Hi Liam, Michael and Christina... Just a note to the team in Minister Mark's office to let you know that I'm now Melanie's Research and Communications Officer for caucus. S.22

S.22 I'm taking over her assignments for the Vancouver/North Vancouver-based MLAs.

You can contact me at 250-356-7656 (desk phone) or S.17 (cell).

So when it comes to Melanie's role as local MLA or private member, I'll be here to help with communications and research. I understand that you all may prefer to handle her local media requests yourselves, so I hope that we'll develop a working relationship and you'll let me know when you think a particular request should be handled by me. At the very least it would be preferable if you can let me know when Melanie gets a local media request that she will respond to, so that I can keep Ed May, the caucus Communications Director, informed.

FYI, I've contacted Melanie and her CAs separately, at their leg accounts.

That's all for now. Let me know if you have any questions, or how I can help!

Cheers,

It would be good to add in the mental health RFP, that we have listened to students and are taking action.

Also, Michael Olson's number is ~~S~~.22

Have we got a more updated version with more logistics figured out yet?

As a reminder, we will need a final version for January 8 at 10am.

Subject: 24/7 Mental Health and Substance Use Counselling and Referral Service – Children, Youth, Young Adults, and Post-Secondary Students

The Honourable Melanie Mark; The Honourable Judy Darcy; The Honourable Adrian Dix; and The Honourable Katrine Conroy:

The Government of British Columbia ought to be applauded for implementing a province-wide mental and substance use counselling and referral phone service for children, youth, young adults, and post-secondary students. Through this strategy the BC Government hopes to encourage the nearly 500,000 students enrolled in public and private post-secondary institutions and the approximately 1.3 million children and young adults to take advantage of this 24/7, confidential, single-session counselling, virtual-delivered, minimal wait times, and no-cost service.

To ensure success of this project, it must include five factors. First, the project must be adequately funded. The Government has only allocated \$1.5 million per year for post-secondary student service; and future budget will be allocated to serve other youth groups. Even if only 10% of the potential base of 500,000 post-secondary students take advantage of this service, that would be an allocation of about \$3.00 per student per single session. The chances of finding trained, qualified and supervised personnel to accomplish the objectives of this service will be extremely limited.

Second, the project must emphasize strengthening existing counselling and referral services for post-secondary students, particularly the on-campus services that exist at every one of B.C.'s 25 public post-secondary institutions. In addition, the project must coordinate with existing crisis line services that are currently available in communities around British Columbia. Their expertise, knowledge, experience of and partnership in delivering these services will be essential for the success of any added mental health service.

Third, the project prospectus says it intends the counselling to be a "single-session" service; that is, users will somehow be limited to only one session to discuss their issue or find an appropriate referral. This limitation contradicts the Canadian standards developed by the pioneering Need Crisis Line in Victoria in the 1970's. While the intention might be to refer those whose needs require more than one session to more appropriate practitioners, it actually can contribute to ending the help-seeking of callers. Building enough rapport with callers to enable them to talk about their private needs and share their story in a confidential manner often takes more than just one-session. In addition, as many crisis-

line systems can attest to, referrals that come too quickly can be experienced by the caller as being cut off, not understood, rejected or sometimes a “quick-fix.” These experiences often conflict with a successful referral.

Fourth, the project must attend to the role peer support has played and continues to play in helping people make the decision to access a mental health service. Every community in B.C. has hundreds of natural helpers; that is people who are in positions or relationships to be approached or sought out to discuss a mental health concern. Most post-secondary institutions now have peer helping, peer leadership, or peer mentoring services, where students help other students through support and referral. Natural helpers are often in a position to have contact with their peers, friends and workmates earlier and before a mental health or substance use results in significant distress. The addition of this province-wide service requires the natural helpers in communities and schools to know about this service so they can aid the referral process. This is particularly important for youth who are no longer enrolled in education institutions.

Fifth, the focus on counselling and referral may be too narrow. Personal coaching, career coaching or life coaching ought to be a companion option for callers to the service. Certainly there will be youth who will need psychological counselling, particularly counselling that focuses on their problems, disabilities, and life history. But the majority of children and youth are not beset with mental health problems. Instead, they are faced with difficult decisions, toxic life situations, uncertain futures, and minimal access to their own resources, strengths, and creativity. Youth long for mentors or safe places to examine their lives and consider next steps. These are typically not mental health issues; they are issues associated with living successfully and meaningfully in today’s society. These circumstances require coaching, a practice that helps a person assess their current reality, identify future directions, and develop strategies to forge, create and sustain that path they want to pursue.

Dear Minister Mark

My name is Robert Bradbury, President and Founder of Pacific Vocational College Ltd (PVC). I have been involved in apprentice technical training since 1981 with the Piping Industry Apprenticeship Board and as a training provider since 1991 with PVC. I have contracted with the Ministry of Advanced Education, Training and Technology, the Industry Training and Apprentice Commission (ITAC) and now the Industry Training Authority (ITA). For decades I have not waived in my commitment to provide the best training possible for every apprentice that comes through our doors and I am proud to be a stalwart ambassador of the BC apprenticeship system.

Having said that, I feel compelled to express my concerns over what I see taking place within the ITA as it relates not only to the future of PVC, but more broadly, what it may mean for apprenticeship training with the province.

s.17

As someone who has spent most of his life training apprentices, the treatment we received from the ITA was not indicative of the mutual respect and collaboration that we would have expected from the key leaders of this organization. As was noted earlier, we are not supported by a union training fund, or a per class funding model that also includes base funding from the province. We rely solely on our per student funding from the ITA and to have it cut without consultation and without a transition period seems egregious to us.

Time is of the essence as the 2019/2020 Training Plan submission deadline is Friday, January 4, 2019.

I am asking for your help and would welcome the opportunity to speak with you personally at your earliest convenience so that we can resolve this matter.

