Source: Student Transitions Project, Fall 2020 submission

1. Data exclude offshore students. At Colleges, Institutes and Teaching-Intensive Universities, international students include students who have paid an international fee for at least one course in the period. At Research-Intensive Universities, international students are defined as those who have obtained a visa of some kind (student visa, work permit, diplomatic visa, or minister's permit). Students whose visa status was not identified are included with domestic students.

2. Each number has been rounded to the nearest five. The effects of rounding may result in totals in different reports not matching exactly when they would be expected to match. Data is restated annually to maintain accuracy and reflect institutional updates.

3. Institutions have been grouped by institution type. Colleges includes: Camosun College, Coast Mountain College, College of New Caledonia, College of the Rockies, Douglas College, Langara College, North Island College, Northern Lights College, Okanagan College, Selkirk College, and Vancouver Community College. Institutes include: BCIT, JIBC, and NVIT. Research intensive universities include: SFU, UBC, UNBC, and UVIC. Teaching intensive universities include: Capilano University, Emily Carr University of Art and Design, Kwantlen Polytechnic University, Royal Roads University, Thompson Rivers University, University of the Fraser Valley, and Vancouver Island University.

4. Academic Year is from September 1 to August 31. Fall term is from September to December. Spring term is from January to April. Summer term is from May to August.

5. In any given year, some students attend more than one institution. Since these students are included in the headcount of each institution they attend, duplication is expected, and the sum of all institution type³ headcounts will produce an overstated total. This table presents the unique headcount of students enrolled at each aggregation presented.

6. 2020/21 Fall enrolment data is preliminary as fall terms were in progress at the submission date. Historically, final fall enrolment has increased by 1-2% (with some variation between institution types).
