Bill, I cannot find any information on the web about the green building conference that Minister Bell will attend at the end of March, so I have asked our staff in China to send that to you. In the meantime, here is a copy of a recent e-mail to people who participated in Minister Bell's last trip to China in November.

Once you send me Mr. Ni's contact co-ordinates I will send them to our staff person in Beijing who is organizing the Minister's agenda, and ask her to see if she can include a private meeting.

Here are Mr. Ni's contact co-ordinates.

Just to be clear, this would be a private meeting between Minister Bell and Mr. Ni, plus whichever of their assistants or colleagues they might choose. But the BC delegation would not participate.
