the customer groups have Distribution Method set to 'XDOCK' then, any material receipt against PO for that item, would be automatically reserved in inventory with 'XDOCK' Tag. 3. E-Business won't allow user to upload spreadsheet if quantity reserved in Warehouse VDC or KDC is not sufficient to address the spreadsheet ordering requirement. (E-Business would sum up the order quantity on spreadsheet based on Customer servicing warehouse). 4. Spreadsheet order quantity should be equal to or less than reserved quantity. 5. E-Business will report all the errors while importing sales order via spreadsheet. 6. Purchasing User will define new Order Line Types based on new Reason Codes.			
Output	1. Purchasing Allocation sales orders would be created & booked based on spreadsheet. 2. Material reservation would be transferred from XDOCK tag to sales order as soon as orders are booked.			
Open Issues	None			
Oracle Gap if Any	None			
Accounting Implication	None			
Process Change Impact	1. CPD should incorporate two additional fields, WC Distribution Method & GLS Distribution Method. 2. Two new fields should have following List of Values i.e. a. INVENTORY: Demand for that customer group would be addressed via DC. b. XDOCK: Customer group cannot place orders & LDB will push product to customers. Purchasing will decide			

	what quantity needs to be pushed to which customer. c. DD: Customer group demand would be addressed by Private Distributors. (For e.g. as is the case with privately distributed Wine & Beer) 3. Spreadsheet will always generate new sales order. These orders will not be appended to existing sales orders. 4. CPD will alert business user whenever business user changes Distribution Method to XDOCK or DD that restricts customer group from ordering. 5. CPD will maintain history of last change for support purposes. 6. Custom program: E-business needs to have a separate interface for transferring current reservations to sales orders imported via spreadsheet. Not letting the reserved material to be available to any customer at any point of time.

Direct Delivery Process
Corporate Product Database (CPD)
BPEL

Updated Successfully ?
Yes
Step 4
Alert user that item Distribution Method has changed.
End

8. Direct Delivery Process

Process Name: Direct Delivery Process				Process Id: PO- BP- 08
Process Description	In LDB supply chain model, few items are directly delivered to customer from Private Distributors. Items are in direct delivered (DD) state based on customer groups. Customer group for which item is in direct delivered state should place orders directly on private Distributors & not on DC. So, E-Business needs to restrict customer group from ordering when item is set to Direct Delivered (DD) for that customer group.			
Prerequisite / Process Inputs	1. Inventory org structure should be defined. 2. Items should be defined in e-Business. 3. Cross-reference definition of GLS & WC should be done.			
Process Steps	**Steps Description**	**Application**	**Remark/Doc reference /Process change**	**Test Case reference**
1.	Change distribution method for either Wholesale or GLS customer group to DD.	CPD	# Refer Business Rule / Assumption-: 1	
2.	Update item information in e-Business inventory through interface. Following information would be updated via INT 020 & INT 020-A I. Item Cross-Reference II. Item Attributes in 'Web Options' tab a. Web Status b. Orderable On the Web III. Item Attributes in 'Purchasing' tab a. GLS Distribution Method b. WC Distribution Method **Note:** If both the customer group are turned to DD, it means, none of the customer groups would be able to place orders	CPD / BPEL / e-business Inventory	This step would be done automatically by INT 020 & 20-A. # Refer INT-020, INT-020A for further details.	

	on DC, as the demand for these products would be addressed by private distributors.			
3.	Alert purchasing business users about the successful change.	BPEL / e-Business		
Business Rules/ Assumptions	1. Item is having distribution methods for Wholesale Customer(WC) & Retail (GLS) Customer group set to INV i.e. both the customer groups demands would be addressed through Distribution Centre (DC).			
Output	1. Item would become orderable or non-orderable for customer group based on distribution method selection.			
Open Issues	None			
Oracle Gap if Any	None			
Accounting Implication	None			
Process Change Impact	1. CPD should incorporate two additional fields, WC Distribution Method & GLS Distribution Method. 2. Two new fields should have following List of Values i.e. a. INV: Demand for that customer group would be addressed via DC. b. XDOCK: Customer group cannot place orders & LDB will push product to customers. Purchasing will decide what quantity needs to be pushed to which customer. c. DD: Customer group demand would be addressed by Private Distributors. (For e.g. as is the case with privately distributed Wine & Beer) 3. Custom Interface i.e. INT -020A for setting up Item Cross Reference along with item updates			

Appendix A – Custom Build components and Data Migration requirements

This excludes list of interfaces, please refer RICE sheet for all custom components.

Data Migration Requirements:

SR#	Type of data	Data migration scope	Business criticality	Remark/reference
1	Open Purchase Orders	Purchase Orders with no receipt. Partial receipt orders will not be migrated	High	
2	Supplier site - Purchasing	Existing supplier master to be updated	High

Appendix B – Purchasing business requirements

BR ID	Requirement Description	Technical Requirement	Oracle Fitment-Gap	Remark
BR-PO-1	Maintains pricing by product SKU.	Oracle will receive all PO data from Legacy Purchasing. So all PO pricing will accompany PO from Legacy Purchasing.	Standard Feature	
BR-PO-2	Prices are controlled by effectively dates.	Purchase prices should be controlled in Oracle by effective dates	Standard Feature	
BR-PO-3	Payment Process at time of receipt	Oracle should have feature of Payment on receipt for all PO types.	Standard Feature	
	Expected Process: 1. Receipt is performed in RB WMS and interfaced to Oracle Purchasing 2. Oracle Purchasing will perform the following: • Updates inventory, updates PO information • Calculate MAC (Moving Average Cost) • Natively interfaced to Oracle A/P • Interfaces receipt information back to Legacy Purchasing.			
BR-PO-4	Ability to identify who the listing vendor (manufacturer), the PO vendor (e.g. an agent for the manufacturer) and the Pricing vendor (who controls the inventory that will be shipped to the LDB location).	Oracle should be able to capture manufacturer, PO vendor & pricing vendor	GAP	Not a requirement any more.

BR-PO-5	Ability to define lead times by product and supplier ship point	Oracle should capture lead time by product & supplier ship point	GAP	Alternate field needs to be used for capturing information
BR-PO-6	Ability to automatically calculate purchase order expected delivery date based on shipping point lead times.	Oracle should be able to calculate PO expected delivery date based on shipping point lead times, for Purchase Order generated in Oracle Purchasing.	GAP	Not a requirement any more.
BR-PO-7	Maintains original expected delivery date.	Oracle should be able to capture & maintain original expected delivery date i.e. Need by date interfaced from legacy purchasing.	Standard Feature	
BR-PO-8	Maintains supplier's confirmed delivery date and amendments with reason codes.	Oracle should maintain promised date & amendments with reason codes	Standard Feature	
BR-PO-9	Ability to generate a unique purchase order number. It is expected: • Oracle B2B process is being investigated to determine if non stocked wholesale product ordering can exclusively reside in Oracle • Special Orders will continue with manual PO generation in a range of PO#'s • Majority of all Open PO's will be interfaced from Legacy Purchasing • Inventory Transfers (VDC / KDC) will occur exclusively in Oracle • Solution for purchasing "direct	Oracle should maintain unique purchase order numbers.	GAP (Its a standard feature in Oracle but in LDB scenario mapping is a GAP).	Liquor purchasing will share Purchase Order Sequence with Non-liquor Purchasing as PO sequence is controlled at Operating Unit level. **LDB needs to ensure that no conflict occurs in future between liquor & non-liquor sequences.** Uniqueness within Liquor Purchase Orders depends on **1. Source from where PO's are imported. 2.** For all **manual PO's** created in Oracle Purchasing, **LDB**

	ship" beer into DC must be discovered (for those WC where demand does not meet minimum order qty)			**needs to ensure uniqueness in PO numbers** either by putting alphabet as prefix to PO number or by assigning a particular sequence based on PO types.
BR-PO-10	Provides multiple purchase order types. Following PO Types will be interfaced from Legacy Purchasing: • Direct Ship Import PO – no agent; e.g. Beaujolais nouveau; already pre-paid • EPO – Excise Deferred PO for import product (excluding beer) • RPO – Release PO for import beer • Domestic Excise Deferred PO • Domestic Duty Paid PO for products from other liquor boards (OLB)	Oracle should provide multiple purchase order types for grouping PO's	GAP. (Oracle provides only following four purchase order types 1. Standard PO 2. Blanket Agreement 3. Planned PO 4. Contract Agreement and we will have to map all PO types with these standards.)	
BR-PO-11	Ability to display SCC code and internal SKU number on a purchase order.	Oracle should display SCC Code & internal SKU number on Purchase Order	GAP	
BR-PO-12	Ability to issue purchase order in any currency.	Oracle should allow user to create PO in multiple currencies	Standard Feature	

BR-PO-13	Ability to transact purchase order in multiple units of measure.	Oracle should be able to transact in multiple unit of measures.	Standard Feature	
BR-PO-14	Ability to track the status of requisitions, releases and purchase orders based on who requested and/or issued the requisition.	Oracle should be able to track requisitions & purchase orders based on buyer & requester.	Standard Feature	
BR-PO-15	Ability to automatically create releases from requisitions and to track which requisition triggered the release.	Oracle should be able to convert requisition into Purchase Order & track which requisition triggered the Purchase Order	Standard Feature	
BR-PO-16	The system must allow for online routing and approval of purchase requisitions.	Oracle should allow for online routing & approval of purchase requisitions.	Standard Feature	
BR-PO-17	Ability to setup authorized requisition with differing approval authorities for different types of items, and for requisition to automatically transfer to the next level authority for approval when required.	**Not-in-Scope**	Standard Feature	
BR-PO-18	Requisition approval routing can be defined in a workflow with definable timings, escalation rules and triggering actions and alerts.	**Not-in-Scope**	Standard Feature	
BR-PO-19	Ability to cancel and/or adjust purchase orders at any time and automatically notify the supplier.	Oracle should be able to cancel and adjust purchase order at any time and automatically notify the supplier	Standard Feature	
BR-PO-20	Ability to perform global update on outstanding purchase orders based on new supplier costs and	Oracle should perform mass update on open PO for new supplier price & effective dates	Standard Feature	

	effective dates.			
BR-PO-21	Ability for all relevant purchase order information to display during purchase order entry (i.e. supplier, supplier cost, price, descriptions, and currencies).	Oracle should be able to display all relevant purchase order information(i.e. supplier, supplier cost, price, descriptions and currencies)	Standard Feature	
BR-PO-22	Ability to maintain a list of standard comments and assign to purchase orders as required.	Oracle should maintain a list of standard comments & assign to purchase orders as required.	Standard Feature	
BR-PO-23	Ability to add non-standard comments to purchase orders.	Oracle should allow user to add non-standard comments to purchase order	Standard Feature	
BR-PO-24	Ability to have multiple taxes added to purchase orders (PST, GST).	Oracle should allow user to attach multiple taxes on PO	Standard Feature	
BR-PO-25	Ability to store adjustments (nature of, reason, by whom, when) made to recommended buys.	Oracle should capture PO modification reasons.	Standard Feature	
BR-PO-26	Ability to set authorization levels for approval levels.	Oracle should have approval hierarchy with adjustment limits.	Standard Feature	
BR-PO-27	Ability to display underlying reasons for the recommended buy (i.e. merchandising events, price changes, Wine Festival, etc).	Oracle should be able to capture reason for buying.	Standard Feature	
BR-PO-28	Ability to link a purchase order to specific customer order(s).	Oracle should be able to link Purchase order to specific customer order without back to back order.	GAP (Standard feature w.r.t standard oracle back to back processing)	#Refer Process-Id PO-BP-05 i.e. Non-Stock / Back to Back Process for further details.

BR-PO-29	Ability to automatically send a copy of purchase orders to suppliers, agents, 3rd party warehouses, freight forwarders and other carriers.	Oracle should automatically send a copy of purchase orders to suppliers.	Standard Feature	
BR-PO-30	Provides request for quotations (RFQ) processing. Provides RFQ response tracking. Ability to convert RFQ to purchase order.	Not-in-Scope	Not-in-Scope	
BR-PO-31	Ability to report to DCs/Quality Control when new products will be arriving. Allows DC to ensure that appropriate slotting preparations and actions can be made.	Oracle should send notification to DC when new product will be arriving and when product status change to inactive	GAP	Custom Alert is defined to report receipt of Items with status 1.0 products i.e. Futures.
BR-PO-32	Ability to report to DCs when product is being de-listed. Allows DC to ensure that appropriate slotting preparations and actions can be made.	Oracle should report to DC when product status is changed to delisted	N.A.	Requirement not applicable any more.
BR-PO-33	Maintains carrier appointment date and time.	Oracle should maintain transport carrier appointment date & time	N.A.	Requirement not applicable any more.
BR-PO-34	Tracks supplier on-time delivery performance.	Oracle should report supplier performance based on 'on-time' delivery.	Standard Feature	
BR-PO-35	Tracks supplier performance on order completeness.	Oracle should track supplier performance on order completeness.	Standard Feature	

TATA CONSULTANCY SERVICES

Page 47 of 60

Page 2340 Page 759 of 1430
CTZ-2012-00087 CTZ-12-12-12

BR-PO-36	Tracks changes to purchase order data by date, time, user.	Oracle should allow user to track changes to PO by date, time & user	Standard Feature	
BR-PO-37	Ability to capture, view and report DC inventory. This includes on order, available, on hold, committed, in transit	Oracle should do on-line reporting for available, on-hold, committed	Standard Feature (Oracle Form available)	There is no single form to report all
		On-order	Standard Feature	
		In transit	Standard Feature	
BR-PO-38	Ability to capture, view and report Agent 3rd party warehouse inventory for those Agents on the Stocking Program. This includes: in bond, available, on hold, committed, in transit	User should be able to define new inventory organization for capturing Agent Warehouse	Standard Feature	
BR-PO-39	Ability to view expected receipts by expected delivery day (includes total case, weight, litres) with capability to drill down into data.	User should be able to view expected receipts by expected delivery day.	Standard Feature	
BR-PO-40	Ability to alert user when purchase order receipt occurs. This specifically applies to constrained product, one time buys, etc that require allocations to be created after receipt time.	Oracle should be able to alert user when PO receipt occurs. This specifically applies to constrained product, one time buys, etc that require allocations to be created after receipt time.	GAP	Custom Alert needs to be defined to address this requirement.
BR-PO-41	Ability to generate back to back purchase orders based on customer demand. This	Oracle should generate back to back purchase orders based on customer orders	Standard Feature	#Refer Process-Id PO-BP-05 i.e. Non-Stock / Back to Back Process

	requirement addresses non stocked product warehoused in 3rd party and cross docked into LDB DC (currently VDC only). Excludes non stocked import beer due to customs file number requirement.			for further details.
BR-PO-42	Ability to generate purchase orders for domestic and import beer into LDB DC (currently VDC only) based on defined business rules such as min/max. This requirement addresses customer demand (specifically, small licensee) for beer where the order quantity is less than the order minimum for direct delivery.		N.A.	Requirement not applicable any more.
BR-PO-43	Ability to process a return to vendor (RTV) of product.	Oracle should be able to perform RTV transactions.	GAP (It's a standard feature in Oracle but in LDB scenario mapping is a GAP).	#Refer Process-Id PO-BP-04 i.e. Return to Vendor for further details.
BR-PO-1	Maintains pricing by product SKU.	Legacy Purchasing will feed oracle with Price information. Hence, no need of maintaining price by product.	Standard Feature	
BR-PO-6	Ability to automatically calculate purchase order expected delivery date based on shipping point lead times.	Oracle should be able to calculate PO expected delivery date based on shipping point lead times, for Purchase Order generated in Oracle Purchasing.	N.A.	As legacy purchasing would be feeding e-Business with all purchase orders including back to back & no purchase order would be raised manually in oracle. Hence, requirement is

				not valid anymore.
BR-PO-7	Maintains original expected delivery date.	Oracle should be able to capture & maintain original expected delivery date i.e. Need by date interfaced from legacy purchasing.	Standard Feature	
BR-PO-8	Maintains supplier's confirmed delivery date and amendments with reason codes.	Oracle should maintain promised date & amendments with reason codes	Standard Feature	
BR-PO-9	Ability to generate a unique purchase order number.	Oracle should maintain unique purchase order numbers.	Standard Feature	E-Business will use Legacy Purchasing purchase order number in E-Business at the time of PO creation.
BR-PO-10	Provides multiple purchase order types. Following PO Types will be interfaced from Legacy Purchasing: • Direct Ship Import PO – no agent; e.g. Beaujolais nouveau; already pre-paid • EPO – Excise Deferred PO for import product (excluding beer) • RPO – Release PO for import beer • Domestic Excise Deferred PO • Domestic Duty Paid PO for products from other liquor boards (OLB)	Oracle should provide multiple purchase order types for grouping PO's	GAP. (Oracle provides only following four purchase order types 1. Standard PO 2. Blanket Agreement 3. Planned PO 4. Contract Agreement and we will have to map all PO types with these standards.)	All legacy PO types would be mapped to Standard PO type in E-Business. Hence, E-Business will create a standard PO against all the PO request coming from legacy purchasing through INT-013. For grouping purpose, PO types will be captured in DFF. But, there won't be any reporting based on DFF.

BR-PO-11	Ability to display SCC code and internal SKU number on a purchase order.	Oracle should display SCC Code & internal SKU number on Purchase Order	GAP	As all the purchase orders would be coming from legacy purchasing. Hence, legacy needs to provide this information via INT 013 & oracle will capture SCC in DFF.
BR-PO-12	Ability to issue purchase order in any currency.	Oracle should allow user to create PO in multiple currencies	Standard Feature	
BR-PO-13	Ability to transact purchase order in multiple units of measure.	Oracle should be able to transact in multiple unit of measures.	Standard Feature	
BR-PO-27	Ability to display underlying reasons for the recommended buy (i.e. merchandising events, price changes, Wine Festival, etc).	Oracle should be able to capture reason for buying.	Standard Feature	# Refer INT-013 FDD for further details. Legacy PO comments field would be mapped to PO description field at the header level.
BR-PO-29	Ability to automatically send a copy of purchase orders to suppliers, agents, 3rd party warehouses, freight forwarders and other carriers.	Oracle should automatically send a copy of purchase orders to suppliers.	Standard Feature	Legacy will continue to make use of 'POST OFFICE' application for auto-faxing.
BR-PO-36	Tracks changes to purchase order data by date, time, and user.	Oracle should allow user to track changes to PO by date, time & user	Standard Feature. However it's a GAP in LDB case wherein PO updates would also be imported.	

BR-PO-39	Ability to view expected receipts by expected delivery day (includes total case, weight, litres) with capability to drill down into data.	User should be able to view expected receipts by expected delivery day.	Standard Feature	
BR-PO-40	Ability to alert user when purchase order receipt occurs. This specifically applies to constrained product, one time buys, etc that require allocations to be created after receipt time.	Oracle should be able to alert user when PO receipt occurs. This specifically applies to constrained product, one time buys, etc that require allocations to be created after receipt time.	GAP	Custom alert will report business users at the time of receipt.
BR-PO-45	DC Inventory, DC Receipts, DC Shipments from Oracle Inventory to Legacy Purchasing for Planning and PO Closure.		Interface Requirement.	#Refer End of Day job FDD for further details.
BR-PO-49	Import receiving transactions from RB WMS to Oracle Purchasing		Interface Requirement.	# Refer INT-018 FDD for further details.
BR-PO-3	Payment Process at time of receipt	Oracle should have feature of Payment on receipt for all PO types.	Standard Feature	
	Expected Process: 1. Receipt is performed in RB WMS and interfaced to Oracle Purchasing 2. Oracle Purchasing will perform the following: • Updates inventory, updates PO information • Calculate MAC (Moving Average Cost) • Natively interfaced to Oracle A/P • Interfaces receipt information			

	back to Legacy Purchasing.			
BR-OM-62	Ability to verify order details based on: • Customer eligibility for product via price list • Sourcing rules: KDC, VDC, non stocked wholesale product, direct ship (refer to next req) • Valid ordering unit of measure (bottles, cases) It has yet to be determined if Duty Free, Ship Stores, OLB must order all product in case qty;		N.A.	
BR-OM-64	Sourcing Rules: Ability to define a default sourcing method to fulfill orders by customer / product type combinations. Example: Customer A receives product set A from DC1 and product set B from DC2. This requirement is also referred to as complex fixed sourcing rules.		Standard Feature	
BR-OM-67	Shipping Schedule: Ability to automatically set an order's planned ship date based on product sourcing criteria and/or customer's shipping schedule.		GAP	#Refer PRG-016 FDD for further details.
BR-OM-90	B2B: For non stocked wholesale product: Ability to check inventory for availability:		GAP	#Refer Non-Stock/ Back to Back process i.e. Process-id PO-BP-05. for further details.

	• If unavailable, advise in Order Submission Report • If available, decrement available inventory, create PO to agent warehouse / supplier and link sales order# to PO • At receipt, allocate order line Availability check can only be made against those agents in the Agent Stocking Program.			
BR-OM-90.2	Ability to order both stocked and non-stocked items on a single order	E-Business should allow business user to enter sales order for stocked & non-stocked items.	Standard Feature	
BR-OM-90.3	Ability to generate single Order Submission Report for both stocked and non stocked products	E-business should generate single order submission report for both stocked & non-stocked products.	Gap	Custom report.
BR-OM-90.4	System must check DC inventory before placing purchase order on supplier / agent.	E-Business should check DC inventory before placing purchase order request to Legacy Purchasing via INT-025	Standard Feature	Non-stock items would be defined as standard stocked items. Hence, Standard Feature.
BR-OM-90.5	Ability to interface demand request to Legacy Purchasing.	E-Business should be able of send demand request to legacy Purchasing	GAP	Custom interface i.e. INT 025 will be required to transmit demand information to Legacy Purchasing.
BR-OM-90.6	System must check 3rd party warehouse for all import products (where agent is on stocking program) before placing purchase order on supplier/agent.	E-Business must check 3rd party warehouse for demand lines for all non –Stock import products	N.A.	As Legacy purchasing is going to generate purchase orders. Hence, legacy purchasing will check 3rd party warehouse before generating purchase orders.

BR-OM-90.7	Ability to interface PO information from Legacy Purchasing back to e-Business.	E-Business should be able to import PO from other sources.	Standard Feature	
BR-OM-90.8	Ability to interface reason code for failure to create PO from Legacy Purchasing back to e-Business.	E-Business should be able to capture Legacy purchasing failure reason code.	GAP (Interface Requirement)	E-Business will capture the legacy failure reason code in sales order line DFF.
BR-OM-90.9	Ability to automatically cancel customer's outstanding sales orders when notified of purchase order cancellation. Customer is automatically notified.	E-Business should be able to cancel customer demand lines when legacy purchasing cancels the purchase order.	GAP (Interface Requirement)	#Refer Cancel Non-Stock purchase order process i.e. PO-BP-06 for further details.
BR-OM-91	B2B: Ability to allocate a specific PO receipt to a customer's sales order. Supply must service the same demand line, against which supply order was generated.	At the time of material receipt against Non-stock PO, e-Business should be able to generate material reservation w.r.t sales order line	GAP (Interface Requirement)	As the receiving activity would be done in RBWMS & then interfaced to e-Business. So, it's an INT-018 requirement. INT-018 would be able to generate material reservation at the time of receipt.
BR-OM-91.1	Ability to allocate partial receipt to a customer's sales order.	E-Business should allow multiple receipts & material reservations against non-stock PO.	Standard Feature. However, in LDB business scenario its an GAP.	INT 018 will take care of multiple receipts & reservations.
BR-OM-91.2	Ability to allocate staggered receipts to a customer's sales order (similar to partial receipt).	# Refer comments in BR-OM- 91.1. As, the requirements are same.	# Refer comments in BR-OM- 91.1. As, the requirements are same.	# Refer comments in BR-OM- 91.1. As, the requirements are same.
BR-OM-94	Sourcing Rules: Ability to pick and ship from multiple warehouses or sourcing locations on one sales		Standard Feature	

	order. This requirement speaks to KDC serviced GLS and wholesale customers where a subset of items are sourced from VDC, the majority of items from KDC and specific non stocked products from 3rd party warehouses either cross docked at VDC or KDC.			
BR-OM-98	Consolidated Delivery: Ability to capture replenishment orders, non-liquor orders, promotional orders, filled B2B orders and purchasing allocations. Ability to merge these separate orders into one delivery before sending to the WMS system.			
BR-OM-48	Order Acquisition is the act of acquiring order lines into centrally managed Order Management. This includes: • GLS orders via JDA transmission • Orders entered via Order Management • Purchasing Allocations via spreadsheets • Wholesale Customer Orders via file transmission Order lines for the next outbound shipment may arrive separately. Examples include: customer forgot something, non stocked wholesale product has been filled, Purchasing Allocation.		N.A.	

BR-OM-51	Ability to capture orders via spreadsheet import, includes: • Regular order lines of inventoried product • Planned allocations of constrained product, one time buys, etc, indicated "Allocations"		INT-003	#Refer INT-003 FDD for further details
BR-OM-87	Ability to allocate inventory to specific customers and SKUs by reserving physical inventory. This activity will generate committed customer order lines.		N.A.	
BR-OM-92	Allocations: Ability to allocate a specific PO receipt to specific customers. This is referred to as Purchasing Allocations.		GAP	# Refer Purchasing Allocation Process i.e. PO-BP-07 for further details.
BR-OM-140	Purchasing Allocation Spreadsheets imported into Order Management for VDC and KDC.		GAP	Custom Form needs to be designed to import & create sales orders through spreadsheet.

Appendix C -Open points / Issues

SNo.	Issue Description and impact	Raised on	Raised By	Action plan	Action By	Status	Reference/Remark
1	Interface program should be able to attach tax codes & freight allowance to PO coming from Legacy Purchasing. PO Tax & Freight business requirements are still open	Post-CRP	TCS	Legacy will give this information while sending updates to e-Business.	IS	**Closed**	PO-BP-01
2	RBWMS requirement of open PO line download for each transmission from E-business suite to RBWMS.	Pre-CRP	Louise	Legacy will directly send PO information to RBWMS via INT 019	IS	**Closed**	PO-BP-01
3	LDB wants to have separate liquor & non-liquor responsibilities i.e. liquor user should not be able to see non-liquor PO's & vice versa with one operating unit.	Pre-CRP	Mark	Liquor & non-liquor purchasing business users will have to share the same responsibility.	Sachin	**Closed**	PO-BP-01
4	In case of RAC RPO process, interface program should automatically generate receipt & issue information in respective interfaces.	Pre-CRP	Mark	RAC RPO won't be interfaced to e-Business.	IS	**Closed**	PO-BP-02, CR001-2, CR001-2
5	Interface program should generate ASN at the time of material issue transaction in RAC RPO process	Pre-CRP		RAC RPO won't be interfaced to e-Business.	Louise & Mark	**Closed**	PO-BP-02, CR001-2

6	In case of RAC RPO process, interface should generate ASN having whether RPO number as Invoice Number or sequentially generated number. Requirement Open.	Pre-CRP	Louise	RAC RPO won't be interfaced to e-Business.	Louise	**Closed**	PO-BP-02, CR001-2
7	Business requirements for closing purchase orders (EPO, Domestic, Direct Import, and RPO's) in Legacy Purchasing are open.	Pre-CRP	Sachin	e-business should close PO w.r.t PO closure in Legacy	Louise	**Closed**	PO-BP-02
8	Interface should automatically generate Debit Memo in Accounts Payable against return or correction transactions coming from RBWMS	Pre-CRP	Sachin	All the returns would be handled via INT 017 as RBWMS cannot feed return information via INT 018. Legacy will feed e-Business with PO information for return transactions.	TCS team.	**Closed**	PO-BP-05, CR001-5
9	Oracle should be able to update approved quotation with supplier/agent price changes coming from CAPS interface.	Pre-CRP	Sachin	Non-stock PO would be handled via legacy Purchasing. Hence, no more a requirement.	TCS team	**Closed**	PO-BP-05
10	Oracle should be able to update Blanket agreement with supplier/agent price changes coming from CAPS interface.	Pre-CRP	Louise	Non-stock PO would be handled via legacy Purchasing. Hence, no more a requirement.	TCS team	**Closed**	PO-BP-06
11	Back to Back process for non-stocked item. Business requirements are open.	Pre-CRP	Sachin	Non-stock PO would be handled via legacy Purchasing & then	Louise	**Closed**	PO-BP-06

				interfaced to e-Business.			
12	Custom alert at the time of receiving. Requirements Open	Pre-CRP	Sachin	Confirm business requirements	Louise	**Closed**	PO-BP-03, CR001-3
13	RBWMS cannot feed oracle with sub-inventory information. Logic need to be built to decide on sub-inventory involved in transaction in oracle.	Pre-CRP	Sachin	Refer Interface Requirement Document (INT-017) for sub-inventory logic.	Louise & functional user.	**Closed**	PO-BP-02, PO-BP-03, PO-BP-05
14	Oracle should generate invoice number in following format PO Number – Receipt Date – Sequence Number	Pre-CRP	Sachin	Custom Component.	LDB	**Closed**	CR001-4
15	Invoicing should refer to the domestic charges, container charges & Freight allowance applicable at PO issue time or applicable at receipt time?	Post-CRP	Sachin	E-business should allow updates on charges till the time no receipt is their in system.	Dianna Kent	**Closed**	
16	Non-Liquor purchase order requirements	Post-CRP	Sachin	Confirmed business requirements.	Louise	**Closed**

Module 1

WOM - High Level Overview

Module Description

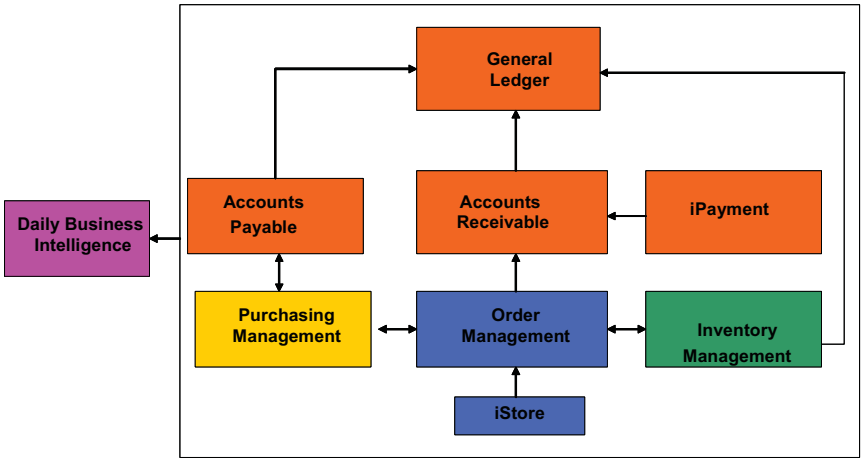
This module provides an overview of the Wholesale Order Management (WOM) system.

Module Objectives

This module will provide you with an overall explanation of the Wholesale Order Management system.

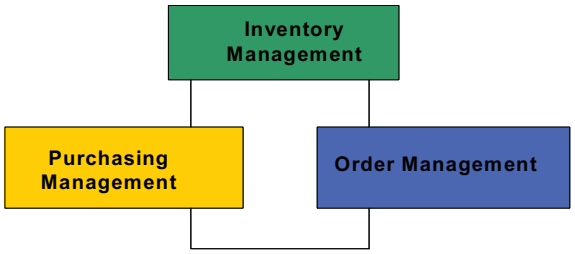
Overview of the WOM Project

The Liquor Distribution Branch's goal is to "Continue to seek out improvement to operating efficiencies and maximize wholesale customer satisfaction in a climate of constant change". To achieve this objective, LDB has invested in business process re-engineering (BPR) and the purchase of an integrated Order Management and Inventory Management system.



The scope of the Wholesale Order Management Project is to:

1. Implement Order Management and Inventory Management.
2. Change business processes to better service the wholesale customer.
3. Retire the existing legacy systems that are inflexible, difficult to change, and costly to operate.



To support this initiative, LDB has procured the following Oracle E-Business modules:

- Order Management
- Inventory Management
- Oracle Daily Business Intelligence
- iStore
- iPayment

The above modules will integrate with the existing Purchasing module and Financial modules (Accounts Receivable, Accounts Payable and General Ledger) that were implemented as part of the IFS Project. The Purchasing Management module will continue to be used for purchasing non-liquor products only. Liquor products will continue to be purchased from Legacy Purchasing. The illustration below provides a visual of how the modules will integrate with each other.

The following graphic illustrates how the Order Management module integrates with Purchasing and Inventory Management.

What is meant by "integrated"? First, let's identify the modules by entities.

Purchasing Management and Accounts Payable deal with the vendors. We purchase product from vendors and payment is made once we receive the product. Purchasing Management handles the requisitions and purchase orders sent to vendors, and Accounts Payables handles all the payments to vendors.

Similarly, **Inventory Management** deals with the product we maintain in stock. It manages allocation of inventory to sales orders, incrementing inventory at receipt time, and maintaining inventory on hand.

Customer interactions are handled through **Oracle Receivables and Oracle Order Management**. Order Management helps us collect all the information that our customer is ordering over the phone, fax, e-mail, iStore, etc. Accounts Receivables helps us collect the money for the orders that are delivered to the customers.

So all the individual functions are being taken care, but how do we know if we are making a profit or loss? That is where integration comes into play. There is another module, **General Ledger**. This module receives information from all the different transaction modules and summarizes them in order to help us create profit and loss statements and various other reports. To simplify, when we purchase product the information is transferred from Accounts Payable (AP) to General Ledger (GL):

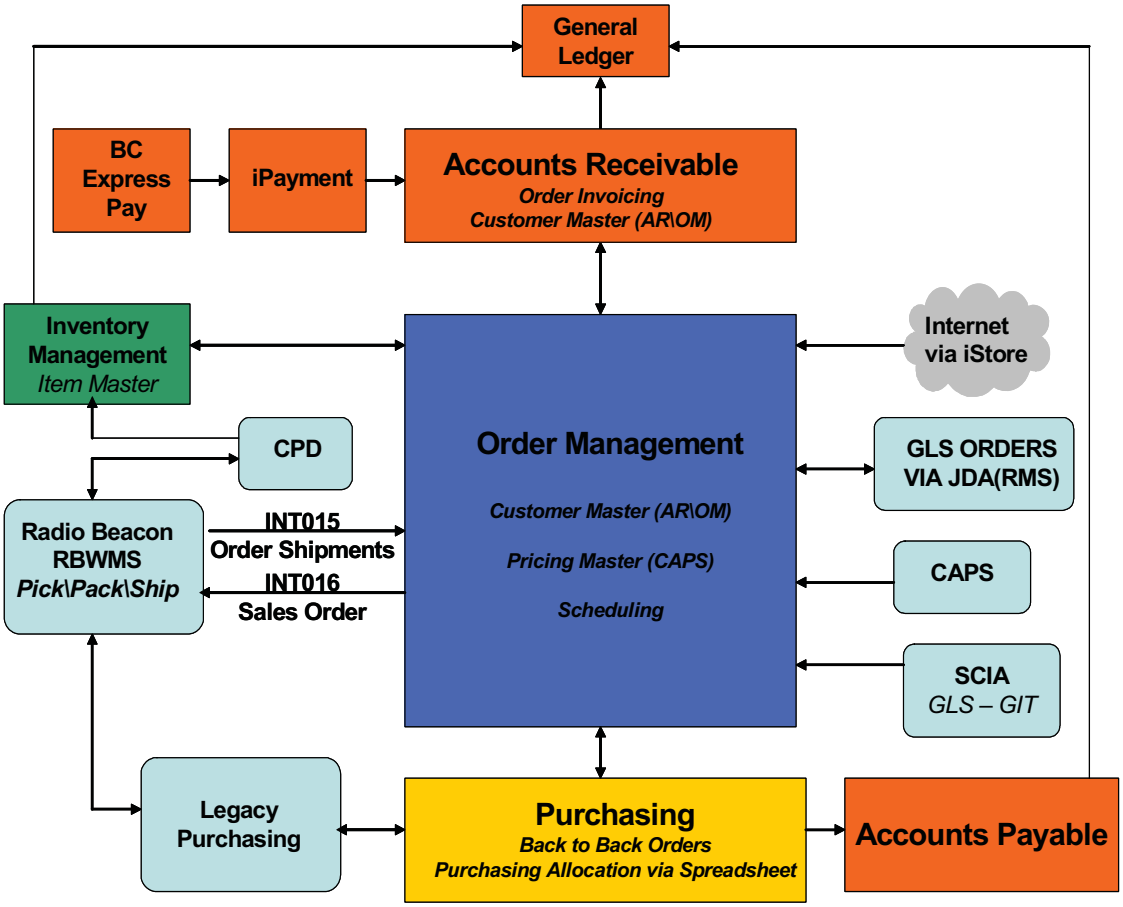
1. As money going out to the vendor.
2. Increase to the Inventory valuation.

Conversely, when we ship product to the customer the information is transferred from Accounts Receivable (AR) to the General Ledger (GL):

1. As money coming in from the wholesale customer.
2. Decrease to the Inventory valuation.

Additionally, the current state (quantity) of inventory is valued in the General Ledger (GL) as number of units multiplied by the cost of each unit.

Some Key Qualitative Business Benefits:



- Improve the Wholesale Customer Ordering process by leveraging Oracle automated workflow functionality for capturing, booking, fulfilling, invoicing, and payment receipt.
- Integrate LDB Order Management, Inventory, Purchasing and Financial Enterprise applications.
- Provide accurate business data that can be shared across the organization.
- Provide improved inventory management.
- Retire dated legacy systems such as AS400 and COS with state of the art order management and inventory enterprise systems that follow best business practices.
- Simplify Information Services support through reduction of technology platforms and retirement of legacy systems.

Overview of Order Management

The Order Management application streamlines and automates the Sales Order Management process. It provides:

- an **order-to-cash** solution for processing wholesale customer orders that are placed through the Wholesale Customer Center or iStore.
- an **order-to-ship** solution for processing orders placed by our liquor stores through the JDA - Retail Management System.

Processing an order requires interaction with many other business areas. The Order Management application as illustrated below is integrated with other E-Biz applications, interfaces and legacy systems.

The table below provides a description and integration role of the E-Biz modules.

E-Biz Module	Description
Order Management	Includes Order Management, Pricing and Master Schedule. It integrates with other E-Biz applications and legacy systems to streamline and automate the sales order processing.
Inventory Management	Includes Inventory and Product. Inventory Management integrates with other E-Biz applications and legacy systems regarding product information, and provides you with a complete set of transactions and reports for maintaining inventory control.
Purchasing Management	Includes Purchasing and Suppliers/Agents. Purchasing Management integrates with other E-Biz applications (Order Management, Inventory Management, Accounts Payable and General Ledger) and legacy systems to ensure product availability for order fulfillment and supplier/agent payment of purchase orders. All forecasting and purchasing takes place in the legacy system. The information is then interfaced to RBWMS and E-Biz Purchasing Management for inventory receipt and payment of purchase orders.
Accounts Receivable	Includes Customer Master. Once an order has been completely picked in RBWMS, notification is sent to E-Biz for wholesale customer invoicing and capturing of payment. Accounts Receivable creates the invoice, then integrates with iPayment and BC Express Pay to capture credit card funds.
Accounts Payable	Includes vendor master. Once a PO is issued by Purchasing and product is received by RBWMS, information is updated in E-Biz for invoice creation and payment.
iPayment	Is an electronic payment software that acts as a bridge between E-Biz and other third party payment processors.
BC Express Pay	Is the third party payment processor that integrates with iPayment to capture funds.

E-Biz Module	Description
General Ledger	The General Ledger maintains centralized account balances to help create profit and loss statements and various other reports. The Accounts Receivable and Accounts Payable and Inventory valuation information is updated to the General Ledger at period end close.

The following table provides a description and integration role of the legacy systems.

Legacy System	Description
Radio Beacon (RBWMS)	The Radio Beacon system plays a vital role in Purchase to Pay and Order to Cash and Order to Ship processes. **Purchase to Pay** It receives product against purchase orders. Once product has been received, the information is interfaced to Legacy Purchasing and E-Biz for PO closure, vendor payment and updates to Inventory. **Order to Cash** Wholesale customer orders that are entered by the Wholesale Customer Center are pick released to the warehouse based on the warehouse release ate and time. The warehouse uses RBWMS for performing pick, pack and ship functions. Once the order has been completely picked, the information is interfaced to E-Biz for order line and inventory updates as well as invoicing and capturing of funds. **Order to Ship** GLS Orders are imported to the Order Management application and are pick released to the warehouse based on warehouse release date and time. The warehouse uses RBWMS to perform pick, pack and ship functions. Once the order has been completely picked, the information is interfaced to E-Biz for order line and inventory updates.

Legacy System	Description
CPD	The Corporate Product Database (CPD) is where the master product data resides. It is maintained by the Purchasing Department. All other legacy systems such as Purchasing, RBWMS, SCIA, JDA, CCRS, ERA use this information. With the implementation of WOM, CPD will continue to be the Product Master and E-Biz will use a subset of product attributes for Item Master. Legacy Purchasing retrieves barcode, purchasing method and buying rules from CPD. Note: An item must exist in the Item Master prior to a sales order being created for that item.
CAPS	Price lists are created and updated in the Costing and Pricing System (CAPS). The CAPS system is interfaced to other legacy systems such as legacy Purchasing and E-Biz modules to provide price updates to the Pricing Master.
JDA RMS	JDA/RMS is the system used by GLSs for replenishing the store stock and ordering product for their wholesale customers. The GLS orders will be imported to Order Management for fulfillment and shipment.
Legacy Purchasing	All forecasting and purchasing takes placed in the legacy system. The information is then interfaced to Purchasing Management and RBWMS. RBWMS receives product against purchase orders. Once product has been received, the information is interfaced to legacy Purchasing and E-Biz for PO Closure, vendor payment, updates to Inventory and, if non-stocked wholesale product, inventory is allocated to associated sales order.
SCIA	Goods in Transit

Business Process Changes

The E-Biz implementation allowed the BCLDB to review key business processes. Listed below are some of the key Order Management business process changes:

- Customer Master
- Master Shipping Schedule for all customers (GLS and wholesale)
- Order Consolidation
- Automated invoice/payment process for orders placed through the Wholesale Customer Center or iStore
- KDC Customer Orders - automatically splits into VDC and KDC Deliveries and VDC bottle pick
- Case Edits
- Automated Purchasing Allocation process.
- Customer self service order process (iStore)
- Enhanced OM Reporting
  - Order Submission Report
  - Non-Stocked Wholesale Product Orders Report
  - GLS - Expected Shipment Report

Customer Master

Customer Master updates are initiated by the Wholesale Customer Centre Supervisor. Finance is responsible for entering the information in the Customer Master module.

Master Shipping Schedule

With the implementation of WOM, a system-controlled shipping schedule is being put in place allowing orders to be picked and shipped based on the Master Shipping Schedule. There are separate shipping schedules for VDC and KDC.

The shipping schedule will maintain two timestamps for each customer.

- The *Warehouse Release Date and Time* determines the time and day that a customer's order(s) is released into RBWMS, thus ensuring that the orders are released in priority sequence to meet the expected shipping date.

- The *Expected Shipment Date and Time* gives each customer a schedule time for their order to be shipped regardless of whether they are direct-delivery, third-party delivery or pick-up customers. This will help both the Wholesale Customer Centre and VDC to more efficiently manage and track shipping tasks.

Order Consolidation

E-Biz allows for the consolidation of all orders to one delivery (shipment) for a given customer. Picking, invoicing and payment processes are more effective.

Items from a number of different E-Biz orders are pulled together at 'Warehouse Release Time' to become a single order in RBWMS. This consolidated order is called a 'Delivery' in E-Biz and is identified by a 'Delivery ID'. The delivery ID number becomes the RBWMS order number. The customer's invoice is based on this delivery ID. In other words, the customer receives an invoice based on their physical shipment and not what was ordered across numerous orders.

Automated Invoice & Payment Process

The invoice and payment process has been automated for wholesale customer orders placed through WCC and iStore. The order is no longer paid out at shipment time; payment will be generated automatically after invoice creation. When the last item of an order is picked in RBWMS, notification goes to E-Biz that the order is completed and triggers order updates, invoicing and payment processes in E-Biz. Payment is made against the customer's primary method of payment. Primary payment method can be credit card or PAP (head office debit).

The WCC no longer needs to create an invoice for each order or include it with the order. The invoice is generated after the order is picked, and will be automatically faxed to the customer. Freight charges will also be included on the invoice for those wholesale customers who incur this charge.

Successful credit card payment must be confirmed before any shipment leaves the warehouse or the wholesale customer centre. PAP process occurs overnight. Credit card payment occurs immediately via iPayment and BC Express Pay.

KDC Customer Orders

- Auto split of KDC Customer Order into VDC and KDC Deliveries.
- VDC bottle pick for KDC serviced customers.

Case Edits

- Ensures that allocated inventory is in the orderable unit of measure, either bottle (BTL) or case (CS).

Purchasing Allocation

- Automated purchasing allocation process via spreadsheet load into E-Biz OM.

iStore

- Customer self-service order process (iStore).

Reports

WC (Wholesale Customer) - Order Submission Report

This report provides the customer with information about stocked product shorts, non-stocked product shorts and back-ordered quantity. It also provides information on order line errors such as duplicate lines, invalid and restricted Skus. Once the customer's order is entered and booked into the system, the customer will automatically be faxed an "Order Submission Report".

GLS - Order Submission Report

The GLS Order Submission Report provides the GLS with information about stocked product shorts and order line errors such as invalid Skus. It does *not* include information on non-stocked wholesale product. KDC Stores will receive an Order Submission report from each shipment destination (KDC and VDC). Once the GLS order is booked into the system, this report is automatically emailed to the GLS.

GLS - Expected Shipment Report

The Expected Shipment Report provides information as to what the store should expect on their shipment. Therefore it includes information as to the total cases and bottles being shipped and details on products such as Dry Goods, Image material, Special Orders, as well as non-liquor and Saleable non-liquor product. It also provides information on filled/ Partially filled non-stocked wholesale product. Once the order is released to RBWMS, the report is automatically e-mailed to the GLS.

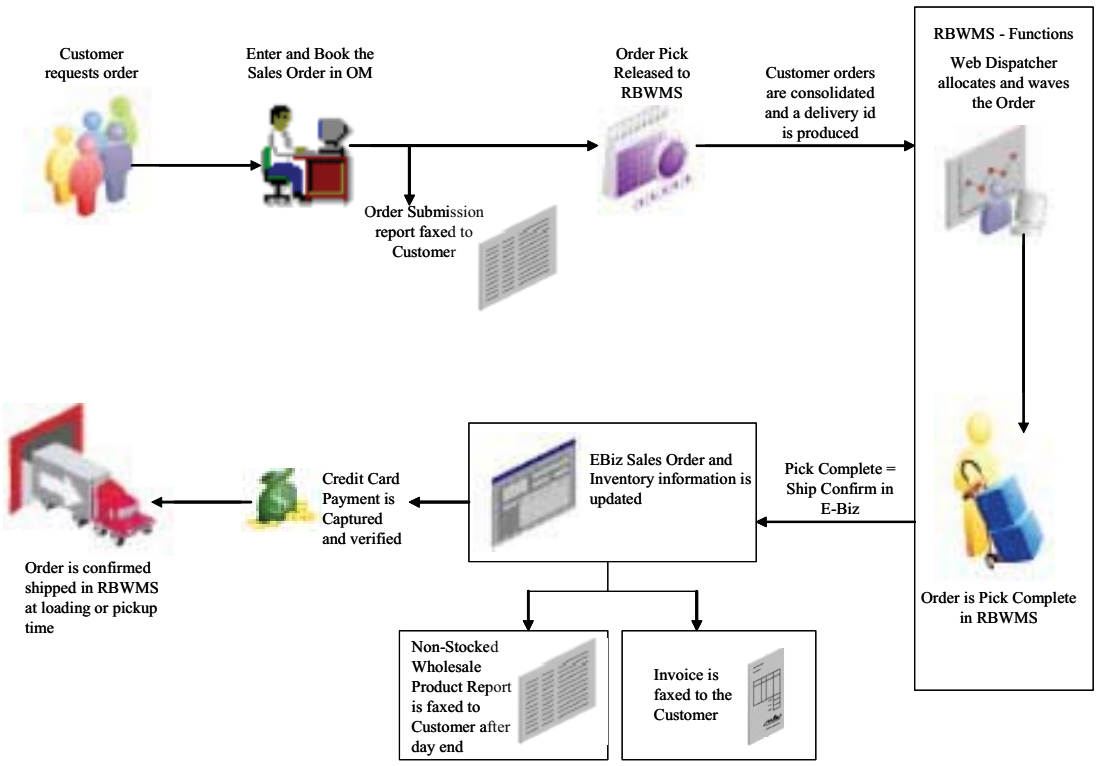
WC - Invoice

This report recaps shipment information by Sku and dollar amount. The report will be automatically faxed to the customer.

WC - Outstanding Non-Stocked Wholesale Product Orders Report

The Non-Stocked Wholesale Product Orders Report provides information on outstanding non-stocked product on order and cancelled. The report will be automatically faxed to the customer after the next delivery is shipped confirmed. *For details, refer to Module 8.*

GLS - Outstanding Non-Stocked Wholesale Product Orders Report



The Non-Stocked Wholesale Product Orders Report provides information on outstanding non-stocked product on order and cancelled. The report will be automatically e-mailed to the GLS after the next delivery is shipped confirmed.

Sales Order Lifecycle

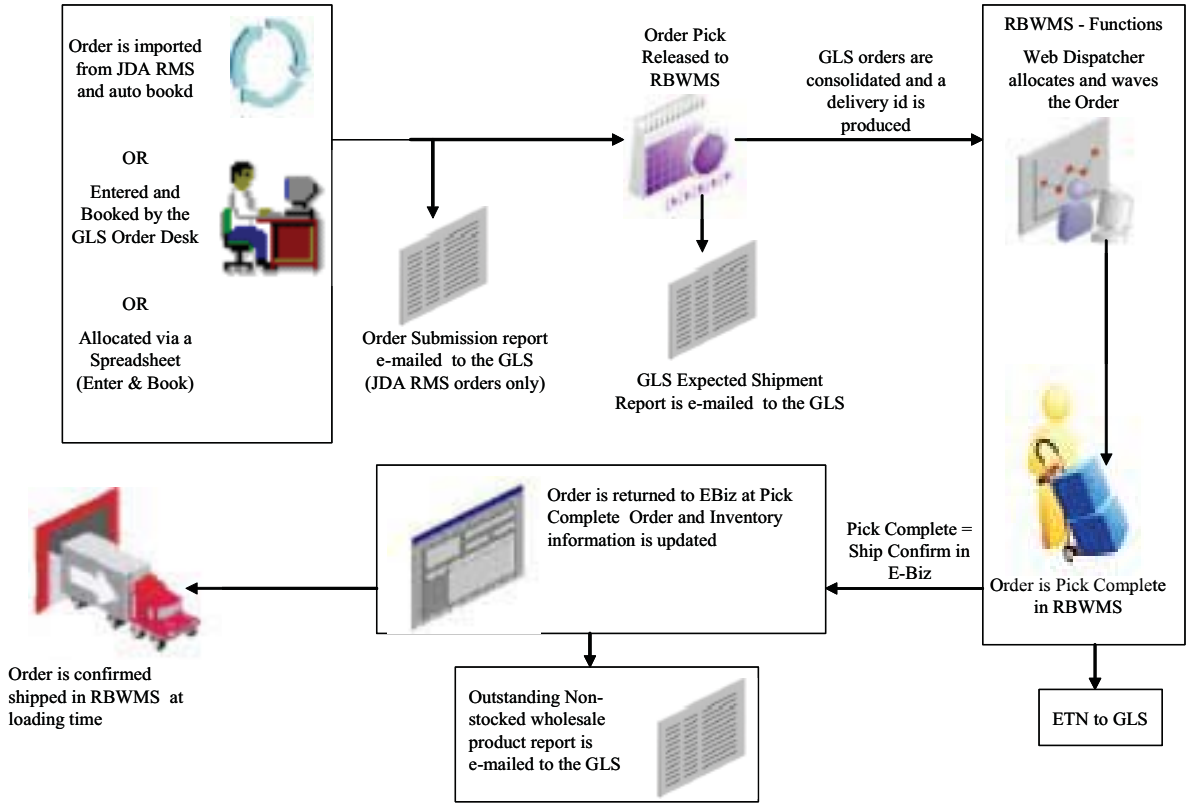
Order Management handles the order processing, scheduling, payment and shipping by means of workflow activities.

WCC Sales Order Lifecycle

The following illustration shows the sales order lifecycle of orders placed through the WCC.

WCC - Enter & Book Sales Order: When the order is booked, inventory is reserved, Warehouse Release Date/Time and Expected Ship Date/Time is populated. Edits are performed and the Order Submission Report is automatically faxed to the customer.

Order Pick Released to RBWMS: Orders for a specific customer are consolidated during the pick release process and a delivery ID is created. This includes filled NSWP orders.



RBWMS Functions: Order is allocated, waved and picked. When the last item on the order is picked, the order is returned to E-Biz. The physical order is placed in a designated spot for checking.

Order returned to E-Biz: Sales order and inventory information is updated. An invoice is faxed to the customer. Credit card payment is captured and verified. Outstanding Non-Stocked Whole Product report is faxed to customer after day-end.

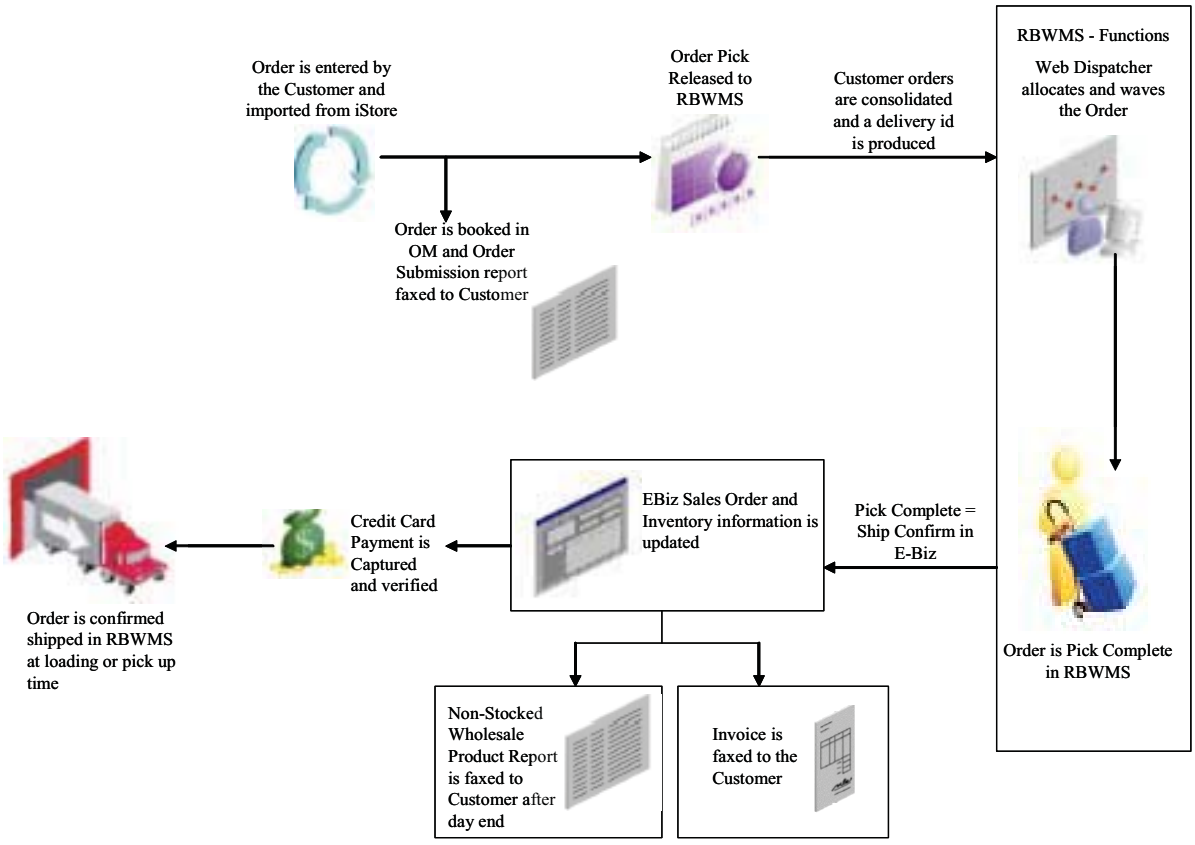
RBWMS Function: Once payment is verified, order is ship-confirmed at loading or pickup time.

