They have a HETS team standing by to bring out the subject. There is also a rope on the side of the cliff that the coroner/RCMP may want for evidence and he is looking to see if there is any restriction on possibly using the HETS to recover the rope if the pilot was comfortable to do this, if not they would need to bring in a rope team and go down from the top.</p> <p>ACTION TAKEN: 17:12 patched Dale to Mike Knauff, DRM to discuss. Mike advised he will run this by the SAR Specialist Ian Cunnings and get back to Dale shortly. Attempted patch to Ian went to voice mail, will page and patch to Mike to discuss. 17:17 paged Ian Cunnings, SAR Specialist. 17:31 repaged Ian. 17:40 Mike Knauff called in and was patched to Andrew Morrison to discuss. 17:45 Mike called in and was patched to Dale and advised that if the HETS can be used to conduct this then to go ahead. If not then they could go to Plan B. Dale will call in and advise once they know what is going on.</p>
