Hi Connecting again,

Naveen would like your Ministers to play a speaking role. Can you please confirm attendance ASAP and let me know if they have time in the caucus break tomorrow to chat with Naveen. And if not hopefully time to connect with him Wednesday morning.

Let me know,

Thanks!

Hi Folks,

Want to connect about a Chinese Community Conversation around Vaccine we are now planning for Wed May 5th at 12:30pm. We would like to make sure your MLAS are in attendance. Can this be made possible?

Thanks so much!

Hey Jeff,

Very sorry, I saw Kathleen's out of office but not Michaels. Can MAK make this event? Folks are hoping she will take a speaking role and possibly be available for interviews afterwards.

We would also be briefing at 10:15am tomorrow with the Premier on this and another meeting tomorrow. IF she is available to join that as well it would be great.

Lastly, Naveen would love to chat with her ahead of time. IS she free during the caucus break today or sometime tomorrow morning?

Thanks so much!

Hello everyone,

Thank you so much for joining me here today. I'm Anne Kang and it's my privilege to be serving British Columbians as the new Minister of Advanced Education and Skills Training.

I am joining you from the traditional and ~~the~~ the unceded territories of the Musquam, Squamish, and Tsleil-Waututh Nations. Thank you to Premier John Horgan for hosting and ~~for Minister Chen and Minister Chow for leading this discussion today to Minister Katrina Chen for moderating.~~

I want to begin by thanking everyone for everything you've done during the pandemic to help keep our communities safe. I know that it has been difficult to be apart from each other during this challenging time. Diligent mask wearing and social distancing has been tough, but please remember that when we take precautions, we aren't just protecting ourselves, we are protecting our loved ones as well.

There is light at the end of the tunnel, but we aren't there yet. Every person who receives a vaccine makes us all safer. Getting the vaccine means that we can soon return to a more regular lifestyle. This means that we can slowly attend activities to celebrate special events and spend time with our loved ones, such as birthday parties, weddings, graduation. This also means that our communities and businesses can safely re-open for service for us to gather once again.

~~Just~~ Last week I received my dose of Astrazeneca. It was quick and easy, and I feel good now, and now ~~I~~. Taking the vaccine means know that I am keeping my family and community safe and that it can help keep transmission low. safe.

Now more than ever we need to reduce transmission of the virus, and every person who is vaccinated makes that task easier. I ~~ask each and~~ encourage everyone ~~of you~~ to please get vaccinated as soon as you are eligible to keep our loved ones safe and healthy. Everyone eighteen and older can register now, you will receive an invitation when it is your turn. Together we reduce transmission and begin to return to life as normal. But we need your help. ~~R~~ I encourage everyone to register today when it is your turn.

Over the past year we have seen an increase of the Chinese Canadian community ~~We have seen a massive spike in hate crimes, particularly those aimed at Chinese Canadians.~~ has been resilient. We have seen a massive spike in hate crimes, particularly those aimed at Chinese Canadians. But we have been resilient. You have been leaders, and I want to thank each and everyone of you for your hard work and stepping up to in the fight against anti-asian racism. You have been leaders.

I hope that we have productive discussion this afternoon. Thank you everyone for attending today.

I'll add the MLA intro. I think the points are all covered. Do you think it is worthwhile to share the EN version with the Minister to review, before translating?

Looks good. I think she can also say she is the MLA for Burnaby-Deer Lake.

Was there anything else from her call with Naveen that needs to be covered or does that do it?

Hello everyone,

Thank you so much for joining me here today. I'm Anne Kang and it's my privilege to be serving British Columbians as MLA for Burnaby-Deer Lake and the Minister of Advanced Education and Skills Training.

I am joining you from the traditional and ~~the~~ the unceded territories of the Musquam, Squamish, and Tsleil-Waututh Nations. Thank you to Premier John Horgan for hosting and ~~for Minister Chen and Minister Chow for leading this discussion today to Minister Katrina Chen for moderating.~~

I want to begin by thanking everyone for everything you've done during the pandemic to help keep our communities safe. I know that it has been difficult to be apart from each other during this challenging time. Diligent mask wearing and social distancing has been tough, but please remember that when we take precautions, we aren't just protecting ourselves, we are protecting our loved ones as well.

