<b>Total</b>		<b>\$303,000</b>	<b>\$199,674</b>	<b>\$103,326</b>	

# PharmaNet Modernization Progress Report (JPMT)

Project Manager(s):	PharmaCare Program: Gloria Wills PharmaNet Modernization: Enola McClean	Reporting Period	From YYYY-Mon-DD	To YYYY-Mon-DD
			2013-Mar-16	2013-Mar-29
Project Purpose:	The proposed purpose of the PharmaNet project is to enhance the current PharmaNet system with a Medication Management Framework, ePrescribing capability, HIAL Integration and an infrastructure upgrade to be deployed in two releases: <u>Release 1:</u> will upgrade the current software to include the ePrescribing, Medication Management Framework and HIAL Integration upgrade. <u>Release 2:</u> will purchase and implement upgraded hardware and software to meet the increase in system capacity requirements resulting from the rollout of Release 1			

		Status			
		G	Y	R	
Scope	PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project. PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines	G			
	Release 1.0 PharmaNet Go Live	Complete			
	Release 1.1 Early Adopter Deployment (increased scope in Conformance)	Y			
	Release 2.0 Infrastructure	G			
	Adhering to MAXIMUS methodology	G			
Quality	Adhering to MAXIMUS methodology	G			
Schedule	Release 1.0 PharmaNet Go Live - January 26, 2012	Complete			
	Release 1.1 Early Adopter Deployment	G			
	Phase 1 – EMR Vendor Production Pilot - Nov 13 – 27, 2012 - completed	G			
	Phase 2 – Pharmacy Production Deployment (Gibsons) - Mar 30-31	G			
	Phase 3 – EMR Production Deployment - TBD	G			
Budget	Release 2.0 PharmaNet Infrastructure Upgrade Go Live – planned for March 28, 2013. Delayed to May 16, 2013. Catamaran Server Code Drop planned for July 12, 2012 - overdue - replanned for Aug 14 +/- 7 days – delivered Aug 20, 2012 MAXIMUS re-plan assessed options to compress schedule / mitigate delay to achieve GO LIVE by March 28, 2013. Any changes will impact project timelines.. ARI Conformance Testing added to Project Scope. Schedule is at risk due to tight timelines. Go Live deferred to May 16, 2013. Network and Firewall issue may cause delays to May 16 Go Live.	Y			
	MAXIMUS have provided project plan estimates for 2012/13. Project delivery is under fixed price with any scope increases held outside the fixed price on a time and materials basis (eg. CR2012-017, CR2012-019) and Fixed Price CR2013-001	Y			
	Current budget does not include any contingency. ** Any Scope increases will result in budget impacts as budget has no contingency.	Y			
	Summary Of Progress on PharmaNet Modernization Project				
	Release 1: Completed		Complete		
Release 1.1 Delivered since the last report		G			
• ARI Conformance Testing		G			
Release 2.0 Delivered since the last report		G			
• Service Order 2013-04 for Feb/Mar 2013 – Approved. Sign-Off in progress.		G			
2. Outstanding Issues and Actions.		Y			

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

## Key Open Project Issues

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
<b>G</b>	High	Ministry requirement change to send files to Condor via SFTP rather than FTP. Decision required by Friday Mar 22 as to if MAXIMUS must change to accommodate this.	Additional development, testing and infrastructure changes required to accommodate this change. MAXIMUS estimate this will take 4-6 days to complete, and we need a decision this week notifying us if we are to proceed with this change or not.	Ministry decision required by Mar 22 on if this must be changed. If so CR to be raised as per email estimate provided to Ministry on Mar 20 – overdue. ** Mar 28, 2013 – Ministry Decision is to change to SFTP. MAXIMUS to make changes to accommodate this in R2 as per estimate provided.
<b>Y</b>	High	Potential Impacts to Release 2 Go Live due to the move to Health Sector Firewall planned prior to Release 2 Go Live. This was not in the PharmaNet Modernization Project Plan as it was targeted for 6-9 months from now, well after Release 2 Go Live.	Firewall change may result in delayed or unsuccessful deployment of Release 2.	Request Move to Health Sector Fire Wall be implemented after Release 2 Go Live and Stabilization. Ministry are in agreement to defer this until after Release 2 Go Live and recommended this at meetings between Ministry, SSB and HP. Awaiting decision on this.
<b>Y</b>	High	New Firewall will result in changes to PharmaNet Operational processes as to how we request access for a new POS. Additional effort and lead time required to execute requests for onboarding new POS. We need to make sure MoH, SSBC and HP have worked out the process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.	<ol style="list-style-type: none"> <li>1. Request Move To New Firewall be delayed until After Release 2 Go Live and Stabilization.</li> <li>2. Make sure MoH, SSBC and HP have worked out the process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.</li> <li>3. Allow time to establish new process and how we deal with additional lead times and effort required.</li> </ol>	<p>Request Move to Health Sector Fire Wall be implemented after Release 2 Go Live and Stabilization</p> <p>We need to make sure MoH, SSBC and HP have worked out the process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.</p>
<b>Y</b>	Medium	Project PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project	Increased Scope will impact project timelines	PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines.
<b>G</b>	High	Potential Impact to Release 2 Go Live due to Annual Retro Run. Each Year Annual Retro is run from Feb to May 1 to reimburse families		<p>Feb 5 – MAXIMUS submitted DR Outlining Options for Decision for Ministry approval with due date of Feb 12, 2013 – overdue.</p> <p>Feb 14 – Ministry requested that DR be updated to</p>

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

<b>G Y R</b>				
		who have overpaid for Prescriptions. This overlaps Release 2.0 Deployment Activities which cannot both be run at the same time. Three Options presented in a new DR will outline impacts and decision must be made to either delay Retro or delay R2 Go Live.		show Option 1 during Stabilization. MAXIMUS updating DR to re-submit. Feb 27 – Ministry signed DR approving Option 1.
<b>G</b>	High	Early Adopter Deployment dates cannot keep changing and moving closer to Release 2.0 or will impact Release 2.0 Business Acceptance Activities and possibly Release 2.0 Go Live.  Early Adopter Deployment Phase 1 was planned for April 2012, delayed to July 2012, then Sept 2012, then Oct 2012, and now planned for Nov. Phase 1: Nov 13-27 – Done Phase 2: March 30-31 – Done Phase 3: TBD	Release 2 Business Acceptance Testing activities moved to accommodate EA Deployment planned for Sept 2012 - Test Case Development moved from Sept 2012 to Nov 2012 - Test Case Execution moved from Nov/Dec 2012 to Jan/Feb 2012 - Test Case Execution moved again to Feb/Mar 2012 - Potential risk to push out Rel 2 Go Live	Release 2.0 Business Acceptance Activities have been delayed to accommodate EA Conformance. Once all EA Deployments are complete, MOH will meet with MedAccess, MOH and do a formal lessons learned and have a formal assesment document. Target completig interviews and questionaire by mid Dec. EA Phase 2 is yet to be scheduled. This will be aligned so as not to impact Release 2.0 Go Live. Current projeted date for Phase 2 is March 28, 2013 – to be confirmed. Feb 14 – Ministry are requesting an additional round of testing for MedAccess and ARI be completed prior to March 31, 2013. MAXIMUS are evaluating and will include in a CR. MAXIMUS prepared CR and sent to MOH. Ministry approved CRs for MedAccess and ARI. Ministry later decided not to conformance test MedAccess and to use funding to support TELUS and wlaalthough test cases with TELUS. <b>Phase 2 completed March 31, 2013</b> Phase 3 to be scheduled
<b>G</b>		Conformance Specifications are not final for General Deployment. Final version was to be published Jan 4, 2013. DRAFT Specifications delivered in Jan, but require clarification. Updated version delivered in Feb, but not Final. Several rule clarifications / interpretations still exist and some	Inadequate Specifications could result in 1. Delays in Conformance Test Case Development and Execution. 2. Incorrect or incomplete Vendor Development, 3. Additional Rounds of Conformance Testing. 4. Incorect or incomplete test cases.	Ministry to finalize Conformance Specifications. These were due Jan 4, 2013. Draft Conformance Specifications provided are insufficient to support Test Case Development and Vendor Development. Ministry have updated documents and had a 2 hour workshop with MAXIMUS to review. Documents also released to TELUS and MedAccess. Ministry feel they are on track to have confromance specs ready for test case devleopment.

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

0% Not started.  
10% Table of contents or acceptance criteria agreed to with client and/or work has started.  
25% Work is currently in progress on this deliverable or task.

Status G Y R	Priority	Detailed Description	Business Impact	Proposed Resolution
		rules were aligned to MedAccess that may be inaccurate, causing negative impact to future vendors.		** Conformance Specs must be finalized to a version that can be used for Test Case Development and Vendor Development. Specifications will be finalized before General Deployment.
G	High	Release 2 CATAMARAN Server Code Drop delayed due to runtime issues on Solaris NetX Platform. Due July 12, 2012 Catamaran target delivery date of Aug 14 +/- 7 days This would push go live past FY to April 17, 2013. MAXIMUS assessed options to mitigate and achieve Go Live by March 28, 2013.	Delays to Release 2.0 schedule and GO LIVE. Project must implement this FY ** This must be mitigated to achieve Mar 2013 Go Live	CATAMARAN added resources and worked over-time to deliver by Aug 20, 2013. Option of phased delivery explored, but not feasible. Daily check-point meetings setup between MAXIMUS and CATAMARAN to track progress MAXIMUS development team packaging server code drop and NetX profiles to deploy to test Sep 14 – MAXIMUS deployed Server Code Drop to Test MAXIMUS assessed schedule impacts and re-planned to deliver GO LIVE by March 28, 2012
G	Low	Potential delays to Release 2 Go Live due to SSBC not signing agreement with HP and delaying HP from moving infrastructure from TELUS Data Center to SSBC Data Center. Agreement is now signed but delayed resulting in delays to HP which could impact PharmaNet infrastructure setup	Potential delays to Release 2.0 Go Live	MAXIMUS will continue to monitor progress of HP Data Center Move Project – PharmaNet Project activities have been prioritized within the Data Center Move Project to keep on schedule for PharmaNet Release 2.0 Go Live. This is currently tracking to schedule. Jan 21 – Data Center Move successfully completed over the weekend.

## Key Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
NEW	High	Ministry Decision to allow Med Access to Go Live in Production without fully testing result in the following: 1. Conformance Specifications are unclear in areas, were updated to align with this vendor, and have not been fully tested by this vendor, or	The following impacts may result; 1. Data Integrity Issues 2. Patient Safety issues 3. Increased Production Support effort and costs 4. Potential down-time of PharmaNet. 5. Conformance Specifications	MAXIMUS have notified the Ministry of the Risks recommending that MedAccess be fully tested before Go Live in Production.	High	High	Scope, Quality and Budget

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

		any other vendor 2. Conformance Test Cases have not been fully tested 3. MedAccess did not pass the last round of Conformance Testing. 4. Vendor software changes have been made without fully testing changes. 5. Patient Safety Issues may result due Incorrect data entering PharmaNet and being used 6. Increased production support and data integrity issues	do not match the intent and are incorrectly interpreted by other vendors. 6. Conformance Test Cases may not match the intention of the Specification and not adequately test for required conditions as not clearly stated in specifications. 7. Other Vendors may not correctly develop to the intent of the specifications 8. Other vendors may not be adequately tested before going to production 9. Other vendors may change their software incorrectly to match the specifications aligned for MedAccess that are incorrect.				
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, SSBC, HP, MoH have proposed moving MAXIMUS production servers) from the current firewall (ie. "zone b" firewall) to a new "Health Sector" firewall before Release 2.0 Go Live. The "Health Sector" firewall is already established in Calgary and is in MoH's/HP's plan to establish one in STMS Kamloops – however not for 6-9 months. This was not in the PharmaNet Modernization Project Plan as this was planned for 6-9 months from now, well after Go Live.	Potential Impact to Release 2 Go Live and may result in unsuccessful deployment of PharmaNet Release 2.	Request Move To New Firewall be delayed until After Release 2 Go Live and Stabilization.	HIGH	High	Schedule and Scope
<b>NEW</b>	High	As part of the PharmaNet IP	PharmaNet Operational for	1. Request Move To New	High	High	Schedule

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.

Description	Date Delivered	Action Required	Action Due Date	Status	Comment
					Release 2.0. This will be very similar to what was done for Release 1.1 MAXIMUS reminder requesting status sent to MOH on Jan 29, 2013. This will be done following the Communication Activity Matrix. Howard to provide a draft to CWG by Mar 8 Mar 19 – Draft Communication Plan provided to MAXIMUS. This will be a living document and updated to add new deployments. Release 2 Plan Update and Sign-Off – April 11, 2013 Release 1.1 Phase 3 Plan Update and Sign-Off - TBD
CR2012-008 Conformance Test Case Remediation and Execution Amended2	Mar 22, 2013	Ministry Approval	Mar 26, 2013	Overdue	Feb 21 - MAXIMUS created and submitted CR2012-008 Amended2 to revise scope as per Ministry Decision not to Conformance Test MedAccess, and instead support TELUS and walkthrough Test Cases. Mar 22, 2013 – CR updated to reflect new scope and submitted to Ministry for Review and Approval. Due Mar 26, 2013. Apr 2 – Overdue.
CR2013-002 PMP Conformance Testing TELUS	Apr 2, 2013	Ministry Approval	Apr 5, 2013	Submitted	Feb 15 – MAXIMUS to create CR for TELUS Conformance Testing and submit to Ministry for Review and Approval. Done Feb 17. Feb 18 - meeting held to finalize CR, but Ministry asked to delay by 1 week to Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 28 – Ministry requested CR be updated and resubmitted to include FY 13/14 only. MAXIMUS updated CR and resubmitted on April 2, 2013 with due date of April 5, 2013.
Ministry Decision on File Transfer Method to Health Ideas via Condor. Does this stay with FTP or change to SFTP as per new Ministry Requirement.	Mar , 2013	Ministry Decision	Mar 22, 2013	Decision =SFTP Mar 28, 2013	Mar 20 – MAXIMUS provided estimate and requested Ministry Decision by Mar 22. Overdue. Mar 25 – MAXIMUS requested response today. Decision is SFTP.

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.

<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

## Key Decisions

Status (Approved / Pending)	Decision Description	Implications (Project, Business, Contract, etc.)
Approved	CR 2011-028 Rel 2 Requirements for Record Locking	Potential impacts to Release 2
Cancelled	DR 2012-004 PharmaNet Modernization Payment Synchronization	Ministry Decision to proceed with "As Is"
Cancelled	CR2012-004 PNet Modernization - MMF Service Claims Gap	Will be done after Release 2.0
Approved	DR 2012-007 PharmaNet - EMPI Invalid Province Handling Options – for Review and Acceptance	EMPI Invalid Province Data passed to PharmaNet
Cancelled	Early Adopter Deployment – Stabilization Criteria and Plan	MOH Decision: No formal "Stabilization Criteria and Plan" document is required. We will keep the stabilization period open from EA Go/Live until General Deployment. Any PharmaNet issues identified during this period will be managed through the change management process on the project.
Approved	CR2011-019 Release 2.0 CATAMARAN Hardware Upgrade Amended 2	This adds the 1 cent assignment clause
Approved	CR2012-008 Conformance Test Case Remediation and Execution	Additional scope required to complete Conformance Testing
Approved	DR 2012-011 PMP Printed Patient Profile Report	Add archival process to include archived data in report.
Approved	CR 2012-013 PMP Printed Patient Profile Report	Required for Release 2.0 Go Live. MOH put on hold and will assess with Re-Plan
Approved	CR 2012-014 Purchase TDCompress for MOH	Required for Release 2.0 Go Live.
Approved	CR 2012-017 Conformance Test Case Updates	Must be approved by Nov 21 as Ministry have asked MAXIMUS to start work on this without the CR being approved or signed.
Approved	CR 2012-019 Practitioner Profile Adhoc and Pharmacy ID Fix	Must be approved by Nov 23 to be included in the scope of Release 2
Approved	CR 2013-001 PMP RX Dose Filed Fix	Required for Release 2.0. Must be approved by due date. Approval was due Jan 14, 2013. Ministry requested MAXIMUS to start work on this at JEC on Dec 13, 2012. This was verbally approved at January 17, 2013 JEC. Approved.
Approved	DR 2013-001 PharmaNet Annual Retroactive Reimbursement Process for 2012 Benefit Year	Feb 5 – MAXIMUS submitted for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. Feb 15 - MAXIMUS updated DR and submitted with due date of Feb 20, 2013. Feb 18 – Ministry approved. Sign-Off in Progress
Approved	CR2012-017 Conformance Test Case Updates – Increases to Scope?	Feb 6 – Email sent to Ministry requesting decision on scope increase. Feb 13 – reminder email sent requesting decision. Feb 18 – Ministry responded with questions. MAXIMUS to answers. Feb 18 – MAXIMUS responses being sent today. Feb 25 – Submitted for Approval and Sign-Off Feb 27 – Signed Off. This can now be closed.

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

Approved	CR2012-008 Conformance Test Case Remediation and Execution Amended	Feb 15 – MAXIMUS to amend CR2012-008 to revised scope and submit to Ministry for Review and Approval. Done. Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 6 – Approved and Signed Off
Submitted	CR2012-008 Conformance Test Case Remediation and Execution Amended2	Mar 21 – MAXIMUS amended CR2012-008 to revise scope to reflect Ministry Decision not to conformance test MedAccess and to use remaining time in CR for TELUS support and walkthrough of Test Cases. Mar 22 - Submitted to MOH. <b>Due Mar 26, 2013.</b>
Submitted	CR2013-002 PMP Conformance Testing TELUS	Feb 15 – MAXIMUS to create CR for TELUS Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Due Feb 27 Mar 28 – Ministry requested CR be updated to include FY 13/14 scope only. MAXIMUS updated CR and resubmitted April 2, 2013 with due date of April 5, 2013
Approved	CR2013-003 PMP Conformance Testing ARI	Feb 15 – MAXIMUS to create CR for ARI Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Approved and Signed Off by MAXIMUS. Feb 27 – Ministry signed by holding to confirm clause. MAXIMUS waiting for Signed copy. Mar 11 – Signed.

## Upcoming Deliverables/Milestones:

Note: Milestone Dates are shown in grey as they mark completion, and are not for acceptance

Milestone or Deliverable	MAXIMUS Milestone or Deliverable Name	Status	Due Date for Acceptance
	<b>Release 1.1 Early Adopter Deployment</b>		
Milestone	Phase 2 – Pharmacy Production Deployment (Gibsons)	Done	Mar 30-31, 2013
	Phase 3 – EMR Production Deployment - TBD	Pending	TBD
Milestone	Conformance Test Case Updates	In Progress, Done for Vendor Testing	
	<b>Release 2</b>		
Milestone	Test Case Development Complete	Done	Mar 31, 2013
Milestone	Business Acceptance Test Case Development Complete	In Progress	
Milestone	Test Case Execution Complete	In Progress	

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

Project Manager(s):	PharmaCare Program: Gloria Wills PharmaNet Modernization: Enola McClean	Reporting Period	From	To
			YYYY-Mon-DD	YYYY-Mon-DD
			2013-Jun-08	2013-Jun-21
<b>Project Purpose:</b>	The proposed purpose of the PharmaNet project is to enhance the current PharmaNet system with a Medication Management Framework, ePrescribing capability, HIAL Integration and an infrastructure upgrade to be deployed in two releases: <b>Release 1:</b> will upgrade the current software to include the ePrescribing, Medication Management Framework and HIAL Integration upgrade. <b>Release 2:</b> will purchase and implement upgraded hardware and software to meet the increase in system capacity requirements resulting from the rollout of Release 1			

		Status		
		G	Y	R
Scope	PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project. PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines	G		
	Release 1.0 PharmaNet Go Live	Complete		
	Release 1.1 Early Adopter Deployment (increased scope in Conformance)	Y		
	Release 2.0 Infrastructure – Added Scope of Health Sector Firewall and additional Testing of Move from Seymour to Kamloops.	Y		
	Release 3.0 High Level Requirements and Planning – On Hold. Now being done under SR	G		
	Adhering to MAXIMUS methodology	G		
Quality		G		
Schedule	Release 1.0 PharmaNet Go Live - January 26, 2012	Complete		
	Release 1.1 Early Adopter Deployment	G		
	Phase 1 – EMR Vendor Production Pilot - Nov 13 – 27, 2012 - completed			
	Phase 2 – Pharmacy Production Deployment (Gibsons) - Mar 30-31 completed			
	Phase 3 – EMR Production Deployment - TBD	Y		
	Release 2.0 PharmaNet Infrastructure Upgrade Go Live – Delayed to July 6/7			
Catamaran Server Code Drop planned for July 12, 2012 - overdue - replanned for Aug 14 +/- 7 days – delivered Aug 20, 2012				
MAXIMUS re-plan assessed options to compress schedule / mitigate delay to achieve GO LIVE by March 28, 2013. Any changes will impact project timelines. ARI Conformance Testing added to Project Scope.				
Schedule is at risk due to tight timelines. Go Live deferred to May 16, 2013. Health Sector Firewall Decision will Delay Go Live to June 19, 2013. Ministry Decision to Go Live on Sat/Sun moves Go Live to June 22/23.				
May 23 – Ministry Decision to delay Go Live to July 6/7 due to ability to communicate to External Stakeholders on extended Pharamanet change window and the Network Move Project in flight.				
Release 3.0 – High Level Requirements and Planning – June 30, 2013, moved to SR		G		
Budget	MAXIMUS have provided project plan estimates for 2012/13. Project delivery is under fixed price with any scope increases held outside the fixed price on a time and materials basis (eg. CR2013-003) and Fixed Price CR2013-001	Y		
	Current budget does not include any contingency. ** Any Scope increases will result in budget impacts as budget has no contingency. Service Order for 2013/14 is not yet finalized.			
Summary Of Progress on PharmaNet Modernization Project				
Release 1: Completed		Complete		
Release 1.1 Delivered since the last report		G		
• SR to replace CR2013-002 Conformance Testing TELUS – Updated to FY 13/14 Only - Approved

# PharmaNet Modernization Progress Report (JPMT)

Status G Y R	Priority	Detailed Description	Business Impact	Proposed Resolution
		assessment of delaying Release 2.0 Go Live to July 6/7		successfully
Y		Additional Scope of End to End Testing added to Ministry Network Move Project will add scope to PharmaNet Modernization Project. Ministry Decision to proceed with End to End Testing on June 13, June 20, and June 27	*** Additional scope of End to End Testing and Impact of delays to Go Live as a result of Network Move Delays will need to be added to the CR2013-008 and approved	MAXIMUS to update CR2013-008 to reflect this and support Ministry in their leading end to end testing.  Agreement made that additional rounds of end to end testing will be billed to CR2013-008
Y		Deloitte is working to assess whether there is any financial risks associated with the Operational Data Replication for the Release 2.0 of PharmaNet as it relates to the payment process. Outstanding decisions remain on these that could impact Release 2 Go Live.	Delays or impact to Release 2 Go Live depending on results of financial risk assessment.	Results of financial risk assessment to be communicated. Any potential impacts to release 2 Go Live need to be raised now so they can be addressed in time for Go Live.
Y	Medium	Project PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project	Increased Scope will impact project timelines	PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines.
Y		Conformance Specifications further delayed. Version to be published Jan 4, 2013, delayed to Feb 2013, then April 2013, then May 15, 2013. Waiting for Ministry to release this version. Final version for General deployment to be produced later. Several rule clarifications / interpretations still exist and some rules were aligned to MedAccess that may be inaccurate, causing negative impact to future vendors.	Inadequate Specifications could result in 1. Delays in Conformance Test Case Development and Execution. 2. Incorrect or incomplete Vendor Development, 3. Additional Rounds of Conformance Testing. 4. Incorrect or incomplete test cases.	Ministry to finalize Conformance Specifications. These were due Jan 4, 2013. Now delayed to May 15, 2013 and overdue. Draft Conformance Specifications provided are insufficient to support Test Case Development and Vendor Development. Ministry to provide updated Conformance Specs to MAXIMUS by May 15, 2013 – overdue. May 23, 2013 Ministry have put CR2013-007 Conformance Testing MedAccess and Updates from Conformance Specs on Hold. ** Conformance Specs must be finalized to a version that can be used for Test Case Development and Vendor Development. Specifications will be finalized before General Deployment.

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover

					Howard to provide a draft to CWG by Mar 8 Mar 19 – Draft Communication Plan provided to MAXIMUS. This will be a living document and updated to add new deployments. Release 2 Plan Update and Sign-Off – April 11, 2013 Release 1.1 Phase 3 Plan Update and Sign-Off – TBD. Ministry to finalize by April 11, 2013. Done May 15 – This should be updated with the updated Activity Matrix for Release 2

## Key Decisions

Status (Approved / Pending)	Decision Description	Implications (Project, Business, Contract, etc.)
Approved	CR 2011-028 Rel 2 Requirements for Record Locking	Potential impacts to Release 2
Cancelled	DR 2012-004 PharmaNet Modernization Payment Synchronization	Ministry Decision to proceed with "As Is"
Cancelled	CR2012-004 PNet Modernization - MMF Service Claims Gap	Will be done after Release 2.0
Approved	DR 2012-007 PharmaNet - EMPI Invalid Province Handling Options – for Review and Acceptance	EMPI Invalid Province Data passed to PharmaNet
Cancelled	Early Adopter Deployment – Stabilization Criteria and Plan	MOH Decision: No formal "Stabilization Criteria and Plan" document is required. We will keep the stabilization period open from EA Go/Live until General Deployment. Any PharmaNet issues identified during this period will be managed through the change management process on the project.
Approved	CR2011-019 Release 2.0 CATAMARAN Hardware Upgrade Amended 2	This adds the 1 cent assignment clause
Approved	CR2012-008 Conformance Test Case Remediation and Execution	Additional scope required to complete Conformance Testing
Approved	DR 2012-011 PMP Printed Patient Profile Report	Add archival process to include archived data in report.
Approved	CR 2012-013 PMP Printed Patient Profile Report	Required for Release 2.0 Go Live. MOH put on hold and will assess with Re-Plan
Approved	CR 2012-014 Purchase TDCompress for MOH	Required for Release 2.0 Go Live.
Approved	CR 2012-017 Conformance Test Case Updates	Must be approved by Nov 21 as Ministry have asked MAXIMUS to start work on this without the CR being approved or signed.
Approved	CR 2012-019 Practitioner Profile Adhoc and Pharmacy ID Fix	Must be approved by Nov 23 to be included in the scope of Release 2
Approved	CR 2013-001 PMP RX Dose Filed Fix	Required for Release 2.0. Must be approved by due date. Approval was due Jan 14, 2013. Ministry requested MAXIMUS to start work on this at JEC on Dec 13, 2012. This was verbally approved at January 17, 2013 JEC. Approved.

# PharmaNet Modernization Progress Report (JPMT)

Approved	DR 2013-001 PharmaNet Annual Retroactive Reimbursement Process for 2012 Benefit Year	Feb 5 – MAXIMUS submitted for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. Feb 15 - MAXIMUS updated DR and submitted with due date of Feb 20, 2013. Feb 18 – Ministry approved. Sign-Off in Progress
Approved	CR2012-017 Conformance Test Case Updates – Increases to Scope	Feb 6 – Email sent to Ministry requesting decision on scope increase. Feb 13 – reminder email sent requesting decision. Feb 18 – Ministry responded with questions. MAXIMUS to answers. Feb 18 – MAXIMUS responses being sent today. Feb 25 – Submitted for Approval and Sign-Off Feb 27 – Signed Off. This can now be closed.
Approved	CR2012-008 Conformance Test Case Remediation and Execution Amended	Feb 15 – MAXIMUS to amend CR2012-008 to revised scope and submit to Ministry for Review and Approval. Done. Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 6 – Approved and Signed Off
Submitted	CR2012-008 Conformance Test Case Remediation and Execution Amended2	Mar 21 – MAXIMUS amended CR2012-008 to revise scope to reflect Ministry Decision not to conformance test MedAccess and to use remaining time in CR for TELUS support and walkthrough of Test Cases. Mar 22 - Submitted to MOH. <b>Due Mar 26, 2013.</b>
Moved to SR	CR2013-002 PMP Conformance Testing TELUS	Feb 15 – MAXIMUS to create CR for TELUS Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Due Feb 27 Mar 28 – Ministry requested CR be updated to include FY 13/14 scope only. MAXIMUS updated CR and resubmitted April 2, 2013 with due date of April 5, 2013 May 23 – Ministry Decision to put this CR on hold. Ministry to determine where time billed to this CR will be invoiced to. Waiting for Ministry decision Jun 10 – Moved to SR ITG 533398
Approved	CR2013-003 PMP Conformance Testing ARI	Feb 15 – MAXIMUS to create CR for ARI Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Approved and Signed Off by MAXIMUS. Feb 27 – Ministry signed by holding to confirm clause. MAXIMUS waiting for Signed copy. Mar 11 – Signed.
Approved	Health Sector Firewall Decision	Due April 19, 2013 – IF Yes, this will delay R2 Go Live and MAXIMUS to assess impacts and draft CR. Apr 11 – Decision made to proceed with Health Sector Firewall.
Approved	Move from 4000 Seymour to Kamloops will result in additional scope of testing	Due April 12, 2013 – IF Yes, MAXIMUS will assess added scope and add to CR for Health Sector Firewall.

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

0% Not started.  
10% Table of contents or acceptance criteria agreed to with client and/or work has started.  
25% Work is currently in progress on this deliverable or task.  
50% Internal reviews or Internal testing activities are currently in progress on this deliverable or task.  
75% External reviews or user acceptance testing activities are currently in progress on this deliverable or task.  
100% Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

Moved to SR	CR2013-007 Early Adopter Phase 2 Conformance Testing MedAccess	Apr 11 – MAXIMUS is drafting CR Apr 16 – Submitted to Ministry for Review and Approval May 23, 2013 – Ministry Decision to put this CR on hold. Ministry to determine where time billed to this CR will be invoiced to. Waiting for Ministry decision Jun 10 – Moved to SR ITG 553396
Approved	CR2013-008 PMP Health Sector Firewall and Network Move	Apr 11 – Ministry Decision to proceed with Health Sector Firewall and added Scope of Network Move. MAXIMUS to assess impacts and draft CR. Apr 25 – MAXIMUS have drafted CR and in internal reviews. Submitted Apr 26, 2013
Moved to SR	CR2013-009 PMP Release 3.0 High Level Requirements	Apr 25 – MAXIMUS have drafted CR and in internal reviews. Plan to submit Apr 26, 2013 CR submitted and approved. May – approved. May 23, 2013 – Ministry have requested this be put on hold. MAXIMUS to complete Project charter and close out before placing on hold. Jun 10 – Moved to SR ITG 553415

## Upcoming Deliverables/Milestones:

Note: Milestone Dates are shown in grey as they mark completion, and are not for acceptance

# PharmaNet Modernization Progress Report (JEC)

Project Manager(s):	PharmaCare Program: Gloria Wills PharmaNet Modernization: Enola McClean	Reporting Period	From YYYY-Mon-DD	To YYYY-Mon-DD
			2013-Apr-27	2013-May-30
Project Purpose:	The proposed purpose of the PharmaNet project is to enhance the current PharmaNet system with a Medication Management Framework, ePrescribing capability, HIAL Integration and an infrastructure upgrade to be deployed in two releases: <u>Release 1:</u> will upgrade the current software to include the ePrescribing, Medication Management Framework and HIAL Integration upgrade. <u>Release 2:</u> will purchase and implement upgraded hardware and software to meet the increase in system capacity requirements resulting from the rollout of Release 1			

		Status		
		G	Y	R
Scope	PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project. PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines	G		
	Release 1.0 PharmaNet Go Live	Complete		
	Release 1.1 Early Adopter Deployment (increased scope in Conformance)	Y		
	Release 2.0 Infrastructure – Added Scope of Health Sector Firewall and additional Testing of Move from Seymour to Kamloops.	Y		
	Release 3.0 High Level Requirements and Planning – On Hold	G		
	Adhering to MAXIMUS methodology	R		
Quality	Adhering to MAXIMUS methodology	R		
Schedule	Release 1.0 PharmaNet Go Live - January 26, 2012	Complete		
	Release 1.1 Early Adopter Deployment	G		
	Phase 1 – EMR Vendor Production Pilot - Nov 13 – 27, 2012 - completed			
	Phase 2 – Pharmacy Production Deployment (Gibsons) - Mar 30-31 completed			
	Phase 3 – EMR Production Deployment - TBD	Y		
	Release 2.0 PharmaNet Infrastructure Upgrade Go Live – Delayed to July 6/7 Catamaran Server Code Drop planned for July 12, 2012 - overdue - replanned for Aug 14 +/- 7 days – delivered Aug 20, 2012 MAXIMUS re-plan assessed options to compress schedule / mitigate delay to achieve GO LIVE by March 28, 2013. Any changes will impact project timelines. ARI Conformance Testing added to Project Scope. Schedule is at risk due to tight timelines. Go Live deferred to May 16, 2013. Health Sector Firewall Decision will Delay Go Live to June 19, 2013. Ministry Decision to Go Live on Sat/Sun moves Go Live to June 22/23. May 23 – Ministry Decision to delay Go Live to July 6/7 due to ability to communicate to External Stakeholders on extended Pharamanet change window and the Network Move Project in flight.			
Release 3.0 – High Level Requirements and Planning – June 30, 2013 – On Hold	R			
Budget	MAXIMUS have provided project plan estimates for 2012/13. Project delivery is under fixed price with any scope increases held outside the fixed price on a time and materials basis (eg. CR2013-003) and Fixed Price CR2013-001 Current budget does not include any contingency. ** Any Scope increases will result in budget impacts as budget has no contingency. Service Order for 2013/14 is not yet finalized.	Y

Description	Date Delivered	Action Required	Action Due Date	Status	Comment
		to include impact of Delay to Go Live to July 6/7		update	Network Move. MAXIMUS to assess impacts and draft CR. Apr 25 – CR drafted and in MAXIMUS internal review. Once reviewed, MAXIMUS will submit to Ministry for Approval. May – CR Approved and Signed Off. May 24 – CR will need to be amended to include new scope of End to End Testing and decision to delay go live to July 6/7. MAXIMUS to update and submit to Ministry.
CR2013-009 PMP Release 3.0 High Level Requirements	April 15, 2013	MAXIMUS to Submit	April 26, 2013	Approved and Signed Off. Request to put on HOLD	Apr 25 – MAXIMUS have drafted CR and in internal reviews. Plan to submit to Ministry on April 26, 2013 May 9 – CR submitted, reviewed, approved and signed. May 23 – Ministry have requested this be put on HOLD. After MAXIMUS complete Project Charter and close out requirements.
Move from 4000 Seymour to Kamloops will result in additional scope of testing	Mar 2013	Ministry Decision	April 12, 2013	April 11, 2013 Decision Made to Proceed with added scope	Move from 4000 Seymour to Kamloops will result in additional scope and delays 1. Operational Process Changes for how we onboard Pharmacy Vendor. Ministry, SSBC and HP must work out process first then MAXIMUS will need to adjust to these. 2. Network Solution for moving the PharmaNet IP addresses from 4000 Seymour to Kamloops. This is currently underway and must be tested before Go Live as it will be implemented during the Change Window Prior to Go Live. Ministry/SSBC are requesting that MAXIMUS test these changes. However these are Ministry changes to the Ministry network that should be tested by the Ministry and are not in scope of PharmaNet Modernization Project. Apr 11 – Decision Made to proceed with added scope. MAXIMUS to assess and include in CR for Health Sector Firewall.

