**Subject:** For quote approval + regular NR approval

Good morning all, I have a quote for approval:

"We wouldn't have an agricultural industry without bees. We need them. It's critical. And bees are facing challenges around the globe," said Agriculture Minister Lana Popham, "It's awesome to see BeeBC funding help with those challenges and support communities as they find solutions to support bees".

As well as the attached NR with the quote embedded. The NR is an update on the second intake of projects from the BeeBC initiative. The first part of the quote was taken from a scrum in May 29, 2018 at approximately 12:15, I feel like it fits really well with this NR.

Sincerely,

**Subject:** Meeting Request

Hello

I would like to meet with the AGRI Minister about a constituency issue. It's a unique case that has an urgent timeline because the family is facing a relocation deadline of March 14<sup>th</sup>.

So, sometime this week would be preferred. I would like to include the family by speaker phone if possible.

You can let them know (and I will let Lana know personally) that this intended as a problem solving meeting. I do believe we could find a way to resolve this.

If the Minister does not have time this week, a meeting with the DM or ADM would be acceptable.

Let me know if you need anything else.

Cheers  
M

**Subject:** MLP quote for approval for BCSRIF NR

Hi there, here's our suggested MLP quote. See below PJH approved quote, as well as the latest draft of the NR (back with Feds for further changes):

"The BC Salmon Restoration and Innovation Fund demonstrates that the province is taking significant action to support wild salmon stocks and fisheries. We are working in partnership with Fisheries and Oceans Canada to protect the health of wild salmon, and support the First Nations, communities and industries that rely on them."

**Quote from B.C. Premier John Horgan**

"Wild salmon are a part of who we are in this province. Over the past 20 months, our government has been working with First Nations and industry to develop a path forward towards a sustainable B.C. fishery that supports wild salmon. By dedicating resources to habitat restoration and salmon runs, this fund will build on that work to make sure wild salmon stocks thrive in B.C."

**Governments of Canada and British Columbia now accepting proposals to help restore Pacific salmon and boost the province's fish and seafood sector**

Version 5 below

**Protecting B.C. farmland and supporting farmers**

**By Lana Popham**

**Minister of Agriculture**

(Date)

(XXX words)

Recently, the B.C. government marked an important milestone with the second phase of our commitment to revitalize the Agricultural Land Reserve (ALR) and the Agricultural Land Commission (ALC). Last week I introduced Bill 15, the agricultural land commission act 2019. It will strengthen the governance and independence of the ALC so it can advance its mandate to encourage farming and protect farmland.

The ALR was a gamechanger when it was implemented 45 years ago. Unfortunately, the old government allowed pressures on our farmland to increase, encouraging non-farm use and speculation and weakening protections for the ALR, which is land reserved for farming and less than 5% of B.C.'s land-base. We've also heard directly from the ALC that their governance structure is out of date and needs updating.

I am proud to be part of a government with a clear message: British Columbia's ALR is for farming. In Bill 15, we are proposing changes that will improve the effectiveness and efficiency of the ALC. The Commission will have guaranteed regional representation and a new flexibility to organize commissioners into decision-making panels on applications, when warranted, by topic, technical expertise or geography. We are not changing the rule that private landowners who want to remove land from the ALC need to work through local government, but under the new rules it will be local government that will make the application so it is clear that the requested exclusion fit with local area plans and community standards. We want to support communities that want to stop the "swiss-cheesing" of the ALR, removing small pieces of farmland in many places because this makes it more challenging to farm and harder for farming communities to thrive.

There is no question, the old government left us with some major challenges and I am moving forward by making positive changes for the people in our agriculture sector. By ensuring that affordable agricultural land is available is now and into the future, we are helping farmers continue to thrive and supporting new farmers who are building their farming businesses.

Strengthening the ALC is just part of this new government work to support B.C. farmers so we have access to safe, locally grown food for generation to come.

Hi Minister,

Two SM posts for your consideration today below. I also can't seem to access the twitter account on my new computer – would you mind re-sending me the pw if you have it handy?

Thanks!

**Facebook/Blog: New priority bus lane funding today**

Building on the success of the northbound Douglas bus-only lane, I'm pleased that our government is continuing to "drive forward" this initiative by announcing a second bus-only lane between the Burnside bridges and Tolmie Avenue in Saanich!

Our government is investing \$11 million, along with \$4.9 million from the federal government to complete this matching southbound lane. This new lane will establish a system of continuous bus lanes in both directions between the Mackenzie interchange and downtown Victoria.

I've personally heard from constituents young and old and from all walks of life who depend on our transit system to get them where they need to go. We know the northbound lane is already saving commuters significant amounts of time, and this additional southbound lane will allow commuters to spend less time in traffic and more time at home with their families... a result I can really "get on board" with!!

<https://www.saanichnews.com/news/bus-lane-project-for-greater-victoria-continues-with-federal-funding/>

(note: no separate photo, but including this link will take people to the news story and will also function like a photo on facebook)

**Twitter and Instagram : update on Salmon Expedition**

Update from the Research Vessel that myself and @JonathanWNV sent off a few weeks ago: Professor Kaganovskiy and the #IGAExpeidtion scientist are studying Pacific salmon in the Gulf of Alaska! Thanks team for your contribution to the
