### May 30<sup>th</sup> Workshop w/line agencies and KM

Reviewed status of permit applications, KM record of consultation. Good information exchange.

### Current Process w/KM

Direction is for staff to proceed as currently directed w/permit applications and referrals to First Nations; Cognizant, however that if an incoming Government comes with a different perspective – adjustments to current approach may be needed.

### First Nation meetings/correspondence

For now – response letters to Musqueam, Tsleil Waututh, and request to meet w/NNTC chiefs is on hold (as directed by MNGD).

### EAO Update

Line agencies have commented on various management plans that KM had to prepare.

There is a work-camp plan ready for review.

We'll look closely at this proposed plan; link in with May Mah Paulson's team – given past concerns raised by aboriginal communities with respect to industrial work camps.

### Sharepoint/Documents

Will be operational in next week – will include reports and records on First Nations consultation status and other materials.

If folks are interested in particular materials – please let Andrew or myself know and we'll circulate pieces as needed. Access to the site will be limited.

June 14 – internal Govt permitting coordination meeting - Andrew will attend on behalf of MARR.

Hi folks, a few items from the latest discussion.

Please follow up with me directly if you have questions/comments.

I note that some folks had requested a meeting with myself and the regional offices to discuss this file and MARR roles/responsibilities. I have been a bit swamped but will convene that discussion shortly. Appreciate everyone's patience.

### **Permitting:**

Planning a Webinar/Document session on the KM plan for applications, dates and how to manage and respond to them. MNGD will organize. MNGD will meet again with KM to flag what issues will prompt delays in decision making and ensure that KM provides us with all the required information if they expect us to make timely decisions.

### **First Nations/Letters:**

ADMs requested that response letters go out next week.

Approach was delegation of the administrative aspects to KM – agencies review and see if its adequate – and then go out. Also though clear that if First Nations initiated and wanted to engage, we would respond. Experience is that we are getting more First Nation initiations than permitting agencies were expecting.

### **FLNRO workshop:**

To be held in Vancouver (May 11) – KM request to walk through their construction schedules with FLNRO, OGC, MNGD.

NNTC Meeting – delayed until June 7.