# PharmaNet Modernization Progress Report (JPMT)

Project Manager(s):	PharmaCare Program: Gloria Wills PharmaNet Modernization: Enola McClean	Reporting Period	From YYYY-Mon-DD	To YYYY-Mon-DD
			2013-Apr-05	2013-Apr-26
Project Purpose:	The proposed purpose of the PharmaNet project is to enhance the current PharmaNet system with a Medication Management Framework, ePrescribing capability, HIAL Integration and an infrastructure upgrade to be deployed in two releases: <u>Release 1:</u> will upgrade the current software to include the ePrescribing, Medication Management Framework and HIAL Integration upgrade. <u>Release 2:</u> will purchase and implement upgraded hardware and software to meet the increase in system capacity requirements resulting from the rollout of Release 1			

		<b>Status</b>		
		G	Y	R
<b>Scope</b>	PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project. PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines	G		
	Release 1.0 PharmaNet Go Live	Complete		
	Release 1.1 Early Adopter Deployment (increased scope in Conformance)	Y		
	Release 2.0 Infrastructure – Added Scope of Health Sector Firewall and additional Testing of Move from Seymour to Kamloops.	Y		
	Adhering to MAXIMUS methodology	G		
<b>Schedule</b>	Release 1.0 PharmaNet Go Live - January 26, 2012	Complete		
	Release 1.1 Early Adopter Deployment Phase 1 – EMR Vendor Production Pilot - Nov 13 – 27, 2012 - completed Phase 2 – Pharmacy Production Deployment (Gibsons) - Mar 30-31 Phase 3 – EMR Production Deployment - TBD	G		
	Release 2.0 PharmaNet Infrastructure Upgrade Go Live – planned for March 28, 2013. Delayed to May 16, 2013. Catamaran Server Code Drop planned for July 12, 2012 - overdue - replanned for Aug 14 +/- 7 days – delivered Aug 20, 2012 MAXIMUS re-plan assessed options to compress schedule / mitigate delay to achieve GO LIVE by March 28, 2013. Any changes will impact project timelines. ARI Conformance Testing added to Project Scope. Schedule is at risk due to tight timelines. Go Live deferred to May 16, 2013. Health Sector Firewall Decision will Delay Go Live. Go Live is no longer planned for May 16, 2013. MAXIMUS to assess and include in CR along with additional Testing of move from Seymour to Kamloops.	Y		
<b>Budget</b>	MAXIMUS have provided project plan estimates for 2012/13. Project delivery is under fixed price with any scope increases held outside the fixed price on a time and materials basis (eg: CR2013-003) and Fixed Price CR2013-001 Current budget does not include any contingency. ** Any Scope increases will result in budget impacts as budget has no contingency. Service Order for 2013/14 is not yet finalized.	Y

2. Outstanding Issues and Actions.	Y

## Key Open Project Issues

Status G Y R	Priority	Detailed Description	Business Impact	Proposed Resolution
Y	High	Release 2 Ministry Decision on Health Sector Firewall changes were planned for after Release 2. Now being moved up to before R2 Go Live. Ministry meeting held Mar 25 to decide timing - waiting for Ministry Decision	If Health Sector Firewall is moved after Go Live - No impact to Project. If Health Sector Firewall is moved before Go Live - It must be done before changes and testing of Firewall and therefore will delay Go Live.	If Decision is Yes, a CR will be created to document the change that will delay the Network Move and therefore delay Release 2 Go Live. This will also impact existing PRODUCTION applications that are on Zone B. These must be moved before R2 Go Live. Decision required by APRIL 19. If decided after will cause re-work for Network Move and additional delays. IF YES, will delay R2 Go Live. Apr 11 – Ministry Decision is to proceed with Health Sector Firewall. This will delay Release 2 GO Live. MAXIMUS assessing impacts and preparing a CR.
Y	High	Release 2 Move from 4000 Seymour to Kamloops will result in additional scope of testing. These are Ministry changes to the Ministry network that should be tested by the Ministry and are not in scope of PharmaNet Modernization Project.	Ministry are requesting more work that was not in scope 1. Operational Process Changes for how we onboard Pharmacy Vendor. Ministry, SSBC and HP must work out process first then MAXIMUS will need to adjust to these. 2. Network Solution for moving the PharmaNet IP addresses from 4000 Seymour to Kamloops. This is currently underway and must be tested before Go Live as it will be implemented during the Change Window Prior to Go Live. Ministry/SSBC are requesting that MAXIMUS test these changes. These are not in scope of PharmaNet Modernization Project	Ministry Decision on if this is to be added to Scope. If YES, MAXIMUS will create a CR. Decision required by APRIL 12. If decided after, will delay Go Live even further. Apr 11 – Ministry Decision is to proceed with Additional Scope. This will be assessed and included in the CR for the Health Sector Firewall.
Y	Medium	Project PharmaNet Modernization Scope cannot keep increasing if we are to	Increased Scope will impact project timelines	PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines.

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover

# PharmaNet Modernization Progress Report (JPMT)

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
		meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project		
<b>G</b>	High	Ministry requirement change to send files to Condor via SFTP rather than FTP. Decision required by Friday Mar 22 as to if MAXIMUS must change to accommodate this.	Additional development, testing and infrastructure changes required to accommodate this change. MAXIMUS estimate this will take 4-6 days to complete, and we need a decision this week notifying us if we are to proceed with this change or not.	Ministry decision required by Mar 22 on if this must be changed. If so CR to be raised as per email estimate provided to Ministry on Mar 20 – overdue. ** Mar 28, 2013 – Ministry Decision is to change to SFTP. MAXIMUS to make changes to accommodate this in R2 as per estimate provided.
<b>G</b>	High	Potential Impact to Release 2 Go Live due to Annual Retro Run. Each Year Annual Retro is run from Feb to May 1 to reimburse families who have overpaid for Prescriptions. This overlaps Release 2.0 Deployment Activities which cannot both be run at the same time. Three Options presented in a new DR will outline impacts and decision must be made to either delay Retro or delay R2 Go Live.		Feb 5 – MAXIMUS submitted DR Outlining Options for Decision for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. MAXIMUS updating DR to re-submit. Feb 27 – Ministry signed DR approving Option 1.
<b>G</b>	High	Early Adopter Deployment dates cannot keep changing and moving closer to Release 2.0 or will impact Release 2.0 Business Acceptance Activities and possibly Release 2.0 Go Live.  Early Adopter Deployment Phase 1 was planned for April 2012, delayed to July 2012, then Sept 2012, then Oct 2012, and now planned for Nov. Phase 1: Nov 13-27 – Done Phase 2: March 30-31 – Done Phase 3: TBD	Release 2 Business Acceptance Testing activities moved to accommodate EA Deployment planned for Sept 2012 <ul style="list-style-type: none"> <li>- Test Case Development moved from Sept 2012 to Nov 2012</li> <li>- Test Case Execution moved from Nov/Dec 2012 to Jan/Feb 2012</li> <li>- Test Case Execution moved again to Feb/Mar 2012</li> <li>- Potential risk to push out Rel 2 Go Live</li> </ul>	Release 2.0 Business Acceptance Activities have been delayed to accommodate EA Conformance. Once all EA Deployments are complete, MOH will meet with MedAccess, MOH and do a formal lessons learned and have a formal assessment document. Target completion interviews / questionnaire by mid Dec. EA Phase 2 is yet to be scheduled. This will be aligned so as not to impact Release 2.0 Go Live. Current projected date for Phase 2 is March 28, 2013 – to be confirmed. Feb 14 – Ministry are requesting an additional round of testing for MedAccess and ARI be completed prior to March 31, 2013. MAXIMUS are evaluating and will include in a CR. MAXIMUS prepared CR and sent to MOH. Ministry approved CRs for MedAccess and ARI.

**Green** = No concerns on schedule and within budget

# PharmaNet Modernization Progress Report (JPMT)

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
				Ministry later decided not to conformance test MedAccess and to use funding to support TELUS and wlaalthough test cases with TELUS. <b>Phase 2 completed March 31, 2013</b> Phase 3 to be scheduled
<b>G</b>		Conformance Specifications are not final for General Deployment. Final version was to be published Jan 4, 2013. DRAFT Specifications delivered in Jan, but require clarification. Updated version delivered in Feb, but not Final. Several rule clarifications / interpretations still exist and some rules were aligned to MedAccess that may be inaccurate, causing negative impact to future vendors.	Inadequate Specifications could result in <ol style="list-style-type: none"> <li>1. Delays in Conformance Test Case Development and Execution.</li> <li>2. Incorrect or incomplete Vendor Development,</li> <li>3. Additional Rounds of Conformance Testing.</li> <li>4. Incorect or incomplete test cases.</li> </ol>	Ministry to finalize Conformance Specifications. These were due Jan 4, 2013. Draft Conformance Specifications provided are insufficient to support Test Case Development and Vendor Development. Ministry have updated documents and had a 2 hour workshop with MAXIMUS to review. Documents also released to TELUS and MedAccess. Ministry feel they are on track to have conformance specs ready for test case development. <b>** Conformance Specs must be finalized to a version that can be used for Test Case Development and Vendor Development.</b> <b>Specifications will be finalized before General Deployment.</b>
<b>G</b>	High	Release 2 CATAMARAN Server Code Drop delayed due to runtime issues on Solaris NetX Platform. Due July 12, 2012 Catamaran targe delivery date of Aug 14 +/- 7 days This would push go live past FY to April 17, 2013. MAXIMUS assessed options to mitigate and achieve Go Live by March 28, 2013.	Delays to Release 2.0 schedule and GO LIVE. Project must implement this FY <b>** This must be mitigated to achieve Mar 2013 Go Live</b>	CATAMARAN added resources and worked over-time to deliver by Aug 20, 2013. Option of phased delivery explored, but not feasible. Daily check-point meetings setup between MAXIMUS and CATAMARAN to track progress MAXIMUS development team packaging server code drop and NetX profiles to deploy to test <b>Sep 14 – MAXIMUS deployed Server Code Drop to Test.</b> MAXIMUS assessed scheudle impacts and re-planned to deliver GO LIVE by March 28, 2012
<b>G</b>	Low	Potential delays to Release 2 Go Live due to SSBC not signing agreement with HP and delaying HP from moving infrastructure from TELUS Data Center to SSBC Data Center. Agreement is now signed but delayed resulting in delays to HP which could impact PharmaNet infrastructure setup	Potential delays to Release 2.0 Go Live	MAXIMUS will continue to monitor progress of HP Data Center Move Project – PharmaNet Project activities have been prioritized within the Data Center Move Project to keep on schedule for PharmaNet Release 2.0 Go Live. <b>This is currently tracking to schedule.</b> Jan 21 – Data Center Move successfully completed over the weekend.

**Green** = No concerns on schedule and within budget

## Key Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, SSBC, HP, MoH have proposed moving MAXIMUS production servers) from the current firewall (ie. "zone b" firewall) to a new "Health Sector" firewall before Release 2.0 Go Live. The "Health Sector" firewall is already established in Calgary and is in MoH's/HP's plan to establish one in STMS Kamloops – however not for 6-9 months. This was not in the PharmaNet Modernization Project Plan as this was planned for 6-9 months from now, well after Go Live. Apr 11 – DECISION MADE TO MOVE to HEALTH SECTOR FIREWALL	Added scope and delays to Release 2 Go Live Release 2 Go Live	MAXIMUS to assess impact and draft CR as decision has been made to proceed with this.	HIGH	High	Scope, Schedule, Budget
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, responsibility of updating the firewall entries for new Pharmacies onboarding to access the PharmaNet application will be moved from SSBC to HP – as HP will be managing the firewall in STMS Kamloops. Existing process of requesting firewall updates will change from current "ITIMS" ticket to SSBC to future HP iStore request for firewall updates. Pharmacy Network connectivity and access is not MAXIMUS	Added Scope to Release 2.  PharmaNet Operational for onboarding new Pharmacies will change. Additional effort and lead time required. MoH, SSBC and HP must establish new process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.	MAXIMUS to assess impacts and add to CR for Health Sector Firewall.  1. MoH, SSBC and HP have established new process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures. 2. Assess how to deal with additional lead times and effort required.	High	High	Scope, Schedule, Budget

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

		responsibility. MAXIMUS is part of the process (as there is a step in the process to update a security table in the PharmaNet database). APR 11 – DECISION MADE TO PROCEED WITH ADDED SCOPE TO NETWORK MOVE.					
<b>NEW</b>	High	Ministry Decision to allow Med Access to Go Live in Production without fully testing result in the following: 1. Conformance Specifications are unclear in areas, were updated to align with this vendor, and have not been fully tested by this vendor, or any other vendor 2. Conformance Test Cases have not been fully tested 3. MedAccess did not pass the last round of Conformance Testing. 4. Vendor software changes have been made without fully testing changes. 5. Patient Safety Issues may result due Incorrect data entering PharmaNet and being used 6. Increased production support and data integrity issues	The following impacts may result: 1. Data Integrity Issues 2. Patient Safety issues 3. Increased Production Support effort and costs 4. Potential down-time of PharmaNet. 5. Conformance Specifications do not match the intent and are incorrectly interpreted by other vendors. 6. Conformance Test Cases may not match the intention of the Specification and not adequately test for required conditions as not clearly stated in specifications. 7. Other Vendors may not correctly develop to the intent of the specifications 8. Other vendors may not be adequately tested before going to production 9. Other vendors may change their software incorrectly to match the specifications aligned for MedAccess that are incorrect.	MAXIMUS have notified the Ministry of the Risks recommending that MedAccess be fully tested before Go Live in Production.	High	High	Scope, Quality and Budget

					will submit to Ministry for Approval.
CR2013-009 PMP Release 3.0 High Level Requirements	April 15, 2013	MAXIMUS to Submit	April 26, 2013	Submitted	Apr 25 – MAXIMUS have drafted CR and in internal reviews. Plan to submit to Ministry on April 26, 2013
Decision on timing of Health Sector Firewall Move	Mar, 2013	Ministry Decision	April 19, 2013	April 11, 2013 Decision Made to Proceed with Health Sector Firewall	Health Sector Firewall move planned for 6-9 months after Release 2 Go Live. SSBC and HP would like to move this up to before Release 2 Go Live. If Health Sector Firewall is moved after Go Live - No impact to Project. If Health Sector Firewall is moved before Go Live - It must be done before Network Move and therefore will delay Go Live by 2-3 weeks. If Decision is Yes, CR will be created to document the change Health Sector Firewall will also impact existing PROD applications that are on Zone B. These must be moved before R2 Go Live. Apr 4 – Ministry Decision required by APRIL 19, 2013 or will cause re-work of Network and further delays to R2 Go Live. Apr 11 – Decision Made to proceed with Health Sector Firewall. MAXIMUS to assess and draft CR.
Move from 4000 Seymour to Kamloops will result in additional scope of testing	Mar 2013	Ministry Decision	April 12, 2013	April 11, 2013 Decision Made to Proceed with added scope	Move from 4000 Seymour to Kamloops will result in additional scope and delays 1. Operational Process Changes for how we onboard Pharmacy Vendor. Ministry, SSBC and HP must work out process first then MAXIMUS will need to adjust to these. 2. Network Solution for moving the PharmaNet IP addresses from 4000 Seymour to Kamloops. This is currently underway and must be tested before Go Live as it will be implemented during the Change Window Prior to Go Live. Ministry/SSBC are requesting that MAXIMUS test these changes. However these are Ministry changes to the Ministry network that

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover

					Ministry to finalize by April 11, 2013. Done

## Key Decisions

Status (Approved / Pending)	Decision Description	Implications (Project, Business, Contract, etc.)
Approved	CR 2011-028 Rel 2 Requirements for Record Locking	Potential impacts to Release 2
Cancelled	DR 2012-004 PharmaNet Modernization Payment Synchronization	Ministry Decision to proceed with "As Is"
Cancelled	CR2012-004 PNet Modernization - MMF Service Claims Gap	Will be done after Release 2.0
Approved	DR 2012-007 PharmaNet - EMPI Invalid Province Handling Options – for Review and Acceptance	EMPI Invalid Province Data passed to PharmaNet
Cancelled	Early Adopter Deployment – Stabilization Criteria and Plan	MOH Decision: No formal "Stabilization Criteria and Plan" document is required. We will keep the stabilization period open from EA Go/Live until General Deployment. Any PharmaNet issues identified during this period will be managed through the change management process on the project.
Approved	CR2011-019 Release 2.0 CATAMARAN Hardware Upgrade Amended 2	This adds the 1 cent assignment clause
Approved	CR2012-008 Conformance Test Case Remediation and Execution	Additional scope required to complete Conformance Testing
Approved	DR 2012-011 PMP Printed Patient Profile Report	Add archival process to include archived data in report.
Approved	CR 2012-013 PMP Printed Patient Profile Report	Required for Release 2.0 Go Live. MOH put on hold and will assess with Re-Plan
Approved	CR 2012-014 Purchase TDCompress for MOH	Required for Release 2.0 Go Live.
Approved	CR 2012-017 Conformance Test Case Updates	Must be approved by Nov 21 as Ministry have asked MAXIMUS to start work on this without the CR being approved or signed.
Approved	CR 2012-019 Practitioner Profile Adhoc and Pharmacy ID Fix	Must be approved by Nov 23 to be included in the scope of Release 2
Approved	CR 2013-001 PMP RX Dose Filed Fix	Required for Release 2.0. Must be approved by due date. Approval was due Jan 14, 2013. Ministry requested MAXIMUS to start work on this at JEC on Dec 13, 2012. This was verbally approved at January 17, 2013 JEC. Approved.
Approved	DR 2013-001 PharmaNet Annual Retroactive Reimbursement Process for 2012 Benefit Year	Feb 5 – MAXIMUS submitted for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. Feb 15 - MAXIMUS updated DR and submitted with due date of Feb 20, 2013. Feb 18 – Ministry approved. Sign-Off in Progress

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

Approved	CR2012-017 Conformance Test Case Updates – Increases to Scope	Feb 6 – Email sent to Ministry requesting decision on scope increase. Feb 13 – reminder email sent requesting decision. Feb 18 – Ministry responded with questions. MAXIMUS to answers. Feb 18 – MAXIMUS responses being sent today. Feb 25 – Submitted for Approval and Sign-Off Feb 27 – Signed Off. This can now be closed.
Approved	CR2012-008 Conformance Test Case Remediation and Execution Amended	Feb 15 – MAXIMUS to amend CR2012-008 to revised scope and submit to Ministry for Review and Approval. Done. Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 6 – Approved and Signed Off
Submitted	CR2012-008 Conformance Test Case Remediation and Execution Amended2	Mar 21 – MAXIMUS amended CR2012-008 to revise scope to reflect Ministry Decision not to conformance test MedAccess and to use remaining time in CR for TELUS support and walkthrough of Test Cases. Mar 22 - Submitted to MOH. <b>Due Mar 26, 2013.</b>
Submitted	CR2013-002 PMP Conformance Testing TELUS	Feb 15 – MAXIMUS to create CR for TELUS Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Due Feb 27 Mar 28 – Ministry requested CR be updated to include FY 13/14 scope only. MAXIMUS updated CR and resubmitted April 2, 2013 with due date of April 5, 2013
Approved	CR2013-003 PMP Conformance Testing ARI	Feb 15 – MAXIMUS to create CR for ARI Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Approved and Signed Off by MAXIMUS. Feb 27 – Ministry signed by holding to confirm clause. MAXIMUS waiting for Signed copy. Mar 11 – Signed.
Approved	Health Sector Firewall Decision	Due April 19, 2013 – IF Yes, this will delay R2 Go Live and MAXIMUS to assess impacts and draft CR. Apr 11 – Decision made to proceed with Health Sector Firewall.
Approved	Move from 4000 Seymour to Kamloops will result in additional scope of testing	Due April 12, 2013 – IF Yes, MAXIMUS will assess added scope and add to CR for Health Sector Firewall.
Submitted	CR2013-007 Early Adopter Phase 2 Conformance Testing MedAccess	Apr 11 – MAXIMUS is drafting CR Apr 16 – Submitted to Ministry for Review and Approval
In Progress	CR2013-008 PMP Health Sector Firewall and Network Move	Apr 11 – Ministry Decision to proceed with Health Sector Firewall and added Scope of Network Move. MAXIMUS to assess impacts and draft CR. Apr 25 – MAXIMUS have drafted CR and in internal reviews. Plan to submit Apr 26, 2013

# PharmaNet Modernization Progress Report (JPMT)

Project Manager(s):	PharmaCare Program: Gloria Wills PharmaNet Modernization: Enola McClean	Reporting Period	From YYYY-Mon-DD	To YYYY-Mon-DD
			2013-Mar-02	2013-Mar-15
Project Purpose:	The proposed purpose of the PharmaNet project is to enhance the current PharmaNet system with a Medication Management Framework, ePrescribing capability, HIAL Integration and an infrastructure upgrade to be deployed in two releases: <u>Release 1:</u> will upgrade the current software to include the ePrescribing, Medication Management Framework and HIAL Integration upgrade. <u>Release 2:</u> will purchase and implement upgraded hardware and software to meet the increase in system capacity requirements resulting from the rollout of Release 1			

		Status		
		G	Y	R
Scope	PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project. PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines	G		
	Release 1.0 PharmaNet Go Live	Complete		
	Release 1.1 Early Adopter Deployment (increased scope in Conformance)	Y		
	Release 2.0 Infrastructure	G		
	Adhering to MAXIMUS methodology	G		
Quality		G		
Schedule	Release 1.0 PharmaNet Go Live - January 26, 2012	Complete		
	Release 1.1 Early Adopter Deployment	Y		
	Phase 1 – EMR Vendor Only - Nov 13 – 27, 2012 - completed	Y		
	Phase 2 – EMR and Pharmacy - TBD following Phase 1	Y		
	Release 2.0 Infrastructure Upgrade to support increased system capacity resulting from Release 1. – Mar 28, 2013 Catamaran Server Code Drop planned for July 12, 2012 - overdue - replanned for Aug 14 +/- 7 days – delivered Aug 20, 2012 MAXIMUS re-plan assessed options to compress schedule / mitigate delay to achieve GO LIVE by March 28, 2013. Any changes will impact project timelines. Schedule is at risk due to tight timelines.	Y		
Budget	MAXIMUS have provided project plan estimates for 2012/13. Project delivery is under fixed price with any scope increases held outside the fixed price on a time and materials basis (eg. CR2012-017, CR2012-019) and Fixed Price CR2013-001	Y		
	Current budget does not include any contingency. ** Any Scope increases will result in budget impacts as budget has no contingency. CR2013-001 Approved and Signed off by Ministry, but Ministry funding is under discussion so Ministry have asked to defer invoicing of work done on this CR until Ministry Funding is determined.	Y

## Key Open Project Issues

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
Y	High	Potential Impacts to Release 2 Go Live due to the move to Health Sector Firewall planned prior to Release 2 Go Live. This was not in the PharmaNet Modernization Project Plan as it was targeted for 6-9 months from now, well after Release 2 Go Live.	Firewall change may result in delayed or unsuccessful deployment of Release 2.	Request Move to Health Sector Fire Wall be implemented after Release 2 Go Live and Stabilization. Ministry are in agreement to defer this until after Release 2 Go Live and recommended this at meetings between Ministry, SSBC and HP. Awaiting decision on this.
Y	High	New Firewall will result in changes to PharmaNet Operational processes as to how we request access for a new POS. Additional effort and lead time required to execute requests for onboarding new POS. We need to make sure MoH, SSBC and HP have worked out the process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.	<ol style="list-style-type: none"> <li>1. Request Move To New Firewall be delayed until After Release 2 Go Live and Stabilization.</li> <li>2. Make sure MoH, SSBC and HP have worked out the process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.</li> <li>3. Allow time to establish new process and how we deal with additional lead times and effort required.</li> </ol>	Request Move to Health Sector Fire Wall be implemented after Release 2 Go Live and Stabilization  We need to make sure MoH, SSBC and HP have worked out the process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.
G	High	Potential Impact to Release 2 Go Live due to Annual Retro Run. Each Year Annual Retro is run from Feb to May 1 to reimburse families who have overpaid for Prescriptions. This overlaps Release 2.0 Deployment Activities which cannot both be run at the same time. Three Options presented in a new DR will outline impacts and decision must be made to either delay Retro or delay R2 Go Live.		Feb 5 – MAXMUS submitted DR Outlining Options for Decision for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. MAXIMUS updating DR to re-submit. Feb 27 – Ministry signed DR approving Option 1.
Y	High	Early Adopter Deployment dates cannot keep changing and moving closer to Release 2.0 or will impact Release 2.0 Business Acceptance Activities and possibly Release 2.0	Release 2 Business Acceptance Testing activities moved to accommodate EA Deployment planned for Sept 2012 - Test Case Development moved from Sept 2012 to Nov 2012	Release 2.0 Business Acceptance Activities have been delayed to accommodate Early Adopter Conformance Activities. Once all EA Deployments are complete, MOH will meet with MedAccess, MOH and do a formal lessons

**Green** = No concerns on schedule and within budget

# PharmaNet Modernization Progress Report (JPMT)

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
		Go Live.  Early Adopter Deployment Phase 1 was planned for April 2012, delayed to July 2012, then Sept 2012, then Oct 2012, and now planned for Nov. Phase 1: Nov 13-27 – Done Phase 2: March 28 TBD ??	<ul style="list-style-type: none"> <li>- Test Case Execution moved from Nov/Dec 2012 to Jan/Feb 2012</li> <li>- Test Case Execution moved again to Feb/Mar 2012</li> <li>- Potential risk to push out Rel 2 Go Live</li> </ul>	<p>learned and have a formal assesment document. Target completig interviews and qustionnaire by mid Dec.</p> <p>EA Phase 2 is yet to be scheduled. This will be aligned so as not to impact Release 2.0 Go Live. Current projeted date for Phase 2 is March 28, 2013 – to be confirmed.</p> <p>Feb 14 – Ministry are requesting an additional round of testing for MedAccess and ARI be completed prior to March 31, 2013. MAXMUS are evaluating and will include in a CR.</p>
Y		Conformance Specifications are not final for General Deployment. Final version was to be published Jan 4, 2013. DRAFT Specifications delivered in Jan, but require clarification. Updated version delivered in Feb, but not Final. Several rule clarifications / interpretations still exist and some rules were aligned to MedAccess that may be inaccurate, causing negative impact to future vendors.	Inadequate Specifications could result in <ol style="list-style-type: none"> <li>1. Delays in Conformance Test Case Development and Execution.</li> <li>2. Incorrect or incomplete Vendor Development.</li> <li>3. Additional Rounds of Conformance Testing.</li> <li>4. Incorect or incomplete test cases.</li> </ol>	<p>Ministry to finalize Conformance Specifications. These were due Jan 4, 2013.</p> <p>Draft Conformance Specifications provided are insufficient to support Test Case Development and Vendor Development.</p> <p>Ministry have updated documents and had a 2 hour workshop with MAXIMUS to review. Documents also released to TELUS and MedAccess.</p> <p>Ministry feel they are on track to have conformance specs ready for test case devleopment.</p> <p>** Conformance Specs must be finalized before Test Cases can be completed and before General Deployment</p>
Y	Medium	Project PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project	Increased Scope will impact project timelines	PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines.
G	High	Release 2 CATAMARAN Server Code Drop delayed due to runtime issues on Solaris NetX Platform. Due July 12, 2012 Catamaran targed delivery date of Aug 14 +/- 7 days This would push go live past FY to	Delays to Release 2.0 schedule and GO LIVE Project must implement this FY ** This must be mitigated to achieve Mar 2013 Go Live	<p>CATAMARAN added resources and worked over-time to deliver by Aug 20, 2013.</p> <p>Option of phased delivery explored, but not feasible. Daily check-point meetings setup between MAXIMUS and CATAMARAN to track progress</p> <p>MAXIMUS development team packaging server code drop and NetX profiles to deploy to test</p> <p>Sep 14 – MAXIMUS deployed Server Code Drop to</p>

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

0% Not started.  
10% Table of contents or acceptance criteria agreed to with client and/or work has started.  
25% Work is currently in progress on this deliverable or task.  
50% Internal reviews or Internal testing activities are currently in progress on this deliverable or task.  
75% External reviews or user acceptance testing activities are currently in progress on this deliverable or task.  
100% Final approval / sign-off or user acceptance has been received.

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
		April 17, 2013. MAXIMUS assessed options to mitigate and achieve Go Live by March 28, 2013.		<b>Test</b> MAXIMUS assessed schedule impacts and re-planned to deliver GO LIVE by March 28, 2012
<b>G</b>	Low	Potential delays to Release 2 Go Live due to SSBC not signing agreement with HP and delaying HP from moving infrastructure from TELUS Data Center to SSBC Data Center. Agreement is now signed but delayed resulting in delays to HP which could impact PharmaNet infrastructure setup	Potential delays to Release 2.0 Go Live	MAXIMUS will continue to monitor progress of HP Data Center Move Project – PharmaNet Project activities have been prioritized within the Data Center Move Project to keep on schedule for PharmaNet Release 2.0 Go Live. <b>This is currently tracking to schedule.</b> Jan 21 – Data Center Move successfully completed over the weekend.

## Key Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
<b>NEW</b>	High	Ministry Decision to allow Med Access to Go Live in Production without fully testing result in the following: 1. Conformance Specifications are unclear in areas, were updated to align with this vendor, and have not been fully tested by this vendor, or any other vendor 2. Conformance Test Cases have not been fully tested 3. MedAccess did not pass the last round of Conformance Testing. 4. Vendor software changes have been made without fully testing changes. 5. Patient Safety Issues may result due incorrect data entering PharmaNet and being used	The following impacts may result; 1. Data Integrity Issues 2. Patient Safety issues 3. Increased Production Support effort and costs 4. Potential down-time of PharmaNet. 5. Conformance Specifications do not match the intent and are incorrectly interpreted by other vendors. 6. Conformance Test Cases may not match the intention of the Specification and not adequately test for required conditions as not clearly stated in specifications. 7. Other Vendors may not correctly develop to the intent of the specifications 8. Other vendors may not be	MAXIMUS have notified the Ministry of the Risks recommending that MedAccess be fully tested before Go Live in Production.	High	High	Scope, Quality and Budget

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

# PharmaNet Modernization Progress Report (JPMT)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
		6. Increased production support and data integrity issues	adequately tested before going to production 9. Other vendors may change their software incorrectly to match the specifications aligned for MedAccess that are incorrect.				
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, SSBC, HP, MoH have proposed moving MAXMUS production servers) from the current firewall (ie. "zone b" firewall) to a new "Health Sector" firewall before Release 2.0 Go Live. The "Health Sector" firewall is already established in Calgary and is in MoH's/HP's plan to establish one in STMS Kamloops – however not for 6-9 months. <b>This was not in the PharmaNet Modernization Project Plan as this was planned for 6-9 months from now, well after Go Live.</b>	Potential Impact to Release 2 Go Live and may result in unsuccessful deployment of PharmaNet Release 2.	Request Move To New Firewall be delayed until After Release 2 Go Live and Stabilization.	HIGH	High	Schedule and Scope
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, responsibility of updating the firewall entries for new Pharmacies onboarding to access the PharmaNet application will be moved from SSBC to HP – as HP will be managing the firewall in STMS Kamloops. Existing process of requesting firewall updates will change from current "TIMS" ticket to SSBC to future HP iStore request for firewall updates.	PharmaNet Operational for onboarding new Pharmacies will change. Additional effort and lead time required. MoH, SSBC and HP must establish new process to update the firewall in Kamloops without impacting MAXMUS' current pharmacy registration procedures.	1. Request Move To New Firewall be delayed until After Release 2 Go Live and Stabilization. 2. MoH, SSBC and HP have established new process to update the firewall in Kamloops without impacting MAXMUS' current pharmacy registration procedures. 3. Assess how to deal with additional lead times and effort required.	High	High	Schedule and Scope

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.

# PharmaNet Modernization Progress Report (JPMT)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
		Pharmacy Network connectivity and access is not MAXMUS responsibility. MAXIMUS is part of the process (as there is a step in the process to update a security table in the PharmaNet database).					
<u>528682</u>	High	Project M102 Project Cannot keep pace with schedule for deliverable target dates. Schedule may slip due to 1-required project decisions and approvals not being made in time 2-specific project milestones not on the critical path are not met in time 3-estimated effort is insufficient to complete deliverables 4-financial risks and controls standards are not met 5-Early Adopter Points of Service Vendors (EMR or Pharmacy) are not ready to conformance test when scheduled by the project 6-early Adopter Point of Service Vendors (EMR or Pharmacy) withdraw from project prior to deployment	Could result in 1-Delays final deployment date for Rel 1.1 and/or Rel 2 2-Continue to lose stakeholder support 3-Scope may have to be reduced to meet project timelines  Pharmacy Vendor delays resulting in rescheduling, re-planning, moving things around. Large impact on operations.	Mitigate	Medium	High	Schedule and Budget
<u>528683</u>	Normal	Project M104 Project expenditures or forecasts exceed available funding, or funding is reduced and allocated to other higher priority projects, which may result in project not being able to accomplish the PharmaNet Modernization Vision, and possible cancellation of the project	Project could be reduced or cancelled	Mitigate	Medium High	Medium High	Budget

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
544671	Normal	Release 2 Execution of Data Conversion for Release 2.0 may not fit in a single change window, and may need to be split into 2 or more windows.	Data Conversion activities to be assessed. If required, split activities between 2 or more scheduled change windows within existing timeline.	Mitigate – As with Release 1.0, MAXIMUS will assess the probability of this and determine how Data Conversion can be executed. If required, MAXIMUS will arrange with the Service Provider to split activities between multiple change windows and extend the hours of the change window if required.	Medium	Medium	Schedule
528680	Normal	Project M111 Scope (Solution Requirements) Change over the Project Life Cycle. PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project	Anything that adds to scope will impact project timelines.	Mitigate – No new scope to be added unless essential. MAXIMUS to assess impacts of any changes such as SRs and Change Requests will be raised to document and approve any change in scope.	Medium	Medium	Schedule & Budget

## Waiting for Action

Description	Date Delivered	Action Required	Action Due Date	Status	Comment
CR 2013-001 PMP RX Dose Field Fix	Jan 8, 2013	Ministry Sign-Off	Jan 14, 2013	Signed Off Feb 8, 2013	This needed to be approved by Jan 14, 2013 to be included in Release 2.0 MAXIMUS were asked at Dec 13, 2012 JEC to continue with work. Ministry need to approve and fund the CR. At JEC on Jan 22, 2013 this was verbally approved as a fixed price CR. Jan 29 – CR updated to show fixed price and resubmitted to MOH for approval. Ministry Sign-Off received Feb 8, 2013. Ministry has determined funding Source. This can now be closed as Feb invoice can now include deferred billing from Dec and Jan. This can now be closed.

					CR, but Ministry asked to delay by 1 week to Feb 25 Feb 25 – Approved and Signed Off by MAXIMUS. Feb 27 – Ministry signed by holding to confirm clause. MAXIMUS waiting for Signed copy. Approved and Signed Off. This can now be closed.

## Key Decisions

Status (Approved / Pending)	Decision Description	Implications (Project, Business, Contract, etc.)
Approved	CR 2011-028 Rel 2 Requirements for Record Locking	Potential impacts to Release 2
Cancelled	DR 2012-004 PharmaNet Modernization Payment Synchronization	Ministry Decision to proceed with "As Is"
Cancelled	CR2012-004 PNet Modernization - MMF Service Claims Gap	Will be done after Release 2.0
Approved	DR 2012-007 PharmaNet - EMPI Invalid Province Handling Options – for Review and Acceptance	EMPI Invalid Province Data passed to PharmaNet
Cancelled	Early Adopter Deployment – Stabilization Criteria and Plan	MOH Decision: No formal "Stabilization Criteria and Plan" document is required. We will keep the stabilization period open from EA Go/Live until General Deployment. Any PharmaNet issues identified during this period will be managed through the change management process on the project.
Approved	CR2011-019 Release 2.0 CATAMARAN Hardware Upgrade Amended 2	This adds the 1 cent assignment clause
Approved	CR2012-008 Conformance Test Case Remediation and Execution	Additional scope required to complete Conformance Testing
Approved	DR 2012-011 PMP Printed Patient Profile Report	Add archival process to include archived data in report.
Approved	CR 2012-013 PMP Printed Patient Profile Report	Required for Release 2.0 Go Live. MOH put on hold and will assess with Re-Plan
Approved	CR 2012-014 Purchase TDCommpress for MOH	Required for Release 2.0 Go Live.
Approved	CR 2012-017 Conformance Test Case Updates	Must be approved by Nov 21 as Ministry have asked MAXIMUS to start work on this without the CR being approved or signed.
Approved	CR 2012-019 Practitioner Profile Adhoc and Pharmacy ID Fix	Must be approved by Nov 23 to be included in the scope of Release 2
Approved	CR 2013-001 PMP RX Dose Filed Fix	Required for Release 2.0. Must be approved by due date. Approval was due Jan 14, 2013. Ministry requested MAXIMUS to start work on this at JEC on Dec 13, 2012. This was verbally approved at January 17, 2013 JEC. <b>MOH approval via email outstanding</b>

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

Approved	DR 2013-001 PharmaNet Annual Retroactive Reimbursement Process for 2012 Benefit Year	Feb 5 – MAXIMUS submitted for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. Feb 15 - MAXIMUS updated DR and submitted with due date of Feb 20, 2013. Feb 18 – Ministry approved. Sign-Off in Progress
Approved	CR2012-017 Conformance Test Case Updates – Increases to Scope?	Feb 6 – Email sent to Ministry requesting decision on scope increase. Feb 13 – reminder email sent requesting decision. Feb 18 – Ministry responded with questions. MAXIMUS to answers. Feb 18 – MAXIMUS responses being sent today. Feb 25 – Submitted for Approval and Sign-Off Feb 27 – Signed Off. This can now be closed.
Submitted	CR2012-008 Conformance Test Case Remediation and Execution Amended	Feb 15 – MAXIMUS to amend CR2012-008 to revised scope and submit to Ministry for Review and Approval. Done. Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Due Feb 27
Submitted	CR2013-002 PMP Conformance Testing TELUS	Feb 15 – MAXIMUS to create CR for TELUS Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Due Feb 27
Approved	CR2013-003 PMP Conformance Testing ARI	Feb 15 – MAXIMUS to create CR for ARI Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Approved and Signed Off by MAXIMUS. Feb 27 – Ministry signed by holding to confirm clause. MAXIMUS waiting for Signed copy. Mar 11 – Signed.