There is light at the end of the tunnel, but we aren't there yet. Every person who receives a vaccine makes us all safer. Getting the vaccine means that we can soon return to a more regular lifestyle. This means that we can slowly attend activities to celebrate special events and spend time with our loved ones, such as birthday parties, weddings, graduation. This also means that our communities and businesses can safely re-open for service for us to gather once again.

~~Just~~ Last week I received my dose of Astrazeneca. It was quick and easy, and I feel good now, and now I'm taking the vaccine means ~~know~~ that I am keeping my family and community safe and that it can help keep transmission low. safe.

Now more than ever we need to reduce transmission of the virus, and every person who is vaccinated makes that task easier. I ~~ask each and~~ encourage everyone ~~of you~~ to please get vaccinated as soon as you are eligible to keep our loved ones safe and healthy. Everyone eighteen and older can register now, you will receive an invitation when it is your turn. Together we reduce transmission and begin to return to life as normal. But we need your help. I encourage everyone to register today when it is your turn.

Over the past year we have seen an increase of the Chinese Canadian community ~~We have seen a massive spike in hate crimes, particularly those aimed at Chinese Canadians.~~ has been resilient. ~~We have seen a massive spike in hate crimes, particularly those aimed at Chinese Canadians.~~ But we have been resilient. You have been leaders, and I want to thank each and everyone of you for your hard work and stepping up to in the fight against anti-asian racism. You have been leaders.

I hope that we have productive discussion this afternoon. Thank you everyone for attending today.

Hello everyone,

Thank you so much for joining me here today. I'm Anne Kang and it's my privilege to be serving British Columbians as MLA for Burnaby-Deer Lake and the Minister of Advanced Education and Skills Training.

Thank you to Premier John Horgan for hosting today's event and also the many MLA's who are here, to understand the importance of COVID vaccination, and to hear your concerns. Your voice is very important to our government. Thank you for taking the time out of your busy schedule to join us today.

I want to begin by thanking everyone for everything you've done during the pandemic to help keep our communities safe. I know that many organizations have been donating PPE's such as masks, sanitizers, and goggles to local organizations and people in need. I know that it has been difficult to be apart from each other during this challenging time. During the past year of the pandemic, we've had to miss out on major cultural festivals and annual events, such as Lunar New Year. But there is light at the end of the tunnel, but we aren't there yet.

Government has been working diligently to roll out vaccines to British Columbians. Once everyone is vaccinated, we can slowly go back to the lifestyle that we miss the most, such as meeting with friends and having meals together. Wouldn't it be great to socialize with our friends and families; or visit our elders at care homes, knowing that they will be safe when we visit. Every time a person receives a vaccine, this takes us one step closer to making us all safer. Getting the vaccine means that we can soon return to a more regular lifestyle. One of the reasons why we are holding this zoom event today is to understand the concerns of the Chinese Canadian community on vaccination, and also to support more Chinese Canadians to register for their vaccination.

I look forward to a time, really soon, when we can attend activities to celebrate special events, spend time with our loved ones, such as birthday parties, weddings, and graduations. This also means that our communities and businesses can safely re-open for service for us to gather once again.

Last week I received my dose of Astrazeneca. It was quick and easy, and I feel great. Taking the vaccine means that I am keeping my family and community safe and that it can help keep transmission low. My parents have the vaccine as well. Last weekend, on a sunny saturday, I was able to take a walk at a nearby park with my mom. Afterwards, we went for tea at my grandfather's front porch. My grandfather is 95. We were all so happy.

Now more than ever, we need to reduce transmission of the virus, and every person who is vaccinated makes that task easier. We encourage everyone to please get vaccinated, as soon as you are eligible, to keep our loved ones safe and healthy.

Over the past year we have seen an increase of anti Asian-racism and rise in hate crimes. But we have been resilient. You have been leaders, and I want to thank everyone for your hard work and stepping up to fight against anti-asian racism.

I hope that we will have a productive discussion this afternoon. Thank you everyone for attending today.
