Thanks Bonnie! I know you have been providing lots of “behind the scenes” support for your colleagues, including Cheryl, which I really appreciate. L.

**Subject:** Mdtronic involved in EA training

Hi Leah,

I just spoke with the CNS from Medtronic s.22, who is also my supervisor as I am a Medtronic insulin pump training as well, and she has been approached from some families regarding EA training in the School district as NSS is not involved as they are now under a private agreement.

I have assisted Cheryl Teters consultatively with these families and I know you are aware of the situation.

I cautioned Medtronic not to get involved and have referred them to you for further discussion. There is a lot of misinformation being sent around and I thought it would be helpful if we are all aware of what actually is happening.

By the way I think the insulin admin process with the new guidelines and plans is going well.

Feel free to contact me with any further questions,

Bonnie
