Hi Nedinska,

The Wildlife Committee met May 7th 2013 - s.16

I'm available tomorrow (Friday) morning before 10:30, or late next week (Thursday or Friday) if you would like to chat.

Thanks,

Mark

Hi all,

The Nisga'a Final Agreement Implementation Committee met this past November 4, 2013. I thought I would pass along to you items discussed that may be relevant to you – s.13 s.16

s.13,s.16

Wildlife Committee

s.13,s.16

I said I would follow up with BC wildlife members about the status of the Wildlife Committee. Mark, I will call you on this item if you want to let me know when a good time will be with your schedule.

Best,

Nedinska Donaldson

Hi Robert,
Sorry for the delay in getting back to you.

I sit on the Nass Wildlife Committee. T s.13,s.16

Yes, minutes are produced from the meetings. Dana Atagi, who chairs the committee is in the process of writing up minutes from the last meeting held May 6th. By copy of this I'll ask him to forward a copy of the minutes to Nedinska. In general the committees don't produce reports. s.16

s.16

I'll have to leave it to Jeff and Dana to response to the s.13. questions if they haven't done so already. Thanks, Mark

Subject: FOLLOW UP QUESTIONS RE Nisga'a Final Agreement: fish and wildlife committees

Hello Dana, Mark, Jeff,

Thank you for clarifying who the representatives are on the JFMC and the NWC.

The reason for my inquiry arose out of the most recent Implementation Committee for the Nisga'a Final Agreement (May 27, 2013).

There were a number of topics on the agenda that the new IC Representative for BC, Nedinska Donaldson, felt she was not prepared to speak to at the meeting.

She would like to have a better dialogue with the working groups so that at future IC meetings, she will be able to respond to any inquiries at the time of meeting rather than having to bring it back from the meeting.

With that, she would like some information on both the JFMC, and the NWC.

Specifically, she would like to know:

- (1) What are the main issues that each committee is grappling with at the moment?
- (2) Are there minutes produced from committee meetings, and if so, would it be possible to forward copies, or links to copies, to us?
- (3) Are there any reports produced? Again, could we be provided copies or links to copies?

There were a couple of issues, **s.13,s.16** that arose at the last IC meeting.

There was a general update inquiry as to the status of **s.13,s.16** in general. We were not sure if BC, through the JFMC or otherwise, played any role in that.

There was a specific discussion on the **s.13,s.16** Again, we were not sure of the role of the JFMC had, if any, on this issue. **s.13,s.16**

s.13,s.16

We would appreciate any information you could provide, at your convenience.

The desire is to create a better working relationship between the BC Implementation Committee representative and the various working groups dealing with Nisga'a.

We look forward to hearing from you.

Thank you.

Robert

Hi Robert,
Dana Atagi represents the province on the Joint Fisheries Management Committee.

Dana and I are the reps on the Nass Wildlife Committee. Larry Proteau, who is a BC Wildlife Federation member, currently sits on the NWC as a provincial representative. In case this is confusing, the Nisga'a Final Agreement states that the Nisga'a Nation and BC will each appoint an equal number of members, to a maximum of 4 each. The province has chosen to have one of its positions filled by a member of the BCWF. The fourth of the provinces positions isn't currently filled.

I hope this is the information you needed.
Mark

NEWS RELEASE

For Immediate Release
2014FLNR0050-000502
April 17, 2014

Ministry of Forests, Lands and Natural Resource
Operations

Wolf management plan released

VICTORIA – The Ministry of Forests, Lands and Natural Resource Operations today released the province's wolf management plan.

The plan fully recognizes that the fundamental goal of wolf management in British Columbia, as with all other provincial game species, is to maintain self-sustaining populations throughout the species' range. The plan proposes a 'two-zone management strategy' approach:

- In most areas, wolf management will be concerned with ensuring that wolves continue to serve their ecological role as a top predator. Sustainable hunting and trapping opportunities will use controls on harvest through specified season lengths and bag limits.
- In areas of livestock depredation or wildlife populations threatened by wolf predation (e.g. mountain caribou) are a concern, the plan commits government to responsibly helping stakeholders, ranchers and First Nations manage the impacts of expanding wolf populations. In these areas, detailed implementation plans would be developed before any actions are undertaken.