Sincerely and with respect,

Robert Bradbury

Are you available next week to discuss WorkBC creative?

I'd like to identify what ads need to be updated or created and discuss sources for new creative. I reviewed the latest Career Trek videos and see some opportunities to include fresh faces from there but we will likely need more.

Following that I'll be engaging with Traction.

I've included the approval document that Matt put together last year. I believe it includes most if not all of the creative executions for our discussion.

MLA Routley has not responded to our requests yet, and his staff are working on it. At this point in time, let's go ahead with a 'yes' but have an option for a 'no- so that we aren't held up for materials due tomorrow.

Thanks,

Michael

Hi Michael,

I've attached the Guest List for UVic's Oceans-Climate Building event this Thursday.

You and Amanda (along with EDUC) already approved it last month when the event was originally scheduled for Dec 7. Not sure if you needed to see it again?

There have been a couple of additions by UVic and Ocean Networks Canada (in red and green).

DFO and UVic are keen to get the invitations out the door as soon as possible, hoping for today, as the invitations are otherwise ready to go.

Cheers,

Hello Melanie,

My name is Cristian. I am a contributor to my university's student-run newspaper, *The Runner*. We were interested in writing about how the B.C. government has pledged province-wide mental health and substance abuse support. If you wouldn't mind speaking to a couple of questions, it would be immensely helpful for both my article and informing students about this important development in modern mental health awareness and care.

- 1) What is the importance of this new service that the B.C. Government is offering?
- 2) What changes and implementations can students look forward to?

Thank you for your time and advocacy,

Cristian

First Nation(s) Chief & Council
Local MLA(s)
Local MP
Municipal Council
Regional Council
Student Association
Faculty Association
Staff Union(s)
BCFS, ABCS (depending on membership)
FPSE, CUFA, BC Colleges, RUCBC (depending on membership)
Area specific external AEST stakeholders

I'm happy to send over a copy of my best practices document that I use as a checklist for materials, scheduling ect.

Hi Michael,

Sorry to take so long to get back to you, it's been crazy – and I also spent ½ hour on the phone with VIU getting other confirmations... (we're getting there)

The guest list does look light. However, it came straight from VIU and I think maybe they're worried about space – the event is only able to hold 25 or 40 people, standing. I'll send over the updated list and see what kind of response we get.

I also ran the GL past the program area both for other invitees and to find out whether we should be inviting other Indigenous groups besides what VIU had included. Program's recommendation was to go with what VIU suggested. Again, I'll flag this for VIU and see what they say.

BCFS is represented by James Bowen (the VIUSU exec director) and the FPSE rep is Chris Jeagar of VIUFA – are there other members of these organizations you were thinking of inviting?

Hi Stephen,

The list looks awfully light.

I've pulled from the last VIU event list and removed automotive and sciences, but kept the VIU presidents council, VIU internal invites other groups that should be invited. I have attached that list. It is going to take some formatting changes to align both of the lists. (I recognize that VIU may request to remove a number of their advancement and internal names- but it wont hurt asking)

Regardless, I would like to make sure that the following get added:

MLA Doug Routley
SFN Chief **and** Council
Nanaimo Regional District Board
Nanaimo Mayor **and** Council
BCFS
FPSE
Pacific Salmon Foundation

Let me know if you have any questions

Hi Alex,

We have a great team over here at AEST, I just compile things and make sure that it flows. I will pass on the note to our team.

They are just suggested tweets however, I forgot to mention that if Spencer can get a few pictures to send to either Amanda or I, we can make sure that Melanie is able to echo the announcement on social media as well.

Here is my cell-S.17 and if anything comes up, Spencer is more than welcome to text or call me, before, during or after the event.

I like to check in with a staff member or the MLA after an announcement to make sure that we are making things as easy as possible for doing events- there is no rush, but if you can ask Spencer to think about what he would have done differently, I'd be grateful.

Finally, here are the results of the call around to media for the event.

GCPE media relations team will be on the ground- looks like a great turnout!

As for the tweets, Spencer fully handles his own twitter account, but I'll give him an extra poke about the suggested tweets the day of. I'll also make sure we get something up on his fb page.

Afternoon!

Speaking notes and further details to come from my wonderful colleague, Michael. Providing an update below, for your information.

I suspect given your BC presence and history with the file that you will be given a good deal of coverage personally with this issue, but that the story will be mostly about the federal dollars associated.

Hi Sage, Rick,

Giving you a head's up that the **UVic Oceans and Climate Campus** announcement has been moved by the Feds to **January 10th**. Original pitch doc attached (was scheduled for Dec 7 but moved by federal government to an undetermined date in January, last we spoke).

See below correspondence – will be mostly overshadowed by a larger announcement by the Feds on that day, but **MLA Chandra Herbert** will be speaking on behalf of the Provincial government's contribution to the project itself:

Total project budget is \$9.50 million:

- Federal: \$3.50 million
- Province (AEST): \$850,000
- UVic: \$5.15 million

Subject: Update - UVic Oceans and Climate building announcement

Hi Amanda,

As discussed, there has been an update for the January 10th event at UVic's Oceans and Climate Building.

The Gov't of Canada is planning to have this be a dual announcement.

- 1) Fisheries and Oceans Canada will lead with a main announcement about funding for Ocean Networks Canada (a UVic initiative that is housed at the new facility). Canada is providing \$12.6 million in funding, under their Oceans Protection Plan, to help Ocean Networks Canada improve and expand their marine monitoring network off the West Coast. The Province of B.C. is not involved in this fund.

- 2) Minister Wilkinson will then also announce the opening of the new Oceans and Climate Building. Afterwards, MLA Chandra Herbert would speak to the building portion of the announcement on behalf of the province.

The Gov't of Canada is still in the process of confirming Minister Jonathan Wilkinson's attendance. I expect confirmation Monday.