GLS Sales Order Lifecycle

The illustration below provides a visual of a GLS sales order lifecycle.

GLS Orders: These orders are downloaded from JDA RMS in booked status. The GLS Order Desk may also enter and book orders for the GLS. The Purchasing department will use a spreadsheet to push cross-dock products to the GLS. When the order is booked, inventory is reserved and Warehouse Release Date/Time and Expected Ship Date/ Time is populated. Edits are performed and the Order Submission Report is automatically e-mailed to the GLS (JDA orders only).

Order Pick Released to RBWMS: Orders for a specific GLS are consolidated during the pick release process and a delivery ID is created.



RBWMS Functions: Order is allocated, waved and picked. When the last item on the order is picked, the order is returned to E-Biz.

Order returned to E-Biz: Sales order and inventory information is updated. An ETN is sent to the GLS. Outstanding Non-Stocked Whole Product report is e-mailed to the GLS after day-end.

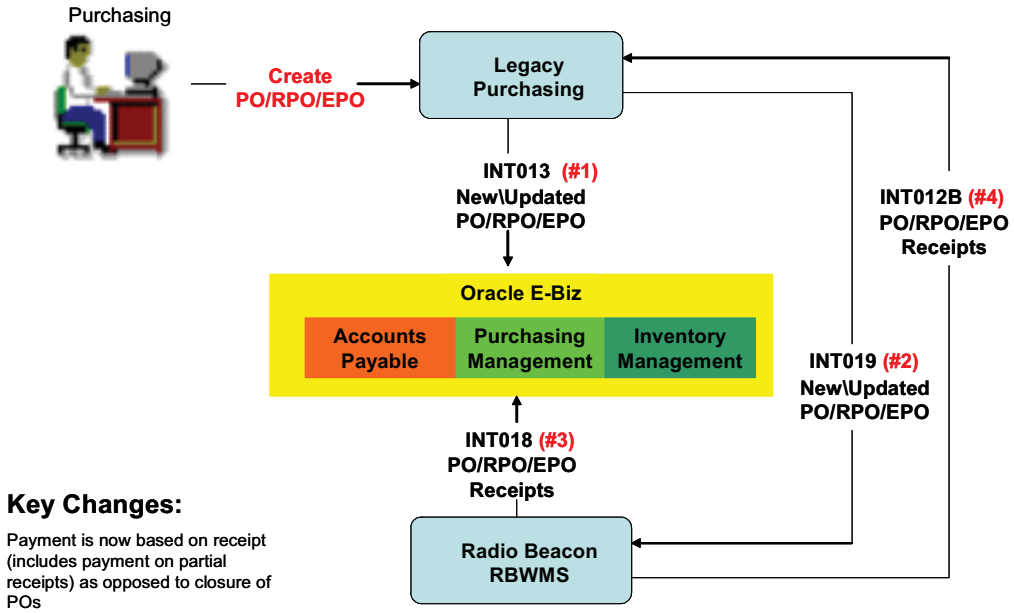
RBWMS Function: Order is ship-confirmed at loading time.

iStore Sales Order Lifecycle

The illustration below provides a visual of an iStore sales order lifecycle.

iStore Orders: These orders are entered by the customer. When the order is imported to E-Biz, the order is booked and inventory is reserved, Warehouse Release Date/Time and Expected Ship Date/Time is populated. Edits are performed and the Order Submission Report is automatically faxed to the customer.

Order Pick Released to RBWMS: Orders for a specific customer are consolidated during the pick release process and a delivery ID is created. This includes filled NSWP orders.



RBWMS Functions: Order is allocated, waved and picked. When the last item on the order is picked, the order is returned to E-Biz. The physical order is placed in a designated spot for checking.

Order returned to E-Biz: Sales order and inventory information is updated. An invoice is faxed to the customer. Credit card payment is captured and verified. Outstanding Non-Stocked Whole Product report is faxed to customer after day-end.

RBWMS Function: Once payment is verified, order is ship-confirmed at loading or pickup time.

Overview - Purchasing Management

The legacy Purchasing system will continue to support all forecasting and purchasing functions. As shown below, E-Biz will be used to interface PO/RPO/EPOs receipts between legacy Purchasing and Radio Beacon (RBWMS), as well as for maintaining inventory levels in E-Biz Inventory and payment of PO/RPO/EPOs receipts in E-Biz Accounts Payable.

Key Changes:

Payment is now based on receipt (includes payment on partial receipts) as opposed to closure of POs

Purchasing Department - Create and update PO/RPO/EPO in legacy Purchasing.

INT013 and INT019- updates E-Biz Purchasing Management with the new/updated PO\RPO\EPO. If update is successful, then INT019 updates the RBWMS with the new/updated PO/RPO/EPO information. Support receives a notification from BPEL if any of the updates fail.

INT018 and INT012B - When the PO is received in RBWMS, INT018 updates the information in E-Biz Purchasing Management. If update is successful, then INT012B updates legacy Purchasing. Support receives a notification from BPEL if any of the updates fail.

NOTE: RAC RPOs (import beers RPO Type 25 and domestic beers Type 27 are beers that are handled through Container World. RAC RPOs will be created in legacy Purchasing/LIP and handled separately to interface with E-Biz Accounts Payable for payment process.

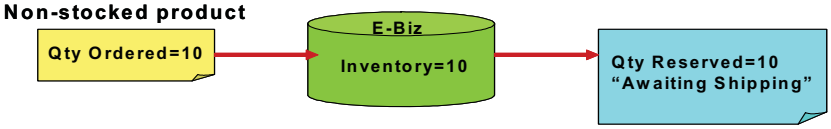
Purchasing Business Process Changes

The E-Biz implementation allowed the BCLDB to review key business processes. Listed below are some of the key Purchasing Management business process changes:

- Purchasing allocation process
- Non-stocked wholesale product back-ordering process
- Inter-warehouse transfers (Inter-Org)
- Enhanced reporting

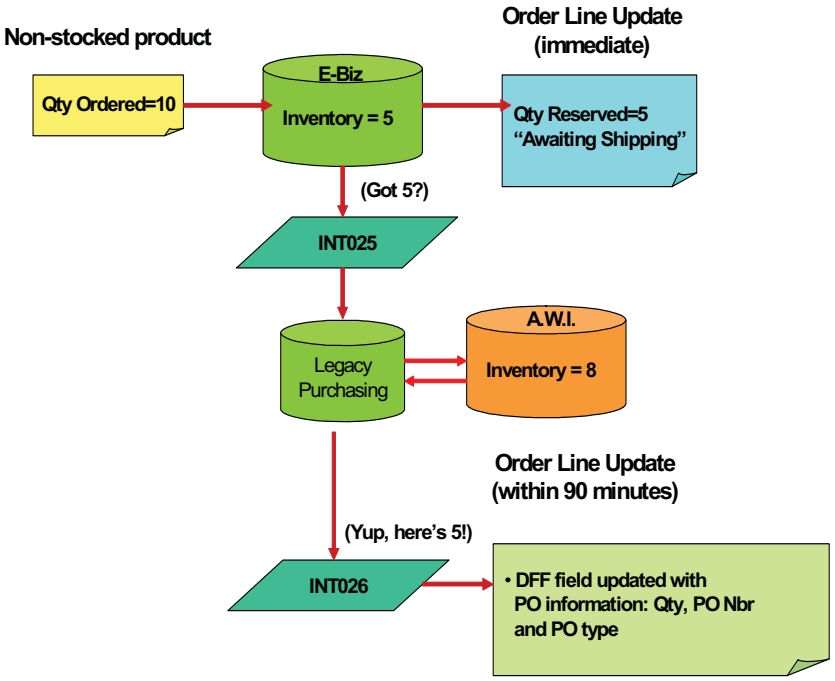
Purchasing Allocation process

E-Biz has the capability of uploading a spreadsheet containing SKU, customers, and quantity of product that needs to be XDOCKED to a customer.



Inter-Warehouse Transfers

The Inter-Org process is used to replenish KDC with VDC inventory or vice versa.



Non-Stocked Wholesale Product Back-ordering process

E-Biz will generate a back-to-back purchase order for supply against a non-stocked product demand. E-Biz will check the inventory at the DC prior to sending a demand for unavailable quantity to the legacy purchasing system. The following graphics provide an overview of how inventory for a non-stocked product is reserved against demand.

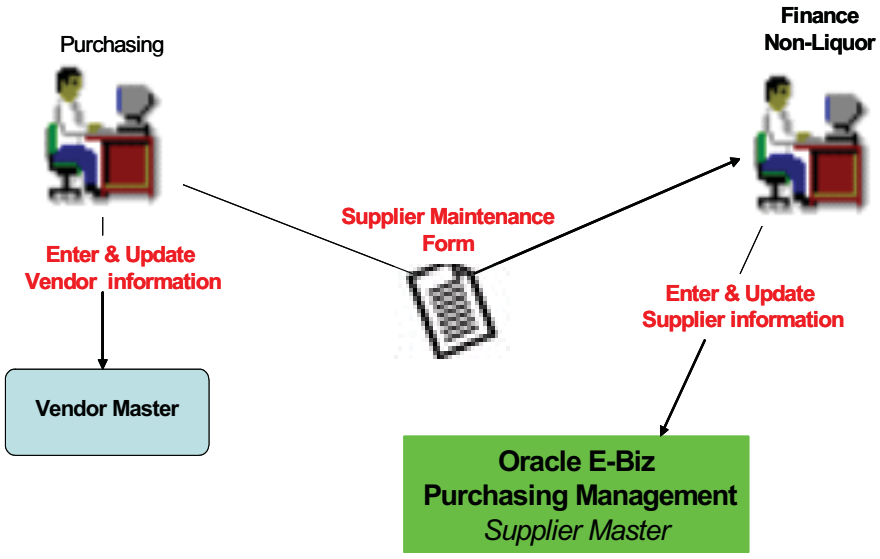
Scenario 1

Scenario 2:

The BCLDB Sales Order Cancellation Report will list sales order lines that have not been fulfilled within 30 days. It will also list the PO# for product that product has not been received to fulfill the sales order demand. You use the information on this report to cancel purchase orders in the legacy System which in turn will cancel the purchase orders in OE-Biz.

NOTE: EPOs will be cancelled automatically in the Legacy Purchasing within 10 business days if the order has not been fulfilled.

Enhanced Reporting



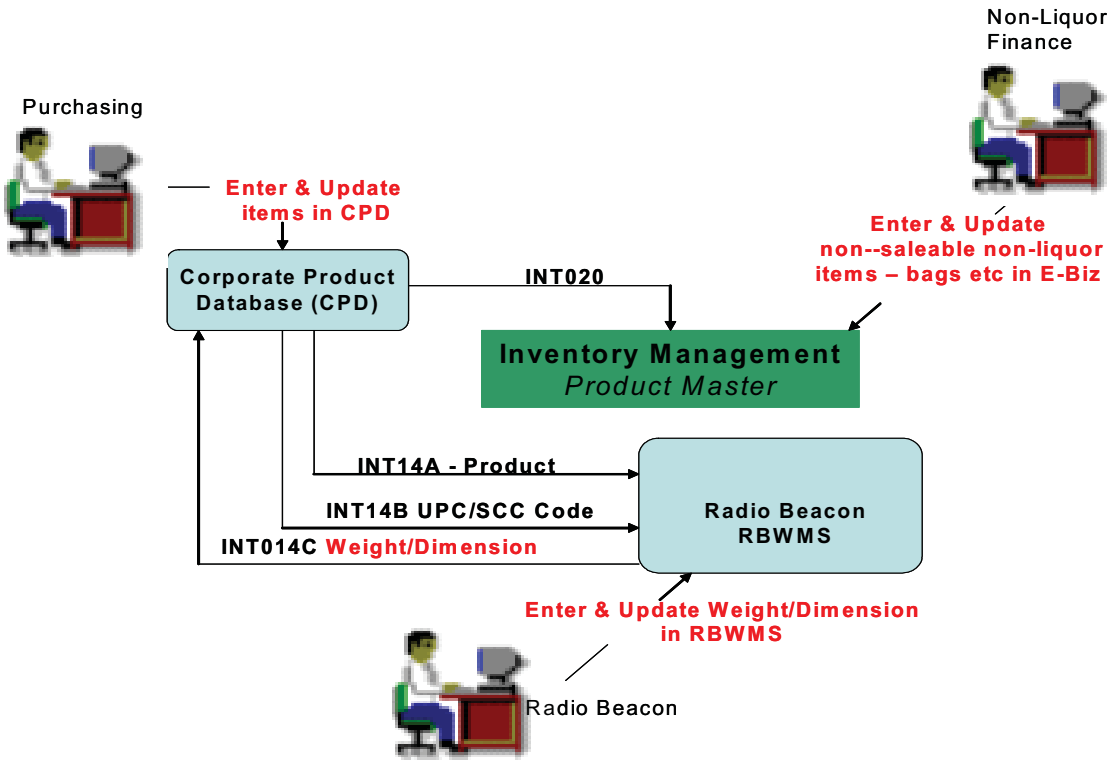
You use the Oracle Discover application to generate the following reports:

- 804a - Active Cross Dock Item Inventory Report by Warehouse.
- 804b - Product Allocation Preparation Report by set of SKUS.
- 805 - Slow Moving Active Products by WH by Week.
- 806A - KDC Product Replenishment from VDC
- 806b - VDC Only Active Products with KDC Issues-4-Cases-Week

From within E-Biz you will also be able to generate a Sales Cancellation Report to determine purchase orders that must be cancelled as the order has not been fulfilled within 30 days.

Overview of Supplier Master

As shown below, the Purchasing Department will continue to maintain the Vendor Master information. Any addition/\modifications will be forwarded to Finance through a Supplier Maintenance paper form. Finance - Non-Liquor will update the Supplier Master in E-Biz Purchasing Management with the information provided on the Supplier Maintenance form.



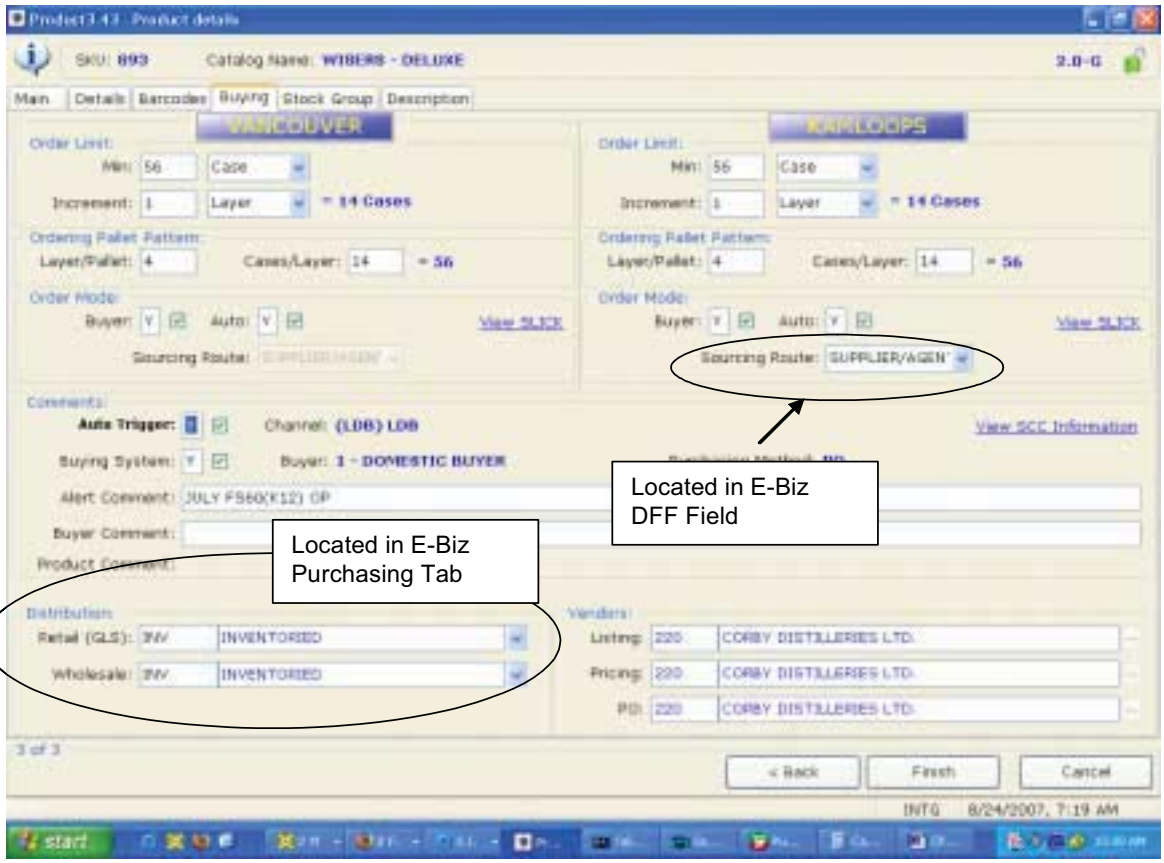
NOTE: In order to create POs and pay vendors, the Supplier Master in E-Biz must be kept current with the Vendor Master.

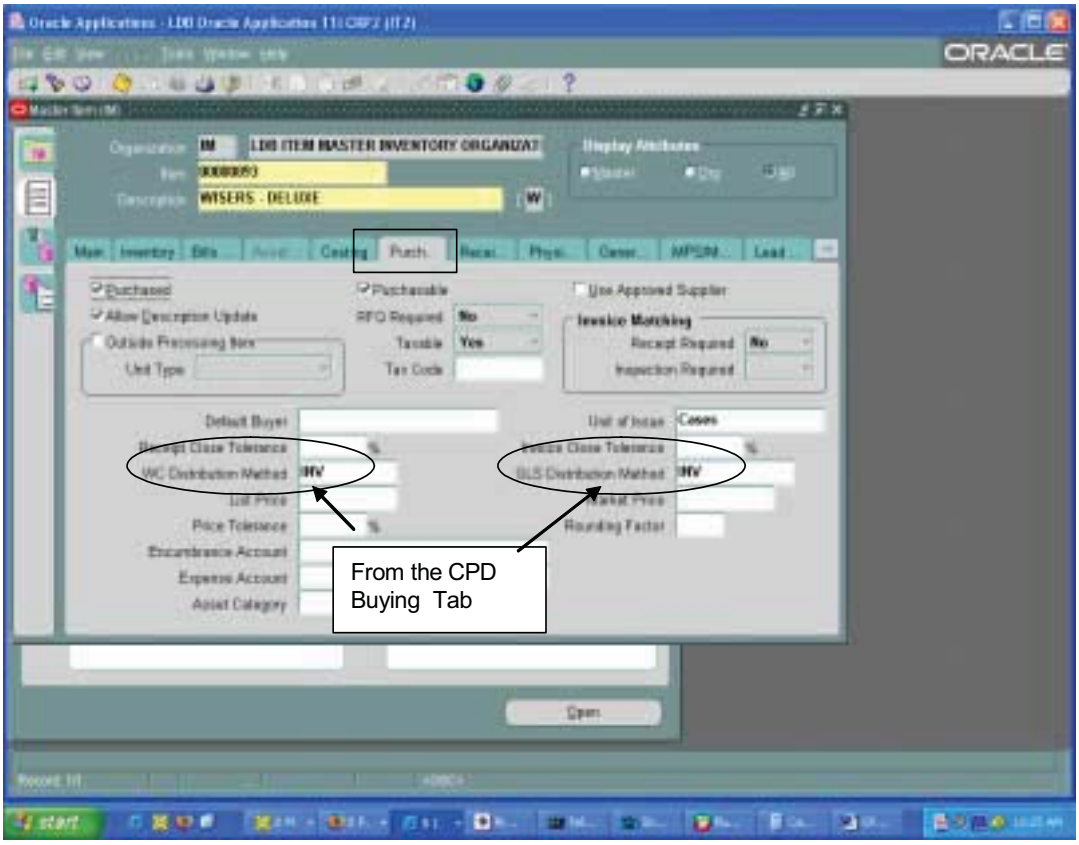
Overview of Corporate Product Database (CPD)

The Corporate Product Database (CPD) system is where the master product data resides. The CPD is maintained by the Purchasing Department. All other legacy systems share this data, such as Purchasing, RBWMS, SCIA, JDA, CCRS, ERA.

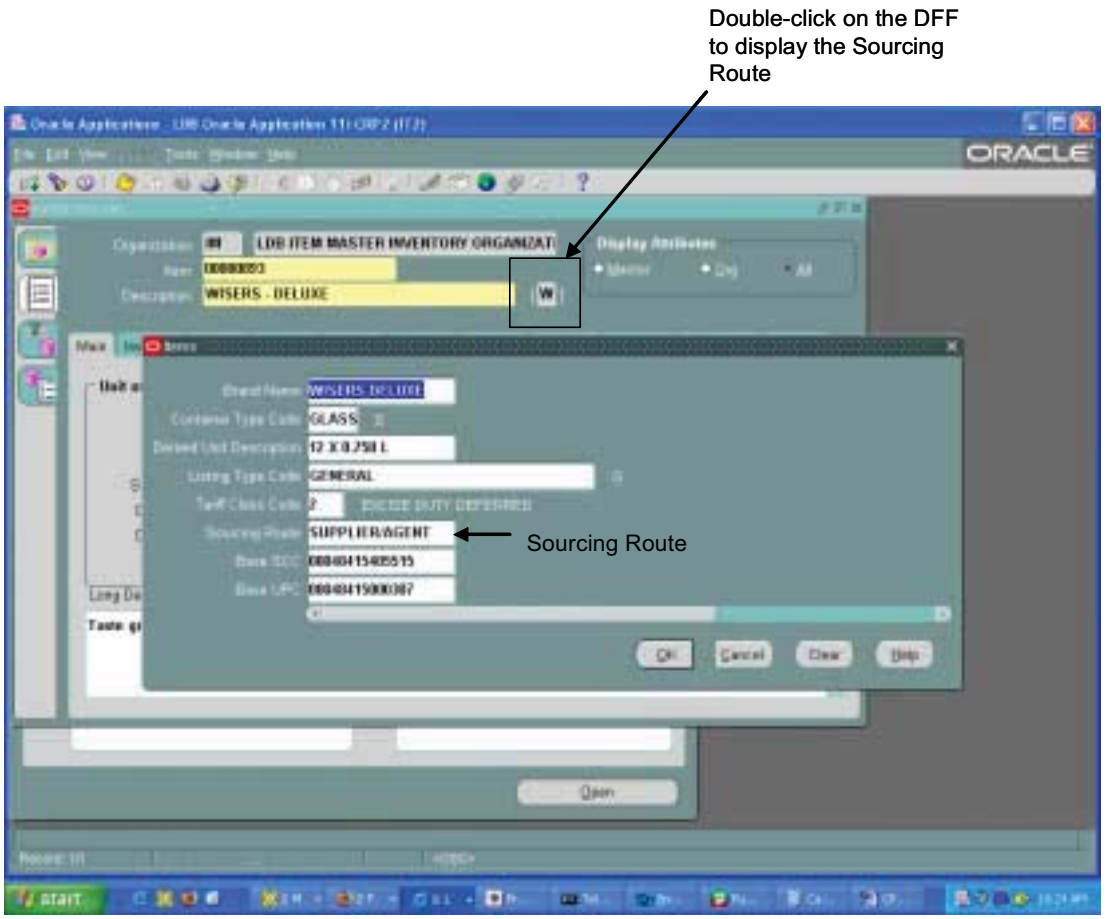
With the implementation of WOM, CPD will continue to be the source and WOM will use a subset of product attributes for Item Master setup through Int-020. The overall scope of this interface is to upload source product data in staging tables, validate the source data, and transfer the validated data into Oracle.

As illustrated below, all liquor products will continue to be updated in CPD and interfaced to E-Biz. All non-saleable non-liquor items will be entered directly into E-Biz. These items are shipped to BCLSs only and include bags, dry goods, and promotional materials.





CPD CHANGES



Distribution Method has been added to the CPD in order to use the purchasing allocation process and to secure inventory.

Sourcing Route method informs you as to how KDC is going to receive the product. There are three options:

- Inventory - it is coming from VDC and stocked at KDC.
- Non-Stocked - inventory will not be stocked at KDC; however, if inventory is warranted it will be sourced out of VDC and cross-docked to the KDC serviced customer.
- Supplier/Agent - goes directly from the Agent Warehouse or the Supplier to KDC.

Module 2

E-Biz - Getting Started

Module Description

This module provides an overview of E-Biz, as well as key features and how to navigate within the application.

Module Objectives

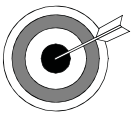
After completing this module, you will be able to:

- Access and log on to E-Biz
- Choose a responsibility
- Work in the Navigator window
- Navigate in the E-Biz user interface
- Change your password
- Log off and exit E-Biz

CTZ-2012-00087-A-22-12-01-86087

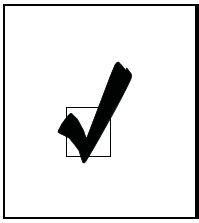
Accessing Oracle and Logging On

Access to E-Biz is provided through the LDB's Intranet site. Once the user has entered the URL (Uniform Reference Locator), which is the web address for the E-Biz application, a logon screen displays requesting a username and password. The username is the unique name that identifies the user to E-Biz. The password authenticates or confirms the user's identity.



▶ **To access and log on to E-Biz:**

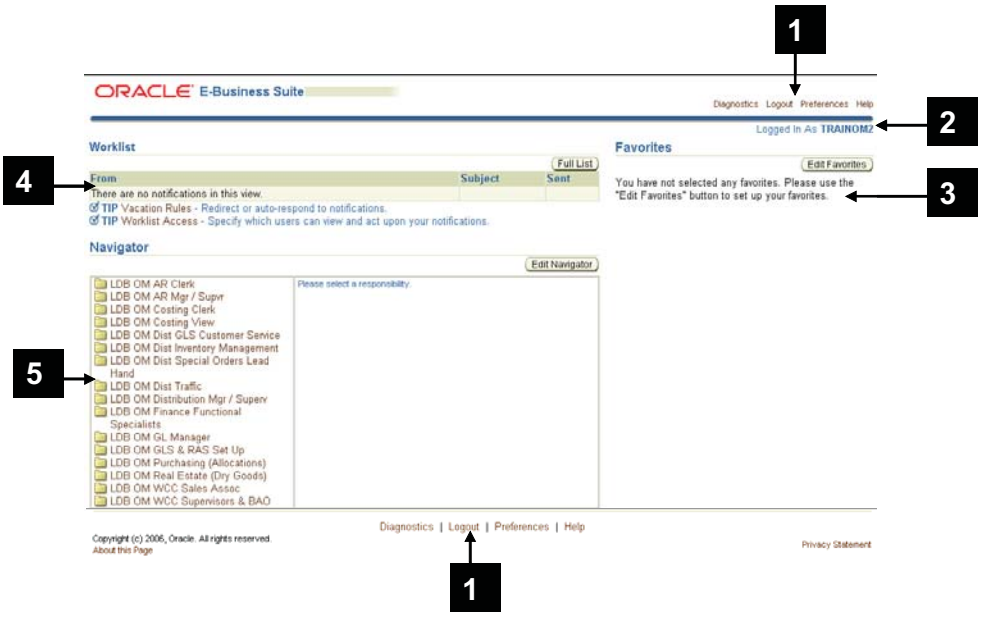
1. Double-click the **Internet Explorer** icon on your desktop.
   Internet Explorer opens the LDB Home Page. A "home page" is the first screen, or page, of a web site.
2. Click anywhere in the Address box to select the existing text.
3. In **Address box**, type the URL of the E-Biz application.
4. Press **ENTER**.
   The Oracle E-Biz application session begins, and a logon screen appears as shown below.



5. In **Username**, enter your username.

TIP: Do not press [Enter] after entering each item, as [Enter] is normally used to accept the default button. Instead, use [Tab] or the mouse to navigate between the Username and Password fields.

6. In **Password**, enter your password.
   Characters entered in the password field, always appear as asterisks (****) to hide them from casual onlookers. Note: To allow access to E-Biz, the Security Administrator has to setup your username (existing LAN UserId) and a default password. Once you have logged on to the application, ensure you change the password. instructions on changing your password are covered later in this module.
7. Click **Login** or press **Enter**.
   Your are now logged on with your security privileges assigned by the Security Administrator, and the home page of E-Biz displays.



NOTE: If either the username or password is invalid, the system displays an error message. Enter the correct information and click Login. Also ensure the username and password are both case-sensitive. If you continue to have problems logging in, contact the LDB Support Centre 252-2900 as a password reset may be required.

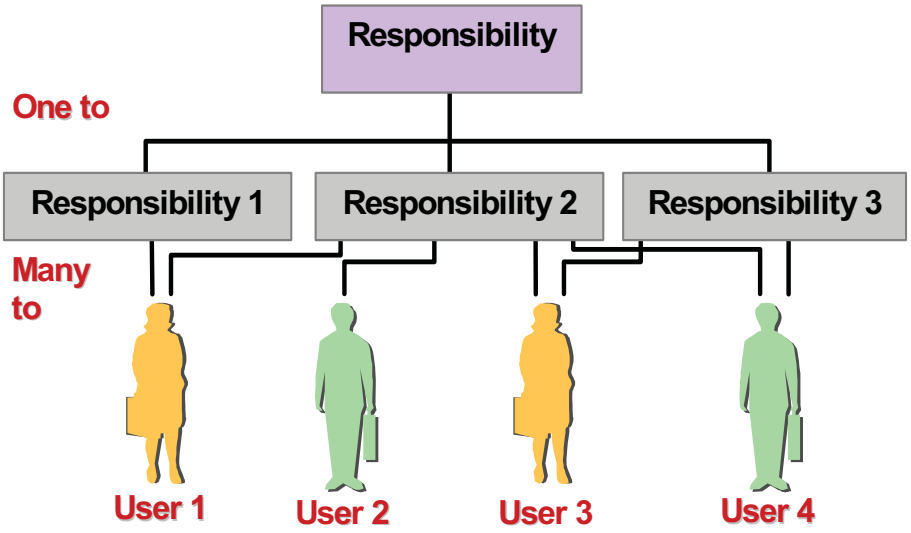
Lesson 2-1: Logging on to Oracle E-Business Application

1. Logon with the username and password provided by the facilitator.

Elements of the E-Biz Home Page

Once you have logged on to E-Biz, the home page displays similar to the one below. This page is your entry point to the E-Biz application and functions.

The elements of the home page are described in the table below.



Element #	Description
1 - Link	Provides access to the Diagnostics, Logout, Preferences, and the Help menu.
2 - Logged in as	Displays the username logged in.
3 - Favorites	Allows you to add links to frequently used functions and Web sites.
4 - Worklist	Lets you view and respond to notifications.

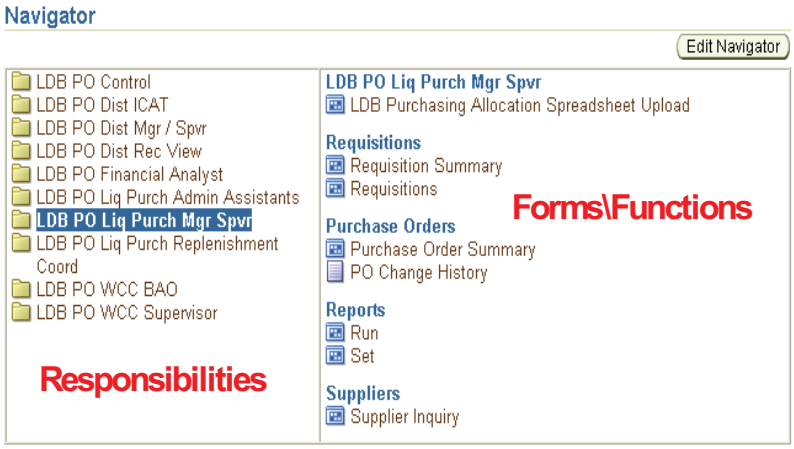
Element #	Description
5 - Navigator	Displays a list of responsibilities available for your username. A *responsibility* is a level of authority in E-Biz that enables you to access functions and data appropriate to your role. You can have one or more responsibilities. Refer to topic “Choosing a Responsibility” for more information, and also the topic “Working in the Navigator Window” for more information.

Responsibility Roles

A *responsibility* is a pre-defined level of authority in E-Biz that allows you access to E-Biz application functions and data that is specific to your role in the organization.

Each user has at least one responsibility. As illustrated below, a user can have more than one responsibility, and several users can share the same responsibility.

Each responsibility allows access to:



- A specific application or applications, such as Order Management, Inventory Management, Purchasing Management, Accounts Payable, Accounts Receivable, General Ledger, and so forth.
- A set of books (SOB) of an organization.
- A list of functions\forms that a user can navigate to. For example, a responsibility may allow certain users access to create a sales order but not update customer information.
- Reports that can be generated.

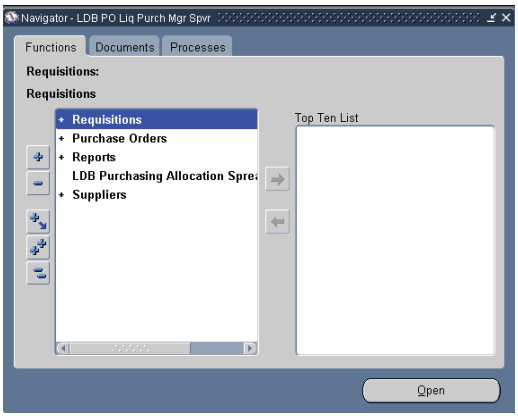
Once you have logged on, the responsibilities available to you will display in the left hand column of the Navigator. From here, you can select the appropriate responsibility required to perform the business processes and functions.

To choose a Responsibility from the Home Page:

1. Double-click on the appropriate responsibility link. (For example, LDB OM WCC Sales Assoc).
   The functions available for the selected responsibility as shown below will appear in the right panel of the Navigator region.

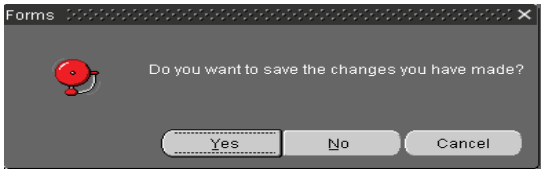
2. Double-click on the name of the function\form link (Sales Order, for example).
   This will invoke the Jinitiator and an intermediate window, as shown below, will appear briefly prior to the respective form (ie Sales Order) being displayed.

CAUTION: Do not close this window because it will terminate the E-Biz application session. Once the form opens up, this intermediate window will go to the background.



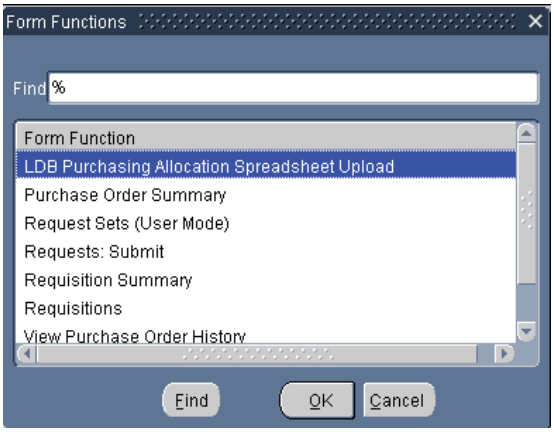
Switching Your Responsibility Role

Some users will have more than one responsibility. If you need to work under a different responsibility, you can switch responsibilities without having to exit out of E-Biz.



To switch between responsibilities:

1. From the View menu, choose **Show Navigator** or click on the  icon located on the toolbar.
   The Navigator window similar to the one shown below becomes active.

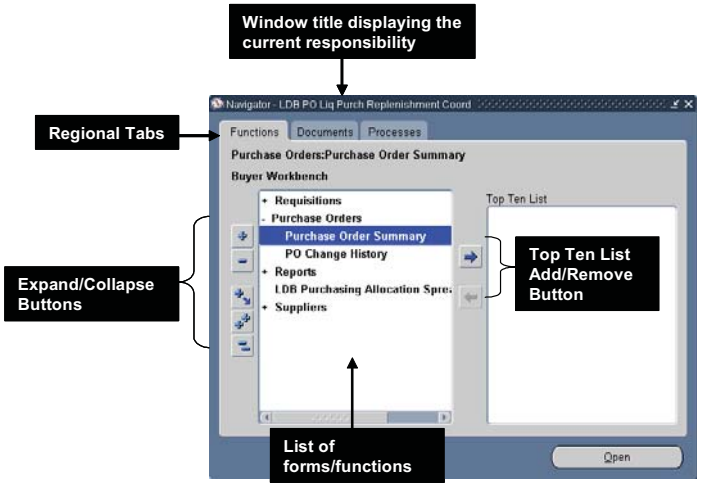


2. On the **File Menu**, choose **Switch Responsibility** or click on  icon located on the Toolbar.
   If you have forms open in your current responsibility that you have not saved, a window similar to the one shown below.

3. Click **Yes** if you wish to save the changes.
   Click **No** if you do not wish to save the changes.
   Click **Cancel** to exit out of the function.

NOTE: This window only appears if there are any changes to be saved. If there are no changes to be saved, all open windows other than the Navigator Window will close and the Responsibilities Window similar to the one shown below appears.

4. On the Responsibilities window, select a new responsibility and click **OK**.
   The Navigator window's title and contents will be updated to reflect the new responsibility.



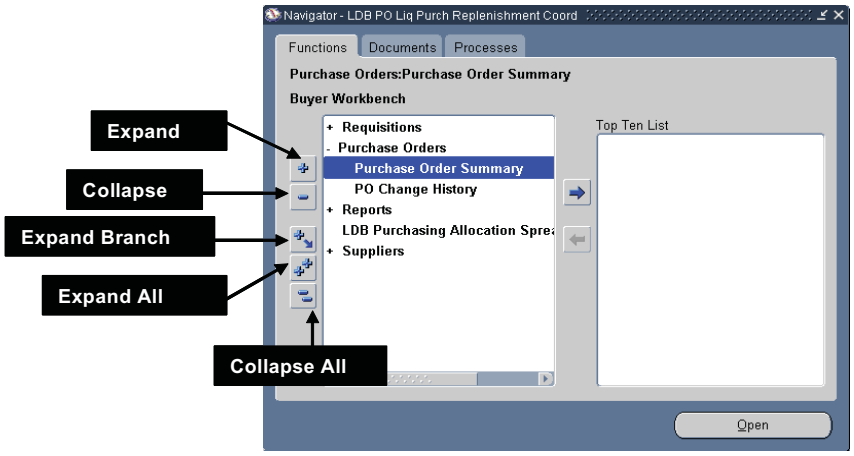
NOTE: If you have only one responsibility, the Switch Responsibility menu item will be disabled.

Lesson 2-2: Selecting and switching responsibilities

1. From the E-Biz home page, select the following responsibility - **LDB PO Liq Purch Replenishment Coord.**
2. Open the "Purchase Order Summary" form.
3. Switch responsibility to **LDB PO Liq Purch Mgr Spvr.**
4. Switch responsibility back to **LDB PO Liq Purch Replenishment Coord.**

The Navigator Window

The Navigator window is used to access forms (screens) for executing business activities. The navigator window displays the name of the current responsibility in the window title. It also contains region tabs, list of functions/forms with expand and collapse capabilities, and a Top Ten List area.



Region Tabs

You click on a tab to access individual regions of the Navigator window. Tabs appear in a fashion similar to that of a Rolodex card. When you click on a tab, a new region is brought forward with a new set of capabilities. Generally the Navigator window consists of two region tabs: Functions and Documents. However depending on the responsibility, a navigator window may also contain the Processes tab as shown above.

Functions Tab

The ***Functions tab*** provides a list of functions based on your current responsibility. The list, as shown below, is organized much like the hierarchy of a file system; you can expand items that begin with a plus sign (+) to further sub-levels until you find the required form. Sub-levels appear indented below the items from which they are expanded. Items

that are expanded are preceded by a minus sign (-). An item that has been expanded to its lowest level will not display a (+) or (-) sign in front of it.

The table below provides an overview of the expand\collapse buttons.

Button	Description
	Expands the selected item to its next sublevel.
	Collapses the expanded item.
	Expands all the sublevels of the currently selected item.
	Expands all the sublevels of all expandable items in the navigation list.
	Collapses all currently expanded items in the navigation list.

To expand an item to its next sub-level:

1. Double-click on the item or

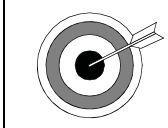
   Select the item and click the **Expand** button.

To collapse an expanded item:

1. Double-click on the item or

   Select the expanded item and click the **Collapse** button.

To expand all the sub-levels of the currently selected item.



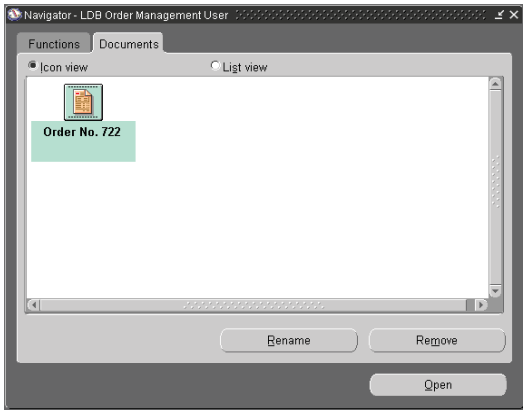
1. Select the item and click the **Expand Branch** button.

To expand all the sub-levels of all expandable items.

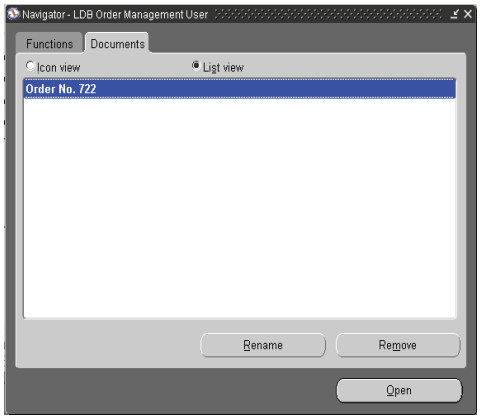
1. Click the **Expand All** button.

To collapse all expanded items.

1. Click the **Collapse All** button.



TIP: If you know the name of a form and want to select it from the Navigator Window, press CTRL+L. This will bring up the Form Function window that displays the forms in alphabetic order. Scroll through the list to find the form and double-click on it. If it is a long list, you can also perform a search by entering the first few characters of the form name.



Documents Tab

Ensure that you have something on the documents tab.

The ***Documents tab*** is a customizable region that contains links to documents that you have placed on the Navigator using the "Place on Navigator" feature. For example, if you have a document such as a particular sales order, purchase order, or invoice, that you want to access later, you can create a link to the document using the "Place on Navigator" feature.

This feature allows you to create as many links as you want and save them to the Documents Tab of the Navigator window. The links can be represented as icons (shown below) or viewed as a list. When you use a link to open a document, E-Biz opens the document in the appropriate form window.

▶ To place a document on the Navigator's Document Tab

1. With the form displayed on your screen, select **Place on Navigator** from the **File** menu.

   *The form will now appear under the Document Tab. If the form requires certain data to be entered prior to placing on the navigator, you will receive an error messages as shown below. In this case, click **OK,** enter the data, and then place it on navigator.*

NOTE: As E-Biz does not support the placement of all forms on the Navigator, the Place on Navigator feature will be enabled for the forms that are supported, and disabled for the ones that are not supported.

To open a document from the Navigator's Document Tab

1. Double-click on the document link, or select the document link and click **Open**.

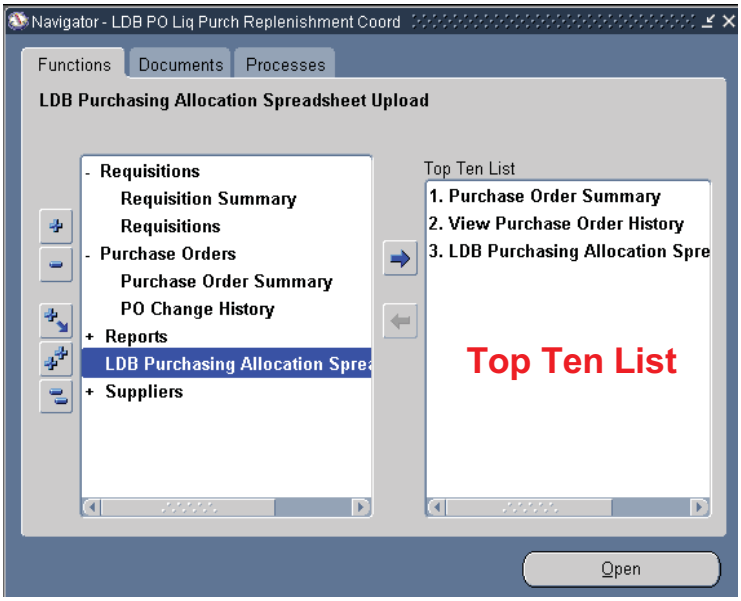
To remove a document from the Navigator's Document Tab

1. Select the document link and click **Remove**.
   Removing the document link from the navigator has no effect on the actual document. However, if the document is deleted, the link in the navigator Document's Tab will display a message letting you know that the link is now invalid.

Top Ten List

You can add forms that you use frequently to a Top Ten List located on the right-panel of the Navigator Window. The Top Ten List displays the forms numerically so you can choose them without having to search for them in the navigation list.

You can add a maximum of ten forms to the Top Ten List, and you can create a different Top Ten List for each responsibility you have access to.



To add a form to the Top Ten List:

1. From the Navigator window, click on the form that you want to add to the Top Ten List.

2. Click the right arrow  to add that form to the top ten list.

   The form will appear under the Top Ten List as shown below.

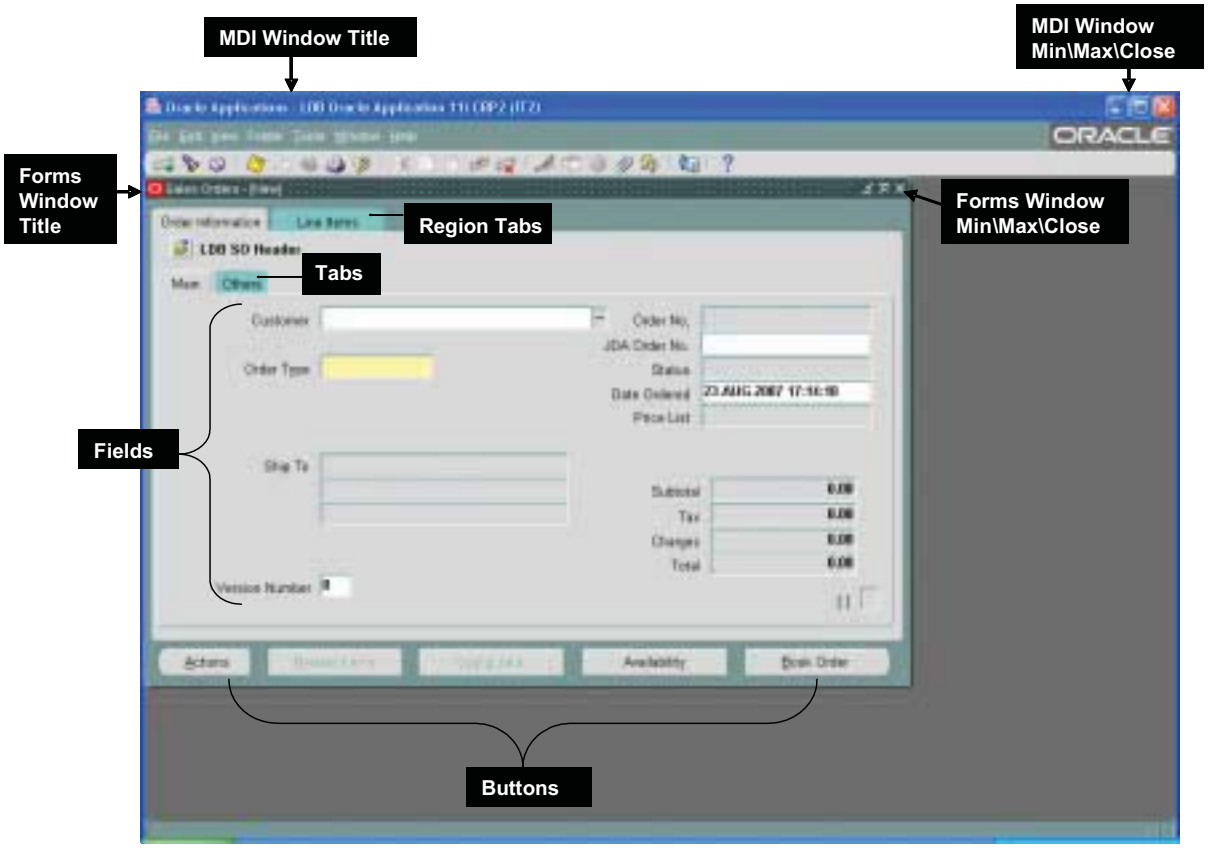
To remove a form from the Top Ten List:

1. Select the form that you want to remove from the Top Ten List.
2. Click the left arrow to remove it from the Top Ten List.

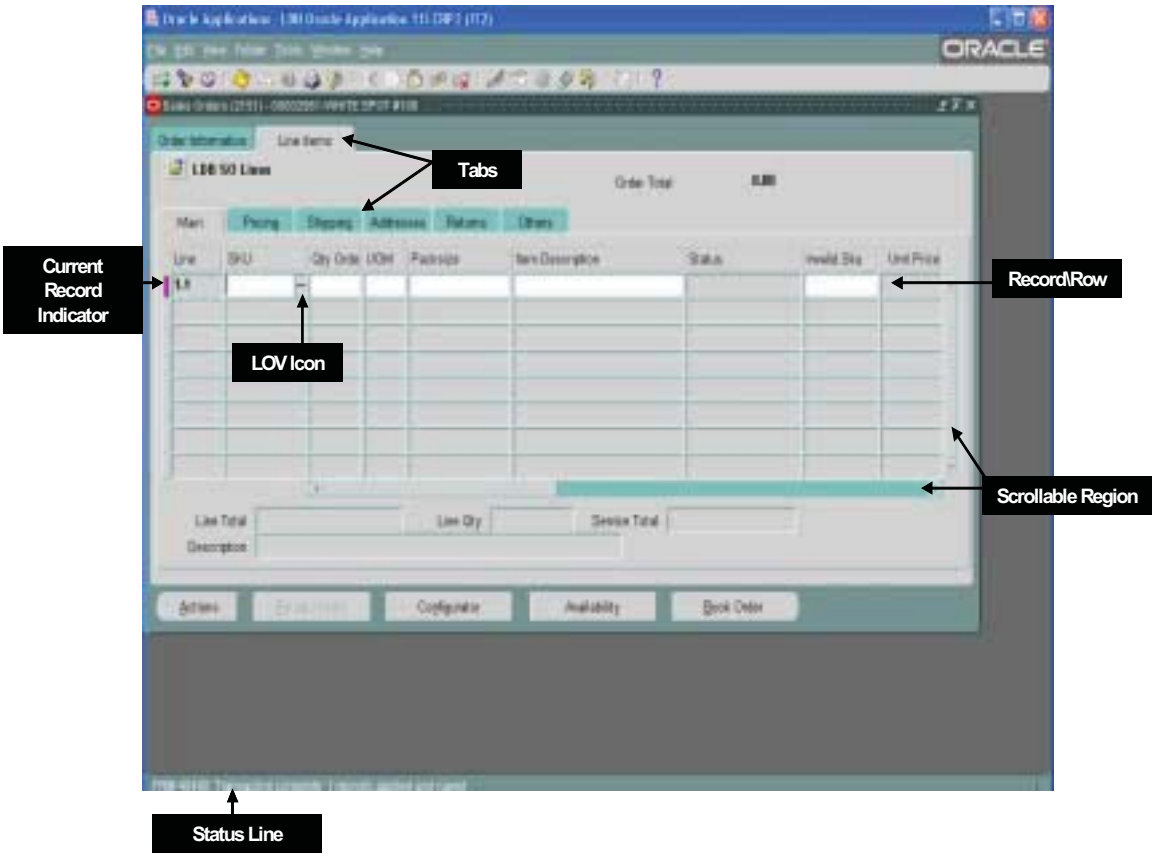
   The form will be removed from the Top Ten List and the remaining forms will be renumbered automatically.

To open an item from the Top Ten List:

1. Type the number that precedes the item you want to open, or double-click on the item.



NOTE: Sometimes the form that has been added to the Top Ten List displays with a slightly different name in the Top Ten Listing. This is a known bug.



Lesson 2-3: Working with the Navigator window

1. With the responsibility **LDB PO Liq Purch Replenishment Coord**, expand the items under "Purchase Order".
2. Collapse the items under "Purchase Order".
3. Expand all the sublevels of all expandable items.
4. Collapse all expanded items.
5. Add the following forms to the Top Ten List:
   - Purchase Order Summary
   - PO Change History
   - LDB Purchasing Allocation Spreadsheet
6. Remove the "PO Change History" form the Top Ten List.
7. Switch responsibility to **LDB PO Liq Pur Mgr Spvr**
8. Bring up the Form window to locate a form - Hint: press **Ctrl+L**.
9. Switch responsibility to **LDB PO Liq Purch Replenishment Coord.**
10. From the Form Window, Open the "Purchase Order Summary" Form.

Working with Forms

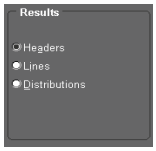
An E-Biz form is an interface to the data in a database. A form is an organized display of fields through which you can quickly and easily access and enter information to complete a business task. The form resembles the look of a paper form you use to run your business. Each form displays one or more windows to complete a business process.

