Hi Brian and Rayna

The national association for mink - Canada Mink Breeders Association - has indicated that they are willing and able to provide support as needed for information and guidance on the mink industry

The contacts are Marianne Patten (executive secretary) and Matt Moses (president). Both are very knowledgeable and responsive.

I have provided their contact information to the Fraser health authority as well as the CDC. Matt is located in Ontario, Marianne in Nova Scotia. I rely heavily on them for mink industry guidance.

Best regards
Daniel