Dear Minister Mark,

The Justice Institute of British Columbia (JIBC) will be celebrating *International Women's Day* by hosting an event on March 8th, 2019.

Our goal for this event is to inspire and embolden people in the fields of public safety and social justice to bring the female perspective into their work in meaningful and innovative ways.

We are looking for accomplished women with your expertise, experience and background to participate as a panel member or presenter. Given your portfolio as Minister of Advanced Education, Skills and Training, and as the first female First Nations Member of the Legislative Assembly of BC, we would like to invite you to be a part of our day.

As we are in the early stages of imagining this event, we are looking to gauge your interest in participating. As the event takes shape, we will be able to provide you with more details of the day and at that point, we would ask for a commitment from you.

Please let me know if you are interested in further discussing your involvement in our celebration of International Women's Day.

Thank you!

Hi Rodney,

Thanks for the information on this. Got me thinking. It would be great to have the Minister provide a personal letter of congratulations to each LG award winner rather than a re-launch event. Because students do not apply for the award but are nominated by the institutions, it would be better to have an opportunity for the minister to 'speak' directly to the award winners.

I'd like to explore the option of celebrating the achievement of students rather than to the re-launch of the medal.

Thanks,

Michael

Dear Kelly,

Hope you are well! Happy Friday.

Attached, please find the edited letter that we would aim to send out (or have sent out with your office). Also, I made some very minor edits to the document you so kindly amended. The only thing we changes was the title of the award – to “inclusion, democracy and reconciliation”. The reason being that inclusion is more “positive” sounding. Other than that, we are excited to launch.

On the launch – we had a couple of thoughts and are open to your views. One, we could take a copy of the docs to present to UBC president next week, and then follow up with a bit of a media (or even just social media) event announcing launch with a youth advisory group we are putting together. Or something in conjunction with your ministry. Let us know thoughts. Maybe even take a three or four pronged approach.

Happy to chat by phone if easier.....

Lastly, Her Honour would like to send you a note, so please stand by for that.....

Thanks so much,

Jerymy

Hi Jerymy – happy new year!

Apologies for the delay in sending updated materials your way. Based on our last discussion, we have revised and provide you with some suggested new medal award criteria. The proposed award criteria has shifted substantially from the current criteria based on the feedback / direction we received from you. As this is a significant shift, assume you will have her Honour and/or your Board, etc review and approve.

One of the important next steps will be communicating the changes in the criteria to the institutions. I believe your team was going to revise the draft letter we had prepared?

As a reminder, the previously proposed award administration remains the same as we had discussed.

Let me know if there is anything I can do in the meantime – look forward to receiving comments/ feedback!

Thanks,
Kelly

Cristian Hobson-dimas, Reporter

chobsondimas@outlook.com
778-883-1909 c: 778-883-1909

Deadline Friday, January 11, 2019 12:00 PM

Request

Reporter is writing about how the B.C. government has pledged province-wide mental health and substance abuse support. He has a couple of questions that would be helpful for both the article and informing students about this important development in modern mental health awareness and care.

- 1) What is the importance of this new service that the B.C. Government is offering?
- 2) What changes and implementations can students look forward to?

His deadline is Friday afternoon to have the article finished by Saturday. He will use statements from other articles and cite them, but firsthand responses read much better and show our engagement with the community and public figures. Even a brief response to those questions goes a long way.

Background

Recommendation

Hi Cristian; The following statement can be attributed as a joint statement from both the Ministry of Mental Health and Addictions and the Ministry of Advanced Education, Skills and Training:

"The provincial government is delivering services that people count on, including mental health support for post-secondary students.

"Post-secondary education can come with a number of unique challenges such as living away from home for the first time, making new friends, and facing academic pressures, and it's important that students feel supported. We also know that young people between 15 and 24 years old are more likely to experience mental illness and/or substance use disorders than other age groups.

"Currently, there is a lack of after-hours and weekend services available to post-secondary students, and some students face long wait times to access campus mental health services. A 24/7 mental health counselling, information and

referral service will provide students with a province-wide resource that will supplement services on campus and in the community. "The new service is intended to supplement existing services – not replace. Details for prospective proponents will be outlined in the competitive solicitation that will be posted shortly. Investing in mental health supports for students is money well spent. It is money well spent if we relieve some of the pressure on existing resources on- or off-campus, or make a difference to someone's life.

"It is critical to work together to provide young people with access to the supports they need, where and when they need them. This new service will help to enable young people from all parts of the province to ask for help once and get help fast, so they can start on a pathway to hope."

Request

Reporter is writing about how the B.C. government has pledged province-wide mental health and substance abuse support. He has a couple of questions that would be helpful for both the article and informing students about this important development in modern mental health awareness and care.

1) What is the importance of this new service that the B.C. Government is offering?

2) What changes and implementations can students look forward to?

His deadline is Friday afternoon to have the article finished by Saturday. He will use statements from other articles and cite them but firsthand responses read much better and show our engagement with the community and public figures. Even a brief response to those questions goes a long way.

Hi Julie,

In an effort to be better organized with MLA inquiries (casework), I have created a tracking document. There are a number of missing details as my access to files are limited. I am hoping that the DMO can fill in some of the missing information (if available) such as the CLIFF # and constituent names, and flag if there is different information that I have versus the DMO. That way, we are all on the same page, and it will be easier for me to keep track and ensure that MLA offices get a timely response.

Happy to chat about this request.

Subject: FW: Greater Vancouver and Fraser Valley residential & commercial construction work conditions

Hi Micheal/Holly,

This appears to have been written to the Minister in her capacity as the individual's local MLA. This should be returned to the Constituency Office and actioned appropriately from there - likely obtaining information from the Ministry of Labour. Once they are contacted, it should be deleted from the Minister's inbox as it is a transitory record (misdirected to her as Minister).