# PharmaNet Modernization Progress Report (JPMT)

<b>Project Manager(s):</b>	PharmaCare Program: Gloria Wills PharmaNet Modernization: Enola McClean	<b>Reporting Period</b>	<b>From</b> YYYY-Mon-DD	<b>To</b> YYYY-Mon-DD
			2013-Mar-30	2013-Apr-12
<b>Project Purpose:</b>	The proposed purpose of the PharmaNet project is to enhance the current PharmaNet system with a Medication Management Framework, ePrescribing capability, HIAL Integration and an infrastructure upgrade to be deployed in two releases: <b>Release 1:</b> will upgrade the current software to include the ePrescribing, Medication Management Framework and HIAL Integration upgrade. <b>Release 2:</b> will purchase and implement upgraded hardware and software to meet the increase in system capacity requirements resulting from the rollout of Release 1			

		Status		
		G	Y	R
Scope	PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project. PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines	G		
	Release 1.0 PharmaNet Go Live	Complete		
	Release 1.1 Early Adopter Deployment (increased scope in Conformance)	Y		
	Release 2.0 Infrastructure – Added Scope of Health Sector Firewall and additional Testing of Move from Seymour to Kamloops.	Y		
	Adhering to MAXIMUS methodology	G		
Quality		G		
	Schedule	Complete		
	Release 1.0 PharmaNet Go Live - January 26, 2012	Complete		
	Release 1.1 Early Adopter Deployment Phase 1 – EMR Vendor Production Pilot - Nov 13 – 27, 2012 - completed Phase 2 – Pharmacy Production Deployment (Gibsons) - Mar 30-31 Phase 3 – EMR Production Deployment - TBD	G		
	Release 2.0 PharmaNet Infrastructure Upgrade Go Live – planned for March 28, 2013. Delayed to May 16, 2013. Catamaran Server Code Drop planned for July 12, 2012 - overdue - replanned for Aug 14 +/- 7 days – delivered Aug 20, 2012 MAXIMUS re-plan assessed options to compress schedule / mitigate delay to achieve GO LIVE by March 28, 2013. Any changes will impact project timelines. ARI Conformance Testing added to Project Scope. Schedule is at risk due to tight timelines. Go Live deferred to May 16, 2013. Health Sector Firewall Decision will Delay Go Live. Go Live is no longer planned for May 16, 2013. MAXIMUS to assess and include in CR along with additional Testing of move from Seymour to Kamloops.	R		
Budget	MAXIMUS have provided project plan estimates for 2012/13. Project delivery is under fixed price with any scope increases held outside the fixed price on a time and materials basis (eg. CR2012-017, CR2012-019) and Fixed Price CR2013-001	Y		
	Current budget does not include any contingency. ** Any Scope increases will result in budget impacts as budget has no contingency.

- Service Order 2013-04 for Feb/Mar 2013 – Approved. Signed-Off.

## 2. Outstanding Issues and Actions.

Y

## Key Open Project Issues

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
<b>R</b>	High	Release 2 Ministry Decision on Health Sector Firewall changes were planned for after Release 2. Now being moved up to before R2 Go Live. Ministry meeting held Mar 25 to decide timing - waiting for Ministry Decision	If Health Sector Firewall is moved after Go Live - No impact to Project. If Health Sector Firewall is moved before Go Live - It must be done before changes and testing of Firewall and therefore will delay Go Live.	If Decision is Yes, a CR will be created to document the change that will delay the Network Move and therefore delay Release 2 Go Live. This will also impact existing PRODUCTION applications that are on Zone B. These must be moved before R2 Go Live. Decision required by APRIL 19. If decided after will cause re-work for Network Move and additional delays. IF YES, will delay R2 Go Live. Apr 11 – Ministry Decision is to proceed with Health Sector Firewall. This will delay Release 2 GO Live. MAXIMUS assess impacts and draft a CR.
<b>Y</b>	High	Release 2 Move from 4000 Seymour to Kamloops will result in additional scope of testing. These are Ministry changes to the Ministry network that should be tested by the Ministry and are not in scope of PharmaNet Modernization Project.	Ministry are requesting more work that was not in scope 1. Operational Process Changes for how we onboard Pharmacy Vendor. Ministry, SSBC and HP must work out process first then MAXIMUS will need to adjust to these. 2. Network Solution for moving the PharmaNet IP addresses from 4000 Seymour to Kamloops. This is currently underway and must be tested before Go Live as it will be implemented during the Change Window Prior to Go Live. Ministry/SSBC are requesting that MAXIMUS test these changes. These are not in scope of PharmaNet Modernization Project.	Ministry Decision on if this is to be added to Scope. If YES, MAXIMUS will create a CR. Decision required by APRIL 12. If decided after, will delay Go Live even further. Apr 11 – Ministry Decision is to proceed with Additional Scope. This will be assessed and included in the CR for the Health Sector Firewall.
<b>Y</b>	Medium	Project PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project	Increased Scope will impact project timelines	PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines.

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

0% Not started.

# PharmaNet Modernization Progress Report (JPMT)

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
<b>G</b>	High	Ministry requirement change to send files to Condor via SFTP rather than FTP. Decision required by Friday Mar 22 as to if MAXIMUS must change to accommodate this.	Additional development, testing and infrastructure changes required to accommodate this change. MAXIMUS estimate this will take 4-6 days to complete, and we need a decision this week notifying us if we are to proceed with this change or not.	Ministry decision required by Mar 22 on if this must be changed. If so CR to be raised as per email estimate provided to Ministry on Mar 20 – overdue. ** Mar 28, 2013 – Ministry Decision is to change to SFTP. MAXIMUS to make changes to accommodate this in R2 as per estimate provided.
<b>G</b>	High	Potential Impact to Release 2 Go Live due to Annual Retro Run. Each Year Annual Retro is run from Feb to May 1 to reimburse families who have overpaid for Prescriptions. This overlaps Release 2.0 Deployment Activities which cannot both be run at the same time. Three Options presented in a new DR will outline impacts and decision must be made to either delay Retro or delay R2 Go Live.		Feb 5 – MAXIMUS submitted DR Outlining Options for Decision for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. MAXIMUS updating DR to re-submit. Feb 27 – Ministry signed DR approving Option 1.
<b>G</b>	High	Early Adopter Deployment dates cannot keep changing and moving closer to Release 2.0 or will impact Release 2.0 Business Acceptance Activities and possibly Release 2.0 Go Live.  Early Adopter Deployment Phase 1 was planned for April 2012, delayed to July 2012, then Sept 2012, then Oct 2012, and now planned for Nov. Phase 1: Nov 13-27 – Done Phase 2: March 30-31 – Done Phase 3: TBD	Release 2 Business Acceptance Testing activities moved to accommodate EA Deployment planned for Sept 2012 - Test Case Development moved from Sept 2012 to Nov 2012 - Test Case Execution moved from Nov/Dec 2012 to Jan/Feb 2012 - Test Case Execution moved again to Feb/Mar 2012 - Potential risk to push out Rel 2 Go Live	Release 2.0 Business Acceptance Activities have been delayed to accommodate EA Conformance. Once all EA Deployments are complete, MOH will meet with MedAccess, MOH and do a formal lessons learned and have a formal assesment document. Target completig interviews / qustionaire by mid Dec. EA Phase 2 is yet to be scheduled. This will be aligned so as not to impact Release 2.0 Go Live. Current projeted date for Phase 2 is March 28, 2013 – to be confirmed. Feb 14 – Ministry are requesting an additional round of testing for MedAccess and ARI be completed prior to March 31, 2013. MAXIMUS are evaluating and will include in a CR. MAXIMUS prepared CR and sent to MOH. Ministry approved CRs for MedAccess and ARI. Ministry later decided not to conformance test MedAccess and to use funding to support TELUS and wlaalthough test cases with TELUS. <b>Phase 2 completed March 31, 2013</b>

**Green** = No concerns on schedule and within budget

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
				Phase 3 to be scheduled
<b>G</b>		Conformance Specifications are not final for General Deployment. Final version was to be published Jan 4, 2013. DRAFT Specifications delivered in Jan, but require clarification. Updated version delivered in Feb, but not Final. Several rule clarifications / interpretations still exist and some rules were aligned to MedAccess that may be inaccurate, causing negative impact to future vendors.	Inadequate Specifications could result in <ol style="list-style-type: none"> <li>1. Delays in Conformance Test Case Development and Execution.</li> <li>2. Incorrect or incomplete Vendor Development,</li> <li>3. Additional Rounds of Conformance Testing.</li> <li>4. Incorrect or incomplete test cases.</li> </ol>	Ministry to finalize Conformance Specifications. These were due Jan 4, 2013. Draft Conformance Specifications provided are insufficient to support Test Case Development and Vendor Development. Ministry have updated documents and had a 2 hour workshop with MAXIMUS to review. Documents also released to TELUS and MedAccess. Ministry feel they are on track to have conformance specs ready for test case development. <b>** Conformance Specs must be finalized to a version that can be used for Test Case Development and Vendor Development. Specifications will be finalized before General Deployment.</b>
<b>G</b>	High	Release 2 CATAMARAN Server Code Drop delayed due to runtime issues on Solaris NetX Platform. Due July 12, 2012 Catamaran target delivery date of Aug 14 +/- 7 days This would push go live past FY to April 17, 2013. MAXIMUS assessed options to mitigate and achieve Go Live by March 28, 2013.	Delays to Release 2.0 schedule and GO LIVE. Project must implement this FY <b>** This must be mitigated to achieve Mar 2013 Go Live</b>	CATAMARAN added resources and worked over-time to deliver by Aug 20, 2013. Option of phased delivery explored, but not feasible. Daily check-point meetings setup between MAXIMUS and CATAMARAN to track progress MAXIMUS development team packaging server code drop and NetX profiles to deploy to test <b>Sep 14 – MAXIMUS deployed Server Code Drop to Test.</b> MAXIMUS assessed schedule impacts and re-planned to deliver GO LIVE by March 28, 2012
<b>G</b>	Low	Potential delays to Release 2 Go Live due to SSBC not signing agreement with HP and delaying HP from moving infrastructure from TELUS Data Center to SSBC Data Center. Agreement is now signed but delayed resulting in delays to HP which could impact PharmaNet infrastructure setup	Potential delays to Release 2.0 Go Live	MAXIMUS will continue to monitor progress of HP Data Center Move Project – PharmaNet Project activities have been prioritized within the Data Center Move Project to keep on schedule for PharmaNet Release 2.0 Go Live. <b>This is currently tracking to schedule.</b> Jan 21 – Data Center Move successfully completed over the weekend.

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

## Key Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, SSBC, HP, MoH have proposed moving MAXIMUS production servers) from the current firewall (ie. "zone b" firewall) to a new "Health Sector" firewall before Release 2.0 Go Live. The "Health Sector" firewall is already established in Calgary and is in MoH's/HP's plan to establish one in STMS Kamloops – however not for 6-9 months. This was not in the PharmaNet Modernization Project Plan as this was planned for 6-9 months from now, well after Go Live. Apr 11 – DECISION MADE TO MOVE to HEALTH SECTOR FIREWALL	Added scope and delays to Release 2 Go Live Release 2 Go Live	MAXIMUS to assess impact and draft CR as decision has been made to proceed with this.	HIGH	High	Scope, Schedule, Budget
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, responsibility of updating the firewall entries for new Pharmacies onboarding to access the PharmaNet application will be moved from SSBC to HP – as HP will be managing the firewall in STMS Kamloops. Existing process of requesting firewall updates will change from current "ITIMS" ticket to SSBC to future HP iStore request for firewall updates. Pharmacy Network connectivity and access is not MAXIMUS responsibility. MAXIMUS is part	Added Scope to Release 2.  PharmaNet Operational for onboarding new Pharmacies will change. Additional effort and lead time required. MoH, SSBC and HP must establish new process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.	MAXIMUS to assess impacts and add to CR for Health Sector Firewall.  1. MoH, SSBC and HP have established new process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures. 2. Assess how to deal with additional lead times and effort required.	High	High	Scope, Schedule, Budget

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

0% Not started.

		of the process (as there is a step in the process to update a security table in the PharmaNet database). APR 11 – DECISION MADE TO PROCEED WITH ADDED SCOPE TO NETWORK MOVE.					
<b>NEW</b>	High	Ministry Decision to allow Med Access to Go Live in Production without fully testing result in the following: 1. Conformance Specifications are unclear in areas, were updated to align with this vendor, and have not been fully tested by this vendor, or any other vendor 2. Conformance Test Cases have not been fully tested 3. MedAccess did not pass the last round of Conformance Testing. 4. Vendor software changes have been made without fully testing changes. 5. Patient Safety Issues may result due Incorrect data entering PharmaNet and being used 6. Increased production support and data integrity issues	The following impacts may result; 1. Data Integrity Issues 2. Patient Safety issues 3. Increased Production Support effort and costs 4. Potential down-time of PharmaNet. 5. Conformance Specifications do not match the intent and are incorrectly interpreted by other vendors. 6. Conformance Test Cases may not match the intention of the Specification and not adequately test for required conditions as not clearly stated in specifications. 7. Other Vendors may not correctly develop to the intent of the specifications 8. Other vendors may not be adequately tested before going to production 9. Other vendors may change their software incorrectly to match the specifications aligned for MedAccess that are incorrect.	MAXIMUS have notified the Ministry of the Risks recommending that MedAccess be fully tested before Go Live in Production.	High	High	Scope, Quality and Budget
<u>528682</u>	High	Project M102 Project Cannot keep pace with schedule for deliverable target dates.	Could result in 1-Delays final deployment date for Rel 1.1 and/or Rel 2 2-Continue to lose stakeholder	Mitigate	Medium	High	Schedule and Budget

Approved	CR 2011-028 Rel 2 Requirements for Record Locking	Potential impacts to Release 2
Cancelled	DR 2012-004 PharmaNet Modernization Payment Synchronization	Ministry Decision to proceed with "As Is"
Cancelled	CR2012-004 PNet Modernization - MMF Service Claims Gap	Will be done after Release 2.0
Approved	DR 2012-007 PharmaNet - EMPI Invalid Province Handling Options – for Review and Acceptance	EMPI Invalid Province Data passed to PharmaNet
Cancelled	Early Adopter Deployment – Stabilization Criteria and Plan	MOH Decision: No formal "Stabilization Criteria and Plan" document is required. We will keep the stabilization period open from EA Go/Live until General Deployment. Any PharmaNet issues identified during this period will be managed through the change management process on the project.
Approved	CR2011-019 Release 2.0 CATAMARAN Hardware Upgrade Amended 2	This adds the 1 cent assignment clause
Approved	CR2012-008 Conformance Test Case Remediation and Execution	Additional scope required to complete Conformance Testing
Approved	DR 2012-011 PMP Printed Patient Profile Report	Add archival process to include archived data in report.
Approved	CR 2012-013 PMP Printed Patient Profile Report	Required for Release 2.0 Go Live. MOH put on hold and will assess with Re-Plan
Approved	CR 2012-014 Purchase TDCompress for MOH	Required for Release 2.0 Go Live.
Approved	CR 2012-017 Conformance Test Case Updates	Must be approved by Nov 21 as Ministry have asked MAXIMUS to start work on this without the CR being approved or signed.
Approved	CR 2012-019 Practitioner Profile Adhoc and Pharmacy ID Fix	Must be approved by Nov 23 to be included in the scope of Release 2
Approved	CR 2013-001 PMP RX Dose Filed Fix	Required for Release 2.0. Must be approved by due date. Approval was due Jan 14, 2013. Ministry requested MAXIMUS to start work on this at JEC on Dec 13, 2012. This was verbally approved at January 17, 2013 JEC. Approved.
Approved	DR 2013-001 PharmaNet Annual Retroactive Reimbursement Process for 2012 Benefit Year	Feb 5 – MAXIMUS submitted for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. Feb 15 - MAXIMUS updated DR and submitted with due date of Feb 20, 2013. Feb 18 – Ministry approved. Sign-Off in Progress
Approved	CR2012-017 Conformance Test Case Updates – Increases to Scope?	Feb 6 – Email sent to Ministry requesting decision on scope increase. Feb 13 – reminder email sent requesting decision. Feb 18 – Ministry responded with questions. MAXIMUS to answers. Feb 18 – MAXIMUS responses being sent today. Feb 25 – Submitted for Approval and Sign-Off Feb 27 – Signed Off. This can now be closed.

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

Approved	CR2012-008 Conformance Test Case Remediation and Execution Amended	Feb 15 – MAXIMUS to amend CR2012-008 to revised scope and submit to Ministry for Review and Approval. Done. Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 6 – Approved and Signed Off
Submitted	CR2012-008 Conformance Test Case Remediation and Execution Amended2	Mar 21 – MAXIMUS amended CR2012-008 to revise scope to reflect Ministry Decision not to conformance test MedAccess and to use remaining time in CR for TELUS support and walkthrough of Test Cases. Mar 22 - Submitted to MOH. <b>Due Mar 26, 2013.</b>
Submitted	CR2013-002 PMP Conformance Testing TELUS	Feb 15 – MAXIMUS to create CR for TELUS Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Due Feb 27 Mar 28 – Ministry requested CR be updated to include FY 13/14 scope only. MAXIMUS updated CR and resubmitted April 2, 2013 with due date of April 5, 2013
Approved	CR2013-003 PMP Conformance Testing ARI	Feb 15 – MAXIMUS to create CR for ARI Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Approved and Signed Off by MAXIMUS. Feb 27 – Ministry signed by holding to confirm clause. MAXIMUS waiting for Signed copy. Mar 11 – Signed.
Approved	Health Sector Firewall Decision	Due April 19, 2013 – IF Yes, this will delay R2 Go Live and MAXIMUS to assess impacts and draft CR. Apr 11 – Decision made to proceed with Health Sector Firewall.
Approved	Move from 4000 Seymour to Kamloops will result in additional scope of testing	Due April 12, 2013 – IF Yes, MAXIMUS will assess added scope and add to CR for Health Sector Firewall.
Pending	CR2013-007 Early Adopter Phase 2 Conformance Testing MedAccess	Apr 11 – MAXIMUS is drafting CR
Pending	CR2013-008 PMP Health Sector Firewall and Network Move	Apr 11 – Ministry Decision to proceed with Health Sector Firewall and added Scope of Network Move. MAXIMUS to assess impacts and draft CR.

## Upcoming Deliverables/Milestones:

Note: Milestone Dates are shown in grey as they mark completion, and are not for acceptance

Milestone or Deliverable	MAXIMUS Milestone or Deliverable Name	Status	Due Date for Acceptance
	<b>Release 1.1 Early Adopter Deployment</b>		
Milestone	Phase 2 – Pharmacy Production Deployment (Gibsons)	Done	Mar 30-31, 2013
	Phase 3 – EMR Production Deployment - TBD	Pending	TBD

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.

## Bi-weekly Project Progress Report

Status			ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
G	Y	R						

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will rigorously test the application prior to deployment	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule

<span style="color: green;">Green</span> = No concerns on schedule and within budget	<span style="color: yellow;">Yellow</span> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<span style="color: red;">Red</span> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	--	--

## Bi-weekly Project Progress Report

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Pending	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  MoH to provide decision by January 10 2014
	Pending	Scope of STRA – only changes or full PharmaNet STRA	If full STRA is required, this will impact and scope and budget for the project. Schedule may be impacted as well.  MoH to arrange meeting (done – Jan 7 2014) and provide decision by January 17 2014
	Pending	Finalize requirement for new reports	If no new reports are required, this reduces scope and budget for the project. If new reports are needed, need requirements for the reports in order to finalize functional specifications by end of January 2014.  MoH to arrange meeting (week of Jan 6-10) and provide decision by January 17 2014
	Pending	PharmaNet Release 4.0 – date to start developing requirements and estimate	If Release 4.0 requirements are not started early in January 2014 the project burn rate will be further impacted since the original plan was to start the work in December 2013.  MoH to provide decision by January 10 2014.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Change Description	Implications (Project, Business, Contract, etc.)

## 4 Detail

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## Agenda

- Meeting Objectives
- Introduction
- Business Problem/Opportunity
- Scope
- Business Transformation
- Business Value
- Success Criteria
- Timeline
- Risks / Issues
- Development Phase Closure Checklist
- Deployment Phase Milestones
- Test Results
- Defect Action Plan
- Deployment Plan
- Communications
- Key Stakeholders
- Project Actuals
- Go/No Go Decision

## Meeting Objectives

- Internal MAXIMUS approval granted
- Go/No Go Decision to proceed with Deployment Phase for Release 3.0 PharmaNet Go Live

## Introduction

Release 3.0: PharmaNet Go Live on June 25, 2014 will implement upgraded software to :

- address the new Regulations under the Pharmaceutical Services Act providing for the classification of PharmaCare providers, and

- 

s.17

The following PharmaNet components will be upgraded to support the new functionality:

- On line Transaction Processing (OLTP)
- Administration Screens (PNP)
- Batch Processes and Interfaces
- Reports

## Business Problem / Opportunity

### The Main Objectives of the PharmaNet Release 3.0 Project:

- The objectives of the project are to design, develop and implement PharmaNet and Impacted Peripheral System functionality related to:
  - s.17
  - Blood Glucose Test Strips Limit
  - 
  - 
  - s.17
  - 
  - Service Provider enrolment
    - support for new regulations
  - Publicly funded vaccine administration
    - new adjudication rules for Service Claims
  - Methadone Payment Process change
  - s.17
  - New BGTS Category screen
  - Creation of a “production-like” test environment for load/performance testing
  - Apply DIS only pharmacy check to Tamiflu and Service Claims monthly payments jobs
  - Changes to Claims History archiving process
  - Healthideas extracts

## Release 3.0 Scope

The PharmaNet Release 3.0 Project includes the following:

- Detailed Planning and Project Management
- Analysis and Design for the and changes for  
s.17  
s.17
- Execution of test cases, automated and manual, to ensure the application operates as expected
- Training, new/updated work instructions and job aids, and internal communication of changes introduced by Release 3.0\*
- Deployment of updated PharmaNet application to Production
- PharmaCare operational organization and support for updated application
- MAXIMUS accountabilities defined in Section 6 Roles and Responsibilities of the Project Charter
- Screen deployment and support to Colleges and HLBC

\* Some of the training and stabilization budget will not be utilized before the currently defined end of the project

## Business Transformation

Pre-Implementation	Post-Implementation
<p>s.17</p> <ul style="list-style-type: none"> <li>Blood Glucose Test Strips Limit</li> </ul> <p>s.17</p>	<p>s.17</p>
<p>Service claims monthly payments process:</p> <ul style="list-style-type: none"> <li>fees paid for the administration of publicly funded vaccines <b>not limited</b> to BC residents</li> <li>s.17</li> <li>Manual adjustments to exclude pharmacies from payment if they are already enrolled in a similar payment program</li> </ul>	<ul style="list-style-type: none"> <li>fees paid for the administration of publicly funded vaccines <b>can be limited</b> to BC residents (dependent on the Business Configuration settings)</li> <li>s.17</li> <li>Exclusion of pharmacies from payment if they are already enrolled in a similar payment program</li> </ul>
<p>No functionality for Provider Re-enrolment and classification</p>	<ul style="list-style-type: none"> <li>New Provider status check in claim adjudication</li> <li>ability to classify Providers in PharmaNet</li> </ul>

## Business Value...

## 2. Benefits of Updated Application

- 

s.17

- **Provider Re-enrolment support and classification**
  - support for new legislative, regulatory and policy requirements
  - allow for the reporting of claims activity by classification
  - ability to limit PharmaNet claims transaction access for certain providers

## Success Criteria

### **Project success will be deemed to be achieved when:**

- PharmaNet Release 3.0 is implemented in the Production environment within the agreed upon timeline
- Meets the approved Business Requirements and Non-Functional Requirements as demonstrated by the accepted Test Results Summary and Defect Action Plan

## Success Criteria ...

- As defined in the Test Plan, the system is functioning as required through fulfillment of Stabilization Criteria including:
  - o All Severity 1 defects reported as resolved/fixed
  - o All Severity 2 defects reported as addressed with suitable workarounds and a clear plan of action, including clear responsibilities, and timetable to resolve after completion of the stabilization period
  - o All Severity 3 defects reported as addressed with suitable workarounds
- Once Stabilization Criteria is met, the Stabilization Period ends

## Timeline

### Release 3 Footprint & Milestone Targets

Revised Date: June 16, 2014

## Risks / Issues

ITG #	Priority	Description	Impact	Mitigation / Contingency Strategy
553658	High	Ministry Risk and Controls Report not yet completed and approved by MOH	Go Live delayed if not approved	Ministry Risk and Controls review in progress. Must be reviewed and signed off by the Ministry and accepted by the OCG.
553611	Low	New application functionality not utilized during the stabilization period.	Issues uncovered after stabilization period has expired.	MAXIMUS will test using business scenarios and business configuration settings that are as close as possible to the production settings.
553616	High	Application performance may be impacted by business requirements.	Potential impact to Go Live	Performance issue discovered during testing and was corrected.
553680	Med	Infrastructure freeze established by SSBC.	Potential impact to Go Live	Follow the SSBC "Request for Special Processing" procedure and escalate quickly if this issue is raised.

## Development Phase Closure Checklist

Status	Deliverable / Work Product / Milestone
Complete	Project Charter
Complete	High-Level Business Requirements
Complete	Training Strategy
Complete	Functional Requirements
Complete	Non-Functional Requirements
Complete	Business Continuity Assessment and Plan
Complete	Impact Assessment
Complete	Functional Specifications
Complete	Test Strategy / Plan
Complete	Training Plan
Complete	Disaster Recovery Assessment and Plan

## Development Phase Closure Checklist

Status	Milestone / Deliverable Name
Complete	Catamaran Code Drop – Screens
Complete	Catamaran Code Drop – Transactions
Complete	Update Batches and Interfaces
Complete	Functional Test Case Development
Complete	Non-Functional Test Case Development
Complete	Business Acceptance Test Case Development
Incomplete	Functional Test Execution (will be complete before Go-live)
Incomplete	Non-Functional Test Execution (will be complete before Go-live)
Complete	Business Acceptance Test Execution
Complete	Work Instructions, User Guides and Job Aids
Complete	Stabilization Criteria and Plan

## Development Phase Closure Checklist ...

Status	Milestone / Deliverable Name
Complete	Production Support Plan
Incomplete	Test Results Summary (will be complete before Go-live)
Incomplete	Defect Action Plan (will be complete before Go-live)
Complete	Deployment Go / No Go Presentation
Complete	Training Plan Execution
Complete	Deployment Strategy / Plan
Complete	Communication Plan (MoH)
Complete	Communication Activity Matrix (M0H)

## Deployment Phase Checklist ...

Milestone / Deliverable Name	Due Date	Status
Production Code Deployment – Transactions	Jun 25, 2014	Pending
Production Code Deployment – Batches	Jun 25, 2014	Pending
Production Code Deployments – Interfaces	Jun 25, 2014	Pending
PharmaNet Screen Deployment Package (Internal)	Jun 26, 2013	Pending
PharmaNet Screen Deployment Package (External)	Jun 26, 2013	Pending
Data Warehouse Refresh	Jun 27, 2014	Pending

## Test Results

As of June 17, 2014, there are 5 outstanding defects: all 5 are Low Severity

Functional Test (in progress)			Integration Test (complete)			Business Acceptance Test (complete)		
# Outstanding Defects			# Outstanding Defects			# Outstanding Defects		
High	Med	Low	High	Med	Low	High	Med	Low
0	0	5	0	0	0	0	0	0

## Defect Action Plan

**There are 5 Low Severity Defects that will be fixed prior to go-live or during Stabilization:**

- New 'PAYMENT Rural' code not behaving as currently documented
- Batch job that was run in TS1 generated the report in wrong environment
- Cannot set email notification in bip2
- Technical Run manual documents 3 output reports but only two are set up in test env (TS4)
- Methadone Batch payment documentation requires update

## Deployment Plan

- ✓ **Deployment planned to start Wed Jun 25, 2014 at 10 pm and ends on Thurs Jun 26, 2014 at 8 am**
- ✓ Engaged MAXIMUS IT, HIBC, Ministry (HSMIT, BMO, PSD), HP (Network, Storage, Application Services) to support deployment
- ✓ Change Window Activities detailed out in the Deployment Plan with planned start and finish times, owner of each task and who is required to support each task.
- ✓ Working with MAXIMUS IT, HIBC, Ministry (HSMIT, BMO, PSD), HP (Network, Storage, Application Services) to validate tasks and assign resourcing
- ✓ Deployment Day Contact List will be used to create distribution lists during deployment and after, knowing who is available when and how to contact
- Change Window Key Activities. **Current plan shows completion at 8:00 am**
  - list key steps
  - Jun 26, 4:00 – 4:30 AM (TBC) notify parties to roll out screens.

## Communications

- ✓ MoH Communications (external stakeholders, all impacted MoH groups)
- ✓ Pre-release email to Colleges Technical Support in preparation for deployment
- ✓ Pre-deployment emails and meetings with MAXIMUS IT, HIBC, Ministry
- ✓ Fan Out to All PharmaNet Users announcing the Change Window
- ✓ PharmaNet Bulletin describing the Service Interruption During the Change Window
  - Defining Service Interruption
  - Preparing for the Change Window
  - During the Change Window
- ✓ Ops Bulletin to Inform HIBC Staff (June 20, 2014)
- ✓ Emails to inform implementation teams and end users (June 20, 2014)
- ✓ Communications during the Change Window

## Key Stakeholders

### ➤ Ministry of Health

- Medical Beneficiary and Pharmaceutical Services Division (MBPSD)
- Strategic Projects Branch
- Business Management Office (BMO)
- HSIM/IT
- HealthLink BC (HLBC)

### ➤ MAXIMUS / HIBC

- PharmaCare Client Service Representatives (CSRs), PharmaCare Help Desk
- Information Support, Operational Services
- PharmaNet Business Systems Coordinators, Operational Services
- Quality Assurance, Operational Services

### ➤ Colleges

- College of Pharmacists of BC (CPBC)
- College of Physicians and Surgeons (CPSBC)

### ➤ Service Providers

- Shared Services BC
- HP Advanced Solutions (HPAS)

# Project Actuals (to end of May 2014)

PharmaNet Release 3.0 Project Actuals and Estimates															
															Updated: June 13, 2014
	Actual	Actual	Actual	Actual	Actual	Actual	Fiscal Total	Actual	Actual	Estimate	Estimate	Estimate	Estimate	Fiscal Total	Project
\$s	Apr-Oct 2013	Nov 2013	Dec 2013	Jan 2014	Feb 2014	March 2014	FY13/14	April 2014	May 2014	June 2014	July 2014	Aug 2014	Sept 2014	FY14/15	Total

Total	\$158,740	\$223,127	\$128,478	\$291,059	\$332,367	\$525,347	\$1,659,118	\$401,531	\$360,986	\$423,480	\$175,482	\$18,054	\$26,431	\$1,405,963	\$3,065,081
Hrs	s.21														
MAXIMUS															
CO 64															
CO 65															
CO 66															
Financial Adjustments:															
	Removed \$11,440 from CO 65 due to removal of effort for STRA s.21														
	Apply credit for additional capacity hrs (CO 66) to April, May and June s.21														
	Add \$45,740 for June to Aug 2013 (ODR to CAS reconciliation)														
	CO 64 value is \$535,591 of which \$25,246 was not spent by Dec 31 2013 so that amount was applied against the Jan 2014 invoice														
	CO 65 value is \$2,567,176. It is split by fiscal: FY2013/14 = \$1,123,527 and FY2014/15 = \$1,443,649														
	Total amount available for FY13/14 = \$1,659,118														
	Apr-Oct 2013 column includes \$45,740 for the ODR to CAS Reconciliation report effort (SR 553416)														
	CR2014-005 - Provide screen code to Colleges and HLBC - added to project totals														
	CR2014-006 - No limits to be implemented at Go-live														
	CR2014-007 - Performance issue resolution														
Notes:															
	PNet R3.0 estimates include MAXIMUS and Catamaran effort														
	The number of MAXIMUS hours per month includes IT and BAT resources which are charged at different rates														
	Original estimate for February reduced due to delays in requirements decisions														
	Original estimate for March increased to make up for reduction in February effort														
	Requirements changes that have increased the estimate and/or scope:														
	Methadone Payment Process change														
	New Service Claims cap														
	BGTS Patient Category lookup screen														
	Apply DIS only pharmacy check to Tamiflu monthly payments job														
	Creation of a "production-like" test environment for performance testing of new limits requirements														
	Requirements changes that have decreased the estimate and/or scope:														
	PharmaNet R4.0 requirements and estimate removed from scope														
	Stakeholder Engagement Strategy and Plan assigned to MoH														
	Provider enrolment operational activities, training and communications removed from scope														
	Risk and Controls review removed from scope														
	No new reports or report updates														
	Stabilization criteria will be loosened to reduce the amount of stabilization support required														
	MAXIMUS effort related to the STRA removed from scope

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

Status G Y R			ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will rigorously test the application prior to deployment	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Pending	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  MoH to provide decision by January 10 2014
	Pending	Scope of STRA – only changes or full PharmaNet STRA	If full STRA is required, this will impact and scope and budget for the project. Schedule may be impacted as well.  MoH to arrange meeting (done – Jan 7 2014) and provide decision by January 17 2014
	Pending	Finalize requirement for new reports	If no new reports are required, this reduces scope and budget for the project. If new reports are needed, need requirements for the reports in order to finalize functional specifications by end of January 2014.  MoH to arrange meeting (week of Jan 6-10) and provide decision by January 17 2014
	Pending	PharmaNet Release 4.0 – date to start developing requirements and estimate	If Release 4.0 requirements are not started early in January 2014 the project burn rate will be further impacted since the original plan was to start the work in December 2013.  MoH to provide decision by January 10 2014.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Change Description	Implications (Project, Business, Contract, etc.)