The plan previously underwent a public consultation and over 2,500 comments were received. All submissions were carefully reviewed and helped inform and improve the final plan. The results of the consultation confirm there are strongly differing beliefs and values on the management of wolf populations and re-affirmed the importance that government make balanced decisions on the basis of sound science.

The wolf management plan, like other species management plans, summarizes the best available scientific information on the biology and threats to the species and informs the development of a management framework. It sets goals and objectives, and recommends approaches appropriate for species or ecosystem conservation.

The plan indicates wolf populations are likely stable or increasing throughout the province and are not considered an 'at-risk' species. The current wolf population estimate is approximately 8,500 which is similar to an earlier estimate of 8,100 in 1991.

The last wolf management plan was prepared in 1979, and the new plan provides a substantive update in the science guiding the conservation and management of wolves.

The B.C. government is committed to ensuring sustainable wildlife populations and healthy predator-prey relationships throughout the province. The government is also committed to helping stakeholders, ranchers and First Nations manage the impacts of wolves on livestock and protecting endangered species.

Quick Facts:

- The wolf is a highly adaptive, intelligent carnivore that inhabits most of British Columbia. Most wolves weigh between 30 and 50 kg with coloration varying from nearly pure white to a mixture of grey, brown, black and white.
- Wolves feed primarily on large ungulates, supplementing their diet with smaller prey.
- Wolf populations in the Thompson, Cariboo, Kootenay and Okanagan regions appear to be increasing while other populations appear to be stable.

Hi Robert, following up on our discussion this morning, I have attached some information that will provide more background on the Nisga'a Fisheries and Wildlife (NF&W) Program and their Nass Management activities. The NF&W have a very active and professional program and are a pleasure to work with.

1. s.16

2.

With regard to being more in the loop with what goes on with the JFMC, Nass fish and fishery management, you and Nedinska are welcome to join us at the next JFMC meeting in Vancouver this fall or you can attend the following meeting which will be held somewhere in the Northwest in May (TBA). The late fall meeting in Vancouver typically takes place on the second week of December and lasts a single day. You are both welcome to attend and I will just need to know if you are interested so I can advise the JFMC members of your attendance ahead of time. I'll let you know the date of the meeting when announced and you can decide. Regardless, once the minutes of each JFMC meeting are completed I will forward them to you as another way to keep in touch on the management groups activities.

s.13,s.16

Hopefully this helps and please call me anytime if you'd like to discuss any of these items further.

Cheers

Subject: Nass Wildlife Committee and moose management

Hi Mark,

This email is to follow up my lengthy phone message that I just left on your voice mail. As I said in my message, I have been invited to attend a Gitanyow – BC Joint Resources Governance Forum this coming week. One of the areas for discussion will be on moose management and I am wondering if you can provide me with some background in terms of the operation of the Nass Wildlife Committee and what recommendations the committee has made to the Minister with respect to the provision 45 of the Wildlife and Migratory Birds chapter in the Nisga'a Final Agreement.

If there is an annual management plan for moose that you could share with me, that would be helpful as well.

Thanks, kindly

Hi Nedinska,

I got your voice message, but not your e-mail, so rather than wait for an e-mail, I thought I'd send you a couple of comments for your meeting with the Gitanyow tomorrow.

s.13,s.16

If you need any additional information, let me know. I hope your meeting with the Gitanyow goes well.
Mark

Wildlife Management

s.13,s.16

s.13.s.16 Through the Fiscal Financing Agreement, British Columbia provides \$20,000 annually to NLG for wildlife management. NLG has implemented a permit system to manage the harvest of designated species by Nisga'a citizens.

s.13,s.16

Both the Nass Wildlife Committee and British Columbia have identified the need for a comprehensive effort to define practical strategies to reverse the decline of Nass moose populations and re-establish population levels that would support a sustainable harvest for all parties **s.13 s**

s.13.s.16 that will:

- review the past and present state of moose population and management in the NWA
- attempt to identify causes of the decline and key factors now limiting the moose population
- gather community feedback, and
- recommend a course of action with the ultimate goal of increasing the moose population to a level that can support a sustainable harvest.

Subject: Follow up on Nisga'a Treaty Implementation Report 2012 - 13

Good morning Tony,

Bit of a follow up from an old issue. In the 2012-13 Nisga'a Annual Report (layout draft), you provided an update to the "Wildlife Management" paragraph:

Wildlife Management

s.13,s.16

s 13 s 16 Through the Fiscal Financing Agreement, British Columbia provides \$20,000 annually to NLG for wildlife management. NLG has implemented a permit system to manage the harvest of designated species by Nisga'a citizens.

In their approval process, NLG has made the following comment regarding one of your proposed changes to the layout draft:

s.16

s.13,s.14,s.16

Nedinska asked me to follow up with you on this, to clarify BC's position, in response to Nisga'a's concern.

s.13,s.16

Section 62 of the **Wildlife and Migratory Birds** Chapter (Ch 9) does state:

- 62.** If an annual management plan, or any amendment to an annual management plan, recommended by the Wildlife Committee or its members is consistent with this Agreement, the Minister will approve the annual management plan or the amendment.

s.13,s.16

Let me know what you think.

Robert.

Subject: RE: Nisga'a Final Agreement: 2011-12 Annual Report - wildlife management
Date: Friday, November 22, 2013 4:12:41 PM

Hi Robert,

Technically, no – the TAH was set in the 2009 Annual Management Plan and that plan is still the current plan. **s.13,s.16**
that have limited the Nisga'a allocation of moose to 25 bulls, which is below the level they are entitled to based on the 2009 AMP.

I'm not sure what you mean by the 2013-13 Nisga'a Annual Report. As mentioned above, the last Annual Management Plan was approved in 2009.

I don't believe there were any wildlife related activities to report between April 1, 2012 and March 31, 2013. We had Nass Wildlife Committee meetings in November 2011, and in May 2013, which fall outside of your reporting period.

I am sure there were activities related to fisheries management issues over your reporting period, and by copy of this I'll ask Jeff Lough or Dana Atagi to provide you with a summary.

I've added some additional comments to the text below. Thanks,
Mark

Subject: RE: Nisga'a Final Agreement: 2011-12 Annual Report - wildlife management

Hello Mark,

Robert MacKenzie calling from MARR, Implementation Unit.

Am following up on the conversation you had with Nedinska Donaldson on the "Wildlife Management" section of the 2011-12 Nisga'a Annual Report.

Thank you for your input on this section. Appreciate the concerns raised.

Was wanting to confirm one point in the section. Were there any changes to the total allowable harvest of moose in the reporting period (Apr 1 2011 to Mar 31 2012)?

We would like to correct that in the Report if it is an inaccurate statement.

Wildlife Management
s.13,s.16

British Columbia uses this information to establish allowable harvests and approve the annual Nass Wildlife Management Plan. (See above).Through the Fiscal Financing Agreement, British Columbia provides \$20,000 annually to NLG for wildlife management.

s.13,s.16

Finally, I have put out a request for information for the Nisga'a Annual Report for the **2012-13** reporting period. I did send the request to Dana but have not received any response.

Just wondering if you could confirm and provide details of any Nisga'a related activities, events or expenditures that your Branch may have had in the reporting period of April 1 2012 to March 31, 2013.

We are aiming to make the content of the Report to be as accurate and inclusive as possible.

Thank you.

Hi Robert, here's is a short paragraph describing the work that the Nisga'a are involved in for fiscal year 2012-2013. The funds for this work were contributed by BC (MoFLNRO) to the NLG in March 2012 (i.e. fiscal year 2011-2012). The implementation of the work is ongoing this fiscal year (2012-2013).

s.13,s.16,s.17

Please contact me directly if you have any further questions about this work.

Hi Mark,

Robert MacKenzie calling from the Implementation Branch of the Ministry of Aboriginal Relations and Reconciliation.

I am currently involved in obtaining information for the Nisga'a Final Agreement Implementation Annual Report for **2011/12**. The Annual Report is a tripartite document, with input from Canada, BC and the Nisga'a Nation.