NOTE: The forms you can open depends on your responsibilities. A form in one responsibility may vary from the same form in another responsibility, such that certain screens or buttons may exist in one but not the other. This is to maintain security at a functional level so that only a user with a given responsibility can access a particular set of functions.

The components of an E-Biz form are the menu bar, toolbar, window title, tabs, fields, buttons, scrolling regions and so on.

The outermost window contains the application window, menu bar, and toolbar. The menu and toolbar allow you to navigate and work within a form. The inner application windows are used for data entry and search operations. The outer window contains all application windows.

A user can have many open windows at a time. The title bar specifies the window name and context information of the window. The following table provides a description of some of the components of a form.



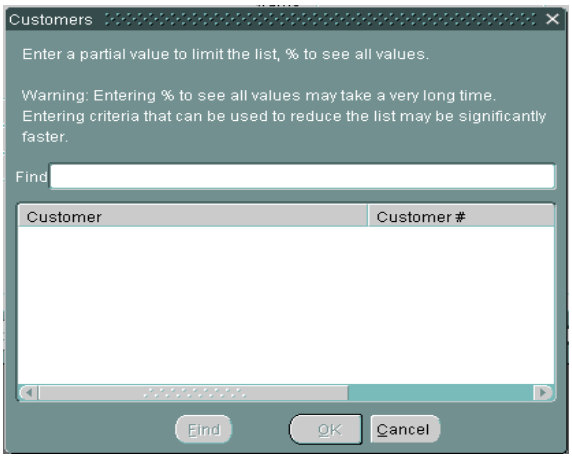
Component	Description
Menu Bar	Contains the File, Edit, View, Folder, Tools, Window. and Help pull down menu items. Use these to navigate through a form, to edit or retrieve data, or to perform various other functions.
Toolbar	Is a collection of icons that perform a specific action when selected. Each toolbar icon replicates a commonly-used menu item. Depending on the context of the current field or window, a toolbar icon can be enabled or disabled.
Window Title	Is located at the top of each window and displays the name of the window and, at times, context information pertinent to the contents of the window.
Region Tab & Tabs	A collection of regions that occupy the same space in a window; however, only one region can be displayed at a time. You click on a tab to display the area (region) of the form for that tab.
Field	Fields are used to enter, view, update, or delete information. A field prompt describes each field by telling you what kind of information appears in the field or what kind of information you should enter in the field. For example, the Sales Order form includes the Customer field, Order Type field etc.
Button	A graphic element that initiates a predefined action when you click it. ie: OK, Cancel, Book Order, etc.
Record or Row	A record is one occurrence of data stored in all the fields of a block. A record is also referred to as a row, or a transaction.
Current Record Indicator	Multiple rows display a current record indicator to the left of each record. A current record field is a one character field that when filled in, identifies a record as being the current or “active” record.
Scrollable Region	A scrollable region is a region whose contents are not entirely visible in a window. A scrollable region contains a horizontal or vertical scroll bar so that you can scroll horizontally or vertically to view additional fields hidden in the region.

Component	Description
Message Line	The message line displays at the bottom of the window. It displays helpful hints or warning messages.
Status Line	The status line appears below the message line, and displays status information about the current windows or field. For example, Enter Query - indicates that the current block is in Enter Query Mode.

Types of Data Entry Fields

There are several different types of data entry fields on a form. They all serve a common purpose - to provide you a simple way to enter and update data. A *field prompt* describes what kind of information appears in the field, or what kind of information you should enter in the field. Fields that allow you to enter data have a white background. Fields that are mandatory will display a yellow background. If a field is dimmed, it indicates that the field is disabled or a read only field.

The different types of data entry fields are listed below.

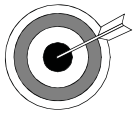


Field Type	Description
Text field 	A rectangular box that allow you to enter data directly or invoke an Editor window for entering and updating the data.
Check bx 	You can indicate an on/off or yes/no statement for a value by checking or unchecking its check box. One or more check boxes can be checked as each check box is independent of other check boxes.
Option group 	An option group contains a set of option buttons. You can choose only one option button in an option group at a time. An option button is also referred to as a radio button.
Popup list 	Enables you to choose a single value from a list.
List of Values (LOV) 	Fields containing a List of Values (LOV) have an indicator called a *List Lamp* (displayed as ellipses) to the right of the field. When you click on the List Lamp or press CTRL +L a list of valid values displays. You select the valid data and the value is inserted in the current field. If a list contains more than 100 values, it will display a Find window to assist you in narrowing the search. *For detailed information refer on LOV fields, to topic "Working with LOV fields"*

Field Type	Description
Date fields	Date fields have a calendar LOV which displays a calendar window for selecting the date and time. An advantage of using the calendar window is that the system will populate the date field with the values in an accepted format. *For detailed information, refer to topic "Working with Date Fields".*
Key flexfields	A key flexfield is a field made up of segments, where each segment has both a value and a meaning. For example, an Accounting flexfield can be composed of segments that represent Company, Department, and Account. The segments are delimited by a segment separator (usually a "." or "_").
Descriptive flexfields 	Descriptive flexfields are used to capture additional information that is important and unique to our business. A descriptive flexfield appears in a block as a two character, unnamed field enclosed in brackets. When you click on a descriptive flexfield, a new window opens displaying additional fields.

Working with LOV Fields

Many of the fields on the forms are *List-of-Value* (LOV) fields that reference a list of values that can be used to populate a particular field. To determine if an LOV exists, place the cursor in the field and the LOV icon appears at the right side of the field. The “List of Values” message also appears on the status line at the bottom of the screen.



When you click on the LOV icon or press C**TRL +L**, the values appear in a separate window. You choose the appropriate value from the list then click **OK** to insert the value in the field. For lists that contain more than 100 values, it will display a window with a Find function similar to the one shown below.

You can narrow your search by entering specific search criteria. To view the entire list, enter a percent sign (%) in the Find field and click **OK**. To narrow the search, use wildcards described in the table below.

Wildcard	Function
% (percent sign)	Match one or more characters preceding or following the placement of the %. For example, %white% finds all records containing "white" anywhere in the text.
_ (underscore)	Match any single character. For example %000_6% finds all records where there are any numbers in front of "000", then one number after the "000", and has a "6" in it after that number. It would find numbers "00006259", “00016089” etc.

.

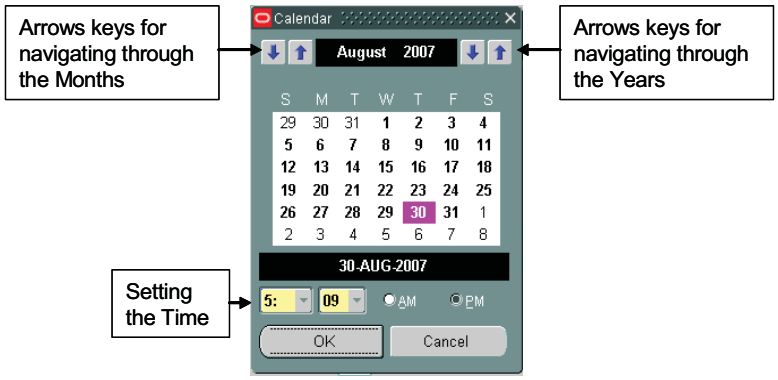
TIP: To quickly select the appropriate value for a field, you can type in the first few letters and press the Tab key. If there is only one matching value, the field will automatically populate with that value. If there is more than one possible value, a list of those values will display.

You can also press CTRL+L to display a List of Values.

▶ To enter data in LOV fields:

1. Place the cursor in the field.
2. Click the **LOV** icon [...] or press **CTRL +L**.

   A list of values is displaye, or, if the list contains more than 100 values the Find window displays..
3. Select the value from the list of values window or, if a Find window displays, narrow the search using wildcards and select the value from the list of values displayed in the Find window.



Working with Date Fields

You can enter a value directly into a date field using the DD-MON-YYYY format (i.e. 08-AUG-2007). When entering the date directly, always enter the complete date. You can also enter the date using the Calendar window. An advantage of using the Calendar window is that the system will populate the date field with the values in an accepted format.

To enter a date using the Calendar window:

1. Place the cursor in a valid date field.
2. Click on the Calendar LOV icon to display the Calendar window. *The Calendar window displays as shown below.*

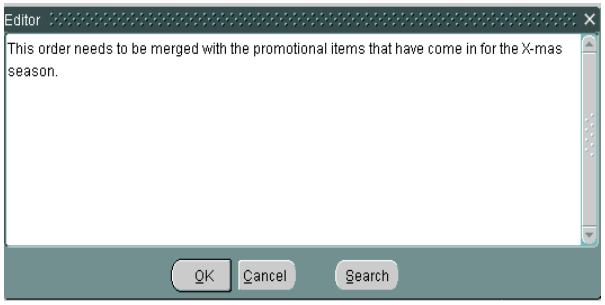
3. Select the date on the calendar by clicking on a numeric date and click **OK** to accept the selected date and to close the calendar window.

   To display the next or previous month, click on the up arrow or down arrow buttons in the upper left corner of the window. To display the next or previous year, click on the up arrow or down arrow button in the upper right corner of the window.

NOTE: If the field supports time, the Calendar window contains time options. After specifying the date, you select hours from the hours field and minutes from the minutes field. Next, you select the AM or PM option button. Finally, you select the OK button to apply the time. You can close the Calendar window by selecting the Cancel button.

Invoking an Editor for a Field

You can display an Editor window to view, enter, or update the entire contents of a text field. The Editor window is especially useful for editing scrollable text fields. A *scrollable text field* is a field whose actual width is longer than its display width, and whose content you can view by scrolling through the field. The Editor window also provides a search functionality which is great for searching text that needs to be modified.



Comments Field

To invoke the Editor:

1. Place your cursor in the text field.
2. From the **Edit** menu, choose **Edit Field**
   or

   Click on the Edit Field icon  located on the toolbar.
   The Editor Window displays as shown below.

3. Enter a new value or edit the existing value in the Editor window.
4. Click **OK** to close the window and to insert the value in the field.

NOTE: If the current field is a display only field, then the Editor window appears in a display only mode.

Using the Menu Bar

The menu bar on the E-Biz main window is always present below the title bar. You use the items on the pull-down menu bar to navigate within a form, to edit or retrieve data, or to perform various other functions displaying the Navigator window. The following table provides a description of the items on the Menu Bar.

Menu Item	Description
File	Enables you to perform various actions with the form and other processes. For example, navigate to a window, save or export data in a window, place documents on the navigator, change your responsibility, or exit the application.
Edit	Enables you to manipulate the records and values in a form. It also allows you to change preferences, such as password.
View	Enables you to view information by using the Find and Query functions as well as display the Navigator window.
Folder	Enables you to personalize the presentation of data within a form by using a folder definition. **Access to the folder menu will be limited to specific user responsibilities.**
Tools	Provides options specific to a form. It is a special menu that will display different options based on the form displayed on your screen.
Window	Enables you to display the windows as cascaded or tiles. It also displays a list of open window titles in the order they are stacked.
Help	Enables you to access help for the current window, as well as providing additional help and other information

In addition to the pull-down menu, on some forms you can also access the following menu bar items by right mouse clicking on an item:

- Cut
- Copy
- Paste
- Folder Menu
- Help

File Menu

The **File** menu enables you to perform various actions with the form and other processes; a description of the items contained in the **File** menu are listed in the following table.

File Menu Item	Description
New	Creates a new record in the active form.
Open	Opens a record.
Save	Saves any pending changes in the current form.
Save and Proceed	Saves any pending changes and allows you to proceed with data entry.
Next Step	Signifies the completion of process step.
Export	Exports information from the current form to a web browser.
Place on Navigator	Saves document to the Navigator window for later access.
Log on as a Different User	Allows a different user to log on to E-Biz without quitting the applications.
Switch Responsibility	Allows the current user logged in to switch to another responsibility.
Print	Prints your current window.
Close Form	Closes all windows associated with the current form.
Exit Oracle Applications	Quits Oracle Applications.

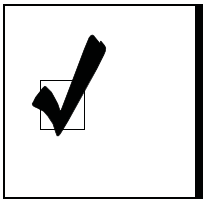
Edit Menu

The **Edit** menu enables you to manipulate the records and values in a form. A description of the items contained in the Edit menu also follow in a table.

Edit Menu Items	Description
Undo Typing	Enables you to revert to the last typing action done in a field.
Cut	Enables you to cut (remove) the selected text, or record, and place it on the clipboard.
Copy	Enables you to copy the selected text, record and place it on the clipboard.
Paste	Enables you to paste the contents from the clipboard to the position at which the insertion point is placed.
Duplicate	Duplicates data from the above field or record.
Clear	Clears data from a record, field, block, or form.
Delete	Removes data from the database when used with the Save command.
Select All	Selects all records.
Deselect All	Deselects all records, excluding the current record.
Edit Field	Opens the field editor window for quick viewing and data changing.
Preferences	Displays the Update Password window for changing your password.

View Menu

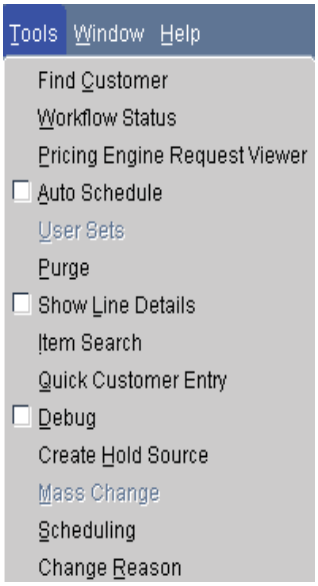
The **View** menu allows you to view information by using the Find and Query functions as well as display the Navigator window.



View Menu Items	Description
Show Navigator	Displays the Navigator Window.
Zoom	Invokes a custom defined zoom.
Find	Displays the Find Window used to retrieve records.
Find All	Enables you to find all records.
Query By Example	Allows you to Enter, Run, Cancel, Show Last Criteria, or Count Matching Records of a specific search.
Record	Shows First or Last record in a multi record view.
Translations	Translates data to a foreign language.
Attachments	Opens the Attachment Window where you can create, update, or view attachments.
Summary/Detail	Allows you to switch between the summary and detail views of the current record.
Requests	Opens the Find Request Window where you can view the status of your submitted requests (reports or actions) and submit a new request.

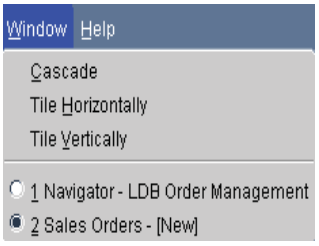
Folder Menu

The **Folder** menu enables you to personalize the presentation of data within a form by using a folder definition. You use a *folder definition* to modify the width, sequence, and prompts of the fields you want to display. Additional features of a folder definition include:



- Displaying only those fields you are interested in viewing.
- Displaying a subset of records based on your specific criteria.
- Automatically querying for a subset of records each time you open a specific folder.
- Keeping your folder customizations private or making them public for others to use.

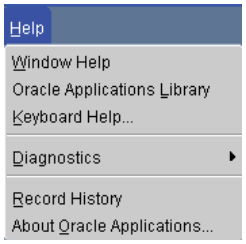
NOTE: Access to the Folder menu will be limited to specific user responsibilities.



Tools Menu

The **Tools** menu changes with every form that you enter. Some selections may appear in multiple Window's Tools menu, others may only appear in one specific Window's Tools Menu.

Window Menu



The **Window** menu enables you to display the windows as cascaded or tiled. It also displays a list of open window titles in the order they are stacked.

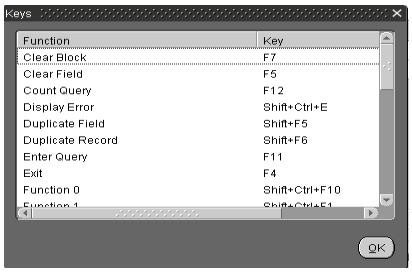
Window Menu Items	Description
Cascade	Displays any open window in a “cascaded”, or stair-stepped fashion.
Tile Horizontally	Displays open windows in a horizontally “Tiled” (non-overlapping) fashion.
Tile Vertically	Displays any open window in a vertically “Tiled” (non-overlapping) fashion.
1-2 (Title of Open Windows)	Displays a list of open windows in the order in which they are stacked.

Help Menu

The **Help** menu enables you to access help for the current window, as well as providing additional help and other information..

Help Menu Items	Description
Window Help	Displays help for the current window.
Oracle Applications Library	Displays a window that lists all available Oracle Applications help text.
Keyboard Help	Displays the current mapping of a specific functions and menu options.
Diagnostics	Brings up the Tools submenu.
Record History	Displays information on who created and updated the latest record.
About Oracle Applications	Displays information about the current window and application.

Keyboard Shortcuts



Keyboard shortcuts are a combination of keystrokes that performs the same function as a corresponding menu item. The table below provides a keyboard mapping for some of the functions:

Keyboard Shortcuts	Description
[F4]	Close Active Window
[F5]	Clear Field
[F6]	Clear Record
[F8]	Clear Form
[F11]	Enter Query
[Ctrl] + [F11]	Execute Query
[Ctrl] + [L]	List of Values
[Ctrl] + [S]	Save
[F12]	Count Query
[Shift] + [Crl] + [E]	Display Error

▶ **To display a list of keyboard shortcuts:**

1. From the **Help** menu, choose **Keyboard Help**.
   A window as illustrated below opens displaying keyboard shortcuts.

2. When you are finished scrolling through the list, click **OK** and close the window.

Toolbar

The toolbar replicates many of the commonly used menu items so that their actions can be invoked quickly without having to search for them in the menu bar. Depending on the context of the current field or window, a toolbar icon can be enabled or disabled, represented by the tool tip being greyed out or coloured. To display a tool tip, place the mouse pointer over the icon.

Icon	Title	Description
	New	Creates a new record in the active form.
	Find	Displays the Find window which allows you to search for specific records.
	Show Navigator	Displays the Navigator Window. You use this window to navigate to a form.
	Save	Saves any pending changes in the active form.
	Next Step	Updates the Process workflow in the Navigator by advancing to the next step in the process.
	Switch Responsibility	Allows users that have more than one responsibility to switch between them.
	Print	Prints the current screen that the cursor is in. In some cases it may print a report associated with the current data.
	Close Form	Closes all windows associated with the active form.
	Cut	Removes the current selection and places it on the clipboard.
	Copy	Copies the current selection to the clipboard.

Icon	Title	Description
	Paste	Places the text from the clipboard in the selected field\area.
	Clear Record	Clears all data pertaining to the current record in the window.
	Delete	Deletes the current record from the database.
	Edit Field	Opens the Editor window for the current field.
	Zoom	Invokes a custom-defined Zoom (drilldown behaviour).
	Translation (not available)	Opens the Translations window. This feature is used if a company is multi-national and has more than one language installed on the database.
	Attachments	Opens the Attachments window. The window is used to attach data with the current form. If one or more attachments already exist, the icon changes to a paper clip on a piece of paper. 
	Folder Tool	Displays the Folder Tool Palette. The tools include some icons that can be used to perform the functions of frequently used Folder menu options such as Open Folder, Save Folder, and Create New Folder.
	Window Help	Displays general help for the active window.

Navigating in E-Biz

You have several ways to navigate in E-Biz to perform your tasks.You can navigate within a window and to another form

Navigating Within a Window

To navigate within a window, you can move the cursor with your mouse or enter an appropriate keyboard shortcut. The table below provides a list of keyboard shortcuts for navigating within a window.

Function	Keyboard Shortcut
Go to Previous Record	[Up Arrow]
Go to Next Record	[Down Arrow]
Go to Previous Field	[Shift] + [Tab]
Go to Next Field	[Tab]

Navigating to Another Form

You can only open another form the Navigator window. The Navigator window is always available during a session.

▶ **To navigate to another form:**

1. Click on the Show Navigator icon on the Toolbar.
2. Select the form from the list and choose **OK**.

Saving Your Work

When you save your work (saving a form you have been working on, for example), E-Biz updates the underlying database with the work you have done and then informs you that the transaction is complete. Saving your work is sometimes referred to as saving a change or a transaction.

E-Biz always validates your work prior to performing the save. If any of the data you enter is invalid or missing, E-Biz provides you with a message describing the problem, and does *not* perform the save.

▶ **To save your work**:

1. From the **File** menu, choose **Save** or click on the  icon from the toolbar or press Ctrl + S.

CTZ-2012-00087-A-12-12-2012-00087

Closing a Form

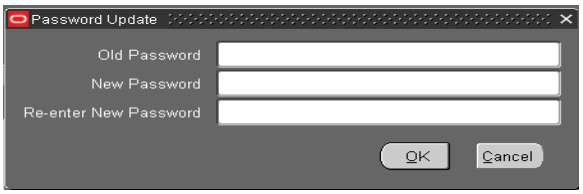
When you are finished working with a form, you should always close the form. This frees up memory on your computer.

To close a form:

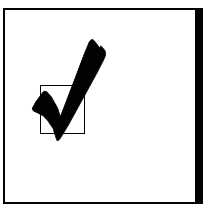
1. From the **File** menu, choose **Close Form**, or close the window by clicking on the close button located in the upper right hand corner of the window.

Changing Your Password

Your WOM password is set to expire every 90 days. However, you can change your password at any time. When changing your password, keep in mind the following guidelines:



- Passwords must be at least 7 characters and must include at least 1 number and 1 special character.
- Cannot have repeating characters - ie 11, aa etc.
- Username and Password cannot match
- Passwords are case-sensitive. This means that the password **Johnson1** is not the same as the password **JOHNSON1**.
- System maintains a password history; consequently, you cannot use the same password for at least the next 11 changes.



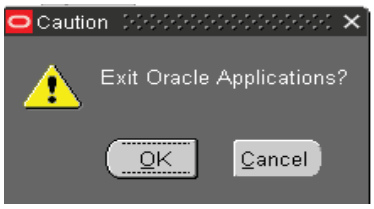
▶ To Change Your Password:

1. From the **Edit** menu, select **Preferences** and then select **Change Password**.

   The Password Update window displays as shown below

2. In **Old Password**, enter your old password.
3. In **New Password**, enter your new password.
4. In **Re-enter New Password**, re-enter your new password.
5. Click **OK.**
   The new password takes effect immediately.

NOTE: If the second entry of the new password does not match the first entry, Oracle Applications asks you to re-enter the new password again, until both entries match.



Logging Off & Exiting E-Biz

When you complete your work, you can choose to save or discard any unsaved work in your form(s) before exiting E-Biz.

To exit E-Biz:

1. From the **File** menu, select **Exit Oracle Applications**.
   If there are no changes to save, Oracle Applications asks you to confirm your exit as shown below.

2. Click **OK** to Exit.
3. Close all remaining windows until your return to the desktop.

NOTE: If there are recent changes that you have not saved, a window appears asking you to save the changes. Choose Save to save the changes before exiting. Choose Discard to exit without saving any changes. Choose Cancel to close this window and cancel the exit function. You will be asked once for each form that is currently open and has changes pending.

Session Time-Out

For security purposes, a session time-out feature has been activated. If your session in E-Biz is left idle for 20 minutes, the time-out feature will automatically sign you out. You will need to log on to continue working in E-Biz.

Lesson 2-4: Written Exercise:

1. How do you change responsibilities without exiting the application?

2. Where on the desktop can you view all active windows while running E-Biz?

3. Which Navigator button fully expands your selection in the Navigator window?

4. List the three different ways that you can save a record/form.

5. Where do you check to see who has created and updated the latest record?

Lesson 2-5: Log off and Log back on to E-Biz

1. Log off E-Biz and log back on with the username provided by the facilitator.
2. From the **LDB PO Liq Purch Mgr Spvr** responsibility, open the **Purchase Order Summary** form.

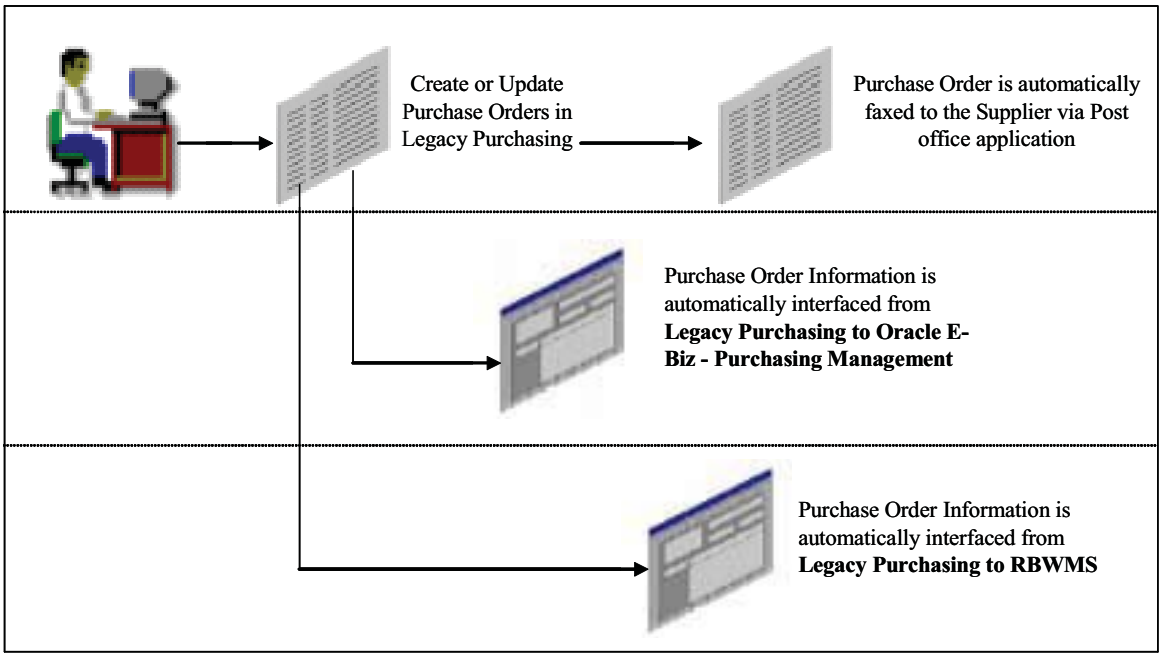
Module 3

Purchase Orders and Inventory Information

Module Description

In this module you will learn how to find and display purchase orders, as well as search and view receiving transaction information.

Module Objectives



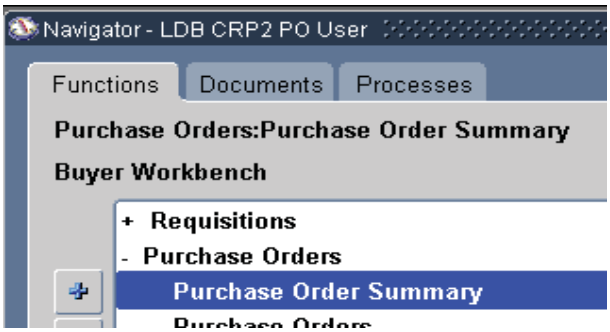
At the end of this module, you will be able to:

- find and view purchase orders
- find and view receiving transaction information.

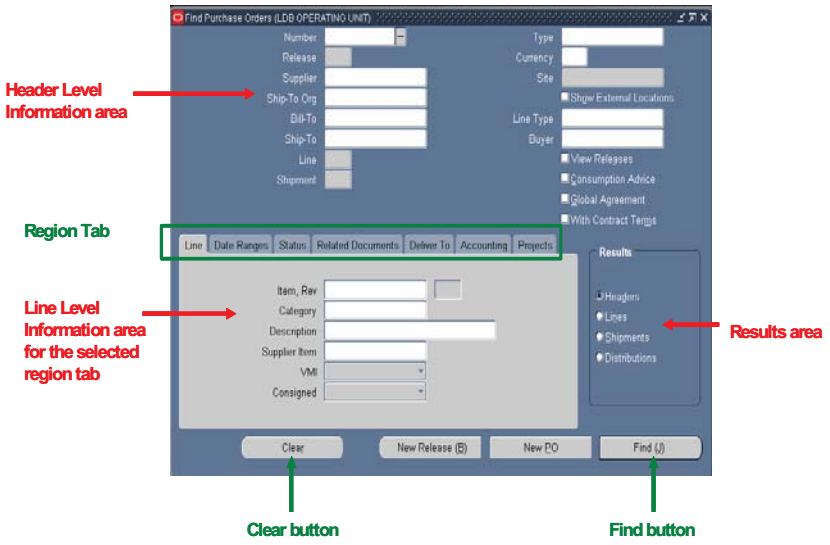
Creating\Updating POs

The legacy Purchasing system will continue to support all forecasting and purchasing functions. Purchase orders will be created in the legacy Purchasing System and then will be auto-faxed to the supplier via the Post Office Application. At the same time the purchase order information will be interfaced to the E-Biz Purchasing module for receipting and payment process.

If the information is successfully interfaced to the E-Biz Purchasing module, it will then be interfaced to RBWMS for the receipting process. However, if the interface is unsuccessful, a notification alert will be sent to the person responsible for investigating the interface process.



Purchase orders will be imported with an Approved Status and Standard Purchase Order Type. Payment terms will be populated from the Supplier Master. Once the purchase order has been interfaced to the E-Biz Purchasing module, you will be able to view the information through the Purchase Order Summary. *Refer to Purchase Order Summary function*.

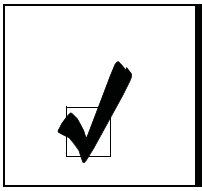


NOTE: RAC RPOs (import beers RPO Type 25 and domestic beers Type 27 are beers that are handled through Container World. RAC RPOs will be created in legacy Purchasing/LIP and handled separately to interface with E-Biz - Accounts Payable for payment process.

Finding Purchase Orders

You use the Purchase Order Summary function to locate and view existing purchase order information.

Selecting this function will display the Find Purchase Orders window, as shown below.



As shown above, the Find Purchase Orders window is divided into the following three key areas:

- Header information
- Line information
- Results

The Find Purchase Orders window allows you to perform complex queries by entering and combining search criteria in the header information area or in any of the following line information region tabs:

- Line
- Date Ranges
- Status
- Related Documents
- Deliver To
- Accounting
- Projects

You use the Results area to select Header, Lines, Shipments or Distribution Level views of the search results.

NOTE: Depending on the search criteria specified, all result options may not be available.

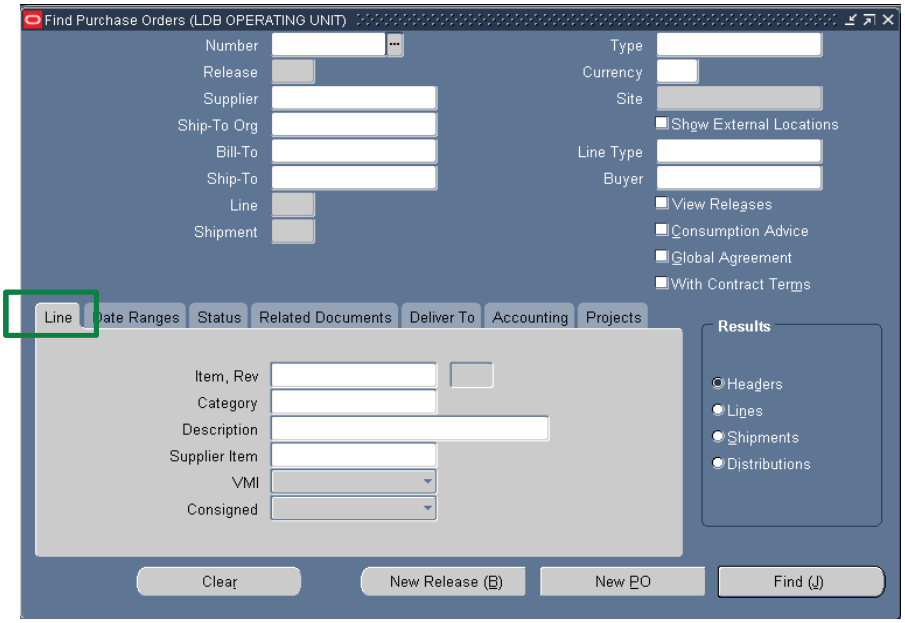
Entering Search Criteria

You can enter search criteria in any field or combination of fields located in the header information area or line information area.

Header Information Area

In most instances, you will enter the purchase order number in the header information area and click **Find** to locate a purchase order. However, you can enter criteria in any of the header information area fields. The most common fields used in search criteria are Number, Supplier, Ship-To Org and Buyer.

Field Descriptions & Usage
Number You enter the PO\RPO\EPO Number or select a PO\RPOEPO Number from a list of values (LOV). 1. In **Number**, type the PO\RPO\EPO Number. **TIP:** If you are not sure of the PO\RPO\EPO Number, you can select it from a List of Valid Values. Here's how: 1. In **Number**, click on the LOV icon  . *The Find Purchase Orders Window displays.* 2. In **Find**, enter % (percent sign) and press **Enter**. (You can narrow the search by using wildcards and partial PO\RPO\EPO Numbers. For example, %506%.) *A list of valid PO\RPO\EPO Numbers will appear.* 3. From **list of values**, select the **PO Number** and press **Enter**. *The PO Number will appear in the **Number** field.*
Supplier Supplier Name. Use the LOV field to search for the Supplier Name.
Ship-To Org Receiving DC. Use the LOV field to search for the Receiving DC (VDC or KDC).
Buyer Name of the Buyer. The format is Last Name, First Name. If the PO\RPO\EPO was auto-generated by the system, the name of the buyer will indicate BPEL.

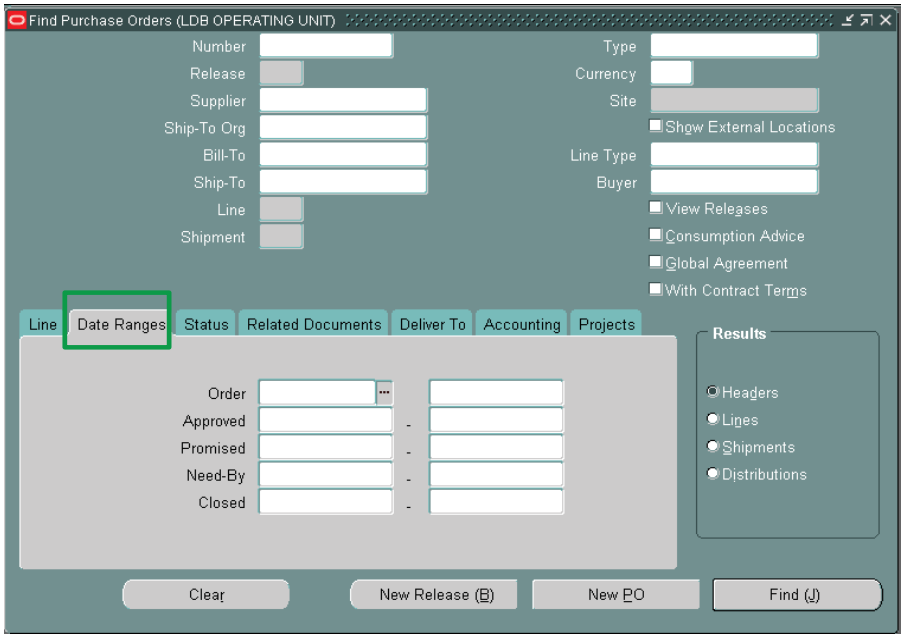


Line Information Area

The line information area allows you to enter information in any of the region tab fields. The most common region tabs used for entering search criteria are the Line, Date Ranges and Status tabs.

Line Tab

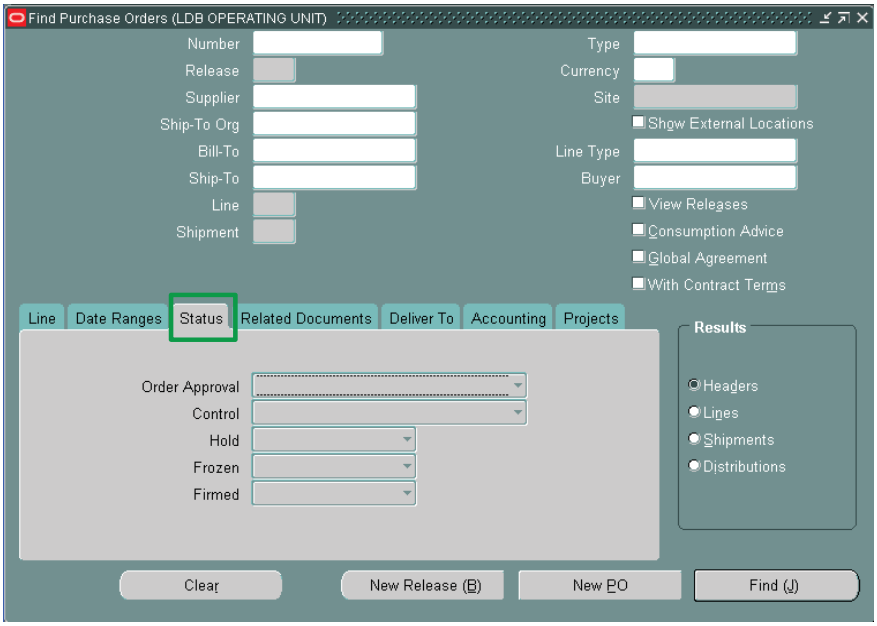
In the Line tab region, you can enter the following search criteria:



- Item, Rev = SKU
- Category = Six-segment structure
- Description = Item Description

Date Ranges Tab

In the Date Ranges tab, you can enter search criteria in any of the five possible date ranges:



- Order
- Approved
- Promised
- Need By
- Closed

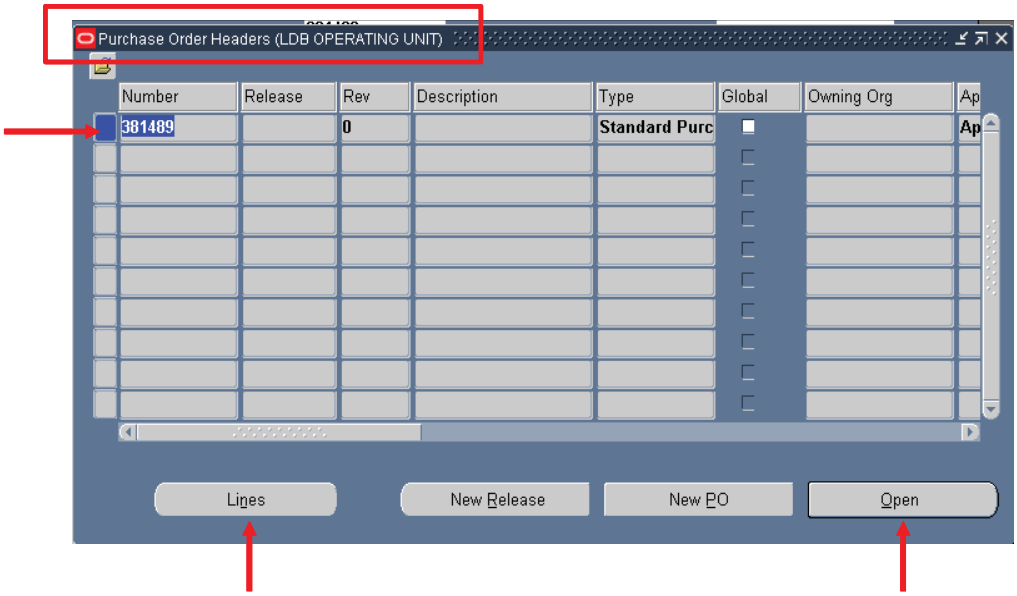
Status Tab

In the Status tab, you can select the following search criteria:

- **Order Approval Status** (Approved, In Process, Incomplete, Pre-Approved, Rejected, or Requires Reapproval).
- **Control Status** - (Open, Closed, Finally Closed, Closed for Invoicing, Closed for Receiving, or Cancelled)
- *Hold Status (Yes or No) - not used.*
- *Frozen Status (Yes or No) - not used.*
- *Firmed Status (Yes or No) - not used.*

Results Area

You can accept the default selection in the results area or choose one of the following options:



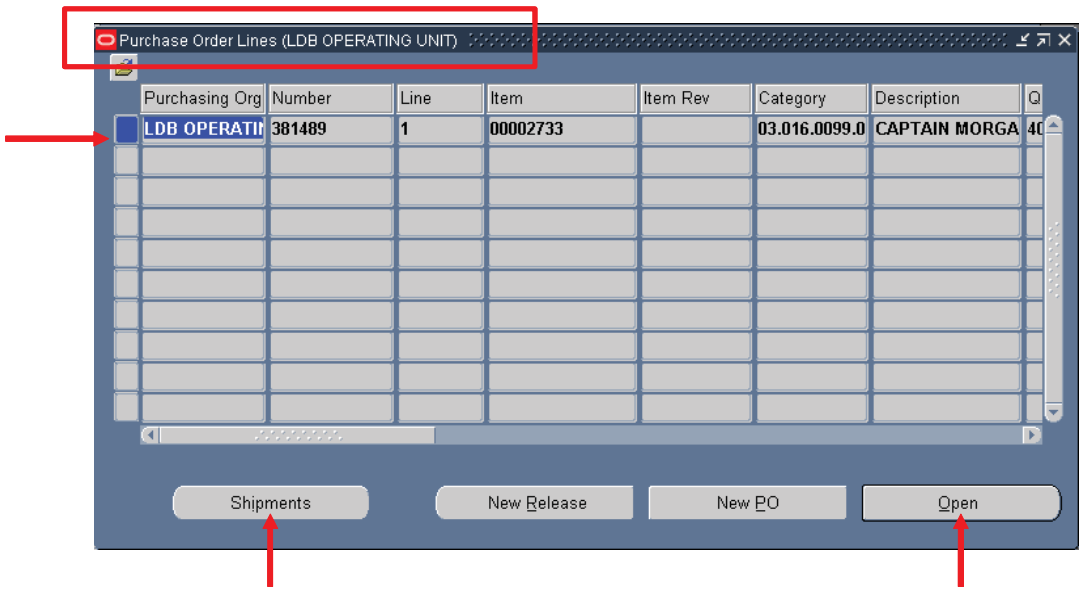
- **Header** - to view purchase order header information.
- **Lines** - to view purchase order line information.
- **Shipments** - to view purchase order shipment information.
- **Distributions** - To view purchase order distribution information.

Based on your results area selection, one of the following windows displays when you click the **Find** button.

Results: Header Information

You select the Results **Headers** option to:

- view purchase order header information.
- drill down to view purchase order line summary information by clicking the **Lines** button.
- Access other windows from the Tools and Inquire menus.

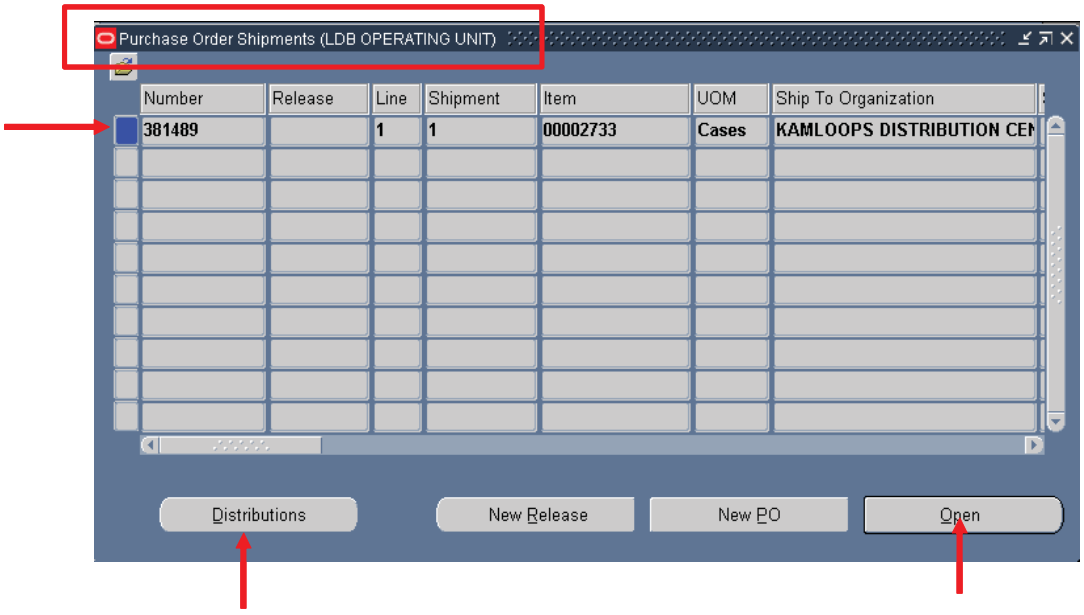


NOTE: You will not be able to Open the Purchase Order by clicking on the Open button. This functionality has been disabled to avoid updates to the Purchase Order.

Results: Lines Information

You select the Results **Lines** to:

- view purchase order line information.
- drill down to view purchase order shipment summary information by clicking the **Shipments** button.
- Access other windows from the Tools and Inquire menus

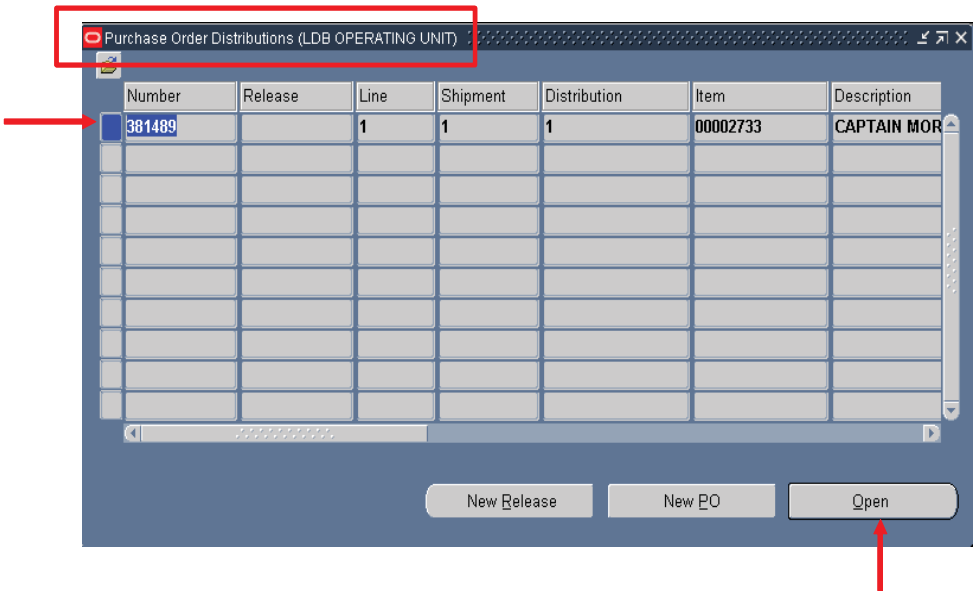


NOTE: You will not be able to Open the Purchase Order by clicking on the Open button. This functionality has been disabled to avoid updates to the Purchase Order.

Results: Shipments Information

You select the Results **Shipments** option to:

- view purchase order shipment information.
- drill down to view purchase order distribution summary information by clicking the **Shipments** button.
- access other windows from the Tools and Inquire menus.

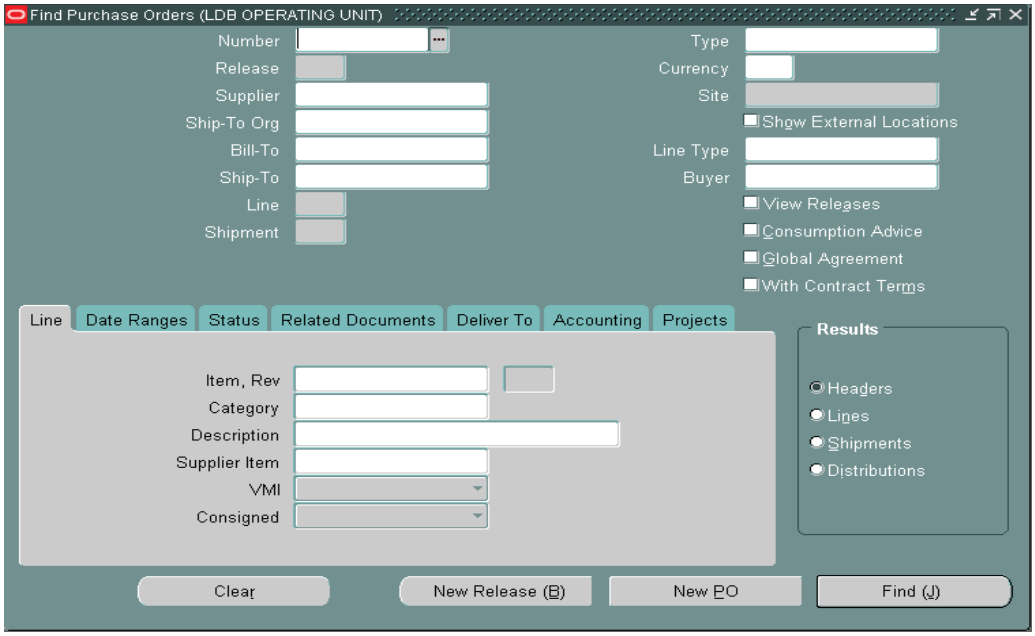


NOTE: You will not be able to Open the Purchase Order by clicking on the Open button. This functionality has been disabled to avoid updates to the Purchase Order.

Results: Distributions Information

You select Results **Distributions** to:

- view purchase order distribution information.
- access other windows from the Tools and Inquire menus.



NOTE: You will not be able to Open the Purchase Order by clicking on the Open button. This functionality has been disabled to avoid updates to the Purchase Order.

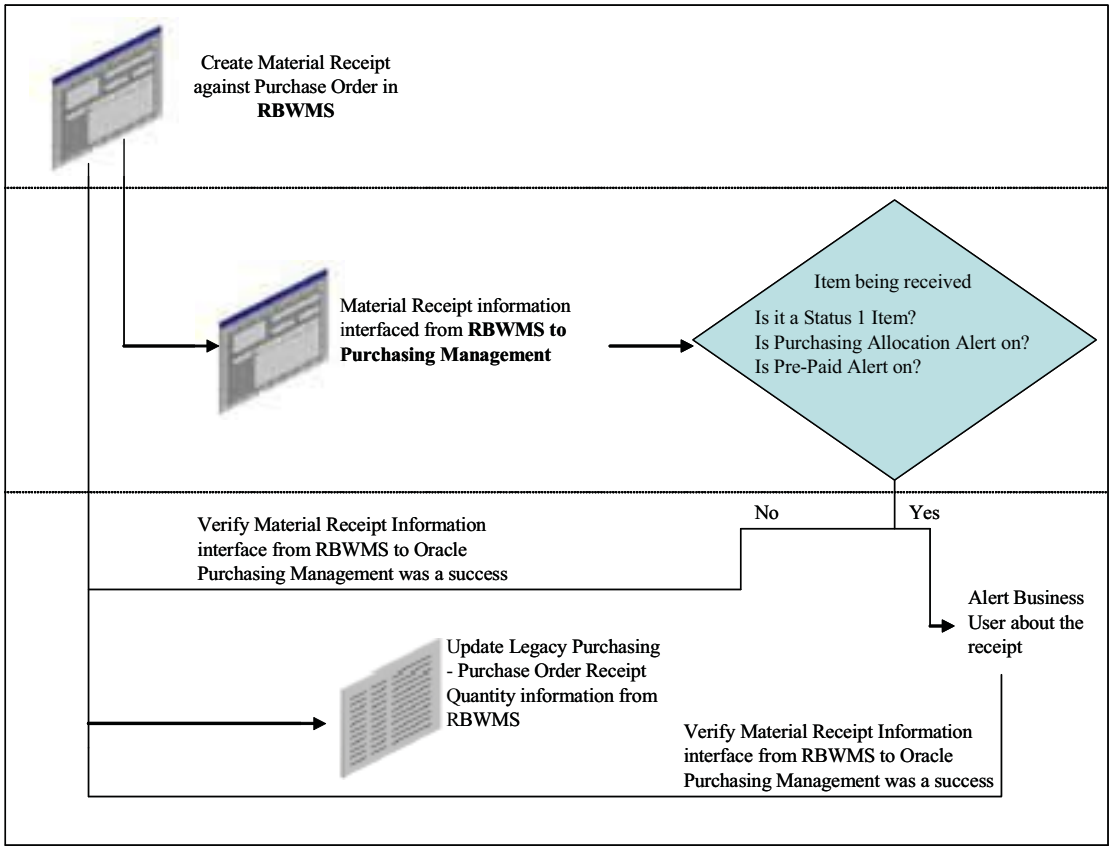
Finding a Purchase Order

1. From the Navigator window, select the Purchase Order Summary form.
   The Find Purchase Orders window displays as shown below.

2. Enter the search criteria in any field or combination of fields located in the header information area: Purchase Order, Supplier, Ship-To-Org or Buyer.
3. Optional - Enter criteria in the line information tabbed region: Line, Date Ranges or Status tab.
4. Select the Results option:

   Header - to view Purchase Order Header Information.
   Lines - to view Purchase Order Line Information.
   Shipments - to view Purchase Order Shipments information.
   Distributions - to view Purchase Order Distribution information.

5. Click **Find.**
   A search is initiated and the appropriate results window displays.



Lesson 3-1: Finding existing Purchase Orders.

As per handout lesson 3-1, provided by the Facilitator.

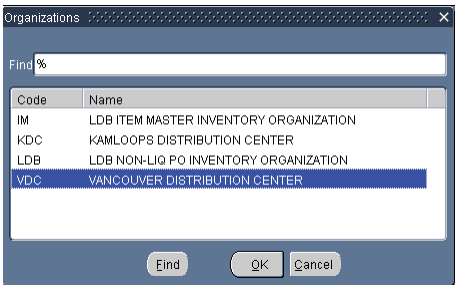
Creating PO Receipt in E-Biz & Legacy Purchasing

As shown below, RBWMS is used for receiving material against purchase orders. Once the material is received in RBWMS, it is then interfaced to the E-Biz modules (Purchasing Management, Inventory Management and Accounts Payable). Legacy Purchasing will be updated with receipt information only when update is successful in E-Biz. Business users will be alerted if material receipt is against:

- Pre-paid purchase order
- Status 1 item
- Item distribution method for both the customer group is set to 'XDOCK'

Once the material is receipted, the warehouse stock increases in both RBWMS and E-Biz Inventory Management. The PO is updated with received quantity information. *Refer to Page 1-X for information on using the Receiving Transaction Summary.*

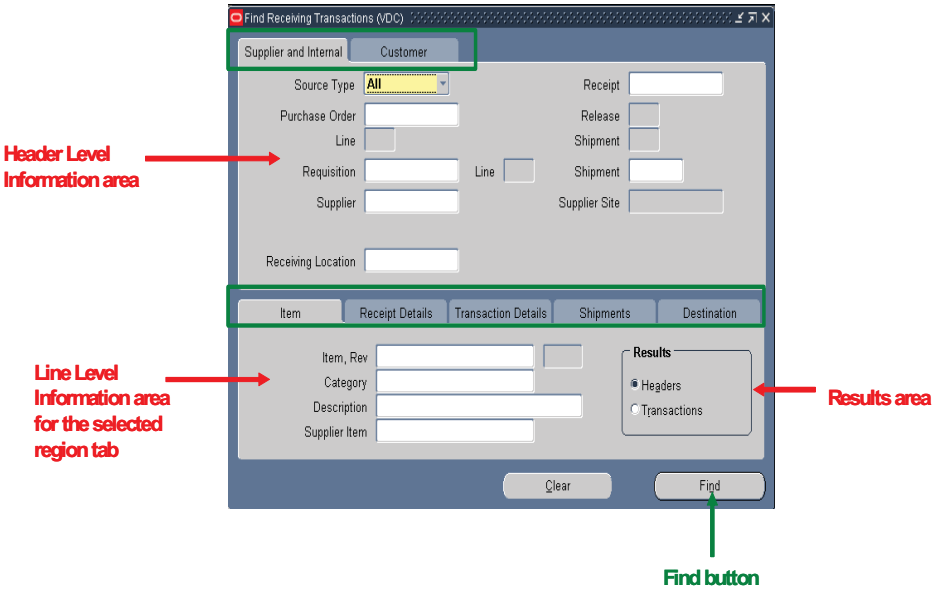
Viewing Receiving Transaction Information



You use the Receiving Transaction Summary to search for receiving transactions in a specific warehouse. Prior to accessing the Receiving Transaction Summary, you must select the appropriate warehouse in which to perform the search.

