

# Other livestock inventories on farms, Census of Agriculture, 2021 [1, 2]

Frequency: Every 5 years

Table: 32-10-0373-01

Release date: 2022-05-11

Geography: Canada, Province or territory

Geography [3, 4, 5]		British Columbia [PR590000000]	
Unit of measure	Number of farms reporting		Number of animals
	Year: 2021		Year: 2021
Other livestock		Symbol	Symbol
Horses and ponies	2,245	B	19,260 A
Donkeys and mules	297	B	598 B
Goats	795	B	17,259 B
Llamas and alpacas	237	B	1,663 B
Bison (buffalo)	48	B	14,888 D
Elk (wapiti)	0	B	0 A
Deer (excluding wild deer)	6	C	318 E
Rabbits	208	B	1,778 E
Mink	12	C	54,303 E

Symbol legend:

- A data quality: excellent
- B data quality: very good
- C data quality: good
- D data quality: acceptable
- E use with caution

Footnotes:	
1	In 2021, there have been changes to the definition of a census farm. Caution should be taken when comparing the 2021 Census of Agriculture data with data from previous censuses. For a summary of these changes, refer to <a href="https://www12.statcan.gc.ca/census-recensement/2021/ref/dict/az/Definition-eng.cfm?ID=pop012">https://www12.statcan.gc.ca/census-recensement/2021/ref/dict/az/Definition-eng.cfm?ID=pop012</a> >Dictionary</a>."
2	In 2021, there have been changes to the definition of a census farm; in Yukon and Northwest Territories, some activities that were previously included within the definition are not included in 2021. Caution should be taken when comparing the 2021 Census of Agriculture data with data from previous censuses.
3	The nine-digit geographic code at the end of the geographic names comprises two digits for the province, two for the census agricultural region, two for the census division and three for the census consolidated subdivision. Reference maps provide the geographic boundaries, codes and names for all geographic areas appearing in the data tables. <a href="https://www150.statcan.gc.ca/n1/pub/95-630-x/95-630-x2022001-eng.htm">https://www150.statcan.gc.ca/n1/pub/95-630-x/95-630-x2022001-eng.htm</a> >2021 Reference maps</a>."
4	The Census of Agriculture typically makes significant refinements in the geographic assignment of agricultural operations and changes in census consolidated subdivision boundaries between censuses. In 2021, the main farm location's rule was used more stringently, meaning far fewer refinements were made. Due to these changes caution should be taken when comparing 2021 Census of Agriculture data with previous censuses.
5	The Yukon, Northwest Territories and Nunavut are not included in Canada totals.
