COLLABORATIVE MANAGEMENT AGREEMENT

This Agreement is dated for reference _____, 2017

BETWEEN:

Her Majesty the Queen in Right of the Province of British Columbia, as represented
by the Minister of Forests, Lands and Natural Resource Operations

("British Columbia")

AND:

Musqueam Indian Band, on behalf of itself and its Members,
as represented by the Chief and council

("Musqueam")

(collectively, the "Parties")

WHEREAS:

- A. The Parties agreed upon terms of reference in February 2016, and this Agreement is intended to satisfy the Parties' obligations under those terms of reference.
- B. Musqueam have lived and fished on the Fraser River estuary since time immemorial and Musqueam maintain that the Fraser River is an integral and central defining feature of their society, environment, culture and economy.
- C. Musqueam assert Aboriginal rights and title to the territory described in the Statement of Intent filed with the BC Treaty Commission on December 15, 1993.
- D. In the *Sparrow* decision, the Supreme Court of Canada held that the Musqueam have an Aboriginal right to fish for food and social and ceremonial purposes within part of the Fraser River, recognized as an existing Aboriginal right protected by section 35 of the *Constitution Act 1982*, and that any infringement of that right requires justification, as set out in that judgment. The Court stated that "[t]he evidence reveals that the Musqueam have lived in the area as an organized society long before the coming of European settlers, and that the taking of salmon was an integral part of their lives and remains so to this day" and that "the anthropological evidence ... suggests that, for the Musqueam, the salmon fishery has always constituted an integral part of their distinctive culture."
- E. The reconciliation of the prior presence of Aboriginal peoples and the assertion of sovereignty by the Crown is of significant social and economic importance to British Columbia and to the Musqueam. Reconciliation is best achieved through negotiation and agreement, rather than through litigation or conflict.

- F. Current land tenures on the Fraser River may provide significant social, environmental and economic value to all British Columbians.
- G. The Parties have different perspectives regarding:
 - a. the scope of Musqueam's Aboriginal Right to fish as described in *Sparrow*; and
 - b. the application of *Sparrow* in the context of consultation.
- H. Despite the different perspectives described above, the Parties share the goal of establishing relationships and processes that reduce conflict, foster mutual understanding and respect, and promote collaboration.

NOW THEREFORE in consideration of the exchange of mutual promises and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties agree as follows:
