**Re: Request for Access to Records**  
***Freedom of Information and Protection of Privacy Act (FOIPPA)***

I am writing further to your request received by the Ministry of Health. Your request is for:

*Records showing the total ICU bed capacity in British Columbia hospitals Province Wide in all Health Regions; Records showing the current ICU occupancy rate in BC for January, February, March and April, 2021; Records showing the ICU occupancy rate in BC for January, February, March and April for the years 2014, 2015, 2016, 2017, 2018, 2019 and 2020.*

These records are provided to you in their entirety. Please note that the Ministry's bed/occupancy data is normally pulled from their HAMIS data. The extra capacity created in anticipation of COVID-19 is not reported to HAMIS, nor is it grouped the same way in other reporting. Therefore, it is not included in this data. While that data is excluded, it does allow for appropriate historical comparison since the data is extracted from the same data source under the same reporting requirements for the entire period of review. The Ministry also notes you were asking for occupancy January to April for a number of previous years. The Ministry has not historically tracked critical care occupancy rates and they have only calculated total occupancy at the hospital level. The Ministry will not be able to provide the historical information the requestor is looking for. The health authorities may have the historical information.

Your file is now closed.