## 4 Detail

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

# PharmaNet Modernization Progress Report (JPMT)

Project Manager(s):	PharmaCare Program: Gloria Wills PharmaNet Modernization: Enola McClean	Reporting Period	From YYYY-Mon-DD	To YYYY-Mon-DD
			2013-Mar-30	2013-Apr-12
Project Purpose:	The proposed purpose of the PharmaNet project is to enhance the current PharmaNet system with a Medication Management Framework, ePrescribing capability, HIAL Integration and an infrastructure upgrade to be deployed in two releases: <u>Release 1:</u> will upgrade the current software to include the ePrescribing, Medication Management Framework and HIAL Integration upgrade. <u>Release 2:</u> will purchase and implement upgraded hardware and software to meet the increase in system capacity requirements resulting from the rollout of Release 1			

		<b>Status</b>		
		G	Y	R
<b>Scope</b>	PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project. PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines	G		
	Release 1.0 PharmaNet Go Live	Complete		
	Release 1.1 Early Adopter Deployment (increased scope in Conformance)	Y		
	Release 2.0 Infrastructure – Added Scope of Health Sector Firewall and Network Move.	Y		
	Adhering to MAXIMUS methodology	G		
<b>Schedule</b>	Release 1.0 PharmaNet Go Live - January 26, 2012	Complete		
	Release 1.1 Early Adopter Deployment			
	Phase 1 – EMR Vendor Production Pilot - Nov 13 – 27, 2012 - completed	G		
	Phase 2 – Pharmacy Production Deployment (Gibsons) - Mar 30-31			
<b>Budget</b>	Phase 3 – EMR Production Deployment - TBD			
	Release 2.0 PharmaNet Infrastructure Upgrade Go Live – planned for March 28, 2013. Delayed to May 16, 2013. Catamaran Server Code Drop planned for July 12, 2012 - overdue - replanned for Aug 14 +/- 7 days – delivered Aug 20, 2012 MAXIMUS re-plan assessed options to compress schedule / mitigate delay to achieve GO LIVE by March 28, 2013. Any changes will impact project timelines. ARI Conformance Testing added to Project Scope. Schedule is at risk due to tight timelines. Go Live deferred to May 16, 2013. Health Sector Firewall Decision will Delay Go Live. Go Live is no longer planned for May 16, 2013. MAXIMUS to assess and include in CR along with additional scope of Network Move..	R		
	MAXIMUS have provided project plan estimates for 2012/13. Project delivery is under fixed price with any scope increases held outside the fixed price on a time and materials basis (eg. CR2012-017, CR2012-019) and Fixed Price CR2013-001	Y		
	Current budget does not include any contingency. ** Any Scope increases will result in budget impacts as budget has no contingency.			
<b>Summary Of Progress on PharmaNet Modernization Project</b>				
Release 1: Completed		Complete		
Release 1.1 Delivered since the last report				
<ul style="list-style-type: none"> <li>ARI Conformance Testing</li> <li>CR2012-017 Conformance Test Execution Amended – Approved and Signed Off</li> <li>CR2013-002 Conformance Testing TELUS – Updated to FY 13/14 Only - Review and Approval</li> <li>CR2013-003 Conformance Testing ARI – Approved for FY13/14</li> </ul>		G		
Release 2.0 Delivered since the last report				
<ul style="list-style-type: none"> <li>Service Order 2013-04 for Feb/Mar 2013 – Approved. Signed-Off.</li> </ul>		G		

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.

	100%	Final approval / sign-off or user acceptance has been received.

## 2. Outstanding Issues and Actions.

Y

## Key Open Project Issues

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
<b>R</b>	High	Release 2 Ministry Decision on Health Sector Firewall changes were planned for after Release 2. Now being moved up to before R2 Go Live. Ministry meeting held Mar 25 to decide timing - waiting for Ministry Decision	If Health Sector Firewall is moved after Go Live - No impact to Project. If Health Sector Firewall is moved before Go Live - It must be done before Network Move and therefore will delay Go Live.	If Decision is Yes, a CR will be created to document the change that will delay the Network Move and therefore delay Release 2 Go Live. This will also impact existing PRODUCTION applications that are on Zone B. These must be moved before R2 Go Live. Decision required by APRIL 19. If decided after will cause re-work for Network Move and additional delays. IF YES, will delay R2 Go Live. Apr 11 – Ministry Decision is to proceed with Health Sector Firewall. This will delay Release 2 GO Live. MAXIMUS assess impacts and draft a CR.
<b>Y</b>	High	Release 2 Network move from 4000 Seymour to Kamloops will result in additional scope and delays. These are Ministry changes to the Ministry network that should be tested by the Ministry and are not in scope of PharmaNet Modernization Project.	Ministry are requesting more work that was not in scope 1. Operational Process Changes for how we onboard Pharmacy Vendor. Ministry, SSBC and HP must work out process first then MAXIMUS will need to adjust to these. 2. Network Solution for moving the PharmaNet IP addresses from 4000 Seymour to Kamloops. This is currently underway and must be tested before Go Live as it will be implemented during the Change Window Prior to Go Live. Ministry/SSBC are requesting that MAXIMUS test these changes. These are not in scope of PharmaNet Modernization Project.	Ministry Decision on if this is to be added to Scope. If YES, MAXIMUS will create a CR. Decision required by APRIL 12. If decided after, will delay Go Live even further. Apr 11 – Ministry Decision is to proceed with Additional Scope. This will be assessed and included in the CR for the Health Sector Firewall.
<b>Y</b>	Medium	Project PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project	Increased Scope will impact project timelines	PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines.

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

HTH-2014-00289

# PharmaNet Modernization Progress Report (JPMT)

Status <b>G Y R</b>	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G</b>	High	Ministry requirement change to send files to Condor via SFTP rather than FTP. Decision required by Friday Mar 22 as to if MAXIMUS must change to accommodate this.	Additional development, testing and infrastructure changes required to accommodate this change. MAXIMUS estimate this will take 4-6 days to complete, and we need a decision this week notifying us if we are to proceed with this change or not.	Ministry decision required by Mar 22 on if this must be changed. If so CR to be raised as per email estimate provided to Ministry on Mar 20 – overdue. ** Mar 28, 2013 – Ministry Decision is to change to SFTP. MAXIMUS to make changes to accommodate this in R2 as per estimate provided.
<b>G</b>	High	Potential Impact to Release 2 Go Live due to Annual Retro Run. Each Year Annual Retro is run from Feb to May 1 to reimburse families who have overpaid for Prescriptions. This overlaps Release 2.0 Deployment Activities which cannot both be run at the same time. Three Options presented in a new DR will outline impacts and decision must be made to either delay Retro or delay R2 Go Live.		Feb 5 – MAXIMUS submitted DR Outlining Options for Decision for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. MAXIMUS updating DR to re-submit. Feb 27 – Ministry signed DR approving Option 1.
<b>G</b>	High	Early Adopter Deployment dates cannot keep changing and moving closer to Release 2.0 or will impact Release 2.0 Business Acceptance Activities and possibly Release 2.0 Go Live.  Early Adopter Deployment Phase 1 was planned for April 2012, delayed to July 2012, then Sept 2012, then Oct 2012, and now planned for Nov. Phase 1: Nov 13-27 – Done Phase 2: March 30-31 – Done Phase 3: TBD	Release 2 Business Acceptance Testing activities moved to accommodate EA Deployment planned for Sept 2012 <ul style="list-style-type: none"> <li>- Test Case Development moved from Sept 2012 to Nov 2012</li> <li>- Test Case Execution moved from Nov/Dec 2012 to Jan/Feb 2012</li> <li>- Test Case Execution moved again to Feb/Mar 2012</li> <li>- Potential risk to push out Rel 2 Go Live</li> </ul>	Release 2.0 Business Acceptance Activities have been delayed to accommodate EA Conformance. Once all EA Deployments are complete, MOH will meet with MedAccess, MOH and do a formal lessons learned and have a formal assesment document. Target completig interviews / qustionnaire by mid Dec. EA Phase 2 is yet to be scheduled. This will be aligned so as not to impact Release 2.0 Go Live. Current projeted date for Phase 2 is March 28, 2013 – to be confirmed. Feb 14 – Ministry are requesting an additional round of testing for MedAccess and ARI be completed prior to March 31, 2013. MAXIMUS are evaluating and will include in a CR. MAXIMUS prepared CR and sent to MOH. Ministry approved CRs for MedAccess and ARI. Ministry later decided not to conformance test MedAccess and to use funding to support TELUS and wlaakthrough test cases with TELUS. <b>Phase 2 completed March 31, 2013</b> Phase 3 to be scheduled

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

0% Not started.  
10% Table of contents or acceptance criteria agreed to with client and/or work has started.  
25% Work is currently in progress on this deliverable or task.  
50% Internal reviews or Internal testing activities are currently in progress on this deliverable or task.  
75% External reviews or user acceptance testing activities are currently in progress on this deliverable or task.  
100% Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
<b>G</b>		Conformance Specifications are not final for General Deployment. Final version was to be published Jan 4, 2013. DRAFT Specifications delivered in Jan, but require clarification. Updated version delivered in Feb, but not Final. Several rule clarifications / interpretations still exist and some rules were aligned to MedAccess that may be inaccurate, causing negative impact to future vendors.	Inadequate Specifications could result in 1. Delays in Conformance Test Case Development and Execution. 2. Incorrect or incomplete Vendor Development, 3. Additional Rounds of Conformance Testing. 4. Incorrect or incomplete test cases.	Ministry to finalize Conformance Specifications. These were due Jan 4, 2013. Draft Conformance Specifications provided are insufficient to support Test Case Development and Vendor Development. Ministry have updated documents and had a 2 hour workshop with MAXIMUS to review. Documents also released to TELUS and MedAccess. Ministry feel they are on track to have conformance specs ready for test case development. <b>** Conformance Specs must be finalized to a version that can be used for Test Case Development and Vendor Development. Specifications will be finalized before General Deployment.</b>
<b>G</b>	High	Release 2 CATAMARAN Server Code Drop delayed due to runtime issues on Solaris NetX Platform. Due July 12, 2012 Catamaran target delivery date of Aug 14 +/- 7 days This would push go live past FY to April 17, 2013. MAXIMUS assessed options to mitigate and achieve Go Live by March 28, 2013.	Delays to Release 2.0 schedule and GO LIVE. Project must implement this FY <b>** This must be mitigated to achieve Mar 2013 Go Live</b>	CATAMARAN added resources and worked over-time to deliver by Aug 20, 2013. Option of phased delivery explored, but not feasible. Daily check-point meetings setup between MAXIMUS and CATAMARAN to track progress MAXIMUS development team packaging server code drop and NetX profiles to deploy to test <b>Sep 14 – MAXIMUS deployed Server Code Drop to Test.</b> MAXIMUS assessed schedule impacts and re-planned to deliver GO LIVE by March 28, 2012
<b>G</b>	Low	Potential delays to Release 2 Go Live due to SSBC not signing agreement with HP and delaying HP from moving infrastructure from TELUS Data Center to SSBC Data Center. Agreement is now signed but delayed resulting in delays to HP which could impact PharmaNet infrastructure setup	Potential delays to Release 2.0 Go Live	MAXIMUS will continue to monitor progress of HP Data Center Move Project – PharmaNet Project activities have been prioritized within the Data Center Move Project to keep on schedule for PharmaNet Release 2.0 Go Live. <b>This is currently tracking to schedule.</b> Jan 21 – Data Center Move successfully completed over the weekend.

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

## Key Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, SSBC, HP, MoH have proposed moving MAXIMUS production servers) from the current firewall (ie. "zone b" firewall) to a new "Health Sector" firewall before Release 2.0 Go Live. The "Health Sector" firewall is already established in Calgary and is in MoH's/HP's plan to establish one in STMS Kamloops – however not for 6-9 months. This was not in the PharmaNet Modernization Project Plan as this was planned for 6-9 months from now, well after Go Live. Apr 11 – DECISION MADE TO MOVE to HEALTH SECTOR FIREWALL	Added scope and delays to Release 2 Go Live Release 2 Go Live	MAXIMUS to assess impact and draft CR as decision has been made to proceed with this.	HIGH	High	Scope, Schedule, Budget
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, responsibility of updating the firewall entries for new Pharmacies onboarding to access the PharmaNet application will be moved from SSBC to HP – as HP will be managing the firewall in STMS Kamloops. Existing process of requesting firewall updates will change from current "ITIMS" ticket to SSBC to future HP iStore request for firewall updates. Pharmacy Network connectivity and access is not MAXIMUS responsibility. MAXIMUS is part	Added Scope to Release 2.  PharmaNet Operational for onboarding new Pharmacies will change. Additional effort and lead time required. MoH, SSBC and HP must establish new process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.	MAXIMUS to assess impacts and add to CR for Health Sector Firewall.  1. MoH, SSBC and HP have established new process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures. 2. Assess how to deal with additional lead times and effort required.	High	High	Scope, Schedule, Budget

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

0% Not started.

		of the process (as there is a step in the process to update a security table in the PharmaNet database). APR 11 – DECISION MADE TO PROCEED WITH ADDED SCOPE TO NETWORK MOVE.					
<b>NEW</b>	High	Ministry Decision to allow Med Access to Go Live in Production without fully testing result in the following: 1. Conformance Specifications are unclear in areas, were updated to align with this vendor, and have not been fully tested by this vendor, or any other vendor 2. Conformance Test Cases have not been fully tested 3. MedAccess did not pass the last round of Conformance Testing. 4. Vendor software changes have been made without fully testing changes. 5. Patient Safety Issues may result due Incorrect data entering PharmaNet and being used 6. Increased production support and data integrity issues	The following impacts may result; 1. Data Integrity Issues 2. Patient Safety Issues 3. Increased Production Support effort and costs 4. Potential down-time of PharmaNet. 5. Conformance Specifications do not match the intent and are incorrectly interpreted by other vendors. 6. Conformance Test Cases may not match the intention of the Specification and not adequately test for required conditions as not clearly stated in specifications. 7. Other Vendors may not correctly develop to the intent of the specifications 8. Other vendors may not be adequately tested before going to production 9. Other vendors may change their software incorrectly to match the specifications aligned for MedAccess that are incorrect.	MAXIMUS have notified the Ministry of the Risks recommending that MedAccess be fully tested before Go Live in Production.	High	High	Scope, Quality and Budget
<u>528682</u>	High	Project M102 Project Cannot keep pace with schedule for deliverable target dates.	Could result in 1-Delays final deployment date for Rel 1.1 and/or Rel 2 2-Continue to lose stakeholder	Mitigate	Medium	High	Schedule and Budget

					and therefore will delay Go Live by 2-3 weeks. If Decision is Yes, CR will be created to document the change Health Sector Firewall will also impact existing PROD applications that are on Zone B. These must be moved before R2 Go Live. Apr 4 – Ministry Decision required by APRIL 19, 2013 or will cause re-work of Network and further delays to R2 Go Live. Apr 11 – Decision Made to proceed with Health Sector Firewall. MAXIMUS to assess and draft CR.
Network move from 4000 Seymour to Kamloops will result in additional scope and delays	Mar 2013	Ministry Decision	April 12, 2013	April 11, 2013 Decision Made to Proceed with added scope	Network move from 4000 Seymour to Kamloops will result in additional scope and delays 1. Operational Process Changes for how we onboard Pharmacy Vendor. Ministry, SSBC and HP must work out process first then MAXIMUS will need to adjust to these. 2. Network Solution for moving the PharmaNet IP addresses from 4000 Seymour to Kamloops. This is currently underway and must be tested before Go Live as it will be implemented during the Change Window Prior to Go Live. Ministry/SSBC are requesting that MAXIMUS test these changes. However these are Ministry changes to the Ministry network that should be tested by the Ministry and are not in scope of PharmaNet Modernization Project. Apr 11 – Decision Made to proceed with added scope. MAXIMUS to assess and include in CR for Health Sector Firewall.
Remove Invalid Patient Dispense Records created by Dr. Bannerman during MedAccess Production Test in Summerland.	Feb 22, 2013	Ministry to arrange removal of records the same way they were created	Feb 22, 2013	Overdue	On Feb 22, 2013 invalid Patient Dispense Records were created by Dr. Bannerman during the MedAccess Production Test. Ministry to arrange removal of the records the same way they were created.

Done Feb 17. Feb 18 - meeting held to finalize CR, but Ministry asked to delay by 1 week to Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 28 – Ministry requested CR be updated and resubmitted to include FY 13/14 only. MAXIMUS updated CR and resubmitted on April 2, 2013 with due date of April 5, 2013.
Ministry Decision on File Transfer Method to Health Ideas via Condor. Does this stay with FTP or change to SFTP as per new Ministry Requirement.	Mar , 2013	Ministry Decision	Mar 22, 2013	Decision =SFTP Mar 28, 2013	Mar 20 – MAXIMUS provided estimate and requested Ministry Decision by Mar 22. Overdue. Mar 25 – MAXIMUS requested response today. Mar 28, 2013 - Decision is SFTP. MAXIMUS to initiate changes. This can now be closed.
CR2013-007 Early Adopter Phase 2 Conformance Testing MedAccess	Apr 11, 2013	MAXIMUS to Submit CR	Apr 15, 2013	In Progress	Apr 11 – MAXIMUS is drafting CR
CR2013-008 PMP Health Sector Firewall and Network Move	Apr 11, 2013	MAXIMUS to Assess Impacts and draft CR	Apr 19, 2013	Pending	Apr 11 – Ministry Decision to proceed with Health Sector Firewall and added Scope of Network Move. MAXIMUS to assess impacts and draft CR.

## Key Decisions

Status (Approved / Pending)	Decision Description	Implications (Project, Business, Contract, etc.)
Approved	CR 2011-028 Rel 2 Requirements for Record Locking	Potential impacts to Release 2
Cancelled	DR 2012-004 PharmaNet Modernization Payment Synchronization	Ministry Decision to proceed with "As Is"

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

Cancelled	CR2012-004 PNet Modernization - MMF Service Claims Gap	Will be done after Release 2.0
Approved	DR 2012-007 PharmaNet - EMPI Invalid Province Handling Options – for Review and Acceptance	EMPI Invalid Province Data passed to PharmaNet
Cancelled	Early Adopter Deployment – Stabilization Criteria and Plan	MOH Decision: No formal "Stabilization Criteria and Plan" document is required. We will keep the stabilization period open from EA Go/Live until General Deployment. Any PharmaNet issues identified during this period will be managed through the change management process on the project.
Approved	CR2011-019 Release 2.0 CATAMARAN Hardware Upgrade Amended 2	This adds the 1 cent assignment clause
Approved	CR2012-008 Conformance Test Case Remediation and Execution	Additional scope required to complete Conformance Testing
Approved	DR 2012-011 PMP Printed Patient Profile Report	Add archival process to include archived data in report.
Approved	CR 2012-013 PMP Printed Patient Profile Report	Required for Release 2.0 Go Live. MOH put on hold and will assess with Re-Plan
Approved	CR 2012-014 Purchase TDCompress for MOH	Required for Release 2.0 Go Live.
Approved	CR 2012-017 Conformance Test Case Updates	Must be approved by Nov 21 as Ministry have asked MAXIMUS to start work on this without the CR being approved or signed.
Approved	CR 2012-019 Practitioner Profile Adhoc and Pharmacy ID Fix	Must be approved by Nov 23 to be included in the scope of Release 2
Approved	CR 2013-001 PMP RX Dose Filed Fix	Required for Release 2.0. Must be approved by due date. Approval was due Jan 14, 2013. Ministry requested MAXIMUS to start work on this at JEC on Dec 13, 2012. This was verbally approved at January 17, 2013 JEC. Approved.
Approved	DR 2013-001 PharmaNet Annual Retroactive Reimbursement Process for 2012 Benefit Year	Feb 5 – MAXIMUS submitted for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. Feb 15 - MAXIMUS updated DR and submitted with due date of Feb 20, 2013. Feb 18 – Ministry approved. Sign-Off in Progress
Approved	CR2012-017 Conformance Test Case Updates – Increases to Scope?	Feb 6 – Email sent to Ministry requesting decision on scope increase. Feb 13 – reminder email sent requesting decision. Feb 18 – Ministry responded with questions. MAXIMUS to answers. Feb 18 – MAXIMUS responses being sent today. Feb 25 – Submitted for Approval and Sign-Off Feb 27 – Signed Off. This can now be closed.
Approved	CR2012-008 Conformance Test Case Remediation and Execution Amended	Feb 15 – MAXIMUS to amend CR2012-008 to revised scope and submit to Ministry for Review and Approval. Done. Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 6 – Approved and Signed Off
Submitted	CR2012-008 Conformance Test Case Remediation and Execution Amended2	Mar 21 – MAXIMUS amended CR2012-008 to revise scope to reflect Ministry Decision not to conformance test MedAccess and to use remaining time in CR for TELUS support and walkthrough of Test Cases. Mar 22 - Submitted to MOH. <b>Due Mar 26, 2013.</b>

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.

# PharmaNet Modernization Progress Report (JPMT)

Project Manager(s):	PharmaCare Program: Gloria Wills PharmaNet Modernization: Enola McClean	Reporting Period	From YYYY-Mon-DD	To YYYY-Mon-DD
			2013-Apr-27	2013-May-10
Project Purpose:	The proposed purpose of the PharmaNet project is to enhance the current PharmaNet system with a Medication Management Framework, ePrescribing capability, HIAL Integration and an infrastructure upgrade to be deployed in two releases: <u>Release 1:</u> will upgrade the current software to include the ePrescribing, Medication Management Framework and HIAL Integration upgrade. <u>Release 2:</u> will purchase and implement upgraded hardware and software to meet the increase in system capacity requirements resulting from the rollout of Release 1			

		Status		
		G	Y	R
Scope	PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project. PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines	G		
	Release 1.0 PharmaNet Go Live	Complete		
	Release 1.1 Early Adopter Deployment (increased scope in Conformance)	Y		
	Release 2.0 Infrastructure – Added Scope of Health Sector Firewall and additional Testing of Move from Seymour to Kamloops.	Y		
	Release 3.0 High Level Requirements and Planning	G		
	Adhering to MAXIMUS methodology	G		
Quality		G		
Schedule	Release 1.0 PharmaNet Go Live - January 26, 2012	Complete		
	Release 1.1 Early Adopter Deployment	G		
	Phase 1 – EMR Vendor Production Pilot - Nov 13 – 27, 2012 - completed			
	Phase 2 – Pharmacy Production Deployment (Gibsons) - Mar 30-31			
	Phase 3 – EMR Production Deployment - TBD			
	Release 2.0 PharmaNet Infrastructure Upgrade Go Live – planned for March 28, 2013. Delayed to May 16, 2013. Catamaran Server Code Drop planned for July 12, 2012 - overdue - replanned for Aug 14 +/- 7 days – delivered Aug 20, 2012. MAXIMUS re-plan assessed options to compress schedule / mitigate delay to achieve GO LIVE by March 28, 2013. Any changes will impact project timelines. ARI Conformance Testing added to Project Scope. Schedule is at risk due to tight timelines. Go Live deferred to May 16, 2013. Health Sector Firewall Decision will Delay Go Live. Go Live is no longer planned for May 16, 2013. MAXIMUS to assess and include in CR along with additional Testing of move from Seymour to Kamloops.	Y		
Release 3.0 – High Level Requirements and Planning – June 30, 2013	G			
Budget	MAXIMUS have provided project plan estimates for 2012/13. Project delivery is under fixed price with any scope increases held outside the fixed price on a time and materials basis (eg: CR2013-003) and Fixed Price CR2013-001	Y		
	Current budget does not include any contingency. ** Any Scope increases will result in budget impacts as budget has no contingency. Service Order for 2013/14 is not yet finalized.

2. Outstanding Issues and Actions.	<b>Y</b>

## Key Open Project Issues

Status G Y R	Priority	Detailed Description	Business Impact	Proposed Resolution
Y	High	Release 2 Ministry Decision on Health Sector Firewall changes were planned for after Release 2. Now being moved up to before R2 Go Live. Ministry meeting held Mar 25 to decide timing - waiting for Ministry Decision	If Health Sector Firewall is moved after Go Live - No impact to Project. If Health Sector Firewall is moved before Go Live - It must be done before changes and testing of Firewall and therefore will delay Go Live.	If Decision is Yes, a CR will be created to document the change that will delay the Network Move and therefore delay Release 2 Go Live. This will also impact existing PRODUCTION applications that are on Zone B. These must be moved before R2 Go Live. Decision required by APRIL 19. If decided after will cause re-work for Network Move and additional delays. IF YES, will delay R2 Go Live. Apr 11 – Ministry Decision is to proceed with Health Sector Firewall. This will delay Release 2 GO Live. MAXIMUS assessing impacts and preparing a CR.
Y	High	Release 2 Move from 4000 Seymour to Kamloops will result in additional scope of testing. These are Ministry changes to the Ministry network that should be tested by the Ministry and are not in scope of PharmaNet Modernization Project.	Ministry are requesting more work that was not in scope 1. Operational Process Changes for how we onboard Pharmacy Vendor. Ministry, SSBC and HP must work out process first then MAXIMUS will need to adjust to these. 2. Network Solution for moving the PharmaNet IP addresses from 4000 Seymour to Kamloops. This is currently underway and must be tested before Go Live as it will be implemented during the Change Window Prior to Go Live. Ministry/SSBC are requesting that	Ministry Decision on if this is to be added to Scope. If YES, MAXIMUS will create a CR. Decision required by APRIL 12. If decided after, will delay Go Live even further. Apr 11 – Ministry Decision is to proceed with Additional Scope. This will be assessed and included in the CR for the Health Sector Firewall.

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

<b>G Y R</b>				
			MAXIMUS test these changes. These are not in scope of PharmaNet Modernization Project	
Y	Medium	Project PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project	Increased Scope will impact project timelines	PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines.
G	High	Ministry requirement change to send files to Condor via SFTP rather than FTP. Decision required by Friday Mar 22 as to if MAXIMUS must change to accommodate this.	Additional development, testing and infrastructure changes required to accommodate this change. MAXIMUS estimate this will take 4-6 days to complete, and we need a decision this week notifying us if we are to proceed with this change or not.	Ministry decision required by Mar 22 on if this must be changed. If so CR to be raised as per email estimate provided to Ministry on Mar 20 – overdue. ** Mar 28, 2013 – Ministry Decision is to change to SFTP. MAXIMUS to make changes to accommodate this in R2 as per estimate provided.
G	High	Potential Impact to Release 2 Go Live due to Annual Retro Run. Each Year Annual Retro is run from Feb to May 1 to reimburse families who have overpaid for Prescriptions. This overlaps Release 2.0 Deployment Activities which cannot both be run at the same time. Three Options presented in a new DR will outline impacts and decision must be made to either delay Retro or delay R2 Go Live.		Feb 5 – MAXIMUS submitted DR Outlining Options for Decision for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. MAXIMUS updating DR to re-submit. Feb 27 – Ministry signed DR approving Option 1.
G	High	Early Adopter Deployment dates cannot keep changing and moving closer to Release 2.0 or will impact Release 2.0 Business Acceptance Activities and possibly Release 2.0 Go Live.  Early Adopter Deployment Phase 1 was planned for April 2012, delayed to July 2012, then Sept 2012, then Oct 2012, and now	Release 2 Business Acceptance Testing activities moved to accommodate EA Deployment planned for Sept 2012 - Test Case Development moved from Sept 2012 to Nov 2012 - Test Case Execution moved from Nov/Dec 2012 to Jan/Feb 2012 - Test Case Execution moved again to Feb/Mar 2012 - Potential risk to push out Rel 2 Go Live	Release 2.0 Business Acceptance Activities have been delayed to accommodate EA Conformance. Once all EA Deployments are complete, MOH will meet with MedAccess, MOH and do a formal lessons learned and have a formal assesment document. Target completig interviews / qustionaire by mid Dec. EA Phase 2 is yet to be scheduled. This will be aligned so as not to impact Release 2.0 Go Live. Current projeted date for Phase 2 is March 28, 2013 – to be confirmed. Feb 14 – Ministry are requesting an additional round

**Green** = No concerns on schedule and within budget

Status G Y R	Priority	Detailed Description	Business Impact	Proposed Resolution
		planned for Nov. Phase 1: Nov 13-27 – Done Phase 2: March 30-31 – Done Phase 3: TBD		of testing for MedAccess and ARI be completed prior to March 31, 2013. MAXIMUS are evaluating and will include in a CR. MAXIMUS prepared CR and sent to MOH. Ministry approved CRs for MedAccess and ARI. Ministry later decided not to conformance test MedAccess and to use funding to support TELUS and wlaalthough test cases with TELUS. <b>Phase 2 completed March 31, 2013</b> Phase 3 to be scheduled
G		Conformance Specifications are not final for General Deployment. Final version was to be published Jan 4, 2013. DRAFT Specifications delivered in Jan, but require clarification. Updated version delivered in Feb, but not Final. Several rule clarifications / interpretations still exist and some rules were aligned to MedAccess that may be inaccurate, causing negative impact to future vendors.	Inadequate Specifications could result in 1. Delays in Conformance Test Case Development and Execution. 2. Incorrect or incomplete Vendor Development, 3. Additional Rounds of Conformance Testing. 4. Incorect or incomplete test cases.	Ministry to finalize Conformance Specifications. These were due Jan 4, 2013. Draft Conformance Specifications provided are insufficient to support Test Case Development and Vendor Development. Ministry have updated documents and had a 2 hour workshop with MAXIMUS to review. Documents also released to TELUS and MedAccess. Ministry feel they are on track to have conformance specs ready for test case development. <b>** Conformance Specs must be finalized to a version that can be used for Test Case Development and Vendor Development.</b> <b>Specifications will be finalized before General Deployment.</b>
G	High	Release 2 CATAMARAN Server Code Drop delayed due to runtime issues on Solaris NetX Platform. Due July 12, 2012 Catamaran targe delivery date of Aug 14 +/- 7 days This would push go live past FY to April 17, 2013. MAXIMUS assessed options to mitigate and achieve Go Live by March 28, 2013.	Delays to Release 2.0 schedule and GO LIVE. Project must implement this FY <b>** This must be mitigated to achieve Mar 2013 Go Live</b>	CATAMARAN added resources and worked over-time to deliver by Aug 20, 2013. Option of phased delivery explored, but not feasible. Daily check-point meetings setup between MAXIMUS and CATAMARAN to track progress MAXIMUS development team packaging server code drop and NetX profiles to deploy to test <b>Sep 14 – MAXIMUS deployed Server Code Drop to Test.</b> MAXIMUS assessed scheudle impacts and re-planned to deliver GO LIVE by March 28, 2012
G	Low	Potential delays to Release 2 Go Live due to SSBC not signing agreement with HP and delaying HP from moving infrastructure from	Potential delays to Release 2.0 Go Live	MAXIMUS will continue to monitor progress of HP Data Center Move Project – PharmaNet Project activities have been prioritized within the Data Center Move Project to keep on schedule for PharmaNet

**Green** = No concerns on schedule and within budget

<b>G Y R</b>				
		TELUS Data Center to SSBC Data Center. Agreement is now signed but delayed resulting in delays to HP which could impact PharmaNet infrastructure setup		Release 2.0 Go Live. <b>This is currently tracking to schedule.</b> Jan 21 – Data Center Move successfully completed over the weekend.

## Key Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, SSBC, HP, MoH have proposed moving MAXIMUS production servers) from the current firewall (ie. "zone b" firewall) to a new "Health Sector" firewall before Release 2.0 Go Live. The "Health Sector" firewall is already established in Calgary and is in MoH's/HP's plan to establish one in STMS Kamloops – however not for 6-9 months. This was not in the PharmaNet Modernization Project Plan as this was planned for 6-9 months from now, well after Go Live. Apr 11 – DECISION MADE TO MOVE to HEALTH SECTOR FIREWALL	Added scope and delays to Release 2 Go Live Release 2 Go Live	MAXIMUS to assess impact and draft CR as decision has been made to proceed with this.	HIGH	High	Scope, Schedule, Budget
<b>NEW</b>	High	As part of the PharmaNet IP transition from 4000 Seymour to STMS Kamloops, responsibility of updating the firewall entries for new Pharmacies onboarding to access the PharmaNet application will be moved from SSBC to HP – as HP will be managing the firewall in STMS Kamloops.	Added Scope to Release 2.  PharmaNet Operational for onboarding new Pharmacies will change. Additional effort and lead time required. MoH, SSBC and HP must establish new process to update	MAXIMUS to assess impacts and add to CR for Health Sector Firewall.  1. MoH, SSBC and HP have established new process to update the firewall in Kamloops without impacting MAXIMUS' current pharmacy	High	High	Scope, Schedule, Budget

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover  
**Red** = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

# PharmaNet Modernization Progress Report (JPMT)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
		Existing process of requesting firewall updates will change from current "ITIMS" ticket to SSBC to future HP iStore request for firewall updates. Pharmacy Network connectivity and access is not MAXIMUS responsibility. MAXIMUS is part of the process (as there is a step in the process to update a security table in the PharmaNet database). APR 11 – DECISION MADE TO PROCEED WITH ADDED SCOPE TO NETWORK MOVE.	the firewall in Kamloops without impacting MAXIMUS' current pharmacy registration procedures.	2. registration procedures. Assess how to deal with additional lead times and effort required.			
<b>NEW</b>	High	Ministry Decision to allow Med Access to Go Live in Production without fully testing result in the following: 1. Conformance Specifications are unclear in areas, were updated to align with this vendor, and have not been fully tested by this vendor, or any other vendor 2. Conformance Test Cases have not been fully tested 3. MedAccess did not pass the last round of Conformance Testing. 4. Vendor software changes have been made without fully testing changes. 5. Patient Safety Issues may result due Incorrect data entering PharmaNet and being used 6. Increased production support and data integrity issues	The following impacts may result; 1. Data Integrity Issues 2. Patient Safety issues 3. Increased Production Support effort and costs 4. Potential down-time of PharmaNet. 5. Conformance Specifications do not match the intent and are incorrectly interpreted by other vendors. 6. Conformance Test Cases may not match the intention of the Specification and not adequately test for required conditions as not clearly stated in specifications. 7. Other Vendors may not correctly develop to the intent of the specifications 8. Other vendors may not be adequately tested before going to production 9. Other vendors may change their software incorrectly to	MAXIMUS have notified the Ministry of the Risks recommending that MedAccess be fully tested before Go Live in Production.	High	High	Scope, Quality and Budget

# PharmaNet Modernization Progress Report (JPMT)

Description	Date Delivered	Action Required	Action Due Date	Status	Comment
CR2013-007 Early Adopter Phase 2 Conformance Testing MedAccess and Test Case Updates	Apr 16, 2013	Ministry Approval	Apr 23, 2013	Overdue	Apr 11 – MAXIMUS is drafting CR Apr 16 – CR submitted to Ministry for Approval. Apr 25 – overdue. Waiting for Ministry approval
CR2013-008 PMP Health Sector Firewall and Network Move	Apr 11, 2013	MAXIMUS to submit	April 26, 2013	Approved	Apr 11 – Ministry Decision to proceed with Health Sector Firewall and added Scope of Network Move. MAXIMUS to assess impacts and draft CR. Apr 25 – CR drafted and in MAXIMUS internal review. Once reviewed, MAXIMUS will submit to Ministry for Approval. May – CR Approved and Signed Off.
CR2013-009 PMP Release 3.0 High Level Requirements	April 15, 2013	MAXIMUS to Submit	April 26, 2013	Approved and Signed Off.	Apr 25 – MAXIMUS have drafted CR and in internal reviews. Plan to submit to Ministry on April 26, 2013 May 9 – CR submitted, reviewed, approved and signed.
Decision on timing of Health Sector Firewall Move	Mar, 2013	Ministry Decision	April 19, 2013	April 11, 2013 Decision Made to Proceed with Health Sector Firewall	Health Sector Firewall move planned for 6-9 months after Release 2 Go Live. SSBC and HP would like to move this up to before Release 2 Go Live. If Health Sector Firewall is moved after Go Live - No impact to Project. If Health Sector Firewall is moved before Go Live - It must be done before Network Move and therefore will delay Go Live by 2-3 weeks. If Decision is Yes, CR will be created to document the change Health Sector Firewall will also impact existing PROD applications that are on Zone B. These must be moved before R2 Go Live. Apr 4 – Ministry Decision required by APRIL 19, 2013 or will cause re-work of Network and further delays to R2 Go Live. Apr 11 – Decision Made to proceed with Health Sector Firewall. MAXIMUS to assess and draft CR.