BC Legislative Assembly, Vancouver Mayor and Council.

To the Honourable Member Melanie Mark, Mayor Kennedy Stewart and Council,

I am writing to request that the current provincial government investigate the working conditions in the Greater Vancouver and Fraser Valley construction industry and consider implementing the recommendations following this letter. Residential and commercial construction projects in Vancouver have been, and continue to be, a great source of economic prosperity in our province, unfortunately prosperity for some has meant unreasonable risk and degradation for many others. Serious safety issues are frequently ignored such as bio hazards, fall hazards, access, egress, silica dust and electric shock and harassment. Developers and contractors write policy regarding safety and harassment, but these documents fail to change the workplace culture. Incidents frequently occur and are left unreported.

When they are reported, the information fails to influence the implementation of field-level preventative measures. This lack of action comes in favour of keeping costs low at the expense of worker safety and degradation. The current third-party bodies such as WorkSafe BC and Technical Safety BC Fail to enforce the standards they put in place. For a

worker to mention these third-party bodies is taboo. Intimidation and coercion is often used to prevent Worksafe BC from being notified. Construction helps drive the BC economy, while the workforce is subjected to an unreasonably dangerous, unsanitary and harassment-rich workplace. There is widespread conflict of interest in construction - Developers and contractors investigate and audit their own safety performance. We already have the organizations, technology and creativity to maintain an economically viable construction industry and treat workers with dignity - we simply lack the resolve for change.

I would like to submit three recommendations that I believe would create significant cultural changes in the BC construction industry:

1. A resident Worksafe BC representative at all permitted construction sites providing third party safety oversight; 2. Frequent Inspections, harsh penalties and strict enforcement by both Technical Safety BC and Worksafe BC, and; 3. Mandatory, semi-permanent, sanitary washroom and eating facilities for all permitted construction sites that satisfy the demand of the workforce including but not limited to access to running water, potable water and functional plumbing fixtures such as sinks and toilets, functional electrical fixtures in the form of power, lighting and heat, tables, chairs and appliances such as microwaves and refrigerators.

Construction workers are not second class citizens - they are the middle class that the municipal, provincial and federal governments insist on helping. Implementing these recommendations would help.

Please feel free to contact me directly if you would like to discuss these or other ideas on how to create a safe, dignified and prosperous construction industry in BC. Thank you for your consideration.

Sincerely,

Michael P. Spender Ba., RSE, FSR

Hi Stephen,

The MLA flights are booked and the MLA will arrive on campus for 10:30 for the pre-brief and pre-tour. He has a connecting flight from the sunshine coast that prevents any other changes.

We just can't accommodate a 10:30 start, 10:45-11 is the best scenario.

Thanks,

Michael

Hi Michael,

I know we've already talked about the event time for the UBCO event on Jan. 25 but they've pushed back, yet again, and asked if we can do the event at 10:30am to make it possible for the Chancellor to attend. I'm afraid I don't remember exactly the timing of MLA Simons' arrival so I didn't give them a hard no, yet. Would you please remind me if an 11am start is a fixed deadline.

Many thanks,

Stephen

Request

Does that mean the government will maintain the same policy and will not look into the issue ?

since even if the guardian of minors has study permit and the minors can go to school free ,
that allow many more parents can use this and ask some study permit holder to be the guardian and get
the education free for the minors ?

are you worried that will be a loophole?

s.13

This is a follow-up to a media request from January 9, 2019.

REQUEST:

we found some of the Chinese parents using the study permit to access the free public education for their children in Vancouver.

Since according to the public education policy, study permit holder 's dependants can access to public school service in BC

my question will be

1 if Provincial Government noted this ?

do you see this a waste of taxpayers ' money?

2. if the government will review this free tuition policy and maybe not to provided to the study permit holders' dependents ?
3. do you have the chinese students number currently study in our province and can you see how many are older than 30 years old

Hi Goneet & Sarah

I hope you had a great break. Minister Mark and Minister Ralston will be announcing the opening of the Centre for Innovation in Fish Health on January 14 at VIU from 11:30am-1:30pm. I am wondering if MLA Routley is willing and available to emcee the event.

Government has invested \$215,000 in creating a unique laboratory at Vancouver Island University to foster sustainable fisheries and aquaculture through innovation. Called the Centre for Innovation in Fish Health, the laboratory is focused on the study of health issues impacting fish species relevant to British Columbia. The investment is also supporting future cutting-edge research by funding a post-doctoral fellowship and two undergraduate stipends.

If you are able to let me know if MLA Routley can emcee by the end of this week, I can get the materials to you no later than Wednesday.

Thanks and talk soon,

Hi there,

The City of Vancouver's Chinatown Transformation Team is helping the Province of British Columbia share information about their consultation process on a Chinese Canadian Museum.

Please see attached a poster for a consultation event taking place this **Saturday, January 12**, particularly the 3:30 pm session. We would like to raise awareness of the consultation within the Chinatown community and encourage you to attend so that the perspectives of the Chinatown community are represented. Please register at the following link: <https://feedback.engage.gov.bc.ca/261513?lang=en>

The Province has also released a Phase 2 online survey where you can submit written feedback. The survey is open until February 8, and can be found at this link: <https://feedback.engage.gov.bc.ca/175678?lang=en>

Thank you

Subject: invitation: January 31 - Canadian Space Agency Kids Code Jeunesse AstroPi event Selkirk Elementary

Dear Mr. Fleming,

We would love to have you join Kids Code Jeunesse (KCJ) at our fully bilingual Headline Astro Pi event happening at Lord Selkirk Elementary School in Vancouver on January 31st. More details on the event are copied below.

Yours sincerely,
Mavis

Astro Pi is an annual science and coding challenge (Oct 29 2018 - Mar 20 2019) developed by the European Space Agency (ESA) in partnership with Raspberry Pi, where student-written code is run on the International Space Station (ISS). As part of KCJ's involvement in Astro Pi, we will be offering free coding workshops in science centres across the country as well as supporting teachers in classrooms. This year, we've partnered with the Canadian Space Agency (CSA) to highlight and engage students across Canada in astronaut David St Jacques' mission.

KCJ is a Canadian partner for Raspberry Pi, charged with inspiring and encouraging students to be active participants in space science, rather than just observers.

Top activities at the event include a live downlink with David Saint-Jacques where students have been invited to pose any questions they have about his mission in space, along with other coding activities related to the Raspberry Pi.

Your presence at the event to support the work of KCJ would be greatly appreciated to inspire early learners and congratulate local teachers who are taking risks to try new tools and learn new skills.

Headline Astro Pi Event
Thursday, January 31st, 2019
Lord Selkirk Elementary School
1750 E 22nd Ave, Vancouver BC
V5N 2P7

Exact time to be confirmed but live feed with the International Space Station will be between 8:30am and 10:30am.

Should you be interested in attending, we will work with your team to confirm the time of the event. For any questions you may have and to RSVP, **please contact Sierra Matis who can be reached at sierra@kidscodejeunesse.org or by phone at (403) 915-5072.**

Hi All,

We've had a minor change and some clarifications from VIU for Monday's event.

- On arrival, the ministers will be met by President Nilson and Associate Vice-President Litchfield just outside Building 373.
- Green room is located in Room 206, Building 373.
- Sturgeon tour members and locations have been confirmed.
- A second Elder-in-Residence, Geraldine Manson (Snuneymuxw), will assist in giving the greeting.
- Updates from Sarah Marriott and ENV have been incorporated into the QA.

Attached are updated comms materials:

- Speaking notes – updated with greeting information and additional Elder
- EMCEE notes – updated with greeting information and additional Elder
- Itinerary – updated with Green room location and tour information
- QA – updated with Sarah Marriott and ENV materials

If there's any questions, please let me know.

Talk soon,

Good afternoon,

FYI – We were asked by FLNRO to prepare some QA bullets for Minister Donaldson; the Truck Loggers' Association will ask him about the truck logger labour shortage at an upcoming convention. Attached and below is our recommended response going to FLNRO.

Minister Doug Donaldson – Presentation to Truck Loggers' Association convention – Jan 18, 2019

1. Skilled Labour Shortage -

Contractors are desperate to fill empty seats of their heavy equipment. We are not waiting for a skilled labour shortage to arrive due to demographics of our aging workforce... It is here now. The TLA website has about 25 job postings. To be blunt, the logging community needs help in bringing in new workers and to retain them. With LNG coming, it is only going to become harder to keep our forest industry running.

Hi Rodney.

Here are the validator quotes from the past 8 weeks (November 18 forward) of media coverage. I haven't gone through the university communications releases, and there may be a few quotes there.

Sarah Marriott mentioned she would get the validator quotes from the AEST releases going back to November, so I didn't go through those.

Let me know if there are other sources to search.

Good Afternoon,

This email is a reminder that all old telephone numbers and associated voicemailboxes will be disconnected by **February 15 2019**

Action to be taken:

- Please make sure to update the voicemail greeting on the old telephone line to inform callers that number is no longer used and advise them of your new UC phone number.

Please see below for instructions on how to access your old voicemail from another phone, recording a new greeting and how to reset the password (if needed) for the old line.

Logging In From Another Phone

1. Dial the voice mail access number ____ 250-387-4600 ____
2. Enter your seven-digit mailbox number (your previous landline phone number), followed by the # key

3. Enter your password, followed by the # key

Recording Your Greeting

1. After logging in, press **8, 2**
2. Press **1** to record your external greeting, press **2** for internal greeting or **3** for temporary absence
3. Press **5** and record your greeting
4. Press the **#** key when finished recording
5. Press **2** to review your greeting
6. Press **7, 6** to delete and start at step 3 to re-record
7. Press **4** to return to your messages

BC Government Voicemail Password Reset Instructions for regular phone users:

- If you need to request a BC Government voicemail password reset (any time of day), send a request by email to CSCHelp@gov.bc.ca.
 - a. The email **MUST** include the 10 digit phone number that needs the password reset.
- The password reset request will be assigned to appropriate group (during regular business hours) once the email has been received.

You will get a temporary password between 1 to 5 business days, by reply to the email.

If you encounter any difficulties logging in to your old voice mail, or recording the new greeting, please contact 250-387-7000 and select option 3 for landline support. If you have any other questions, please contact the FIN IMB Service Desk at 78912@gov.bc.ca

Thank you.

- Dependent students have:
 - never have been married or in a common-law relationship; and

- never have been a single parent with legal custody and financial responsibility for supporting a child; and
- are pursuing post-secondary education within four years of leaving secondary school or the student has never been in the labour force full-time for 2 years. The two years need not be consecutive. However, each year of work must be 12 months in a row.

Hi Michael,

I spoke with Alys Pivetta (Director SABC Service Delivery) who has been working directly with s.22 since October. She spoke to him most recently this afternoon – s.22 continues to be dissatisfied with the outcomes he is receiving from SABC, so I am going to meet with her tomorrow or Wednesday to see what our next steps may be – we may

escalate to a written response from the Executive Director in order to alleviate any confusion that may be arising from the verbal discussions. I'll keep you posted as this one evolves.

Here is another letter of greetings that is **due by end of day Friday**.

The event is a declaration of matriarch ceremony where women will be honoured in reclaiming their role in the community to exercise family laws and passing down knowledge to the next generations.

Hi Shannon,

Mike and I just got off the phone with the Minister and she is hoping to schedule stakeholder meetings for Jan 22 (though she wants to do a tour through Seabird College, Sto:lo IAHLA, and JIBC's Fire Safety Campus [Cliff 114721] this day if possible) , Jan 23, Feb 7, and Feb 11 with the following 12 highlighted stakeholders, as they are available.

