CONSIDERATIONS FOR CURRICULUM DEVELOPMENT.docx

These documents describe a s.17 These have not been made public, but we are recommending that these ideas be used as part of discussions this fall – no approval yet.

Subject: s.17 and curriculum "assumptions" document

Attached please find a revised s.17 slidedeck incorporating G6 feedback and reflecting our (Jan, Emilie, myself) conversation of same, as well as a curriculum considerations or "assumptions" document, for review and feedback.

The PPT is intended to be shared with superintendents this summer (hence all the speaking notes), for them to use in re-engaging locally and soliciting input. The PPT can also serve as a basis for us (basically, Jan) from which to choose when speaking to different audiences.

The curriculum "assumptions" document was requested by the curriculum folks to provide information toward the development of the s.17 prototype, and eventual curriculum per se. (Note that it will be shared with non-Ministry members of the prototype design team, including BCTF reps.) I have tried to distill curricula-related matters contained in other source material (PDOG, the PPT, etc.) into a succinct summary.

Once I receive your feedback, I will work with Daxx to update (e.g., the 'jellybean' graphic) and otherwise prettify the slides, and share the curriculum assumptions document with Nancy, Brent, and other members of the design team.

I look forward to hearing back from you, and am available to meet and discuss at your convenience.

Thanks,

Robert