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover

# PharmaNet Modernization Progress Report (JPMT)

Description	Date Delivered	Action Required	Action Due Date	Status	Comment
Move from 4000 Seymour to Kamloops will result in additional scope of testing	Mar 2013	Ministry Decision	April 12, 2013	April 11, 2013 Decision Made to Proceed with added scope	Move from 4000 Seymour to Kamloops will result in additional scope and delays 1. Operational Process Changes for how we onboard Pharmacy Vendor. Ministry, SSBC and HP must work out process first then MAXIMUS will need to adjust to these. 2. Network Solution for moving the PharmaNet IP addresses from 4000 Seymour to Kamloops. This is currently underway and must be tested before Go Live as it will be implemented during the Change Window Prior to Go Live. Ministry/SSBC are requesting that MAXIMUS test these changes. However these are Ministry changes to the Ministry network that should be tested by the Ministry and are not in scope of PharmaNet Modernization Project. Apr 11 – Decision Made to proceed with added scope. MAXIMUS to assess and include in CR for Health Sector Firewall.
Early Adopter Deployment Release 1.1 Communication Activity Matrix	Jan 29, 2013	Ministry to develop	Feb 5, 2013	Completed for Phase 1 and 2	Ministry to develop Communication Activity Matrix for Release 1.1. Phase 2 Communication Working Group formed to develop this. April 2 – EA Deployment completed for Phase 1 and 2. Matrix will be completed prior to Phase 3.
Release 2.0 Communication Activity Matrix	Jan 29, 2013	Ministry to Finalize	Apr 11, 2013	Update to reflect revised Go Live	Ministry to develop Communication Activity Matrix for Release 2.0 Communication Working Group formed to develop this. This will be very similar to what was done for Release 1.1 MAXIMUS reminder requesting status sent to MOH on Jan 29, 2013 Mar 28 – Drafted and updated. Needs finalization and approval. MOH to finalize by April 11, 2013. Done May 9 – This needs to be updated to reflect

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover

Description	Date Delivered	Action Required	Action Due Date	Status	Comment
					the revised Go Live date. This should be re-reviewed once updated.
Ministry Communication Plan	Apr 2, 2013	Ministry to Finalize	Apr 11, 2013	Done	<p>Communication Working Group formed to develop the Communication Plan for Release 2.0. This will be very similar to what was done for Release 1.1</p> <p>MAXIMUS reminder requesting status sent to MOH on Jan 29, 2013.</p> <p>This will be done following the Communication Activity Matrix.</p> <p>Howard to provide a draft to CWG by Mar 8</p> <p>Mar 19 – Draft Communication Plan provided to MAXIMUS. This will be a living document and updated to add new deployments.</p> <p>Release 2 Plan Update and Sign-Off – April 11, 2013</p> <p>Release 1.1 Phase 3 Plan Update and Sign-Off – TBD.</p> <p>Ministry to finalize by April 11, 2013. Done May 15 – This should be updated with the updated Activity Matrix for Release 2</p>

## Key Decisions

Status (Approved / Pending)	Decision Description	Implications (Project, Business, Contract, etc.)
Approved	CR 2011-028 Rel 2 Requirements for Record Locking	Potential impacts to Release 2
Cancelled	DR 2012-004 PharmaNet Modernization Payment Synchronization	Ministry Decision to proceed with "As Is"
Cancelled	CR2012-004 PNet Modernization - MMF Service Claims Gap	Will be done after Release 2.0
Approved	DR 2012-007 PharmaNet - EMPI Invalid Province Handling Options – for Review and Acceptance	EMPI Invalid Province Data passed to PharmaNet
Cancelled	Early Adopter Deployment – Stabilization Criteria and Plan	MOH Decision: No formal "Stabilization Criteria and Plan" document is required. We will keep the stabilization period open from EA Go/Live until General Deployment. Any PharmaNet issues identified during this period will be managed through the change management process on the project.
Approved	CR2011-019 Release 2.0 CATAMARAN Hardware Upgrade Amended 2	This adds the 1 cent assignment clause
Approved	CR2012-008 Conformance Test Case Remediation and Execution	Additional scope required to complete Conformance Testing
<p><b>Green</b> = No concerns on schedule and within budget</p> <p><b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover</p> <p><b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover</p> <p>0% Not started.</p> <p>10% Table of contents or acceptance criteria agreed to with client and/or work has started.</p> <p>25% Work is currently in progress on this deliverable or task.</p> <p>50% Internal reviews or Internal testing activities are currently in progress on this deliverable or task.</p> <p>75% External reviews or user acceptance testing activities are currently in progress on this deliverable or task.</p> <p>100% Final approval / sign-off or user acceptance has been received.</p>		

# PharmaNet Modernization Progress Report (JPMT)

Approved	DR 2012-011 PMP Printed Patient Profile Report	Add archival process to include archived data in report.
Approved	CR 2012-013 PMP Printed Patient Profile Report	Required for Release 2.0 Go Live. MOH put on hold and will assess with Re-Plan
Approved	CR 2012-014 Purchase TDCompress for MOH	Required for Release 2.0 Go Live.
Approved	CR 2012-017 Conformance Test Case Updates	Must be approved by Nov 21 as Ministry have asked MAXIMUS to start work on this without the CR being approved or signed.
Approved	CR 2012-019 Practitioner Profile Adhoc and Pharmacy ID Fix	Must be approved by Nov 23 to be included in the scope of Release 2
Approved	CR 2013-001 PMP RX Dose Filed Fix	Required for Release 2.0. Must be approved by due date. Approval was due Jan 14, 2013. Ministry requested MAXIMUS to start work on this at JEC on Dec 13, 2012. This was verbally approved at January 17, 2013 JEC. Approved.
Approved	DR 2013-001 PharmaNet Annual Retroactive Reimbursement Process for 2012 Benefit Year	Feb 5 – MAXIMUS submitted for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. Feb 15 - MAXIMUS updated DR and submitted with due date of Feb 20, 2013. Feb 18 – Ministry approved. Sign-Off in Progress
Approved	CR2012-017 Conformance Test Case Updates – Increases to Scope	Feb 6 – Email sent to Ministry requesting decision on scope increase. Feb 13 – reminder email sent requesting decision. Feb 18 – Ministry responded with questions. MAXIMUS to answers. Feb 18 – MAXIMUS responses being sent today. Feb 25 – Submitted for Approval and Sign-Off Feb 27 – Signed Off. This can now be closed.
Approved	CR2012-008 Conformance Test Case Remediation and Execution Amended	Feb 15 – MAXIMUS to amend CR2012-008 to revised scope and submit to Ministry for Review and Approval. Done. Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 6 – Approved and Signed Off
Submitted	CR2012-008 Conformance Test Case Remediation and Execution Amended2	Mar 21 – MAXIMUS amended CR2012-008 to revise scope to reflect Ministry Decision not to conformance test MedAccess and to use remaining time in CR for TELUS support and walkthrough of Test Cases. Mar 22 - Submitted to MOH. <b>Due Mar 26, 2013.</b>
Submitted	CR2013-002 PMP Conformance Testing TELUS	Feb 15 – MAXIMUS to create CR for TELUS Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Due Feb 27 Mar 28 – Ministry requested CR be updated to include FY 13/14 scope only. MAXIMUS updated CR and resubmitted April 2, 2013 with due date of April 5, 2013

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.

# PharmaNet Modernization Progress Report (JPMT)

Project Manager(s):	PharmaCare Program: Gloria Wills PharmaNet Modernization: Enola McClean	Reporting Period	From YYYY-Mon-DD	To YYYY-Mon-DD
			2013-May 11	2013-May-24
Project Purpose:	The proposed purpose of the PharmaNet project is to enhance the current PharmaNet system with a Medication Management Framework, ePrescribing capability, HIAL Integration and an infrastructure upgrade to be deployed in two releases: <u>Release 1:</u> will upgrade the current software to include the ePrescribing, Medication Management Framework and HIAL Integration upgrade. <u>Release 2:</u> will purchase and implement upgraded hardware and software to meet the increase in system capacity requirements resulting from the rollout of Release 1			

		<b>Status</b>		
		G	Y	R
<b>Scope</b>	PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project. PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines	G		
	Release 1.0 PharmaNet Go Live	Complete		
	Release 1.1 Early Adopter Deployment (increased scope in Conformance)	Y		
	Release 2.0 Infrastructure – Added Scope of Health Sector Firewall and additional Testing of Move from Seymour to Kamloops.	Y		
	Release 3.0 High Level Requirements and Planning	G		
<b>Quality</b>	Adhering to MAXIMUS methodology	G		
<b>Schedule</b>	Release 1.0 PharmaNet Go Live - January 26, 2012	Complete		
	Release 1.1 Early Adopter Deployment	G		
	Phase 1 – EMR Vendor Production Pilot - Nov 13 – 27, 2012 - completed			
	Phase 2 – Pharmacy Production Deployment (Gibsons) - Mar 30-31			
	Phase 3 – EMR Production Deployment - TBD			
	Release 2.0 PharmaNet Infrastructure Upgrade Go Live – planned March 28, 2013. Delayed to May 16, 2013. Delayed to June 23, 2013 due to Health Sector Firewall and Ministry Network Move. Catamaran Server Code Drop planned for July 12, 2012 - overdue - replanned for Aug 14 +/- 7 days – delivered Aug 20, 2012. MAXIMUS re-plan assessed options to compress schedule / mitigate delay to achieve GO LIVE by March 28, 2013. Any changes will impact project timelines. ARI Conformance Testing added to Project Scope. Schedule is at risk due to tight timelines. Go Live deferred to May 16, 2013. Health Sector Firewall Decision will Delay Go Live to June 19, 2013. Ministry Decision to Go Live on Sat/Sun moves Go Live to June 22/23. May 23 – Ministry Decision to Delay Go Live to July 6/7 due to delays in Ministry Network Move and ability to communicate to External Stakeholders.	Y		
	Release 3.0 – High Level Requirements and Planning – June 30, 2013	G		
	MAXIMUS have provided project plan estimates for 2012/13. Project delivery is under fixed price with any scope increases held outside the fixed price on a time and materials basis (eg. CR2013-003) and Fixed Price CR2013-001. Current budget does not include any contingency. ** Any Scope increases will result in budget impacts as budget has no contingency. Service Order for 2013/14 is not yet finalized.	Y

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>			change or not.	
<b>G</b>	High	Potential Impact to Release 2 Go Live due to Annual Retro Run. Each Year Annual Retro is run from Feb to May 1 to reimburse families who have overpaid for Prescriptions. This overlaps Release 2.0 Deployment Activities which cannot both be run at the same time. Three Options presented in a new DR will outline impacts and decision must be made to either delay Retro or delay R2 Go Live.		Feb 5 – MAXIMUS submitted DR Outlining Options for Decision for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. MAXIMUS updating DR to re-submit. Feb 27 – Ministry signed DR approving Option 1.
<b>G</b>	High	Early Adopter Deployment dates cannot keep changing and moving closer to Release 2.0 or will impact Release 2.0 Business Acceptance Activities and possibly Release 2.0 Go Live.  Early Adopter Deployment Phase 1 was planned for April 2012, delayed to July 2012, then Sept 2012, then Oct 2012, and now planned for Nov. Phase 1: Nov 13-27 – Done Phase 2: March 30-31 – Done Phase 3: TBD	Release 2 Business Acceptance Testing activities moved to accommodate EA Deployment planned for Sept 2012 - Test Case Development moved from Sept 2012 to Nov 2012 - Test Case Execution moved from Nov/Dec 2012 to Jan/Feb 2012 - Test Case Execution moved again to Feb/Mar 2012 - Potential risk to push out Rel 2 Go Live	Release 2.0 Business Acceptance Activities have been delayed to accommodate EA Conformance. Once all EA Deployments are complete, MOH will meet with MedAccess, MOH and do a formal lessons learned and have a formal assesment document. Target completig interviews / qustionaire by mid Dec. EA Phase 2 is yet to be scheduled. This will be aligned so as not to impact Release 2.0 Go Live. Current projeted date for Phase 2 is March 28, 2013 – to be confirmed. Feb 14 – Ministry are requesting an additional round of testing for MedAccess and ARI be completed prior to March 31, 2013. MAXIMUS are evaluating and will include in a CR. MAXIMUS prepared CR and sent to MOH. Ministry approved CRs for MedAccess and ARI. Ministry later decided not to conformance test MedAccess and to use funding to support TELUS and wlaalthough test cases with TELUS. <b>Phase 2 completed March 31, 2013</b> Phase 3 to be scheduled
<b>G</b>		Conformance Specifications are not final for General Deployment. Final version was to be published Jan 4, 2013. DRAFT Specifications delivered in Jan, but require clarification.	Inadequate Specifications could result in 1. Delays in Conformance Test Case Development and Execution. 2. Incorrect or incomplete Vendor Development, 3. Additional Rounds of Conformance	Ministry to finalize Conformance Specifications. These were due Jan 4, 2013. Draft Conformance Specifications provided are insufficient to support Test Case Development and Vendor Development. Ministry have updated documents and had a 2 hour

**Green** = No concerns on schedule and within budget

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
<b>G Y R</b>				
		Updated version delivered in Feb, but not Final. Several rule clarifications / interpretations still exist and some rules were aligned to MedAccess that may be inaccurate, causing negative impact to future vendors.	Testing. 4. Incorrect or incomplete test cases.	workshop with MAXIMUS to review. Documents also released to TELUS and MedAccess. Ministry feel they are on track to have conformance specs ready for test case development. <b>** Conformance Specs must be finalized to a version that can be used for Test Case Development and Vendor Development.</b> Specifications will be finalized before General Deployment.
<b>G</b>	High	Release 2 CATAMARAN Server Code Drop delayed due to runtime issues on Solaris NetX Platform. Due July 12, 2012 Catamaran target delivery date of Aug 14 +/- 7 days This would push go live past FY to April 17, 2013. MAXIMUS assessed options to mitigate and achieve Go Live by March 28, 2013.	Delays to Release 2.0 schedule and GO LIVE. Project must implement this FY <b>** This must be mitigated to achieve Mar 2013 Go Live</b>	CATAMARAN added resources and worked over-time to deliver by Aug 20, 2013. Option of phased delivery explored, but not feasible. Daily check-point meetings setup between MAXIMUS and CATAMARAN to track progress MAXIMUS development team packaging server code drop and NetX profiles to deploy to test <b>Sep 14 – MAXIMUS deployed Server Code Drop to Test.</b> MAXIMUS assessed schedule impacts and re-planned to deliver GO LIVE by March 28, 2012
<b>G</b>	Low	Potential delays to Release 2 Go Live due to SSBC not signing agreement with HP and delaying HP from moving infrastructure from TELUS Data Center to SSBC Data Center. Agreement is now signed but delayed resulting in delays to HP which could impact PharmaNet infrastructure setup	Potential delays to Release 2.0 Go Live	MAXIMUS will continue to monitor progress of HP Data Center Move Project – PharmaNet Project activities have been prioritized within the Data Center Move Project to keep on schedule for PharmaNet Release 2.0 Go Live. <b>This is currently tracking to schedule.</b> Jan 21 – Data Center Move successfully completed over the weekend.

# PharmaNet Modernization Progress Report (JPMT)

Description	Date Delivered	Action Required	Action Due Date	Status	Comment
					finalization and approval. MOH to finalize by April 11, 2013. Done May 9 – This needs to be updated to reflect the revised Go Live date. This should be re-reviewed once updated.
Ministry Communication Plan	Apr 2, 2013	Ministry to Finalize	Apr 11, 2013	Done	Communication Working Group formed to develop the Communication Plan for Release 2.0. This will be very similar to what was done for Release 1.1 MAXIMUS reminder requesting status sent to MOH on Jan 29, 2013. This will be done following the Communication Activity Matrix. Howard to provide a draft to CWG by Mar 8 Mar 19 – Draft Communication Plan provided to MAXIMUS. This will be a living document and updated to add new deployments. Release 2 Plan Update and Sign-Off – April 11, 2013 Release 1.1 Phase 3 Plan Update and Sign-Off – TBD. Ministry to finalize by April 11, 2013. Done May 15 – This should be updated with the updated Activity Matrix for Release 2

## Key Decisions

Status (Approved / Pending)	Decision Description	Implications (Project, Business, Contract, etc.)
Approved	CR 2011-028 Rel 2 Requirements for Record Locking	Potential impacts to Release 2
Cancelled	DR 2012-004 PharmaNet Modernization Payment Synchronization	Ministry Decision to proceed with "As Is"
Cancelled	CR2012-004 PNet Modernization - MMF Service Claims Gap	Will be done after Release 2.0
Approved	DR 2012-007 PharmaNet - EMPI Invalid Province Handling Options – for Review and Acceptance	EMPI Invalid Province Data passed to PharmaNet
Cancelled	Early Adopter Deployment – Stabilization Criteria and Plan	MOH Decision: No formal "Stabilization Criteria and Plan" document is required. We will keep the stabilization period open from EA Go/Live until General Deployment. Any PharmaNet issues identified during this period will be managed through the change management process on the project.

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

Approved	CR2011-019 Release 2.0 CATAMARAN Hardware Upgrade Amended 2	This adds the 1 cent assignment clause
Approved	CR2012-008 Conformance Test Case Remediation and Execution	Additional scope required to complete Conformance Testing
Approved	DR 2012-011 PMP Printed Patient Profile Report	Add archival process to include archived data in report.
Approved	CR 2012-013 PMP Printed Patient Profile Report	Required for Release 2.0 Go Live. MOH put on hold and will assess with Re-Plan
Approved	CR 2012-014 Purchase TDCommpress for MOH	Required for Release 2.0 Go Live.
Approved	CR 2012-017 Conformance Test Case Updates	Must be approved by Nov 21 as Ministry have asked MAXIMUS to start work on this without the CR being approved or signed.
Approved	CR 2012-019 Practitioner Profile Adhoc and Pharmacy ID Fix	Must be approved by Nov 23 to be included in the scope of Release 2
Approved	CR 2013-001 PMP RX Dose Filed Fix	Required for Release 2.0. Must be approved by due date. Approval was due Jan 14, 2013. Ministry requested MAXIMUS to start work on this at JEC on Dec 13, 2012. This was verbally approved at January 17, 2013 JEC. Approved.
Approved	DR 2013-001 PharmaNet Annual Retroactive Reimbursement Process for 2012 Benefit Year	Feb 5 – MAXIMUS submitted for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. Feb 15 - MAXIMUS updated DR and submitted with due date of Feb 20, 2013. Feb 18 – Ministry approved. Sign-Off in Progress
Approved	CR2012-017 Conformance Test Case Updates – Increases to Scope	Feb 6 – Email sent to Ministry requesting decision on scope increase. Feb 13 – reminder email sent requesting decision. Feb 18 – Ministry responded with questions. MAXIMUS to answers. Feb 18 – MAXIMUS responses being sent today. Feb 25 – Submitted for Approval and Sign-Off Feb 27 – Signed Off. This can now be closed.
Approved	CR2012-008 Conformance Test Case Remediation and Execution Amended	Feb 15 – MAXIMUS to amend CR2012-008 to revised scope and submit to Ministry for Review and Approval. Done. Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 6 – Approved and Signed Off
Submitted	CR2012-008 Conformance Test Case Remediation and Execution Amended2	Mar 21 – MAXIMUS amended CR2012-008 to revise scope to reflect Ministry Decision not to conformance test MedAccess and to use remaining time in CR for TELUS support and walkthrough of Test Cases. Mar 22 - Submitted to MOH. Due Mar 26, 2013.
On HOLD	CR2013-002 PMP Conformance Testing TELUS	Feb 15 – MAXIMUS to create CR for TELUS Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Due Feb 27 Mar 28 – Ministry requested CR be updated to include FY 13/14 scope only. MAXIMUS updated CR and resubmitted April 2, 2013 with due date of April 5, 2013 May 23 – Ministry Decision to put this CR on hold and bill all time to CR2013-003 Conformance Testing ARI

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover

## Key Open Project Issues

Status	Priority	Detailed Description	Business Impact	Proposed Resolution
G Y R				
R		Ministry Network Move Project outstanding decision on if encryption is required by the College of Pharmacies, could delay PharmaNet Release 2 Go Live. Decision was due May 24, 2013 Is there a requirement for encryption for the College of Pharmacies, who currently use encrypted routers	If Decision is yes, there is a cost to the college. If Decision is now yes, this cannot be implemented in time for Release 2.0 Go Live. This will push out PharmaNet Release 2.0 Go Live.	MAXIMUS Raised Issue paper on this on May 17, 2013 and delivered to Ministry identifying this decision must be made by Friday May 24, 2013 May 24 - Sorin to follow up with College on if encryption is required June 6 – Ministry decision still outstanding.
R		Ministry Network Move Project End to End testing is at risk of not completing in time due to the following. This could push out PharmaNet Release 2 Go Live. 1. Ministry to identify list of Pharmacies for End to End	Potential delays in Ministry Network Move End to End Testing could result in delays to Release 2 Go Live. June 6 – End to End testing arrangements not yet made. 1. Pharmacies not yet identified. 2. Pharmacies not yet setup	MAXIMUS Raised Issue paper on this on May 17, 2013 and delivered to Ministry identifying that if end to end testing was to take place it would need to be planned with the POS to ensure it could be completed in time. Due date for confirming this was Friday May 24, 2013 Jun 6 – End to end testing arrangements pending.

**Green** = No concerns on schedule and within budget  
**Yellow** = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover

Status G Y R	Priority	Detailed Description	Business Impact	Proposed Resolution
Y		Impact of delay of Release 2 Go Live to July 6/7. May 23 – Ministry Decision to delay Go Live to July 6/7 due to ability to communicate to External Stakeholders on extended Pharmanet change window and the Network Move Project in flight. MAXIMUS to assess impacts	MAXIMUS Assessing Impact. Communication to stakeholders	Ministry Decision Go Live delayed to July 6/7 MAXIMUS Impact Assessment prepared and send to Ministry on May 31, 2013 MAXIMUS and Ministry following up with external stakeholders.
Y	Medium	Project PharmaNet Modernization Scope cannot keep increasing if we are to meet project timelines. Ministry is changing and increasing scope, both from within and outside PharmaNet Modernization Project	Increased Scope will impact project timelines	PharmaNet Modernization Scope needs to be frozen. Anything that adds to scope will impact project timelines.
Y		Conformance Specifications further delayed. Version to be published Jan 4, 2013, delayed to Feb 2013, then April 2013, then May 15, 2013. Waiting for Ministry to release this version. Final version for General deployment to be produced later. Several rule clarifications / interpretations still exist and some rules were aligned to MedAccess that may be inaccurate, causing negative impact to future vendors.	Inadequate Specifications could result in 1. Delays in Conformance Test Case Development and Execution. 2. Incorrect or incomplete Vendor Development, 3. Additional Rounds of Conformance Testing. 4. Incorrect or incomplete test cases.	Ministry to finalize Conformance Specifications. These were due Jan 4, 2013. Now delayed to May 15, 2013 and overdue. Draft Conformance Specifications provided are insufficient to support Test Case Development and Vendor Development. Ministry to provide updated Conformance Specs to MAXIMUS by May 15, 2013 – overdue. May 23, 2013 Ministry have put CR2013-007 Conformance Testing MedAccess and Updates from Conformance Specs on Hold. ** Conformance Specs must be finalized to a version that can be used for Test Case Development and Vendor Development. Specifications will be finalized before General Deployment.

# PharmaNet Modernization Progress Report (JPMT)

Approved	DR 2013-001 PharmaNet Annual Retroactive Reimbursement Process for 2012 Benefit Year	Feb 5 – MAXIMUS submitted for Ministry approval with due date of Feb 12, 2013 – overdue. Feb 14 – Ministry requested that DR be updated to show Option 1 during Stabilization. Feb 15 - MAXIMUS updated DR and submitted with due date of Feb 20, 2013. Feb 18 – Ministry approved. Sign-Off in Progress
Approved	CR2012-017 Conformance Test Case Updates – Increases to Scope	Feb 6 – Email sent to Ministry requesting decision on scope increase. Feb 13 – reminder email sent requesting decision. Feb 18 – Ministry responded with questions. MAXIMUS to answers. Feb 18 – MAXIMUS responses being sent today. Feb 25 – Submitted for Approval and Sign-Off Feb 27 – Signed Off. This can now be closed.
Approved	CR2012-008 Conformance Test Case Remediation and Execution Amended	Feb 15 – MAXIMUS to amend CR2012-008 to revised scope and submit to Ministry for Review and Approval. Done. Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Mar 6 – Approved and Signed Off
Submitted	CR2012-008 Conformance Test Case Remediation and Execution Amended2	Mar 21 – MAXIMUS amended CR2012-008 to revise scope to reflect Ministry Decision not to conformance test MedAccess and to use remaining time in CR for TELUS support and walkthrough of Test Cases. Mar 22 - Submitted to MOH. <b>Due Mar 26, 2013.</b>
On HOLD	CR2013-002 PMP Conformance Testing TELUS	Feb 15 – MAXIMUS to create CR for TELUS Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Reviewed and updated. Submitted for Ministry Approval. Due Feb 27 Mar 28 – Ministry requested CR be updated to include FY 13/14 scope only. MAXIMUS updated CR and resubmitted April 2, 2013 with due date of April 5, 2013 May 23 – Ministry Decision to put this CR on hold. Ministry to determine where time billed to this CR will be invoiced to. Waiting for Ministry decision
Approved	CR2013-003 PMP Conformance Testing ARI	Feb 15 – MAXIMUS to create CR for ARI Conformance Testing and submit to Ministry for Review and Approval. Done Feb 18 – MAXIMUS / Ministry to finalize at Meeting today. Ministry asked to defer finalization by 1 week to Mon Feb 25. Feb 25 – Approved and Signed Off by MAXIMUS. Feb 27 – Ministry signed by holding to confirm clause. MAXIMUS waiting for Signed copy. Mar 11 – Signed.
Approved	Health Sector Firewall Decision	Due April 19, 2013 – IF Yes, this will delay R2 Go Live and MAXIMUS to assess impacts and draft CR. Apr 11 – Decision made to proceed with Health Sector Firewall.
Approved	Move from 4000 Seymour to Kamloops will result in additional scope of testing	Due April 12, 2013 – IF Yes, MAXIMUS will assess added scope and add to CR for Health Sector Firewall.

<b>Green</b> = No concerns on schedule and within budget	0%	Not started.
<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	10%	Table of contents or acceptance criteria agreed to with client and/or work has started.
<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover	25%	Work is currently in progress on this deliverable or task.
	50%	Internal reviews or Internal testing activities are currently in progress on this deliverable or task.
	75%	External reviews or user acceptance testing activities are currently in progress on this deliverable or task.
	100%	Final approval / sign-off or user acceptance has been received.

# PharmaNet Modernization Progress Report (JPMT)

On HOLD	CR2013-007 Early Adopter Phase 2 Conformance Testing MedAccess	Apr 11 – MAXIMUS is drafting CR Apr 16 – Submitted to Ministry for Review and Approval May 23, 2013 – Ministry Decision to put this CR on hold. Ministry to determine where time billed to this CR will be invoiced to. Waiting for Ministry decision
Approved	CR2013-008 PMP Health Sector Firewall and Network Move	Apr 11 – Ministry Decision to proceed with Health Sector Firewall and added Scope of Network Move. MAXIMUS to assess impacts and draft CR. Apr 25 – MAXIMUS have drafted CR and in internal reviews. Submitted Apr 26, 2013
On Hold	CR2013-009 PMP Release 3.0 High Level Requirements	Apr 25 – MAXIMUS have drafted CR and in internal reviews. Plan to submit Apr 26, 2013 CR submitted and approved. May – approved. May 23, 2013 – Ministry have requested this be put on hold. MAXIMUS to complete Project charter and close out before placing on hold.

## Upcoming Deliverables/Milestones:

Note: Milestone Dates are shown in grey as they mark completion, and are not for acceptance

Milestone or Deliverable	MAXIMUS Milestone or Deliverable Name	Status	Due Date for Acceptance
	<b>Release 1.1 Early Adopter Deployment</b>		
Milestone	Phase 2 – Pharmacy Production Deployment (Gibsons)	Done	Mar 30-31, 2013
Milestone	Phase 3 – EMR Production Deployment - TBD	Pending	TBD
Milestone	Conformance Test Case Updates	In Progress, Done for Vendor Testing	
	<b>Release 2</b>		
Milestone	Test Case Development Complete	Done	Mar 31, 2013
Milestone	Business Acceptance Test Case Development Complete	Done	
Milestone	Test Case Execution Complete	In Progress	
Milestone	Business Acceptance Test Case Execution Complete	In Progress

## Project Progress Report

Originator	Filename	Delivered to (Primary Organization)	Date Delivered YYYY-MM-DD	Action Required	Action Due Date YYYY-MM-DD	Status (Pending/Submitted/Approved /Closed)	Comment
MAXIMUS	Requirements questions – Service Claims and Methadone Payments Adjustment Processes	MOH	2013-12-13	None	2014-01-31	Closed	All scope questions have been answered by MoH.
MAXIMUS	PharmaNet Release 3.0 – Training Strategy	MOH	2013-12-19	None	2014-02-14	Closed	Final version of document signed and delivered
MAXIMUS	Exclusion of OTC drugs and vitamins for Med Review	MOH	2014-02-17	Decision from MOH	TBD	Pending	MOH to discuss options with MAXIMUS

### 3 Project Issues/Risks/Decisions/Changes

#### 3.1 Key/Active Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Estimate
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Estimate
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Estimate Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Project Progress Report

			and/or delay implementation of the application enhancements				
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Estimate Schedule

### 3.2 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Submitted	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Submitted	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

4 Project Footprint

# Release 3 Footprint & Milestone Targets

Revised Date: Feb 12, 2014

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

Status			ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
G	Y	R						
Y			553643	H	Transaction code being developed by Catamaran was supposed to be delivered Feb 28 2014 but is now scheduled for delivery on Mar 19 2014.	MAXIMUS has not been able to proceed with testing of the transaction code as per the project plan.	MAXIMUS has moved ahead on tasks that were scheduled for later in the project. Catamaran has increased the number of resources dedicated to resolving the outstanding software bugs and has also worked additional weekday hours and weekends.  The code was delivered March 19 and MAXIMUS has loaded it to the test environment and is actively testing it.	2014-MAR-19

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

# Bi-weekly Project Progress Report

553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium term.	H	H	Budget, Schedule
553654	M	Testing of the screens has been delayed from the original plan and delivery of packaged code to MoH 8 weeks prior to go-live is going to be difficult to achieve	Shared Services has requested an 8 week lead time for packaging. If the screen code package cannot be delivered by the end of April the 8 week lead time will not be met and Shared Services may not be able to package the code in time for Go-live.	MAXIMUS is focusing effort on testing of the screen code in April but there is a dependency on MoH participants in the BAT. Coordination of participants has begun and MoH needs to ensure that participants are available. MoH will accept function tested screen code on May 1 and proceed with connectivity testing. Screen code will be shipped to SSBC May 7 if BAT on May5/6 is successful.	M	M	Schedule
553658	M	MoH is having a Risk and Controls review of PharmaNet Release 3.0 and in order for the project to be approved for Go-live, the MoH executive must approve the Risk and	MoH does not want the Go-live date to move because of cost savings that will be lost due to delay. MAXIMUS does not want to move the Go-live date to move because of proximity to the	The Go-live decision presentation date could be moved to a few days later if the Risk and Controls report has not been approved by the MoH executive by June 13. MAXIMUS will know if there are any issues	H	M	Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Submitted	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is 80.0 and this equates to \$11,440. CO 65 has been updated to reflect this change.

## JEC - Monthly Progress Report

	<ul style="list-style-type: none"> <li>blood glucose testing strips)</li> <li>Service Provider Enrolment Program roll-out</li> </ul> <p>The following activities and functionality have been removed/modified from the original scope:</p> <ul style="list-style-type: none"> <li>PharmaNet R4.0 requirements and estimate</li> <li>Stakeholder Engagement Strategy and Plan</li> <li>Provider enrolment operational activities, execution of training and communications are not included in the budget for R3 but will occur in parallel and involve many of the same resources as R3</li> <li>Risk and Controls review</li> <li>No new reports or report updates</li> <li>Stabilization criteria will be loosened to reduce the amount of stabilization support required</li> </ul> <p>The following activities and functionality have been added to the original scope:</p> <ul style="list-style-type: none"> <li>Methadone Payment Process change</li> <li>BGTS Patient Category lookup screen</li> <li>Apply DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments jobs</li> </ul> <p>Scope Concerns</p>	
<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month, the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the Industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>

--	---	--

## JEC - Monthly Progress Report

	<p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>○ Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). This has impacted the MAXIMUS team's ability to move ahead with deployments to environments and testing. This may have an impact on the Go-live date. MAXIMUS monitored the situation very closely and requested that Catamaran work extra hours (nights and weekends) to resolve the issues as quickly as possible (which they did). The MAXIMUS team worked on tasks that were scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</li> <li>○ Screen code BAT was not completed by the end of April and this is required to give MoH System Services and SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code was delivered on May 2.</li> <li>○ MoH MBPSD coordinated participation in screen code BAT for May 5/6 - successful BAT. MoH System Services will use the revised May 2 screen code to conduct the connectivity testing, pre-packaging activities and submit iStore Project request to SSBC (done).</li> <li>○ Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight).</li> <li>○ Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (June 26) will be required for the data warehouse refresh. This means that the data warehouse will have stale data until the Friday morning (June 27).</li> <li>○ CR 2014-006 –</li> </ul> <p style="text-align: center;">s.17</p> <ul style="list-style-type: none"> <li>○ Testing has uncovered a potential performance issue that we are currently re-testing and analyzing. If the issue cannot be resolved it may be necessary to discuss options (as presented in the draft DR) on how to proceed.</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>○ CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MOH.</li> <li>○ The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. MoH has paid the submitted invoice amount.</li> <li>○ CR 2014-005 - Provision of screen code and deployment support for the Colleges and HLBC – has been submitted to MoH for review and approval.</li> <li>○ CR 2014-006 –</li> </ul> <p style="text-align: center;">s.17</p>	<b>G</b>

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues

Status G Y R	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
Y	553643	L	Transaction code being developed by Catamaran was supposed to be delivered Feb 28 2014 but is now scheduled for delivery on Mar 19 2014.	MAXIMUS has not been able to proceed with testing of the transaction code as per the project plan.	MAXIMUS has moved ahead on tasks that were scheduled for later in the project. Catamaran has increased the number of resources dedicated to resolving the outstanding software bugs and has also worked additional weekday hours and weekends. Code delivered by Catamaran on March 19 2014 has been fully tested.	2014-MAR-19

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## JEC - Monthly Progress Report

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						
Y	553680	M	<p>Shared Services BC (SSBC) has recently implemented a change freeze for all infrastructure services, which also includes services delivered by all vendor partners, including HP Advanced Solutions, IBM, and TELUS.</p> <p>In the meantime, all change requests are being reviewed by Office of the Chief Information Officer (OCIO) executive to determine if there are any significant risks.</p> <p>For clients who have pending iStore orders or Requests for Change (RFC) scheduled, please be advised that these requests will be reviewed and assessed as per the process outlined above and may be rescheduled. Should clients require an emergency change during the freeze, they are reminded of the Request for Special Processing procedure.</p>	<p>May have an impact on the scheduled Go-Live date for R3:</p> <ul style="list-style-type: none"> <li>if MAXIMUS is unable to engage SSBC/HPAS when required;</li> <li>If the MoH iStore request for screen code packaging is delayed;</li> <li>If HPAS is not available to roll-out the packaged screen code on the Go-Live date.</li> </ul>	<p>The following steps could be taken to address this issue:</p> <ul style="list-style-type: none"> <li>Follow the SSBC "Request for Special Processing" procedure;</li> <li>Escalate quickly if this issue is raised</li> </ul> <p>Note: Recent experience with SSBC/HPAS has been at regular service levels (i.e., no impact due to the freeze)</p>	

### 3.2 Key/Active Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## JEC - Monthly Progress Report

553658	M	MoH is having a Risk and Controls review of PharmaNet Release 3.0 and in order for the project to be approved for Go-live, the MoH executive must approve the Risk and Controls report, and the report must be accepted by the Comptroller General's office. The report is due around June 12 2014 and the Go-live decision is currently planned for June 13. Approval for deployment in the June 25 change window should occur at the June 18 Change Management meeting. These dates are very tight so any slippage could jeopardize the Go-live date.	MoH does not want the Go-live date to move because of cost savings that will be lost due to delay. MAXIMUS does not want to move the Go-live date to move because of proximity to the testing/deployments for the Medigent (RAPID) project and competition for the same infrastructure resources.	The Go-live decision presentation date could be moved to a few days later if the Risk and Controls report has not been approved by the MoH executive by June 13. MAXIMUS will know if there are any issues with going live June 25 earlier than June 13 so the presentation is a formality. MoH will work with Deloitte to get the Risk and Controls review done as quickly as possible. MAXIMUS will respond to any requests from Deloitte in a timely fashion.	H	M	Schedule
--------	---	---	---	--	---	---	----------

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Pending	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## JEC - Monthly Progress Report

	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is 12. CO 65 has been updated to reflect this change.
	Approved	No changes to PharmaNet functionality to reject all claims from DIS-Only pharmacies (including offline cardholder claims) are required as part of Release 3.	No changes to project scope, budget or schedule are needed. The current PharmaNet functionality will not provide an ability to reimburse cardholders for drugs/products purchased at DIS-Only pharmacies.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)
CR2014-005	Pending	Provide PharmaNet application screen code to the Colleges and HLBC	Additional effort required by MAXIMUS and therefore additional budget required.