She wanted to get your feedback first, ASAP, to identify any flags you have. I recognize you may not have time immediately and that we have a meeting specifically to discuss this tomorrow at noon, but she requested I pass it on to see if you may be able to quickly weigh in. (Julie – I've added the Cliff numbers to hopefully make this process easier)

In the Lower Mainland:

- July 27, 2017 – Mitacs CEO requested a mtg to discuss their programs (UBC or VCO) - 114725

Hi Julie,

I am hoping to get some clarity on how the skills training funding was divided within Indigenous communities in Nechako Lakes. Specifically the following communities: Nadleh Whut'en, Nak'azdli Whut'en, Saik'uz, Stelat'en, Takla Lake, Tl'azt'en and Yekooche First Nations.

I have attached the press releases in question:

https://archive.news.gov.bc.ca/releases/news_releases_2017-2021/2017IRR0053-001963.htm

A table showing the total amount of funding would be helpful.

We've noticed that invites that go out on Fridays have a lower response rate in general.

People tend to take Friday's off more in general, flex days in public sector and a lot of people just want to get out in time for the weekend so are not focused on their inbox as much as other days of the week. People seem to be distracted in general on Fridays more than any other days.

In Ireland, Fridays are known as **POETS** day.

Attached are the guest list and the invite for the UBCO event on Jan. 25.

UBCO had an extensive guest list prepared. It already included local First Nations, MLAs, MPs, student associations and local councils (and many, many others). I've added the faculty associations, staff unions, BCFS and AEST staff.

Take care,

I have given the go ahead to Ian Tostenson (President – BCRFA) in December to release the NR, but I never heard back from him since. I looked on their website and I see labour shortage on their landing page, but not the press release.

I am currently confirming with him that I am correct and that the press release has not been sent around and will get back to you asap.

Hi Rodney,

I prefer the top 10 to remain consistent with the lists we have done in the past.

I do know that the Minister would like to have an example attached to each fact. For example- housing- referencing a quick line that the 630 new net beds is an increase of x% over current stock with a passive house design.

Thanks,

Good morning,

I'm pleased to announce that after a competitive search, Nicole Adams will be joining ITA as our Director, Communications, effective Monday, February 11. Susan Kirk will continue in her role until the end of March so we have a great opportunity to benefit from both of their expertise during this transition period.

Nicole is currently the Director of Member & External Communications with Central 1 Credit Union, which provides a variety of services to over 250 credit unions across Canada. Nicole brings with her an extensive background in both the public and private sectors working in high profile roles with organizations such as Westport Fuel Systems, Street To Home Foundation and BC Cancer Agency.

In my interactions with Nicole, what stood out to me is her desire to return to public service to contribute to meaningful work that benefits others. I am confident Nicole will be a great fit in our organization, please join me in welcoming Nicole in February.

THE EVENT

PROACTIVE EVENT OR INVITATION

The City of Vancouver will be hosting a groundbreaking event for the redevelopment of Rodden Lodge, a former single-room-occupancy hotel.

The new site will provide 213 social housing units, as well as the new location of the Evelyn Saller Centre.

EVENT

Expand and revitalize affordable housing stock in Vancouver

WHO'S ORGANIZING? (Specify lead individual and coordinates)

- Rhonda Morris, Senior Communications Specialist, BC Housing
- GCPE, Ministry of Municipal Affairs and Housing

BACKGROUND NOTES

- The redevelopment is planned to fit the developments and businesses in the DTES neighbourhood context, encourage a range of housing options, and improve the overall quality, accessibility and inclusiveness of the public areas.
- Roddan Lodge was originally constructed in 1977 and is nearing the end of its functional life. The City of Vancouver has identified the redevelopment of Roddan Lodge as part of their Capital Plan and has committed funding and land equity to the project.
- When completed, the development will be an 11-storey mixed-use building consisting of 175 studio-units (156 units will be at the shelter rate), 19 one-bedroom units and 19 two-bedroom units primarily for seniors, and will be the new home of the Evelyn Saller Centre.
- Evelyn Saller Community Services Centre, provides a broad range of services to the DTES including a low-cost cafeteria, showers and laundry services and variety of social and recreational programs. Amenities provided on the second floor for the use of residents include a lounge, kitchen, multi-purpose room and meeting space.
- 156 studio units will be offered at the shelter rate and the remaining units will be for low-income singles and families.
- The vacant former building was demolished and construction started in December 2019. The project is anticipated to be complete in late 2020.

FUNDING

The total project value is approximately \$55 million for the new housing and community centre, the breakdown of funding includes:

- The Government of Canada, through CMHC, provided a grant of \$50,000.
- The Government of B.C. provided \$4.8 million through the Investment in Housing Innovation program.
- The City of Vancouver provided the land valued at \$4 million and capital funding of \$40.9 million.

VENUE DESCRIPTION

- The announcement will take place on the construction site at 124 Dunlevy Avenue in Vancouver.

JIBC is available for Jan 23. See considerations below.

Let us know what DMO/MO says and we can coordinate with JIBC and work with relevant areas to prepare tour material.

Hi Dean,

I spoke to JIBC today and confirmed that they can set up a tour of the Fire Safety Campus in Maple Ridge on January 23rd.

JIBC President Michel Tarko is available between 9:30 am to 2:00 pm. JIBC will need to schedule other staff from their fire safety program, and so are hoping we can confirm as soon as possible. They have advised that the Minister would need 1.5 to 2 hours to cover all of the campus, which is apparently quite large.

