Notes:

1. Data as of 2 Nov 2020.
2. This table does not include school age and preschool spaces or facilities that are only licensed for those care types. Preschool spaces are not eligible for CCFRI and school age spaces are only eligible for children 5 and under. Facilities with school age spaces are able to opt-in to the CCFRI program if they have eligible children but we expect only a small percentage of their spaces would qualify to receive the CCFRI.