Your name was provided by Vicki Marshall as a possible source of information for me.

Am looking to include the following passage into the Report:

s.13,s.16,s.17

I would like to **update** and **confirm** the highlighted amount for the **2011/12 reporting period**. I'd also be interested in hearing if there would be anything to report on this program from the BC perspective.

Not sure you can help, but any information in that regard, or any confirmation of the information as presented above, would be greatly appreciated.

Thank you.

To: [MacKenzie, Robert J ABR:EX](#)
Subject: Wildlife Committee Meeting minutes
Date: Wednesday, February 3, 2010 10:59:36 AM

Hi Robert

I am not sure if you can help me out or if I should be directing this question to someone else.

The Wildlife and Enforcement sections met with the Gitanyow on January 29, 2010 to discuss wildlife management issues and one of the requests from the Gitanyow was a copy of the October 19, 2009 Nass Wildlife Committee meeting minutes. **s.13,s.16**

s.13,s.16

It is my understanding that the Wildlife Committee, while specifically operating under the conditions of the Nisga'a Final agreement, is to function in an open and transparent manner. As such I assume copies of the minutes would be public record.

I am inclined to make a copy of the minutes available to the Gitanyow and inform the Nisga'a that we are doing so. **s.13.s.16**

s.13,s.16

If you are not the appropriate person to comment on this perhaps you could forward this to whomever is. I would appreciate some feedback.

Sincerely

George

I suggest you tinker with the MOT forms and submit those. Since you are representing the BCWF, not the government, I don't want it to look like you are using an official government process to claim your expenses, including I-Expense. Admittedly, it would be much easier if you could submit electronically.

Cheers,

Sent: Thursday, May 04, 2006 2:11 PM
Subject: Nass Wildlife Committee

Hi Dale

Nothing yet with regards to when the next Nass Wildlife Committee meeting is. Just wished to let you know that I have just emailed Ray Collingwood regarding his participation on the Committee.

For your Information

Under the terms of reference for the committee If a person no longer wishes to participate on the Wildlife Committee as a Provincial rep the he/she must give 60 days written notice the Province. The GOABC rep was appointed by the then Ministry of Aboriginal Affairs and any such notice should be forwarded through the now Ministry of Aboriginal Relations and Reconciliation (MARR). Mark Price would be the contact (250-356-1654).

As well, should the GOABC wish to replace their representative, the GOABC would have to forward names of candidates to the MARR for consideration and possible appointment.

I am not sure if you have seen the terms of reference for the GOABC and BCWF participation as provincial representatives on the Wildlife Committee. One of the terms is " The appointed Representatives or Appointed Alternate from each of the above Associations, as a provincial member, must represent the interests of the Province and will not sit on the Wildlife Committee as a representative of their respective Associations."

The committee is mandated to fulfill obligations set out in the Final Agreement. This means that the Wildlife committee is not the venue for focusing on championing the cause of an individual member of the association.

If you can not find a copy of the terms of reference in the GOABC files I have a copy that I could fax to you if you are interested.

Cheers

George

Subject: Re: Support to Nass Wildlife Committee

I recommend that you check the wording of the FFA. If the commitment was for the term of the FFA, then it has not expired because the FFA specifically provides for its continuation for 2 more years unless a further Ffa is signed. The only way our obligation does not continue is if it was for a specified 5 year term Lynn

Subject: Support to Nass Wildlife Committee

As you are aware, Schedule A of the Nisga'a Nation FFA commits BC to pay \$20,000 per year to Nisga'a to support the Nass Wildlife Committee. The cost has been split between MARR and MOE since the Effective Date of the Nisga'a FFA. This is normally the time of year we pay the Nisga'a **s.16,s.17**

However, our commitment under the FFA has now ended, as the payment for 2005/06 was the fifth and final payment.

On January 30th, Michael and I met with Nancy Wilkin and Al Martin of MOE. In our discussions, we touched on the issue of the Nass Wildlife Committee, **s.16,s.17**

s.16,s.17

s.13

s.13 I would like your approval to continue BC's funding, upon written confirmation from Nancy Wilkin that MOE will continue to fund for the life of the next Nisga'a FFA.