Thanks,
Rob

Good morning Julie,

The Minister confirmed with me early this morning that she would like to attempt, leaving Burnaby on Tuesday, January 22 at 8:15 am and returning back to Burnaby for 5pm, to accomplish the following, in order:

- A visit to Sto:lo IAHLA in Chilliwack,
- A visit to Seabird College in Agassiz,
- A tour of JIBC Fire Safety Campus with local MLAs Beare and D'Eith

Is it possible to try to set this up? I will do my best to get in touch with the local MLAs for the latter.

On Wednesday the 23rd she is hoping to do some stakeholder meetings, the details of which I hope to be able to share with you later this afternoon.

Thanks very much, Jennifer. I'm looking forward to our conversation today at 1pm.

Rodney, I believe as part of the Capital Day briefing for the Minister we received from Kevin a few placemat maps for all the SIF projects that have been completed and are yet to be announced as well as some for all of the Student Housing that have been completed and are yet to be announced (both from the loan program, or direct capital investments). Would you be able to source this data and present a similar excel spreadsheet for this information including the name of the institution, the provincial/federal/institution funding breakdown (where applicable), the city in which it is located, when it is currently slated to go to TB (where applicable and known), and the expected earliest announcement month?

I am also curious about ITA events or proposed announcements related to the WDA. Could you please check in with Bindi to get a picture of what successes she predicts coming out of her program area this year and where it may be appropriate to utilize the Minister's time to enhance these successes?

Hi Michael,

Attached are the materials for MMM's review – there is a quote for her approval in the NR (also copied below), SNs, a QA, and an invite list – please let me know if there are other organizations or individuals you'd like us to have added to the invite list when the city sends it out.

Thanks – happy to talk if you have any questions.

Take care,

Hi Craig

Attached are the finals:

- SN for Minister and MLA Melanie Mark
- NR from City of Vancouver with draft quote inserted and below
- QA
- Invite list

The city has moved the beginning of the event from 9:30 to 9:45 a.m. The city is also aware of the change in representative and will be updating their invite.

“The health of a community is reflected in how it cares for its most vulnerable people, and Roddan Lodge is an example of a warm, safe and inclusive place that meets the need of its residents,” said said Melanie Mark, Minister of Advanced Education, Skills and Training and MLA for Vancouver-Mount Pleasant. “This project is a great example of how a thoughtful and inclusive redevelopment can help shape a community into one that is welcoming and supports the people who live there.” DRAFT

Hi Michael; Happy to move this along as Barb and Jenn have left for the day. I just added a comma and a hyphen. However, the second to last sentence reads awkward and may be grammatically incorrect, depending on what it is that is doing the fuelling e.g. contributions fuel? or communities fuel?

EDIT: Thank you for the contributions you make every day to support our communities that fuels the future for generations to come.

Hi Craig/Matt,

Finals with updated MLA Mark quote.

The City of Vancouver would like to double check if MLA Mark is okay with the agenda as it is right now, with her speaking after the mayor.

BC Housing is recommending leaving it the way it is - the City is providing \$40M and we are providing just over \$4M.

Either way, let us know if any concerns and we will relay it to CoV.

Thanks

Subject: RE: MEDIA REQUEST: Abbotsford news - funding and international students

Hi Rodney,

Here is the approved

The ministry needs to balance capital requests from individual universities such as UFV against demand from throughout the sector alongside provincial priorities, labour market demand and funding availability. The upcoming Budget 2019 will outline capital funding for the next three years.

Overall, around 14% of public post-secondary students are international, and public post-secondary institutions are expected to enroll international students on the basis that they do not displace a Canadian citizen or permanent resident from a space funded by the provincial government.

The ministry is currently engaging with the sector, students and other partners to develop a balanced approach to international education.

International education makes an important contribution to our education system as well as the B.C. economy. It enriches student development – of international students who come to B.C. and of B.C. students who travel abroad. We want to make sure the province continues to deliver the quality education experience students expect and deserve.

Request

Reporter is doing a story on the University of the Fraser Valley's enrolment changes and will be noting its request for funding as outlined in its most recent capital plan. He's based his story on the university's last accountability report: https://www2.gov.bc.ca/assets/gov/education/post-secondary-education/institution-resources-administration/accountability-framework/iapr/2017-18/ufv_iapr_2017-18.pdf

Will the university be getting any additional capital funding anytime soon?

The story also revolves around the fact that international enrolment have been rising recently while domestic enrolment has been decreasing. According to the reporter, that domestic enrolment is expected to pick up in four or five years. UFV is already overcapacity, so, his question is: what is the province planning to do to make space for both more international students and more domestic students?

Launch of CNC Sonography Program

**January 28, 2019
Prince George, B.C.**

Good morning,

Following protocol, I would like to acknowledge that this ceremony is taking place on the unceded territory of the Lheidli T'enneh people.

Congratulations on the launch of the first class of students in the Diagnostic Medical Sonography program at the College of New Caledonia. I wish I could be there in person to celebrate the launch of this significant new program in the School of Health Sciences.

I'm proud to be part of a government that is committed to improving access to services that people can count on – services such as health sciences education and skills training. The sonography program at CNC will produce highly skilled health professionals who will improve the quality of life for patients in our province. When you graduate, you'll be filling the critical need for health technologists in Northern B.C.

I'd like to recognize the collaborative efforts of CNC, B.C. Institute of Technology, Northern Alberta Institute of Technology and Northern Health and Sonography Canada in developing this program.

Today, we celebrate your dedication and determination. We are counting on you to be the change-makers we need to build the best B.C.

Congratulations and keep shining!

Ha'awa,

Revised to add more clarity on B.C.

Approved.

Hi Louis; There is no free university tuition program run by the B.C. government for refugees.

Refugees in B.C. must be protected persons and/ or convention refugees to be eligible for Student Aid BC (SABC) funding and supply documentation of their status to SABC with their application for student financial assistance.

Individual post-secondary institutions in B.C. may offer scholarships or bursaries for refugees. There may also be refugee/settlement programs in other jurisdictions that offer scholarships, however, we do not have any information on these programs.

