BC Government Secure File Transfer Service

Information Access Operations Ad-Hoc User Guide

Introduction

The purpose of this document is to provide the basics skills required to use the Secure File Transfer Service (SFTS) as a temporary user (also known as ad-hoc). Your account has limited functionality and can only be used to receive files from an authorized BC Government user.

How to Log on to the Service

As a temporary user of the SFTS, you must be invited to use this service by being a recipient of a sent package from an authorized user. The first time a BC Government user has sent a package to you, you will receive a welcome email notification with a temporary password to set up your account and a link to the service.

Note that your temporary account's username is your email address. The password is a temporary one and will need to be changed upon the first login.

Home Screen

Once you are successfully logged in, you will see the Home screen with your records package in your Inbox. To download your records, simply click on the records package and then click on the Download button beside the file(s). You will be able to download the package up to five times and all packages will expire 35 days after being received.

Troubleshooting

Your temporary SFTS account has an expiration timer of 7 days, unless the account is logged into again or receives a new package. After a further 7 days after your account has been marked as expired, it will be deleted. You will need to have a new ad-hoc account created by being re-invited to the service.

Passwords expire after 90 days. If you have forgotten your password, but your account is still active, you can use the "Request a password change" link on the Login page. An email will be sent to you providing you the URL to confirm the password change.

If you encounter technical issues with the service, please call the technical support line at 250-387-7000 and select option 3. You will need to advise the representative that you are requesting assistance as an ad-hoc user of the BC Secure File Transfer Service.