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## 4 Project Footprint

### Release 3 Footprint & Milestone Targets

Revised Date: May 28, 2014

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## 1 Project Information

Program - Project (ITG) # and Name:	PharmaNet Release 3.0	Reporting Period	From YYYY-Mon-DD	To YYYY-Mon-DD
			2014-June-28	2014-July-22
Project Plan Version:	PharmaNet R3	PLC/Project Phase	Deployment Phase	
Project Sponsor(s):	Joel Levinson	Phase Completion	Deployment – TBD	
Project Manager:	David Carleton	Next PLC Decision Date/Checkpoint:	Go / No Go Decision – July 23 2014	
Project Purpose:	The PharmaNet Release 3.0 Project will plan, define requirements, design, develop and implement the following business requirements in the PharmaNet application: <div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></d ## JEC - Monthly Progress Report

	<p>blood glucose testing strips)</p> <ul style="list-style-type: none"> <li>Service Provider Enrolment Program roll-out</li> </ul> <p>The following activities and functionality have been removed/modified from the original scope:</p> <ul style="list-style-type: none"> <li>PharmaNet R4.0 requirements and estimate</li> <li>Stakeholder Engagement Strategy and Plan</li> <li>Provider enrolment operational activities, execution of training and communications are not included in the budget for R3 but will occur in parallel and involve many of the same resources as R3</li> <li>Risk and Controls review</li> <li>No new reports or report updates</li> <li>Stabilization criteria will be loosened to reduce the amount of stabilization support required</li> </ul> <p>The following activities and functionality have been added to the original scope:</p> <ul style="list-style-type: none"> <li>Methadone Payment Process change</li> <li>BGTS Patient Category lookup screen</li> <li>Apply DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments jobs</li> </ul> <p>Scope Concerns</p>	
<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month, the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>
<b>Schedule</b>	<p>Development Activities:</p> <ul style="list-style-type: none"> <li>Empty Tables issue – code fixed, functional testing complete</li> <li>Performance issue (e.g., Methadone PIN) – testing complete</li> <li>Go / No Go Presentation – July 23 2014 for July 30/31 deployment</li> </ul> <p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). This has impacted the MAXIMUS team's ability to move ahead with deployments to environments and testing. This may have an impact on the Go-live date. MAXIMUS monitored the situation very closely and requested that Catamaran work extra hours (nights and weekends) to resolve the issues as quickly as possible (which they did). The MAXIMUS team worked on tasks that were</li> </ul>	<b>Y</b>

## JEC - Monthly Progress Report

	<p>scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</p> <ul style="list-style-type: none"> <li>Screen code BAT was not completed by the end of April and this is required to give MoH System Services and SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code was delivered on May 2.</li> <li>MoH MBPSD coordinated participation in screen code BAT for May 5/6 - successful BAT. MoH System Services will use the revised May 2 screen code to conduct the connectivity testing, pre-packaging activities and submit iStore Project request to SSBC (done).</li> <li>Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight).</li> <li>Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (June 26) will be required for the data warehouse refresh. This means that the data warehouse will have stale data until the Friday morning (June 27).</li> <li>CR 2014-006 –</li> <li>Testing has uncovered a potential performance issue that we are currently re-testing and analyzing. The performance issue has been resolved. The draft DR that was raised has been cancelled.</li> <li>MoH requested all PNet test databases shut down due to issue of real PHNs being used in test environments. This required unplanned effort by the PNet R3 team and also delayed functional testing of the code that was revised to address the empty table issue. Effort was also required to re-start the test environments.</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MOH.</li> <li>The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. MoH has paid the submitted invoice amount.</li> <li>CR 2014-005 - Provision of screen code and deployment support for the Colleges and HLBC – approved and signed by MAXIMUS and MoH.</li> <li>CR 2014-006 –</li> <li>CR2014-007 – Resolve Performance issue – approval received from JEC to proceed with the work prior to submission of the CR. The CR was submitted to MoH for review on June 12 2014 but has not been approved for signature. MAXIMUS is unable to bill for this work although the work has been completed.</li> </ul>	<b>R</b>

MAXIMUS	PharmaNet R3 Go / No Go (July 30/31 2014)	MoH	2014-07-23	Approval	2014-07-25	Pending	Presentation to be made to JEC on July 23.

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues

Status G Y R	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon- DD
R	553689	H	Deployment was unsuccessful due to code issues in dealing with empty tables and also an unrelated performance issue	Unable to proceed with deployment.	<p>MAXIMUS has done the following to deal with these issues:</p> <ul style="list-style-type: none"> <li>Instructed Catamaran to review code and fix code related to handling of empty tables (done)</li> <li>Conducted additional performance testing with various scenarios to determine cause of performance issue</li> </ul> <p><b>NOTE:</b> There is an ongoing risk that performance could be impacted by the release code (e.g., methadone PINs have a longer response time). However, MAXIMUS does not feel that this is an issue that should prevent deployment from proceeding.</p>	2014-Jul-25

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
---	--	---

### 3.2 Key/Active Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553658	High	Ministry Risk and Controls are in question right now	Go-live could be delayed	Ministry Risk and Controls under review at this time	H	M	Schedule
553616	High	Application performance may be impacted	Potential impact to ongoing performance	Performance will need to be monitored closely during stabilization and beyond	H	L	Performance

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Cancelled	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality Performance of the Catamaran code became an issue that was addressed via CR 2014-007.
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is 12 change.
	Approved	No changes to PharmaNet functionality to reject all claims from DIS-Only pharmacies (including offline cardholder claims) are required as part of Release 3.	No changes to project scope, budget or schedule are needed. The current PharmaNet functionality will not provide an ability to reimburse cardholders for drugs/products purchased at DIS-Only pharmacies.

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## JEC - Monthly Progress Report

	Approved	MAXIMUS request for Go / No Go decision for deployment of PharmaNet Release 3.0 on June 25/26	Approval received from JEC on June 17, 2014.
	Pending	MAXIMUS request for Go / No Go decision for deployment of PharmaNet Release 3.0 on July 30/31	Approval to be requested from JEC on July 23, 2014.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)
CR2014-005	Approved	Provide PharmaNet application screen code to the Colleges and HLBC	Additional effort required by MAXIMUS and therefore additional budget required.
CR2014-006	Approved	Do not implement any limits on <sup>ss</sup> BGTS when the application is deployed	Additional effort required by MAXIMUS and therefore additional budget required.
CR2014-007	Pending	Resolve performance issue with PharmaNet Release 3.0 application that is impacting the claims transaction SLA	Additional effort required by MAXIMUS and therefore additional budget required.

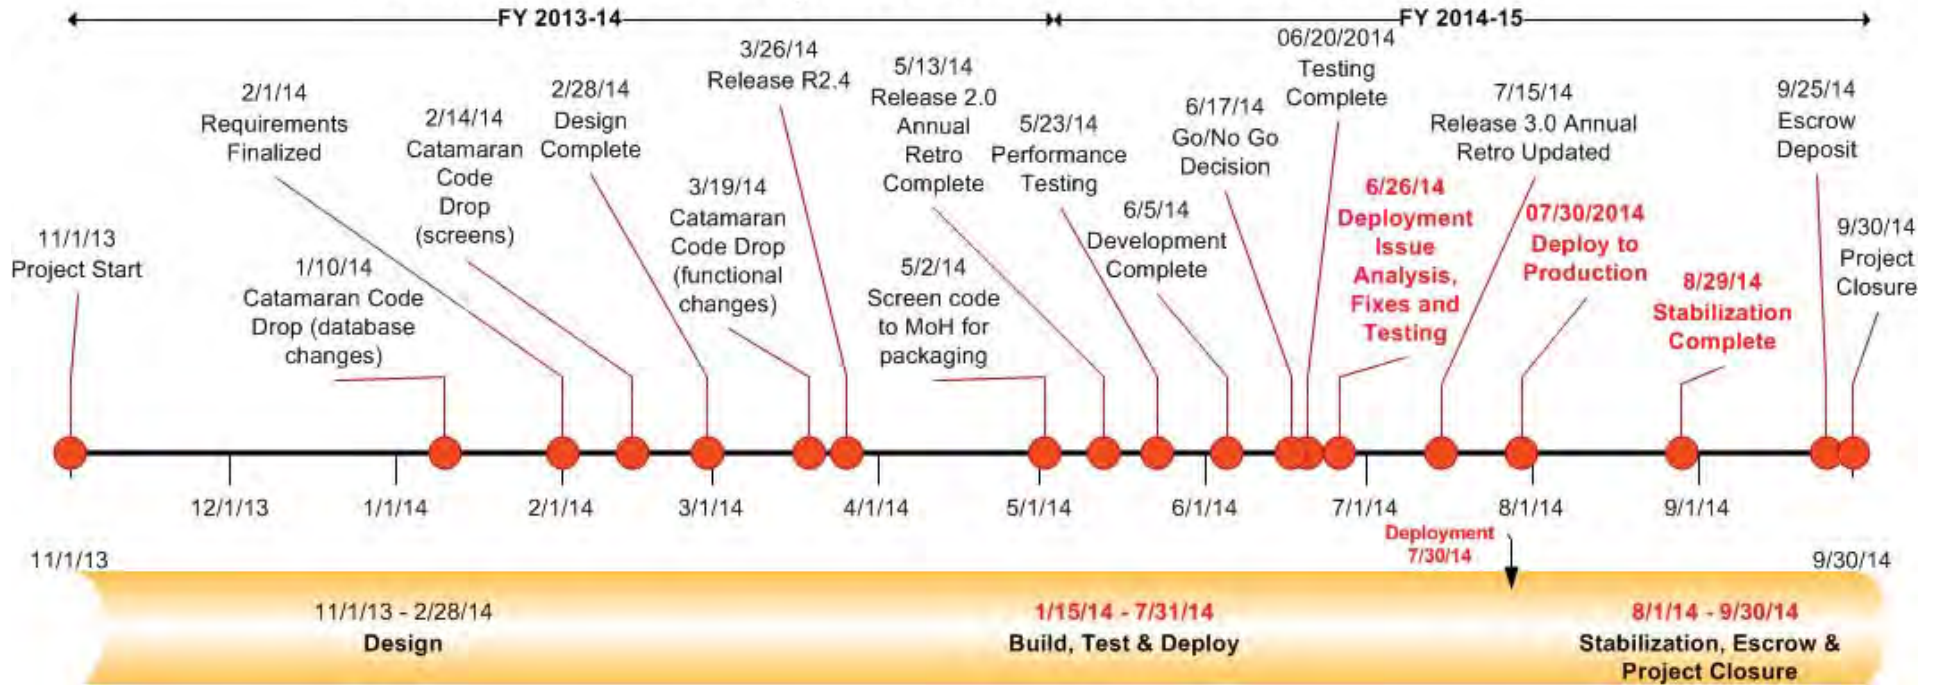

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## JEC - Monthly Progress Report

	<p>blood glucose testing strips)</p> <ul style="list-style-type: none"> <li>Service Provider Enrolment Program roll-out</li> </ul> <p><b>The following activities and functionality have been removed/modified from the original scope:</b></p> <ul style="list-style-type: none"> <li>PharmaNet R4.0 requirements and estimate</li> <li>Stakeholder Engagement Strategy and Plan</li> <li>Provider enrolment operational activities, execution of training and communications are not included in the budget for R3 but will occur in parallel and involve many of the same resources as R3</li> <li>Risk and Controls review</li> <li>No new reports or report updates</li> <li>Stabilization criteria will be loosened to reduce the amount of stabilization support required</li> </ul> <p><b>The following activities and functionality have been added to the original scope:</b></p> <ul style="list-style-type: none"> <li>Methadone Payment Process change</li> <li>s.17</li> <li>Apply DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments jobs</li> <li>s.17</li> </ul> <p>Scope Concerns</p> <ul style="list-style-type: none"> <li>s.17</li> <li>Inability to complete the work under CR2014-005 until HLBC is able to test the screen code that has been provided by MAXIMUS</li> </ul>	
<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month, the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the Industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>
<b>Schedule</b>	<p>Development Activities:</p> <ul style="list-style-type: none"> <li>Go / No Go Presentation – July 23 2014 – complete</li> <li>Deployment – July 30/31 – complete</li> <li>Stabilization – August 31 – complete</li> <li>Project Closure – September 30 – in progress</li> </ul> <p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). This has impacted the MAXIMUS</li> </ul>	<b>G</b>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## JEC - Monthly Progress Report

	<p>team's ability to move ahead with deployments to environments and testing. This may have an impact on the Go-live date. MAXIMUS monitored the situation very closely and requested that Catamaran work extra hours (nights and weekends) to resolve the issues as quickly as possible (which they did). The MAXIMUS team worked on tasks that were scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</p> <ul style="list-style-type: none"> <li>Screen code BAT was not completed by the end of April and this is required to give MoH System Services and SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code was delivered on May 2.</li> <li>MoH MBPSD coordinated participation in screen code BAT for May 5/6 - successful BAT. MoH System Services will use the revised May 2 screen code to conduct the connectivity testing, pre-packaging activities and submit iStore Project request to SSBC (done).</li> <li>Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight). Extended window used to successfully deploy the application on July 30.</li> <li>Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (July 31) was required for the data warehouse refresh. This meant that the data warehouse had stale data until the Friday morning (Aug 1).</li> <li>CR 2014-006 – s.17</li> <li>Testing has uncovered a potential performance issue that we are currently re-testing and analyzing. The performance issue has been resolved. The draft DR that was raised has been cancelled.</li> <li>MoH requested all PNet test databases shut down due to issue of real PHNs being used in test environments. This required unplanned effort by the PNet R3 team and also delayed functional testing of the code that was revised to address the empty table issue. Effort was also required to re-start the test environments. This effort has been charged to a non-project SR.</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MOH.</li> <li>The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. MoH has paid the submitted invoice amount.</li> <li>CR 2014-005 - Provision of screen code and deployment support for the Colleges and HLBC – approved and signed by MAXIMUS and MoH.</li> <li>CR 2014-006 – s.17</li> <li>CR2014-007 – Resolve Performance issue – approval received from JEC to proceed with the work prior to submission of the CR. The CR was submitted to MoH for review on June 12 2014 and has been signed and all the work completed.</li> </ul>	<b>G</b>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month (May), the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the Industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>
<b>Schedule</b>	<p>Development Activities:</p> <ul style="list-style-type: none"> <li>Go / No Go Presentation – July 23 2014 – complete</li> <li>Deployment – July 30/31 – complete</li> <li>Stabilization – August 31 – complete</li> <li>Project Closure – September 30 – complete</li> </ul> <p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). This has impacted the MAXIMUS team's ability to move ahead with deployments to environments and testing. This may have an impact on the Go-live date. MAXIMUS monitored the situation very closely and requested that Catamaran work extra hours (nights and weekends) to resolve the issues as quickly as possible (which they did). The MAXIMUS team worked on tasks that were scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</li> </ul>	<b>G</b>

<b>Green</b> =	No concerns on schedule and within budget	<b>Yellow</b> =	Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> =	Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
----------------	---	-----------------	---	--------------	---

## JEC - Monthly Progress Report

	<ul style="list-style-type: none"> <li>Screen code BAT was not completed by the end of April and this is required to give MoH System Services and SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code was delivered on May 2.</li> <li>MoH MBPSD coordinated participation in screen code BAT for May 5/6 - successful BAT. MoH System Services will use the revised May 2 screen code to conduct the connectivity testing, pre-packaging activities and submit iStore Project request to SSBC (done).</li> <li>Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight). Extended window used to successfully deploy the application on July 30.</li> <li>Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (July 31) was required for the data warehouse refresh. This meant that the data warehouse had stale data until the Friday morning (Aug 1).</li> <li>CR 2014-006 –</li> <li>Testing has uncovered a potential performance issue that we are currently re-testing and analyzing. The performance issue has been resolved. The draft DR that was raised has been cancelled.</li> <li>MoH requested all PNet test databases shut down due to issue of real PHNs being used in test environments. This required unplanned effort by the PNet R3 team and also delayed functional testing of the code that was revised to address the empty table issue. Effort was also required to re-start the test environments. This effort has been charged to a non-project SR.</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MOH.</li> <li>The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. MoH has paid the submitted invoice amount.</li> <li>CR 2014-005 - Provision of screen code and deployment support for the Colleges and HLBC – approved and signed by MAXIMUS and MoH.</li> <li>CR 2014-006 –</li> <li>CR2014-007 – Resolve Performance issue – approval received from JEC to proceed with the work prior to submission of the CR. The CR was submitted to MoH for review on June 12 2014 and has been signed and all the work completed.</li> </ul>	<b>G</b>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## JEC - Monthly Progress Report

	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Cancelled	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality Performance of the Catamaran code became an issue that was addressed via CR 2014-007.
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is 12 CO 65 has been updated to reflect this change.
	Approved	No changes to PharmaNet functionality to reject all claims from DIS-Only pharmacies (including offline cardholder claims) are required as part of Release 3.	No changes to project scope, budget or schedule are needed. The current PharmaNet functionality will not provide an ability to reimburse cardholders for drugs/products purchased at DIS-Only pharmacies.
	Approved	MAXIMUS request for Go / No Go decision for deployment of PharmaNet Release 3.0 on June 25/26	Approval received from JEC on June 17, 2014.
	Approved	MAXIMUS request for Go / No Go decision for deployment of PharmaNet Release 3.0 on July 30/31	Approval received from JEC on July 23, 2014.
DR2014-011	Approved	MAXIMUS request for Stabilization Period closure	Submitted to MoH and approved – requires signatures.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)
CR2014-005	Approved	Provide PharmaNet application screen code to the Colleges and HLBC	Additional effort required by MAXIMUS and therefore additional budget required. NOTE: HLBC was not ready to implement the PNet screen code by September 30, 2014 and this work is therefore outstanding.

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## JEC - Monthly Progress Report

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)
CR2014-006	Approved	Do not implement any limits on s.17 /BGTS when the application is deployed	Additional effort required by MAXIMUS and therefore additional budget required. Subsequently (i.e., during September 2014) limits were implemented with no impact on performance.
CR2014-007	Approved	Resolve performance issue with PharmaNet Release 3.0 application that is impacting the claims transaction SLA	Additional effort required by MAXIMUS and therefore additional budget required.

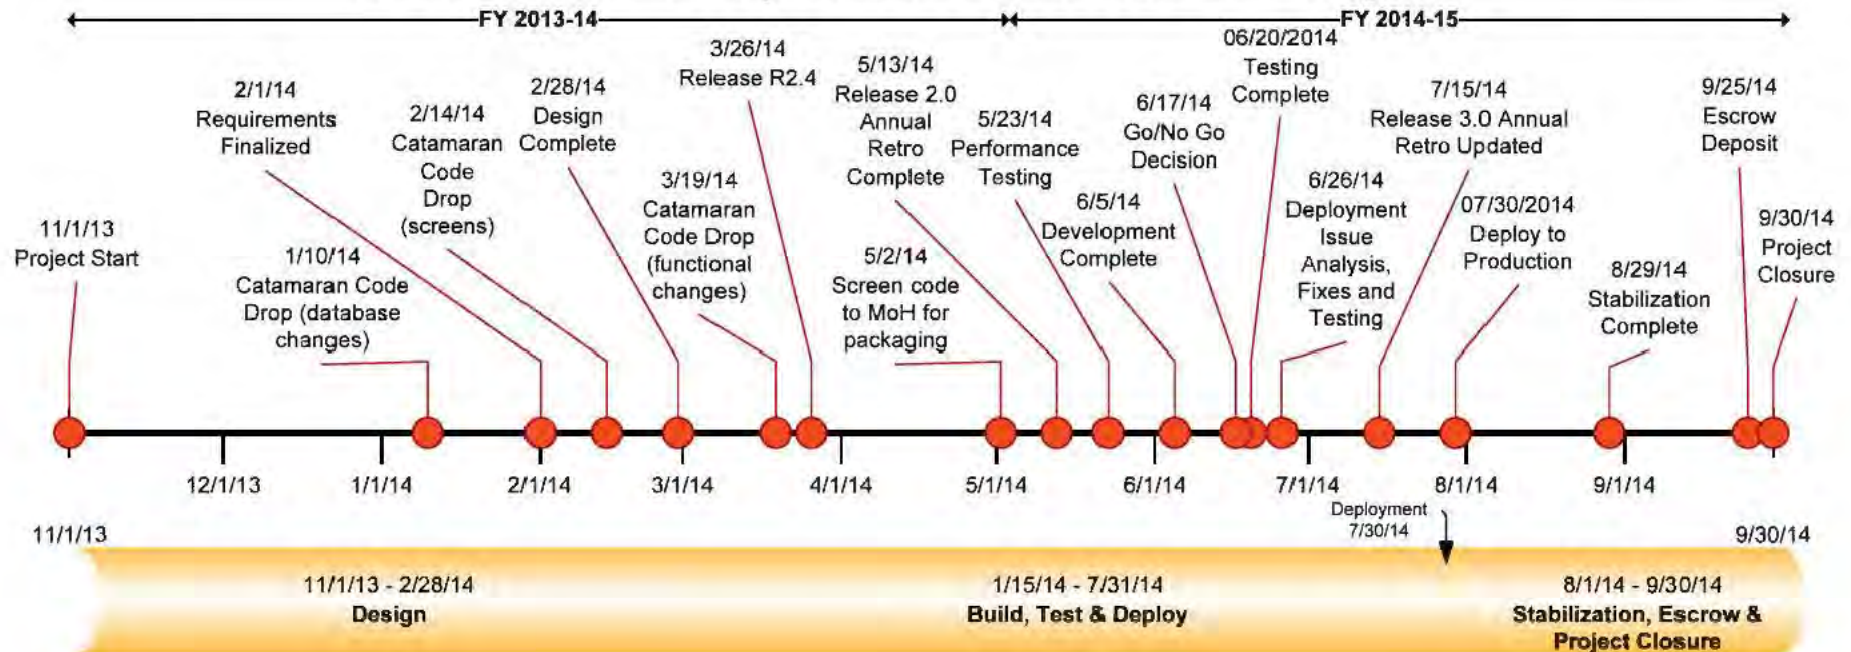

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## 4 Project Footprint

### Release 3 Footprint & Milestone Targets

Revised Date: August 18, 2014

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

# Bi-weekly Project Progress Report

## 2 Summary

### PharmaNet Release 3.0 Project Budget

	Actual	Estimate	Estimate	Estimate	Estimate	Estimate	Total
Original	Apr to Oct 2011	November	December	January	February	March	FY13/14
PNet R3.0	\$113,000.00	\$225,100.50	\$132,152.22	\$305,918.20	\$396,416.60	\$353,925.00	\$1,526,512.52
PNet R4.0	0	\$429.00	\$0.00	\$63,933.40	\$63,933.40	\$63,504.40	\$191,800.20
Total	\$113,000.00	\$225,529.50	\$132,152.22	\$369,851.60	\$460,350.00	\$417,429.40	\$1,718,312.72

	Actual	Actual	Actual	Actual	Estimate	Estimate	Total
Revised	Apr to Oct 2013	November	December	January	February	March	FY13/14
PNet R3.0	\$113,000.00	\$222,697.70	\$128,478.22	\$291,058.94	\$342,728.10	\$441,834.25	\$1,539,797.20
PNet R4.0	\$0.00	\$429.00	\$0.00	\$0.00	\$0.00	\$0.00	\$429.00
Total	\$113,000.00	\$223,126.70	\$128,478.22	\$291,058.94	\$342,728.10	\$441,834.25	\$1,540,226.20

CO 64

CO 65

### Notes:

PNet R3.0 and PNet R4.0 estimates include MAXIMUS and Catamaran effort  
 ODR to CAS reconciliation report is included in CO 65 but is not part of the PNet R3 budget  
 MAXIMUS labour rates increase on April 1, 2014  
 CO 65 also covers April to Aug 2014  
 Original chart was shared with MoH on January 6 2014  
 Estimate for February reduced due to delays in requirements decisions  
 Estimate for March increased to make up for reduction in February effort  
 Requirements changes that have impacted the estimate and schedule:  
     Methadone Payment Process change (not confirmed)  
     s.17  
     BGTS Patient Category lookup screen  
     Apply DIS only pharmacy check to Tamiflu monthly payments job  
     Not including OTC (Over the Counter) drugs and vitamins as qualifying for pharmacists totals for drugs towards a Med Review (not confirmed)

s.17

Green =	No concerns on schedule and within budget	Yellow =	Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	Red =	Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## Bi-weekly Project Progress Report

### 3 Project Issues/Risks/Decisions/Changes

#### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						

#### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
--------	---	---	---	--	---	---	-----------------------------

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Submitted	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	<p>If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.</p> <p>eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.</p>
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	<p>If full STRA is required, this will impact and scope and budget for the project. Schedule may be impacted as well.</p> <p>MoH to arrange meeting (done – Jan 7 2014) and provide decision by January 17 2014 – no impact on budget</p>
	Approved	Finalize requirement for new reports	<p>If no new reports are required, this reduces scope and budget for the project. If new reports are needed, need requirements for the reports in order to finalize functional specifications by end of January 2014.</p> <p>No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.</p>
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	<p>If Release 4.0 requirements are not started early in January 2014 the project burn rate will be further impacted since the original plan was to start the work in December 2013.</p> <p>Release 4.0 requirements and estimate will not be included in the Release 3.0 project.</p>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

	<ul style="list-style-type: none"> <li>Service Provider Enrolment Program roll-out</li> </ul> <p><b>The following activities and functionality have been removed/modified from the original scope:</b></p> <ul style="list-style-type: none"> <li>PharmaNet R4.0 requirements and estimate</li> <li>Stakeholder Engagement Strategy and Plan</li> <li>Provider enrolment operational activities, execution of training and communications are not included in the budget for R3 but will occur in parallel and involve many of the same resources as R3</li> <li>Risk and Controls review</li> <li>No new reports or report updates</li> <li>Stabilization criteria will be loosened to reduce the amount of stabilization support required</li> </ul> <p><b>The following activities and functionality have been added to the original scope:</b></p> <ul style="list-style-type: none"> <li>Methadone Payment Process change</li> <li>s.17</li> <li>BGTS Patient Category lookup screen</li> <li>Apply DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments jobs</li> <li>s.17</li> </ul> <p>Scope Concerns</p> <ul style="list-style-type: none"> <li>s.17</li> </ul>	<b>G</b>
<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month, the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the Industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>
<b>Schedule</b>	<p>Development Activities:</p> <ul style="list-style-type: none"> <li>PIA – signed off (complete)</li> <li>Technical Specifications – complete</li> <li>Business Configuration settings – complete</li> <li>Screen code – iStore ticket for packaging and deployment by SSBC created and sent</li> <li>Transaction code – testing complete</li> <li>DRP – signed off (complete)</li> <li>Batch development – complete</li> <li>Batch testing – complete</li> <li>Go / No Go Presentation – scheduled for June 17</li> </ul> <p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). This has impacted the MAXIMUS</li> </ul>	<b>Y</b>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	<p>team's ability to move ahead with deployments to environments and testing. This may have an impact on the Go-live date. MAXIMUS monitored the situation very closely and requested that Catamaran work extra hours (nights and weekends) to resolve the issues as quickly as possible (which they did). The MAXIMUS team worked on tasks that were scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</p> <ul style="list-style-type: none"> <li>Screen code BAT was not completed by the end of April and this is required to give MoH System Services and SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code was delivered on May 2.</li> <li>MoH MBPSD coordinated participation in screen code BAT for May 5/6 - successful BAT. MoH System Services will use the revised May 2 screen code to conduct the connectivity testing, pre-packaging activities and submit iStore Project request to SSBC.</li> <li>Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight).</li> <li>Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (June 26) will be required for the data warehouse refresh. This means that the data warehouse will have stale data until the Friday morning (June 27).</li> <li>CR 2014-006 – s.17</li> </ul> <p style="text-align: center;">s.17</p> <ul style="list-style-type: none"> <li>Testing has uncovered a potential performance issue that we are currently re-testing and analyzing. If the issue cannot be resolved it may be necessary to discuss options (as presented in the draft DR) on how to proceed (resolved)</li> <li>June 25/26 deployment was not successful due to a code issue related to empty tables (resolved) and a potential performance issue (under investigation). Deployment date and stabilization period need to be re-scheduled. Proposed deployment date is July 30/31.</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MOH.</li> <li>The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. MoH has paid the submitted invoice amount.</li> <li>CR for provision of screen code and deployment support for the Colleges and HLBC (CR2014-005) has been submitted to MoH for review and approval.</li> <li>CR 2014-005 – Provision of screen code and deployment support for the Colleges and HLBC – approved by MoH, and signed at MAXIMUS. delivered to MoH for signature</li> <li>CR 2014-006 – s.17</li> <li>The project is now over-burning on the budget due to the effort being spent to resolve the performance issue that was recently discovered. CR 2014-007 has been raised and presented to MoH for review/approval.</li> <li>Effort to re-attempt deployment should fit within the existing budget, assuming that MoH funds CR 2014-007.</li> </ul>	<b>Y</b>

<b>Total</b>	<b>\$158,740</b>	<b>\$223,127</b>	<b>\$128,478</b>	<b>\$291,059</b>	<b>\$332,367</b>	<b>\$525,347</b>	<b>\$1,659,118</b>	<b>\$401,531</b>	<b>\$362,200</b>	<b>\$277,942</b>	<b>\$219,230</b>	<b>\$110,200</b>	<b>\$33,652</b>	<b>\$1,404,755</b>	<b>\$3,063,873</b>
Hrs															
MAXIMUS								s.21							
CO 64															
CO 65															
CO 66															
Financial Adjustments:															
Removed \$11,440 from CO 65 due to removal of effort for STRA s.21															
Apply credit for additional capacity hrs (CO 66) to April, May and June s.21															
Add \$45,740 for June to Aug 2013 (ODR to CAS reconciliation)															
CO 64 value is \$535,591 of which \$25,246 was not spent by Dec 31 2013 so that amount was applied against the Jan 2014 invoice															
CO 65 value is \$2,567,176. It is split by fiscal: FY2013/14 = \$1,123,527 and FY2014/15 = \$1,443,649															
Total amount available for FY13/14 = \$1,659,118															
Apr-Oct 2013 column includes \$45,740 for the ODR to CAS Reconciliation report effort (SR 553416)															
CR2014-005 - Provide screen code to Colleges and HLBC - added to project totals															
CR2014-006 - No limits to be implemented at Go-live															
CR2014-007 - Performance issue resolution															
A training credit has been added since training for limits has been delayed until limits are implemented in production															
Notes:															
PNet R3.0 estimates include MAXIMUS and Catamaran effort															
The number of MAXIMUS hours per month includes IT and BAT resources which are charged at different rates															
Original estimate for February reduced due to delays in requirements decisions															
Original estimate for March increased to make up for reduction in February effort															
Requirements changes that have increased the estimate and/or scope:															
Methadone Payment Process change															
New Service Claims cap															
BGTS Patient Category lookup screen															
Apply DIS only pharmacy check to Tamiflu monthly payments job															
Creation of a "production-like" test environment for performance testing of new limits requirements															
Requirements changes that have decreased the estimate and/or scope:															
PharmaNet R4.0 requirements and estimate removed from scope															
Stakeholder Engagement Strategy and Plan assigned to MoH															
Provider enrolment operational activities, training and communications removed from scope															
Risk and Controls review removed from scope															
No new reports or report updates															
Stabilization criteria will be loosened to reduce the amount of stabilization support required															
MAXIMUS effort related to the STRA removed from scope															

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

# Bi-weekly Project Progress Report

Status			ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
G	Y	R						
Y			553643	L	Transaction code being developed by Catamaran was supposed to be delivered Feb 28 2014 but is now scheduled for delivery on Mar 19 2014.	MAXIMUS has not been able to proceed with testing of the transaction code as per the project plan.	MAXIMUS has moved ahead on tasks that were scheduled for later in the project. Catamaran has increased the number of resources dedicated to resolving the outstanding software bugs and has also worked additional weekday hours and weekends. Code delivered by Catamaran on March 19 2014 has been fully tested.	2014-MAR-19
Y			553680	M	<p>Shared Services BC (SSBC) has recently implemented a change freeze for all infrastructure services, which also includes services delivered by all vendor partners, including HP Advanced Solutions, IBM, and TELUS.</p> <p>In the meantime, all change requests are being reviewed by Office of the Chief Information Officer (OCIO) executive to determine if there are any significant risks.</p> <p>For clients who have pending iStore orders or Requests for Change (RFC) scheduled, please be advised that these requests will be reviewed and assessed as per the process outlined above and may be rescheduled. Should clients require an emergency change during the freeze, they are reminded of the Request for Special Processing procedure.</p>	<p>May have an impact on the scheduled Go-Live date for R3:</p> <ul style="list-style-type: none"><li>if MAXIMUS is unable to engage SSBC/HPAS when required;</li><li>If the MoH iStore request for screen code packaging is delayed;</li><li>If HPAS is not available to roll-out the packaged screen code on the Go-Live date.</li></ul>	<p>The following steps could be taken to address this issue:</p> <ul style="list-style-type: none"><li>Follow the SSBC "Request for Special Processing" procedure;</li><li>Escalate quickly if this issue is raised</li></ul> <p>Note: Recent experience with SSBC/HPAS has been at regular service levels (i.e., no impact due to the freeze)</p> <p>The freeze has been removed but there is a backlog of activities that may still impact requests unless they are of higher priority.</p>	
Y			553616	H	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables appears to have impacted application performance and this would jeopardize SLAs. This may in turn jeopardize the scheduled	<p>The following steps are being undertaken by MAXIMUS and Catamaran to determine if the code changes have impacted the performance of the application:</p> <ul style="list-style-type: none"><li>Extensive testing of the application</li><li>Logs are being captured and analyzed</li><li>Code is being reviewed</li><li>Twice daily joint review sessions</li></ul>	June 13, 2014

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						
				Go-live date.	<ul style="list-style-type: none"> <li>Planning for next steps</li> </ul>	
<b>R</b>	553689	H	Deployment was unsuccessful due to code issues in dealing with empty tables and also a performance issue	Unable to proceed with deployment.	<p>MAXIMUS has done the following to deal with these issues:</p> <ul style="list-style-type: none"> <li>Instructed Catamaran to review code and fix code related to handling of empty tables (done)</li> <li>Conducted additional performance testing with various scenarios to determine cause of performance issue</li> </ul> <p><b>NOTE:</b> There is an ongoing risk that performance could be impacted by the release code (e.g., methadone PINs have a longer response time, s.17 However, MAXIMUS does not feel that this is an issue that should prevent deployment from proceeding.</p>	ASAP

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results) – risks being actively monitored are highlighted in yellow

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during	Elicitation of detailed business requirements may	MAXIMUS will conduct internal reviews of the detailed business	M	L	Scope Budget

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

# Bi-weekly Project Progress Report

		design	not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	requirements in order to determine the scope of the project			Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium term.	H	H	Budget, Schedule
553654	M	Testing of the screens has been delayed from the original plan and delivery of packaged code to MoH 8 weeks prior to go-live is going to be difficult to achieve	Shared Services has requested an 8 week lead time for packaging. If the screen code package cannot be delivered by the end of April the 8 week lead time will not be met and Shared Services may not be able to package the code in time for Go-live.	MAXIMUS is focusing effort on testing of the screen code in April but there is a dependency on MoH participants in the BAT. Coordination of participants has begun and MoH needs to ensure that participants are available. MoH could request that Shared Services package the screen code with less than 8 weeks notice.	M	M	Schedule
553658	M	MoH is having a Risk and Controls review of PharmaNet Release 3.0 and in order for the project to be approved for Go-live, the MoH executive must approve the Risk and Controls report, and the	MoH does not want the Go-live date to move because of cost savings that will be lost due to delay. MAXIMUS does not want to move the Go-live date to move because of proximity to the testing/deployments for the	The Go-live decision presentation date could be moved to a few days later if the Risk and Controls report has not been approved by the MoH executive by June 13. MAXIMUS will know if there are any issues with going live June 25 earlier	H	M	Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

		report must be accepted by the Comptroller General's office. The report is due around June 12 2014 and the Go-live decision is currently planned for June 13. Approval for deployment in the June 25 change window should occur at the June 18 Change Management meeting. These dates are very tight so any slippage could jeopardize the Go-live date.	Medigent (RAPID) project and competition for the same infrastructure resources.	than June 13 so the presentation is a formality. MoH will work with Deloitte to get the Risk and Controls review done as quickly as possible. MAXIMUS will respond to any requests from Deloitte in a timely fashion.			
553668	H	PNet R3 is currently designed/developed to adjudicate all claims from DIS only pharmacies to zero (i.e., the client will not be reimbursed for any legitimate purchases from DIS only pharmacies). The new requirement is for the off-line process to adjudicate the claim as per the usual rules and pay the appropriate amount to the client.	If the decision is not made in a timely fashion (1 week) then it will not be possible to implement the change without impacting the project schedule. A different decision will then be required - delay the project to incorporate the new requirement or proceed as is and implement the new requirement after PNet R3 Go-live. Therefore the impact is either a project delay or an implementation where clients are not reimbursed for purchases from DIS only pharmacies	MoH to provide a decision as to whether or not the recommendation (i.e., modify transaction code to allow adjudication of DIS only claims submitted by clients) should be implemented within 1 week (by April 30 2014).  MoH decision is to not make any changes to R3 but to pursue options for addressing adjudication of client claims for DIS only pharmacy dispenses through operational avenues.	H	H	Scope Schedule

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
------------------------	---	----------------------	--

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	Cancelled	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Pending	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 s.21 CO 65 has been updated to reflect this change.
	Approved	No changes to PharmaNet functionality to reject all claims from DIS-Only pharmacies (including offline cardholder claims) are required as part of Release 3.	No changes to project scope, budget or schedule are needed. The current PharmaNet functionality will not provide an ability to reimburse cardholders for drugs/products purchased at DIS-Only pharmacies.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)
CR2014-005	Approved	Provide PharmaNet application screen code to the Colleges and HLBC.	Additional effort required by MAXIMUS and therefore additional budget required.
CR2014-006	Pending (waiting for MoH signatures)	s.17 BGTS limits are also set to default values.	Additional effort required by MAXIMUS to update Business Configuration document and values, adjust training approach/materials and communication materials, and test for no limits scenarios.

