Hi Brian,

The cost will be approximately \$20,000 and the work won't start until the the 2013/14 fiscal year

Hi Brian,

Thanks for the conversation last week. I just wanted to get confirmation from you, by email, that CAS will be able to invoice you for the cost of the study on the global LNG value chain emissions intensity

Tim will be contacting you shortly to discuss the terms of reference for the other study on global emission reduction benefits of BC LNG.

Thanks in advance for the confirmation
