212474 Shin, Jane	MLA BC NDP	ESTIMATES 2013 FOLLOW up. MLA Jane Shin. July 15 regarding Sexually Exploited/At-risk youth Transcripts: So I was hoping that the minister would please identify how MCFD is addressing this particular issue, if it's aware of it. What are some of the funding figures and allocations of the resources that you can share? RESPONSE FROM MINISTER: ... There was a count that was conducted this year in February of the exploited and at-risk youth, and the number was 217. Compare that to last year. In 2011 the number was 146, so there is a significant increase in the number there. But what's more disturbing is that there is a very real trend going away from street prostitution to the Internet and boyfriend/pimp sort of sexual exploitation that's going on, which indicates that youth sexual exploitation is becoming more and more underground and less visible.... As it relates specifically to the table that the member has talked about, we will follow up with our executive director that was at that meeting and provide you with more information specifically about Burnaby	BULLETS- 2013/07/31 MLA	2013/07/19 2013/07/29