Michael or Lynn may have some comments too.

Thanks,

Mark A. Price, MA

Cc: Atagi, Dana ENV:EX
Subject: RE: Nisga'a Annual Wildlife Management Plan

Hi Mark

That's the problem. I do not know if anything was forwarded by the Nisga'a to the Minister's office and if so I do not know what. That has been one of my concerns. I find Region is actively involved in the development and comment of the plan but we seem to be out of the loop with regards to what is actually sent to the Ministers Office and finally approved. Somehow we are not on the cc list. Another of my frustrations has been that no one in the Ministers Office seems to be aware of the requirements of the FA. There is no specific contact person so it seems like the wheel is being reinvented annually.

So to be clear I am not in a position to find out if the plan has been approved or not. Perhaps a Victoria contact such as Chris Hamilton would be in a better position. Under the current process a copy of the approved plan does not reach regional files however if they did, Region would be in a much better position to track the status.

Cheers

George

Cc: Schultze, George WLAP:EX
Subject: RE: Nisga'a Wildlife Management Plan

I will defer to George for the final say on this matter however here is how we left this issue. The TAH designation and the Annual Management Plan are two separate issues.

- The Nass Wildlife Area TAH for 2005/2006 has been set and approved by the Minister on July 28, 2005. A copy was received by our office on August 8, 2005. This establishes annual harvest limits for designated wildlife species (grizzly bear, moose, and mountain goats) and the harvest of these animals is allocated amongst the Nisga'a and BC (resident hunters, non-resident hunters and other FNs).
- **s.13,s.16**

- We anticipate the fall meeting of the NWC to occur in November or early December when we would receive the 2005 AMP and then we (NWC) would submit it the Minister for approval. The AMP only pertains to the Nisga'a harvest of the designated wildlife species.

Subject: Travel Expenses for Nisga'a Wildlife Committee Travel

Larry Proteau, a BC Wildlife Federation member of the Nisga'a Wildlife Committee needs to have his travel expenses reimbursed by TNO, as BC appoints up to four members of the Committee, two of which represent outside groups. Larry works for Ministry of Transportation, but can't submit an I-expense claim because he is not a provincial public servant for the purposes of the committee.

Larry has submitted a mileage travel claim to me for payment. Can you tell me if I can leave it with one of you to expedite or is there someone else who needs to see it?

I would like to get this taken care of from TNO's end by the end of this week.

Thanks,

Maybe I got confused here - I think Philip said it should come from the implementation budget and Patrick agreed as long as there was room, but he did not think there would be room.

This committee used to be charged to the RAC budget, when it was in existence before. Why don't we just charge it in there - it has been underspent the last couple of years. I really don't think we should spend any more time on this.

Dana

Some time ago I talked to Derek and he agreed that MELP would contribute up to: **s 17** to help fund the Nish'ga Wildlife Committee. We went to TB for help with the Nish'ga implementation work, but were told "no", but we now have a legal commitment to make the agreement work. We are probably getting off lightly if we can do it for **s 17**

I told MAA that we would JV them the money and the above request is for some action on this. I would appreciate it if you could action this. It is from the corporate account.

I have cc'd this to Derek so he can confirm the agreement.

Subject: RE: Nass Wildlife Committee Ministerial Order Draft

Hi Mark

I am not sure when the alternate for the section head of Fish and wildlife was changed to the Ecosystem biologist?

It was my understanding that the Provincial reps were:

Dana Atagi, Section head , Fish and Wildlife Science and Allocation, Environmental Stewardship Division, Skeena Region with Mark Williams, Wildlife Biologist, Fish and Wildlife Science and Allocation, Environmental Stewardship Division, Skeena Region as his alternate.

George Schultze, Wildlife Officer, Fish and Wildlife Science and Allocation, Environmental Stewardship Division, Skeena Region with Rick Marshall, Wildlife Biologist, Fish and Wildlife Science and Allocation, Environmental Stewardship Division, Skeena Region as his alternate.