Select the Warehouse

Change Organization: Select the Warehouse



1. From the Navigator window, select Change Organization.
   The Change Organization window displays as shown below:

2. Select a warehouse (VDC or KDC) and click **OK**.

Receiving Transaction Summary

The Receiving Transaction Summary form is used to locate and view receiving transaction information. When you open the Receiving Transaction Summary form, the Find Receiving Transaction window with the Organization name enclosed in brackets next to the window title displays as shown below.

As shown above, the Find Receiving Transactions window is divided into the following three key areas:

- header information
- line information
- results

The Find Receiving Transactions window allows you to perform complex queries by entering and combining search criteria in the header area or in any of the following line information region tabs:

- Item
- Receipt Details
- Transaction Details
- Shipments
- Distribution

You use the Results area to select your view of the results: Headers or Transactions.

Entering Search Criteria

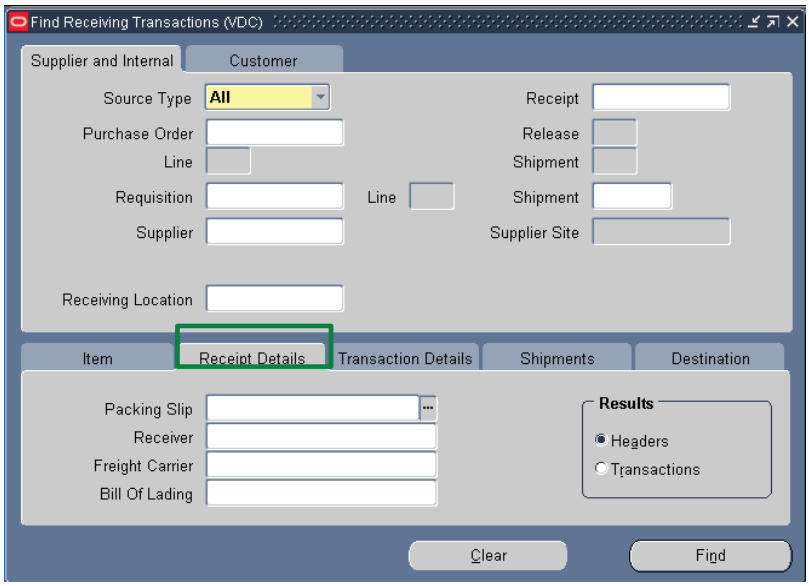
The Find Receiving Transactions window allows you to enter search criteria in any field or combination of fields located in the header area or line information area.

Header Level Information area

In most instances, you will enter the purchase order number in the header area and click **Find** to locate a purchase order. However, you can enter criteria in any of the header area fields. The most common fields used in search criteria are Number, Supplier, Ship-To Org and Buyer.

Field Descriptions & Usage
Purchase Order You enter the PO\RPO\EPO Number or select a PO\RPOEPO Number from a list of values (LOV). 1. In **Number**, type the PO\RPO\EPO Number. **TIP:** If you are not sure of the PO\RPO\EPO Number, you can select it from a List of Valid Values. Here's how: 1. In **Number**, click on the LOV icon  . *The Find Purchase Orders Window displays.* 2. In **Find**, enter % (percent sign) and press **Enter**. (You can narrow the search by using wildcards and partial PO\RPO\EPO Numbers. For example, %506%.) *A list of valid PO\RPO\EPO Numbers will appear.* 3. From **list of values**, select the **PO Number** and press **Enter**. *The PO Number will appear in the **Number** field.*
Supplier Supplier Name. Use the LOV field to search for the Supplier Name.
Ship-to Org Receiving DC. Use the LOV field to search for the DC.
Buyer Name of the Buyer. Format is Lase Name, First Name.

Line Level Information area



You use the line area allows you to enter information in any of the region tab fields. The most common region tabs used for entering search criteria are the Items, Receipt Details, Transaction Details, Shipments, and Distribution tabs.

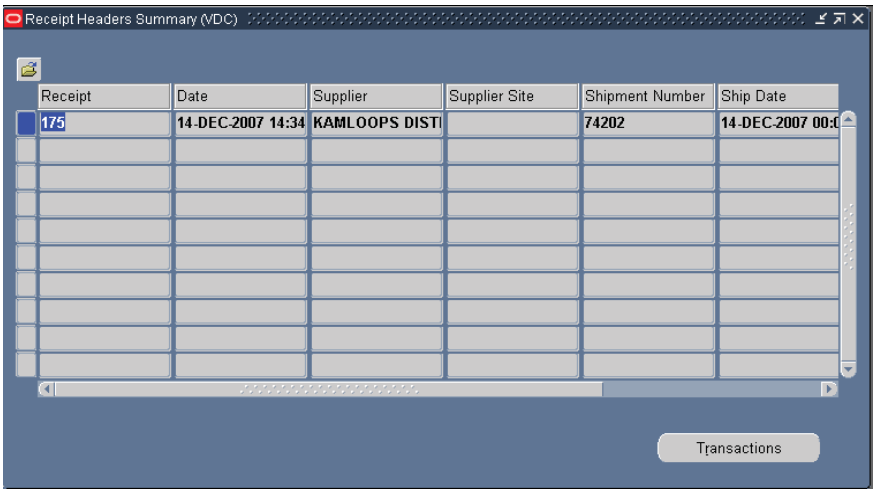
Item Tab

In the Item Tab region, you can enter the following search criteria:

- Item, Rev = SKU
- Category = Six-segment structure
- Description = Item description

Receipt Details

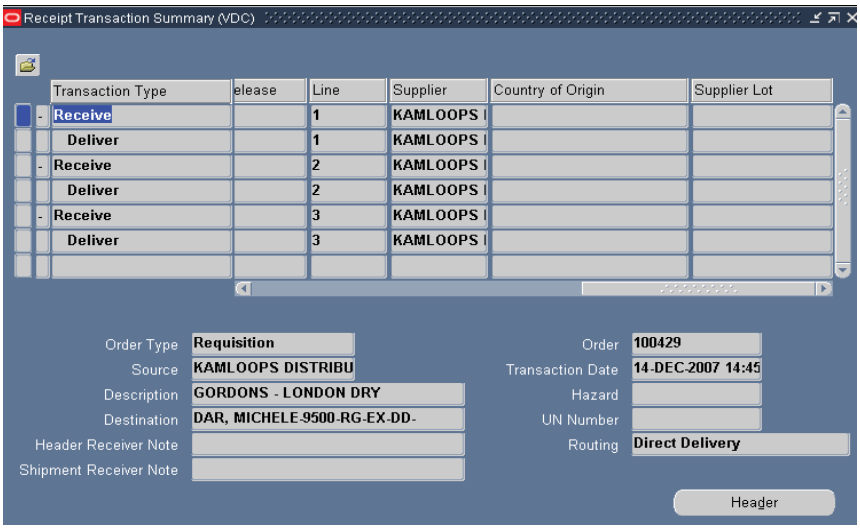
Results Area



Choose one of the following options in the Results area then click **Find**.

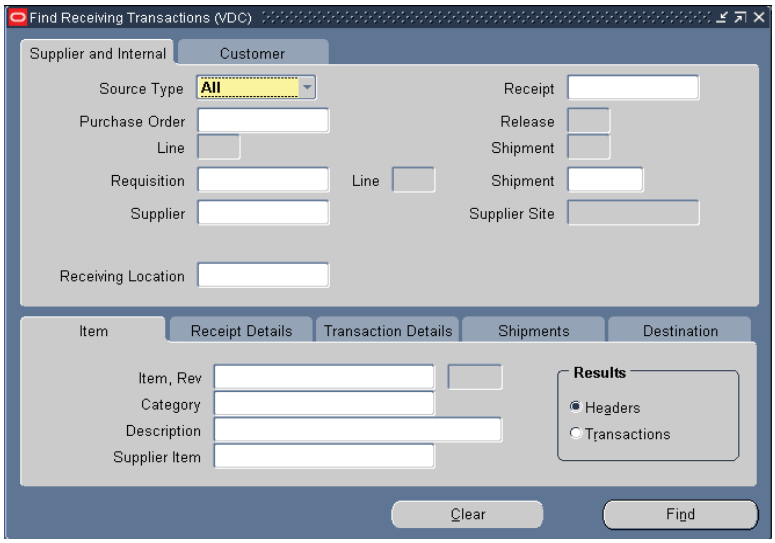
- **Headers**
- **Transactions**

Based on your selection, one of the following windows display. (Each window has a button that allows you to change your view from one selection to the other.)



Results: Headers

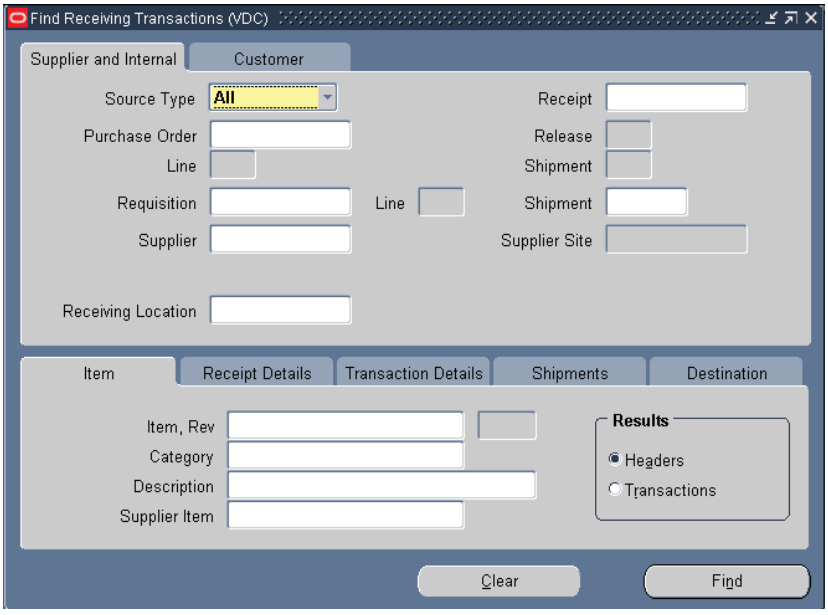
The window below displays when you select **Headers** in Results..



Results: Transactions

The window below displays when you select **Transactions** in Results.

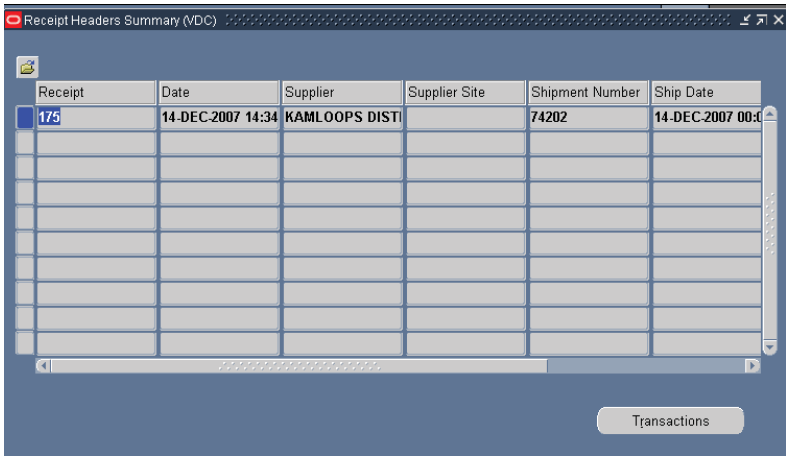
You use the Supplier and Internal tabbed region to search for purchasing documents.



.

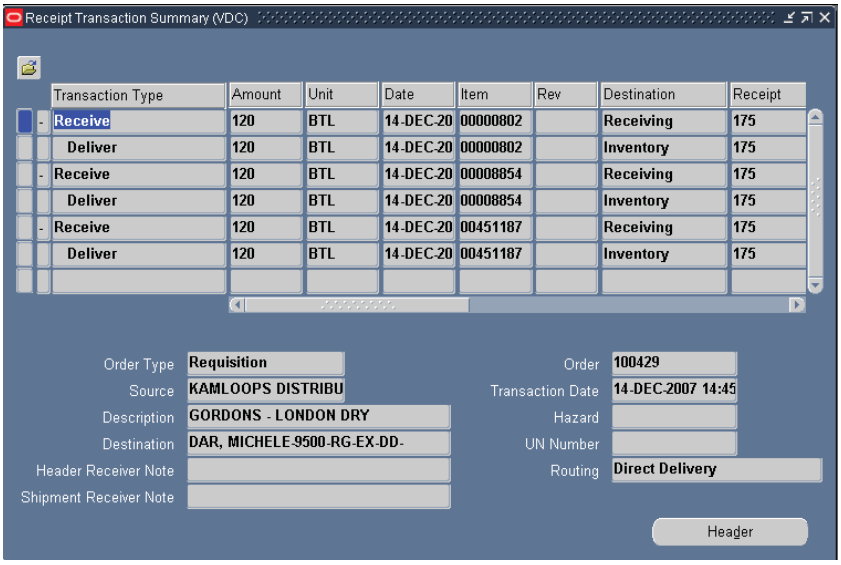
Receiving Transaction Summary

1. From the Navigator window, select the Receiving Transactions Summary form.
   The Find Receiving Transactions window displays as shown below. The name of the receiving organization will be enclosed in brackets.



2. **Source Type** field: select Internal, Supplier, or All.

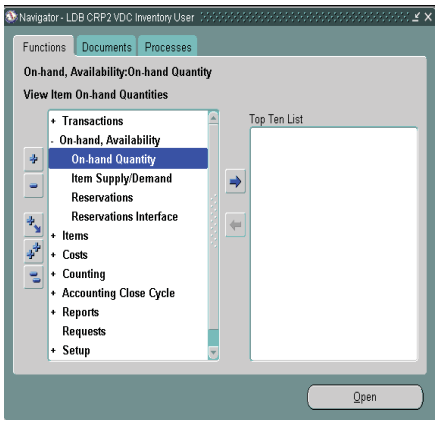
3. Specify any of the following, optional search criteria:
   - Receipt number
   - For Source Type Supplier, enter the purchase order number. For Source Type Internal, enter the requisition number.
   - Use the Lower tabbed regions to further define the search.
4. **Results**: choose Headers (to view the Receiving Headers Summary window) or Transactions (to view the Receiving Transaction Summary window).
5. Click **Find.**



Receiving Headers Summary

You use the Receiving Headers Summary window to:

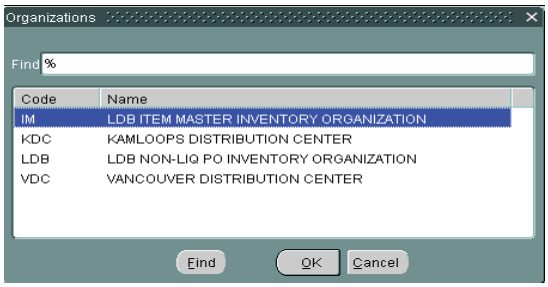
- view receipt header information
- access the Receiving Transaction Summary window to display all receiving transaction for the current header line.



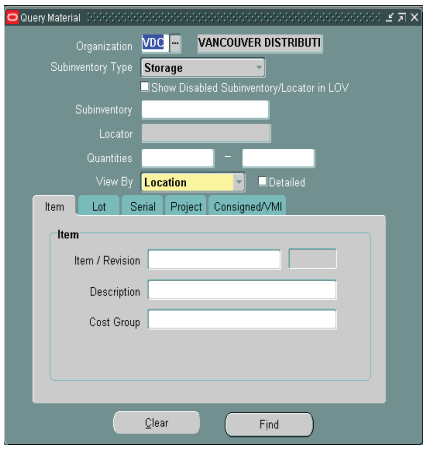
Optionally, click **Transactions** to view all the records pertaining to the current search criteria.

Viewing Inventory Information

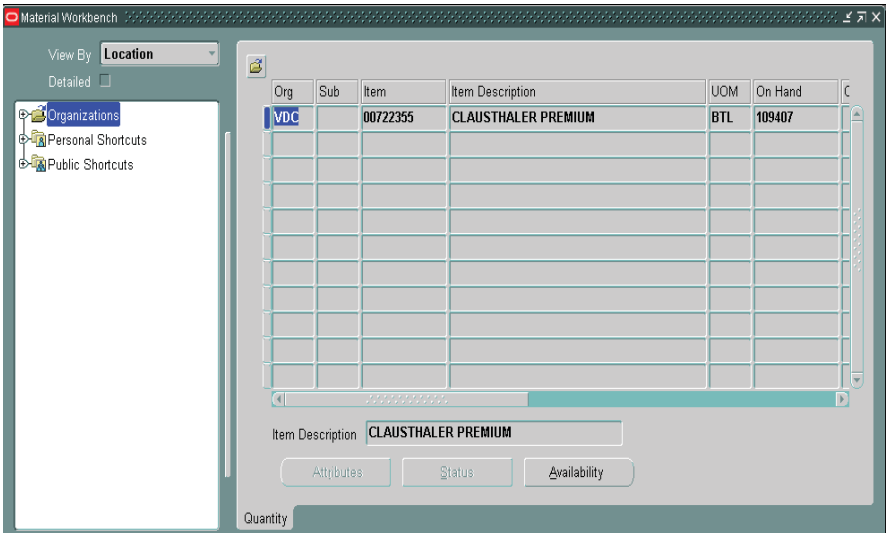
Oracle E-Biz Inventory Management allows you to view On-Hand quantity and availability of specific SKUs. In order to use this function, you must be in Inventory Management with the appropriate responsibility selected.



.

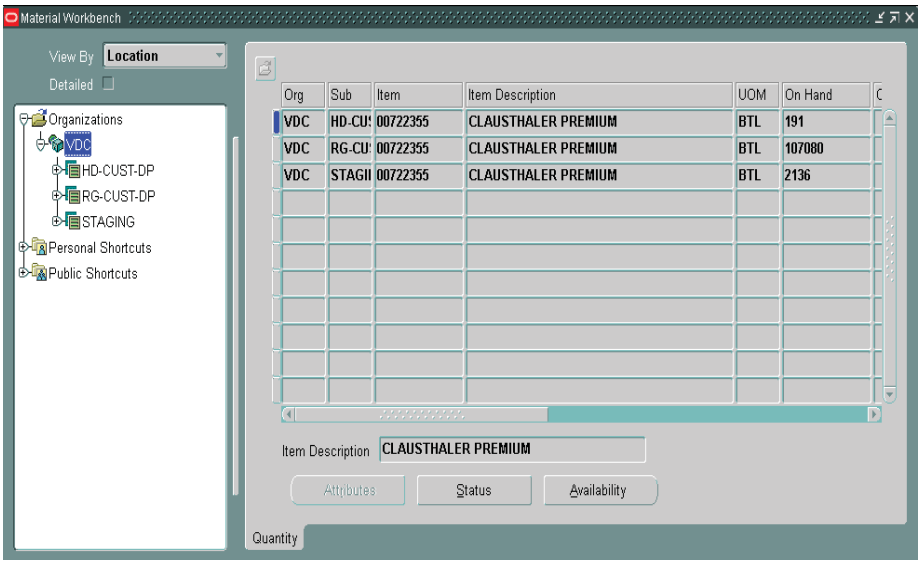


Viewing On-Hand Quantity and Availability:

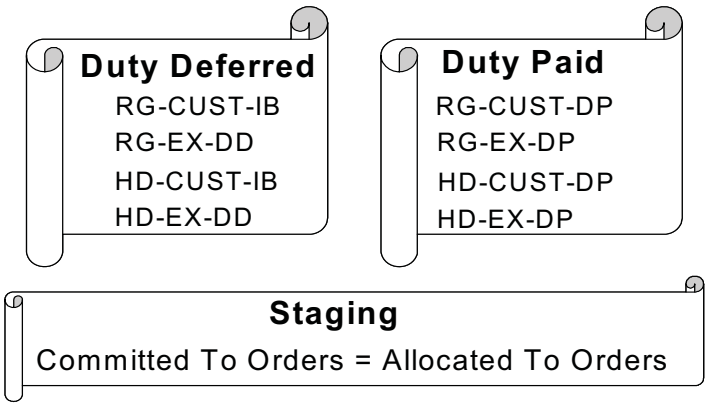


1. Navigate to the **On-Hand Availability - On-Hand Quantity.**
   The Organizations Finds window displays as shown below.

2. Select the Organization (ie VDC or KDC)
   The Query Material window displays as shown below:



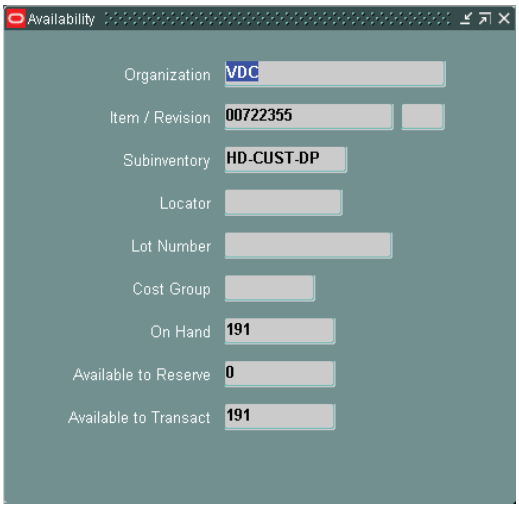
3. In the **Item Tab - Item/Revisions**, enter the SKU#.
4. Click **Find.**
   The Material Workbench window similar to the one shown below displays. In this example SKU# 722355 Clauthaler Premium was used.



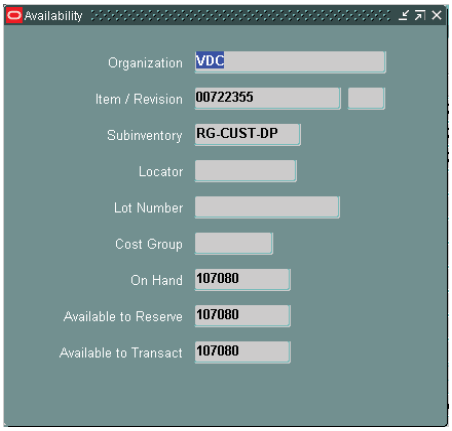
NOTE: For SKU# 72335, it displays the VDC's quantity as 109407 units on hand. All stock is viewed in bottle quantities. In the above scenario we have 109407 units on hand, however some of these units have already been reserved against sales orders etc.

To view more detailed information, you will need to expand the organization and VDC inventory to view further sublevels of the inventory buckets.

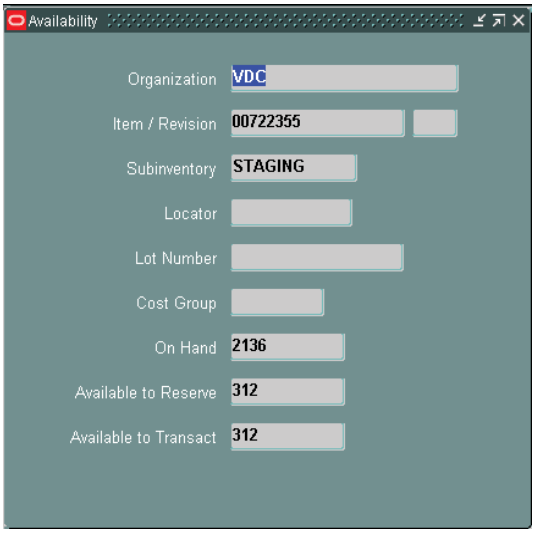
5. Click on the plus sign next to the Organizations
6. Click on the plus sign next to VDC.



As illustrated below, the SKU can be in Held, Regular or Staging buckets.



Now you will be able to view the on-hand quantity and availability for each of the expanded subinventory bucket.



7. To view availability, select the record and click on the Availability button. In this figure, there are 191 on hand and 0 Available to Reserve.This is because the HD Denotes the product is in Held Status

In this figure, there are 107080 On Hand and 107080 Available to Reserve, and 107080 Available to Transact. This is because the RG denotes the product is in the available status and we have 10780 available.

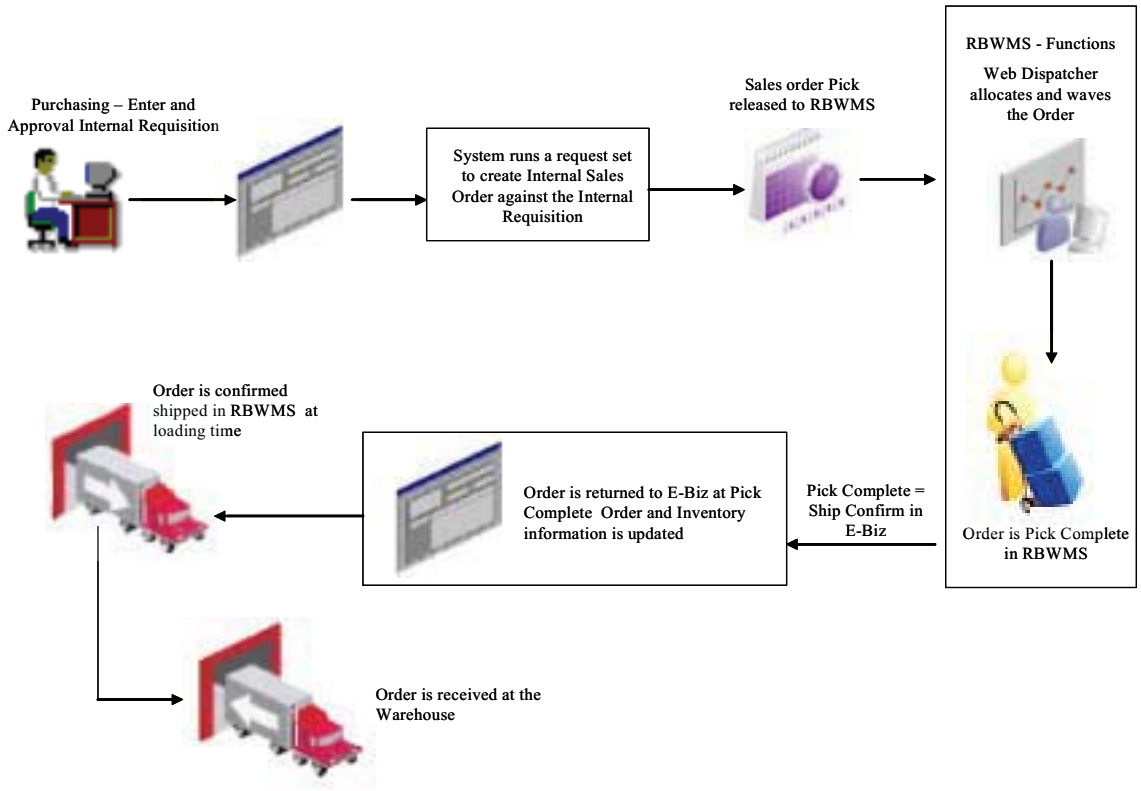
In this example we see the On Hand quantity at 2136 with the Availability to Reserve as 312. This is because the STAGING denotes the product is already taken by another customer or customers. However, in this example we can see that there are 312 available units. This is because an order was cancelled or the stock was no longer required by a customer.

Module 4

Inter-Warehouse Material Transfers

Module Description

In this module you will learn how to enter and approve an internal requisition for inter-warehouse material transfers.



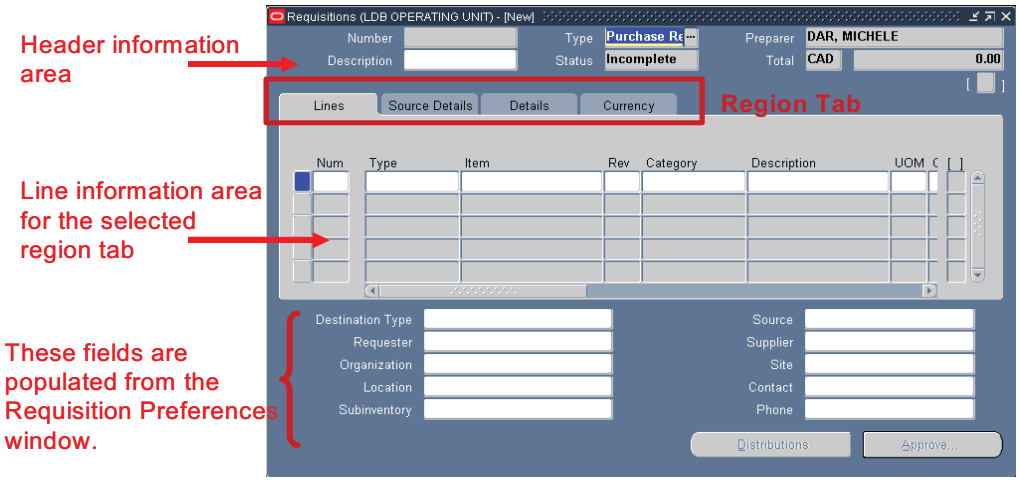
Module Objectives

After completing this module, you will be able to:

- enter and approve an internal requisition
- set requisition preferences.
- find an order and view the order status
- view the order shipping status

Inter-Warehouse Material Transfers

E-Biz provides you with the ability to transfer inventory between the Vancouver and Kamloops warehouses. This process is referred to as an Inter-Warehouse Material Transfer.



As illustrated above, your role is to enter and approve an internal requisition for the SKU(s) that need to be transferred. Once the internal requesting has been approved, it triggers the following activities:

- System runs a request set to create Internal Sales Order against the Internal Requisition.
- Internal Sales Orders are automatically pick released to RBWMS based on the Shipping Schedule.
- RBWMS will pick complete the order.
- The Internal Sales order is ship confirmed.
- Respective warehouse receives the order against the Internal Purchase Order.

Requisition Window

The requisition window shown below is used to enter and approve the internal requisition for transfer of product between the two warehouses. Prior to entering any information in the Requisition window, you must set the Requisition Preferences in the Requisition preferences window. Refer to topic “Requisition Preference Window” for more detail.

As shown above, the window is divided into the following three areas:

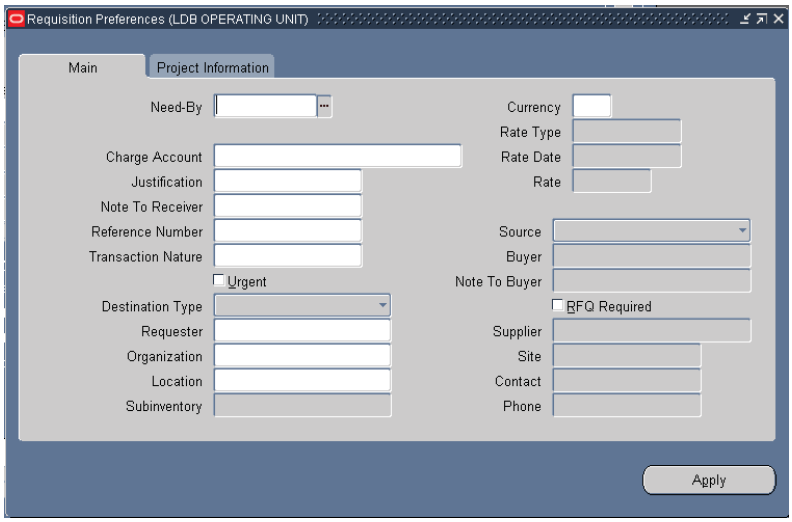
- Header area
- Line area
- Requisition preferences area.

Header Information Area

Type field: You must select Internal Requisition. The system populates the following header area fields:

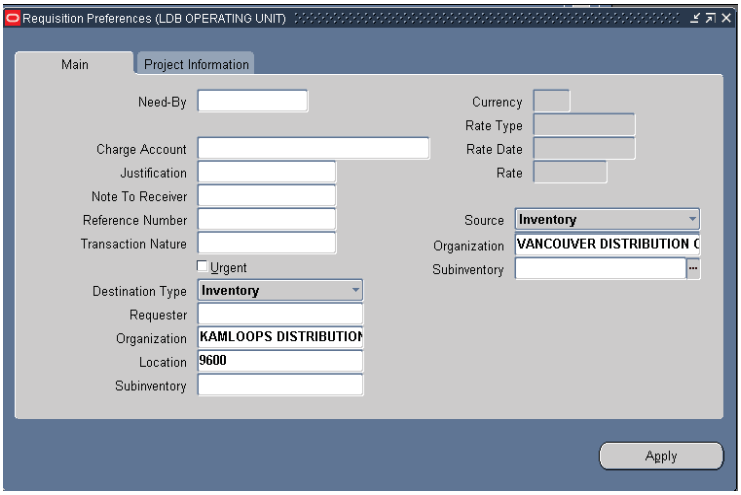
- **Preparer** - Your employee name from the application User window.
- **Status** - The requisition status will display one of the following:
  - **Incomplete** - the requisition is incomplete, or the preparer has not yet submitted the requisition to an approver.
  - **Rejected** - the approver rejected the requisition.
  - **Returned** - A buyer rejected the requisition.
  - **Approved** - The requisition has been approved.
- **Number** - will be populated by the system once the internal requisition has been saved.
- **Total** -

Line Information Area



In the line information area you must enter information in the following fields:

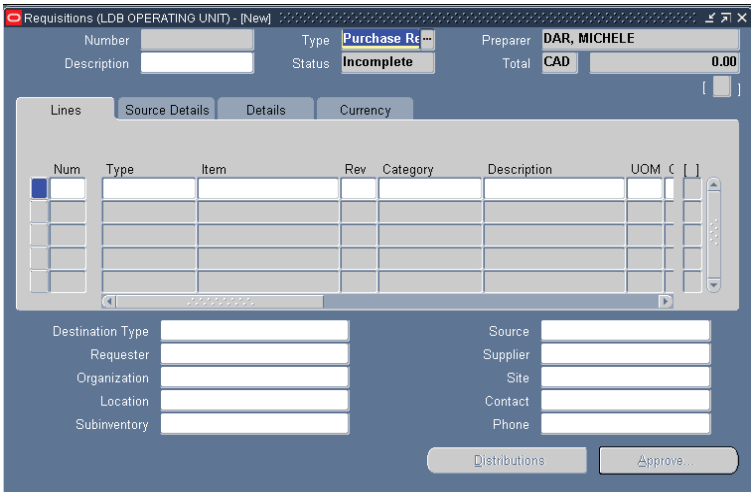
Item - Enter the SKU. The information in the Category, Description and UOM field will populate automatically. Line Num will default to 1 for the 1st record entered.



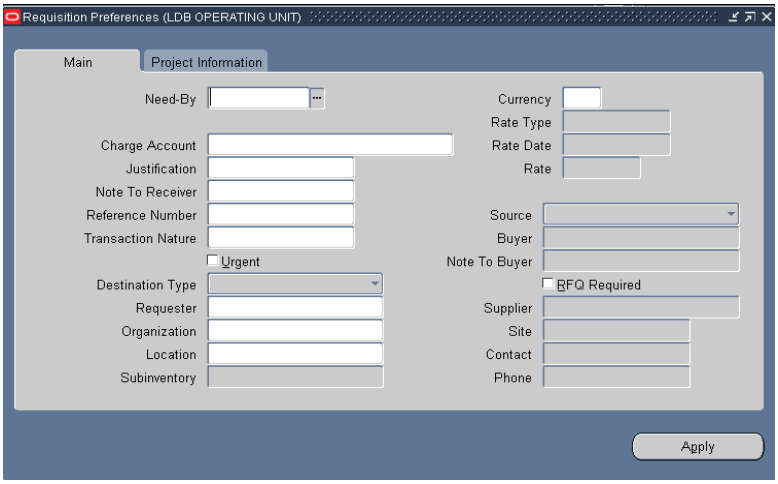
Quantity - Enter the quantity you want to transfer.

Requisition Preferences Window

Prior to entering any information in the Requisition window, you must set the Requisition Preferences in the Requisition preferences window shown below. Once you have the requisition window displayed on your screen, you will access the requisition preferences window by selecting preferences from the **Tools** menu. ***The preferences that you set and apply are applicable for your current session only.***

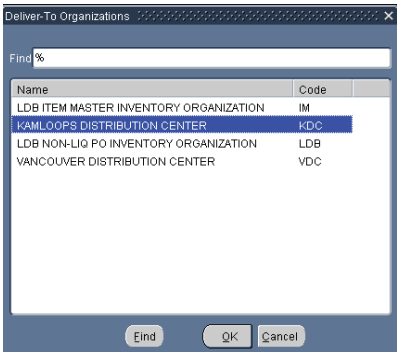


When you go back to the Requisition window, the preferences that you set will automatically populate in the bottom area of the Requisition window.

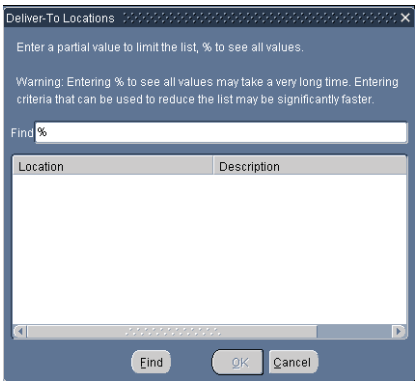


Entering and Approving an Internal Requisition

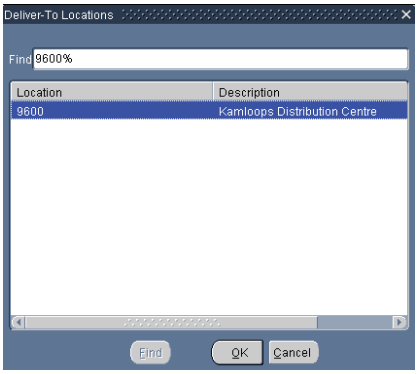
1. From the Navigator window, select the Requisitions form.
   The requisitions form window displays as shown below.



2. From **Tools** menu, select **Preferences**.
   The Requisition Preferences window displays as shown below. You use the requisition preferences main tab to enter requisition line defaults (including: destination type, organization, location, source and source organization.

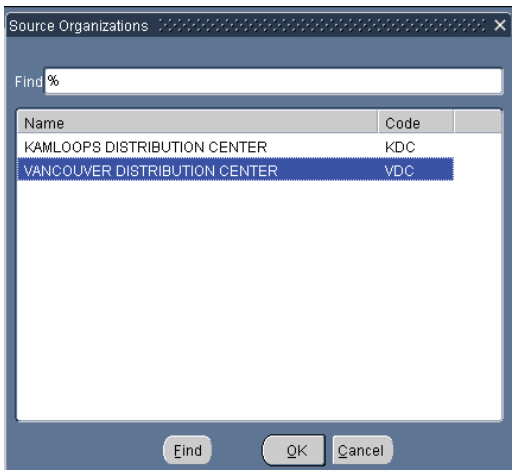


3. In **Destination type** - Select **Inventory.**
4. In **Destination Organization -** click on the LOV field and from the Deliver-To-Organizations Find window shown below, select the

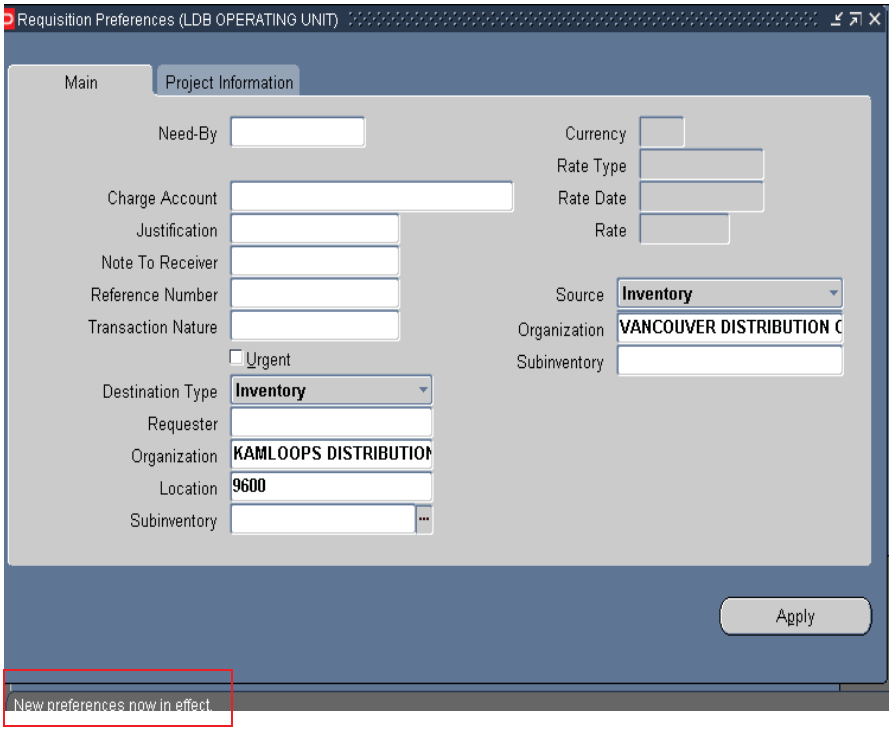


appropriate destination organization. For example, Kamloops Distribution Center if you are transferring product from VDC to KDC and Vancouver Distribution Center if you are transferring product from KDC to VDC.

5. In **Location** - click on the LOV icon.
   The Deliver-To-Location window displays as shown below.

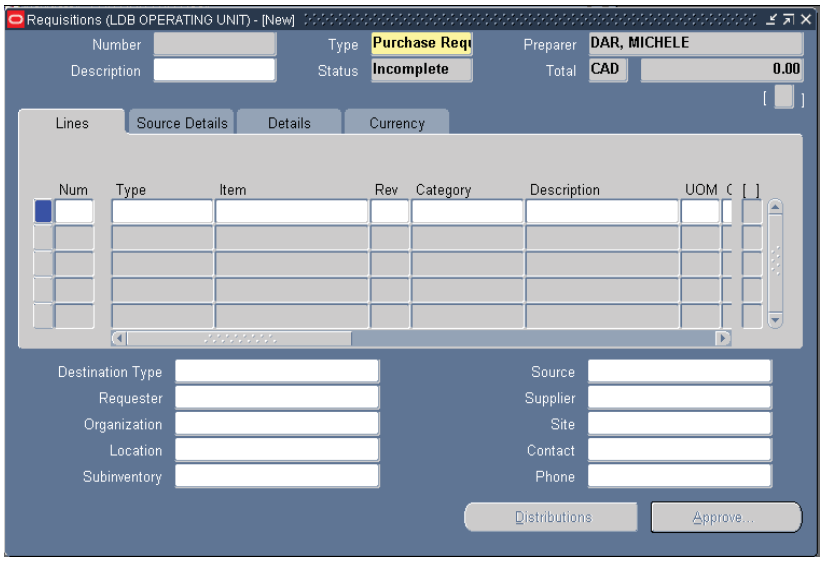


6. In Find, enter **%** (percent sign) and press **Enter**.
   A list of valid locations display. For instance 9600 is the location for KDC.

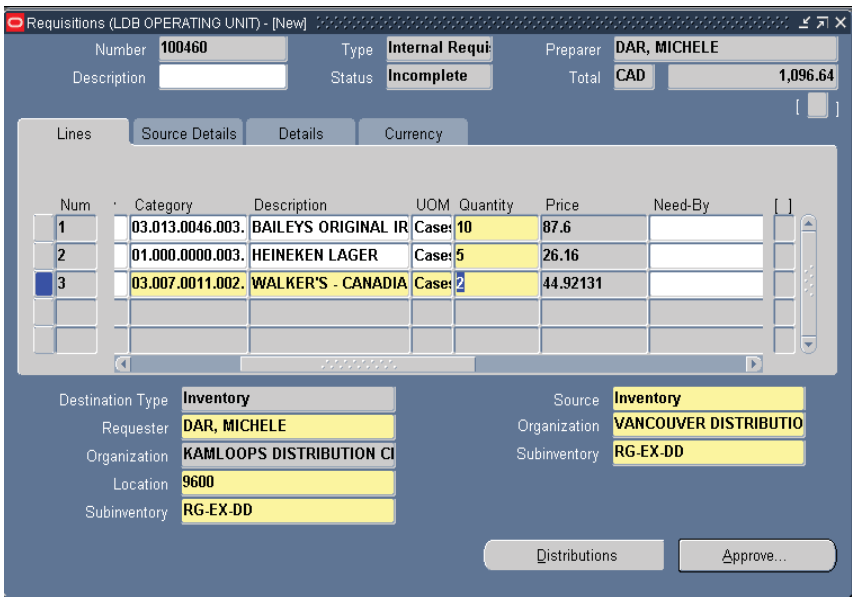


7. Select the desired entry and click **OK**.

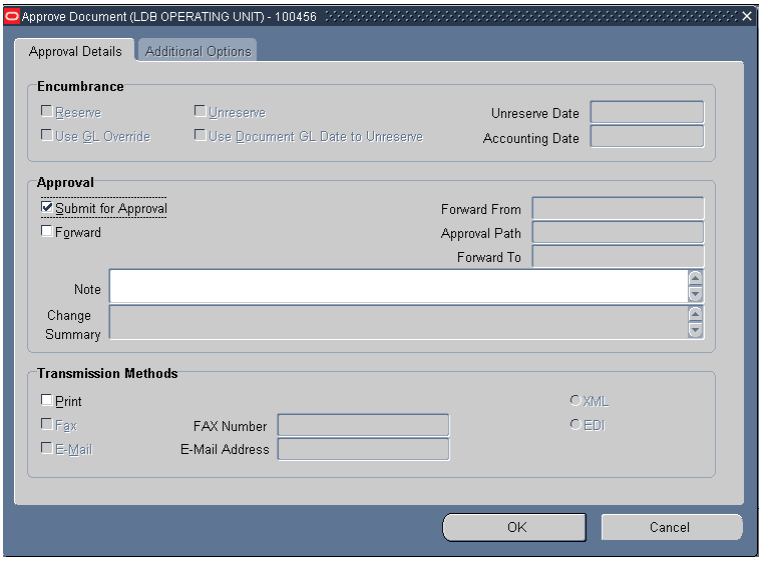
8. In **Source** - Select **Inventory**.
9. In **Source Organization** - Click on the LOV field and from the Source Organizations window, select the appropriate source organization. For example, Vancouver Distribution Center if you are transferring product from VDC to KDC and Kamloops Distribution Center if you are transferring product from KDC to VDC.



10. Select the desired distribution centre and click **OK**.
11. Click **Apply**.
    A message will display in the left corner of the screen indicating that the new preferences are in effect.



NOTE: The preference defaults are applicable during your current session after you select Apply until you exit the Application.

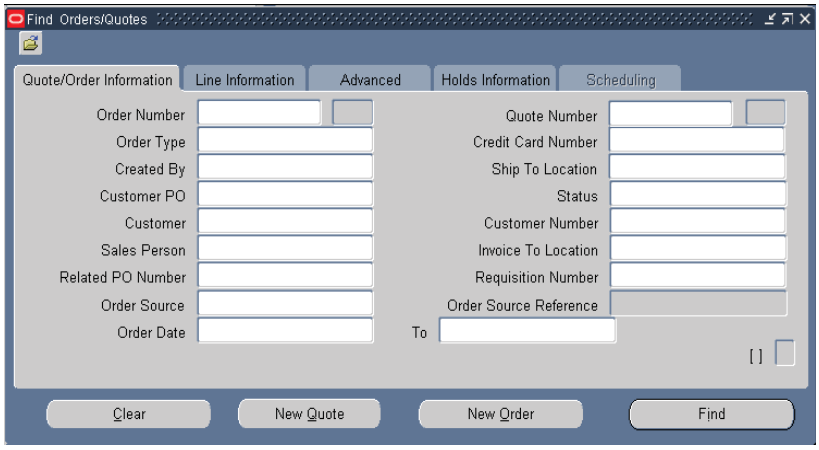


12. Close the Requisition Preference Window.
    You will be returned to the Requisition Window.

13. In Type, select **Internal Requisition**.
14. In **Item** (Line Region) - Enter the **SKU** and press **Ente**r. Information in the Category, Description and UOM field will populate automatically. Line Num will be populated by the system. With the first record defaulting to number 1.
15. In **Quantity** - Enter the quantity amount that you want to transfer and press the down arrow key to enter the next SKU.
16. Repeat Steps 12-13 until you have entered all the items that need transferring.
17. Save the Internal Requisition.
    The system will generate an Internal Requisition Number.

18. Click **Approve**.
    The Approve Document Window displays as shown below.

19. Click **OK**.
    A new requisition window displays for entering another inter-warehouse transfer.



20. Close the Requisition window.

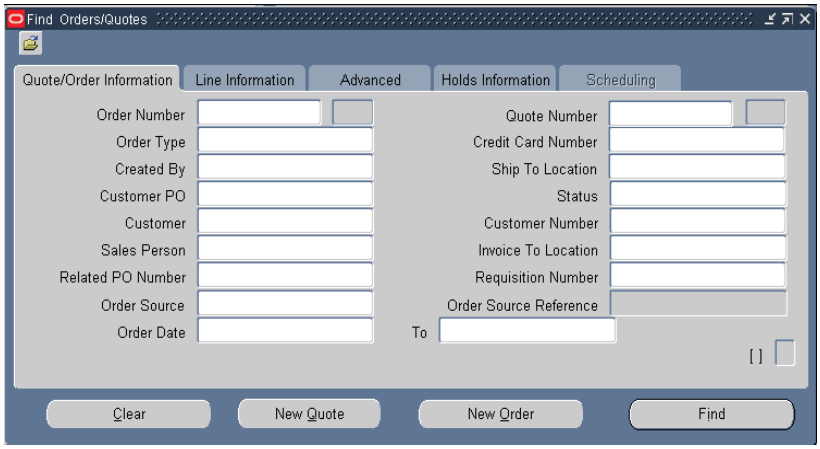
View Order Information and Status

Once you have entered and approved the internal requisition, the system automatically runs a request set to create an internal sales order for the requisition. This process takes approximately 30 minutes.

To view sales order information or to address customer inquiries, you can locate the sales order by performing a search on the Order Organizer. In order to access the Order Organizer, you will need to switch responsibilities to Order Management.

From the Navigator window, select the Order Organizer.
The Find Orders/Quotes window displays on top of the Order Organizer as shown below:

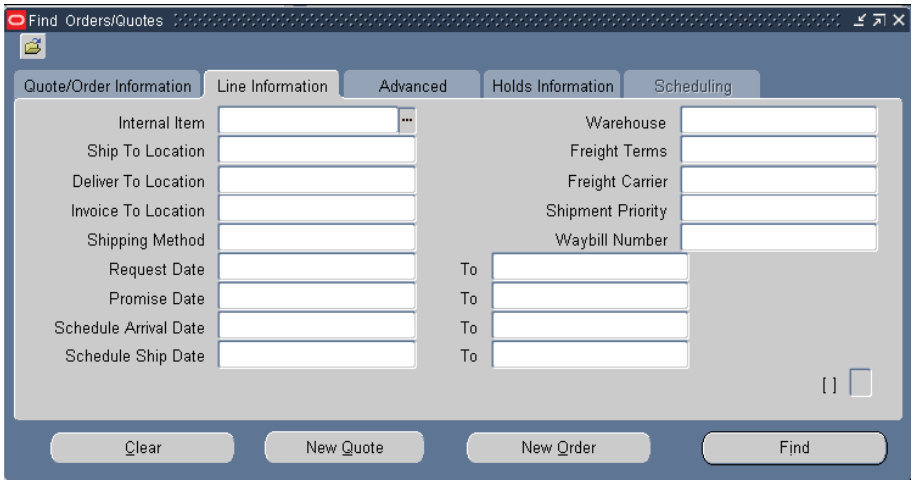
Find Order/Quotes Window



The Find Orders/Quotes window allows you to create complex queries by entering and combining search criteria in any of the following tabs:

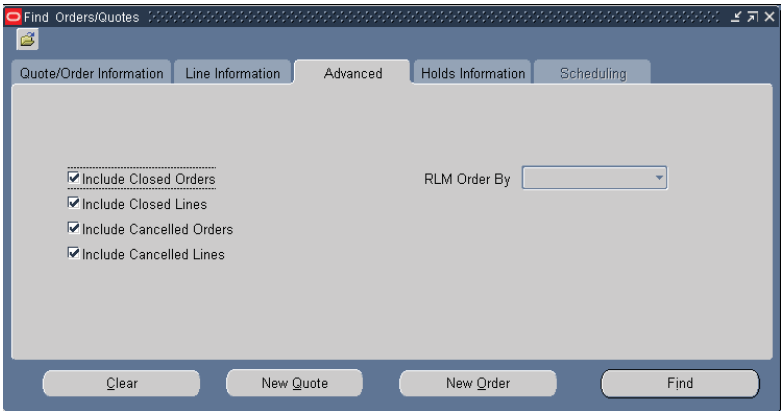
- Quote/Order Information
- Line Information
- Advanced
- Holds Information (currently not being used)
- Scheduling (only available to specific responsibilities)

Quote/Order Information Tab



You use the Quote/Order Information tab to find the internal sales order.

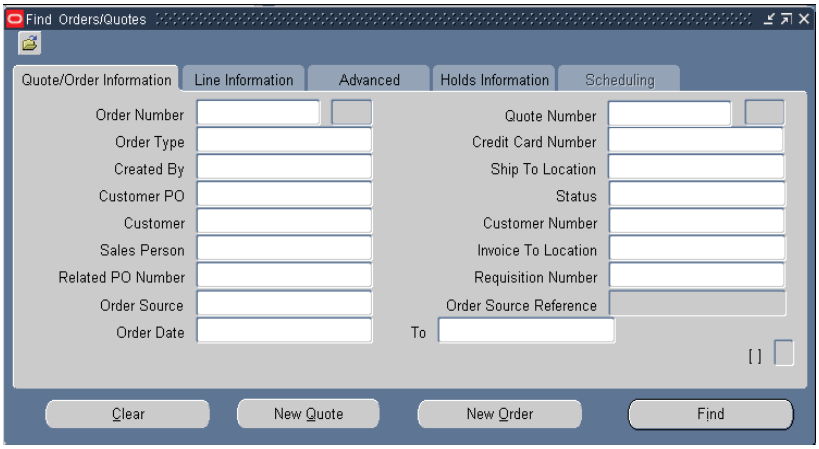
Enter **Order Type** as ISO and, to narrow the search, you can also enter Order Date range.