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Change Description	Implications (Project, Business, Contract, etc.)
CR2014-007	Pending (waiting for MoH approval to proceed with signature gathering)	Investigate performance issues with PNet R3 code developed by Catamaran.	Performance of the PNet R3 code developed by Catamaran will not allow MAXIMUS to meet the SLA for Claims transactions. It needs to be improved prior to Go-live.

## Bi-weekly Project Progress Report

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						
<b>Y</b>	TBD	M	Healthideas will not be ready to process the new R3 data.	Program information will not be readily available.	Complete development and testing of the new Healthideas extract as part of R3. Conduct testing with Healthideas when they are ready.	TBD

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
553644	H	The EMPI server migration	Due to the impact of the	MAXIMUS is doing what we can	H	H	Budget,

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

		has resulted in substantial impact to HIBC both in terms of technical and operational resources.	enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium term.			Schedule

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Submitted	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 CO 65 has been updated to reflect this change.

## JEC - Monthly Progress Report

	<p>blood glucose testing strips)</p> <ul style="list-style-type: none"> <li>Service Provider Enrolment Program roll-out</li> </ul> <p><b>The following activities and functionality have been removed/modified from the original scope:</b></p> <ul style="list-style-type: none"> <li>PharmaNet R4.0 requirements and estimate</li> <li>Stakeholder Engagement Strategy and Plan</li> <li>Provider enrolment operational activities, execution of training and communications are not included in the budget for R3 but will occur in parallel and involve many of the same resources as R3</li> <li>Risk and Controls review</li> <li>No new reports or report updates</li> <li>Stabilization criteria will be loosened to reduce the amount of stabilization support required</li> </ul> <p><b>The following activities and functionality have been added to the original scope:</b></p> <ul style="list-style-type: none"> <li>Methadone Payment Process change</li> <li>s.17</li> <li>BGTS Patient Category lookup screen</li> <li>Apply DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments jobs</li> <li>s.17</li> </ul> <p>Scope Concerns</p> <ul style="list-style-type: none"> <li>s.17</li> </ul>	
<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month, the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the Industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>
<b>Schedule</b>	<p>Development Activities:</p> <ul style="list-style-type: none"> <li>Empty Tables issue – code fixed, functional testing complete</li> <li>Performance issue (e.g., Methadone PIN) – testing complete</li> <li>Go / No Go Presentation – July 23 2014 for July 30/31 deployment</li> </ul> <p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). ## JEC - Monthly Progress Report

	<p>scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</p> <ul style="list-style-type: none"> <li>Screen code BAT was not completed by the end of April and this is required to give MoH System Services and SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code was delivered on May 2.</li> <li>MoH MBPSD coordinated participation in screen code BAT for May 5/6 - successful BAT. MoH System Services will use the revised May 2 screen code to conduct the connectivity testing, pre-packaging activities and submit iStore Project request to SSBC (done).</li> <li>Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight).</li> <li>Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (June 26) will be required for the data warehouse refresh. This means that the data warehouse will have stale data until the Friday morning (June 27).</li> <li>CR 2014-006 – s.17</li> <li>Testing has uncovered a potential performance issue that we are currently re-testing and analyzing. The performance issue has been resolved. The draft DR that was raised has been cancelled.</li> <li>MoH requested all PNet test databases shut down due to issue of real PHNs being used in test environments. This required unplanned effort by the PNet R3 team and also delayed functional testing of the code that was revised to address the empty table issue. Effort was also required to re-start the test environments.</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MOH.</li> <li>The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. MoH has paid the submitted invoice amount.</li> <li>CR 2014-005 - Provision of screen code and deployment support for the Colleges and HLBC – approved and signed by MAXIMUS and MoH.</li> <li>CR 2014-006 – s.17</li> <li>CR2014-007 – Resolve Performance issue – approval received from JEC to proceed with the work prior to submission of the CR. The CR was submitted to MoH for review on June 12 2014 but has not been approved for signature. MAXIMUS is unable to bill for this work although the work has been completed.</li> </ul>	<b>R</b>

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon- DD
<b>G</b> <b>Y</b> <b>R</b>						
<b>R</b>	553689	H	Deployment was unsuccessful due to code issues in dealing with empty tables and also an unrelated performance issue	Unable to proceed with deployment.	<p>MAXIMUS has done the following to deal with these issues:</p> <ul style="list-style-type: none"> <li>Instructed Catamaran to review code and fix code related to handling of empty tables (done)</li> <li>Conducted additional performance testing with various scenarios to determine cause of performance issue</li> </ul> <p><b>NOTE:</b> There is an ongoing risk that performance could be impacted by the release code (e.g., methadone PINs have a longer response time, s.17 However, MAXIMUS does not feel that this is an issue that should prevent deployment from proceeding.</p>	2014-Jul-25

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
---	--	---

### 3.2 Key/Active Project Risks

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553658	High	Ministry Risk and Controls are in question right now	Go-live could be delayed	Ministry Risk and Controls under review at this time	H	M	Schedule
553616	High	Application performance may be impacted	Potential impact to ongoing performance	Performance will need to be monitored closely during stabilization and beyond	H	L	Performance

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Cancelled	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality Performance of the Catamaran code became an issue that was addressed via CR 2014-007.
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 s.21 . CO 65 has been updated to reflect this change.
	Approved	No changes to PharmaNet functionality to reject all claims from DIS-Only pharmacies (including offline cardholder claims) are required as part of Release 3.	No changes to project scope, budget or schedule are needed. The current PharmaNet functionality will not provide an ability to reimburse cardholders for drugs/products purchased at DIS-Only pharmacies.

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## JEC - Monthly Progress Report

	Approved	MAXIMUS request for Go / No Go decision for deployment of PharmaNet Release 3.0 on June 25/26	Approval received from JEC on June 17, 2014.
	Pending	MAXIMUS request for Go / No Go decision for deployment of PharmaNet Release 3.0 on July 30/31	Approval to be requested from JEC on July 23, 2014.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)
CR2014-005	Approved	Provide PharmaNet application screen code to the Colleges and HLBC	Additional effort required by MAXIMUS and therefore additional budget required.
CR2014-006	Approved	Do not implement any limits on s.17 BGTS when the application is deployed	Additional effort required by MAXIMUS and therefore additional budget required.
CR2014-007	Pending	Resolve performance issue with PharmaNet Release 3.0 application that is impacting the claims transaction SLA	Additional effort required by MAXIMUS and therefore additional budget required.

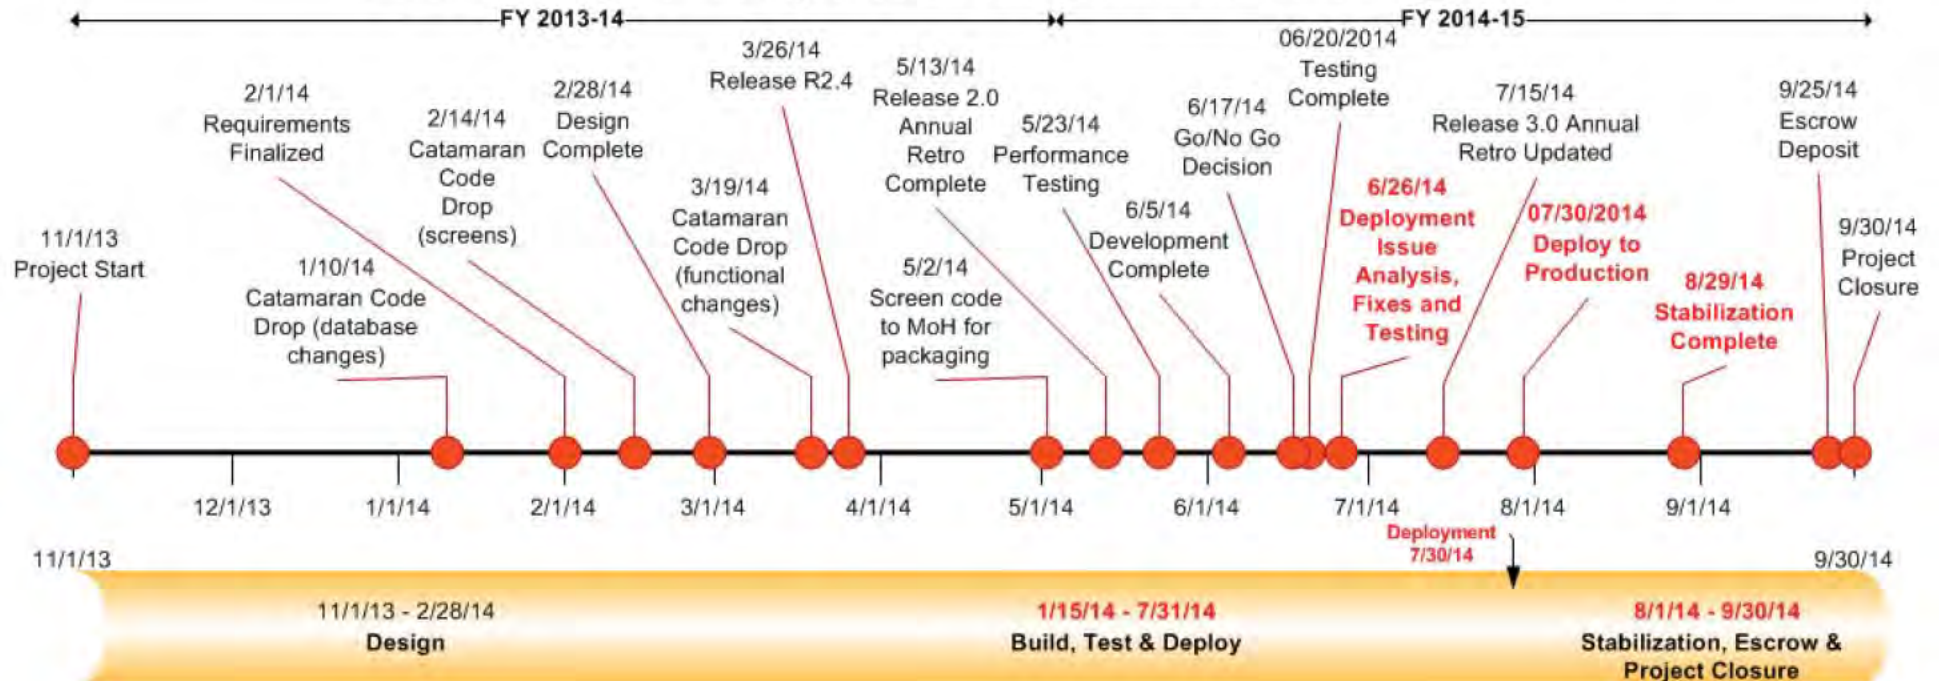

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## 4 Project Footprint

### Release 3 Footprint & Milestone Targets

Revised Date: July 9, 2014

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

### 3 Project Issues/Risks/Decisions/Changes

#### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						

#### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability Percent	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will rigorously test the application prior to deployment	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

			application enhancements				
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Pending	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  MoH to provide decision by January 10 2014
	Pending	Scope of STRA – only changes or full PharmaNet STRA	If full STRA is required, this will impact and scope and budget for the project. Schedule may be impacted as well.  MoH to arrange meeting (done – Jan 7 2014) and provide decision by January 17 2014
	Pending	Finalize requirement for new reports	If no new reports are required, this reduces scope and budget for the project. If new reports are needed, need requirements for the reports in order to finalize functional specifications by end of January 2014.  MoH to arrange meeting (week of Jan 6-10) and provide decision by January 17 2014
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	If Release 4.0 requirements are not started early in January 2014 the project burn rate will be further impacted since the original plan was to start the work in December 2013.  Release 4.0 requirements and estimate will not be included in the Release 3.0 project.

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						

#### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
553643	H	Transaction code delivery is delayed by at least 1 week and this may delay the Go-live date.	Creation of environments and testing cannot proceed (other than minor setup activities) until the transaction code is received. Changes to the transaction code represent the majority of the changes for R3.	MAXIMUS is undertaking all setup activities possible without the transaction code. Catamaran is deploying additional resources and is working extra time to resolve the issues with the transaction code. Other tasks are being moved forward in the schedule.	H	M	Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium term.	H	H	Budget, Schedule

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
------------------------	---	----------------------	--

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	Cancelled	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Submitted	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)

### 4 Detail (dates will be updated for next report)

No.	Deliverable	Estimated Completion	Ministry Walkthrough	Status
1	Project Charter	Oct 18, 2013		Approved
2	High-level Business Requirements	Oct 18, 2013		Approved
3	Training Strategy	Dec 13, 2013	Dec 19, 2013	Approved

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

MAXIMUS

s.21

CO 64

CO 65

#### Financial Adjustments

Removed \$11,440 from CO 65 due to removal of effort for STRA s.21

#### Notes

PNet R3.0 estimates include MAXIMUS and Catamaran effort.  
 The number of MAXIMUS hours per month includes IT and BAT resources which are charged at different rates.  
 Original estimate for February reduced due to delays in requirements decisions.  
 Original estimate for March increased to make up for reduction in February effort.  
 Requirements changes that have increased the estimate and/or scope:  
     Methadone Payment Process change  
         s.17  
     BGTS Patient Category lookup screen  
     Apply DIS only pharmacy check to Tamiflu monthly payments job  
         s.17  
 Requirements changes that have decreased the estimate and/or scope:  
     PharmaNet R4.0 requirements and estimate removed from scope  
     Stakeholder Engagement Strategy and Plan assigned to MoH  
     Provider enrolment operational activities, training and communications removed from scope  
     Risk and Controls review removed from scope  
     No new reports or report updates  
     Stabilization criteria will be loosened to reduce the amount of stabilization support required  
     MAXIMUS effort related to the STRA removed from scope

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						
<b>R</b>	553643	H	Transaction code being developed by Catamaran was supposed to be delivered Feb 28 2014 but is now scheduled for delivery on Mar 19 2014.	MAXIMUS has not been able to proceed with testing of the transaction code as per the project plan.	MAXIMUS has moved ahead on tasks that were scheduled for later in the project. Catamaran has increased the number of resources dedicated to resolving the outstanding software bugs and has also worked additional weekday hours and weekends.	2014-MAR-19

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being	Minimal time has been allowed in the schedule to undertake deliverable	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

		delayed	review/approval cycles. Failure to adhere to the schedule will cause delays				
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not been able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium term.	H	H	Budget, Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Cancelled	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Submitted	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 CO 65 has been updated to reflect this change.

**Comment [PLH2]:** David stated on his Feb 14<sup>th</sup> email that more information will be added ETA: TBD

### 3.4 Key Changes

Hrs

s.21

#### Financial Adjustments:

Removed \$11,440 from CO 65 due to removal of effort for STRA s.21

Apply credit for additional capacity hours (CO 66) to April, May and June s.21

#### Notes:

PNet R3.0 estimates include MAXIMUS and Catamaran effort

The number of MAXIMUS hours per month includes IT and BAT resources which are charged at different rates

Original estimate for February reduced due to delays in requirements decisions

Original estimate for March increased to make up for reduction in February effort

Requirements changes that have **increased** the estimate and/or scope:

Methadone Payment Process change

s.17

BGTS Patient Category lookup screen

Apply DIS only pharmacy check to Tamiflu monthly payments job

s.17

Requirements changes that have **decreased** the estimate and/or scope:

PharmaNet R4.0 requirements and estimate removed from scope

Stakeholder Engagement Strategy and Plan assigned to MoH

Provider enrolment operational activities, training and communications removed from scope

Risk and Controls review removed from scope

No new reports or report updates

Stabilization criteria will be loosened to reduce the amount of stabilization support required

MAXIMUS effort related to the STRA removed from scope

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						
<b>R</b>	553643	H	Transaction code being developed by Catamaran was supposed to be delivered Feb 28 2014 but is now scheduled for delivery on Mar 19 2014.	MAXIMUS has not been able to proceed with testing of the transaction code as per the project plan.	MAXIMUS has moved ahead on tasks that were scheduled for later in the project. Catamaran has increased the number of resources dedicated to resolving the outstanding software bugs and has also worked additional weekday hours and weekends. Code delivered by Catamaran on March 19 2014 and is now being tested.	2014-MAR-19

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

# Bi-weekly Project Progress Report

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is temporary and vital stats will likely be asking us to make additional changes for a long	H	H	Budget, Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

				term solution, but we are not able to spend any more time on this issue in the near to medium term.			
553654	M	Testing of the screens has been delayed from the original plan and delivery of packaged code to MoH 8 weeks prior to go-live is going to be difficult to achieve	Shared Services has requested an 8 week lead time for packaging. If the screen code package cannot be delivered by the end of April the 8 week lead time will not be met and Shared Services may not be able to package the code in time for Go-live.	MAXIMUS is focusing effort on testing of the screen code in April but there is a dependency on MoH participants in the BAT. Coordination of participants has begun and MoH needs to ensure that participants are available. MoH could request that Shared Services package the screen code with less than 8 weeks notice.	M	M	Schedule

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Cancelled	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Submitted	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 CO 65 has been updated to reflect this change.
--	----------	--	---

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)

## 2.2b JEC Monthly Actual and Estimate Tracking (updated monthly)

### PharmaNet Release 3.0 Project Actuals and Estimates

Updated: April 9, 2014

	Actual	Actual	Actual	Actual	Actual	Actual	Actual	Fiscal Total	Estimate	Estimate	Estimate	Estimate	Estimate	Estimate	Fiscal Total	Project
\$s	Apr-Oct 2013 (PNet R3)	Jun-Aug 2013 (ODR to CAS)	Nov	Dec	Jan	Feb	March	FY13/14	April	May	June	July	Aug	Sept	FY14/15	Total
PNet R3.0	\$113,000	\$45,740	\$222,698	\$128,478	\$291,059	\$332,367	\$525,347	\$1,658,689	\$517,915	\$385,030	\$321,748	\$175,482	\$18,054	\$25,420	\$1,443,649	\$3,102,338
PNet R4.0	\$0	\$0	\$429	\$0	\$0	\$0	\$0	\$429	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$429
CO 66 Credit	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$34,845	\$34,845	\$34,845	\$0	\$0	\$0	\$104,536	\$104,536
<b>Total</b>	<b>\$113,000</b>	<b>\$45,740</b>	<b>\$223,127</b>	<b>\$128,478</b>	<b>\$291,059</b>	<b>\$332,367</b>	<b>\$525,347</b>	<b>\$1,659,118</b>	<b>\$483,070</b>	<b>\$350,185</b>	<b>\$286,903</b>	<b>\$175,482</b>	<b>\$18,054</b>	<b>\$25,420</b>	<b>\$1,339,113</b>	<b>\$2,998,231</b>

Hrs

MAXIMUS

s.21

CO 64

CO 65

CO 66

#### Financial Adjustments:

Removed \$11,440 from CO 65 due to removal of effort for STRA s.21

Apply credit for additional capacity hours (CO 66) to April, May and June

s.21

Add \$45,740 for June to Aug 2013 (ODR to CAS reconciliation)

CO 64 value is \$535,591 of which \$25,246 was not spent by Dec 31 2013 so that amount was applied against the Jan 2014 invoice

CO 65 value is \$2,567,176. It is split by fiscal: FY2013/14 = \$1,123,527 and FY2014/15 = \$1,443,649

Total amount available for FY13/14 = \$1,659,118

#### Notes:

PNet R3.0 estimates include MAXIMUS and Catamaran effort

The number of MAXIMUS hours per month includes IT and BAT resources which are charged at different rates

Original estimate for February reduced due to delays in requirements decisions

Original estimate for March increased to make up for reduction in February effort

Requirements changes that have **increased** the estimate and/or scope:

Methadone Payment Process change

s.17

BGTS Patient Category lookup screen

Apply DIS only pharmacy check to Tamiflu monthly payments job

s.17

Requirements changes that have **decreased** the estimate and/or scope:

PharmaNet R4.0 requirements and estimate removed from scope

Stakeholder Engagement Strategy and Plan assigned to MoH

Provider enrolment operational activities, training and communications removed from scope

Risk and Controls review removed from scope

No new reports or report updates

Stabilization criteria will be loosened to reduce the amount of stabilization support required

MAXIMUS effort related to the STRA removed from scope

<b>Green</b> =	No concerns on schedule and within budget	<b>Yellow</b> =	Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> =	Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						
<b>R</b>	553643	H	Transaction code being developed by Catamaran was supposed to be delivered Feb 28 2014 but is now scheduled for delivery on Mar 19 2014.	MAXIMUS has not been able to proceed with testing of the transaction code as per the project plan.	MAXIMUS has moved ahead on tasks that were scheduled for later in the project. Catamaran has increased the number of resources dedicated to resolving the outstanding software bugs and has also worked additional weekday hours and weekends. Code delivered by Catamaran on March 19 2014 and is now being tested.	2014-MAR-19

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is	H	H	Budget, Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

				temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium term.			
553654	M	Testing of the screens has been delayed from the original plan and delivery of packaged code to MoH 8 weeks prior to go-live is going to be difficult to achieve	Shared Services has requested an 8 week lead time for packaging. If the screen code package cannot be delivered by the end of April the 8 week lead time will not be met and Shared Services may not be able to package the code in time for Go-live.	MAXIMUS is focusing effort on testing of the screen code in April but there is a dependency on MoH participants in the BAT. Coordination of participants has begun and MoH needs to ensure that participants are available. MoH could request that Shared Services package the screen code with less than 8 weeks notice.	M	M	Schedule

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Cancelled	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

DR2014-001	Pending	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 CO 65 has been updated to reflect this change.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)

## 4 Detail

No.	Deliverable / Work Product / Milestone	Original Completion Date	Revised Completion Date	Ministry Walkthrough Date	Status
1.	Project Charter	Oct 18, 2013			Approved
2.	High-level Business Requirements	Oct 18, 2013			Approved
3.	Training Strategy	Dec 13, 2013		Dec 19, 2013	Approved
4.	Updated Project Charter	Mar 14, 2014	Apr 9, 2014	N/A	Approved
5.	Functional Requirements	Dec 17, 2013	Feb 14, 2014	Jan 20, 2014	Approved
6.	Non-functional Requirements	Dec 17, 2013	Feb 14, 2014	Mar 25, 2014	Approved
7.	Security and Threat Risk Assessment	Mar 14, 2014	Mar 25, 2014	N/A	No further MAXIMUS involvement required
8.	Business Continuity Assessment and Plan	Feb 14, 2014	Mar 28, 2014	Mar 24, 2014	Approved
9.	Privacy Impact Assessment	Feb 14, 2014	Mar 28, 2014	Apr 4, 2014	With MAXIMUS for response to MoH feedback

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## Bi-weekly Project Progress Report

### 1 Project Information

Program - Project (ITG) # and Name:	PharmaNet Release 3.0	Reporting Period	From YYYY-Mon-DD	To YYYY-Mon-DD
			2014-Apr-16	2014-Apr-30
Project Plan Version:	PharmaNet Release 3.0	PLC/Project Phase	Development Phase	
Project Sponsor(s):	Joel Levinson	Phase Completion	Development – June 25, 2014	
Project Manager:	David Carleton	Next PLC Decision Date/Checkpoint:	Screen code to MoH – May 1, 2014	
Project Purpose:	The PharmaNet Release 3.0 Project will plan, define requirements, design, develop and implement the following business requirements in the PharmaNet application: <ul style="list-style-type: none"><li>• s.17</li><li>• Blood Glucose Test Strips Limit</li><li>• s.17</li><li>• Service Provider enrolment - support for new regulations</li><li>• Publicly funded vaccine administration - new adjudication rules for Service Claims (To be deployed March 26)</li><li>• Methadone payment process change</li><li>• s.17</li><li>• DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments</li></ul>			

	Comments	Status		
		G	Y	R
<b>Scope</b>	<p>The following activities will be undertaken within the scope of this project:</p> <ul style="list-style-type: none"> <li>• Planning and Project Management</li> <li>• Detailed Analysis and Design</li> <li>• Build</li> <li>• Test case development and execution</li> <li>• Training</li> <li>• Deployment</li> <li>• Stabilization, Escrow and Project Closure.</li> </ul> <p>The following activities and functionality are out of scope:</p> <ul style="list-style-type: none"> <li>• PharmaNet Conformance Specifications updates</li> <li>• Communications with SSOs regarding system changes</li> <li>• s.17</li> <li>• Federally Insured Patients</li> <li>• Deloitte Audit Recommendations ( s.17 and those pertaining to blood glucose testing strips)</li> </ul>	G		

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	<ul style="list-style-type: none"> <li>Service Provider Enrolment Program roll-out</li> </ul> <p><b>The following activities and functionality have been removed/modified from the original scope:</b></p> <ul style="list-style-type: none"> <li>PharmaNet R4.0 requirements and estimate</li> <li>Stakeholder Engagement Strategy and Plan</li> <li>Provider enrolment operational activities, execution of training and communications are not included in the budget for R3 but will occur in parallel and involve many of the same resources as R3</li> <li>Risk and Controls review</li> <li>No new reports or report updates</li> <li>Stabilization criteria will be loosened to reduce the amount of stabilization support required</li> </ul> <p><b>The following activities and functionality have been added to the original scope:</b></p> <ul style="list-style-type: none"> <li>Methadone Payment Process change</li> <li>s.17</li> <li>BGTS Patient Category lookup screen</li> <li>Apply DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments jobs</li> <li>s.17</li> </ul> <p>Scope Concerns</p> <ul style="list-style-type: none"> <li>none</li> </ul>	
<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month, the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the Industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>
<b>Schedule</b>	<p>Planning (Design) Activities:</p> <ul style="list-style-type: none"> <li>PIA – MAXIMUS has responded to MoH feedback, waiting for MoH approval to proceed with gathering signatures</li> <li>Impact Assessment – complete, MAXIMUS signatures gathered (internal work product)</li> <li>Functional Specifications – completed</li> <li>Technical Specifications – in progress</li> <li>Test Strategy/Plan – in progress</li> <li>Training Plan – approved by MoH, signatures being gathered</li> <li>Business Configuration settings – MoH to review and approve</li> <li>Screen code – functional testing complete, creation of CD in progress (target April 30), BAT scheduled for May 5/6</li> <li>Transaction code - Functional testing in progress</li> <li>DRP – feedback from MoH on document received, MAXIMUS updating the doc so it can be sent to MoH for approval</li> </ul> <p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). This has impacted the MAXIMUS</li> </ul>	<b>Y</b>

**Comment [PLH1]:** Kimberly, is the doc provided by Apr 23 ok? Or does MBPSD need another walkthrough? This needs to be final by before May 5 (same comment was provided below)

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	<p>team's ability to move ahead with deployments to environments and testing. This may have an impact on the Go-live date. MAXIMUS monitored the situation very closely and requested that Catamaran work extra hours (nights and weekends) to resolve the issues as quickly as possible (which they did). The MAXIMUS team worked on tasks that were scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</p> <ul style="list-style-type: none"> <li>Screen code BAT will not be completed by the end of April and this is required to give SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code will be delivered by May 6. MoH will coordinate participation in BAT for May 5/6 - successful BAT will allow package to be shipped to Shared Services May 7. MoH will conduct connectivity testing while BAT in progress.</li> <li>Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight).</li> <li>Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (June 26) will be required for the data warehouse refresh. This means that the data warehouse will have stale data until the Friday morning (June 27).</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MOH.</li> <li>The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. The remainder will be carried over to April 2014.</li> </ul>	<b>G</b>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-MM-DD
<b>G</b> <b>Y</b> <b>R</b>						
<b>R</b>	553643	H	Transaction code being developed by Catamaran was supposed to be delivered Feb 28 2014 but is now scheduled for delivery on Mar 19 2014.	MAXIMUS has not been able to proceed with testing of the transaction code as per the project plan.	MAXIMUS has moved ahead on tasks that were scheduled for later in the project. Catamaran has increased the number of resources dedicated to resolving the outstanding software bugs and has also worked additional weekday hours and weekends. Code delivered by Catamaran on March 19 2014 and is now being tested.	2014-MAR-19

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is	H	H	Budget, Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

				temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium term.			
553654	M	Testing of the screens has been delayed from the original plan and delivery of packaged code to MoH 8 weeks prior to go-live is going to be difficult to achieve	Shared Services has requested an 8 week lead time for packaging. If the screen code package cannot be delivered by the end of April the 8 week lead time will not be met and Shared Services may not be able to package the code in time for Go-live.	MAXIMUS is focusing effort on testing of the screen code in April but there is a dependency on MoH participants in the BAT. Coordination of participants has begun and MoH needs to ensure that participants are available. MoH could request that Shared Services package the screen code with less than 8 weeks notice.	M	M	Schedule
553658	M	MoH is having a Risk and Controls review of PharmaNet Release 3.0 and in order for the project to be approved for Go-live, the MoH executive must approve the Risk and Controls report, and the report must be accepted by the Comptroller General's office. The report is due around June 12 2014 and the Go-live decision is currently planned for June 13. Approval for deployment in the June 25 change window should occur at the June 18 Change Management meeting. These dates are very tight so any slippage could jeopardize the Go-live date.	MoH does not want the Go-live date to move because of cost savings that will be lost due to delay. MAXIMUS does not want to move the Go-live date to move because of proximity to the testing/deployments for the Medigent (RAPID) project and competition for the same infrastructure resources.	The Go-live decision presentation date could be moved to a few days later if the Risk and Controls report has not been approved by the MoH executive by June 13. MAXIMUS will know if there are any issues with going live June 25 earlier than June 13 so the presentation is a formality. MoH will work with Deloitte to get the Risk and Controls review done as quickly as possible. MAXIMUS will respond to any requests from Deloitte in a timely fashion.	H	M	Schedule
553668	H	PNet R3 is currently designed/developed to adjudicate all claims from DIS only pharmacies to zero (i.e., the client will not be	If the decision is not made in a timely fashion (1 week) then it will not be possible to implement the change without impacting the project	MoH to provide a decision as to whether or not the recommendation (i.e., modify transaction code to allow adjudication of DIS only claims	H	H	Scope Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## Bi-weekly Project Progress Report

		reimbursed for any legitimate purchases from DIS only pharmacies). The new requirement is for the off-line process to adjudicate the claim as per the usual rules and pay the appropriate amount to the client.	schedule. A different decision will then be required - delay the project to incorporate the new requirement or proceed as is and implement the new requirement after PNet R3 Go-live. Therefore the impact is either a project delay or an implementation where clients are not reimbursed for purchases from DIS only pharmacies	submitted by clients) should be implemented within 1 week (by April 30 2014).  MoH decision is to not make any changes to R3 but to pursue options for addressing adjudication of client claims for DIS only pharmacy dispenses through operational avenues.			
--	--	---	---	--	--	--	--

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Cancelled	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Pending	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 change. CO 65 has been updated to reflect this
	Approved	No changes to PharmaNet functionality to reject all claims from DIS-Only pharmacies (including offline cardholder claims) are required as part of Release 3.	No changes to project scope, budget or schedule are needed. The current PharmaNet functionality will not provide an ability to reimburse cardholders for drugs/products purchased at DIS-Only pharmacies.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)

## 4 Detail

## Bi-weekly Project Progress Report

	<ul style="list-style-type: none"> <li>Service Provider Enrolment Program roll-out</li> </ul> <p><b>The following activities and functionality have been removed/modified from the original scope:</b></p> <ul style="list-style-type: none"> <li>PharmaNet R4.0 requirements and estimate</li> <li>Stakeholder Engagement Strategy and Plan</li> <li>Provider enrolment operational activities, execution of training and communications are not included in the budget for R3 but will occur in parallel and involve many of the same resources as R3</li> <li>Risk and Controls review</li> <li>No new reports or report updates</li> <li>Stabilization criteria will be loosened to reduce the amount of stabilization support required</li> </ul> <p><b>The following activities and functionality have been added to the original scope:</b></p> <ul style="list-style-type: none"> <li>Methadone Payment Process change</li> <li>s.17</li> <li>BGTS Patient Category lookup screen</li> <li>Apply DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments jobs</li> <li>s.17</li> </ul> <p>Scope Concerns</p> <ul style="list-style-type: none"> <li>none</li> </ul>	
<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month, the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the Industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>
<b>Schedule</b>	<p>Development Activities:</p> <ul style="list-style-type: none"> <li>PIA – with MoH for signature</li> <li>Technical Specifications – in progress</li> <li>Test Strategy/Plan – signed-off (internal MAXIMUS work product)</li> <li>Training Plan – signed-off (complete)</li> <li>Business Configuration settings – MoH to review and approve</li> <li>Screen code – revised version delivered to MoH May 2; BAT conducted at MAXIMUS on May 5/6 – complete; connectivity testing in progress</li> <li>Transaction code - BAT in progress</li> <li>DRP – with MoH for signature</li> <li>Batch development – in progress</li> </ul> <p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). This has impacted the MAXIMUS</li> </ul>	<b>Y</b>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	<p>team's ability to move ahead with deployments to environments and testing. This may have an impact on the Go-live date. MAXIMUS monitored the situation very closely and requested that Catamaran work extra hours (nights and weekends) to resolve the issues as quickly as possible (which they did). The MAXIMUS team worked on tasks that were scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</p> <ul style="list-style-type: none"> <li>Screen code BAT was not completed by the end of April and this is required to give MoH System Services and SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code was delivered on May 2.</li> <li>MoH MBPSD coordinated participation in screen code BAT for May 5/6 - successful BAT. MoH System Services will use the revised May 2 screen code to conduct the connectivity testing, pre-packaging activities and submit iStore Project request to SSBC.</li> <li>Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight).</li> <li>Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (June 26) will be required for the data warehouse refresh. This means that the data warehouse will have stale data until the Friday morning (June 27).</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MOH.</li> <li>The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. The remainder will be carried over to April 2014.</li> <li>CR and estimate for provision of screen code and deployment support for the Colleges and HLBC is on hold.</li> </ul>	<b>G</b>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

Total	\$158,740	\$223,127	\$128,478	\$291,059	\$332,367	\$525,347	\$1,659,118	\$401,530	\$425,504	\$292,112	\$175,482	\$18,054	\$26,431	\$1,339,113	\$2,998,230
Hrs															
MAXIMUS	s.21														
CO 64															
CO 65															
CO 66															
Financial Adjustments:															
Removed \$11,440 from CO 65 due to removal of effort for STRA							s.21								
Apply credit for additional capacity hrs (CO 66) to April, May and June								s.21							
Add \$45,740 for June to Aug 2013 (ODR to CAS reconciliation)															
CO 64 value is \$535,591 of which \$25,246 was not spent by Dec 31 2013 so that amount was applied against the Jan 2014 invoice															
CO 65 value is \$2,567,176. It is split by fiscal: FY2013/14 = \$1,123,527 and FY2014/15 = \$1,443,649															
Total amount available for FY13/14 = \$1,659,118															
Apr-Oct 2013 column includes \$45,740 for the ODR to CAS Reconciliation report effort (SR 553416)															
Notes:															
PNNet R3.0 estimates include MAXIMUS and Catamaran effort															
The number of MAXIMUS hours per month includes IT and BAT resources which are charged at different rates															
Original estimate for February reduced due to delays in requirements decisions															
Original estimate for March increased to make up for reduction in February effort															
Requirements changes that have increased the estimate and/or scope:															
Methadone Payment Process change															
New Service Claims cap															
BGTS Patient Category lookup screen															
Apply DIS only pharmacy check to Tamiflu monthly payments job															
Creation of a "production-like" test environment for performance testing of new limits requirements															
Requirements changes that have decreased the estimate and/or scope:															
PharmaNet R4.0 requirements and estimate removed from scope															
Stakeholder Engagement Strategy and Plan assigned to MoH															
Provider enrolment operational activities, training and communications removed from scope															
Risk and Controls review removed from scope															
No new reports or report updates															
Stabilization criteria will be loosened to reduce the amount of stabilization support required															
MAXIMUS effort related to the STRA removed from scope															

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

<b>G</b> <b>Y</b> <b>R</b>						
					and is now being tested.	
<b>R</b>	553680	H	<p>Shared Services BC (SSBC) has recently implemented a change freeze for all infrastructure services, which also includes services delivered by all vendor partners, including HP Advanced Solutions, IBM, and TELUS.</p> <p>In the meantime, all change requests are being reviewed by Office of the Chief Information Officer (OCIO) executive to determine if there are any significant risks.</p> <p>For clients who have pending iStore orders or Requests for Change (RFC) scheduled, please be advised that these requests will be reviewed and assessed as per the process outlined above and may be rescheduled. Should clients require an emergency change during the freeze, they are reminded of the Request for Special Processing procedure.</p>	<p>May have an impact on the scheduled Go-Live date for R3:</p> <ul style="list-style-type: none"> <li>if MAXIMUS is unable to engage SSBC/HPAS when required;</li> <li>If the MoH iStore request for screen code packaging is delayed;</li> <li>If HPAS is not available to roll-out the packaged screen code on the Go-Live date.</li> </ul>	<p>The following steps could be taken to address this issue:</p> <ul style="list-style-type: none"> <li>Follow the SSBC "Request for Special Processing" procedure;</li> <li>Escalate quickly if this issue is raised</li> </ul>	

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results)

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium term.	H	H	Budget, Schedule
553654	M	Testing of the screens has been delayed from the original plan and delivery of packaged code to MoH 8 weeks prior to go-live is	Shared Services has requested an 8 week lead time for packaging. If the screen code package cannot be delivered by the end of	MAXIMUS is focusing effort on testing of the screen code in April but there is a dependency on MoH participants in the BAT. Coordination of participants has	M	M	Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

# Bi-weekly Project Progress Report

		going to be difficult to achieve	April the 8 week lead time will not be met and Shared Services may not be able to package the code in time for Go-live.	begun and MoH needs to ensure that participants are available. MoH could request that Shared Services package the screen code with less than 8 weeks notice.			
553658	M	MoH is having a Risk and Controls review of PharmaNet Release 3.0 and in order for the project to be approved for Go-live, the MoH executive must approve the Risk and Controls report, and the report must be accepted by the Comptroller General's office. The report is due around June 12 2014 and the Go-live decision is currently planned for June 13. Approval for deployment in the June 25 change window should occur at the June 18 Change Management meeting. These dates are very tight so any slippage could jeopardize the Go-live date.	MoH does not want the Go-live date to move because of cost savings that will be lost due to delay. MAXIMUS does not want to move the Go-live date to move because of proximity to the testing/deployments for the Medigent (RAPID) project and competition for the same infrastructure resources.	The Go-live decision presentation date could be moved to a few days later if the Risk and Controls report has not been approved by the MoH executive by June 13. MAXIMUS will know if there are any issues with going live June 25 earlier than June 13 so the presentation is a formality. MoH will work with Deloitte to get the Risk and Controls review done as quickly as possible. MAXIMUS will respond to any requests from Deloitte in a timely fashion.	H	M	Schedule
553668	H	PNet R3 is currently designed/developed to adjudicate all claims from DIS only pharmacies to zero (i.e., the client will not be reimbursed for any legitimate purchases from DIS only pharmacies). The new requirement is for the off-line process to adjudicate the claim as per the usual rules and pay the appropriate amount to the client.	If the decision is not made in a timely fashion (1 week) then it will not be possible to implement the change without impacting the project schedule. A different decision will then be required - delay the project to incorporate the new requirement or proceed as is and implement the new requirement after PNet R3 Go-live. Therefore the impact is either a project delay or an implementation where clients are not reimbursed for purchases	MoH to provide a decision as to whether or not the recommendation (i.e., modify transaction code to allow adjudication of DIS only claims submitted by clients) should be implemented within 1 week (by April 30 2014).  MoH decision is to not make any changes to R3 but to pursue options for addressing adjudication of client claims for DIS only pharmacy dispenses through operational avenues.	H	H	Scope Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Cancelled	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Pending	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 s.21 . CO 65 has been updated to reflect this change.
	Approved	No changes to PharmaNet functionality to reject all claims from DIS-Only pharmacies (including offline cardholder claims) are required as part of Release 3.	No changes to project scope, budget or schedule are needed. The current PharmaNet functionality will not provide an ability to reimburse cardholders for drugs/products purchased at DIS-Only pharmacies.

