**Cc:** Denlinger, Becky JAG:EX  
**Subject:** Ccg note

Hi Ralph

When you get a chance...maybe a short note to CCG...

- Their ministries should be receiving WCATWC and EMBC notifications
- Any preliminary info or damage reports from LG's
- Any current scientific info (ie dart buoy reading off Seattle @ 0.2 ft Etc
- We're staying in close contact with LG's and
- We'll convene a call if things change dramatically

**Subject:** Media-Tofino

Hi there

CBC is talking live with Tofino and Kitimat (go figure!) Tofino Mayor was a little critical saying delayed info but that they are monitoring WCATWC. It sounds like they used siren warnings. Tofino is not currently at high risk and not likely this will change.

Minister - just to keep you updated, Jules is working with telus to get an appropriate number of lines available for a conf call. Worst case would be that we hold a media call and a number get rejected because there aren't enough lines available. As soon as that happens, we'll have the advisory go out. We'll let you know as soon as we have a confirmed time.

Hi Becky  
Ralph, David, Sonia, Sue abd others in. I'll hold here on phone.

Travel time for this would likely be under 60 minutes and we are 40+ now.  
I'll check to see if Teron or Dave are linked in to the science crowd