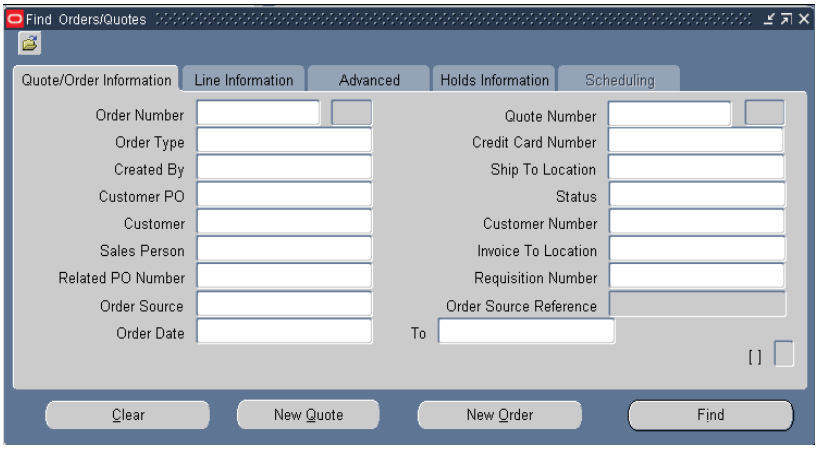
Line Information Tab

You use the Line Information tab shown below to specify order line search criteria in any of the fields displayed.

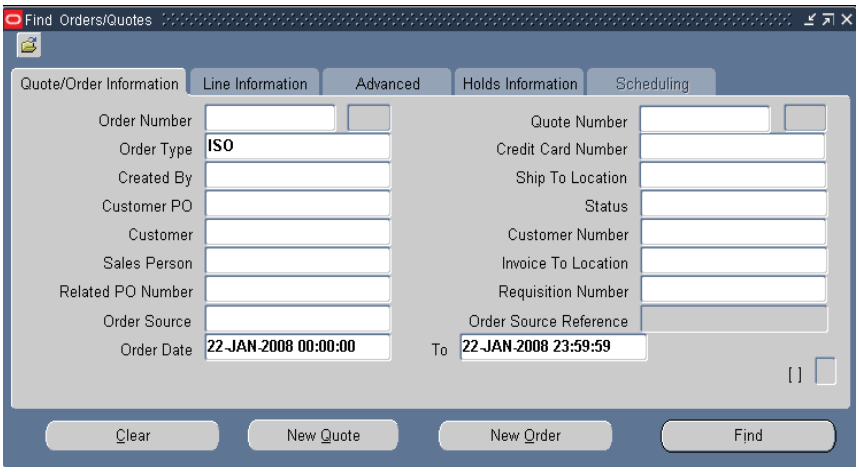
Advanced Tab



You use the Advanced tab to specify whether the query should include closed or cancelled orders and order lines.

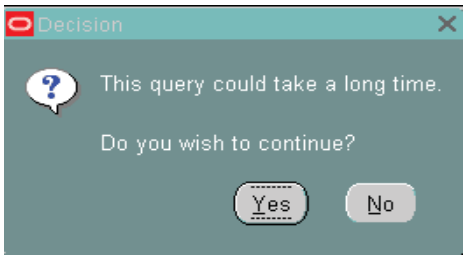


Accessing Order Organizer

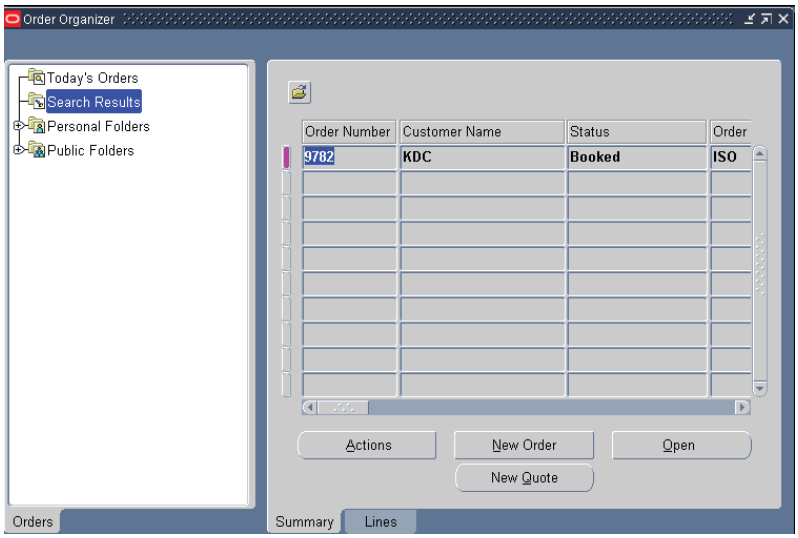


1. From the Navigator window, select the Order Organizer.
   The Find Orders/Quotes window displays on top of the Order Organizer as shown below:

2. The Find Orders/Quotes window displays as shown below.

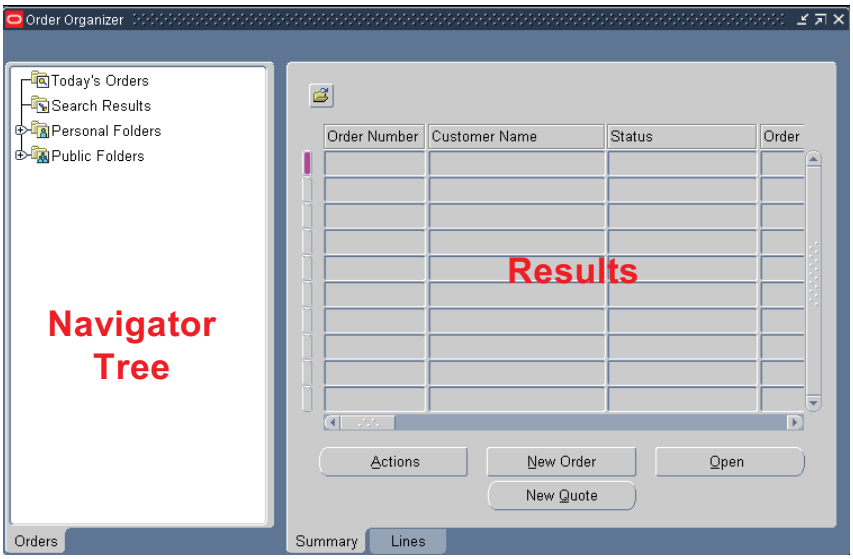


3. In the **Quote/Order Information** tab region, enter your search criteria in any field or combination of fields; for example, in the **Order Type** field enter ISO, and to further narrow the search use Order Date range.



4. Optional - Enter criteria in other tabs - Line Information and Advanced tabs to further refine the search.

5. Click **Find.**
The Decision window as shown below displays.



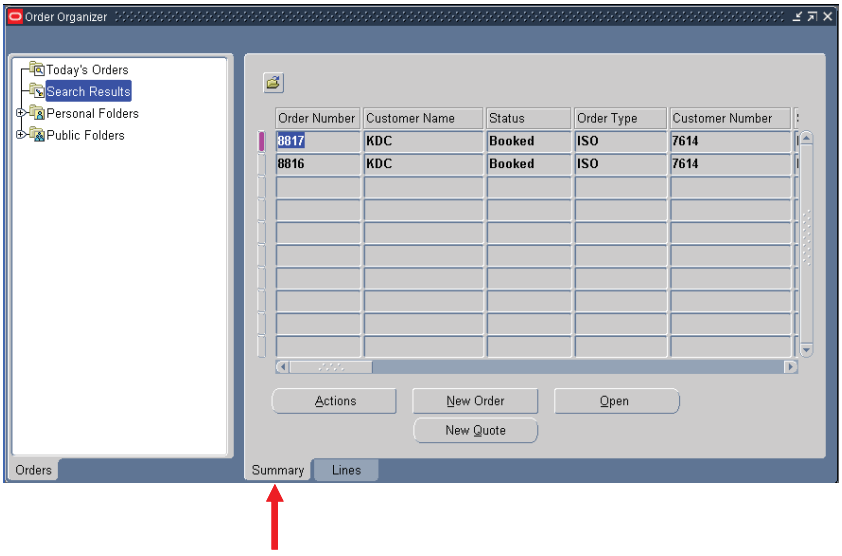
6. Click **Yes**.
The results appear in the Order Organizer Results window similar to the one shown below.

The Order Organizer Window

The Order Organizer window is divided into two panels. The left panel contains the navigator tree and the right panel displays the results of the search.

Navigator Tree

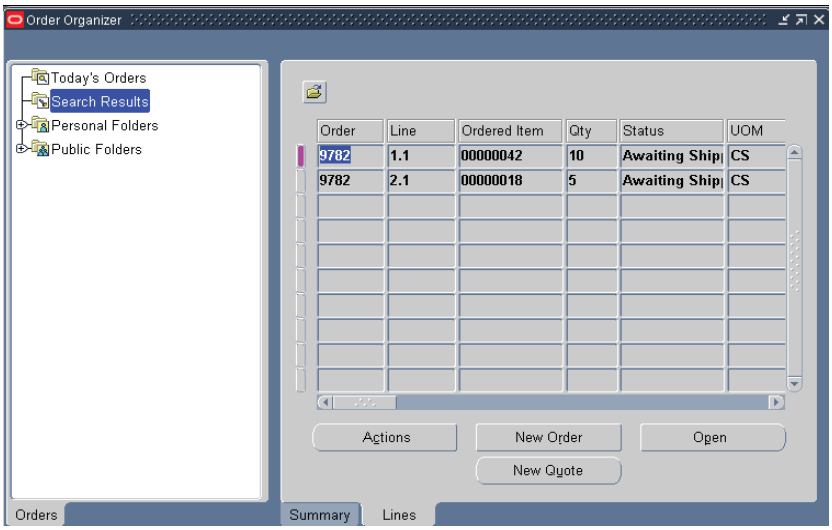
The Navigator Tree consists of two pre-defined queries and two pre-defined folders to allow quick access to customers' orders.



- **Today's Orders** - displays all orders that you have entered today.
- **Search Results** - displays all orders or lines matching the selection criteria entered in the Find/Quotes Order window.
- **Private Folders** - contains a list of your previously saved queries. Click the Private Folder to expand the names of the queries that you have saved. To access orders matching any of your saved queries, select the appropriate query.
- **Public Folders** - contains a list of public queries that have been defined by the Administrator. Select the Public Folder to expand the names of the queries that are available. To access orders matching any of the Public queries, select the appropriate query.

Results Area

The Results area displays information on orders and order lines matching the most recent search criteria. You have the option of viewing order header level from the **Summary** tab or order line information from the **Lines** tabs located at the bottom of the result area.



Summary Tab

The Summary Tab, illustrated below, displays order header information for each order. You can use the scroll bar to view summary level information such as Order Number, Customer Name, Status, Order Type, Customer Number, and so forth.

Lines Tab

The Lines Tab displays order line level detail corresponding to the order. You can use the scroll bar to view the line details.

The results area also contains the following buttons on both tabs:

Actions

- Summary tab - used to view order header information.
- Lines tab - used to view line level information.

New Order - used to create a new sales order.

Open - used to open the order selected in the Order Organizer.

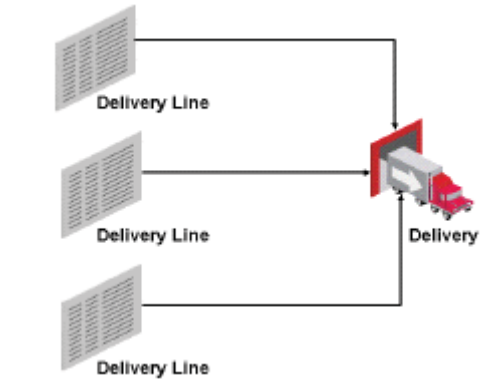
New Quotes - not used.

Performing Another Search

1. Click on the **Flashlight** icon  .
   The Find Orders/Quotes window displays.
2. Click **Clear** to clear the current search criteria.
3. Enter new search criteria.
4. Click **Find**.

Lesson 4-1: Searching for existing Internal Sales Orders.

As per handout lesson 4-1, provided by the Facilitator.



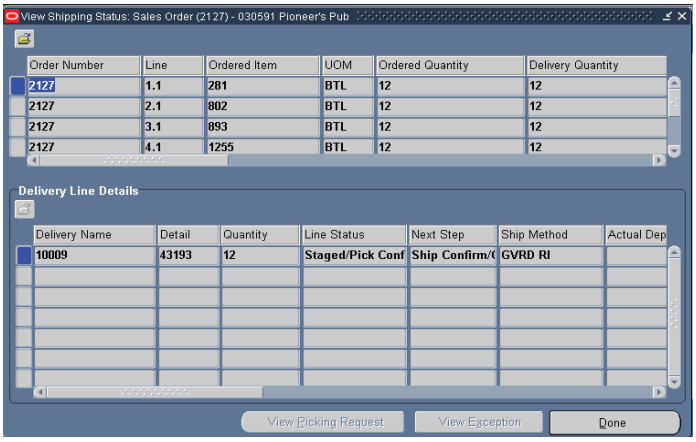
Overview of Shipping Information

The shipping process begins with a release of the sales orders to RBWMS. When the sales order is released to RBWMS, orders are consolidated to form a delivery and order lines meeting the following criteria are released:

Order Line Status = Awaiting Shipping

Qty Reserved is greater than Zero

Each order line that is released is referred to as a *delivery line*. As illustrated below, order lines from a number of different sales orders for a particular customer are pulled together to form a single order in RBWMS. This consolidated order is called a *delivery* in E-Biz and is identified by a Delivery ID. The Delivery ID number becomes the RBWMS order number.

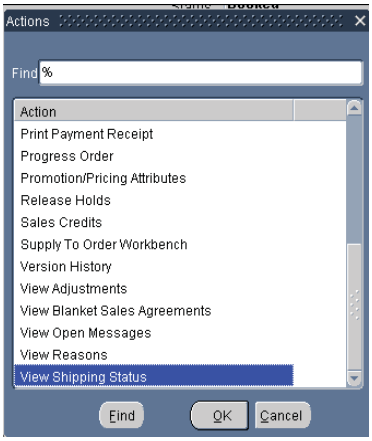


You can view the shipping information from the View Shipping Status window.

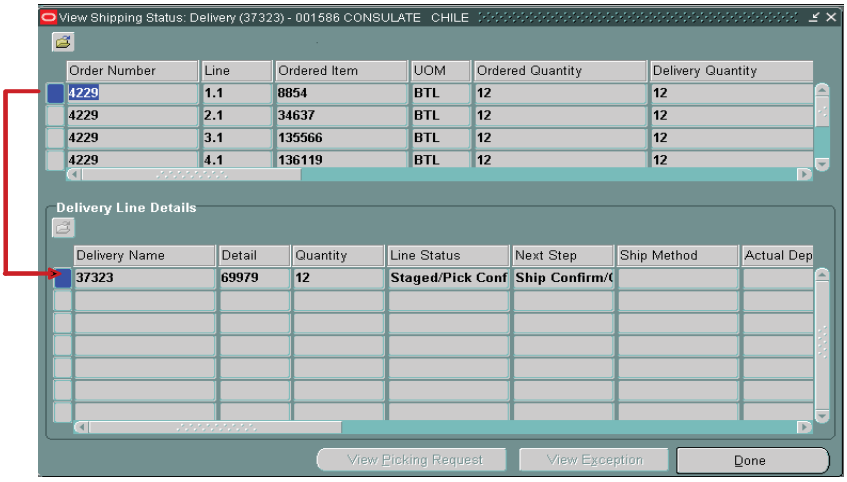
Viewing Shipping Status

You use the View Shipping Status window illustrated below to view the order line quantity and status. The View Shipping Status window includes the following types of information:

- Quantity: for example, ordered quantity, ready to release quantity, delivery quantity, ship quantity.
- Line Status: the current status for each delivery line and the next step in the order workflow, ship method and Delivery ID.



.



▶ Viewing Shipping Status:

1. Navigate to the existing Sales Order Form.
2. From the Order Information - **Main** tab, click **Actions**.
   The Actions window displays.

3. Select **View Shipping Status** and click **OK**.
   The View Shipping Status window similar to the one shown below displays.

4. Use the Scroll bars to view the information.

Module 5

Purchasing Allocation

Module Description

In this module you will learn how to how to use the E-Biz Purchasing Alllocation process.

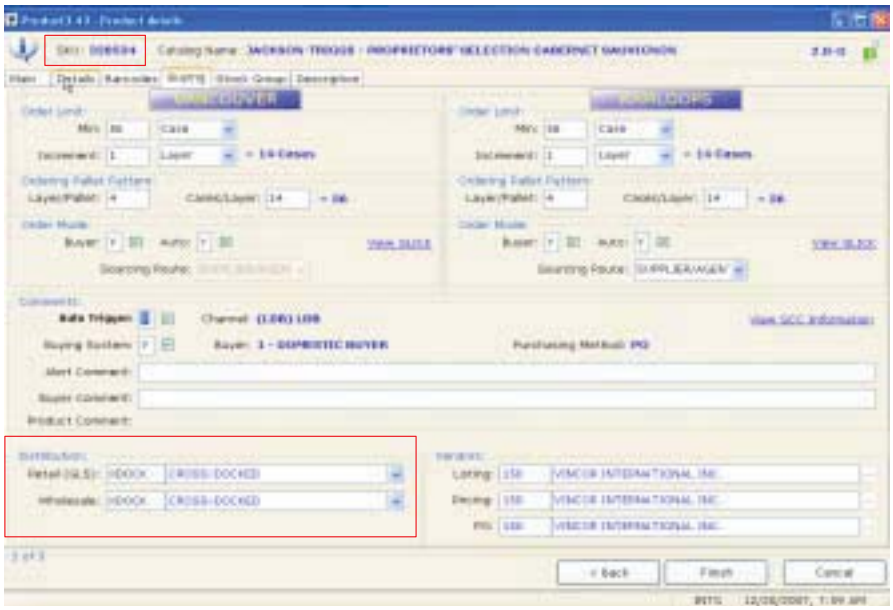
Module Objectives

At the end of this module, you will be able to:

- Perform all the steps required for the Purchasing Allocation process.

Purchasing Allocation

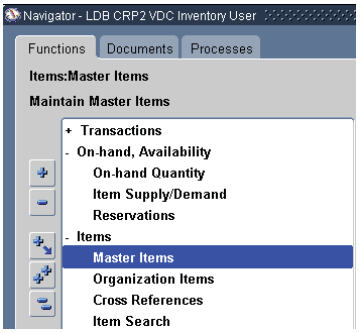
The Purchasing Allocation process consists of the following steps:



1. Set up the item as a cross-docked item in CPD.
2. Verify the item update in E-Biz Item Master.
3. Check E-Biz inventory to ensure sufficient amount is available for allocation.
4. Create the Purchasing Allocation spreadsheet.
5. Upload the Purchasing Allocation Spreadsheet.
6. View Order Information and Status (optional).
7. View Shipping Status of a Sales Order (optional)

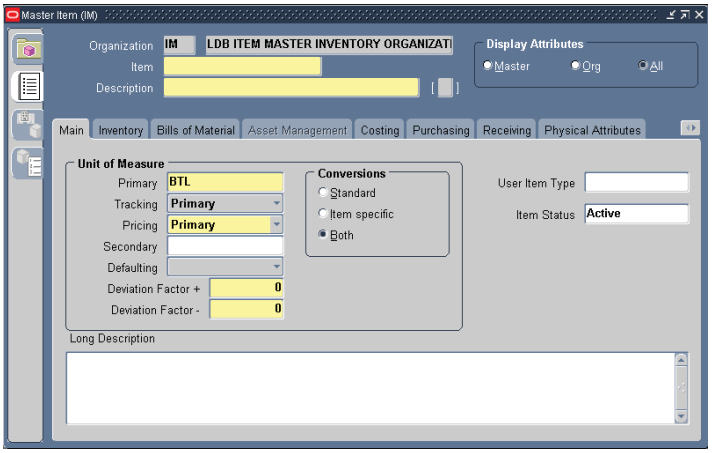
Item Set Up as a XDOCK

The first step in the process is the set up the item as a XDOCK in CPD.



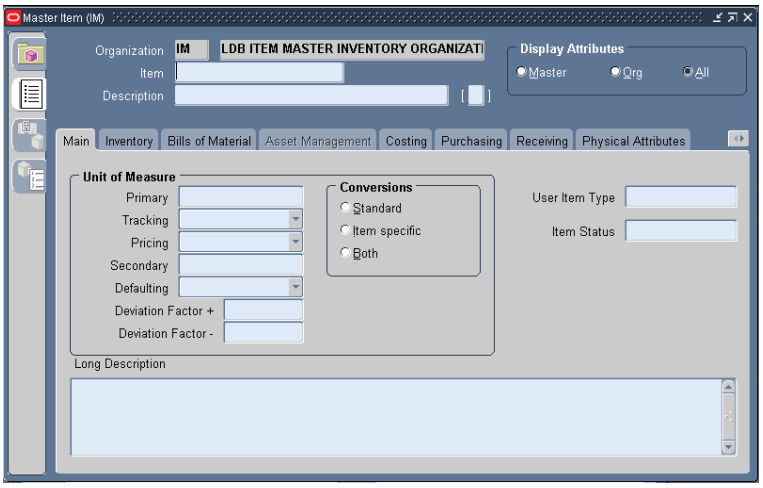
1. Open the CPD application.
2. In the **Search for a Product** field, type in the SKU# of the product that is to be Xdocked, then click the **Buying** tab.
   The Buying Information Tab (Vancouver & Kamloops) displays.

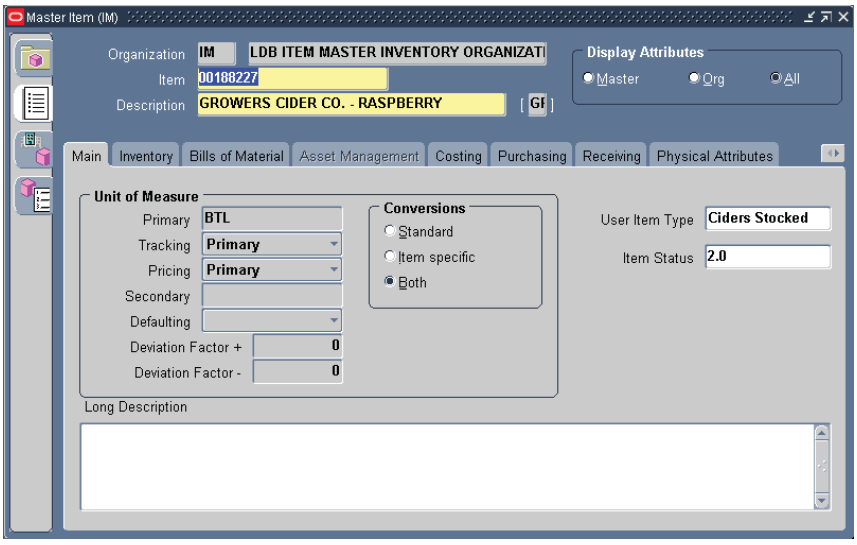
3. In the Distribution section illustrated above, change the Distribution **Retail** to "XDOCK for Retail (GLS) and/or **Wholesale** by clicking on the drop-down arrow.
4. Click **Finish**.



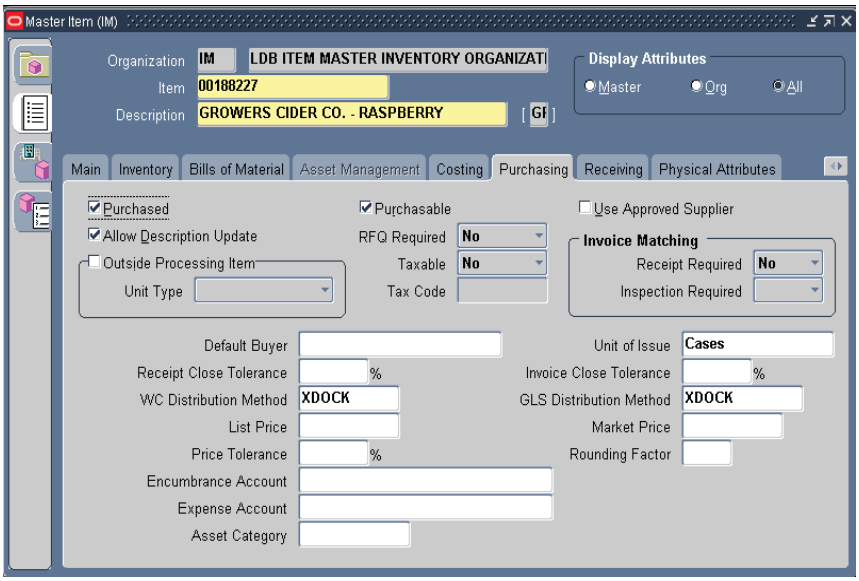
Verify the Item Update in E-Biz

The next step in the process is to verify that the changes made in CPD have updated the Item Master in E-Biz. You must logon to E-Biz and select the appropriate responsibility.



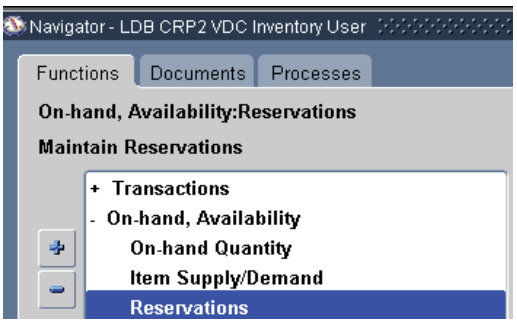


1. From the Navigator, select Items-**Master Items**.
   The Master Item window displays as shown below.



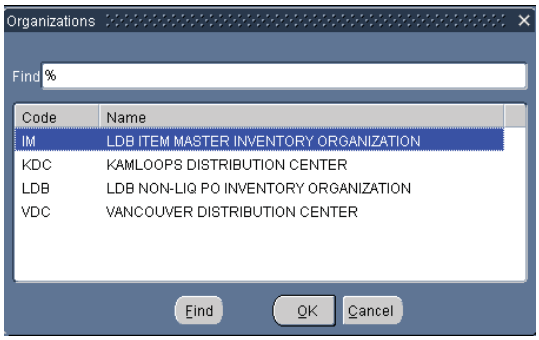
2. Press **F11** to initate the query.
   The screen will display with the fields in a blue background.

3. In **Item**, enter the SKU.
4. Press **CTRL + F11** to execute the query.
   The results display similiar to the window shown below.



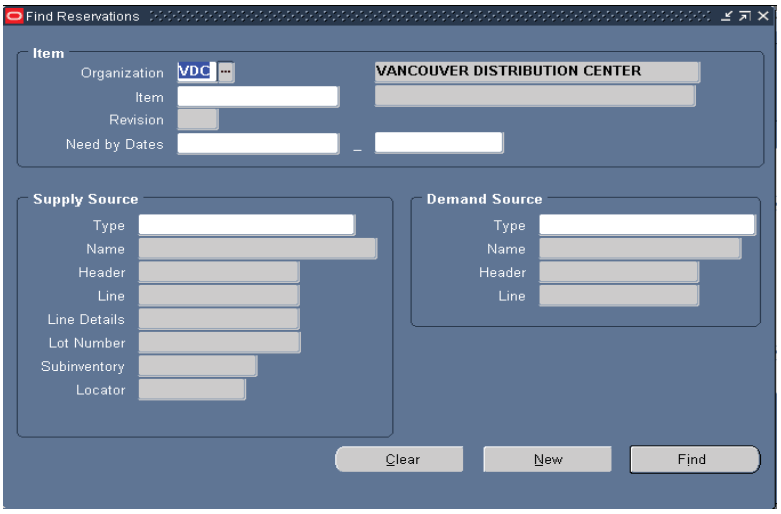
5. Click on the **Purchasing Tab** to verify the distribution method has been updated.
   The Master Item - Purchasing Tab displays as shown below.

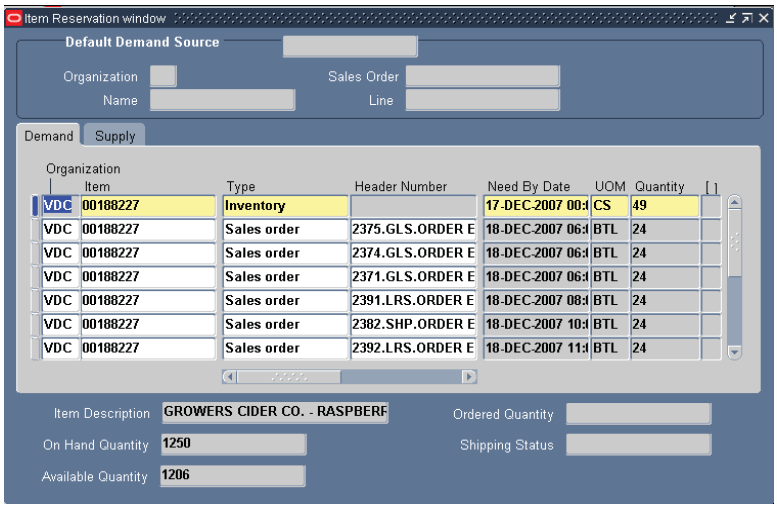
6. Close the Master Item window.



Check the E-Biz Inventory

The next step in the process is to check the E-Biz inventory to ensure sufficient amount is available for allocation. This function is performed from the Inventory Management responsibility.



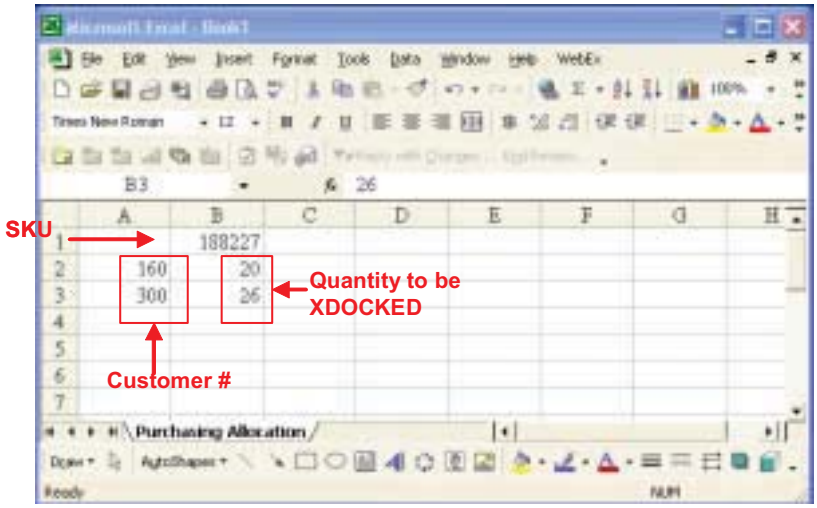


1. From the Navigator, select **On-Hand, Availability** then **Reservations**.
   The Find Organizations window displays as shown below.

2. Select the Warehouse (VDC or KDC).
3. Click **OK.**
   The Find Reservations window displays as shown below.

4. In **Item**, enter the **SKU**.
5. Click **Find**.
   The Item Reservation window displays as shown below.
6.

Note: When checking to ensure the product and the correct quantity is reserved, you still have the ability to change the case/bottle quantity. If you do, make sure the record is saved. You cannot update a quantity that has already been issued as the quantity field will be greyed out.



7. Optional - Change Quantity and Save.
8. Close the Item Reservation window.

Create/Save the Purchasing Allocation Spreadsheet

The next step in the process is to create and save the Purchasing Allocation Spreadsheet. Illustrated below is a sample of the spreadsheet format.

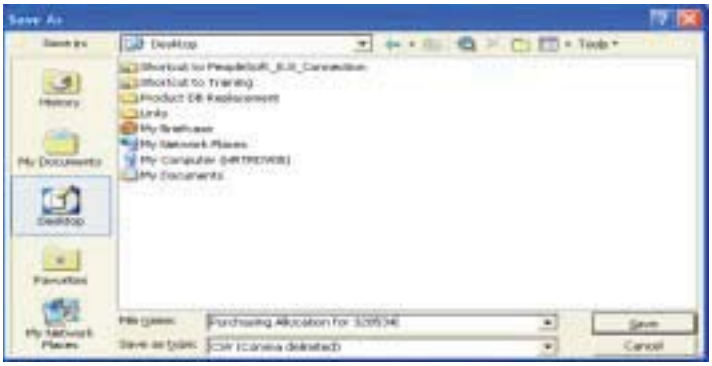
Note: The SKU's are in Row 1 and the Customer numbers in Column A. You must not leave any cells blank in the defined area. If a SKU for a customer is blank type a 0 (zero) in the cell. Also you must only have one spreadsheet in the Excel Workbook. If your default workbook is set to display 3 spreadsheets, delete the other two.

Warning: Each allocation must only have one worksheet within an Excel Workbook. Also, you cannot have two servicing warehouses on one worksheet. For example, KDC customer gls # 167 is on one spreadsheet for KDC service, and #160 would be served from VDC. However, you can issue #167 from VDC.

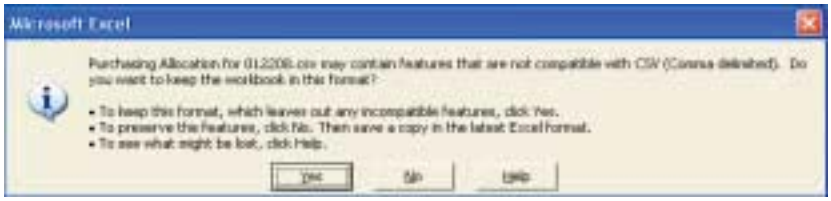
Note: The SKU's are in Row 1 and the Customer numbers in Column A.

Warning: Ensure that the spreadsheet only has xdock tagged products.

You must not leave any cells blank in the defined area. If a SKU for a customer is blank type a 0 (zero) in the cell. You must only have one spreadsheet in the Excel Workbook. If your default workbook is set to display three spreadsheets, delete the other two.



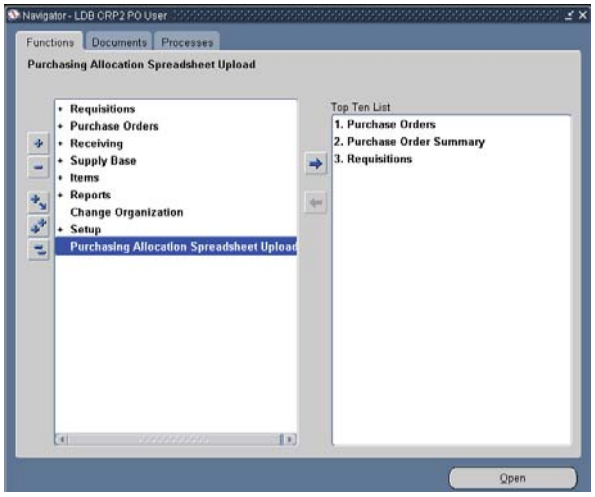
Warning: Each allocation must only have one worksheet within an Excel Workbook. You cannot have two servicing warehouses on one worksheet. For example, KDC customer gls # 167 is on one spreadsheet for KDC service, and #160 would be served from VDC. However, you can issue #167 from VDC.



Creating and Saving the Purchasing Allocation Spreadsheet

1. Open Microsoft Excel.
   A default Excel Workbook with 3 spreadsheets will display.
2. Delete the additional two spreadsheets from the Excel Workbook.
3. Enter information in the format shown above.
4. Click Save.
   The File Save As window displays.
5. Enter the File Name - ie Purchasing Allocation 012208.
6. Change the Save as type to **csv**.
   *The spreadsheet must be saved in **CSV format**. It is also recommended that you save the file to the desktop for uploading.*
7. Click the Desktop icon to save it on your desktop.

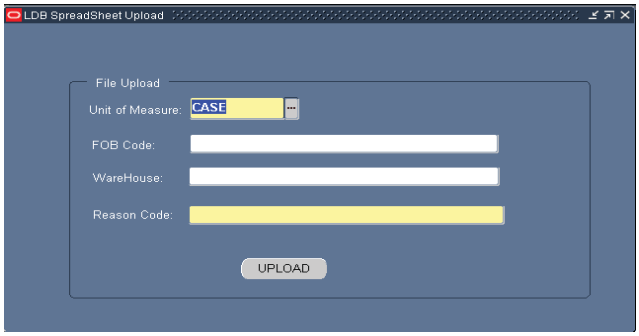
8. Click **Save**.



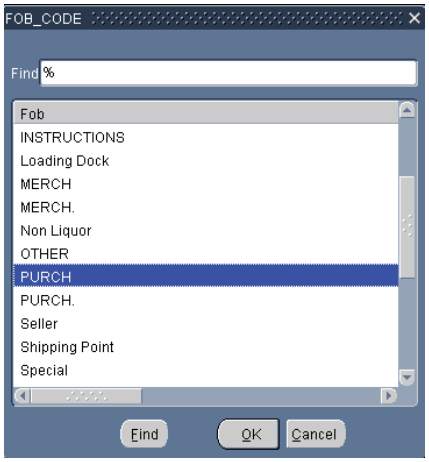
9. Click **Yes** in resonse to the warning message.

10. Close the Spreadsheet.

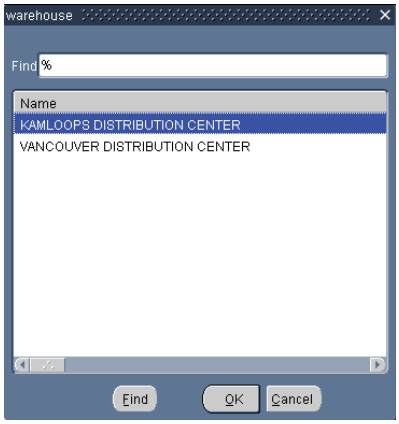
Uploading the Spreadsheet



The next step in the process is to upload the spreadsheet into E-Biz. In order to perform this function, you must switch responsibilities to Purchasing Managment and select the Purchasing Allocation Spreadsheet Upload function.

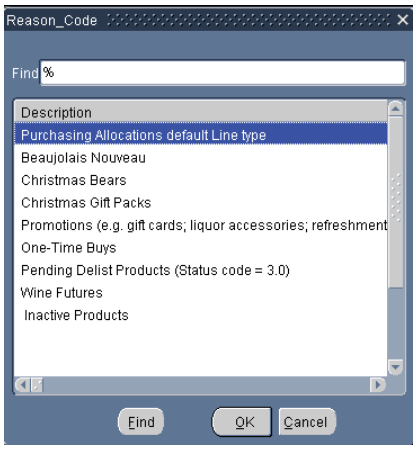


Uploading the Purchasing Allocation Spreadsheet

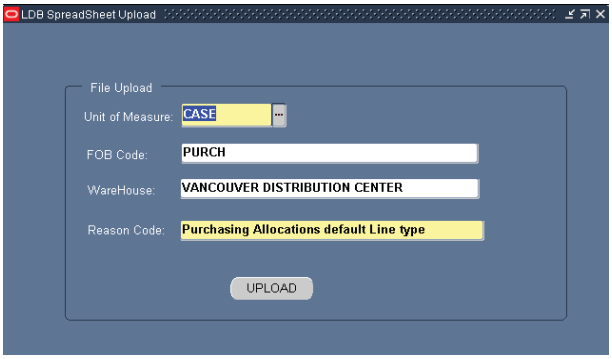


1. From the Navigator, select **Purchasing Allocation Spreadsheet Upload**.
   The LDB Spreadsheet Upload window displays as shown below. The only two mandatory fields are Unit of Measure and Reason Code. Optionally, you can select the FOB and Warehouse if required by Distribution.

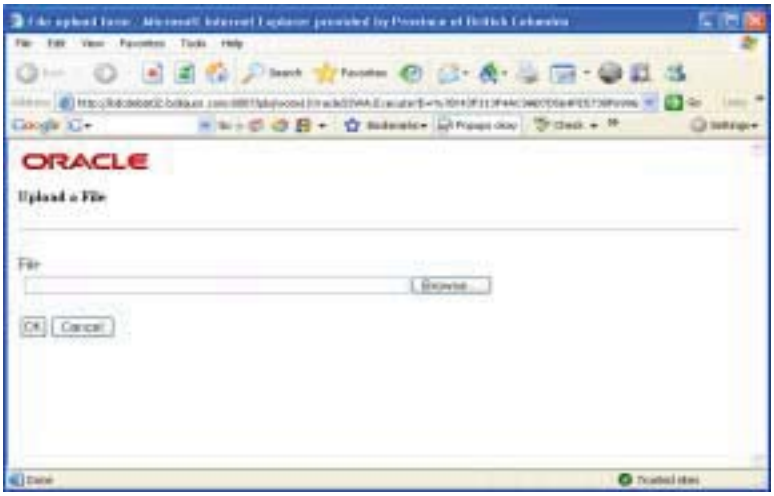
2. In **Unit of Measure** - ensure it reflects the UOM for the XDOCKED reserved product.
3. Optional - In **FOB Code** - click on the LOV.
   The FOB Window displays as shown below. The FOB window is used if you want to separate this shipment with their regular shipment.



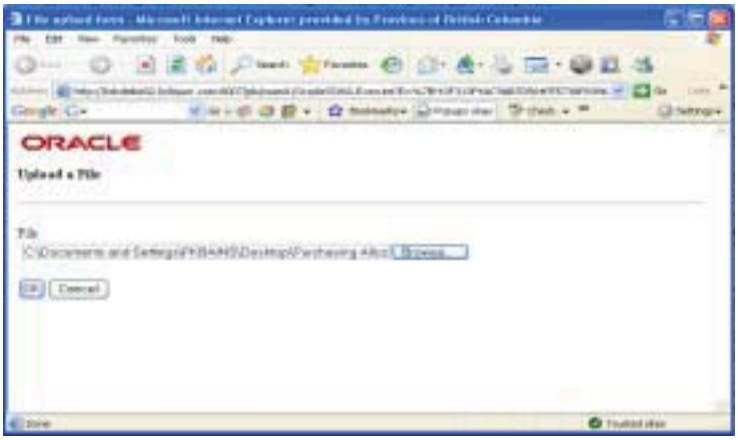
4. Select **PURCH** and click **OK**.
5. Optional - In **Warehouse**, click LOV. *The Find Warehouse window displays.*



6. Select the appropriate warehouse and click **OK**. The majority of allocations will always be done through VDC.

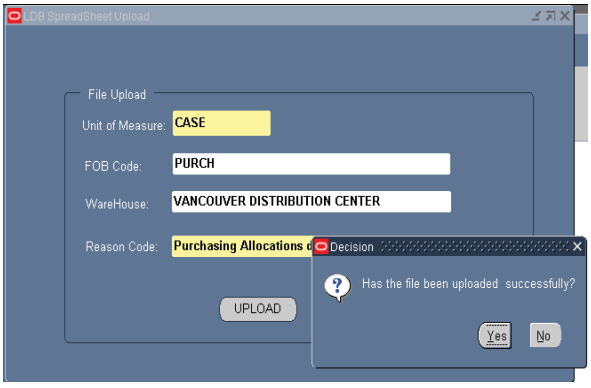


7. In **Reason Code**, click LOV.
   The Find Reason Code window displays as shown below.

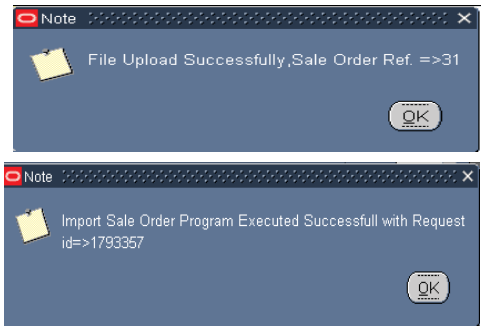


8. Select **Purchasing Allocations Default Line Type** and click **OK**. *The completed window should look similar to the one displayed below. Note this is for the XDOCK product that has been reserved at the Vancouver Distribution Center.*

9. Click **Upload**.

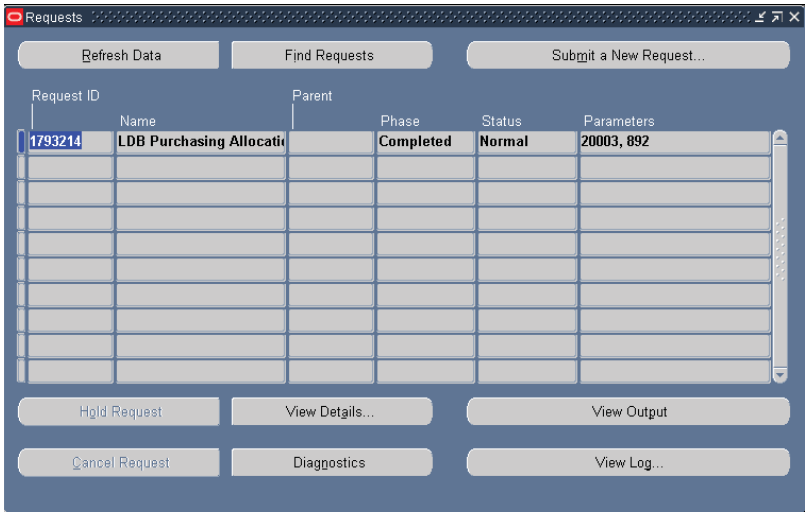


10. Click **Browse** and select the spreadsheet.
    The name of the file appears as shown below.



11. Click **OK**.
    A window similar to the one shown below displays confirming the file upload was successful.

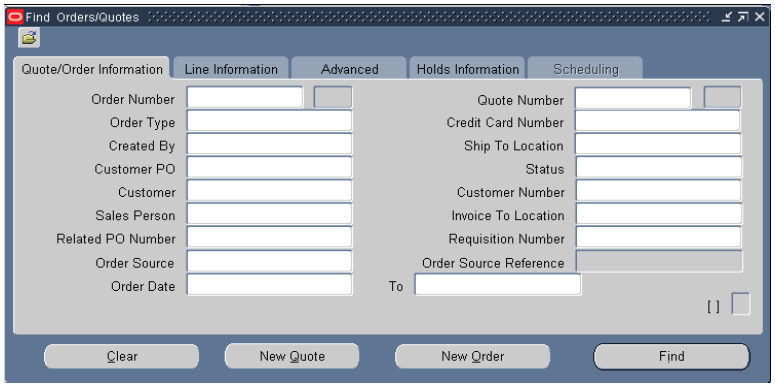
12. Close the window.
    You will now return to the LDB Spreadsheet Upload window displaying a decision window.



13. Click **Yes.**
    A series of message windows similar to the one shown below will display.

14. Click **OK** to close the window(s).
    The Requests window displays similar to the one shown below.

15. Click **Refresh Data** several time until the Phase indicates Completed and the Status is Normal.



16. Close the Requests window.

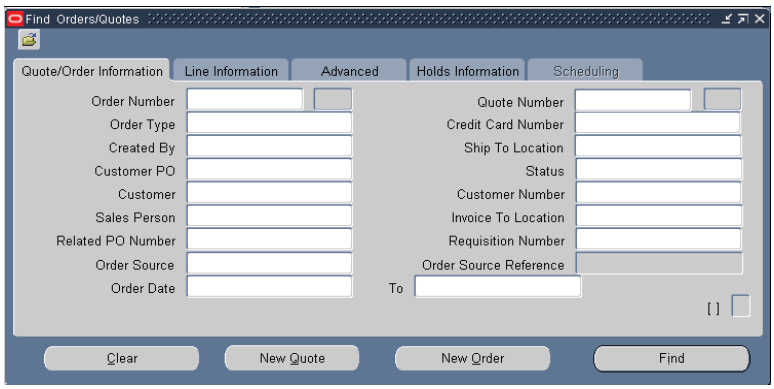
View Order Information and Status

Once the upload has been completed, the system automatically generates a sales order for each customer on the Purchasing Allocation spreadsheet.

To view sales order information or to address customer inquiries, you can locate the sales order by performing a search on the Order Organizer. In order to access the Order Organizer, you will need to switch responsibilities to Order Management.

From the Navigator window, select the Order Organizer. The Find Orders Quotes window displays as shown below:

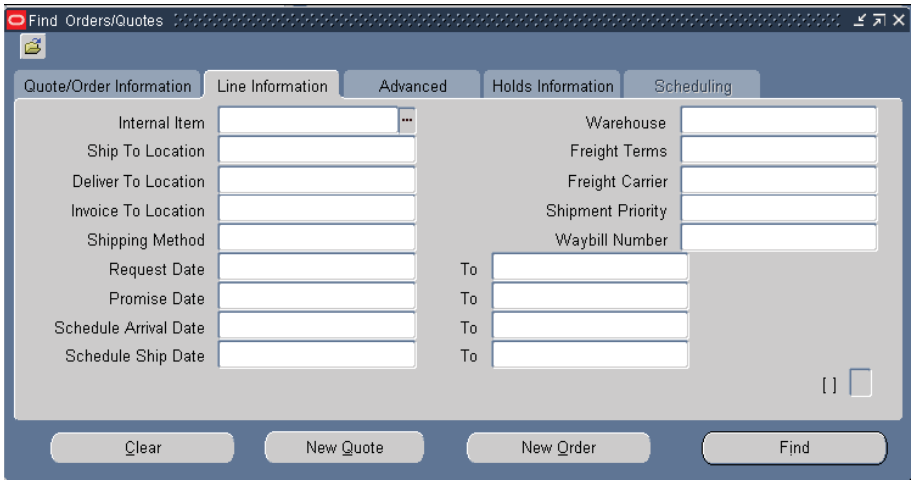
Find Order/Quotes Window



The Find Orders/Quotes window allows you to create complex queries by entering and combining search criteria in any of the following tabs:

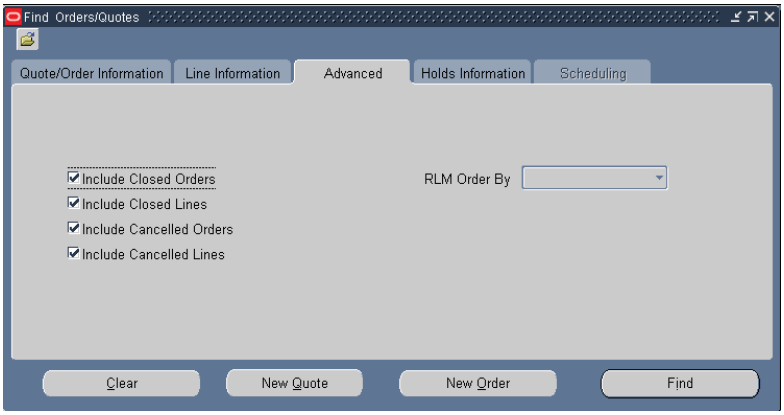
- Quote/Order Information
- Line Information
- Advanced
- Holds Information (currently not being used)
- Scheduling (only available to specific responsibilities)

Quote/Order Information Tab



You use the Quote/Order Information tab to find the sales orders generated by the Purchasing Allocation process.

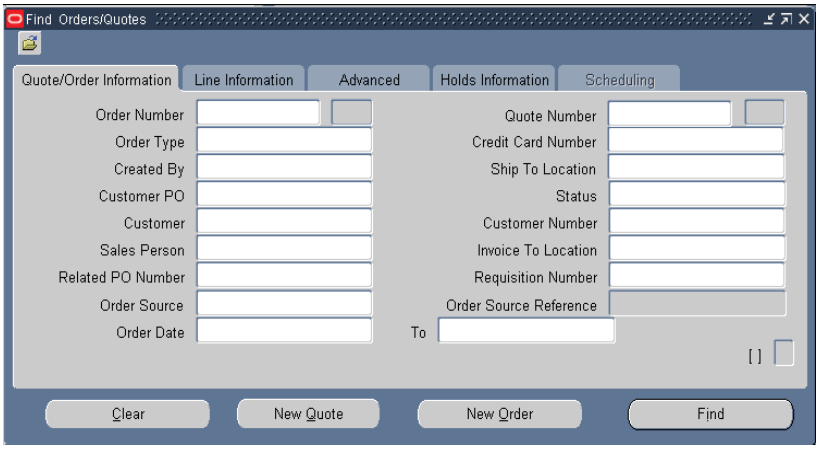
Enter **Order Source** as PA and, to narrow the search, you can also enter Order Date range.



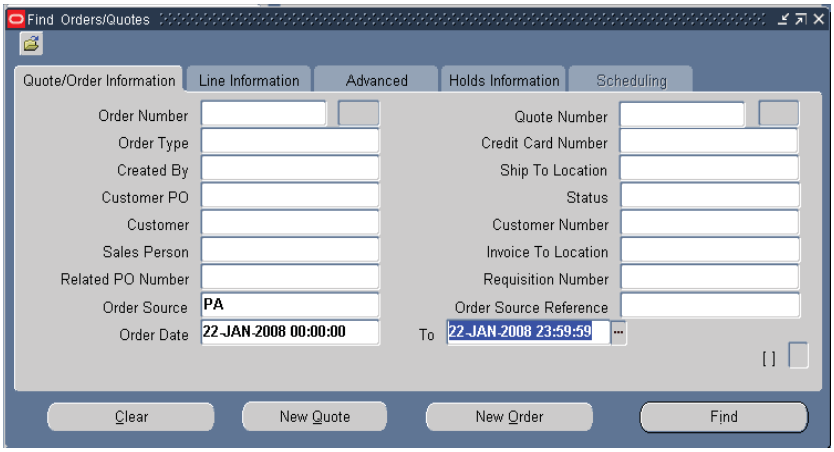
Line Information Tab

You use the Line Information tab shown below to specify order line search criteria in any of the fields displayed.

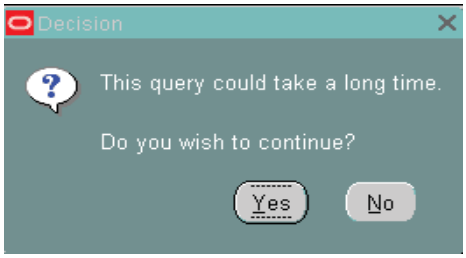
Advanced Tab



You use the Advanced tab to specify whether the query should include closed or cancelled orders and order lines.

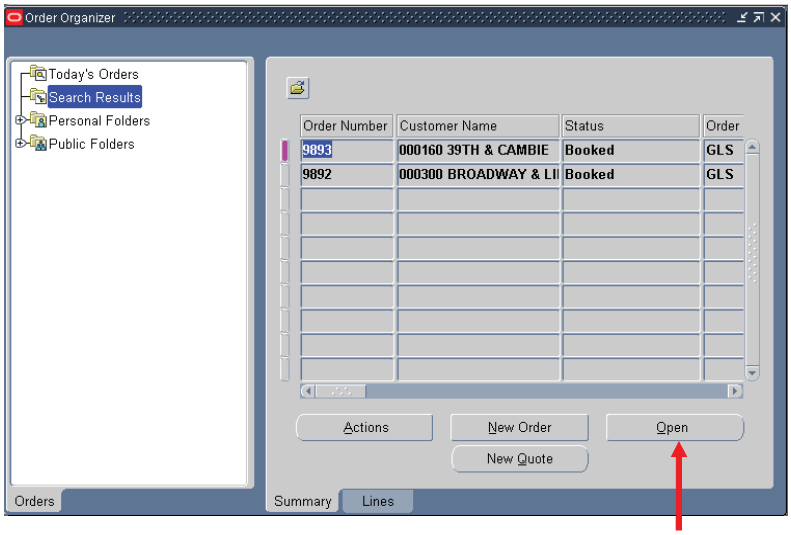


Accessing Order Organizer.