### 3.4 Key Changes

## Bi-weekly Project Progress Report

	<ul style="list-style-type: none"> <li>Service Provider Enrolment Program roll-out</li> </ul> <p><b>The following activities and functionality have been removed/modified from the original scope:</b></p> <ul style="list-style-type: none"> <li>PharmaNet R4.0 requirements and estimate</li> <li>Stakeholder Engagement Strategy and Plan</li> <li>Provider enrolment operational activities, execution of training and communications are not included in the budget for R3 but will occur in parallel and involve many of the same resources as R3</li> <li>Risk and Controls review</li> <li>No new reports or report updates</li> <li>Stabilization criteria will be loosened to reduce the amount of stabilization support required</li> </ul> <p><b>The following activities and functionality have been added to the original scope:</b></p> <ul style="list-style-type: none"> <li>Methadone Payment Process change</li> <li>s.17</li> <li>BGTS Patient Category lookup screen</li> <li>Apply DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments jobs</li> <li>s.17</li> </ul> <p>Scope Concerns</p> <ul style="list-style-type: none"> <li>none</li> </ul>	
<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month, the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the Industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>
<b>Schedule</b>	<p>Development Activities:</p> <ul style="list-style-type: none"> <li>PIA – waiting for MoH sign-off</li> <li>Technical Specifications – in progress, nearing completion</li> <li>Business Configuration settings – complete</li> <li>Screen code – iStore ticket for packaging and deployment by SSBC created and sent</li> <li>Transaction code - BAT complete</li> <li>DRP – signed off (complete)</li> <li>Batch development – in progress, nearing completion (target is early June)</li> </ul> <p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). This has impacted the MAXIMUS team's ability to move ahead with deployments to environments and testing. This may have an impact on the Go-live date. MAXIMUS monitored the situation very closely and requested that Catamaran work extra hours (nights and weekends) to resolve the issues as quickly as possible (which they did). The MAXIMUS team worked on tasks that were</li> </ul>	<b>Y</b>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

	<p>scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</p> <ul style="list-style-type: none"> <li>Screen code BAT was not completed by the end of April and this is required to give MoH System Services and SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code was delivered on May 2.</li> <li>MoH MBPSD coordinated participation in screen code BAT for May 5/6 - successful BAT. MoH System Services will use the revised May 2 screen code to conduct the connectivity testing, pre-packaging activities and submit iStore Project request to SSBC.</li> <li>Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight).</li> <li>Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (June 26) will be required for the data warehouse refresh. This means that the data warehouse will have stale data until the Friday morning (June 27).</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MOH.</li> <li>The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. The remainder will be carried over to April 2014.</li> <li>CR and estimate for provision of screen code and deployment support for the Colleges and HLBC are being reviewed by MAXIMUS and will be submitted to MoH (end of May/early June).</li> </ul>	<b>G</b>

## 2.2b JEC Monthly Actual and Estimate Tracking (updated monthly)

### PharmaNet Release 3.0 Project Actuals and Estimates

Updated: May 26, 2014

	Actual	Actual	Actual	Actual	Actual	Actual	Fiscal Total	Actual	Estimate	Estimate	Estimate	Estimate	Estimate	Fiscal Total	Project
	Apr-Oct 2013	Nov 2013	Dec 2013	Jan 2014	Feb 2014	March 2014	FY13/14	April 2014	May 2014	June 2014	July 2014	Aug 2014	Sept 2014	FY14/15	Total
<b>\$s</b>															
PNet R3.0	\$158,740	\$222,698	\$128,478	\$291,059	\$332,367	\$525,347	\$1,658,889	\$436,317	\$460,349	\$326,957	\$175,482	\$18,054	\$26,431	\$1,443,590	\$3,102,279
PNet R4.0	\$0	\$429	\$0	\$0	\$0	\$0	\$429	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$429
CO 66 Credit	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$34,845	\$34,845	\$34,845	\$0	\$0	\$0	\$104,536	\$104,536
<b>Total</b>	<b>\$158,740</b>	<b>\$223,127</b>	<b>\$128,478</b>	<b>\$291,059</b>	<b>\$332,367</b>	<b>\$525,347</b>	<b>\$1,659,118</b>	<b>\$401,530</b>	<b>\$425,504</b>	<b>\$292,112</b>	<b>\$175,482</b>	<b>\$18,054</b>	<b>\$26,431</b>	<b>\$1,339,113</b>	<b>\$2,998,230</b>

**Hrs**

**MAXIMUS**

s.21

CO 64

CO 65

CO 66

#### Financial Adjustments:

Removed \$11,440 from CO 65 due to removal of effort for STRA s.21  
 Apply credit for additional capacity hrs (CO 66) to April, May and June s.21  
 Add \$45,740 for June to Aug 2013 (ODR to CAS reconciliation)  
 CO 64 value is \$535,591 of which \$25,246 was not spent by Dec 31 2013 so that amount was applied against the Jan 2014 invoice  
 CO 65 value is \$2,567,176. It is split by fiscal: FY2013/14 = \$1,123,527 and FY2014/15 = \$1,443,649  
 Total amount available for FY13/14 = \$1,659,118  
 Apr-Oct 2013 column includes \$45,740 for the ODR to CAS Reconciliation report effort (SR 553416)

#### Notes:

PNet R3.0 estimates include MAXIMUS and Catamaran effort  
 The number of MAXIMUS hours per month includes IT and BAT resources which are charged at different rates  
 Original estimate for February reduced due to delays in requirements decisions  
 Original estimate for March increased to make up for reduction in February effort  
 Requirements changes that have **increased** the estimate and/or scope:  
     Methadone Payment Process change  
     New Service Claims cap  
     BGTS Patient Category lookup screen  
     Apply DIS only pharmacy check to Tamiflu monthly payments job  
     Creation of a "production-like" test environment for performance testing of new limits requirements  
 Requirements changes that have **decreased** the estimate and/or scope:  
     PharmaNet R4.0 requirements and estimate removed from scope  
     Stakeholder Engagement Strategy and Plan assigned to MoH  
     Provider enrolment operational activities, training and communications removed from scope  
     Risk and Controls review removed from scope  
     No new reports or report updates  
     Stabilization criteria will be loosened to reduce the amount of stabilization support required  
     MAXIMUS effort related to the STRA removed from scope

<b>Green</b> =	No concerns on schedule and within budget	<b>Yellow</b> =	Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> =	Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## 3 Project Issues/Risks/Decisions/Changes

### 3.1 Key Open Project Issues (Reported out of ITG Search Results)

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						
Y	553643	H	Transaction code being developed by Catamaran was supposed to be delivered Feb 28 2014 but is now scheduled for delivery on Mar 19 2014.	MAXIMUS has not been able to proceed with testing of the transaction code as per the project plan.	MAXIMUS has moved ahead on tasks that were scheduled for later in the project. Catamaran has increased the number of resources dedicated to resolving the outstanding software bugs and has also worked additional weekday hours and weekends. Code delivered by Catamaran on March 19 2014 and is now being tested.	2014-MAR-19

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						
Y	553680	H	<p>Shared Services BC (SSBC) has recently implemented a change freeze for all infrastructure services, which also includes services delivered by all vendor partners, including HP Advanced Solutions, IBM, and TELUS.</p> <p>In the meantime, all change requests are being reviewed by Office of the Chief Information Officer (OCIO) executive to determine if there are any significant risks.</p> <p>For clients who have pending iStore orders or Requests for Change (RFC) scheduled, please be advised that these requests will be reviewed and assessed as per the process outlined above and may be rescheduled. Should clients require an emergency change during the freeze, they are reminded of the Request for Special Processing procedure.</p>	<p>May have an impact on the scheduled Go-Live date for R3:</p> <ul style="list-style-type: none"> <li>if MAXIMUS is unable to engage SSBC/HPAS when required;</li> <li>If the MoH iStore request for screen code packaging is delayed;</li> <li>If HPAS is not available to roll-out the packaged screen code on the Go-Live date.</li> </ul>	<p>The following steps could be taken to address this issue:</p> <ul style="list-style-type: none"> <li>Follow the SSBC "Request for Special Processing" procedure;</li> <li>Escalate quickly if this issue is raised</li> </ul> <p>Note: Recent experience with SSBC/HPAS has been at regular service levels (i.e., no impact due to the freeze)</p>	

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results) – risks being actively monitored are highlighted in yellow

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as	L	M	Budget

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

		problems may be uncovered after the stabilization period has expired		possible to Production			
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule
553616	M	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables may impact application performance and jeopardize SLAs	MAXIMUS will undertake performance testing as early as possible in the project to determine if the planned changes will impact the performance of the application.	H	M	Scope Budget Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium term.	H	H	Budget, Schedule
553654	M	Testing of the screens has been delayed from the original plan and delivery of packaged code to MoH 8 weeks prior to go-live is going to be difficult to achieve	Shared Services has requested an 8 week lead time for packaging. If the screen code package cannot be delivered by the end of April the 8 week lead time will not be met and Shared Services may not be able to	MAXIMUS is focusing effort on testing of the screen code in April but there is a dependency on MoH participants in the BAT. Coordination of participants has begun and MoH needs to ensure that participants are available. MoH could request that Shared	M	M	Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

# Bi-weekly Project Progress Report

			package the code in time for Go-live.	Services package the screen code with less than 8 weeks notice.			
553658	M	MoH is having a Risk and Controls review of PharmaNet Release 3.0 and in order for the project to be approved for Go-live, the MoH executive must approve the Risk and Controls report, and the report must be accepted by the Comptroller General's office. The report is due around June 12 2014 and the Go-live decision is currently planned for June 13. Approval for deployment in the June 25 change window should occur at the June 18 Change Management meeting. These dates are very tight so any slippage could jeopardize the Go-live date.	MoH does not want the Go-live date to move because of cost savings that will be lost due to delay. MAXIMUS does not want to move the Go-live date to move because of proximity to the testing/deployments for the Medigent (RAPID) project and competition for the same infrastructure resources.	The Go-live decision presentation date could be moved to a few days later if the Risk and Controls report has not been approved by the MoH executive by June 13. MAXIMUS will know if there are any issues with going live June 25 earlier than June 13 so the presentation is a formality. MoH will work with Deloitte to get the Risk and Controls review done as quickly as possible. MAXIMUS will respond to any requests from Deloitte in a timely fashion.	H	M	Schedule
553668	H	PNet R3 is currently designed/developed to adjudicate all claims from DIS only pharmacies to zero (i.e., the client will not be reimbursed for any legitimate purchases from DIS only pharmacies). The new requirement is for the off-line process to adjudicate the claim as per the usual rules and pay the appropriate amount to the client.	If the decision is not made in a timely fashion (1 week) then it will not be possible to implement the change without impacting the project schedule. A different decision will then be required - delay the project to incorporate the new requirement or proceed as is and implement the new requirement after PNet R3 Go-live. Therefore the impact is either a project delay or an implementation where clients are not reimbursed for purchases from DIS only pharmacies	MoH to provide a decision as to whether or not the recommendation (i.e., modify transaction code to allow adjudication of DIS only claims submitted by clients) should be implemented within 1 week (by April 30 2014).  MoH decision is to not make any changes to R3 but to pursue options for addressing adjudication of client claims for DIS only pharmacy dispenses through operational avenues.	H	H	Scope Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Cancelled	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Pending	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 s.21 . CO 65 has been updated to reflect this change.
	Approved	No changes to PharmaNet functionality to reject all claims from DIS-Only pharmacies (including offline cardholder claims) are required as part of Release 3.	No changes to project scope, budget or schedule are needed. The current PharmaNet functionality will not provide an ability to reimburse cardholders for drugs/products purchased at DIS-Only pharmacies.

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled))	Change Description	Implications (Project, Business, Contract, etc.)

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

### 4 Detail

No.	Deliverable / Work Product / Milestone	Original Completion Date	Revised Completion Date	Ministry Walkthrough Date	Status
1.	Project Charter	Oct 18, 2013			Approved
2.	High-level Business Requirements	Oct 18, 2013			Approved
3.	Training Strategy	Dec 13, 2013		Dec 19, 2013	Approved
4.	Updated Project Charter	Mar 14, 2014	Apr 9, 2014	N/A	Approved
5.	Functional Requirements	Dec 17, 2013	Feb 14, 2014	Jan 20, 2014	Approved
6.	Non-functional Requirements	Dec 17, 2013	Feb 14, 2014	Mar 25, 2014	Approved
7.	Security and Threat Risk Assessment (STRA)	Mar 14, 2014	Mar 25, 2014	N/A	No further MAXIMUS involvement required
8.	Business Continuity Assessment and Plan (BCP)	Feb 14, 2014	Mar 28, 2014	Mar 24, 2014	Approved
9.	Impact Assessment (internal work product)	Jan 2014	Apr 2, 2014	NA	Approved
10.	Functional Specifications	Jan 31, 2014	Apr 30, 2014	N/A	Completed
11.	Deliver PNP package (screens) to MoH (8 weeks prior to Deployment)	Apr 30, 2014	May 2, 2014	N/A	Complete

## Bi-weekly Project Progress Report

	<ul style="list-style-type: none"> <li>Service Provider Enrolment Program roll-out</li> </ul> <p><b>The following activities and functionality have been removed/modified from the original scope:</b></p> <ul style="list-style-type: none"> <li>PharmaNet R4.0 requirements and estimate</li> <li>Stakeholder Engagement Strategy and Plan</li> <li>Provider enrolment operational activities, execution of training and communications are not included in the budget for R3 but will occur in parallel and involve many of the same resources as R3</li> <li>Risk and Controls review</li> <li>No new reports or report updates</li> <li>Stabilization criteria will be loosened to reduce the amount of stabilization support required</li> </ul> <p><b>The following activities and functionality have been added to the original scope:</b></p> <ul style="list-style-type: none"> <li>Methadone Payment Process change</li> <li>s.17</li> <li>BGTS Patient Category lookup screen</li> <li>Apply DIS only pharmacy check to Tamiflu, Service Claims and Methadone monthly payments jobs</li> <li>Creation of a "production-like" test environment for performance testing of new limits requirements</li> </ul> <p>Scope Concerns</p> <ul style="list-style-type: none"> <li>Turning off s.17 BGTS limits for Go-Live and the impact on stabilization, training and project closure effort and planning</li> </ul>	
<b>Quality</b>	<p>Adhering to MAXIMUS methodology</p> <p>During the last month, the automated regression test suite has been run against the Release 3 code three times. The suite is comprised of 4281 tests of which 3607 tests have been run to date. The suite spans all transactions for both V3 and V70. It includes end to end tests covering happy path, alternate path, exception path and error paths as well as selected functional tests that exercise various rules. This suite is primarily run on each major code drop, hands free and in off hours. The suite takes approximately 4 to 7 hours to run, saving a significant number of hours that would be required to run the tests manually. As a comparison measure, the Industry standard is an average of 15 test cases per tester per day. Therefore, to manually run the suite, would take one tester 285 days to complete based on the industry standard. This continues to be a significant savings to PharmaNet projects.</p>	<b>G</b>
<b>Schedule</b>	<p>Development Activities:</p> <ul style="list-style-type: none"> <li>PIA – signed off (complete)</li> <li>Technical Specifications – complete</li> <li>Business Configuration settings – complete</li> <li>Screen code – iStore ticket for packaging and deployment by SSBC created and sent</li> <li>Transaction code – testing complete</li> <li>DRP – signed off (complete)</li> <li>Batch development – complete</li> <li>Batch testing – complete</li> <li>Go / No Go Presentation – scheduled for June 17</li> </ul> <p>Schedule Concerns:</p> <ul style="list-style-type: none"> <li>Catamaran development of the transaction code (adjudication servers) was delayed by more than two weeks (delivery to MAXIMUS was targeted for Feb 28 and was received March 19, testing is underway). This has impacted the MAXIMUS</li> </ul>	<b>Y</b>

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## Bi-weekly Project Progress Report

	<p>team's ability to move ahead with deployments to environments and testing. This may have an impact on the Go-live date. MAXIMUS monitored the situation very closely and requested that Catamaran work extra hours (nights and weekends) to resolve the issues as quickly as possible (which they did). The MAXIMUS team worked on tasks that were scheduled for later in the project as well as prepared to start testing as soon as the code was received and installed.</p> <ul style="list-style-type: none"> <li>Screen code BAT was not completed by the end of April and this is required to give MoH System Services and SSBC 8 week's lead-time ahead of go-live for packaging. MAXIMUS packaged the code and delivered to MoH on April 29. However, an issue was discovered with transaction and screen code. A revised version of the screen code was delivered on May 2.</li> <li>MoH MBPSD coordinated participation in screen code BAT for May 5/6 - successful BAT. MoH System Services will use the revised May 2 screen code to conduct the connectivity testing, pre-packaging activities and submit iStore Project request to SSBC.</li> <li>Screen code rollout at MoH – needs to occur prior to employees arriving for work or they need to be forewarned so that they can schedule their activities appropriately. Deployment window is normally midnight to 8 AM (PNet not available) – may need to be extended (e.g., start earlier, 10 PM instead of midnight).</li> <li>Note that as was the case for the Increase Sequence Number SR (R2.1), a second change window (June 26) will be required for the data warehouse refresh. This means that the data warehouse will have stale data until the Friday morning (June 27).</li> <li>CR 2014-006 – s.17</li> </ul> <p>s.17</p> <ul style="list-style-type: none"> <li>Testing has uncovered a potential performance issue that we are currently re-testing and analyzing. If the issue cannot be resolved it may be necessary to discuss options (as presented in the draft DR) on how to proceed</li> </ul>	
<b>Budget</b>	<p>New Estimates:</p> <ul style="list-style-type: none"> <li>CO 65, covering January 2014 to project end (September 2014), and the updated Project Charter have been provided to MoH for review and approval. The CO has been signed by MAXIMUS and MoH.</li> <li>The charge for the work performed by MAXIMUS in March 2014, when added to the previous invoices for the project, has exceeded the budget for fiscal 2013/14 as specified in CO 64 and CO 65. MAXIMUS will submit the invoice for March 2014 and MoH will pay up to the budgeted amount for Fiscal 2013/14. MoH has paid the submitted invoice amount.</li> <li>CR for provision of screen code and deployment support for the Colleges and HLBC (CR2014-005) has been submitted to MoH for review and approval.</li> <li>CR 2014-005 – Provision of screen code and deployment support for the Colleges and HLBC – approved by MoH, and signed at MAXIMUS, delivered to MoH for signature.</li> <li>CR 2014-006 - s.17</li> <li>The project is now over-burning on the budget due to the effort being spent to resolve the performance issue that was recently discovered.</li> </ul>	Y

**Comment [PLH1]:** It appears that MoH has not received the signed CR from MAXms

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

Hrs															
MAXIMUS															
CO 64															
CO 65															
CO 66															

#### Financial Adjustments:

Removed \$11,440 from CO 65 due to removal of effort for STRA  
 Apply credit for additional capacity hrs (CO 66) to April, May and June  
 Add \$45,740 for June to Aug 2013 (ODR to CAS reconciliation)  
 CO 64 value is \$535,591 of which \$25,246 was not spent by Dec 31 2013 so that amount was applied against the Jan 2014 invoice  
 CO 65 value is \$2,567,176. It is split by fiscal: FY2013/14 = \$1,123,527 and FY2014/15 = \$1,443,649  
 Total amount available for FY13/14 = \$1,659,118  
 Apr-Oct 2013 column includes \$45,740 for the ODR to CAS Reconciliation report effort (SR 553416)  
 CR2014-005 - Provide screen code to Colleges and HLBC - added to project totals  
 CR2014-006 - No limits to be implemented at Go-live

#### Notes:

PNet R3.0 estimates include MAXIMUS and Catamaran effort  
 The number of MAXIMUS hours per month includes IT and BAT resources which are charged at different rates  
 Original estimate for February reduced due to delays in requirements decisions  
 Original estimate for March increased to make up for reduction in February effort  
 Requirements changes that have **increased** the estimate and/or scope:  
 Methadone Payment Process change  
 New Service Claims cap  
 BGTS Patient Category lookup screen  
 Apply DIS only pharmacy check to Tamiflu monthly payments job  
 Creation of a "production-like" test environment for performance testing of new limits requirements  
 Requirements changes that have **decreased** the estimate and/or scope:  
 PharmaNet R4.0 requirements and estimate removed from scope  
 Stakeholder Engagement Strategy and Plan assigned to MoH  
 Provider enrolment operational activities, training and communications removed from scope  
 Risk and Controls review removed from scope  
 No new reports or report updates  
 Stabilization criteria will be loosened to reduce the amount of stabilization support required  
 MAXIMUS effort related to the STRA removed from scope

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

# Bi-weekly Project Progress Report

Status	ITG Issue No.	Priority	Detailed Description	Business Impact	Proposed Resolution	Due Date YYYY-Mon-DD
<b>G</b> <b>Y</b> <b>R</b>						
			2014.	plan.	also worked additional weekday hours and weekends. Code delivered by Catamaran on March 19 2014 has been fully tested.	
Y	553680	M	<p>Shared Services BC (SSBC) has recently implemented a change freeze for all infrastructure services, which also includes services delivered by all vendor partners, including HP Advanced Solutions, IBM, and TELUS.</p> <p>In the meantime, all change requests are being reviewed by Office of the Chief Information Officer (OCIO) executive to determine if there are any significant risks.</p> <p>For clients who have pending iStore orders or Requests for Change (RFC) scheduled, please be advised that these requests will be reviewed and assessed as per the process outlined above and may be rescheduled. Should clients require an emergency change during the freeze, they are reminded of the Request for Special Processing procedure.</p>	<p>May have an impact on the scheduled Go-Live date for R3:</p> <ul style="list-style-type: none"> <li>if MAXIMUS is unable to engage SSBC/HPAS when required;</li> <li>If the MoH iStore request for screen code packaging is delayed;</li> <li>If HPAS is not available to roll-out the packaged screen code on the Go-Live date.</li> </ul>	<p>The following steps could be taken to address this issue:</p> <ul style="list-style-type: none"> <li>Follow the SSBC "Request for Special Processing" procedure;</li> <li>Escalate quickly if this issue is raised</li> </ul> <p>Note: Recent experience with SSBC/HPAS has been at regular service levels (i.e., no impact due to the freeze)</p> <p>The freeze has been removed but there is a backlog of activities that may still impact requests unless they are of higher priority.</p>	
R	553616	H	Application performance may be impacted by the business requirements.	Increased accessing of the ClaimsHist and MedHist tables appears to have impacted application performance and this would jeopardize SLAs. This may in turn jeopardize the scheduled Go-live date.	<p>The following steps are being undertaken by MAXIMUS and Catamaran to determine if the code changes have impacted the performance of the application:</p> <ul style="list-style-type: none"> <li>Extensive testing of the application</li> <li>Logs are being captured and analyzed</li> <li>Code is being reviewed</li> <li>Twice daily joint review sessions</li> <li>Planning for next steps</li> </ul>	June 13, 2014

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

### 3.2 Key/Active Project Risks (Reported out of ITG Search Results) – risks being actively monitored are highlighted in yellow

ITG Risk No.	Priority	Detailed Description	Risk Impact Assessment	Mitigation / Contingency Strategy (Manually entered)	Initial Risk Impact Level	Risk Probability	Risk Type
553610	M	The aggressive nature of the project schedule exposes it to higher risk of being delayed	Minimal time has been allowed in the schedule to undertake deliverable review/approval cycles. Failure to adhere to the schedule will cause delays	MAXIMUS will closely monitor the schedule and follow up on time sensitive processes	M	M	Schedule Budget
553611	L	If the functionality is not utilized during the stabilization period then problems may be uncovered after the stabilization period has expired	Software defects may result in application functionality issues at a future date	MAXIMUS will mitigate by testing business scenarios and business configuration settings as close as possible to Production	L	M	Budget
553612	M	The scope of the project may be impacted during design	Elicitation of detailed business requirements may not be sufficient to determine the full scope of the project. This could lead to an increase in the budget and/or delay implementation of the application enhancements	MAXIMUS will conduct internal reviews of the detailed business requirements in order to determine the scope of the project	M	L	Scope Budget Schedule
553644	H	The EMPI server migration has resulted in substantial impact to HIBC both in terms of technical and operational resources.	Due to the impact of the enrolment automation (automated new born registrations) code not be migrated to the new server HIBC has had to apply both operations and IT resources to deal with the impact. In the case of IT, we have had to pull key technical resources off of both PharmaNet and Medigent.	MAXIMUS is doing what we can to mitigate these impacts, but this issue hit our number one most critical resource constraint – SOA developers. At this point we have not be able to assess the project impacts, but schedule is a serious concern which would also have knock on effects to budgetary projections. The fix that we have put in place for the enrolment automation issue is temporary and vital stats will likely be asking us to make additional changes for a long term solution, but we are not able to spend any more time on this issue in the near to medium	H	H	Budget, Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

				term.			
553654	M	Testing of the screens has been delayed from the original plan and delivery of packaged code to MoH 8 weeks prior to go-live is going to be difficult to achieve	Shared Services has requested an 8 week lead time for packaging. If the screen code package cannot be delivered by the end of April the 8 week lead time will not be met and Shared Services may not be able to package the code in time for Go-live.	MAXIMUS is focusing effort on testing of the screen code in April but there is a dependency on MoH participants in the BAT. Coordination of participants has begun and MoH needs to ensure that participants are available. MoH could request that Shared Services package the screen code with less than 8 weeks notice.	M	M	Schedule
553658	M	MoH is having a Risk and Controls review of PharmaNet Release 3.0 and in order for the project to be approved for Go-live, the MoH executive must approve the Risk and Controls report, and the report must be accepted by the Comptroller General's office. The report is due around June 12 2014 and the Go-live decision is currently planned for June 13. Approval for deployment in the June 25 change window should occur at the June 18 Change Management meeting. These dates are very tight so any slippage could jeopardize the Go-live date.	MoH does not want the Go-live date to move because of cost savings that will be lost due to delay. MAXIMUS does not want to move the Go-live date to move because of proximity to the testing/deployments for the Medigent (RAPID) project and competition for the same infrastructure resources.	The Go-live decision presentation date could be moved to a few days later if the Risk and Controls report has not been approved by the MoH executive by June 13. MAXIMUS will know if there are any issues with going live June 25 earlier than June 13 so the presentation is a formality. MoH will work with Deloitte to get the Risk and Controls review done as quickly as possible. MAXIMUS will respond to any requests from Deloitte in a timely fashion.	H	M	Schedule
553668	H	PNet R3 is currently designed/developed to adjudicate all claims from DIS only pharmacies to zero (i.e., the client will not be reimbursed for any legitimate purchases from DIS only pharmacies). The new requirement is for the off-line process to adjudicate the claim as per the usual	If the decision is not made in a timely fashion (1 week) then it will not be possible to implement the change without impacting the project schedule. A different decision will then be required - delay the project to incorporate the new requirement or proceed as is and implement the new	MoH to provide a decision as to whether or not the recommendation (i.e., modify transaction code to allow adjudication of DIS only claims submitted by clients) should be implemented within 1 week (by April 30 2014).  MoH decision is to not make any changes to R3 but to pursue	H	H	Scope Schedule

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
--	---	--

## Bi-weekly Project Progress Report

		rules and pay the appropriate amount to the client.	requirement after PNet R3 Go-live. Therefore the impact is either a project delay or an implementation where clients are not reimbursed for purchases from DIS only pharmacies	options for addressing adjudication of client claims for DIS only pharmacy dispenses through operational avenues.			
--	--	---	--	---	--	--	--

### 3.3 Key Decisions

DR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Decision Description	Implications (Project, Business, Contract, etc.)
	Cancelled	Need to finalize the scope of Health Ideas Changes (i.e. all new data required? eRx/MMF data required?) and confirm implementation date	If eRx/MMF data is required to be added to the scope of Health Ideas Interface update, this will impact the scope and budget for the project. Schedule may be impacted as well.  eRx/MMF data cannot be included within the scope of R3 without impacting the Go-live date. It has been assumed to be out of scope for budgeting and planning purposes.
	Approved	Scope of STRA – only changes or full PharmaNet STRA – impact on R3 budget	Only the Project STRA is included within the budget for R3 – MOH has indicated that MAXIMUS input for the R3 STRA is complete
	Approved	Finalize requirement for new reports	No new or updated reports are required as part of R3. However, a new screen for BGTS (patient category lookup, part of PNet PNP) will be included in the scope for R3.
	Approved	PharmaNet Release 4.0 – date to start developing requirements and estimate	Release 4.0 requirements and estimate will not be included in the Release 3.0 project.
DR2014-001	Pending	Due to changes to the PharmaNet application introduced by the PharmaNet Release 3.0 project MAXIMUS has identified a risk that the PharmaNet Claims transaction may not be able to meet the current SLR for transaction response time.	In addition to the SLR, Release 2.0 added capacity for e-Prescribing transactions which could also be impacted by the Release 3.0 functionality
	Approved	No additional effort is required from the MAXIMUS team with respect to the STRA.	The remaining effort for the STRA task is to be removed from the budget for fiscal 2013/2014. The number of hours remaining is s.21 CO 65 has been updated to reflect this change.
	Approved	No changes to PharmaNet functionality to reject all claims from DIS-Only pharmacies (including offline cardholder claims) are required as part of Release 3.	No changes to project scope, budget or schedule are needed. The current PharmaNet functionality will not provide an ability to reimburse cardholders for drugs/products purchased at DIS-Only pharmacies.

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover

## Bi-weekly Project Progress Report

### 3.4 Key Changes

CR No. (if applicable)	Status (Pending / Submitted / Approved / Cancelled)	Change Description	Implications (Project, Business, Contract, etc.)
CR2014-005	Approved (waiting for MAXIMUS signatures)	Provide PharmaNet application screen code to the Colleges and HLBC.	Additional effort required by MAXIMUS and therefore additional budget required.
CR2014-006	Pending (waiting for MAXIMUS approval to send to MoH)	s.17 BGTS and invention limits are also set to default values.	s.17

### 4 Detail

No.	Deliverable / Work Product / Milestone	Original Completion Date	Revised Completion Date	Ministry Walkthrough Date	Status
1	Project Charter	Oct 18, 2013			Approved
2	High-level Business Requirements	Oct 18, 2013			Approved
3	Training Strategy	Dec 13, 2013		Dec 19, 2013	Approved
4	Updated Project Charter	Mar 14, 2014	Apr 9, 2014	N/A	Approved
5	Functional Requirements	Dec 17, 2013	Feb 14, 2014	Jan 20, 2014	Approved
6	Non-functional Requirements	Dec 17, 2013	Feb 14, 2014	Mar 25, 2014	Approved
7	Security and Threat Risk Assessment (STRA)	Mar 14, 2014	Mar 25, 2014	N/A	No further MAXIMUS involvement required
8	Business Continuity Assessment and Plan (BCP)	Feb 14, 2014	Mar 28, 2014	Mar 24, 2014	Approved
9	Impact Assessment (internal work product)	Jan 2014	Apr 2, 2014	NA	Approved
10	Functional Specifications	Jan 31, 2014	Apr 30, 2014	N/A	Complete
11	Deliver PNP package (screens) to MoH (8 weeks prior to Deployment)	Apr 30, 2014	May 2, 2014	N/A	Complete
12	Test Plan (no change to approved R1/R2 Strategy)	Dec 31, 2013	Apr 30, 2014	N/A	Complete
13	BAT - screens	May 20, 2014	May 6, 2014	N/A	Complete

<b>Green</b> = No concerns on schedule and within budget	<b>Yellow</b> = Some concerns, schedule or budget is at risk but mitigation plans are in place to recover	<b>Red</b> = Serious concerns, schedule or budget is at risk. No mitigation plan in place to recover