Request

I am a fact-checker for AFP news agency in Montreal, and I am currently working on a likely false claim about refugees in Canada not having to pay for university tuition.

Could your respective ministries please provide me with a short statement on whether that is the case or not? Are you aware of any special privileges or grants given to refugees in Canada in regard to access to higher education in your respective provinces?

Importance: High

Hi Amanda,

A couple of things to highlight with this potential tour:

- The meetings booked with MITCAS and the PSEC bargaining update would need to be moved to a start of 4:30PM to allow for travel time from the airport to either VCO or the constituency office.
- There is only one flight option that would get the Minister on the ground on time in PG for the announcement: 8:05AM
- There are two options for flights back to Vancouver 1:50pm-3:11pm or 3:25pm-4:45pm
- I am working with Negin to fill in potential other stops or people to meet with, but wanted to get you a draft itinerary for decision, so if the Minister does want to go to PG- we can book flights and get materials ready

Hi All,

Wanted to let everyone know that the Minister will be flying up to Prince George on Monday to announce the opening of CNC's new sonography program with a total investment of \$2.5 million.

- The Minister will be departing Vancouver at 8:05am, landing in Prince George at 9:34am (via Westjet) and departing prince George at 1:50pm, landing in Vancouver at 3:11pm (Via Westjet)
- Arrival at CNC will be at 10:10am and the Minister will depart CNC at 11:45
- The following are opportunities the MO has identified as a potential second stop from Noon-12:45. **If both GCPE and the DMO can identify other potential stops that would be good for the Minister to visit in the area, please let me know as soon as possible.**
 - Visiting UNBC
 - Meeting lunch with Mayor Lyn Hall regarding research chairs at UNBC, TRU and UBCO for disaster management (follow-up letter from mayor sent January 7)

Randall, I will need an institutional profile for CNC and UNBC and to know who from the DMO will be accompanying the Minister & Amanda. Happy to chat if you'd like.

Thanks,

Michael

SFU students have a petition claiming students at SFU are facing a 20% tuition increase.

Reporter is looking for some accessible numbers on tuition rates at BC universities over the last 10 or 20 years. If it's an average, that's fine, or it could be a more specific sample, say UBC, SFU, UVic undergrad (could even pick a degree, if that's what is handy).

If you have data on international student rates, that could help as well. Deadline is end of day so the story can run online / radio in the morning.

Also, looking for a statement from the Minister or Ministry.

Subject: Cabinet And MLA's Post Budget

Hi All,

We are beginning to put together a post budget tour that will help us amplify and echo the budget throughout BC. As part of this planning process we would like you to block **three days** for each of your cabinet members and for Ravi, Mitzi and Bowinn. We need you to block either March 1 or March 8th. And then we need you to choose two days over the March break (March 11-22nd). Please be prepared for travel outside of the Lower Island and Lower Mainland.

These days will be used for secondary Budget tour. We will be putting together an exciting package of activities which will include a visit to a board of trade or chamber of commerce, a opportunity to meet S.13 stakeholders and or an announcement. Full details of these activities will come to you in early February.

Please send me the dates you have chosen by January 16th. Give me a call if you have any questions.

Kate

Do you want the student speaker and/or the radiologist, Dr. Chui, invited to the tour with the Minister or just join at the pre-brief?

Hi Michael,

Just following up on this – have you had an opportunity to collect your records? Would be good to get them over to IAO this week if possible. Let me know if I can assist you with the collection or harms assessment.

Hi Michael,

Apologies on missing this email (just catching up on a few things and noticed I had not responded).

Process is fairly simple.

Go into your sent items box and highlight the appropriate range of emails (left-click the oldest record and then shift-left-click the newest one will select all records between the two – ensure your records are sorted by date).

Click the “File” tab and then click Print.

Ensure memo style is selected and then click print options.

At the bottom of the box there should be a checkbox for “Print Attached Items” ensure this is NOT checked. Click OK.

Ensure your printer destination is set to “PDF” – if you do not have the capability to print to PDF on your computer you may need to contact Legislature IT to get that setup.

Then click print. It should print all your emails in a single PDF. You can then send that to me.

If you encounter any challenges feel free to give me a call or I can pop over and walk through it with you.

Hi Jeremy,

I would need a run-through on the technical side of gathering records from outlook. I do not hold any records of text messages.

Thanks,

Michael

Hi Michael,

We now have the first request in this series for MA sent items that falls within your time in the office.

Please see the attached and let me know if you have any questions about the technical side of gathering the records from Outlook and I can assist. If you have any text messages (in any of the listed formats)

that need to be gathered, the best way to do it tends to be screenshots of the individual text-strings. If there are a lot, let me know and we can discuss.

Subject: Call for Records AED-2019-90200 Due January 23, 2019

Hello

Please find attached a formal request made under the *Freedom of Information and Protection of Privacy Act* (FOIPPA). Your analyst for the attached request will be Lauren Lemieux

Please send the records to FOI.Health.Education@gov.bc.ca by January 23, 2019.

Request Due Date: February 20, 2019

You should be aware that FOIPPA obligates us to assist the applicant and to respond without delay, openly, accurately, and completely. In the event that the ministry must defend the adequacy of its search to the Information and Privacy Commissioner at Inquiry, those involved in searching for records may be required to sign affidavits to prove that they have conducted an adequate search for relevant records.

Please do not hesitate to contact your analyst to discuss:

- whether the records may be routinely releasable;
- whether the information is being prepared for public release or is already publicly available;
- whether staff would be available to discuss the request with the applicant, if the applicant is agreeable;
- ways in which an applicant may want to narrow/focus their request to reduce potential fees; and/or
- any other questions or concerns relating to this request.

Thank you,

Sasha Joyce, FOI Analyst