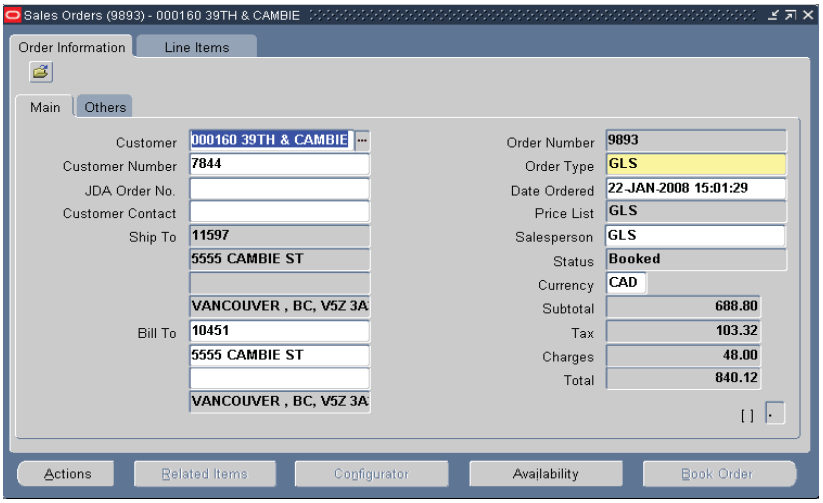


1. From the Navigator window, select the **Order Organizer**.
   The Find Orders/Quotes window displays on top of the Order Organizer as shown below:

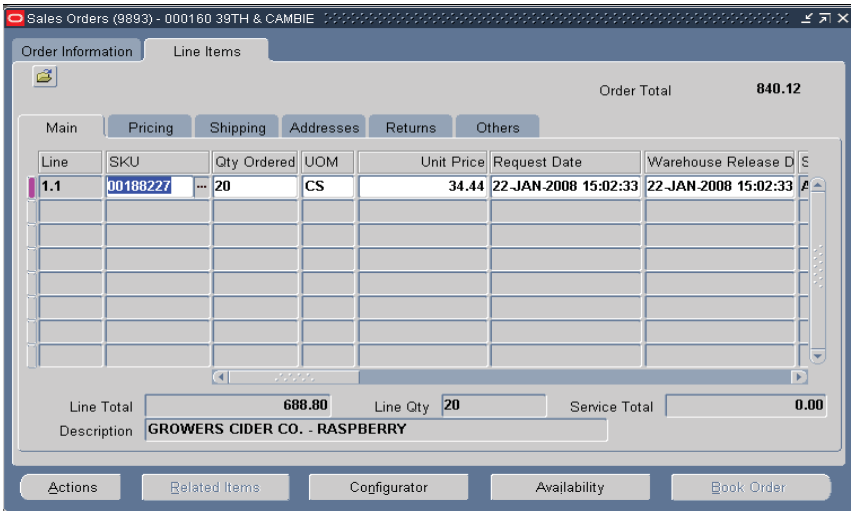
2. In the **Quote/Order Information** tab region, enter your search criteria in any field or combination of fields; for example in the **Order Source** field enter **PA,** and to further narrow the search use **Order Date range**.



3. Optional - Enter criteria in other tabs - Line Information and Advanced tabs to further refine the search.
4. Click **Find.**
   The Decision window as shown below displays.



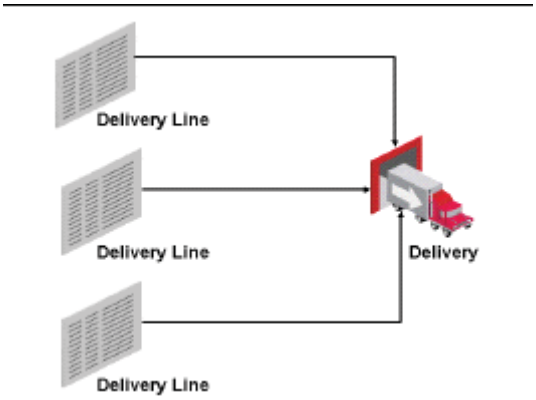
5. Click **Yes**.
   The results appear in the Order Organizer Results window similar to the one shown below.



.

6. Click **Open** to view the Sales Order.
   The Sales Order displays as shown below.

7. Click on the **Line Items Tab** to view Line Level Information.
The Line Items Tab displays as shown below.



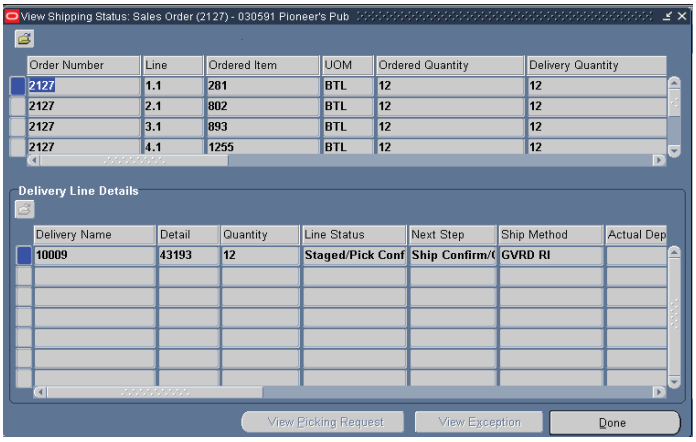
Overview of Shipping Information

The shipping process begins with a release of the sales orders to RBWMS. When the sales order is released to RBWMS, orders are consolidated to form a delivery and order lines meeting the following criteria are released:

Order Line Status = Awaiting Shipping

Qty Reserved is greater than Zero

Each order line that is released is referred to as a *delivery line*. As illustrated below, order lines from a number of different sales orders for a particular customer are pulled together to form a single order in RBWMS. This consolidated order is called a *delivery* in E-Biz and is identified by a Delivery ID. The Delivery ID number becomes the RBWMS order number.

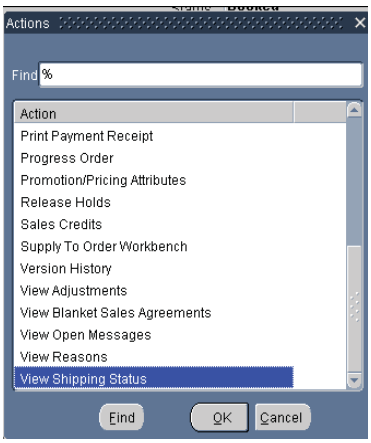


You can view the shipping information from the View Shipping Status window.

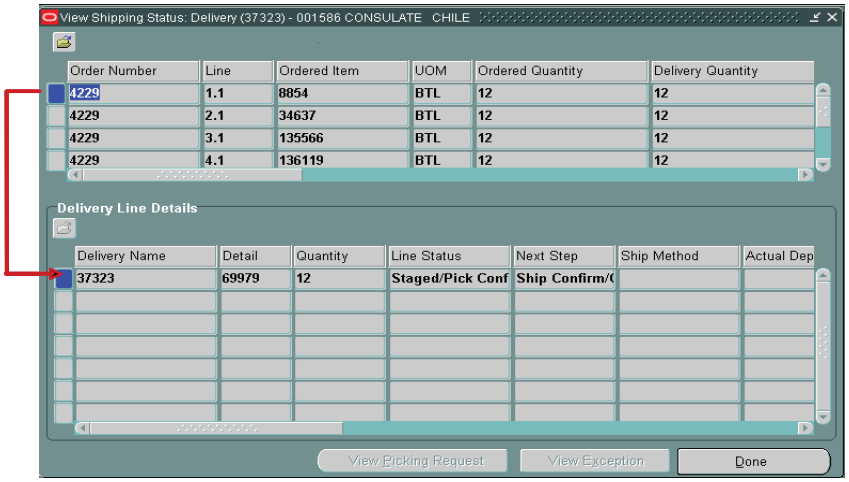
Viewing Shipping Status

You use the View Shipping Status window illustrated below to view the order line quantity and status. The View Shipping Status window includes the following types of information:

- Quantity: for example, ordered quantity, ready to release quantity, delivery quantity, ship quantity.
- Line Status: the current status for each delivery line and the next step in the order workflow, ship method and Delivery ID.



.



▶ Viewing Shipping Status:

1. Navigate to the existing Sales Order Form.
2. From the Order Information - **Main** tab, click **Actions**.
   The Actions window displays.

3. Select **View Shipping Status** and click **OK**.
   The View Shipping Status window similar to the one shown below displays.

4. Use the Scroll bars to view the information.

Module 6

Reports

Module Description

This module provides an overview and information on generating reports.

Module Objectives

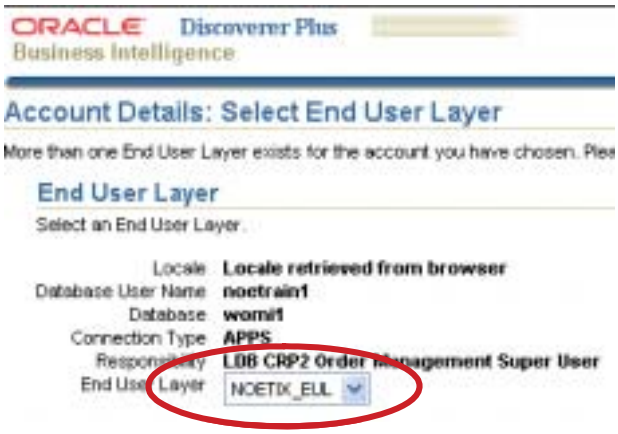
By the end of this module you will be able to:

- Log in to Oracle Discoverer
- Generate numerous purchasing reports and describe their function.

Logging in to Oracle Discoverer

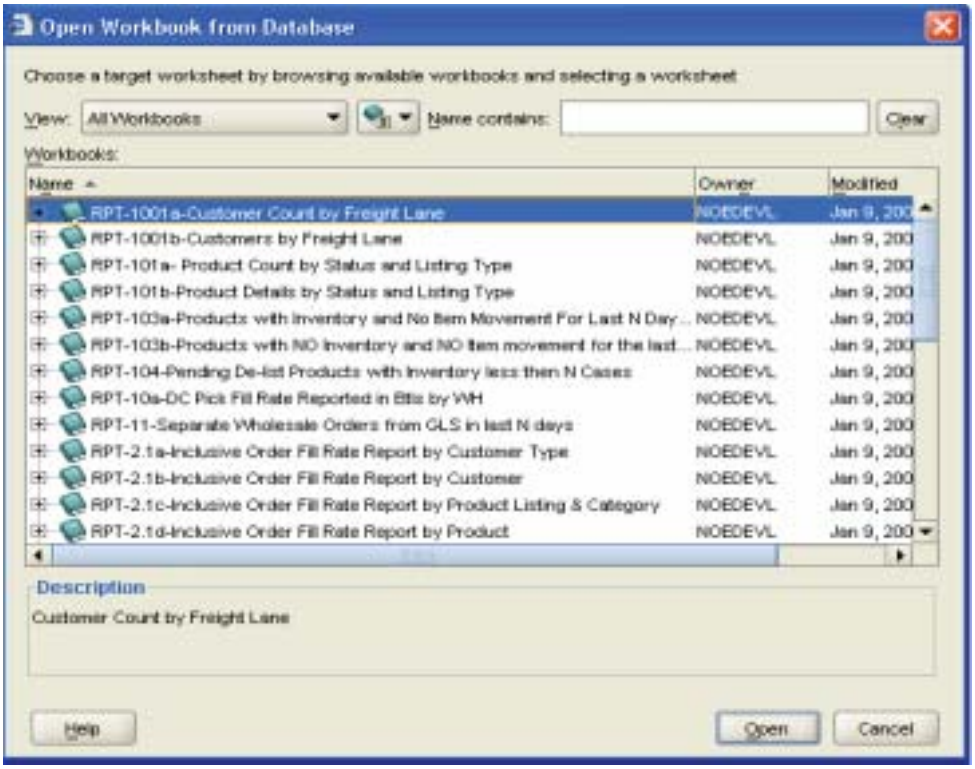
1. **I**nvoke Discoverer Plus.

   The login window displays.



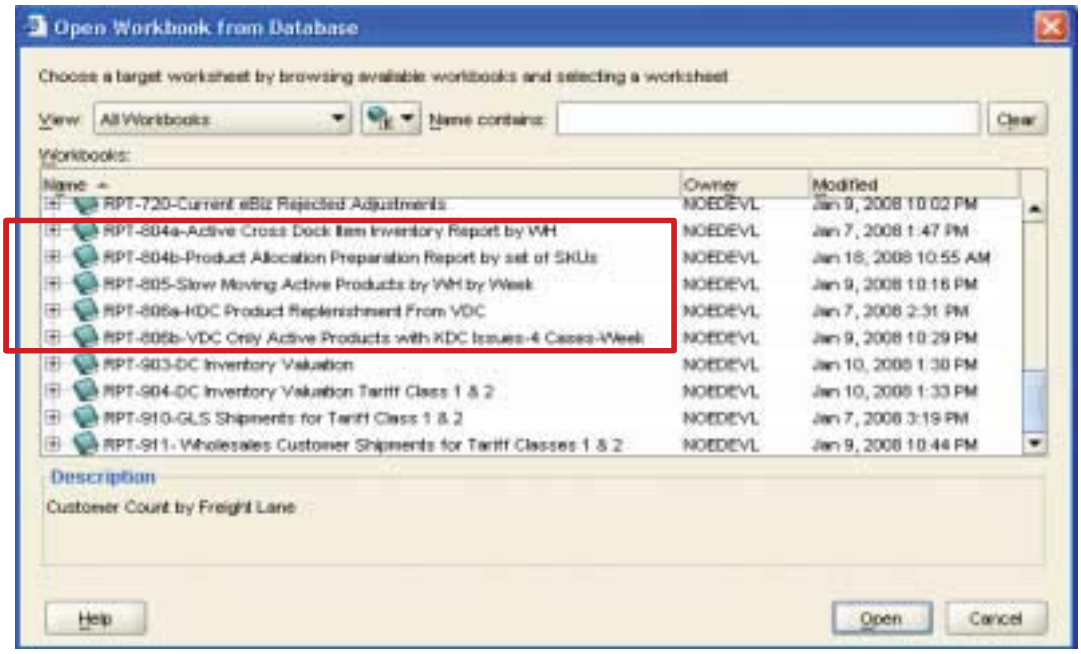
2. Complete the following *required* fields then click **Go**.
   - **Connect To**: select **Oracle Applications**
   - **User Name**: type in your user name
   - **Password**: type in your password
   - **Database**: type in the database name

   If you have more than one responsibility, the Select Responsibility window displays as shown in the example below. If you have only one responsibility, this window does not display; you would proceed to step 4.



3. In **Responsibility**, select your responsibility and the click **Continue**.

   The Select End User Layer window displays.



4. In **End User Layer**, ensure **NOETIX-EUL** is selected then click **Continue**.

   The Open Workbook from Database window displays a list of all workbooks that you have permission to view. The list is in ascending alphabetical sequence by report name. Some workbooks may contain multiple reports.

Reports

The reports will help you in making decisions regarding inventory control.

RPT-804a-Active Cross Dock Item Inventory Report by WH:

- helps with the allocation process.

RPT-804b-Product Allocation Preparation Report by set of SKUS:

- displays everything in inventory that is tagged as XDOCK.

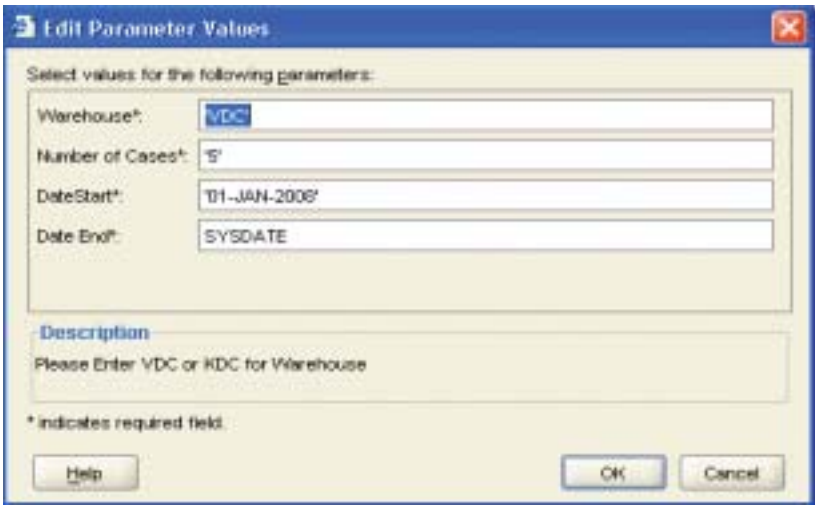
RPT 805-Slow Moving Active Products by WH by Week:

- displays slow moving product and will help us decide whether or not the Portfolio Manager should delist it or downgrade the Listing Type.

RPT 806a-KDC Product Replenishment from VDC:

- replaces the current AS400 SV Report. It helps us in replenishing KDC Inventory from VDC Stock.

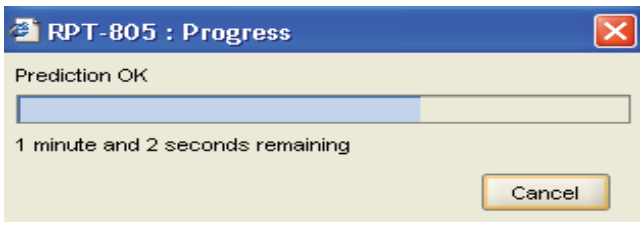
RPT-806b-VDC Only Active Products with KDC Issues-4 Cases-Week:



- This will help you decide whether or not the product should be stocked at KDC.

Reports - an Overview

Generating Reports



To generate a report from the Open Workbook from Database window, click on the report you wish to view then click **Open**.

If the report requires parameters, a parameter window displays similar to the example below.

You enter/modify parameters then click **OK**.

Some reports will display a message similar to the following as the report is generating.

Once generated, the report displays on the screen.

Printing Reports

To print a report, click the **Print** button  located on the toolbar at the top of the window.

The standard Print window displays.

Set your print options and print as you would for any report.

Previewing Reports

To view a print preview of a report, click the **Print Preview** button. 

Rerunning a Report

When viewing a report you can rerun the report. This option allows you to specify different parameters to rerun the report. For example, you may want to run a report for the Vancouver warehouse and then rerun the report for the Kamloops warehouse.

To rerun the report, click the rerun (refresh) button  located on the toolbar at the top of your window.

The Edit Paramater Values window displays; you can enter new parameters and then run the report again.

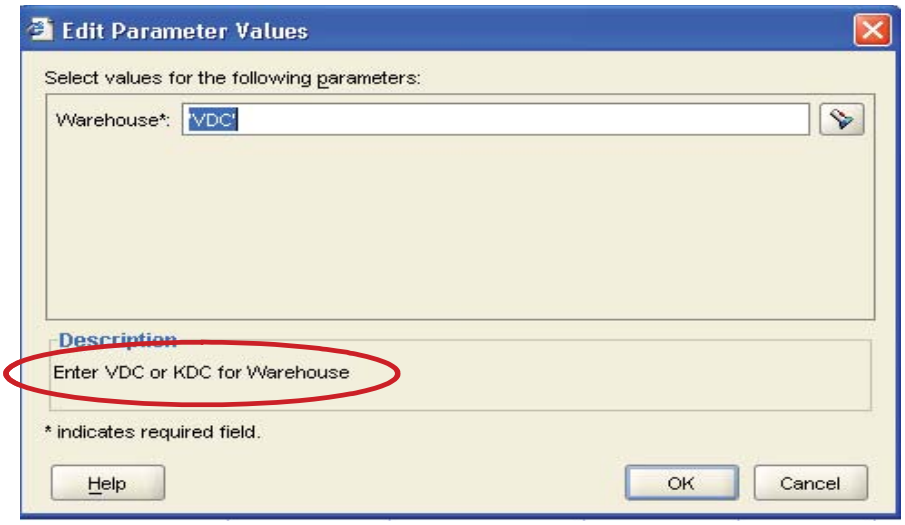
Generating a Different Report

When viewing a report on the screen, you can access and generate a different report: on the menu bar choose **File** then choose **Open**.

The Open Workbook from Database window displays the list of reports and you can select a different report to view.

Exiting Discoverer

To exit Discoverer, on the menu bar choose **File** then choose **Exit**.



The report window closes and you are logged out of Discoverer.

CTZ-2012-00087-A-22-12-01-86687

RPT-804a

Active X-dock Item Inventory by WH

This report has a **Warehouse** parameter.

1. Enter the desired warehouse (VDC or KDC). The field is case-sensitive, and the parameter must be in upper-case.
2. Click **OK**.

The report generates and displays on your screen.

Example of RPT-804a

RPT-804a-Active Cross Dock Item Inventory Report by WH

RPT-805

Slow Moving Active Products by WH by Week

The report requires parameters.

(A Date End of "SYSDATE" is the current date)

Warehouse: enter either VDC or KDC

Number of Cases: do not change this value

Date Start: to change the default value, enter the new date in the format shown - dd-mmm-yyyy

Date End: The default value is the current date (defined as SYSDATE). To change the default value, enter the new date as dd-mmm-yyyy.

This report is pre-defined to print correctly as "landscape" on 8 1/2 x 11 paper.

Example of RPT-805

(Parameters used to generate the report)

Glossary 40

Other Benefits Programs 45

Contact Information 46

Welcome to the health and life insurance benefits program for **bargaining unit employees**. The BC Public Service recognizes that competitive compensation and benefits programs are integral to our ability to attract and retain employees who foster excellence in the public service. This benefits program provides security to and enhances the quality of life for you and your family.

Your health and life insurance benefits program consists of the following benefits plans:

» **Medical Services Plan of B.C. (MSP)**

» **Extended health care plan**

» **Dental plan**

» **Group life insurance plan**

» **Optional spouse and dependent insurance**

You need to enrol in all but one of these benefits plans. If you do not complete the enrolment forms (see page 39), you will not be enrolled in the benefits plans. The exception is mandatory group life insurance, where you will be automatically enrolled and only need to designate a **beneficiary**.

Value of your benefits program

Benefits are an important component of your total compensation package. Your MSP premiums are 100 per cent employer paid and valued at over $600 per year (more if you have a family). The employer pays the full cost of your extended health and dental claims reimbursement, which, in some years, may be several thousand dollars. The group life insurance plan provides life insurance at a reasonable group premium rate and a portion of your premiums is paid by government. These are just some of the benefits that comprise your total compensation package. A list of other benefits programs and leave provisions can be found on page 45.

Important

Don't miss out

If you do not complete the enrolment forms (page 39), you will not be enrolled in the benefits plans.

You are responsible for providing accurate and timely enrolment information to maintain coverage for yourself, your spouse and/or dependent children.

Did you know?

On average, your benefits add over 20% to your overall compensation.

This guide provides a comprehensive overview of your benefits program. Share the information in this guide with your family so you can make the most of your benefits program.

We recommend that you review each section so you understand the benefits program available to you and any eligible **dependents**. Once you are familiar with your benefits program, you can use the guide as a quick reference for benefits information and related online forms.

Features of this guide

» **Sidebars:** Sidebars on each page highlight particularly important information related to each section of the guide. Pay careful attention to information in the sidebars.

» **Quick reference guide:** A quick reference on page 39 provides easy access to all of the steps and forms necessary to enrol in and update your health and life insurance benefits coverage. This page also links you to the claims form required to submit a **claim** for **reimbursement**.

» **Definitions:** A glossary starting on page 40 defines bolded terms that may be unfamiliar to you. If you are viewing this guide electronically, simply click on a bolded term for a definition.

» **Examples:** There are some places in the guide where examples help to clarify what is being described. If you are viewing the guide electronically simply click on **[EXAMPLE]** to view examples provided.

» **Other benefits:** Information about other benefits programs and leave provisions available to you can be found on page 45 at the end of this guide.

» **Contact information:** Contact information can be found on page 46. This page also includes a link to a discussion forum where you can provide feedback on the usefulness of this guide. If you are viewing this guide electronically, simply click on a bolded contact for contact information.

Note: This document provides details of benefit plans but it is not a legal document. In the event of any conflict between the contents of this guide and the actual plans and contracts or regulations, the provisions outlined in those documents apply.

Important

Pay particular attention to information in the sidebars. Important information is highlighted here.

Note

Please refer to the Quick Reference Guide on page 39 for links to all the necessary forms.

Employees

This benefits program applies to **bargaining unit employees** who participate in the BC Public Service Benefits Program. All **regular employees**, whether full- or part-time, can participate in this benefits program. Eligible **auxiliary employees** can also participate in this benefits program.

Dependents

Some benefits available to you as an employee can also be extended to your spouse and to any dependent children who meet eligibility requirements.

Spouse

A legal or **common-law** spouse (same or opposite sex) who is living with you is eligible for coverage as a dependent under your benefits plans.

If your spouse is also a **bargaining unit employee** covered by a provincial benefits plan provided under the *Public Service Benefit Plan Act*, only one of you can enrol in the benefits plans and list the spouse as a dependent.

If you separate from your spouse, s/he is no longer eligible for coverage under your benefits plans. Any terms and conditions under separation and divorce agreements are the responsibility of the employee, not the **employer**.

Coordination of benefits plans

If your spouse is an excluded BC Public Service employee or is enrolled in a benefits program with an employer outside of the BC Public Service, you may be able to coordinate the two benefits programs, and get up to 100% of eligible health and dental expenses reimbursed. An individual can claim for **reimbursement** first against their own plan and then against their spouse's plan.

Check your spouse's benefits program to see if it allows for **coordination of benefits** plans. You may be able to submit your receipts to both plans and get up to 100% of your **eligible expenses** reimbursed.

If you have coordinated benefits, you must submit your claims for reimbursement as follows:

1. Submit your claim for reimbursement and your original receipts to your plan. Once approved, you will receive your reimbursement and an **explanation of benefits statement**.
2. Submit the explanation of benefits statement and photocopies of receipts along with a claim for reimbursement to your spouse's plan, to claim the balance of the eligible expense.

If your spouse was submitting his/her claim, s/he would submit a claim to his/her plan first and to your plan second.

Important

Covering a different common-law spouse

Once a common-law spouse has been enrolled in your benefits plans, a different common-law spouse and any eligible dependent children may be enrolled in the plans 12 months after you cancel coverage for the previous common-law spouse and eligible dependent children.

Dependent children

Your children (natural, adopted*, step children or legal wards*) are eligible for coverage if they are unmarried/not in a common-law relationship, mainly supported by you, dependents for income tax purposes AND any of the following:

» Under the age of 19.

» Under the age of 25 and in **full-time attendance** at a school, university or vocational institution which provides a recognized diploma, certificate or degree.

» Accepted as a dependent for income tax purposes because of mental or physical infirmity or disability (at any age).

You are responsible for cancelling coverage for any dependent children when they no longer meet these eligibility requirements.

Children under the age of 19 and residing with a former spouse who is not eligible for coverage under an extended health plan, dental plan or Medical Services Plan of BC (MSP) may continue coverage under your plan.

A grandchild is NOT an eligible dependent unless adopted by or legal ward of the employee or the employee's spouse.

Certification of dependent children over 19

Coverage for a dependent child will automatically end at the end of the month in which s/he reaches age 19 unless you certify that the child is in **full-time attendance** at a school, university or vocational institution which provides a recognized diploma, certificate or degree. You must certify that dependent child's status as a student and re-certify that status each year to maintain coverage.

How do I certify dependent children?

To certify or register your dependent child as a student, complete an extended health care and dental plan change form and an MSP change form (page 39).

How do I re-certify dependent children?

Re-certification notices for each benefits plan will be sent to you by the benefits **carrier** (i.e., Pacific Blue Cross for extended health and dental plans and Health Insurance BC for **MSP**).

It is your responsibility to ensure that the requested certification forms *for each benefits plan* are completed and mailed to the **Benefits Service Centre** (see page 46 for contact info).

Coverage for a dependent child with student status will automatically end at age 25 unless the child has disability status.

*For adopted children or legal wards, photocopies of court papers or of legal documents must be attached to the enrolment or change form at **https://employee.gov.bc.ca/src/objects.cfm?objectID=46**.

Important

To maintain benefits and ensure uninterrupted coverage, when your dependent child reaches 19, you must certify his or her status as a student and re-certify that status each year.

Coverage for a dependent child with student status will automatically end at age 25 unless the child has disability status.

Submitting claims under coordinated benefits plans

If you have **coordinated benefits** with your spouse, submit claims for eligible dependent children as follows:

» If your birthday is earlier in the calendar year than that of your spouse, you are the first insurer and must submit **claims** for **reimbursement** and accompanying documentation to your plan first.

» Once approved, you will receive a reimbursement and an **explanation of benefits statement**.

» Your spouse will then complete a claim form and submit it, along with the explanation of benefits statement and photocopies of receipts, to his/her plan to claim the balance of the eligible expense.

When Does Coverage Begin?

Benefit	Regular Employee	Auxiliary Employee
Medical Services Plan (MSP)	• Eligible to apply immediately. • Coverage begins the first day of the month after becoming a **regular employee** or upon application, whichever is later. **[EXAMPLE]**	• Can apply after meeting eligibility* requirements. • Coverage begins the first day of the month after meeting eligibility requirements or upon application, whichever is later. **[EXAMPLE]**
Extended health & dental plans	• Eligible to apply immediately. • Coverage begins on the first day of the month after completion of six full calendar months of regular employment, or upon application, whichever is later. **[EXAMPLE]**	• Can apply after meeting eligibility* requirements. • Coverage begins the first day of the month after meeting eligibility requirements or upon application, whichever is later. **[EXAMPLE]**
Group life insurance plan	• There is no need to apply, only to designate a **beneficiary**. • Coverage begins immediately.	• There is no need to apply, only to designate a **beneficiary**. • Coverage begins the first day of the month after meeting eligibility requirements or upon application, whichever is later. **[EXAMPLE]**
Optional spouse & dependent life insurance	• Eligible to apply immediately. • If you apply within 90 days of hire or of acquiring your first dependent, coverage begins immediately. • If you apply after 90 days of hire or of acquiring your first dependent, coverage begins on the date the application is approved.	• Can apply after meeting eligibility* requirements. • If you apply within 90 days of meeting eligibility requirements or of acquiring your first dependent, coverage begins immediately. • If you apply after 90 days of meeting eligibility requirements or of acquiring your first dependent, coverage begins on the date the application is approved.

* Please see your Collective Agreement for eligibility requirements.

When does spouse and dependent children coverage begin? (MSP, extended health and dental plans)

Coverage of a legal or **common-law spouse** (same or opposite sex) and/or any eligible dependent children begins on the date on which the employee's coverage begins, or on the first day of the month following the date the enrolment form is received and processed by the **Benefits Service Centre**, whichever is later. Coverage for a newborn child is effective from the date of birth.

The BC Public Service recognizes that each of us, throughout our career in the BC Public Service, may experience various work events (e.g. becoming a new employee, traveling out of the country, leaving the public service, etc.) that will change the type of coverage we receive. The following is a list of common work status changes and their effects on benefits coverage. If you have any questions, please contact the **Benefits Service Centre** (see page 46 for contact info).

What Happens If...

I transfer from a regular to an auxiliary position?	Your benefits coverage ends at the end of the month of your date of transfer and you must re-qualify for benefits.
I am on a temporary assignment to an excluded position?	If your temporary assignment is 21 days or longer, you are eligible (and can apply) for the benefits program available to excluded employees. You become eligible on the first day of the month following the start of your temporary assignment to the excluded position. **[EXAMPLE]** More information about benefits for excluded employees is available at: **https://gww.gov.bc.ca/hr/flex-benefits**. If you return to your prior position, you return to your bargaining unit benefits plan.
I transfer to an excluded position?	You become eligible (and can apply) for the benefits program available to excluded employees. Refer to the Eligible Employees section in the Flexible Benefits guide (**https://gww.gov.bc.ca/sites/default/files/pdf/flexben/guide.pdf**).
I am actively working and I reach the age of 65?	You are no longer eligible for group life insurance but can convert to an individual plan. For more information, see Converting to Individual Benefit Plans on page 38 of this guide. *Note: You are also no longer eligible for long term disability.*
I retire from the BC Public Service?	Your coverage ends at the end of the month in which you retire. Retirement benefits are administered through the BC Public Service Pension Plan. Please review retirement benefits criteria at the BC Pension Corporation website (**http://www.pensionsbc.ca**).

I terminate from the BC Public Service?	Your extended health and dental coverage end on your last day of work. Your Medical Services Plan (MSP) and group life insurance end on the last day of the month in which your employment ends. Benefits coverage extended to an eligible spouse and/or dependent children will end the same date that your coverage ends.
I am laid off from the BC Public Service?	Your Medical Services Plan (MSP), extended health, dental and group life insurance end on the last day of the month of layoff. Benefits coverage can be continued for the three months following the month of layoff if you continue paying **premiums**. For more information, review the Coverage During Layoff (for both regular and **auxiliary employees**) section on @Your Service at: **https://employee.gov.bc.ca/src/objects.cfm?objectID=1005**.
I am on Short Term Illness and Injury Plan (STIIP)?	No changes to coverage.
I start to receive Long Term Disability (LTD) benefits?	No changes to coverage. However, while on LTD, you will be transferred to a different group number for administrative purposes.
I commence a rehabilitation trial?	No changes to coverage. When you return to work on a **rehabilitation trial** while on an accepted long term disability (LTD) claim, your LTD claim continues to be active.
I return to work from Long Term Disability (LTD)?	No changes to coverage. Upon full return to work, you will be transferred back to an appropriate group number for administrative purposes.
I am on leave with pay?	No changes to coverage. If you are on a leave with partial pay, review the Benefits While on Leave section of @Your Service at: **https://employee.gov.bc.ca/src/objects.cfm?objectID=1005**.
I am on leave without pay?	You can continue to receive benefits coverage by paying the entire premium. **[EXAMPLE]** Review the Continuation of Benefits While on Leave section on @Your Service at: **https://employee.gov.bc.ca/src/objects.cfm?objectID=1002**.

I am on maternity/parental/pre-placement adoption leave?	No changes to coverage. Review the Maternity, Parental and Adoption Leave section on @Your Service at: **https://employee.gov.bc.ca/src/sections.cfm?sectionID=562**.
I travel out of province?	Coverage depends on a number of factors, including whether you are on government business, on vacation or on a leave of absence. Please contact the **Benefits Service Centre** for more information (see page 46 for contact info). **Important** The Medical Services Plan (MSP) strongly advises BC residents to purchase additional health insurance when traveling out of province to cover the cost of services not included in the plan. Detailed information is available in the Information for Travellers document on @Your Service at: **https://employee.gov.bc.ca/src/objects.cfm?objectID=1246**.
I die?	Benefits coverage for you and any eligible dependents would end at the end of the month in which your death occurred.

As a resident of B.C., you must be covered under the Medical Services Plan of B.C. (MSP).

The Medical Services Plan (MSP) insures medically-required services provided by physicians and supplementary health care practitioners, laboratory services and diagnostic procedures. For more detailed information on MSP benefits, please visit the Ministry of Health Services website (**http://www.health.gov.bc.ca/msp/infoben/benefits.html**).

This benefit, which is 100% **employer** paid, is a **taxable benefit**. As such, you should ensure you are only enrolled once in the plan to avoid paying unnecessary taxes. Check with your spouse to see if you may already be covered under his/her plan. There may be a tax advantage for the lower income earner to provide MSP coverage (and the higher income earner being the dependent), but individual circumstances will vary.

Eligibility

To be eligible for MSP coverage, employees, spouses and dependent children must:

» Be residents of British Columbia.

» Be Canadian citizens, permanent residents or temporary document holders.

Employees must also meet the eligibility requirements for regular and **auxiliary employees** outlined earlier.

If you and/or your dependents recently moved to B.C., MSP requires a waiting period of the remainder of the month in which your residence in B.C. is established, plus two months.

How to enrol

To enrol in MSP, you will need to download and fill out the MSP group application form (**https://employee.gov.bc.ca/src/fileuploads/167fil_Application_for_Group_Enrolment.pdf**) and mail it to the **Benefits Service Centre** for processing (see page 46 for contact info).

The extended health plan reimburses specified medical expenses which are not covered by the Medical Services Plan (MSP) or reimbursed through the **PharmaCare** program.

Overview

Detailed descriptions of expenses eligible for reimbursement under this plan are provided on page 15 of this guide.

Before you receive reimbursements you must pay the **annual deductible** unless you are claiming for reimbursement of an expense not subject to the annual deductible.

Unless otherwise stated, you will be reimbursed at 80 per cent of the first $1,000 per person in a calendar year and then 100 per cent for the balance of the year (subject to some restrictions and plan maximums).

There is a lifetime maximum of $250,000 per covered person. This lifetime maximum may be reinstated after paying for any one serious illness on the basis of satisfactory evidence provided by the employee to the **carrier** of complete recovery and return to good health.

This is an employer-paid, **non-taxable benefit**.

CARESnet

Pacific Blue Cross, who administers your extended health plan on behalf of the **employer**, offers CARESnet. CARESnet is an online system that allows you to view your extended health benefit information and claims history online and arrange to have extended health and dental claim **reimbursements** deposited directly into your bank account. The enrolment form for this service can be downloaded from the CARESnet section of the Pacific Blue Cross website (**https://caresnet.pbchbs.com/CARESNet**).

PharmaCare

The **PharmaCare** program helps B.C. residents with the cost of eligible prescription drugs and designated medical supplies. The plan provides financial assistance for individuals and families, based on their income, and requires a one-time registration. Once you are eligible for coverage, PharmaCare will pay a portion of your prescription. This reduces your extended health care claim, which protects your lifetime maximum (less of your lifetime maximum is used up by each claim). *Extended Health Plan members must be registered for PharmaCare*. You can register online at **https://pharmacare.moh.hnet.bc.ca/PPIBroker?ExternalAction=JppiApply** or by phone at 1-800-663-7100.

Important

Be sure you are eligible for coverage before you visit a service provider by waiting until your Pacific Blue Cross ID card arrives in the mail or by calling the **Benefits Service Centre** for your group and ID numbers (see page 46 for contact info).

You can protect the lifetime limit of your extended health care plan by registering for PharmaCare.

Note

Pre-authorization is recommended for items costing over $1,000.

Did you know?

Converting to an Individual Plan

If your employment ends you can apply to convert to an individual extended health plan. See Converting to Individual Benefits Plans (page 38) for more information and important application deadlines.

Purchasing prescription drugs

If your pharmacy has the Pay Direct system, your pharmacist will be able to electronically submit your **claim** for prescriptions. Present your Pacific Blue Cross ID card and pay only the portion of the cost that is not covered by your benefits plan.

If your pharmacy does not have the Pay Direct system, you will need to pay the full cost of your prescription at the pharmacy and then submit your receipt with a claim form to receive **reimbursement**. See page 24 for instructions on how to make a claim.

Coordinated benefits

The Pay Direct system can only process a claim under one plan (the system can only submit for direct payment claims to the first payer's benefits plan).

If you have coordinated benefits, the second payer *must* submit a claim form (and applicable receipts) to his/her plan to be reimbursed for the remainder of the claim.

Did you know?

You can show your Pacific Blue Cross ID card at most pharmacies and receive immediate **reimbursement** for prescription drugs.

Note

Dispensing fees and prescription drug costs vary between pharmacies. Shop around for the best value.

What is Covered by Your Extended Health Plan?

The following is a list of expenses eligible for reimbursement under the extended health plan when incurred as a result of a necessary treatment of an illness or injury and, where applicable, when ordered by a physician and/or surgeon.

Annual deductible

Before you receive **reimbursements**, you must pay an $80 **deductible** in each calendar year, unless you are claiming for reimbursement for an expense that is not subject to the annual deductible (such as hearing aids or contact lenses).

Unless otherwise stated, you will be reimbursed at 80 per cent of the first $1,000 per person in a calendar year and then 100 per cent for the balance of the year (subject to some restrictions and plan maximums).

Feature	Description
Accidental injury to teeth	**The plan will reimburse:** dental treatment by a dentist or denturist for the repair or replacement of natural teeth or prosthetics, which is required and performed and completed within 52 weeks after an accidental injury which occurred while covered under this plan. No reimbursement will be made for temporary, duplicate, or incomplete procedures, or for correcting unsuccessful procedures. Expenses are limited to the applicable **fee guide or schedule**. Note: "Accidental" means caused by a direct external blow to the mouth or face resulting in immediate damage to the natural teeth or prosthetics and not by an object intentionally or unintentionally being placed in the mouth.
Acupuncture	**The plan will reimburse:** acupuncture treatments performed by a medical doctor or a registered acupuncturist (College of Traditional Chinese Practitioners and Acupuncturists of British Columbia). **Maximum:** $200 per individual per calendar year or up to $500 per family per calendar year.
Breast prosthetics	**The plan will reimburse:** mastectomy forms and bras. **Maximum:** $1,000 per calendar year.

Feature	Description
Chiropractor	**The plan will reimburse:** chiropractic treatments performed by a registered chiropractor (College of Chiropractors of British Columbia). **Maximum:** See Paramedical Services on page 20. Note: X-rays taken by a chiropractor are not eligible for reimbursement.
Contraceptives	**The plan will reimburse:** prescribed oral or injectable contraceptives subject to **PharmaCare's** policies including **reference-based pricing** and **low cost alternative**. **Maximum:** **Dispensing fee** of $7.60 and mark-up of seven per cent over the manufacturer's list price.
Counsellors, registered clinical	**The plan will reimburse:** the service fee of a registered clinical psychologist or counsellor. To determine if a psychologist is registered for claiming purposes, contact either: • Victoria: BC Association of Clinical Counsellors in Victoria at 250-595-4448 (toll free 1-800-909-6303). • Vancouver: College of Psychologists at 604-736-6164. **Maximum:** $500 per family per calendar year. Note: You may also wish to refer to the BC Employee and Family Assistance Program (EFAP) at **https://employee.gov.bc.ca/src/objects.cfm?objectID=2833** if you are interested in accessing counselling services. EFAP provides short term counselling sessions at no cost to you.

Feature	Description
Drugs and medicines	**The plan will reimburse:** covered drugs and medicines purchased from a licensed pharmacy, which are dispensed by a pharmacist, physician or dentist subject to **PharmaCare's** policies including **reference based pricing** and **lowest cost alternative**. It is recommended that you shop around for the best value. Drugs and medicines include: • Injectables provided by a medical practitioner and drugs used by a medical practitioner when providing services under circumstances whereby the drug is not otherwise provided. • Insulin preparations, testing supplies, needles and syringes for diabetes. • Vitamin B12 for the treatment of pernicious anaemia. • Allergy serums when administered by a physician. • Other drugs and medicines that require a prescription from a medical provider who is legally authorized to do so, including oral and injectable contraceptives. **Maximum: Dispensing fee** of $7.60 and a maximum mark-up of seven per cent over the manufacturer's list price. Note: Where an alternative drug to those normally covered by PharmaCare is required, your doctor can contact PharmaCare for special authority to reimburse the alternative drug. For more information visit: **http://www.health.gov.bc.ca/pharmacare/sa/criteria/formsindex.html**.
Emergency ambulance services	**The plan will reimburse:** • Charges for licensed ambulance service to and from the nearest Canadian hospital equipped to provide the type of care essential to the patient. • Air transport when time is critical and the patient's physical condition prevents the use of another means of transport. • Emergency transport from one hospital to another, only when the original hospital has inadequate facilities. • Charges for an attendant when medically necessary.
Examinations, medical	**The plan will reimburse:** medical examinations provided by a physician, required by a statute or regulation of the provincial and/or federal government for employment purposes, for you and all of your registered dependents, provided such charges are not otherwise covered.

Feature	Description
Examinations, vision	**The plan will reimburse:** fees for routine eye examinations every two calendar years, when performed by a physician or optometrist for persons between the ages of 19 and 64. **Maximum:** $75 per two calendar years. Note: MSP covers the routine eye examination for those 18 years and under and 65 years and over. Your practitioner may charge more than what is payable by MSP for this service.
Hairpieces	**The plan will reimburse:** hairpieces and wigs for chemotherapy and alopecia patients. **Maximum:** $500 per 24 months.
Hearing aids and repairs	**The plan will reimburse:** hearing aids and repairs. This benefit is not subject to the annual **deductible**, and is reimbursed at 100 per cent. **Maximum:** • $1,500 per ear/48 months for adults. • $1,500 per ear/24 months for children. Note: Batteries, recharging devices or other such accessories are not covered.
Hospital charges	**The plan will reimburse:** additional charges for semi-private or private accommodation over and above the amount paid by provincial health care for a normal daily public ward while you are confined in a hospital under active treatment. This does not include telephone or TV rental or other amenities.
Massage therapy	**The plan will reimburse:** massage treatments performed by a registered massage practitioner (College of Massage Therapists of British Columbia). **Maximum:** See Paramedical Services on page 20. Note: X-rays taken by, and drugs, medicines or supplies recommended and prescribed by a massage therapist are not covered.
Mastectomy forms and bras	**The plan will reimburse:** mastectomy forms and bras. **Maximum:** $1,000 per calendar year.

Feature	Description
Miscellaneous	**The plan will reimburse:** fees for oxygen, blood or blood plasma, artificial limbs or eyes, crutches, walkers, splints, casts, trusses or braces.
Naturopathic physician	**The plan will reimburse:** naturopathic services performed by a naturopathic physician (licensed by College of Naturopathic Physicians of British Columbia). **Maximum:** See Paramedical Services on page 20. Note: X-rays taken by, and drugs, medicines or supplies recommended and prescribed by a naturopathic physician are not covered.
Needleless injectors	**The plan will reimburse:** • Needleless injectors (up to $500/60 months) when prescribed by a physician. • Diabetic needles (up to $500/60 months) when prescribed by a physician. Note: You cannot claim both.
Orthopedic shoes	**The plan will reimburse:** custom-fit orthopedic shoes, including repairs, orthotic devices and modifications to stock item footwear when prescribed by a physician or podiatrist for the proper management of congenital or post-traumatic foot problems. **Maximum:** $400 per person per calendar year (subject to benefit plan restrictions). Note: Arch supports/inserts are not covered. Note: Prior to obtaining services for these items, please review the Pacific Blue Cross website at **http://www.pbchbs.com/Corp/members/FAQEHC.aspx#orthotics** for important information (and checklists) about claiming for orthotics and orthopedic shoes.
Out-of-province emergencies	**The plan will reimburse:** reasonable charges for a physician's services, less any amount paid or payable by **MSP** in the event of an emergency while travelling or while on vacation outside of your province of residence. **Maximum:** Lifetime maximum of the plan. Note: Information for travellers is available at **https://employee.gov.bc.ca/src/objects.cfm?objectID=1246**.

Feature	Description
Paramedical services • Chiropractor • Massage therapist • Naturopathic physician • Physiotherapist • Podiatrist	**The plan will reimburse:** chiropractic treatments, massage therapy, naturopathy, physiotherapy and podiatry treatments performed by practitioners registered in the province where the service is rendered. **Maximum:** • Chiropractor, naturopathic physician and podiatrist: $200/year per person or $500/year per family. • Massage therapist: $750/year per person. • Physiotherapist: no maximum. Claims will be reimbursed 80 per cent of $10 for the first eight visits. After eight visits, you will be reimbursed 80 per cent of the visit fee for further visits (subject to **reasonable and customary limits**) until maximum entitlement is reached.
Physiotherapist	**The plan will reimburse:** professional services performed by a registered physiotherapist (College of Physical Therapists of British Columbia). **Maximum:** See Paramedical Services above.
Podiatrist	**The plan will reimburse:** professional services performed by a registered podiatrist (British Columbia Association of Podiatrists). **Maximum:** See Paramedical Services above. Note: X-rays taken or other special fees charged by a podiatrist are not covered.
Private duty nurse (in hospital)	**The plan will reimburse:** fees for a registered nurse for special duty nursing in acute cases while you are registered as a bed patient in a public general hospital. The services of a private duty nurse require referral by a physician. Note: The special duty nurse providing the service must not be related by blood or marriage (legal or common-law) to the covered person and must not be an employee of the hospital in which the special nursing services are performed.
Prostate Serum Antigen (PSA) test	**The plan will reimburse:** a PSA test once per calendar year.

Feature	Description
Psychologist	**The plan will reimburse:** the service fee of a registered clinical psychologist or counsellor. To determine if a psychologist is registered for claiming purposes, contact either: • Victoria: BC Association of Clinical Counsellors in Victoria at 250-595-4448 (toll free 1-800-909-6303). • Vancouver: College of Psychologists at 604-736-6164. **Maximum:** $500 per family per calendar year. Note: You may also wish to refer to the BC Employee and Family Assistance Program (EFAP) at **https://employee.gov.bc.ca/src/objects.cfm?objectID=2833** if you are interested in accessing counselling services. EFAP provides short term counselling sessions at no cost to you.
Smoking cessation	**The plan will reimburse:** drugs and supplies for prescription and non-prescription smoking cessation. This includes nicotine replacement therapy (NRT) products such as gum, patch or inhaler and eligible prescription drugs such as Champix or Zyban. If you wish to be reimbursed, you must register in the Quittin' Time program prior to purchasing any smoking cessation products or drugs. For more information, please visit the Quittin' Time website at: **http://www.quittintime.gov.bc.ca/**. **Maximum:** $300 per calendar year and a lifetime maximum of $1,000 per individual. Note: Reimbursement is subject to the normal plan rules, such as the **annual deductible** and 80 per cent **co-insurance**.
Therapeutic equipment	**The plan will reimburse:** the cost of renting, where more economical, or the purchase cost of durable equipment for therapeutic treatment including wheelchairs and standard hospital beds. Note: **Pre-authorization** is recommended for items costing over $1,000 and is required for items over $5,000.
Vision	**The plan will reimburse:** Purchase and/or repair of corrective eyewear, charges for contact lens fittings and laser eye surgery, when prescribed or performed by an optometrist, ophthalmologist or physician. This benefit is not subject to the annual deductible and is reimbursed at 100 per cent (to benefit plan limits). **Maximum:** a combined maximum of: • $250/24 months for adults. • $250/12 months for dependent children. Note: Charges for non-prescription eyewear are not covered.

What is *Not* Covered by Your Extended Health Plan?

The following expenses are not eligible for **reimbursement** under this plan:

» **Except as outlined in this plan**: dentures or dental treatments, hearing aids, eyeglasses, contact lenses, surgical lens implants, or examinations for the prescription or fitting of any of these, x-rays, hospital coinsurance, vitamin preparations, contraceptives, erectile dysfunction drugs, medications used to treat or replace an addiction or habituation, support stockings, arch supports and travel expenses incurred to obtain medical treatment.

» Charges for the rental of a telephone, television, or similar equipment in a hospital.

» General anaesthetic, medications used to prevent baldness or promote hair growth, food and mineral replacements or supplements, HCG injections, drugs not approved for sale and distribution in Canada, and medications available without a prescription.

» Allergy testing, unless rendered by a naturopath.

» Vaccinations for travelling outside of the country.

» Personal comfort items, items purchased for athletic use, air humidifiers and purifiers, services of the Victorian Order of Nurses or graduate or licensed practical nurses, services of religious or spiritual healers, occupational therapy, services and supplies for cosmetic purposes, public ward accommodation and rest cures.

» Charges for completion of forms or written reports, communication costs, delivery and mailing or handling charges, interest or late payment charges, non-sharable or capital costs levied by local hospitals, or charges for translating documents into English.

» Professional services of physicians or any person who provides a professional health service in the patient's province of residence, except as expressly provided in this plan.

» The portion of a claim normally covered by a government plan (such as MSP or PharmaCare) which has been refused on the basis that the claim was not submitted within that plan's time limits.

» Out-of-province of residence expenses incurred due to elective treatment and/or diagnostic procedures, or complications related to such treatment.

» Out-of-province of residence expenses incurred due to therapeutic abortion, childbirth, or complications of pregnancy occurring within two months of the expected delivery date.

» Charges incurred outside the province/territory of residence for continuous or routine medical care normally covered by a government plan (such as MSP or PharmaCare) in the person's province or territory of residence.

- Transportation charges incurred for elective treatment and/or diagnostic procedures, or for health or health examinations of any kind.
- Expenses of a spouse or dependent already hospitalized at the time of enrolment.
- Fees for ambulance services when an ambulance is called but not used.
- Any drug, vaccine, item or service classified as preventative treatment or administered for preventative purposes, and which is not specifically required for the treatment of an existing illness or injury.
- Ambulance charges for work related illness or injury assessed by Workers' Compensation Board to be the **employer's** responsibility.
- Retroactive coverage and payment of any expense, including expenses that receive special authorization from **PharmaCare**.
- Any portion of a specialist's fee not allowable under **MSP** due to non-referral, or any fee charged by any practitioner in excess of the recognized fees for such services (e.g., expenditures in excess of **reasonable and customary charges**).
- Any item not specifically listed as being covered under this plan.

Enroling, Making Changes and Making a Claim

How to enrol and make changes

To enrol in, update or terminate from the extended health plan, you must complete the extended health and dental enrolment/change/termination form (**https://employee.gov.bc.ca/src/fileuploads/bcpsa42FILL.pdf**) and mail it to the **Benefits Service Centre** for processing (see page 46 for contact info).

If you have any questions, please contact the **Benefits Service Centre** (see page 46 for contact info).

How to make a claim

To make a claim for **reimbursement** under the extended health plan, you must complete an extended health care claim form (**https://employee.gov.bc.ca/src/fileuploads/EH_Claim_Form.pdf**). Please read the instructions carefully and attach all required documentation to ensure timely processing of your claim. Mail this claim directly to **Pacific Blue Cross** (mailing address is listed on the first page of the form).

You are responsible for meeting the claiming deadlines, which you can confirm by logging into CARESnet (**https://caresnet.pbchbs.com/CARESnet/**).

Please keep copies of your original receipts because they cannot be returned to you.

For claims questions, please contact **Pacific Blue Cross** (see page 46 for contact info).

Claiming Deadline

Extended health claims **must** be received by June 30 following the end of the calendar year in which the expense was incurred.

Don't miss out!
File your claims on time!

Important

File your claims on time

Extended health claims must be received by June 30 following the end of the calendar year in which the expense was incurred.

Remember

CARESnet

You can view your benefits and claims information online and register to have claims reimbursements deposited directly into your bank account through CARESnet at: **https://caresnet.pbchbs.com/CARESnet**.

Questions?

For claims questions, please contact **Pacific Blue Cross**.

For all other enquiries, please contact the **Benefits Service Centre**.

See page 46 for complete contact information.

The dental plan is designed to assist you with the cost of your dental care and reimburses most basic and major dentistry and orthodontic services.

Overview

Dental coverage is available for services in B.C. and for emergency dental services while traveling anywhere outside of B.C. (the plan will cover **eligible expenses** up to the amount it would have covered had the services been performed in B.C.).