As far as I know the rate is still \$ 17

Cheers

George

To: Atagi, Dana WLAP:EX; Schultze, George WLAP:EX
Subject: Nass Wildlife Committee Ministerial Order Draft

Dana and George:

BC needs to re-draft a Ministerial Order replacing Brian Patrick on the Nass Wildlife Committee. We need to ensure this is done before the end of the first week in January, as the next committee meeting is then.

Since the order needs to reflect the most current position titles of provincial government members of the committee, can you please review the attached draft MO and let me know if the WLAP position titles are correct? Also, do you know if the \$ 17 per day rate is correct?

Ingrid and Bruce:

Can one of you please advise what the process is for sending a Ministerial Order up through the system after it has been signed off by the Minister or the Deputy? Am I correct that it goes to one of you, or are there other steps to take?

Thanks,

I would appreciate you reviewing the attached draft Ministerial Order for the appointment of a provincial member (of the BCWF) to the Nass Wildlife Committee (Nisga'a). We need to have this appointment made before the end of the month, so your quick review is appreciated. You will note we are still determining whether there will be an alternate for the new member.

Subject: Nisga'a Wildlife Committee Appointment - Ministerial Order

Mike:

BC needs to appoint a new provincial member to the Nisga'a Wildlife Committee via Ministerial Order. Under the Interpretation Act, Lorne can sign on behalf of the Minister if he chooses (Philip Steenkamp signed the MO last time in fact). Do you have a sense, or can you seek Lorne's advice, as to whether the Minister will want to sign the Order or whether it is sufficient to have Lorne do it? We will draft a BN on the issue, including a bio of the appointee (Larry Proteau), to provide some background.

Thanks,

Price, Mark A ABR:EX

From: Beak, Lynn TNO:EX
Sent: Monday, November 29, 2004 4:37 PM
To: Schultze, George WLAP:EX; Price, Mark A TNO:EX
Subject: RE: BC Wildlife Federation

Importance: High

Well, I learn something new each day.

George Schultze of Terrace WLAP just returned my call about another issue and mentioned that the Wildlife Committee meeting has been postponed until January 6. I told him the name of the proposed BCFW member to the committee - Larry Proteau and George told me that we need to determine whether the person is acceptable before we appoint them!

Luckily, George then volunteered and said he will check around Terrace for us as to whether this would be a reasonable representative for BC to appoint, and said that the previous BCFW representative had been constructive.

So we should prepare the order ASAP so that when George responds we can get it to Lorne quickly so that the appointment is in place for the January meeting.

Thanks George for this assistance! We look forward to hearing if there are any issues.

FYI Mark- TNO also pays the costs for the BCFW and BC Guide Outfitters (BCGO) representatives to attend, so costs should be minimal **s.22**

The BCGO rep remains Ray Collingwood, but George indicated that the Nisga'a will have some changes post-election. The two main Nisga'a members will remain - Collier Kazak (Nisga'a Director of Lands and Resources) and Harry Nyce (Director of Fisheries) but they will be bringing some new people too.

George and Dana Hayden remain BC's representatives so there will be solid continuity on the committee.
Thanks

We need to update the ministerial order for the BCTC rep on the Nisga'a wildlife cte, and also complete the review of the other ctes to see if the provincial appointees are correct. I recall that there is at least one out of date appointment to the Nisga'a wildlife cte? Julie can brief you as she was attending this issue.

Thanks

Subject: RE: BCWF representative on the Nass Wildlife Committee

Hi Lynn,

I have attempted to contact Brian Patrick to discuss BC Wildlife Federation's representation on the Nisga'a Wildlife Committee, but have not been successful. However, a few weeks ago I contacted Bill Ottway, one of the Federation's First Nations liaisons, and requested that he forward the name of someone who could take Brian's place. I spoke with Bill this morning and he stated that he posed the request during a meeting of members in the Northwest yesterday, and believes he has an individual who will be able to take Brian's place. I am to contact Bill next week for verification and will forward the information on to you and George.

Hi Lynn

I am sending out a reminder to the members of the Nass Wildlife Committee regarding our next meeting which had been tentatively scheduled for November 16th, 2004 in New Aiyansh.

Brian Patrick has resigned as the BCWF rep and I was wondering if a new representative has been chosen who I could include on my distribution list??

Cheers
