## MINISTRY OF JUSTICE
## POLICING AND SECURITY PROGRAMS BRANCH
## POLICE SERVICES DIVISION
## BRIEFING NOTE

**PREPARED FOR:**   Honourable Shirley Bond, Minister of Justice and Attorney General
**FOR INFORMATION**

**ISSUE:**   Review of Police Records Information Management Environment for British Columbia (PRIME-BC) – Next Steps.

### BACKGROUND:

- Established in 2003, PRIME-BC is a province-wide police information system connecting all municipal and RCMP police detachments.

- PRIME-BC's real-time data provides police instant information on crimes. It allows police to interact in a structured environment, creating efficiencies, improving criminal analysis and increasing data quality.

- PRIME-BC consists of three interlinking components that create a virtual connection from police communications centers to mobile units and patrol cars:
    - Computer Assisted Dispatch;
    - Records Management System; and,
    - Mobile Work Station.

Not Responsive

## CURRENT STATUS:

- PRIME-BC's Board, General Manager, and senior staff are working collaboratively with Gartner on project elements.
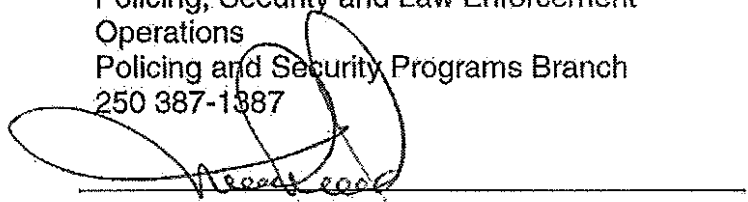

**Prepared by:**
Rob Ferrier
Sr. Program Manager

**Approved by:**
Clayton Pecknold
Assistant Deputy Minister
and Director of Police Services
Policing and Security Programs Branch
250 387-1100

Attachment: APPENDIX – Recommendations (Gartner Inc).

**MINISTRY OF JUSTICE
POLICING AND SECURITY PROGRAMS BRANCH
BRIEFING NOTE**

<u>PREPARED FOR:</u>  Clayton Pecknold, Assistant Deputy Minister
and Director of Police Services
**FOR DECISION**

<u>ISSUE:</u>     Independent Police Agency concerns regarding access through Police Information Portal (PIP) to national RCMP records.

## <u>BACKGROUND:</u>

- The PIP is an integrated index of all police agency Record Management Systems (RMS) across Canada. It includes the RCMP's national RMS – Police Reporting and Occurrence System (PROS) and the Canadian Police Information Centre (CPIC).

- PIP is managed by the RCMP and accessed through CPIC.

- Police agencies can query PIP for Canada-wide information on entities (persons, vehicles) and occurrences – an essential function for front-line officers and inter-jurisdictional investigations (serial predators, organized crime).

**MINISTRY OF JUSTICE
POLICING AND SECURITY BRANCH
BRIEFING NOTE**

**PREPARED FOR:** Clayton Pecknold, Assistant Deputy Minister
and Director of Police Services
**FOR DECISION**

**ISSUE:** Proposed Security Standards Model for PRIME-BC

**BACKGROUND:**

- PRIME-BC's current security policy applies RCMP security standards. This is based on the fact RCMP are the largest stakeholder and supplier of standards/approvals on the National Police Services network.

- RCMP security standards largely reflect Treasury Board of Canada Secretariat (TBS) standards, which are mandated across the Federal Government.

- In 2005, PRIME-BC's Governing Council established a Security Office and committed that the highest security levels will be applied across the agency.

s.15

s.16

- PRIME-BC is seeking to enhance control over its security functions by adopting and adhering to recognized security standards. As PRIME-BC is currently undergoing a broad renewal process (led by Gartner Inc) at the corporate, governance, and technical levels, this is an opportune time for transformative measures.
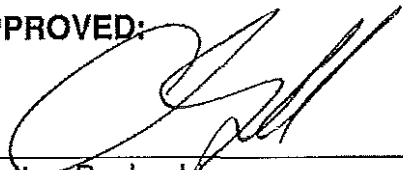

Not Responsive

## DISCUSSION:

- RCMP are becoming more of a client and less of a service provider with respect to PRIME-BC.

- There is a need to re-affirm that PRIME-BC's security standards must be of the highest level and meet the agency's requirements into the future.

- Transitioning to GoC security standards, policies, and guidelines will result in a high level of security while maintaining organizational flexibility at PRIMECorp;

- Through consultations with PRIME-BC agencies, CPIC, and provincial stakeholders, PRIME-BC can transition to a security policy that adheres to GoC standards and achieves security independence from the RCMP. Transition costs are expected to be minimal.

- PRIME-BC's Security Office is positioned to begin the process of writing a Security Policy and establishing a Security Advisory Board to provide input into ongoing security development.