This is an employer-paid, **non-taxable benefit**.

It is your responsibility to contact **Pacific Blue Cross** (see page 46 for contact info) to verify that certain procedures are covered before the treatment is performed, and for meeting any **claiming deadlines**. For more in-depth information, visit the Pacific Blue Cross website at **http://www.pac.bluecross.ca/**.

CARESnet

Pacific Blue Cross, who administers your dental plan on behalf of the **employer**, offers CARESnet. CARESnet is an online system that allows you to view your extended health and dental benefit information and claims history online and arrange to have claim **reimbursements** deposited directly into your bank account. The enrolment form for this service can be downloaded from the CARESnet section of the Pacific Blue Cross website (**https://caresnet.pbchbs.com/CARESNet**).

What is covered by your dental plan?

Dental services fall into three categories or plans:

- Plan A - Basic preventative and restorative services.
- Plan B - Major services.
- Plan C - Orthodontic services.

Detailed information about your coverage in each of these plans follows.

Important

Be sure you are eligible for coverage before you visit the dentist by waiting until your Pacific Blue Cross ID card arrives in the mail or calling the **Benefits Service Centre** for your group and ID numbers (see page 46 for contact info).

Did you know?

Converting to an Individual Plan

If your employment ends you can apply to convert to an individual dental plan. See Converting to Individual Benefits Plans (page 38) for more information and important application deadlines.

Plan A – Basic Preventative and Restorative Services

Basic dentistry comprises services that are routinely available in the office of a general practicing dentist and that are necessary to restore teeth to natural or normal function. **[EXAMPLE]**

Reimbursement

You will be reimbursed 100 per cent for the cost of the basic dental services outlined below. Note that if services are performed by a specialist, the fee is equal to that of the general practitioner, plus 10 per cent, or to the current B.C. specialist fee schedule, whichever is less.

What is covered?

Diagnostic Services are procedures conducted to determine or diagnose the dental treatment required, and include:

» Standard oral examinations.

» Specific oral examinations.

» X-rays (including panoramic x-rays).

Note:

» A **specific oral examination** will be reimbursed once for any specific area and only if a standard oral examination has not been reimbursed within the previous 60 days.

» A **complete oral examination** will be reimbursed to a maximum of once every three years, but not if the plan has reimbursed for any examination during the preceding nine months.

Preventative Services to prevent oral disease:

» Cleaning and polishing teeth – once every nine months (once every six months for dependent children under 19).

» Topical fluoride – once every nine months (once every six months for dependent children under 19).

» Fixed space maintainers intended to maintain space and regain lost space but not to obtain more space.

Restorative Services

» Fillings – amalgam fillings and composite (white) fillings on all teeth. Note that specialty fillings (and crowns) such as synthetic porcelain plastic, composite resin, stainless steel and gold may result in additional cost to be paid by the employee (or dependent).

» Stainless steel crowns on primary and permanent teeth.

» Inlays and onlays.

Note: Only one inlay, onlay or other major restorative service involving the same tooth will be covered in a five-year period.

Important

Time limits

For dependent children under 19 years of age, general recall services (oral exam, polishing, scaling and fluoride) are covered once every six calendar months.

For adults and students covered under the dental plan, age 19 and older, these services are covered once every nine calendar months.

Surgical Services

» All necessary procedures for extractions and other surgical procedures necessary for the treatment of disease of the soft tissue (gum) and the bones surrounding and supporting the teeth, but not tissue grafts.

» Endodontics – treatment of diseases of the pulp chamber and pulp canal including but not limited to basic root canal.

Periodontal Services

» Treatment of diseases of the soft tissue (gum) and bones surrounding and supporting the teeth including occlusal adjustment, root planing, gingival curettage and scaling, but excluding grafts.

Replacement and Repairs

» The repair of fixed appliances and the rebase or reline of removable appliances that may be done by a dentist or by a licensed dental mechanic. Relines will only be covered once per 24-month period.

Note:

» With crowns, restoration for wear, acid erosion, vertical dimension and/or restoring occlusion is not covered. Check with **Pacific Blue Cross** (see page 46 for contact info) before proceeding.

» Temporary procedures (i.e., while awaiting repair of an appliance) are not covered.

Plan B – Major Services

Major Services applies to services required for reconstruction of teeth and for the replacement of missing teeth (e.g., crowns, bridges and dentures), where basic restorative methods cannot be used satisfactorily. To determine how much of the cost will be paid by the plan, and the extent of your financial liability, you should submit a treatment plan to Pacific Blue Cross for approval before treatment begins (see page 46 for contact info).

Reimbursement

Major services are 65 per cent covered. Only one major restorative service involving the same tooth will be covered in a five-year period.

What is covered?

Removable prosthetics

» Full upper and lower dentures or partial dentures of basic standard design and material. Full dentures can be provided by a dentist or a licensed dental mechanic. Partials can only be provided by a dentist.

No benefit is payable for the replacement of lost, broken, or stolen dentures. Broken dentures can, however, be repaired under Plan A.

Fixed prosthetics

» Bridgework to artificially replace missing teeth with a fixed prosthesis.

Restorative Services

» Veneers.

» Crowns and related services.
Note: specialty crowns and fillings such as synthetic porcelain plastic, composite resin, stainless steel and gold may result in additional cost to be paid by the employee or dependent.

Replacement and Repairs

» Removal, repairs and recementation of fixed appliances.

Important

A dentist may charge more for services than the amount set in the governing schedule of fees or may offer to provide services more frequently than provided for in the fee guide. You are responsible for any financial liability resulting from services performed which are not covered or that exceed the costs covered by the plan.

Plan C – Orthodontic Services

This plan is designed to cover orthodontic services provided to maintain, restore or establish a functional alignment of the upper and lower teeth. The plan will reimburse orthodontic services performed after the date coverage begins.

Pre-approval

To claim orthodontic benefits, **Pacific Blue Cross** must receive:

» A treatment plan (completed by the dentist) before treatment starts.

» Photocopies of receipts monthly, as treatment progresses (do not hold receipts until the treatment is complete).

Reimbursement

Services to correct the abnormal arrangement of teeth and/or jaws, to straighten them and to keep them in the correct position are 55 per cent covered.

Your total lifetime maximum payment (under Plan C), for each covered person, is $3,500.

The **carrier** will pay benefits on a monthly basis. If you pay the full amount to the dentist in advance of completed treatment, the carrier will **prorate** benefit payment over the months of the treatment period.

No benefit is payable for the replacement of appliances which are lost or stolen.

Treatment performed solely for splinting is not covered.

What is *Not* Covered by Your Dental Plan?

The following are not **eligible expenses** under this plan and you will not be reimbursed for these expenses:

» Charges for broken appointments, oral hygiene or nutritional instruction, completion of forms, written reports, communication costs, or charges for translating documents into English.

» Procedures performed for congenital malformations or for purely cosmetic reasons.

» Charges for drugs, general anaesthesia, pantographic tracings, and grafts.

» Charges for implants and/or services performed in conjunction with implants, except as indicated in the **fee schedule**.

» Charges for services related to the functioning or structure of the jaw, jaw muscles or temporomandibular joint.

» Incomplete or temporary procedures.

» Recent duplication of services by the same or different dentist/dental specialist/denturist.

» Dental treatment that is not approved by the Canadian Dental Association or that is experimental.

» Procedures involving the use of gold if the treatment could have been provided at lower cost by means of a reasonable substitute consistent with generally accepted dental practice. If this is the case only the expense that would have been incurred for treatment by means of the reasonable substitute will be covered.

» Any extra procedure that would normally be included in the basic service performed.

» Items not listed in the fee schedule and fees in excess of those listed in the fee schedule.

» Services or items which would not normally be provided, or for which no charge would be made, in the absence of insurance.

» Travel expenses incurred to obtain dental treatment.

» Any other item not specifically included under benefits.

Enroling, Making Changes and Making a Claim

How to enrol and make changes

To enrol in, update or terminate from the dental plan, you must complete the extended health and dental enrolment/change/termination form at **https://employee.gov.bc.ca/src/fileuploads/bcpsa42FILL.pdf** and mail it to the **Benefits Service Centre** (see page 46 for contact info).

If you have any questions, please contact the **Benefits Service Centre** (see page 46 for contact info).

How to make a claim

If your dentist is not able to submit your claim directly to the **carrier**, you must complete a dental claim form (**https://employee.gov.bc.ca/src/fileuploads/20-70-201ppat.pdf**) to receive your **reimbursement**. Please read the instructions carefully and attach all required documentation to ensure a timely processing of your claim. Mail this **claim** directly to the carrier (mailing address is listed on the first page of the form).

You are responsible for meeting the claiming deadline, which you can confirm by logging onto CARESnet at **https://caresnet.pbchbs.com/CARESnet/**.

Please keep copies of your original receipts because they cannot be returned to you.

For claims questions, please contact: **Pacific Blue Cross** (see page 46 for contact info).

Claiming Deadline

Dental claims must be received within 12 months of the date of service.

Don't miss out!
File your claims on time!

Important

File claims on time

Dental claims must be received within 12 months of the date of service.

Remember

CARESnet

You can view your benefits and claims online and register to have claims reimbursements deposited directly into your bank account through CARESnet at **https://caresnet.pbchbs.com/CARESnet**.

Questions

For claims questions, please contact **Pacific Blue Cross**.

For all other enquiries, please contact **Benefits Service Centre**.

Complete contact information can be found on page 46.

Group life insurance plans help protect you and your loved ones from the financial burden of a loss.

This life insurance plan pays a benefit to the member's **designated beneficiary** or to his/her **estate** in the event of an employee's death. Coverage is effective 24 hours a day, seven days a week. This policy is a term life insurance policy and has no cash value. Features of the plan include:

- Basic life insurance.
- Accidental dismemberment and loss of sight benefit.
- Advanced payment for terminally ill employees.
- A funeral advance option.
- A **conversion policy** (see sidebar).

Employees can also purchase optional spouse and dependent insurance (the employee being the beneficiary).

Remember

Converting to an Individual Plan

If your employment ends or you reach age 65, you can apply to convert to an individual life insurance plan. See Converting to Individual Benefits Plans (page 38) for more information and important application deadlines.

Employee Basic Life Insurance (to age 65)

Employee basic life insurance is mandatory. No enrolment is necessary - you are automatically covered when you meet **eligibility requirements**.

You will want to consider designating a beneficiary for your life insurance (see sidebar).

Except as noted, coverage is equal to three times annual salary or the employer-paid minimum coverage ($80,000), whichever is greater.

Annual salary is defined as your bi-weekly salary times 26.0893 and coverage is rounded up to the nearest $1,000.

Notes:

1. **For nurses hired before May 1, 1990**: coverage equals two times annual salary rounded up to the nearest $1,000, with an employer-paid minimum of $40,000 unless the plan member elected the higher level of coverage (outlined above).
2. **For employees working past age 65**: group life insurance (and long term disability) will cease at the end of the month in which an employee turns 65. Employees have the option to convert their group life insurance plan to an **individual plan**. See Converting to Individual Benefits Plans (page 38) for more information and important application deadlines.
3. **For employees who retire before age 65**: group life insurance will continue until the age of 65 provided that:
   - » While an employee, the retiree was covered under the group life insurance plan administered by the BC Public Service Agency.
   - » The retiree begins receiving a pension the month following termination of employment AND elects (on his/her pension application form) to continue group life insurance coverage. Those under 65 will be provided with this option (see your pension package). You are not eligible for this coverage if there has been a break in service from the end of employment to the commencement of your pension payment.

Premiums

The **premium** for the first $80,000 of insurance coverage is paid for by the **employer** and is a **taxable benefit**. The employee-paid monthly premium for coverage above $80,000 is 17 cents per thousand dollars (rate subject to change), and is paid through payroll deduction.

Important

Designating a beneficiary

It is recommended that you complete a beneficiary designation form. The insurance payment is non-taxable when paid to a designated beneficiary. If a plan member dies and has not designated a beneficiary, the benefit will be paid to the member's **estate** and will become part of the proceeds of the estate for tax purposes.

If beneficiaries change, members must complete a new form and forward it to the **Benefits Service Centre** (see page 46 for contact info).

The beneficiary designation form is available at:

- For employees: **https://employee.gov.bc.ca/src/objects.cfm?objectID=1201**
- For retired members: **https://employee.gov.bc.ca/src/objects.cfm?objectID=1202**

Accidental dismemberment and loss of sight clause

The group life policy includes an accidental dismemberment clause that will pay a benefit to the employee for a number of losses suffered as a result of an accident. The group life insurance plan includes a table of losses and the amount payable. Some examples are:

The **principal sum** is payable for one of the following:

» Loss of both hands or feet.

» Loss of sight of both eyes.

» Loss of one hand and one foot.

» Loss of one hand or one foot and sight of one eye.

If benefits are paid to you because of an accidental dismemberment or loss of sight benefit **claim**, and you die as a result of that injury, the payment to your **beneficiary** will be reduced by the benefit payment you received before your death.

Advance payment for terminally ill employees

An advance payment of up to $50,000 or 50 per cent of the group life insurance, whichever is less, is available to **eligible employees**. This payment is non-taxable.

To be eligible for the advance payment, you must be suffering from a terminal illness with a life expectancy of 24 months or less.

Advance payment claim forms are available from the **Benefits Service Centre** (see page 46 for contact info). Your request for a claim form should include:

» Full name.

» Social Insurance Number.

» Current address.

» Telephone number.

» Last day worked.

» Work status.

Mail completed documents to the **Benefits Service Centre** (see page 46 for contact info) for processing.

The balance of the group life insurance will be paid to your beneficiary upon your death. Interest payments will be charged against the advanced payments.

Important

To initiate an advance payment, contact the **Benefits Service Centre** (see page 46 for contact info).

The **Benefits Service Centre** will provide forms for you and your physician to complete. Once completed, mail the forms to the **Benefits Service Centre** for processing.

Funeral advance

An advance of $8,000 can be expedited to the **beneficiary** in the event of an employee's death. This does not apply if the **estate** or a **minor** child has been designated as the beneficiary. The balance of the group life insurance benefit will be paid once the beneficiary has submitted the claim.

To apply for the funeral advance, the beneficiary should contact the **Benefits Service Centre** (see page 46 for contact info) and provide the following information:

» Name of deceased person.

» Date of birth of deceased person.

» Date of death of deceased person.

» Full name, address and phone number of beneficiary.

After confirming that the advance is payable, the **Benefits Service Centre** will contact the **carrier** and a cheque will be mailed directly to the beneficiary, usually within a few days of the request.

Optional spouse and dependent life insurance

This optional plan provides spousal coverage of $10,000 and child coverage of $5,000 per dependent child. The beneficiary of this coverage is the employee. The **premium** is $2 per month, regardless of the number of dependents (rate is subject to change). Coverage will be effective once the application is approved.

To enrol for this coverage, complete the enrolment form at **https://employee.gov.bc.ca/src/objects.cfm?objectID=1267** and mail it to the **Benefits Service Centre** (see page 46 for contact info).

You must apply for coverage within 90 days of the earlier of:

» Becoming a **regular employee**.

» Completing the required hours to become eligible for benefits if you are an **auxiliary employee**.

» Acquiring your first spouse or dependent.

Otherwise, you will be required to submit evidence of insurability, and coverage will be subject to approval by the **carrier**.

Important

If you wish to cancel optional spouse and dependent life insurance, you must complete the election form indicating you wish to cancel this coverage. This coverage does not automatically cancel when you remove dependents from your MSP and extended health and dental plans.

Enroling, Making Changes and Making a Claim

How to enrol and make changes

There is no need to apply for group life insurance. You are automatically enrolled when you meet the eligibility requirements for benefits. You *will* need to designate a **beneficiary** by completing a beneficiary designation form (**https://employee.gov.bc.ca/src/objects.cfm?objectID=1201**). You must apply for **optional spouse and dependent life insurance** by completing the optional spouse and dependent group life insurance election form at **https://employee.gov.bc.ca/src/fileuploads/bcpsa41FILL.pdf**, and mailing it to the **Benefits Service Centre** for processing (see page 46 for contact info).

Changing your beneficiary

You can change your beneficiary at any time by completing a new beneficiary designation form (**https://employee.gov.bc.ca/src/objects.cfm?objectID=1201**) and mailing it to the **Benefits Service Centre** (see page 46 for contact info).

How to make a claim

To make a claim for any of the following contact the **Benefits Service Centre** (see page 46 for contact info):

- Life insurance.
- Accidental dismemberment and loss of sight benefit.
- Terminal illness advance payment.
- Funeral advance.
- Optional spouse and dependent insurance.

This is often done by the employee's supervisor, after s/he has been notified by a family member of the employee's death but can be done by other individuals.

The **Benefits Service Centre** will then send claiming information to the beneficiary and can answer any questions the beneficiary has.

Questions?

For any enquiries, please contact the Benefits Service Centre (see page 46 for contact info).

When Does Coverage End?

Medical Services Plan (MSP)

Coverage ends on the *last day of the month* in which any of the following occurs:

» Your employment ends.

» You request that coverage end.

» You are laid off (if you do not pay the required **premiums**).

» You take a leave of absence without pay greater than a calendar month (if you do not pay the required premiums).

Extended health and dental plan

Coverage ends on one of the following:

» Your last day of employment.

» The last day of the month in which you change from regular to auxiliary status.

» The day you request that coverage end.

» The last day of the month of lay off (if you do not pay the required premiums).

» The last day of the month of a leave of absence without pay greater than a calendar month (if you do not pay the required premiums).

Group life insurance plan

Coverage ends on *the last day of the month* in which any of the following occurs:

» Your employment ends.

» You cease to satisfy the **actively-at-work requirement**.

» You turn 65.

» You retire under the provisions of the *Pension (Public Service) Act* (unless you elect to continue coverage to age 65).

» You do not pay the required premiums.

When does spouse and dependent children coverage end?

Coverage for a spouse/eligible dependent children ends on the same date the employee's coverage ends.

Note

When your spouse turns 65, s/he is eligible to convert to an individual life insurance plan without a medical exam. Please see the section on Converting a Spouse's Life Insurance on page 38 for further details.

Converting to Individual Benefits Plans

The conversion policy enables you to convert to individual extended health, dental and life insurance plans when your group coverage ends.

You can apply to convert to some or all of these plans within 60 days of the end of the month in which your group coverage ends. This conversion cannot be made retroactive. If you miss this deadline, you are no longer eligible for conversion.

Individual Extended Health and Dental Plans

If your employment ends, you may convert to individual extended health and dental plans without providing evidence of good health. Note that an individual plan will be different than the group plan. The waiting period for extended health and dental is waived.

Individual Group Life Insurance Plans

If your employment ends or you reach age 65 (and are no longer eligible for group life insurance), you may convert your coverage to an individual policy, limited in both amount and plan, without a medical examination. Or, you may take a medical examination (paid for by the carrier) and choose any insurance plan offered by the company. If you do not meet the medical requirements, you still have the opportunity to convert your coverage to an individual policy, limited in both amount and plan.

The amount of the individual policy where no medical examination is taken may be any amount up to the amount of coverage (maximum $200,000) in force at the time your group coverage ends. The premium for the individual policy will depend on your age and on the type of policy you select. It is not the same rate as paid while covered under the group plan.

Converting Your Spouse's Optional Life Insurance

When either you or your spouse turn 65, *action is required* if you wish to convert your spouse's insurance to individual insurance.

If you turn 65 before your spouse, all group life insurance will cease. You are eligible to convert to an individual plan without a medical examination within 60 days of the end of the month in which your group coverage ends.

If your spouse turns 65 before you, you must convert his/her life insurance within 60 days of the end of the month in which your spouse turns 65. If you don't convert his/her life insurance within that period, you will not be able to convert it in the future – i.e., when you reach 65 and want to convert your own life insurance.

To start the conversion process...

For extended health and/or dental, contact **Pacific Blue Cross** and for life insurance, contact the **Benefits Service Centre** (see page 46 for contact info).

Note

Converting to an individual plan may benefit you if you do not qualify for other insurance due to an existing medical condition.

Note

You are free to apply for insurance with any other insurance carrier you choose at any time.

Important

The application process must be completed within 60 days of the date your coverage ends. The conversion cannot be made retroactive. We suggest you contact the carrier within 30 days of your employment ending or of turning age 65.

The **Benefits Service Centre**, the Public Service Pension Plan at BC Pension Corporation and your employer are not responsible for the lapse of the 60-day conversion period if you do not apply in a timely manner.

How to enrol in the benefits plans

Step 1: Complete the enrolment forms.

1. **Medical Services Plan (MSP) Enrolment Form**
   https://employee.gov.bc.ca/src/objects.cfm?objectID=52
   Note: Do not send this form directly to MSP. Please send it, along with your other completed forms, to the **Benefits Service Centre**.
2. **Extended Health Care & Dental Plan Enrolment/ Change/Termination Form**
   https://employee.gov.bc.ca/src/fileuploads/Enrollment_Change_Termination_Extended_Benefits.pdf
3. **Beneficiary Designation Form (General)**
   https://employee.gov.bc.ca/src/objects.cfm?objectID=1201
4. **Beneficiary Designation Form (Nurses/Psychiatric Nurses Only)**
   https://employee.gov.bc.ca/src/objects.cfm?objectID=1204
5. **Optional Spouse & Dependent Group Life Insurance Enrolment Form** (optional)
   https://employee.gov.bc.ca/src/objects.cfm?objectID=54

Step 2: Mail all completed enrolment forms to the Benefits Service Centre (see page 46 for contact info).

How to change/update/terminate your benefits plans

Step 1: Complete the change form(s).

1. **Medical Services Plan (MSP)**
   https://employee.gov.bc.ca/src/objects.cfm?objectID=53
   Note: Do not send this form directly to MSP. Please send it, along with your other completed forms, to the **Benefits Service Centre**.
2. **Extended Health & Dental**
   Same as enrolment form.
3. **Beneficiary Designation Forms**
   Same as enrolment form.
4. **Optional Spouse & Dependent Group Life Insurance Form**
   Same as enrolment form.

Step 2: Mail all completed change form(s) to the Benefits Service Centre (see page 46 for contact info).

How to make a claim

Step 1: Extended Health & Dental

1. Complete an extended health care claim form
   https://employee.gov.bc.ca/src/fileuploads/EH_Claim_Form.pdf

Step 2: Attach all required documentation (e.g., original receipts) and mail to the Pacific Blue Cross.

Important

When submitting a claim for **reimbursement**, please keep photocopies of your original receipts because they cannot be returned to you.

Actively-at-work requirement	To satisfy this requirement, an employee must: 1. Be fully capable of performing his/her regular duties. 2. Be either: • Actually working at the employer's place of business or a place where the employer's business requires him to work. • Absent due to vacation, weekends, statutory holidays, or shift variances.
Annual deductible	The amount you must pay each year before the plan starts to reimburse eligible medical expenses.
Auxiliary employee	An employee who is employed for work which is not of a continuous nature (e.g., temporary positions created to cover employees on vacation) – please refer to your collective agreement for more examples of auxiliary positions and for information on eligibility requirements for benefits.
Bargaining unit employee	The bargaining unit consists of those Public Service employees who are members of one of the following bargaining units: the British Columbia Government and Service Employees' Union (BCGEU), the Communications, Energy and Paperworkers Union of Canada, the Professional Employees Association (PEA), the British Columbia Nurses Union (BCNU) and the Union of Psychiatric Nurses (UPN).
Beneficiary	The person(s) or registered charity named to receive the life insurance if the employee dies while insured. An employee has the right to name a beneficiary for the basic life insurance plan. S/he can change his/her beneficiary at any time. If the beneficiary dies before the employee or if the employee has not named a beneficiary, payment will be made to the employee's estate.
Carrier	The service provider that adjudicates the claims on behalf of the employer: • Pacific Blue Cross is the carrier for extended health and dental. • The Great West Life Assurance Company is the carrier for the life insurance products.
Claim	A request to the insurance provider for payment under the benefit plan.
Claiming deadlines	• **Extended health** plan claims must be received by June 30 following the end of the calendar year in which the expense was incurred (e.g., a expense incurred on Nov. 15, 2010 must be claimed by June 30, 2011). • **Dental** plan claims must be received within 12 months following the date of service.

Co-insurance	The sharing of medical and dental expenses between the plan and the member (employee), usually stated as the percentage paid for by the plan. For example, reimbursed at "80 per cent of the first $1,000 per person in a calendar year, and then 100 per cent coverage for the balance of that year" means that 80 per cent is reimbursed by the plan and 20 per cent is paid by the member, for the first $1,000, and then 100 per cent is paid by the plan.
Common law	By enrolling your common-law spouse in your benefits program, you are declaring that person as your common-law spouse. A separate form is not required.
Complete oral exam (dental plan)	To include clinical examination and diagnosis of hard and soft tissues, including carious lesions, missing teeth, determination of sulcular depth and location of periodontal pockets, gingival contours, mobility of teeth, recession, interproximal tooth contact relationships, occlusion of teeth, TMJ, pulp vitality tests, where necessary and any other pertinent factors.
Conversion policy	This privilege enables members to convert to individual benefit plans (extended health and dental, life insurance) when coverage ends. The member does not need to provide evidence of good health and waiting periods for extended health and dental are waived. See page 38.
Coordination of benefits	A provision in a group insurance policy describing which insurer pays a claim first when two policies cover the same claim. This provision applies only to extended health and dental plans. Under this provision, the total benefit amount that an individual can claim is 100% of the cost of the eligible expense incurred (the combined reimbursements across all plans cannot exceed the total cost of the expense). See page 4 of this guide for more information.
Deductible	The amount you must pay each year before the plan starts to reimburse eligible medical expenses.
Dependents	A spouse or child who meets the eligibility requirements and is covered under your benefits program. See pages 4-6 of this guide for more information.
Dispensing fee	The fee charged by Pharmacies to dispense a medication.
Eligible employee	All regular bargaining unit employees, whether full- or part-time, may participate in this benefits program. In addition, auxiliary bargaining unit employees may participate in this benefits program upon meeting eligibility criteria. Please see your Collective Agreement for detailed information on eligibility criteria.

Eligible expenses	Charges for services and/or supplies that have been specifically included in the Extended Health and Dental Contract as a benefit. An expense is incurred on the date the service is provided or the supply is received. Any payment to a pharmacy or practitioner which represents an amount in excess of the recognized fee schedules is not included in the definition of an eligible expense.
Employer	BC Public Service or an employer participating in the Public Service benefits program.
Estate	The whole of one's possessions (assets and liabilities) left by an individual upon his or her death.
Explanation of benefits statement	The statement you receive from your extended health/dental insurance carrier that itemizes how you are being reimbursed for the expenses that you submitted (Was the expense eligible? What is the percentage reimbursement? etc.).
Fee schedule	The Pacific Blue Cross Fee Schedule for Dentists (general practitioners), Dental specialists, and Denturists that contains eligible dental services, financial limits, treatment frequencies, and fees in effect on the date the dental service was performed. The Pacific Blue Cross Fee Guide* generally follows the BC Dental Association's Fee Guide. For more information, please contact the Dental Claims and Enquiry line at 1-800-273-2583 (toll free) or 1-604-419-2300 (in Vancouver). *Note: • Most, but not all, plans will cover costs based on the fee guide. • It is not mandatory for dental offices to follow the fees suggested in the fee guide.
Full time (student)	Full time attendance means as specified by the educational institution, or, if not specified, enrolment in a minimum of 15 hours of classroom instruction per week, per school term.
Group benefits plans	Employer-sponsored benefits plans providing coverage for a group of individuals.
Individual benefits plans	Benefits plans that an individual purchases for him/herself.
Low Cost Alternative (LCA) program	Under PharmaCare, drugs deemed the "lowest cost alternative" are usually (but not always) generic drugs. Generic drugs contain the same active ingredients and are manufactured to the same standards set by Health Canada, and to the same strict regulations established by the Food and Drugs Act. Only minor ingredients like dyes, coatings or binding agents may vary. The real difference is in price – generic drugs cost 30 to 50 per cent less, on average.
Minor (child)	A person who is under 19 years of age.
MSP	Medical Services Plan of B.C.

Non-taxable benefits (tax free benefits)	Non-cash benefits, like extended health and dental, provided to employees by their employer. Employees are not required to pay the tax on the cash value of the benefit.
Optional spouse and dependent life insurance	This optional plan provides spousal coverage of $10,000 and child coverage of $5,000 per dependent child. The beneficiary of this coverage is the employee. The premium is $2 per month, regardless of the number of dependents (rate is subject to change).
Paramedical services	For the purpose of this plan, a defined group of services and professions that supplement and support medical work but do not require a fully qualified physician. These services include: naturopathy, chiropractic, physiotherapy, massage therapy and podiatry.
PharmaCare	PharmaCare helps British Columbians with the cost of eligible prescription drugs and designated medical supplies. It is one of the most comprehensive drug programs in Canada, providing reasonable access to drug therapy through seven drug plans. Assistance through PharmaCare is based on income. The lower your income, the more help you receive. There is no cost to register and there are no premiums. More information is available on the Ministry of Health Services website at **http://www.health.gov.bc.ca/pharmacare/generalinfo/generalinfoindex.html**.
Pre-authorization	To confirm with Pacific Blue Cross that the medical/dental expense is an eligible expense and what your reimbursement will be.
Premium	The amount to be paid by the employee or the employer to maintain insurance coverage.
Primary plan	If you and your spouse have coordinated benefits, the primary plan is the plan held by the person who receives the eligible medical or dental service. That individual claims for reimbursement against his/her plan first. Once processed through the primary plan, the eligible expense can be claimed through the spouse's plan, which is the secondary plan.
Principle Sum	An amount equal to the employee's life insurance.
Prorate	To divide or assess proportionally. For example, with a yearly fee of $120, or $10/month, if you were to prorate it for five months, the fee would be $50.
Reasonable and customary limits	Reasonable and customary limits are the range of usual fees for comparable medical services in a geographic area. If your health care practitioner charges more than a reasonable and customary limit, you will be responsible for paying the difference. For more information, visit **http://www.pbchbs.com/corp/howbenefitswork/healthinsurance/reasonablecustomary.aspx**.
Reference-based pricing (RBP)	Reference-based pricing (RBP) is a process where drugs that are deemed therapeutically equivalent are grouped together, and then the cost of the lowest-priced drug in the group (typically a generic drug) is used as the reimbursement level for all drugs in the group.
Regular employee	An employee who is employed for work which is of a continuous full-time or continuous part-time nature.
Rehabilitation trial	A trial period of employment for assessment and/or rehabilitation purposes.

Reimbursement	The amount you are paid back for an expense that you incur. Reimbursements can be partial or total.
Specific oral exam (dental plan)	The examination and evaluation of a specific condition in a localized area.
Statutory benefits	Benefits that are "fixed, authorized, or established by statute;" therefore, the employer is required by the law (Employment Standards Legislation) of the province to provide those benefits to employees.
Student, full time	Full time means as specified by the educational institution, or, if not specified, enrolment in a minimum of 15 hours of classroom instruction per week, per school term.
Taxable benefits	Non-cash benefits, like group life insurance and MSP, provided to employees by their employer. Employees are required to pay the tax on the cash value of the benefit.
Total compensation	Total compensation includes much more than basic pay (i.e., salary). It includes the cost of your health benefits, pension plan contributions and vacation entitlements. The BC Public Service also pays for a number of statutory benefits on behalf of employees, including Canada Pension Plan, Employment Insurance and Workers' Compensation premiums, as well as those benefits which are negotiated through collective agreements with unions and associations.

Your health and life insurance benefits program is only one of the benefits and leave programs available to you. Other benefits and leave programs available to BC Public Service employees include:

Disability Benefits	Leave & Retirement Benefits	Other Benefits
• Short term illness and injury plan • Long term disability plan • Weekly indemnity • Workers' compensation insurance*	• Public service pension plan • Retirement allowance • Canada Pension Plan* • Various leave provisions	• Employee and family assistance program • Group aviation insurance • Employment insurance*

*Statutory or legally required benefits

For detailed information about these benefits, visit @Your Service (**https://employee.gov.bc.ca/src/index.cfm?objectID=196**).

If you have any feedback which relates specifically to the guide, please provide a comment here: https://gww.gov.bc.ca/forum/benefits/2011/0112/new-benefits-guide-bargaining-unit-employees

Please note: This document describes the Benefits Program for eligible bargaining unit employees in the BC Public Service. While all efforts have been made to make the document comprehensive, it does not contain all the details in the official documents that legally govern the operation of each of the benefit plans within the Benefits Program. These plans are subject to change from time to time. In the event of any discrepancy or misunderstanding, benefits will be paid according to the applicable contracts, policies, plan documents and legislation.

BRITISH COLUMBIA LIQUOR DISTRIBUTION BRANCH
SUMMARY OF EMPLOYER PAID PAYROLL BENEFITS
DRAFT

Account	2012	2011	CHANGE	% CHANGE
22060 Payroll Distributed Benefits	(34,017,523.81)	(32,786,526.29)	(1,230,997.52)	3.8%

Note: In 2009/10 include 22410 Health Spending in benefit calc.

Benefit Rate Explanation – June 15, 2012

For clarity, the fully loaded benefits rate to be applied to labour wage rates is **27%**.

This figure of 27% includes the following:

- Prov. Pension
- CPP
- EI
- Ext. Hlth & Dental
- Group Life
- Flexible Benefits
- Medical Svc Plan
- Long Term Dis.
- WCB

The following appendices provide further information:

- Appendix E7 - P12-2012 KIR REVISED
- Appendix I - Payroll Benefits Calculation
- Appendix G - L1 DS0
- Appendix G - L1 9500 DS0
- Appendix G - L1 9600 DS0

Distribution of Liquor Project (DLP) SATP – 301

Email Notice from May 29, 2012

Below is an email that was sent to all Proponents on May 29, 2012.

A question has been raised with respect to whether Proponents may enter into agreements or arrangements with other Proponents with respect to the NRFP or with respect to any Agreement arising from the NRFP.

For clarity, it is the position of the Province that such agreements or arrangements are prohibited under the NRFP, and that any such activity will constitute a basis for disqualification and may also constitute a basis for the cancellation of the NRFP process. In this regard, Proponents should also reference s. 47(1) of the *Competition Act*, R.S.C. 1985, c. C-34.

The Province requires that all Proponents disclose in writing any agreements or arrangements with any other Proponent(s), or any intention to enter into an agreement or arrangement with any other Proponent(s), with respect to the NRFP or with respect to any Agreement arising from the NRFP. To the extent that Proponents have made no such agreements or arrangements, and have no intention to enter into such agreements or arrangements, please confirm this fact in writing to the Province by June 8, 2012.

Distribution of Liquor Project (DLP)
Kamloops Tour

When: Thursday May 31st

Time: 1pm

Where: Kamloops Distribution Center
9881 Dallas Dr.
Kamloops B.C.
V2C 6T4
250 573 3656

Located approximately 20 KM East of Kamloops. Travel east on the Trans Canada # 1 Hwy. Take exit # 390. Turn left on Dallas Drive and the warehouse is located on the south side, 1 KM east.

Remember: If you have your own steel toed boots bring them – otherwise "add-ons" will be provided.

RSVP: Please send your request to visit to Pelle Agerup and the number of individuals that you plan to bring.

Q&A: Responses as of June 1, 2012 (Part 2)

1 – UPDATED Question (June 1, 2012 Question #26): Can you indicate the number of SKUs that are bottle picked, case picked and pallet picked? What percent of the volume is picked as bottle, case or pallet?

Answer: This has been provided in Appendix E24 - Active Levels of Cases and Bottle Picks.

UPDATE: The following recently added Appendices will assist with this question.

- Appendix E34 - Monthly_activated_Status_active_product
- Appendix E29 - Monthly_Total_Qty(case)_for_PO_-Import_and_Domestic_since_2010
- Appendix E30 - Monthly_Total_Qty(case)_for_RPO(Beer)__or_EPO(Wine_and_Spirit)_since_ 2010
- Appendix E31 - Monthly_Status_deactivated_product

---

2 - Question: Is there an Employee Handbook, if so can we obtain a copy?

Answer: We do not have a hard copy. However, please visit the link below, which will take you to the Employee Orientation Website for New Employees, this outlines basic responsibilities and the focus is mainly for store employees.

LDB Employee Orientation Website:
http://www.orientation.bcldb.com/launch/24359/Course48962/Launch.html

As well, please refer to the BCGEU / Public Service Agency (PSA) websites for the Master Agreement between the Province of BC and the BCGEU.

PSA Website:
http://www2.gov.bc.ca/myhr/index.page

BCGEU website:
http://www.bcgeu.ca/

---

3 - Question: Can you provide details of lead time from placement of order to delivery by each customer type?

Answer: The GLS orders are much larger than the majority LRS (with a limited number of exceptions) and therefore many GLS receive 2 to 5 orders a week and are on a 24 hour time frame. Most LRS receive far smaller orders delivered once a week - they order weekly and therefore are asked to get their order in with a 48 hour time frame. There are probably less than a dozen LRS that are of a size that warrants more than one delivery a week. A large LRS is generally equal to a small C GLS. The GLS are large, organized orders with no side issues such as: changes, NSF, cancellation and hence a 24 hour time frame.

Q&A: Responses as of June 1, 2012 (Part 2)

4 - Question: What proportions of SKUs are churned each month or year (replaced by other SKUs or discontinued)?

Answer: This answer has been provided in the following recently added Appendices:

- Appendix E34 - Monthly_activated_Status_active_product
- Appendix E29 - Monthly_Total_Qty(case)_for_PO_-Import_and_Domestic_since_2010
- Appendix E30 - Monthly_Total_Qty(case)_for_RPO(Beer)__or_EPO(Wine_and_Spirit)_since_ 2010
- Appendix E31 - Monthly_Status_deactivated_product

---

5 - Question: Are there any more detailed Process flows other than those provided in the proponent meeting?

Answer: This answer has been provided in the following recently added Appendices:

- Appendix E32 - Purchasing_To-Be_Process_ver_1.4
- Appendix E33 - PO

---

6 - Question: Can you please provide information concerning the following questions:

Answers:

1. How many TL loads per year? Approximately 6,600.
2. How many LTL loads per year? Approximately 2,200
3. How many pallets per TL load? 28
4. How many pallets per LTL load? 14
5. % of palletized TL loads? 100%
6. % of loose (hand stacked) loads? 0%
7. How many SKU per load? Average 28
8. Are there mixed SKU pallet or single SKU pallet? If so, please specify ratio – 5% mixed pallets
9. How many cases per pallet per inbound product?
   Wine /Spirits – 56 per pallet
   Beer – 100 per pallet
10. What percentage of loads are received via ASN labels? – 0%

Q&A: Responses as of June 1, 2012 (Part 2)

7 - Question: Can you confirm what the inventory level is for all the warehouses that today are keeping agents products?

Answer: This answer has been provided in Appendix E35 - Agent Warehouses Inventory as at June 1, 2012

Since May 28, 2012, the following Appendices have been added to your VDRs:

- Appendix E22 - Customer Listing
- Appendix E23 - SKU_CaseConfig_CaseDimensions May 2012
- Appendix E24 - Active Levels of Cases and Bottle Picks UPDATED MAY 29 2012
- Appendix E25 - Retail_Wholesale Shipments by Period FY 2012
- Appendix E26 - Retail_Wholesale Orders by Period FY 2012
- Appendix E27 - WCC Call Volume March and April 2012
- Appendix E28 - LDB CCA Statistics Fiscal 11_12
- Appendix E29 - Monthly_Total_Qty(case)_for_PO_-Import_and_Domestic_since_2010
- Appendix E30 - Monthly_Total_Qty(case)_for_RPO(Beer)__or_EPO(Wine_and_Spirit)_since_ 2010
- Appendix E31 - Monthly_Status_deactivated_product
- Appendix E32 - Purchasing_To-Be_Process_ver_1.4
- Appendix E33 - PO
- Appendix E34 - Monthly_activated_Status_active_product
- Appendix E35 - Agent Warehouses Inventory as at June 1, 2012

Q&A: Responses as of June 1, 2012

1 - Question: Please clarify the volume of Beer, the volume of wine, and the volume of spirits flowing through the LDB each year.

- Appendix E3 - LDB Distribution Flow in Litres shows 43% of all volume (of the 382M litres produced/imported) going through the LDB.
- In Slide # 18 titled "Description of Current Supply Chain" in the May 10, 2012 Presentation to Proponents, it can be deduced that 97.39M Litres of the total Annual "Production" flows "indirectly": we assume that means through the LDB, and not directly from the producer/importer to the wholesaler.
- Can someone explain the discrepancy between these numbers? Specifically, exactly how much Beer, Wine, and Liquor is actually distributed or otherwise handled by the LDB currently.

Answer: In the Distribution Flow in Litres diagram the volume from BC Manufacturers of 95.8 million litres represents beer, wine, spirits and refreshment beverages. The beer volume of 64 million (included in the 95.8 million) primarily flows directly to the GLS from the manufacturers and hence is included in direct distribution. Hence the slide in the presentation should be modified for the small difference. Below is the revised slide. The difference shown on your calculation per Appendix E3 of 163.4 million should be reduced by 64 million. This leaves a small discrepancy due to rounding.

2 - Question: Please provide a list of all active items (SKUs) that are in scope and will be stored and distributed through the DC,

Answer: This information can be found in the additional Excel Spreadsheet Document added May 29th to the VDR. (Appendix E23 - SKU_CaseConfig_CaseDimensions May 2012).

---

3 - Question: Is there a schedule showing how the LDB calculates the # of cases from the total # of Litres, or vice-versa?

Answer: There is no schedule showing how the LDB calculates the # of cases from the litres. However we have provided information on case configuration and volume. Generally a case represents 9 litres (12 – 750 ml) however, more precise conversion will be found in the case configuration provided.

This information can be found in the additional Excel Spreadsheet Document added May 29th to the VDR. (Appendix E23 - SKU_CaseConfig_CaseDimensions May 2012).

---

4 - Question: Regarding the current Appendix D4 - Current Mark-up Schedule, what does the "Cost of Service Differentials" cover and when is the "Percentage Mark-up" applied? We would like to understand what the current "revenue stream" to the distribution tier of the LDB is, strictly from a baseline perspective.

Answer: The cost of service represents the additional / incremental costs associated with handling of imported products in the system. The percentage mark up is applied before the cost of service adjustment. See Sample Price calculation in Appendix D6.

---

5 - Question: Are there any restrictions on submitted attachments? e.g. can't access Microsoft Office Suite 2010 or Visio or particular version of Acrobat pdfs.

Answer: There should not be any restrictions on the type of documents you submit provided the documents do not require special applications to read.

---

6 - Question: Can you advise the days each accounting period refers to?

Answer: The LDB accounting period ends on the last Saturday of the month except at the end of the fiscal year which is March 31.

---

7 - Question: Can you provide information on activity level by day of week by warehouse?

Answer: This has been provided in Appendix E18 and Appendix E19, volume spreadsheets for the Vancouver and Kamloops warehouses. As well, information can be found in Appendix E24.

---

8 - Question: Can you provide data on the case sizes in inventory and the associates demand?

Answer: This information can be found in the additional Excel Spreadsheet Document added May 29th to the VDR. (Appendix E23 - SKU_CaseConfig_CaseDimensions May 2012).

---

9 - Question: In the financial response template you ask for the impact of a volume change in year 1 (20%); does this become the new constant level for years 2-10 or do you wish us to return to the original level for the remaining years?

Answer: Proponents should interpret the 20% change in volumes in year 1 as the new level for years 2 to 10.

---

10 - Question: Does Victoria WCC (231) carry inventory for speculative callers? (or is inventory held used to satisfy existing purchase orders?)

Answer:

1. The Victoria (WCC) carries an average on hand inventory of 1.8 million.
2. They receive five (5) deliveries per week, Monday through Friday.
3. Sku's Stocked - Regular Stocked 1725 and Wholesale 132 stocked, remaining Wholesale sku's are ordered as required by the customer.

---

11 - Question: Does WCC231 call inventory or is it pushed to location by VDC?

Answer: The WCC #231 is responsible for forecasting and transmitting all of their own liquor loads to replenish inventory and fill the Wholesale orders.

---

12 - Question: We intend to assume that the current GLS co-located with VDC is effectively out of scope i.e. there is no requirement on service provider to provide a GLS or space for LDB to operate a GLS. Is this correct?

Answer: Yes this is correct.

13 - Question: Does 11.7m include any product moving between DCs?

Answer: It does not.

---

14 - Question: Are there any special requirements for service to festivals and events? (e.g. returns?)

Answer: Products for festivals are brought in for clearance and delivery to the festival site. Any unsold product would be returned to the warehouse and may then be sold to wholesale customers or returned to the supplier.

---

15 - Question: The last four items in the SKU data were non-liquor items (bags mainly) and accounted for 42,000 in the count. Are these items (and any other stores supplies items) in scope?

Answer: Bags and other store supplies are out of scope.

---

16 - Question: Are there any special product numbering requirements or is it standard UPC?

Answer: It is a standard UPC code for each product.

---

17 - Question: Is there parcel delivery and what are the volumes by month and location?

Answer: There are no parcel deliveries to the stores in the scope of the NRFP.

---

18 - Question: Will BC Liquor maintain a snapshot of the inventory? Do we need to reconcile the LDB?

Answer: You will be required to reconcile the inventory. However the LDB will maintain visibility of the inventory since it is the importer of record for beverage alcohol in the province and needs to ensure that government's revenue is protected.

---

19 - Question: Is lot tracking a requirement?

Answer: It is a CRA requirement if you would like to have co-mingling of product in the warehouse. Otherwise you will have to clearly separate Customs, Sufferance, Excise and Duty paid products

---

20 - Question: Who will own and manage the wholesaler and ebiz systems (internet store front)? Will this be owned and maintain by BC Liquor? Who will manage credit card processing? What about Faxed order & Fax distribution? Can you provide more detailed information, functionality and specifications for the wholesaler portal and e-biz suite Agents portal?

Answer: The Service provider will own and manage the systems for taking orders from wholesale customers. This will include online ordering plus fax, telephone etc ordering from wholesale customers.

The LDB will be responsible for the collection of revenue prior to any goods being authorized to be shipped.

Proponents are asked to provide a sales ordering and processing solution in their response.

If the service provider wishes to initially use the LDB webstore application, LDB IS may continue to own and support it. Credit card processing is currently managed at arm's length through BC Express Pay which is integrated with the WCC order fulfillment process. Faxed orders are manually keyed into the order management module.

LDB Information Systems (IS) does not have a portal for agents in e-Biz. The agent's warehouse inventory is currently a batch interface which transmits a snapshot of inventory to LDB several times a day to facilitate order fulfillment for non-stocked wholesale products.

---

21 - Question: For forecasting & replenishment, what is the source of the data? Forecast by agent? Replenishment plan at the DC level or will it include demand planning down to the store and wholesaler SKU level (a more complete picture but more complex to obtain)?

Answer: The Service Provider will work with agents and suppliers to determine how product will be replenished in order to minimize any stock out and / or excess stock in the warehouse.

Currently the LDB legacy system uses depletions from the DC as the basis for forecasting.

We would anticipate that LDB will provide a consolidated forecast for store replenishment orders based on store sales.

---

22 - Question: Is payroll processed through a payroll provider like Ceridian/ADP or is processed internally?

Answer: Payroll processing is done by the LDB

---

23 - Question: Is there currently an incentive/bonus program in place? If so can we obtain a copy of the plan design?

Answer: The LDB does not have an incentive / bonus program for its staff.

---

24 - Question: Can we obtain a copy of the Pension Plan design details?

Answer: Please visit the Public Service Pension Plan website for more information
http://www.pensionsbc.ca/portal/page/portal/pen_corp_home/pspp_home_page

---

25 - Question: Can we get a complete copy of benefit plan design details provided to all employees - for union, non-union and management?

Answer:

BCGEU PSA Benefits Website:
http://www2.gov.bc.ca/myhr/content_hub.page?ContentID=fa337ab6-c1fc-dfc0-ab99-ca29a4936c18

BCGEU Benefits guide:
http://www2.gov.bc.ca/local/myhr/documents/benefits/benefits_guide_2011.pdf

Excluded Employees PSA Benefits website:
http://www2.gov.bc.ca/myhr/content_hub.page?ContentID=a7b48629-32c3-ce19-479d-e516275f7386

---

26 - Question: Can you indicate the number of SKUs that are bottle picked, case picked and pallet picked? What percent of the volume is picked as bottle, case or pallet?

Answer: This has been provided in Appendix E24 - Active Levels of Cases and Bottle Picks.

---

27 - Question: Can we get an updated master employee list for Non-union (Salary/Management) and unionized staff for each distribution center?

Answer: This has been provided in Appendix I.

---

28 - Question: Delivery of BC Wines to Government Liquor Stores:

Answer: Presently BC Wines that are sold in government liquor stores (GLS) are delivered to the LDB warehouses and then distributed to the GLS. It is the intent of the LDB to have one distribution provider for BC wines to the GLS. Therefore it is expected that BC Wines for the GLS will be delivered by the service provider.

---

29 - Question: On Appendix E2, there are 60 employees designated for the WCC operations. Can you please provide additional details as to the labour component ? (i.e. breakdown between Victoria and Vancouver operations).

Answer: This is provided in Appendix I – Distribution and Wholesale Staffing Information.

---

30 - Question: The last four items in the SKU data were non-liquor items (bags mainly) and accounted for 42,000 in the count. Are these items (and any other stores supplies items) in scope?

Answer: Bags and other store supplies are out of scope.

---

31 - Question: Can you provide a list of all EDI/XML messages with annual volumes by month?

Answer: We do not use EDI anymore and XML is the standard for moving forward. We are already using XML following the ARTS standard for sales reporting and can provide the schema if this is of interest.

We do transmit orders electronically for both store ordering and DC replenishment.

Please refer to Appendix E25 and E26 for the Store orders and wholesale orders piece. This is provided as number of orders shipped, and total cases shipped by month for the last year.

WHS is the inter-warehouse transfer component which can be ignored.

32- Question: Who will continue to manage and operate the Wholesale Customer Centre (WCC); proponent or BC Liquor? Please provide the WCC volumes: number of calls/period/time of day/season, abandoned calls, average wait time, average time/ answered call.

Answer: The functions presently done by the WCC will become the responsibility of the Service Provider.

WCC volumes etc., can be found in Appendix E27 and Appendix E28.

---

33 - Question: Can you identify any customers that have specific delivery requirements, such as time of day delivery windows, tailgate delivery requirements, straight truck deliveries only, etc. We recognize that you have provided the current delivery schedule and appointment times, but can this change or is this fixed?

Answer: All delivery trucks are equipped with rail gates to accommodate all types of deliveries (we do not track dock types)

Appointment times can be changed with agreement with customer.

Distribution of Liquor Project (DLP) SATP – 301

Q&A: Responses as of June 12, 2012 (Part 2)

1 - Question: Can you confirm what the inventory level is for all the warehouses that today are keeping agents products since we would need to calculate the warehouse size to accommodate all inventory on a long term business strategy? The RFP only provides information on the LDB inventory which is only part of the business belonging to the province.

Answer: Please refer to Appendix E35 - Agent Warehouses Inventory as at June 1, 2012.

---

2 - Question: Can you confirm that the number of live and unique SKU's is 5,859 between KDC and VDC? (Source: Appendix E18 and E19)

Answer: Yes, the number of live and unique SKU's is 5,859 between KDC and VDC.

---

3 - Question: There appear to be very few product descriptions that include beer/kegs - nearly all are for wine and spirits. How can we tell the keg storage quantities? (Source: Appendix E18 and E19)

Answer: No Kegs are handled by LDB (Direct delivered by Brewers).

---

4 - Question: The number of bottle picks is quoted as 46.71% - 2,555 - are these picked from the case pick faces? (Source: Appendix E24)

Answer: No, Bottles are picked from a separate pick module.

---

5 - Question: The number of free stand locations is stated as 2,349 - with 178 pick locations. Can you define "free stand" - is it floor stacked product? (Source: Appendix E1)

Answer: Yes, "Free Stand" is the floor stacked product.

---

6 - Question: What are "flow stand"? (Source: Appendix E1)

Answer: This should be read as "Flow Rack", which is a bottle pick module.

---

7 - Question: Stockholding is described as 386K cases for March 12, with a peak of 558K for Christmas 2011. To convert this into pallet equivalents we are proposing to use an average figure of 35 cases per pallet. Can you confirm that this is reasonable and accurate? (Source NRFP SATP 301 DLP Final - pg 25)

Answer: 40 cases per pallet is more reasonable.

Q&A: Responses as of June 12, 2012 (Part 2)

8 - Question: Can you confirm pallet dimensions for wines, spirits and beers - including length, width and height?

Answer:

- Wine/Spirits: 48”L x 40”W x 60”H
- Beer: 48”L x 40”W x 72”H

---

9 - Question: Can you confirm that Appendices 29 and 30 refer to all outbound case volumes split between beer and wines/spirits? For June 11 to May 12 - Appendix 29 shows a case volume of 6.1M cases split between KAM and VAN. Appendix 30 shows 6.2M cases spilt between the 2 sites and between beers wines and spirits.

Answer: Appendix 29 and 30 refer to purchase orders (inbound).

---

10 - Question: Can you confirm that the annual shipments are 49K?
(Source: Appendix E21 - cell M734 / 11*12)

Answer: Yes, this is correct.

---

11 - Question: Can you confirm that annual: orders - 242,855, lines - 7.6M, cases - 11.7M in 2010/2011? Therefore,

- lines/order are31.4;
- cases/line are 1.5; and
- cases/order are 47.1?

(Source: Appendix E7 page 16 KIR Report)

Answer: Yes, this is correct.

---

12 - Question: The figures above in question 11 suggest a high number of lines per picked order/pallet. Your Q&A response from 1st June states that only 5% are mixed pallets. Have we misunderstood something?

Answer: The 5% was referring to inbound receiving.

Q&A: Responses as of June 12, 2012 (Part 2)

13 - Question: Bottle picks are stated as 1,238,516 in 2011. What is the average number of bottles per pick visit/order?

Answer: Average 5.1 bottle picks per order/ average .16 bottle picks per line

---

14 - Question: Reference Question 4 of the Distribution of Liquor Project (DLP) SATP – 301 Q&A: Responses as of June 8, 2012, please advise which of the following positions identified are union and which are non-union?

Answer:

KDC:	VDC:
o 1 manager - Excluded o 1 supervisor o 3 clerical - admin o 30 full-time o 30 part-time warehouse workers. **Admin staff:** 3 Regular clerks 1 Regular R14 1 Auxiliary clerk	o 1 director - excluded o 3 managers - excluded o 8 supervisors o 12 assistant supervisors o 10 clerical - admin o 220 full-time o 185 part-time warehouse workers **Admin staff:** 2 Supervisors 7 Regular clerks 3 Regular R14

For Information:

- Victoria WCC (Store 231) – 1 manager
- Vancouver WCC (Store 100) – 1 Director and 3 Managers

---

15 - Question: Data in appendices E18 & E19 show VDC 12 month OB cases = 9,302,706 & May OH inv cases = 376,308, therefore annual turns of, 24.7. KDC 12 month OB cases = 2,513,079 & May OH inv cases = 384,235, therefore annual turns of 6.5.

Why is there a large variance between in the inventory turns?

Answer: KDC May OH inv is 84,816 (the last 3 SKUs on report are non-liquor).

Q&A: Responses as of June 12, 2012 (Part 2)

16 - Question: There are no keg orders in appendix E30, are they missing?

Answer: No Kegs are handled by LDB (Direct delivered by Brewers).

---

17 - Question: With regards to Appendix E17 – is the customer list inclusive of all locations (including peak) or is it a snapshot of a certain average time period?

Answer: It is inclusive of all locations

Distribution of Liquor Project (DLP) SATP – 301

Q&A: Responses as of June 12, 2012

Additional Excel Documents added to the VDR:

- Appendix E41 - Victoria - Government Street Explanatory Plan
- Appendix E42- Victoria WCC - 231_BUILDING

---

1 - Question: Can you please provide information regarding the on hand inventory in Victoria? Are the orders managed by VDC but fulfilled out of Victoria?

Answer: Average inventory on hand 1.8 million. Orders are managed solely by the Victoria WCC and replenished through the VDC.

---

2 - Question: What is the configuration/profile, of the building in Victoria (shifts, size, hours of operation)?

Answer: - Hours of operation of the Victoria WCC are 08:00 hrs to 17:00 hrs Monday through Friday, closed weekends and statutory holidays. The shifts worked by employees start as early as 06:00 hrs and end by 17:00 hrs.

As well, please refer to the following appendices:

- Appendix E41 - Victoria - Government Street Explanatory Plan
- Appendix E42- Victoria WCC - 231_BUILDING

---

3 - Question: Is it the expectation that the 3PL take over the building in Victoria? Can you confirm its location?

Answer: No, there is no expectation for the 3PL to take over the Victoria Building. This is out of scope. The Victoria building is located at #2219 Government Street, Victoria, V8T 4P3

---

4 - Question: Is the 3PL to assume the drivers that LDB currently employs as part of this process?

Answer: The truck drivers are not part of the process unless the proponent chooses to include them.

---

5 - Question: Is there a labour component for the drivers of the existing fleet required in our FTE pricing?

Answer: The labour component for the drivers is not required in the FTE pricing unless you choose to include them in your proposal.

---

6 - Question: Can you provide a breakdown of the codes by function type from Appendix I. Please provide explanation as to AS, RSW, ETO etc. Please refer to the exhibit below

Answer:

DISTRIBUTION STAFF INFORMATION

Regular Staff			
Row Labels	# of Staff by Union Code	Avg. of Years of Service (April 30, 2012)	Avg. of Hrly Rate
KDC			
AS: Administrative Employees	5	22.7	$22.32
RSW: Retail Store & Warehouse Employees	33	13.4	$22.23
MGT			
KDC Total	**38**	**14.6**	**$22.24**
VDC			
AS	15	23.6	$23.73
ETO: Operational Employees – Truck Drivers	13	17.5	$24.62
RSW	322	12.3	$22.27
MGT			
VDC Total	**350**	**13.0**	**$22.42**
Grand Total	**388**	**13.1**	**$22.41**

---

7 - Question: Please specify severance responsibility at the time of the transfer. Is the 3PL grandfathering the years of service?

Answer: The successful bidder will be responsible for all the provisions under the Collective Agreement. Accordingly, the employees will carry their years of service with them and the severance provisions will apply. For example, a 20 year employee will retain the 20 years of seniority and continue to accumulate seniority (21, 22, 23, etc.) and if laid off the severance provisions would apply for all years worked (LDB & new proponent).

---

8 - Question: The Victoria (WCC) carries an average on hand inventory of 1.8 million. What is the UOM of 1.8 million?

Answer: The 1.8 million refers to retail dollars.

---

9 - Question: What are the criteria to be able to order from WCC? Is there any minimum order quantity to order from WCC? We understand that 30 cases is the minimum order quantity to get delivery from WCC, but is there a minimum order quantity to pickup from WCC?

Answer: The Vancouver, WCC offers services to high volume wholesale customers. Smaller volume customers may order from the WCC but these customers are not actively recruited. There is no minimum order quantity for wholesale customers set by the WCC unless a customer wishes to receive direct delivery. Customers that pick up their orders from the WCC are not held to minimum order quantities.

Please note, Licensee Retail Stores, Rural Agency Stores, Independent Wine Stores and Duty Free Stores must order in case lots with a maximum 10% of the order in single bottles. Licensees are not restricted to the 10% threshold.

---

10 - Question: Are ALL the orders into WCC pre-ordered, or customers can show up to WCC and pick up any quantities (cases and bottles)?

Answer: All customer orders take the form of a pre-order. A pre-order is defined as an order that is submitted via phone, fax, email or online in advance of the customers' pre-assigned order submission deadline.

---

11 - Question: Do we have the ability to move Victoria's WCC to another location on the island?

Answer: Yes. The WCC in Victoria is currently located in downtown Victoria and can be moved to a suitable area to best suit your distribution network.

---

12 - Question: Can you please describe how LDB's fiscal year works? We understand that it starts on Apr 1st, but when you mention FY2013, is that Apr 2013 to Mar 2014?

Answer: The current fiscal year runs April 1, 2012 through March 31, 2013.
FY2013 represents the current fiscal year.

For example:

- FY 2014 would run from April 1, 2013 to March 31, 2014.

13 - Question: Please elaborate The Service Provider will be responsible for all transferred employees and associated costs and liabilities of the transferred employees as of the service commencement date. As per Assumption (L) on the NRFP document "Pricing Assumptions".

Answer: This assumption simply means that once the employees are transferred to the Service Provider, the Service Provider will be responsible for all wages/salaries for all the transferred employees and for all benefit costs for the transferred employees. Once the employees are transferred; LDB/the Ministry will not be responsible for these transferred employee costs.

CTZ-2012-00087 87Z-12-12-12

Distribution of Liquor Project (DLP) SATP – 301

Q&A: Responses as of June 13, 2012

*** PLEASE SEE BELOW FOR CORRECTION TO QUESTION #3 ***

Additional Excel Documents added to the VDR:

- FOLDER - Appendix E43 - Postal Codes
  - Appendix E43 - KDC GLS addresses postal
  - Appendix E43 - KDC LRS addresses postal
  - Appendix E43 - KDC RAS addresses postal
  - Appendix E43 - VDC GLS postal addresses
  - Appendix E43 - VDC LRS postal addresses
  - Appendix E43 - VDC RAS Addresses

---

1 - Question: Appendix E9 references region numbers for various delivery companies – can we have the postal codes associated to each zone number referenced?

Answer: Please refer to following recently added folder and documents in Appendix E:

- Appendix E43 - Postal Codes
  - Appendix E43 - KDC GLS addresses postal
  - Appendix E43 - KDC LRS addresses postal
  - Appendix E43 - KDC RAS addresses postal
  - Appendix E43 - VDC GLS postal addresses
  - Appendix E43 - VDC LRS postal addresses
  - Appendix E43 - VDC RAS Addresses

---

2 - Question: Based on the memorandum of agreement between the BCGEU and the Province, it would be our understanding that all Proponents must use the same wage rates in their cost estimates. Therefore, please confirm that all Proponents must utilize the average wage rates provided in Appendix_I_-_Distribution_and_Wholesale_Staffing_Info_Final in developing their cost estimates.

Answer: Yes, proponents are asked to use the average wage rates provided in Appendix I when calculating their cost estimates.

---

3 - Question: Also, please provide the fully loaded benefit costs (as a percentage of these average wage rates) that all Proponents must utilize in developing their cost estimates.

Answer: The current fully loaded benefit rate is ~~23%~~. **27%.**

Note: Please refer to the recently added document "Benefit Rate Explanation" in the notices folder of your VDR for further clarification.

---

4 - Question: How should we be handling any start-up and ramp-up costs in the Appendix K pricing template? For example, call centre, web portal, demand planning, etc.

Answer: Details on start-up and ramp-up costs required by a Proponent should be provided in Appendix K tab 3.0 Investment & Capital Plan. For each investment (one-time and recurring), including start-up and ramp-up costs, Proponents need to provide in tab 3.0 a description of the investment, any underlying assumptions, investment amount(s), recovery amount(s), and recovery method(s). Further for the investments provided in tab 3.0, the recovery amounts also need to be disclosed in tabs 1.0 Supplier and Agent Prices and 2.0 Wholesale Customer Prices, within the Investment Recovery Cost Component of the services price that will be used by the Proponent to recovery the investment.

Distribution of Liquor Project (DLP) SATP – 301

Q&A: Responses as of June 14, 2012

***** PLEASE SEE BELOW FOR CORRECTION TO APPENDIX *****

Additional Excel Documents added to the VDR:

- Appendix I - benefits_guide_2011
- Appendix E44 - DC Shipments by Product Type 2012
- Appendix E45 - Shipments by Listing Typ1 **← THIS DOCUMENT HAS BEEN EDITED AND UPDATED, PLEASE REVIEW**

---

1 - Question: Data in appendices E34 & E31 show during the last 12 months (Jun 2011 to May 2012) there are 5,433 SKUs activated and 3,243 SKUs deactivated. Can you clarify what these terms mean? Does that mean there were 5,400 new SKUs introduced?

Answer: An activated SKU can be a new SKU or a SKU that was previously deactivated and subsequently reactivated. A deactivated SKU refers to a SKU that was deactivated during the year – some SKU's could be subsequently reactivated.

---

2 - Question: According to Appendix E3, we have estimated that 26% of the Litres into LDB Distribution is import. Can you please confirm that this is correct?

Answer: The diagram shows 96 million litres flowing from BC Manufacturers. This includes approximately 63 million litres of beer which goes directly to the GLS. So the remaining 33 million litres from BC manufacturers flow to the LDB Distribution centres. This (33 million litres) together with the 26 million litres from the Domestic (Non BC) and the 42 million litres from the Import warehouse represents the flow of product to the LDB Distribution centres i.e. a total of 101 million litres. So the import product percentage will be 42% (42/101)

---

3 - Question: Can we obtain the Cross Dock Volume for Kamloops?

Answer: 2011/2012:

- 291,345 cartons for GLS customers
- 80,113 cartons for wholesale customers
    - Total 371,458 cartons shipped from VDC to KDC for KDC serviced customers.

---

4 - Question: Order profile for case picking and bottle picking? Lines per order and hit-rate (units per order line) to pick for bottle picking and case picking.

Answer: 2010/2011: 11.7M cartons shipped/242,855 orders/7.6M lines. Therefore, 31.4 lines per order/1.5 cases per line. Bottle picks in 2010/2011 were 1,238,516. Therefore average bottle picks per order were 5.1 and average bottle picks per line were .16.

---

5 - Question: Please confirm average inventory across the network is 6,400 to 9,200 pallets equivalent to 386,000 to 558,000 cases?

Answer: In the LDB Distribution Centres the average cartons per pallet are 40 (due to 1/2 pallets for slower moving product) therefore the pallet equivalent = 9,650 and 13,950. This does not include pallets in agent stocking warehouses.

---

6 - Question: In recently added appendices you provided data relating to Case Quantities for PO - Import & Domestic (E29) and RPO (Beer) or EPO (Wine & Spirits) (E30). Please confirm these represent all inbound liquor volumes (excluding returns); Please confirm these figures exclude non-liquor. Can you confirm that these figures relate to BC produced product (E30) and non - BC produced product (E29). Assuming the interpretation of this data is as we think we were trying to understand the low participation of "IMPORT" stream at 34000 cases in 12,000,000 in last 12 months - we note "Domestic" is 6,000,000 in same period; is this a classification of who supplies the product (into the DC) rather than where the original source may be?

Answer: These volumes represent inbound liquor volumes (excluding returns) and do not include non liquor. For E30 – RPO relates to imported beer and EPO are for imported wine and spirits. For E29 – Import refers to out of country product and Domestic is product produced in Canada.
The 34,000 cases refer to imported product which, are classified as direct import whereby the LDB acted as the agent. These are usually one time buys where there is no agent available. The classification of product is based on the source / origin of the manufacturer.

---

7 - Question: Are there any vehicle limitations for store deliveries?

Answer: All carriers to provide Rail-Gate Equipment and T-Movers for delivery to all customers.

8 - Question: Benefits and pension plan information was provided by a linked website. This site requires a login. Can you provide access?

Answer: The Pension plan information link that was provided should not require login information. The link again is: http://www.pensionsbc.ca/portal/page/portal/pen_corp_home/pspp_home_page

In terms of the benefits guide, please refer to Appendix I - benefits_guide_2011.

---

9 - Question: After reviewing a sample from E39 and E40 we have identified that the total number of SKUs shipped to wholesale and retail customer is significantly higher than originally stated in Appendix E18.

We have randomly identified a number of products (i.e. Sips wines) that do not appear in the Appendix that had 11.8M case volume which is the scoping criteria.

For example, in the GLS's we are seeing 11K SKUs listed which is above 5,470 quoted in E24.

Please explain variances.

Answer: E 39 and 40 represents all sales to retail and wholesale customers respectively. However E18 gives the sales for the SKU which were on hand on May 16, 2012. So if a SKU was not on hand on May 16, the report will not show any sales. This will apply mostly to wholesale products since they are generally not a regularly listed product. It is a report that is generated at a point in time for on hand stock.

---

10 - Question: We just want to confirm that operation of the Victoria WCC is in scope and the following answer is referring to purchasing the real estate.

- Question #3 from the Q&A responses as of June 12, 2012
  - **3 - Question:** Is it the expectation that the 3PL take over the building in Victoria? Can you confirm its location?
  - **Answer:** No, there is no expectation for the 3PL to take over the Victoria Building. This is out of scope. The Victoria building is located at #2219 Government Street, Victoria, V8T 4P3

Answer: This is correct, the Victoria WCC operations are in scope but the real estate is out of scope.

11 - Question: The Governments response to Question 28 "Delivery of BC Wines to Government Liquor Stores" found in the Distribution of Liquor Project (DLP) SATP – 301 Q&A: Responses as of June 1, 2012 seems to indicate that BC wines delivered to the Government's warehouses are now in scope, which is contrary to the information provided in the NRFP and as also communicated at the May 9th Industry Session, both of which clearly state that all BC wines are out of scope (please refer to page 7 on the Industry meeting – Final Presentation May 9, 2012 modified on June 8, 2012).

Furthermore, the NRFP and Industry Session also advised that all beers (import and domestic) are out of scope. The Governments response to question 28 regarding "Delivery of BC Wines to Government Liquor Stores" suggests that all beers delivered to the BCLDB warehouses are now in scope.
Could the Government please confirm that all BC wines, BC wine based coolers, BC ciders and all beers are out of scope.

Answer: BC wines that are presently directly delivered by the manufacturers are out of scope. Presently BC wines which are for the government liquor stores are delivered to the LDB warehouses and shipped to the GLS or sold at the WCC. These volumes are in scope since it is the intent to have one source of supply / delivery of BC wines to the GLS's.

Beer which is not delivered by a BC manufacturer or agent are in scope. Therefore any beer which is delivered to the BCLDB warehouses will be in scope or if an agent wishes to change their mode of delivery, they may do so.

---

12 - Question: According to Appendix E18, there are 5,800 active SKUs. However, according to Q&A in Jun 1 (Q2), we should look at Appendix E23 for the list of active SKUs, which shows over 52k SKUs. Appendix D1 pg. 36 refers to 16K SKUs with only 4k sold to GLS. Our understanding is that there are total of 5,800 active SKUs with additional 10k SKUs available for wholesale customers, but they represent a very small percentage of volume. Can you please confirm our understanding and also provide volume associated with the 10K very slow moving SKUs?

Answer: Please refer the following appendices:

- Appendix E44 - DC Shipments by Product Type 2012
- Appendix E45 - Shipments by Listing Typ1 **← THIS DOCUMENT HAS BEEN EDITED AND UPDATED, PLEASE REVIEW**

Distribution of Liquor Project (DLP) SATP – 301

Q&A: Responses as of June 15, 2012

Additional Excel Documents added to the VDR:

- Appendix I - Payroll Benefits Calculation
- Appendix E7 - P12-2012 KIR REVISED
- Appendix E46 - VDC Shipping Schedule 2012
- Appendix E47 - KDC Shipping Schedule 2012
- Appendix E48 - LDB Shipment Data P1-11 FY12
- Appendix G - L1 DS0
- Appendix G - L1 9500 DS0
- Appendix G - L1 9600 DS0

---

1 - Question: In order to understand current delivery model (Appendix E21), can we receive the "ship from DC Location" for each Store Name or #?

Answer: Please refer to the following appendices:

- Appendix E46 - VDC Shipping Schedule 2012
- Appendix E47 - KDC Shipping Schedule 2012

---

2 - Question: The current model delivery is broken into Regions. Can we receive store # by delivery Region in the current model?

Answer: Please refer to the following appendices:

- Appendix E46 - VDC Shipping Schedule 2012
- Appendix E47 - KDC Shipping Schedule 2012

---

3 - Question: In attachments E39 /E40, there are 450,000+ order line items showing 0 case quantities. Can you confirm if these records are not to be included in our analysis?

Answer: The order lines with zero shipped cases quantity represent:

- Orders where a Floor credit was applied at the time of picking, taking the ship Quantity to Zero.
- These are orders that eBIZ indicates there is a quantity available for that order line and SKU, but at time of picking it is determined that there is a different quantity on the warehouse floor.

The end result being that no shipment was made that order line.
Any analysis of shipments leaving the DC should not include these order lines.
There are 6,642 of these lines in the Retail orders extract and 5,681 in the Wholesale.
On a technical note: the order line extracts are tab delimited. Most tools auto detect this.

4 - Question: Regarding appendices E32 – Purchasing To be Process and E33 – PO; it implies that the systems management of PO's iStore etc… already exist through the BCLDB's Oracle.

Is it BCLDB's intention is to retain Oracle in the management of this process?

Answer: Retaining the i-Store is up to the proponent. It does exist within the LDB and can be supported by the LDB. However the responsibility for taking orders belongs to the proponent and the collection of funds with the LDB. i-store does both functionalities in that wholesale customers place their orders and then the collection is sent to BC Express to be collected.

LDB will continue to use Oracle eBusiness suite as its ERP and the back end for Order Management, Inventory Management and Purchasing. There may also be a role for i-Store to play depending on the final model.

There is no requirement that the DC operator use Oracle, rather the operator will need to provide data and integration points from their systems to LDB's systems to ensure LDB can carry out its regulatory and revenue collection functions and allow efficient operation of the BCLS retail chain

Please note that Appendix E32 was supplied in response to the request for more process flow diagrams and information a few weeks back – they are really about the status quo not the future model.

---

5 - Question: Question 4 from the June 12, 2012 Q&A: "is the 3PL to assume the drivers that LDB currently employs as part of this process?" The Government's answer was: "the truck drivers are not part of the process unless the proponent chooses to include them."

Please re-confirm that the 13 drivers identified on the Potential ETO Positions Impacted (As of March 5/12) list and also as noted on the answer to question 6 found in the above document are not part of this process (out of scope) and the proponent could sub-contract the work currently done by those drivers.

Furthermore, please identify and confirm any other ETO or Info Systems positions noted on the Potential ETO Positions Impacted (As of March 5/12) which are now considered as not part of this process and therefore are out of scope.

Answer:

All ETO and IS employees are not considered in scope (they do not have to be offered jobs) unless the proponent chooses to.

The truck drivers are out of scope (they do not have to be offered jobs), the work can be sub contracted out.

Q&A: Responses as of June 15, 2012

6 - Question: Using "Appendix E21 - LDB_Shipment_Data_P1-11_FY2012.xlsx" as primary data set, cross reference with "Appendix E22 - Customer Listing.xlsx" – "SHIP TO" to retrieve the consignee address info, with "Ship Schedule.xls" and "Appendix E17 - WCC Ship Days 2012.xlsx" to retrieve the shipping schedule. We have found a couple problems:

A. 8 records from E21 without store#, we need the location info for these stores.

Store No.	Store Name	LDB Truck Fleet Cases	Outside Carrier Cases	Total Cases	LDB Truck Fleet Weight	Outside Carrier Weight	Total Weight	LDB Truck Fleet Shipments	Outside Carrier Shipments	Total Shipments
	Aldergrove Liquor LRS	1,179		1,179	33,811		33,811	8		8
	North Shore Liquor Shop #2	S21								
	North Shore Liquor Store #3									
	Occidental Hotel LRS		306	306		9,105	9,105		4	4
	Liberty Wine Merchants Ltd	S21								
	Victoria Cask and Keg									
	St. John's St Liquor Store	115	853	968	4,025	27,191	31,216	1	7	8
	Lougheed LRS	625	2,043	2,668	18,738	58,248	76,986	7	23	30

B. There are no shipping schedules for the following 30 records from E21 (including above 8), shall we schedule these locations based on calculated #shpt per week and the best and most effective way?

Store No.	Store Name	LDB Truck Fleet Cases	Outside Carrier Cases	Total Cases	LDB Truck Fleet Weight	Outside Carrier Weight	Total Weight	LDB Truck Fleet Shipments	Outside Carrier Shipments	Total Shipments

Answer: Please refer to the following recently added Appendix:

- Appendix E48 - LDB Shipment Data P1-11 FY12

7 - Question:

RE: Distribution of Liquor Project (DLP) SATP – 301 Q&A: Responses as of June 12, 2012 (Part 2)

- Question 14: "Reference Question 4 of the Distribution of Liquor Project (DLP) SATP – 301 Q&A: Responses as of June 8, 2012, please advise which of the following positions identified are union and which are non-union?"

Answer provided was:

KDC:	VDC:
o 1 manager - excluded o 1 supervisor o 3 clerical - admin o 30 full-time o 30 part-time warehouse workers. **Admin staff:** 3 Regular clerks 1 Regular R14 1 Auxiliary clerk	o 1 director - excluded o 3 managers - excluded o 8 supervisors o 12 assistant supervisors o 10 clerical - admin o 220 full-time o 185 part-time warehouse workers **Admin staff:** 2 Supervisors 7 Regular clerks 3 Regular R14

Please confirm line by line which positions are union and which are non-union. As well, could you provide average hourly rate for each category? Are all ETO positions and Info System (Potential ETO Positions Impacted as of March 5/12) included in above? What is the average hourly rate for Info Systems?

Answer: Please refer to Appendix I - Distribution and Wholesale Staffing Info Final, which was provided initially in the VDR. This has the information on the positions in the WCC and DC's. Excluded positions are identified below, the rest are all union staff.

- All ETO and IS employees are not considered in scope (they do not have to be offered jobs) unless the proponent chooses to.
- The truck drivers are out of scope (they do not have to be offered jobs), the work can be sub contracted out.
- The current average rate for Bargaining Unit Regular status employees in IT is $35.29 plus benefits. The average rate for IT employees who may be directly affected by the Distribution project is $27, plus benefits.

8 - Question: Can you please provide total expected inventory values for insurance purposes?

Answer: The inventory levels in the Distribution centres are generally in the range of $30 to $35 million.

---

9 - Question: Can you confirm your peak seasons?

Answer: July, August and December.

---

10 - Question: Can you confirm that Benefits are at 33%

Answer: The benefit rate to be used is 27%.

Note: there have been a few questions regarding the fully loaded benefit rate; please refer to the recently added document "Benefit Rate Explanation" in the notices folder of your VDR for further clarification.

---

11 - Question: Can you please provide an explanation of the role for VDC Parts FTE?

Answer: An FTE is referring to the equivalent of one full time employee. It is not a job function.

---

12 - Question In reference to Question 3 from Q&A June 13, 2012: "Also, please provide the fully loaded benefit costs (as a percentage of these average wage rates) that all Proponents must utilize in developing their cost estimates. " Answer: "The current fully loaded benefit rate is 23%."

Based on the Master Agreement and other labor rate information provided, our calculation for fully loaded benefit costs (as a percentage of these average wage rates) appear to be significantly higher. Accordingly, please provide detailed line by line % breakdown for each benefit (i.e. health & welfare, Medical, Short term Disability, Long Term Disability, Pension, boots, etc.).

Answer: The 23% initially provided has been correct; the fully loaded benefits rate to be applied to labour wage rates is **27%**.

This figure of 27% includes the following:

• Prov. Pension	• Ext. Hlth & Dental	• Medical Svc Plan
• CPP	• Group Life	• Long Term Dis.
• EI	• Flexible Benefits	• WCB

Please refer to the recently added document "Benefit Rate Explanation" in the notices folder of your VDR for further clarification.

Distribution of Liquor Project (DLP) SATP – 301

Q&A: Responses as of June 20, 2012

Additional Documents added to the VDR:

- Appendix G - 10 DS0 P12 2011
- Appendix E7 - P12-2012 KIR REVISED - UPDATED PAGE 13

---

1 - Question: In regards to Appendix E7 P12-2012 KIR Revised. The table on the bottom of page 15 of the document (page 13 in the report). Item 1 "Warehouse Cases" for 2011/12 show 5,519,961 = -52.9% change from 2010/2011. This data does not look consistent with the rest of the information in the table. Can you please confirm if this 5,519,961 is correct? Or what is the cause of the variance?

Answer: There was a typo on the number on Page 13, it should be 12,770,603. A revised document has been added to the VDR. Please refer to:

Appendix E7 - P12-2012 KIR REVISED - CORRECTION - UPDATED PAGE 13

---

2 - Question: At the industry meeting it was said that BC Product is out of scope (slide 7). The answer to question 11 from Q&A: Responses as of June 1, 2012 says:

> *Presently BC wines which are for the government liquor stores are delivered to the LDB warehouses and shipped to the GLS or sold at the WCC. These volumes are in scope since it is the intent to have one source of supply / delivery of BC wines to the GLS's.*

So some BC Product is in scope?

Answer:

1. Direct Deliveries to private stores and restaurants are out of scope
2. BC product that is destined to be sold in a GLS is in scope.

---

3 - Question: Does the freight recoveries line in the BC Liquor Distribution Department Analysis period ending March 31, 2011 (in the amount of $9,854,690) represent the all the transportation costs incurred by the LDB in 2011? If not, where are the transportation costs listed in this document? Where are the delivery fees revenues listed in this document?

Answer: The breakdown of costs are shown in the detailed statements (see recently added Appendix G - 10 DS0 P12 2011). The recoveries represent the charges to the GLS for shipment to those locations. The expenses shown on the statements represent the actual expenses for shipping products to the GLS and between the VDC and KDC.

The delivery revenue charged to non GLS is recorded in the Other Income of the LDB. The delivery revenue for fiscal year ended March 2011 was $124,774.

4 - Question: Out of the total # of orders received what is the # of orders received via Web store, Phone, Fax, email?

Answer: Last fiscal year we received 20,953 Web Store orders and 56,748 phone, fax and e-mail orders.

QA12

Page 2991 Page 1410 of 1430

CTZ-2012-00087 87Z-12-12-12

Q&A: Responses as of June 27, 2012

Question: Please confirm where the rental fee noted below is located in the VDR.

Section 8.2.8.2 (q): Proponents electing to use the Vancouver Distribution Warehouse or Kamloops Distribution Warehouse during the proposed services transition will be charged a rental fee by the Ministry/LDB. The rental fee will be provided in the VDR.

Answer: The following had not been posted in the VDR as of yet.

Distribution Centre Rental Rates

Proponents electing to use the Vancouver and/or the Kamloops Distribution Warehouses during their proposed transition period will be charged by the Ministry/LDB the following annual net rental rates:

1. Vancouver Distribution Centre - $9 per square foot for the 220,000 sq ft. of warehouse floor space.
2. Kamloops Distribution Centre - $9 per square foot for the 79,300 sq ft. of warehouse floor space.

Proponents electing to use the Vancouver or the Kamloops Distribution Warehouses during their proposed transition will be responsible for the all Warehouse operating and maintenance costs, as well as any improvements they may carry out at either Warehouse.

Q&A: Responses as of June 28, 2012

Question: This question is in reference to Q&A: Responses as of June 20th, 2012:

Question: Does the freight recoveries line in the BC Liquor Distribution Department Analysis period ending March 31, 2011 (in the amount of $9,854,690) represent the all the transportation costs incurred by the LDB in 2011? If not, where are the transportation costs listed in this document? Where are the delivery fees revenues listed in this document?

Answer: The breakdown of costs are shown in the detailed statements (see recently added Appendix G - 10 DS0 P12 2011). The recoveries represent the charges to the GLS for shipment to those locations. The expenses shown on the statements represent the actual expenses for shipping products to the GLS and between the VDC and KDC.

The delivery revenue charged to non GLS is recorded in the Other Income of the LDB. The delivery revenue for fiscal year ended March 2011 was $124,774.

- Just to confirm the charge back recoveries of $ 9,787,191.33 (from Appendix G – 10 DSO P12 2011) represents the cost for transporting products to government liquor stores?
  - To clarify:
    - These costs do not cover transportation costs from VCD/KCD to wholesale customers?
    - These costs do not cover transportation from the WCCs to wholesales customers?

- In Appendix E2 paragraph 3.0 Operations - it references that the WCC processed 77,701 wholesale customer orders which resulted in 4,013,823 cases shipped. In Appendix E2 paragraph 4.0 Direct Service Delivery- there is reference 600 WCC customers being direct delivered from VDC and KDC. Finally in Appendix E4 – Direct Delivery Case Volumes - it lists that there were 1,630,943 cases delivered from the two WCCS.
  1. What is the volume of cases direct delivered from the Vancouver WCC and from the Victoria WCC? Is it 1,630,943 cases?
  2. What is the volume of cases picked up from the Vancouver WCC and from the Victoria WCC?
  3. Please provide the cost of transportation incurred by the LDB to complete deliveries to wholesale customers from the VDC, KDC, the Victoria WCC and the Vancouver WCC
  4. Please provide the revenues generated from the charge per shipment received for these deliveries

Answer: Please refer to recently added Appendices:

- Appendix E49 - SV Product from FY 2011 – 2012
- Appendix E50 - Wholesale Transportation Cost
- Appendix E51 - WCC cases

- These costs do not cover transportation costs from VCD/KCD to wholesale customers? No they are charged back to Store 100.
- These costs do not cover transportation from the WCCs to wholesales customers? No costs. WCC Victoria is all pickups so no charge to LDB and WCC Vancouver is VDC or KDC shipments noted above (charged back to BCLS 100 or pickups (no charge to LDB)).

1. What is the volume of cases direct delivered from the Vancouver WCC and from the Victoria WCC? Is it 1,630,943 cases? Please refer to Appendix E51 - WCC cases.

2. What is the volume of cases picked up from the Vancouver WCC and from the Victoria WCC? For VDC and KDC – see recently added Appendix E49 - SV Product from FY 2011 – 2012. Assumption is that cases shipped represent all cases picked.

3. Please provide the cost of transportation incurred by the LDB to complete deliveries to wholesale customers from the VDC, KDC, the Victoria WCC and the Vancouver WCC Please refer to Appendix E50 - Wholesale Transportation Cost.

4. Please provide the revenues generated from the charge per shipment received for these deliveries Delivery fees ($30) charged to wholesale customers were $695,132 (fiscal 2012) and $641,166 (fiscal 2011)

Question:

There was a notation in the May 10th Proponents Meeting transcript that stated the following:

"So in stage 1 we're looking at your proposal. And there's an opportunity, if you missed something, to fix it. So you have a week to get back to us. For example, you missed submitting the financial model or you didn't sign it. That's okay. We can rectify that in this process. You all signed the declaration. And the first step for us internal is a government reference check."

Is it still possible to amend our response after the June 29th submission?

Answer: Yes it is possible to amend the Proposal after June 29.

Please refer to section 1.14 from the NRFP:

1.14 Changes to Proposals

By submission of a clear and detailed written notice to the Government Contact Person, a Proponent may amend or withdraw its Proposal at any time throughout the duration of the NRFP process. Material changes may impact the evaluation, ranking and selection of Proponents.

Distribution of Liquor Project (DLP) SATP – 301

Q&A: Responses as of June 8, 2012

1 - Question: Can you provide seasonality indication for inbound?

Answer: This answer has been provided in the following Appendices:

- Appendix E18 - VDC Volume Report May 16, 2012
- Appendix E19 - KDC Volume Report May 17, 2012

---

2 - Question: Can you indicate the number of SKUs that are customer specific? i.e. wholesale specialty product vs. GLS product.

Answer: There are currently 65 products which are customer specific.

---

3 - Question: Can you please provide information concerning Outbound to LDB GLS?

Answer: This answer has been provided in the following recently added Appendices:

- Appendix E36 - Wholesale Victoria Store 231 Order Stats FY 2012
- Appendix E37 - Wholesale WCC Order Stats FY 2012
- Appendix E38 - GLS Order Stats FY 2012

---

4 - Question What staff are needed to run the operation? e.g. how many admin staff, supervisors, etc.

Answer:

- KDC:
  - 1 manager
  - 1 supervisor
  - 3 clerical
  - 30 full-time
  - 30 part-time warehouse workers.
- VDC:
  - 1 director
  - 3 managers
  - 8 supervisors
  - 12 assistant supervisors
  - 10 clerical
  - 220 full-time
  - 185 part-time warehouse workers

Q&A: Responses as of June 8, 2012

5 - Question: Please provide detail on orders (invoices) shipped out. Specifically:

- Order Date (Invoice Data)
- Store Number
- SKU Number
- Quantity Shipped

Answer: This answer has been provided in the following recently added Appendices. (Please be advised that these are extremely large files and contain customer ordering information):

- Appendix 39 - Order Details Extract - Retail (LARGE FILE)
- Appendix 40 - Order Details Extract - Wholesale (LARGE FILE)

---

6 - Question: Can you provide 12 month historical transportation orders?

Answer: This information can be found in the following appendices:

- Appendix E21 - LDB_Shipment_Data_P1-11_FY2012
- Appendix E18 - VDC Volume Report May 16, 2012
- Appendix E19 - KDC Volume Report May 17, 2012
- Appendix E23 - SKU_CaseConfig_CaseDimensions May 2012
- Appendix 39 - Order Details Extract - Retail (LARGE FILE)
- Appendix 40 - Order Details Extract - Wholesale (LARGE FILE)

Distribution of Liquor Project (DLP)
Q&A: Responses as of May 24, 2012

The LDB Websites have a great deal of information that is available to you as well. You can find them at: https://www.ldbwholesale.com/portal/page?_pageid=118,764036&_dad=portal&_schema=PORTAL
And http://www.bcliquorstores.com/about-us

Question: May we have a copy of the current benefit program in place with the BCGEU?

Answer: The benefits are determined by the Master Collective Agreement. As the nature of the benefits are different depending upon whether you are a regular or auxiliary employee and some apply only if a specific event occurs in your life (e.g. birth of an employee's child) we do not use a Master sheet. We reference the Collective Agreement when we are dealing with employees the website below does provide information regarding all the benefits.

BCGEU benefits guide:

http://www2.gov.bc.ca/local/myhr/documents/benefits/benefits_guide_2011.pdf

BCGEU website:

http://www2.gov.bc.ca/myhr/content_hub.page?ContentID=fa337ab6-c1fc-dfc0-ab99-ca29a4936c18

Question: Please provide historical shipment data (i.e.12 month period) for all outbound shipments from both warehouse locations.

Answer: Appendix E21 (which has just been added), includes this information for 11 months.

Question: Could you please confirm if there is a deadline to submit and answer questions regarding this RFP?

Answer: There is no deadline.

Additional Excel Documents added to the VDR:

- Appendix E17 – WCC Ship Days 2012
- Appendix E18 – VDC Volume Report May 16, 2012
- Appendix E19 – KDC Volume Report May 17, 2012
- Appendix E20 – BCLS VDC – KDC Ship Schedule 2012
- Appendix E21 - LDB_Shipment_Data_P1-11_FY2012

Distribution of Liquor Project (DLP)
Q&A: Responses as of May 28, 2012

Question: Please provide a list of all 'ship-to' points (GLS, Retail Stores, Wholesale Stores, Licensees)

Answer: This information can be found in the additional Excel Documents added May 24th to the VDR. (Appendix E17 – E 21).

Question: Please provide an inventory snapshot by month for all items stored in the DC.

Answer: This information can be found in the additional Excel Documents added May 24th to the VDR. (Appendix E17 – E 21).

Question: Please provide order line historical data for both warehouse facilities.

Answer: This information can be found in the additional Excel Documents added May 24th to the VDR. (Appendix E17 – E 21).

Question: How many BCLDB in scope staff presently have children in the day care?

Answer: We do not believe there any of these staff have children in the daycare.

Question: Please provide order detail data for all shipments from the BCLDB (include WCC and bottle pick shipments) for an entire year.

Answer: This information can be found in the additional Excel Documents added May 24th to the VDR. (Appendix E17 – E 21).

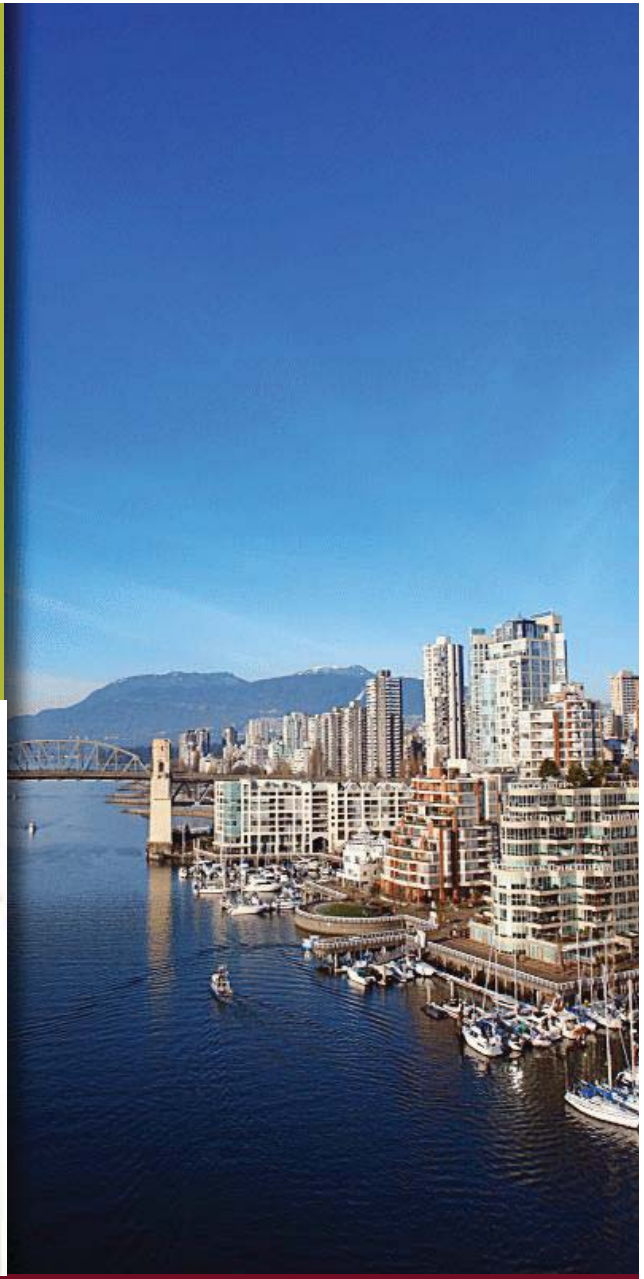
Question: Going over all the documents on the RFP and we noticed that some of the information is contradicting certain processes. In the RFP on page 11 the definition of "Agent Stocking Warehouse" and "Liquor Warehouse Program" is in principal considered the same. On page 22; 4.3.2.1 The Liquor Warehouse Program will be phased out in the new structure. Do we understand correctly that the RFP will in the long term eliminate all buffer warehouse such as Container World, Hillebrand Westlink and K&N and only operate from one single warehouse solution for all of BC in accordance to the result of the RFP?

Or should we read between the lines of the RFP and understand that the purpose is for all bidders to propose a "best scenario solution for warehousing & distribution and new procedures for the SCM flow" which then will be analyzed and considered (which could be one warehouse solution or several players in the market)?

Answer: The Agent Stocking Program and the Liquor Warehouse program is the same. The ASP was changed to the LWP a few years ago when changes were made to address some GST issues.

Yes the LWP will be phased out in the long term so that there will be one service provider for the products currently distributed by the LDB.

We are looking for Proponents to propose what they believe to be the best and most efficient model for distribution in the Province.

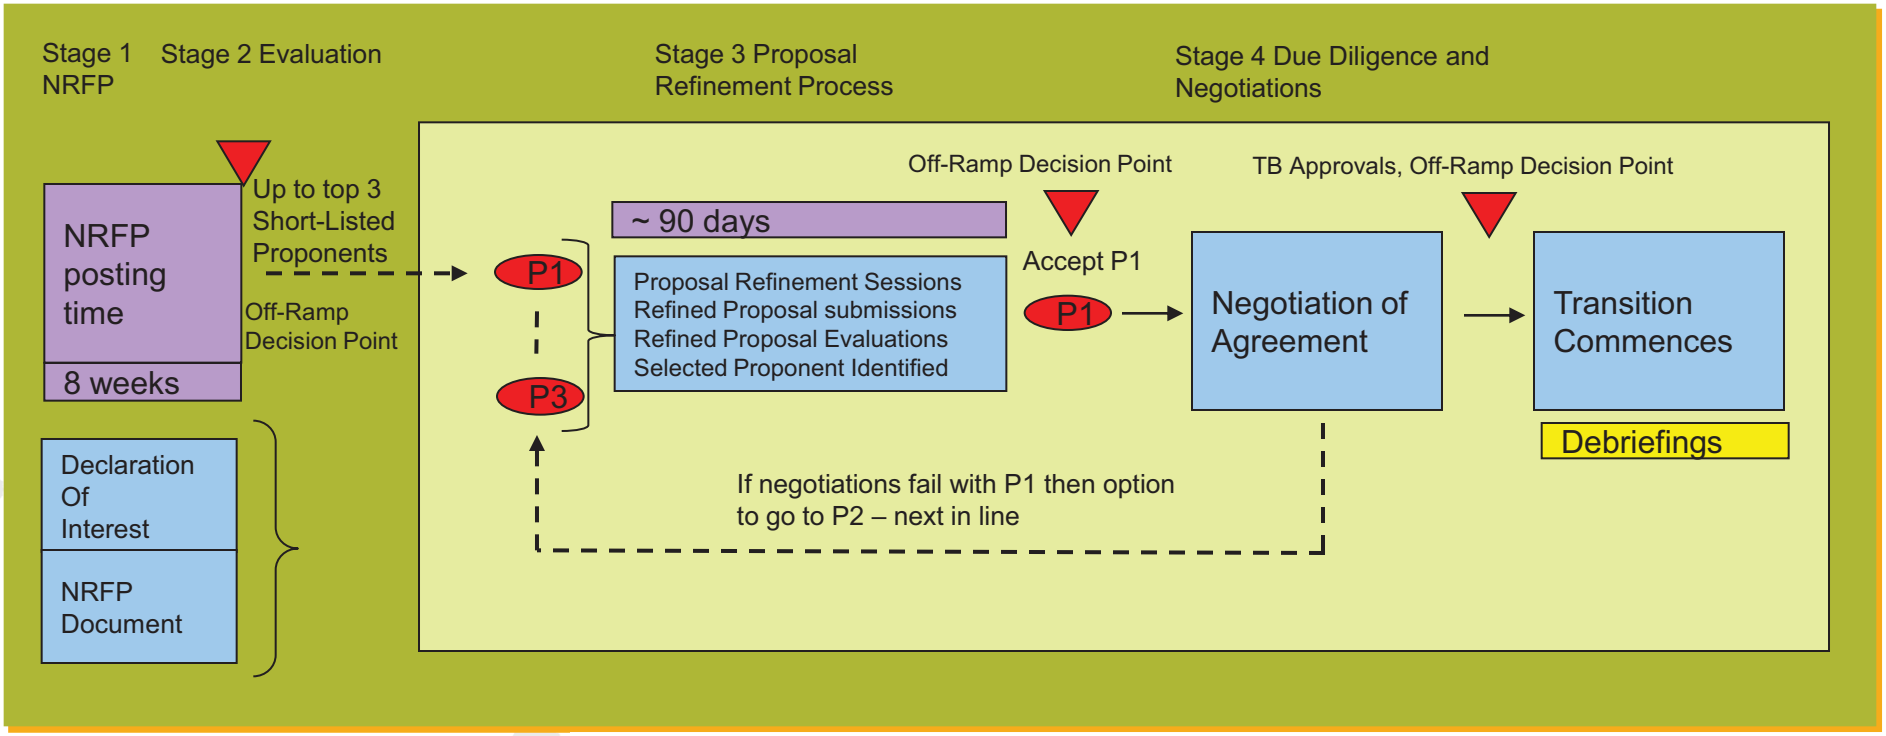


Additional Documents added to the VDR:

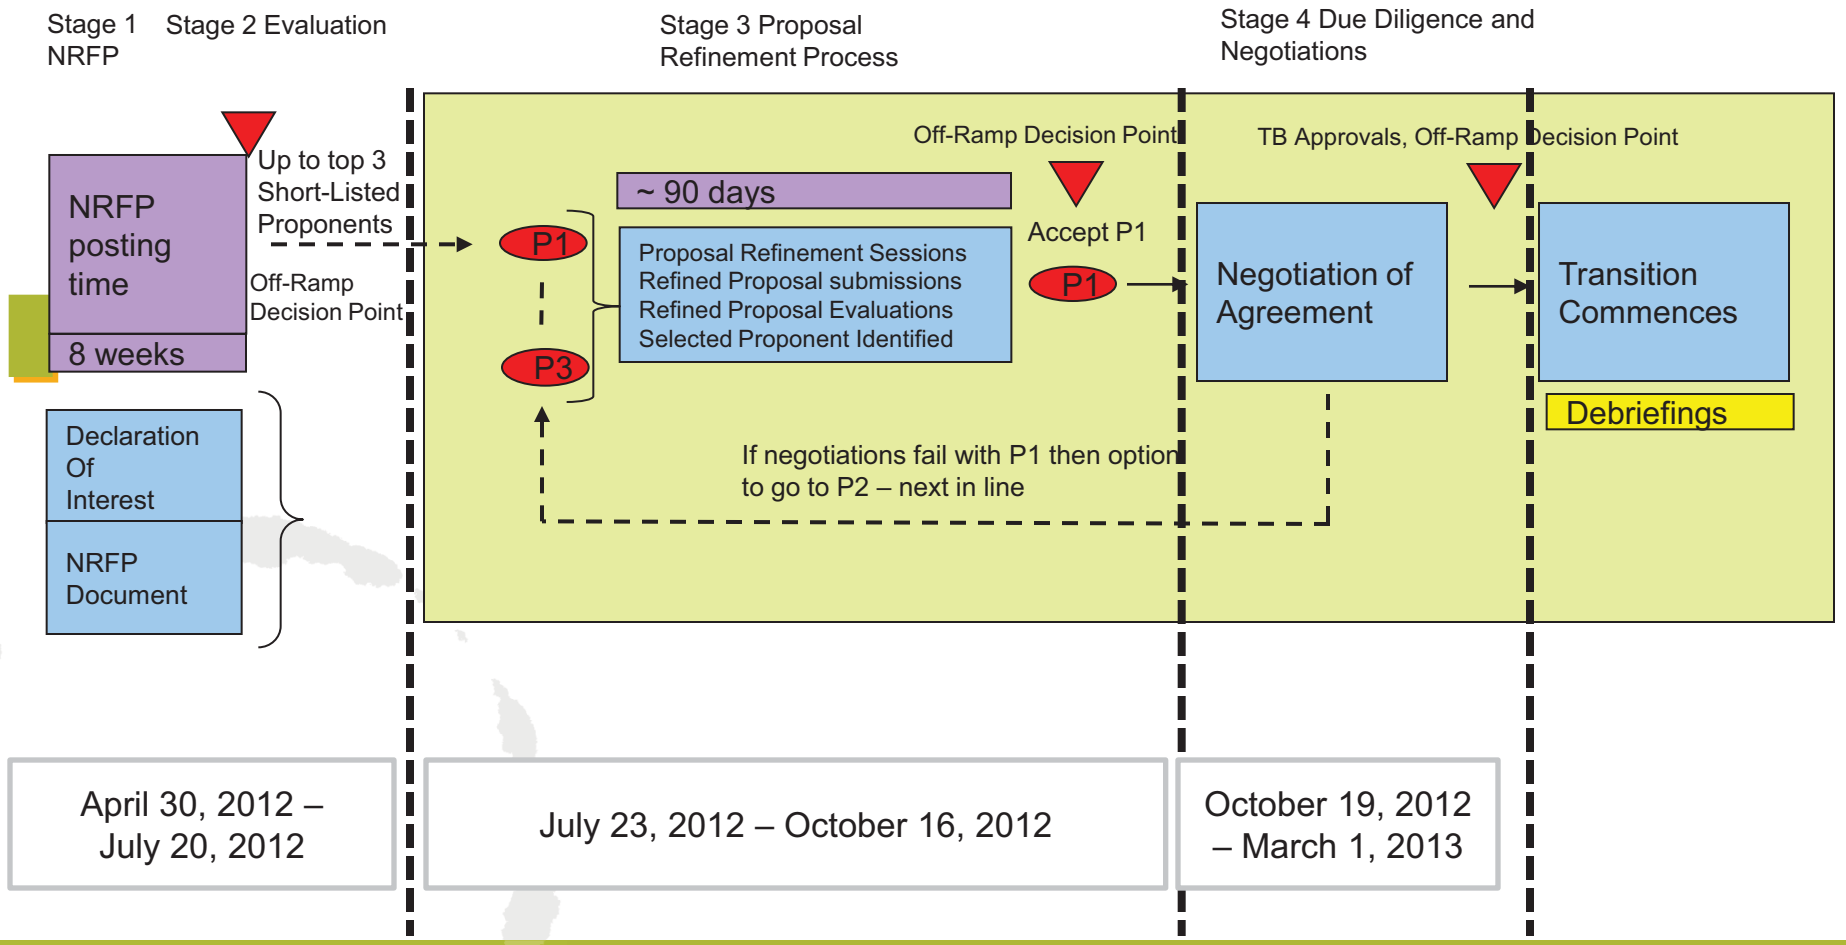
- Appendix E23 - SKU_CaseConfig_CaseDimensions May 2012
- Appendix E24 - Active Levels of Cases and Bottle Picks
- Appendix D6 – Sample Price Calculation

Distribution of Liquor Project

Liquor Distribution Branch



LIQUOR DISTRIBUTION BRANCH **BC LIQUOR**STORES



AGENDA

- Welcome and Introduction
- Negotiated RFP
- In Scope
- Out of Scope
- Key Areas of Industry Interest
- Questions

NRFP Process

NRFP Process: Timeline

Distribution of Liquor Project

In Scope includes:

- Warehouse Replenishment,
- Product receiving,
- Storage and assembly,
- Order processing and
- Distribution of Product to GLS and Wholesale Customers;
- Options that will optimise the supply chain and reduce the logistical touch points

Distribution of Liquor Project

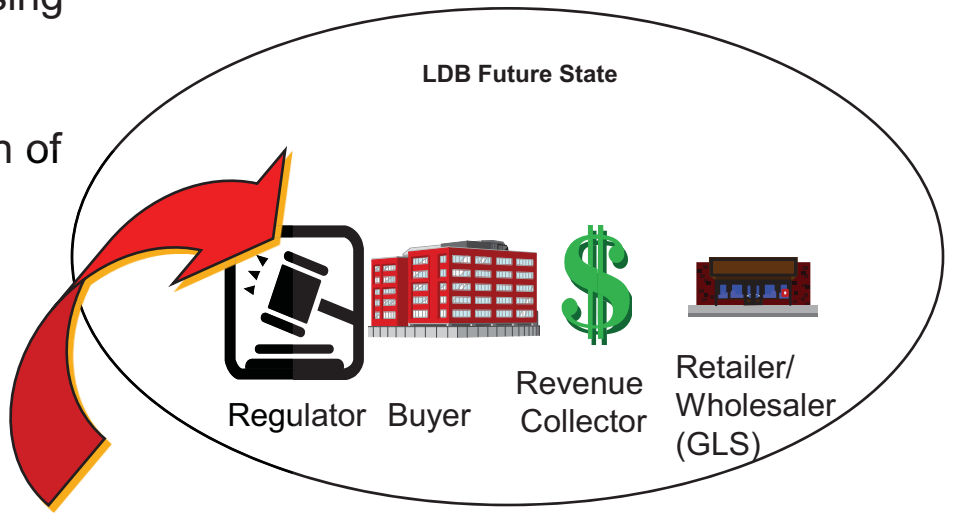
In Scope continued:

- A Labour Relations solution for BCGEU staff impacted by this NRFP

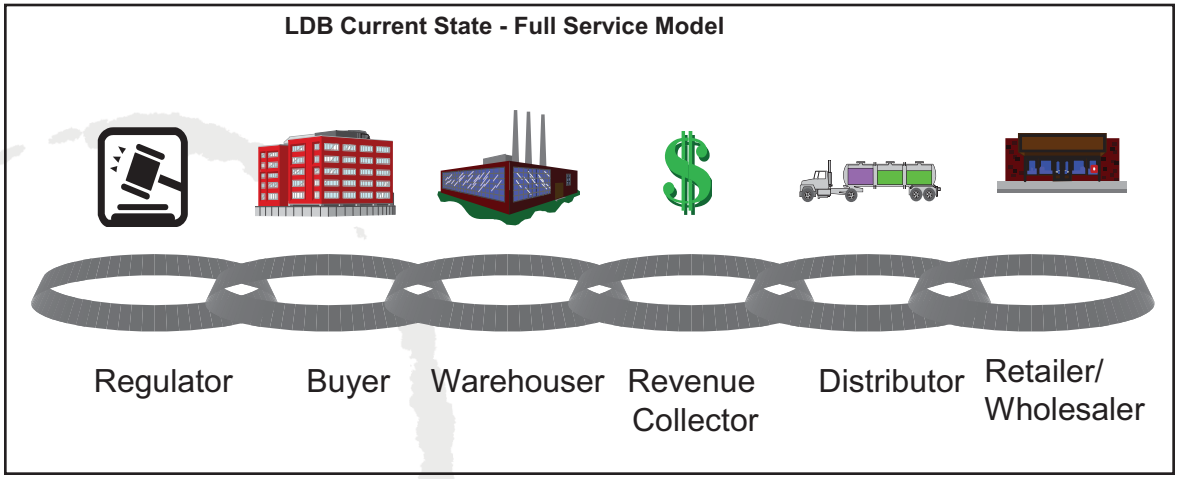
Optionally the following:

- Purchase of assets related to operations ("Operational Assets")

Distribution of Liquor Project



Out of Scope to this NRFP:



- Government Liquor Stores (GLS)
- Beer and BC Wine
- Customs and Excise Clearance and Revenue Collection and Payment
- Sale of Vancouver and Kamloops Distribution Center Warehouse Real Estate

Future Supply State

MOVING TO Future State

- The LDB will not be involved in the warehousing or distribution of beverage alcohol
- The LDB will continue to be the importer and wholesaler of record and to ensure protection of government revenue
- The LDB will be the regulator of beverage alcohol in the province
- The LDB will continue to be a retailer and service wholesale customers from its stores

Distribution of Liquor Project
